## Merchandising Plan To Build Sales

Pictured above is the effective counter display of "Green Spot" garden hose equipment being furnished to hardware wholesalers and retailers in the new merchandising program set up by the Advertising Department and the Merchandise Sales Division. The "Quick Connector" and "Fan Spray" featured items are conveniently mounted on cards so customers can see and handle them.

Competition, today, is indeed intense and all manufacturers must devise new and different means of keeping their products in the public eye. Scovill-made products are, without question, of the best quality and are found in all parts of the world. However, more sales are needed to build production requirements. In order to accomplish this, a new merchandising program is at present being launched in connection with Scovill-made garden hose equipment.

During the war years, plans were started to more widely advertise and promote these products but it was November, 1946, before conditions permitted taking action.

After a preliminary market research by an outside agency, our Merchandise Sales Division and the Advertising Department conducted an investigation of their own among

## B. Bronson In Charge Of Administration

Mr. Bennet Bronson has been elected Vice-President in Charge of Administration of the Company, effective September 26, 1947, it was announced by Executive Vice-President William M. Goss. He will be located in the Main Plant.

Mr. Bronson has been with the Oakville Company since 1909, was elected Assistant Treasurer in 1911, Vice-President and Treasurer in 1920, President and Treasurer in 1923.

He was elected a Vice-President of the Company when Scovill took over the Oakville Company in 1923. With the exception of the World War II period, when he served as a Colonel in the Quartermaster Corps, Mr. Bronson has been General Manager of the Oakville Division.

hardware wholesalers and retailers. Their object was to pick up new ideas, to see if previously suggested ideas were still right, and to see what the retailer felt he needed to increase sales of such merchandise.

It was discovered that the retailer desired to have garden hose equipment packaged in boxes which carried full information on the outside and were neat and striking enough to display the product on the counter without removal from the box.

(Continued on Page 2, Col. 3)

## Five Retire With 157 Years Service

Five Scovill employees who, between them, have completed 157 years of service in the Company, have been placed on the Special Retirement List.

Making up this quintet are John J. Bergin, who has completed 30 years of service; Charles A. Gleason, 27 years; Russell Hickman, 29 years; George A. Hubbard, 44 years; and Sirgay Zaplisney, 27 years' service.

To these men — their many friends in Scovill and in the community extend sincere wishes for the best of health and happiness in the years of their retirement.

JOHN J. BERGIN, Plant Protection Department, has been with Scovill since November 10, 1917. Mr. Bergin joined the Guard Forces at that time under the late Capt. Wolff and succeeded to Chief of Guards on the death of Capt. Wolff. He has, especially during war years, done a fine job in keeping Scovill well protected. His retirement is as of October 1st.

CHARLES A. GLEASON, Mill Technical Service and Development Division of Mill Sales, has been placed on the Special Retirement List as of

(Continued on Page 8, Col. 1)

## The Cost Of Living

The cost of food is a major part of the cost of living. Everyone, including Government officials, is talking about it. Everyone says something should be done about it.

Back in the 1930's when the farmers were pretty badly off, the Government started to support the price of various farm products. The strange part of it is, the Government is still doing so. The Department of Agriculture is using money taxed from, we, the people, to keep up the price of some farm products by one means or another. In other words, some money we have paid ourselves is being used to raise our cost of living. Remember how potatoes purchased by the Government went to waste last year?

The cost of living is taking a larger slice of our week's pay than it used to. So we go without some other thing that we want. This has the effect of reducing the demand for manufactured goods and reducing the number of factory jobs.

Perhaps it would make sense to stop using our tax money to increase our cost of living? Perhaps the price of Government-supported farm products would seek a lower level if Government support were withdrawn from them? And perhaps this would reduce somewhat the cost of living? We could give it a try!

## Community Chest Drive Starts October 13

The Community Chest Campaign this year is to be conducted under a new plan. Recommended by the Industrial Campaign Committee, and receiving the approval of approximately twelve of the largest employers in the city, the drive will run from Oct. 13th thru Oct. 25th.

Under the new plan, each employee will be asked to sign a weekly deduction card which will remain in effect from year to year unless revoked by the individual. The amount to be deducted will approximate three-tenths of one percent on each week's gross earnings for employees earning up to \$70.00 per week. The percentage

would increase slightly for employees in higher salary groups.

How does it work? Taking an average weekly pay of \$40.00, the deduction of 3/10 of one per cent would be twelve cents. This amount would be deducted from the employee's pay each week, fifty weeks a year, until he cancels it.

The campaign will be conducted in each department by the foreman and a Community Chest Drive Chairman he will select. The foreman and the Drive Chairman will select the solicitors for their department. These solicitors will contact each room member.

### Burnishers 100%

Two weeks before the drive opened, employees in the Burnishing Department voluntarily pledged 100% participation in the Campaign, subscribing at least the minimum amount.

### Scovill Offers Prizes

The Scovill Management has appropriated \$1500 toward the purchase of U. S. Savings Bonds to be given as prizes in a drawing of all employees subscribing the minimum amount through Payroll Deduction.

All prizes are in U. S. Savings Bonds—amounts stated are maturity values.

#### 1st Prize Group

All employees signing up for the minimum amount will receive a white ticket for a chance on ten \$50. Savings Bonds.

#### 2nd Prize Group

In departments having 90% to 100% employee participation, each employee will receive a red ticket, giving him a chance to win one of eleven prizes:—

1st prize—\$500.00; 2nd Prize—\$250.00; 3rd Prize—\$150.00; four prizes of \$100.00 each; and four prizes of \$50.00 each—all in Savings Bonds.

### Ask Us Another

Answers to questions submitted by employees on the Taft-Hartley Act are found on Page 2.

All questions submitted must be in writing and must bear the employee's signature. Names will not be published. Address all questions to THE BULLETIN.

### Message On Wings

An early bird, this pigeon was found in the Dry Rolling Room a couple of weeks ago. Heralding the opening of the Drive, a message tied to its leg read, "All-out Scovill support needed to put Community Chest over the top — let's go!"

# The Taft-Hartley Act

## Questions and Answers

**Question:**—I have heard that the Taft-Hartley Act hinders collective bargaining. Is this true?

**Answer:**—The Act encourages the practice and procedure of collective bargaining. The Act makes it an unfair labor practice if the employer refuses to bargain collectively with the legally chosen representative of his employees and, equally, the Act makes it an unfair labor practice if the legally chosen representative of the employees of an employer refuses to bargain collectively with that employer. The Act goes further and sets up minimum conditions which both employer and union must meet if they are bargaining in good faith.

The above answer is written with consideration being given to Section 1 and Section 8 subsections (A) (5), (b) (3), and (d) of the Act.

*(Comment)* Before the Taft-Hartley Act, the Wagner Act required only the employer to bargain collectively. The union was not required to bargain. There could be no true collective bargaining when there was not equal obligation to bargain on the part of both parties.

**Question:**—Can Government employees strike?

**Answer:**—The Taft - Hartley Act makes it unlawful for employees of the United States Government or any agency thereof to strike. Section 305 of the Act states: "It shall be unlawful for any individual employed by the United States or any agency thereof including wholly owned Government corporations to participate in any strike. Any individual employed by the United States or by any such agency who strikes shall be discharged immediately from his employment, and shall forfeit his civil service status, if any, and shall not be eligible for

reemployment for three years by the United States or any such agency."

**Question:**—Is check-off of union dues stopped by the Taft-Hartley Act?

**Answer:**—No, the Act does not stop union dues checkoff. However, the Act does require that the employer must have a written authorization from an employee before dues are checked off from the pay of that employee. Under the Act a check-off authorization can be irrevocable for a period of no more than one year. This provision of the Act does not apply to any contract that was in effect on June 23, 1947, until it expires or until July 1, 1948, whichever occurs first. Any persons who violate the above provisions of the Act are subject to a fine of up to \$10,000.00 or to imprisonment for not more than one year, or both.

The above answer is taken from Section 302—subsections (c) (4), (d) and (f) of the Taft-Hartley Act.

*(Comment)* It is because of the above provisions that the dues deduction authorizations signed by Main Plant and Waterville Division employees before midnight August 1, 1947, are now revocable at the written request of the employee. In a recent survey by a national research organization 74% of all employees polled voted to allow checkoff only with the workers' consent.

**Question:**—Does the Taft-Hartley Act require unions to make financial reports?

**Answer:**—Yes—Unions who qualify to use the procedures of the National Labor Relations Board must file with the Secretary of Labor a report showing all income and its source, all expenditures and their purpose, and total assets and liabilities. Such report must also go to all members of the union.

Section 9 subsection (f) (6) of the Taft-Hartley Act covers the above.

*(Comment)* 86 out of every 100 workers questioned by the Opinion Research Corporation recently were in favor of making unions legally responsible to furnish such reports.

# Blight Misses A Sturdy Chestnut

The above chestnut burr, along with seventeen others, was discovered by Ken Staib, Purchasing, on the 12-foot chestnut tree in his yard at home. The tree is apparently defying the blight which has been killing off all the chestnuts in the vicinity since 1912. Formerly very common in this section of the country, the chestnut tree is now a rare sight in New England.

## Word Puzzle --- Number 5

By Pat O'Connell

Numbered 1 to 10 below are given 10 definitions of 10 words in common use.

The square contains all of the letters of these words. It contains no other letters.

The first letter of each word is indicated in the square by the same number given to the definition.

Subsequent letters can be in any one of eight directions. as:—

No letters can be jumped.

An illustration is given for the first word. What are the other 9 words?

## Oh, Girlie, Don't Do That!

Why, oh why, do people take such risks? Walking in front of or behind a bus immediately after alighting is one of the most certain ways to invite an accident, yet it happens almost every day. Be safe — form right habits and eliminate walking errors. Look carefully all ways before stepping into the street, be sure your view (or that of drivers) is clear.

## Merchandising Plan To Build Sales

(Continued from Page 1, Col. 2)

Such boxes were designed. These boxes, metal-edged, were painted on the outside with a bold design and had full information printed in a sharp contrasting color combination. The inside was painted green — in contrast to the brass product that it carried.

Garden hose equipment was formerly manufactured by Scovill under the name "Sprinkle Mist." As this name seemed to indicate one particular type of garden hose equipment and not the complete line, it was decided to change the name to "Green Spot" — for the full line.

In order to adequately present these products and the merchandising story to hardware dealers, it was decided to mail to all wholesalers and almost 30,000 retailers:—

(1) a giant mailing card, calling attention to the line of "Green Spot";

(2) a catalogue, presenting the merchandise and offering sales helps to the dealer in making up his display; (3) a folder, calling retailers' attention to display cards and newspaper mat service which are available to them for local advertising.

In addition to the direct-by-mail activities, an advertising campaign will be carried on in the two leading hardware magazines — "Hardware Age" and "Hardware Retailer."

Probably the most important aspect of launching this complete new merchandising program revolved around telling the complete "Green Spot" garden hose equipment story to the Merchandise Division field sales organizations and in a series of sales meetings conducted in Kansas City, Chicago and Washington.

The response that the Merchandise Division sales staff accorded this whole program indicates that this new program is off to a flying start and it is estimated this will be reflected in additional sales.

## Make Use Of Your Credit Union

There are many of us who have always intended to start saving regularly but who for one reason or another never did get around to it. Some of us found the secret of economic health, "To spend what is left after saving, not saving what is left after spending" by the payroll deduction plan when we were purchasing Government Bonds. Your Credit Union offers you the same opportunity to save any amounts every payday.

Taken together, the regular savings of Credit Union members have become an important fund, used to ease the financial worries of members who are "caught short" and who can borrow at the lowest possible rate of interest. Join your Credit Union now use it to buy yourself the beginning of an excellent habit — of saving part of your money each payday and building up a fund to fall back on.

## Machine Tool News

By Phil Levesque

This is your reporter PHIL bringing to you, after a long absence, news from Department 360.

After a very satisfactory softball season, PETE KELLY, our able manager, has nothing to say only that "our team was fighting all the way!" Which way, PETE?

A lot of changes have occurred in the last few months. HANK was presented a baby boy, BILL PHELAN a baby boy and JIMMY a baby boy. Instructions on the care of babies will be held for all married men after hours.

Now that the softball is put away and baseball gone, bowling has come up and we need a few more fellows to make the teams balanced. We have prizes for the best, what say?

## Rod Mill Topics

By Al

Old age must be creeping up on TOMMY RYEAL for he has been seen limping around the Mill after a night's game of bowling.

CECILIA PALDAUF must be anticipating a visit from old Jack Frost — she was seen in a department store stocking up on warmer wearing apparel.

CHARLIE VAUGHAN is a shrewd business man especially when it comes to exchanging bets. He sometimes loses and sometimes wins, but the fact is that he even wins when he loses!

Sage DAVE BARTOLINI says, "Never cross your bridges until you come to them," but we've noticed that he doesn't wait till he comes to them as one leap does the trick at the brink of the excavation in the yard.

We're all sorry to hear that JIM FRYER, PETE CAREY and FRANK KLOBEDANZ are out ill. Here's hoping they will be well soon and back at work.

## Within Our Gates

By Jack Driscoll

Deepest sympathy goes to CHARLIE TAYLOR on the recent passing of his mother.

During the dark days of rationing, GEORGE BUCKLEY of the East Mill refused to let his kid recite "Mary had a little lamb." He was afraid the O.P.A. would ask for points.

BILL O'NEIL of the Store House was asked if he could play a piano and he replied, "I just play for my own amusement."

ANDY ROGERS visited Detroit and was asked how he'd like to have Lake Michigan for a swimming pool. ANDY replied, "It has no diving board."

JOE DEVINE's radio busted last week and he sent it to be fixed. Meanwhile he kept holding a blotter to his ear. He claims he wanted to hear the Ink Spots.

JENNIE TRUNCALE of Press No. 1 and hubby have taken in the world series. Hope they enjoyed it.

## John Copeland For Eugene Lynch

Eugene Lynch

John D. Copeland

We humbly apologize. In our September 15th issue, we carried the service award story of Eugene Lynch (Waterville Division) together with a picture which we, erroneously, claimed to be Mr. Lynch. The picture was actually of Mr. John Copeland (also of Waterville) who received his gold service pin on September 8. Above, we correctly identify the two men. Mr. Copeland's service story will be found elsewhere on this page.

## Twenty-Five Year Pins Presented To Seven Employees

William Albon

Holder of a continuous Scovill service record of 25 years as of October 2nd is WILLIAM ALBON of the Waterville Division.

Born in Bedfordshire, England, Bill came to this country when twenty-four years old, settled in Waterbury, and started working for the Company in 1922 from which year his continuous service record runs. Bill has been employed as an electrician in the Waterville Maintenance Department for the full twenty-five years he has served the Company.

Married, Mr. Albon is the father of four—two sons and two daughters, and is also a grandfather four times over. As for out-of-work interests, Bill enjoys playing cards, gardening at home, and attending baseball games when he gets the chance.

Frank Shanahan

Celebrating the completion of twenty-five years of continuous Scovill service this month is FRANK SHANAHAN, Foreman of the Connector Room, who was to receive his pin on October 3.

Starting his Scovill career in 1922, Frank first worked in the Tool Room under Mr. Bartsch, later in Press No. 2 and in 1939 was made the Connector Room Foreman. A member of the Foreman's Association, Mr. Shanahan was born and raised in this city, has raised two children here — Mary, who works in the Cost Office, and "Sonny" now in his senior year at Crosby.

The owner of a summer home in Wolcott, Frank makes a hobby of keeping it in good condition, while enjoying swimming and other activities made possible by the proximity of Cedar Pond to his home. Frank also classifies himself as a ball fan.

Paolo Santarsiero

PAOLO SANTARSIERO, of the North Mill Finishing Division, came to the United States from his native land, Italy, in 1920, settled in Waterbury and was hired by Scovill that same year in the Tube Mill. Leaving the employ of the Company for two years, he returned in 1922 and, the holder of a continuous service record since that year, was scheduled to receive his pin marking 25 years of service on September 26.

Working as a toolsetter and slitting machine operator since June of this year, Paolo, described as a very conscientious worker by his foreman, Alfred Smith, enjoys working for Scovill. He has no hobbies, but his family of three children, all of school age, keeps him and his wife busy.

Anna Sciarra

ANNA SCIARRA of the Closing Room completed 25 years of continuous service with Scovill on Saturday, September 20, and was scheduled to receive her gold pin on that day.

Born in Naples, Italy, Anna came to live in America in 1920, coming to work for the Company two years later in 1922. Now working as a dial press operator, Anna, who formerly worked in the Lacquer Room, claims to enjoy her Scovill work.

With no relatives in Italy, Anna has never made any plans to return. She is now living with a cousin on Nelson Avenue and, although she has no hobbies, keeps busy enough with housework when at home.

William Turner

Arriving in Waterbury from his native land, Scotland, in 1920, WILLIAM TURNER of the Paint Shop came to work for Scovill that same year, joining his brothers who had come to this city previously and who were already Scovill employees.

Mr. Turner, who received his 25-year continuous service pin on October 2nd, has been an employee of the Paint Shop continuously during his years with the Company and claims to enjoy his work here. A married man, Mr. Turner has two daughters, Agnes—now working in Manufacturing Stores Records, and Jeanie. The Turners live on Huntington Place where they own their own home.

## Five Receive Ten-Year Silver Service Pins

The following employees have been awarded the ten-year silver pin for continuous Scovill service:

Joseph Tuckus, Casting, as of September 17; Gino J. DiNicola, Aluminum Finish, as of September 19; Victor Dangel, Japan, as of September 22; John Simons, Repair, as of October 2; William L. Ross, Electrical, as of October 4.

Nicola Rossi

With Scovill for 25 consecutive years is NICOLA ROSSI of the Casting Shop who was scheduled to receive his gold pin on September 21.

An employee of the Casting Shop since 1922, Nick has been a steady and conscientious worker through the years and is very rarely late for work according to his foreman, Terrence Dowling. Nick came to this country from Italy 37 years ago, has since married and raised a family of eleven children. One of his sons, Henry, is now in Germany with the Army.

Interested in gardening, Nick spends a lot of his time in his garden at home and has raised some prize vegetables in the past. He owns his own home on Scott Road, Reidville.

John D. Copeland

JOHN D. COPELAND, Turbine Engineer in the Engineering Department of the Waterville Division, has been a Company employee for 25 years, as of September 18, and has received his 25-year gold pin in honor of the occasion.

A Main Plant employee from 1922 until 1926, John was transferred to the Waterville Division in that year and has worked there ever since. The father of three children, and grandfather of six, John has made his home on Robbins Street. Favorite pastimes for Mr. Copeland are baseball, attending fairs and just riding around in his car.

## Briefs From Our Retired Folks

By George Hubbard

Retired over twenty years ago, WALTER BARBER has a farm in West Cheshire where he still maintains a small garden along with a cow and some chickens which he cares for himself. Now in his 83rd year, Walter feels he cannot accomplish as much as he used to, but his health is good and he appreciates calls by any of his former associates at Scovill.

ADDISON ASHBORN, now living in Florida, writes that he used to live out where the Woodtick reservoir is located and that the building which was the first club house at Woodtick, was his former home. Expecting to be able to visit there sometime soon, he is looking forward to seeing the changes that have been made.

Now to tell you about one who is to retire the week ending October 4. I have had twenty-five years of contact with the retired folks and many pleasant memories. Whatever pleasure they received in my visits was overshadowed by the pleasure I received. Now I am joining their ranks and hope I will have the pleasure of a visit by some representative of the Company for I will always be interested in the doings of Scovill.

## National Fire Prevention Week

By proclamation of President Truman, October 5 to 11 has been designated as Fire Prevention Week and every citizen is being called upon to join in the annual crusade against fire.

Every day should be Fire Prevention Day, but each year, a week is set aside in which to focus attention on the careless habits which take such a high toll of life and property and to rid our homes and community of the hazards which account for the majority of fires. The week chosen, annually, is that in which the date October 9th occurs. That is the anniversary of the great Chicago Fire of 1871.

According to the statistics of the National Fire Protection Association, about 11,000 Americans die each year because they are careless with fire. With the feeling of "It can't happen to me," they smoke in bed, clean clothes at home with gasoline, fail to replace frayed electric cords, try to repair wiring systems instead of calling in a professional electrician, and have other careless habits.

Ninety percent of all fires are preventable. With the application of care and common sense, most of these fires can be avoided.

In the home — don't be an amateur "fixit." Electricity, if used and maintained properly, is one of the safest and most efficient light, heat and power sources known. Electric irons left connected cause over a third of all fires attributed to electric wiring and equipment. If the wiring system of the house is to be extended, call a professional electrician and have the job done right. The fuse is the "safety valve" of the house wiring system. Replace "blown" fuses with new ones. Using pennies or pieces of wire instead of new fuses invites fire.

Know what to do in case of fire. If fire should break out, unless it can be immediately put out, call the fire department. Learn the location of the nearest fire alarm box and the method of sending an alarm from the box. Know the fire department telephone number. If there is no nearby fire alarm box, use the telephone but try to send someone to pull the nearest box, anyway. Fire may have burned out telephone wires or the location of the fire may be inaccurately given.

Keep on the alert for fire hazards — and remove them! Make every week "Fire Prevention Week."

### Sidella Twins

Pictured above are Victoria and Carmella Sidella, twin daughters of Walter Sidella of the Waterville Division. They will be a year old on the 27th.

### Wanted - 32 Ex-Scovillites

8 U.S. Savings Bonds, 24 Bond Balances Unclaimed

Information is desired by the Central Time Office concerning the present addresses of the former Scovill employees listed below.

The Central Time Office is holding eight U. S. Savings Bonds purchased through the Scovill Payroll Deduction Plan and also bond balances due to twenty-four former employees. As the Payroll Deduction Plan for the purchase of U. S. Savings Bonds has stopped in Scovill, the Central Time Office wishes to close all accounts.

Waterbury . . . Jean Lawrence, 581 1/2 Central Ave., Waterbury . . . Leaton J. Leavitt, 54 Spencer Ave., Waterbury . . . Willie Livingston, 46 Orange St., Waterbury . . . Arlene O'Boy, 46 Jewellery St., Waterbury . . . James Philpot, 203 Garden Circle, Waterbury . . . Jesse Reed, 119 Dixwell Ave., New Haven . . . Jacob B. Sims, 28 North Main St., Waterbury . . . Frank Stebbins, 230 Meriden Road, Waterbury . . . Willie M. Vaughan, 111 Brodley St., New Haven, Conn.

#### Unclaimed Bonds

Owners' names and the names of beneficiary or co-owner are listed. Napoleon J. Montambault . . . Albert Gomes, p.o.d. Mrs. Benvirida Gomes . . . Arnaldo Brighenty, p.o.d. Mrs. Ida Brighenty . . . Samuel Venio . . . Miss Mary H. Huntley or Mrs. Charlie Huntley . . . Mrs. Natalie Williams or Miss Marion Collins . . . Richmond D. Brothers or Mrs. Louella Brothers . . . Michael J. Heaphy.

If these owners are not located, their unclaimed bond balances will be turned over to the American Red Cross as set up in the provisions of the Plan and agreed to by all employees subscribing to the Plan.

#### Unclaimed Bond Balances

The names of the twenty-four former employees who have balances to their credit are listed with address as known at time of termination.

Manuel Aquiar, 43 Union St., Waterbury . . . Ernestine T. Avery, 136 South Main St., Waterbury . . . Valma Ballard, 58 Mill St., Waterbury . . . Fred C. Bradbury, 36 State St., Waterbury . . . Richmond D. Brothers, 10 Wood St., Waterbury . . . Anna H. Collette, 33 Mitchell Ave., Waterbury . . . Michael Craven, 585 Sylvan Ave., Waterbury . . . Leo W. Jay Godette, 949 Pearl Lake Rd, Waterbury . . . Lillian Golumbaski, 296 North Main St., Waterbury . . . Odis L. Hathaway, 162 Bishop St., Waterbury . . . Mary E. Johnson, 60 Bonair Ave., Waterbury . . . Kenneth K. Knight, 36 State St.,

### Stamp Exhibitor

Joseph Honyotski, above, showed his collection of 1st day and 1st flight covers at the Scovill Stamp Club meeting held on September 10. This meeting will be followed by another on October 8, at 8 P. M. The meetings are held at Spencer block.

## Donald MacIntosh SERA President

Donald MacIntosh, West Machine Room, was elected President of the SERA for the coming year on receiving 1579 votes out of 4527 cast in the plant-wide election on September 9th. Erving Honyotski, X-Rod Mill, received 1442 votes and Chris Poulsen, B & F Sales, received 1370 votes in their bid for the Presidency.

Jean Ostroski was elected Vice-President with 2666 votes, Jack Vitarelli, Plating, receiving 1535 votes.

Frances Shugdinis and Ruth Osborne were unopposed in their bid for Secretary and Treasurer respectively.

The fourteen candidates receiving the highest number of votes and elected to serve on the Board of Directors are:—Joseph Begnal, West Machine, 2987; Charles Conner, Millwrights, 2817; Theresa Griffin, Central Time, 2652; Everett Murphy, East Mill, 2613; James Crowe, Mfg. Eyelet, 2481; James Coffey, Planning, 2452; James Nolan, X-Rod Mill, 2424; Earl Holihan, Button Tool, 2390; Irving Fagan, Assembling, 2356; Margaret Conway, ASMD, 2302; Margaret Sheehan, ASM Tool, 2215; Chet Malon, West Machine, 2084; James Gill, West Machine, 2002; Charles Marcellus, Class 32, 1973.

The next five candidates receiving the next highest votes, electing them to serve as alternates on the Board are:—Charles Synnot, Casting, 1955; Andrew Minicucci, East Mill, 1796; Charles Tully, Tube Mill, 1735; Edward Gilbert, North Mill, 1698; William Kulmann, Button Tool, 1500.

## Girls' Club News

By Dot Espelin  
Wedding Bells

Mae Broderick, Purchasing, is now Mrs. John Harty. The big event took place on September 13th and the couple flew to Miami, Florida, for their honeymoon.

Charlotte Anderson, Addressograph, became Mrs. Joseph Olson on September 20. Juanita Addessio was her maid-of-honor and Arline Bauder was soloist.

Ruth Ann Casey, Central Time Office, also chose the 20th as her big day when she changed her name to Mrs. Augustine Sillery.

Mary Longo, Mailing, is now a Mrs., too. Mary and Thomas DeLeo became one on September 27th.

### Engagements

Shirley Ehrhardt, Class No. 96, and Andrew Lund are making plans for November 8th when they will become Mr. and Mrs.

### Birthday Greetings

Belated birthday greetings to Mary Egan who celebrated on the 1st—Betty Affeldt on the 2nd — Irene Landry and Ruth Truelove on the 5th — Sara Fitzpatrick on the 6th.

### Odds And Ends

Trudy Moisan Theriault, formerly of Mill Production, and Jeannette Brodeur Frageau, formerly of Button and Fastener Production, joined the ranks of mamas when they presented their hubbies their first, both boys.

The Club will sponsor a 10-lesson bridge course at the clubhouse beginning Monday, October 13, from 6 to 9 P. M. Phone your table in to Ellen MacFarland, extension 766, as soon as you can.

Don't forget our Christmas card sale Thursday and Friday noon hours at the Club. Drop in and get yours or phone 533 during those noon hours and they'll be set aside for you.

## Three Scovill Teams Take IRA Titles

Scovill's bocci, tennis and softball teams were victorious in the IRA competition this year, all taking the City Industrial Championship crowns in their respective leagues, while the softball team also holds the State Industrial and the State Open Amateur Softball Industrial Championships. Bottom picture shows bocci players—left to right: Louis Nosenzo, Angelo Cantino, Quartilio Paoloni, Pete Vellucci and Tony DiGjoia. Top picture, left, shows softball team members, front row, left to right: Nick Ruffino, Bob DeLeon, Joe Joyce, Gordie Groff, James Crowe, Tony Jacovich, "Weenie" Zenich, Rocco Rinaldi and Frank Williams; back row, same order: John Briotti, Ralph Daddesio, Jim Lombardi, Bill Rotella, Joe Begnal, Howie Craft, and Jack Carrington. Tennis players, top picture, right, are, front row, left to right: Walter Dean and John Makepeace; back row, same order: Bill Walcott and Jim Mullen.

## Ping Pong Players Are Being Paged

Anxious to start a Ping Pong Club this year for Scovill employees, the Employee Activities Office is looking for Scovillites interested in the game. Anyone wishing to participate is asked to call the office for information and details.

## Henry Miller Wins 1947 Biener Trophy

The Annual Reeves Fishing Competition came to a close on September 20th, and was one of the best attended to date with an average of 60 competitors on hand on each of the four days of the competition.

1947 Champion and holder of the Biener trophy this year is Henry Miller of Engineering whose total of 8-1/8 points was best. Final winners in the five classes (no trout were caught) were: black bass—Miller, Engratt, Soden, Matulunas; calico bass—Soden, Engratt, Miller, Matulunas, Kazmaier; pickerel—Rogers, Hubbard; perch—Semetas, Strumpf, Wood, Hubbard; bullhead—Hogan, Miller, Hubbard, Yanavich and Rietydyke.

## Tickets Available For Yankee Football Games

Tickets for all Yankee football games may be obtained by Scovillites in advance at the Employee Activities Office, and arrangements can be made for transportation to and from the games.

The next to be held will be the Yankee-Brooklyn game at the Yankee Stadium on Sunday, October 12. Tickets are still on hand for the game at the Office.

## Scovill Title Goes To West Machine

Scovill's Inter-department softball games came to a close for the season on Friday, September 26, when the West Machiners, American League champs, downed the Tube Mill players, National League champs, in the playoff games for the Scovill Inter-department league crown.

Playing before a large crowd at the Brass Mill Diamonds, the victorious West Machine downed the Tube Mill aggregation by the score of 14 to 4, scoring 4 runs in the opening inning.

## As The Bowling Season Got Under Way

Starting off the bowling season in good form are members of the Office League, top, and the North Mill League, bottom. The Office League, the oldest organized bowling league in Scovill, started its 25th year on September 22nd when the above pictures were snapped at Mattatuck, is composed of a good many members who have been with the league for 15 years or more. Top picture, left, shows Jim Foley and Jack Phelan; on the right above are Davies, Caputo and Polzella. The North Mill bowlers, bottom left, play off their games every Friday night at the North End Y. Pictured in the lower right photo are Paternostro, Rafferty and Marks.

## Badminton News

By Harry Shewbridge

The attention of all those interested in badminton is called to the forthcoming opening of the badminton season. The 1947-48 Badminton Committee is composed of the following: Harry Shewbridge, chairman; Paul Wislocki, director; John Matulunas, director; Pegi Conway, secretary; Joan Cosgriff, treasurer.

Since the opening date of the SERA Center has been postponed this year, the Committee has been successful in engaging the use of the Chase Park House badminton court on each Wednesday evening from 7 to 10 P. M. beginning October 15 for an indefinite period until the Center opens.

All those interested in badminton, whether they have played before or not should contact any one of the above members immediately so that detailed information may be forwarded to them before the season opens.

## Varsity Bowlers

After four weeks of bowling, the Girls' Varsity team has a record of 1 loss and 11 wins to date. The team, which bowls every Thursday night at Sena's, has as members this year: Lyn King, Ethel Johnson, Bernice Knickerbocker, Marguerite Murroff and Jean Ostroski.

The Men's Varsity team, at the end of three weeks, stands with a record of 1 win and 8 losses. Team members this season are: Cameron Klobedanz, Phil Napolitano, Chris Poulsen, Marty Byrne, Duke Montville and Ben Bannick. The men bowl Thursdays at Mattatuck.

## Kickers' Handicap Held For Scovill Golfers

Held on September 27th at the Watertown Country Club, the second Kickers' Handicap golf tournament of the season for Scovillites was attended by 45 golf enthusiasts.

Open to both men and women, the honor for low gross was taken by John Jacobs of the North Mill with a 73. Kickers' winners were Ralph Daddesio, Ed Meafski, and Charles Lewis.

# Our Sales Office At Syracuse, New York

Our Scovill sales office located in Syracuse, New York serves the New York State territory — excluding the southeastern section of the state which is bounded by the borderline counties of Washington, Saratoga, Schenectady, Albany, Greene, Ulster and Sullivan.

Industrial activity in this territory is of an extraordinary diversification in which Scovill products find a wide and important use. From this area items are manufactured that you see or use almost daily — in your home, your business, your town, your play, etc.

## Items Manufactured In This Territory

### For Your Home

Radios — telephones — radio tubes — gas heating equipment — oil burners — fire screens — washing machines — glassware — tableware — top - of - the - stove hardware — pharmaceuticals — thermometers and barometers — electrical switches and electrical appliances.

The Scovill Sales Office in Syracuse was established on April 8th, 1931. It is located on the sixth floor of the Syracuse-Kemper Insurance Building which is in the central part of the business section of Syracuse.

## Items Manufactured In This Territory

### For Your Business

Typewriters — business machines — furniture and office equipment — condensers — heat exchangers — all types of pumps.

### For Your Farm

Thrashers — combines — sprayers — plows — dairy equipment.

The Syracuse Office staff is made up of these four young ladies. Miss Frances Bettinger serves as secretary to District Manager Howard Dunn; while Miss Phyllis Disinger, Mrs. Lillian Buzard and Miss Maryellen Travers assist as secretary-stenographers.

The Sales Engineer staff, working out of the Syracuse office, consists of Francis McCann, Jr. of Waterville Division Sales; William T. Beasom, Mill Products Division Sales; John M. Douglas and Donald L. Bartlett, Jr. of Manufacturing Division Sales.

## Items Manufactured In This Territory

### For Your Car

Radiators — heaters — automotive windshield wipers — hubcaps — Chevrolet motors and axles — fans — guards and trim — spark plugs — bearings — carburetors — fuel pumps, also upholstery and radios.

### For Your Doctor

Scientific and surgical instruments — pharmaceuticals — optical and dental equipment.

Mr. Howard G. Dunn, District Sales Manager, has been with the Syracuse Office since its establishment. He first came to Scovill in 1929 as a salesman in the Screw Division. He was transferred to the Main Plant Division in 1931, moving to the Syracuse Office. Mr. Dunn was appointed District Sales Manager in 1935.

## Items Manufactured In This Territory

### For Your Town

Fire engines and extinguishers — traffic and flood lights — trucks — school buses and coaches.

### For Your Pleasure

Cameras — films and accessories — binoculars and microscopes — fishing rods and reels — shotguns — jewelry — beautician equipment — helicopters — air conditioning and refrigeration.

## Woman's Corner

### Notions Play A Major Part In Good Grooming

Many of the thousand and one items that come under the heading of "notions" are your best friends in the grooming department. Beginning at the top — your top — and working down, there are hairpins, nets, combs, brushes and barrettes that keep your hair neat, shining and attractively arranged.

Dress pads to give your dresses or suit the right angle are part of your grooming equipment.

Thread, snaps, buttons, mending tape and all the other clothes repair

aids are essentials for a trim appearance. As soon as a seam opens, a button or snap is lost or a rip occurs, it's best to take care of the trouble spot then and there. That does away with the temptation to wear the garment without repairing it.

Many notions are not so obviously a part of good grooming, but play an important behind-the-scenes role. Hangers to keep suits and dresses unwrinkled, shoe trees to keep shoes in shape — these are necessary equipment if you want your clothes to keep their good looks.

These are only some of the notions that keep you well-groomed. There are many others which will fit into your schemes.

### Undersuit Magic

A gleaming white dickey casts a new light on a dark suit. This one is crocheted of soft wool, adding warmth to the costume as well as chic. It buttons up the front, vestee-style, and is fashioned at the top for a standup collar which may be turned back into lapels if desired. Dickets in several colors solve many a what-will-I-wear problem. Write, call, or stop in at the Bulletin Office for your free direction leaflet.

### Meat In Cans For Luncheon Plans

The convenient tin can of ready-cooked meat is back again in better than pre-war supply, ready to be the time-saving mainstay for luncheons and suppers. The tempting platter of corned beef hash patties shown below represents just about ten minutes of

preparation time—just open the can, slice, and heat in a broiler or a skillet. Remember also that meat in cans is fully as nutritious as fresh meat, and economical, too—adding up to three good reasons for serving it often.

### Safety Rules For Fires In The Home

Experience has proved that many fires in the home can be satisfactorily handled by the individual, provided the action is prompt and the method correct. Experience has shown likewise that failure to take such action or to apply the wrong treatment has resulted in injury, death and property loss. Can you say what you would do in those first all-important moments after discovery of the flames?

The following are some of those home fires which often the home owner can and should put out himself:

Clothing on fire—throw the victim to the floor and roll him in a woolen rug or blanket.

Grease fire on top of stove—cover the pot or pan tightly, do not use water.

Waste basket blaze—douse with water or carry it outdoors.

Chair cushion afire from cigarette—apply water and remove outdoors.

Curtain aflame—use fire extinguisher. If you can, tear curtain down and smother with rug.

### Gleanings Around The Plant

By Russ Hickman

The sage in the Soldering Room says we have had some nifty "ribbing" in this column. Some of the "ribs" could have been barbecued and easily digested if taken with a little salt.

#### On Guard

Guard JOE GOGGINS still looks around for a painting job of some sort. Reaching the Main Hospital he flopped down in a chair and said "I want my throat painted." "Make up your mind," MARY SCHOONMAKER suggested. "Are you sure it isn't your car?"

"Don't let MIKE MORAN give you any more guff about forming sports teams among the Guards" recommended JIM LEARY. "He sought publicity for a swimming team that never made a splash and the softball team never got beyond conversation in the Guard's dressing room. If he mentions football to you, boot him out!"

EDDIE REBAR, JESS HUDSON and EDDIE ROCHE are congratulating CLARENCE RICHMYER, Transportation, on the English accent he has acquired by association over the past couple of years and are wondering now how long he can retain the brogue.

Lost, strayed, or evaporated is CLARK CODDINGTON's famous fur hat. But with all the stray cats hovering around

the Hayden Street Yard, BILL MAHER advances a suggestion that the hat came to life and left CODDINGTON to rejoin its tribe.

We recently mixed up a couple of "NICKS" in the North Rolling Mill in reporting their vacations. It should have been DiPAOLO who went to Canada and CANONICO who spent his listening to what the wild waves were saying at the beaches.

The latest thing in fishing according to BILL AYLWARD, Inside Truckers, is to see "the three-way kid" JIM LITTLEJOHN, Cost Office, rowing, fishing and sucking a lollipop all at the same time. Not CHRIS DELANEY, however. He takes his home to enjoy them in peace — lollipops, not fish.

#### Idle Thoughts

If you're willing to admit you're wrong when you are, you're all right.

You could no more separate them than you could the ticks on a clock.

Without getting into a discussion over the changes in ladies dresses, all we have to say is that stout women prefer long dresses and stout men short ones.

A reckless driver recently got very wet. Where the road ends the lake begins.

At the next church wedding you attend don't think the bride changed her mind if you see her go up the aisle with one man and come back with another.

This is one of those "dream" jokes that still might happen. After Doctor Curran had performed a serious operation on a patient, he, the patient, woke up to find the blinds in his room drawn. "Why are the blinds drawn, Doctor?" he asked. "Well," said the Doctor, "there's a fire burning across the road and I didn't want you to think that the operation had been a failure."

Mighty nice to have known you all and so many for such a long, long time. Over that period we have gladly written "Around the Plant" for about six different editors. Let's walk off stage to song tunes like "Remember," "Memories," "Who will be with you when I'm far away," "When I dream of old Scovills," "Good night, nurse," "Always leave them laughing when you say good-bye" AND "Good-bye, good luck, God bless you."

### Make-up News

The look of a lady is fashion's undeniable "must" for Fall. You see it, and feel it, in the longer, fuller skirts, the adorable Gibson-girl shirt-waists, the new, soft shoulder line, the smoother, coiffed hair-dos.

You see and like it in the more subtle make-up, that points up the peaches and cream complexion, that mouth that is you alone. In fact, the return of the natural shape in mouths is cosmetic news to think about. It does things for the personality in the new blue-red shades of lipstick which make the mouth look smaller and more feminine. A radiant red with blue underlights is a fine first choice for Fall.

### Presenting Seven Scovill Youngsters

The attractive group of youngsters above are, top row, left to right: Emma, 8 years old, and Christy, 2 years old, children of Christy Carrazzo, Manufacturing Eyelet; Michael Cartelli, Jr., 5 years old, nephew of Jennie Truncale, Press No. 1; Claire Elaine Pernereuski, 11-month old daughter of Arnold, West Machine. Bottom row, left to right: Johnny Mailloux, 6-month old son of Roland, Waterville Division; Patricia Pascucci, 6½ years old, daughter of Anthony, Waterville Division, and granddaughter of Angeline Pesce, Fastener Room; Paul Fede, Jr. 17-month old son of Paul, Draw Benches, and nephew of Marie Boulanger, Waterville Press Room.

Here are two ways to vary your corned beef hash servings:

#### Browned Corned Beef Hash

- 2 medium sized onions
- 2 tablespoons fat
- 2 16-oz. cans corned beef hash
- 1/2 cup light cream
- 1 tablespoon Worcestershire sauce

Dice the onions; fry in fat in a heavy skillet until tender but not brown. Add corned beef hash and pour the cream and Worcestershire sauce over it. Cook very slowly until well browned on the bottom. Put under the broiler until lightly browned on top. Remove to chop platter by inverting skillet on platter. This makes eight servings.

#### Sauerkraut With Corned Beef Hash

- 1 No. 2-1/2 can sauerkraut
- 1 No. 2 can corned beef hash
- 1 cup canned tomato juice
- 2 tablespoons chopped onion
- 2 teaspoons prepared horseradish
- 1 strip bacon

Place the sauerkraut in the bottom of a shallow greased casserole. Mix together the corned beef hash, tomato juice, onion and horseradish and spread over the sauerkraut.

### First Prize Suggestion Winners

The above four employees submitted suggestions which have netted each a first prize award of \$25. Shown, together with their suggestions, are: top, left, Joseph Diogostine of the North Mill and, right, John O'Neill of Drill and Tap. Bottom, left, is Frank McHale of Gripper Eyelet; right, is Felice Pauloni of the Oil Reclaiming Department.

### Five Retirements

(Continued from Page 1, Col. 2)

October 1st. Mr. Gleason first came to Scovill on October 1, 1920 and has been connected with the Sales Department throughout his years of service in the Company. He has been serving as Engineer since January, 1946.

RUSSELL HICKMAN, well known throughout Scovill for his activities in promoting employee recreation and as one of the founders of the Scovill Sunshine Fund, retires as of October 6th. Russ first came to Scovill's Loading Room in June, 1918 and has worked in the Cost Office, the General Superintendent's Office, Industrial Service and was with the Safety Department at the time of his retirement. Russ has written for THE BULLETIN since 1924.

GEORGE HUBBARD, who is retiring as of October 6th, first came to Scovill in November, 1903. He joined the staff in the Billing Office, working there until 1918 when he was transferred to the Main Plant Hospital. He was connected with the Compensation Division of the Hospital at the time of his retirement. Since 1924, Mr. Hubbard has been the Company's contact man with the retired folks—an assignment he says he has enjoyed because he has received much pleasure in visiting the folks.

SIRGAY ZAPLISNEY, of the North Mill, has been retired as of September 2nd. First coming to Scovill in 1910, he worked in the North Mill until leaving in 1912. He returned in August, 1920, also in the North Mill, where he was working as a pickler until his retirement.

Joe Diogostine suggested welding an angle iron to the bridge to make it stable and safer for vehicles which must ride over it when driving from the platform onto trucks or freight cars.

John O'Neill's suggestion of machining certain items on a chucking machine instead of a hand screw machine led to the development of the present method which helps boost production.

Frank McHale suggested a method of oiling punches so that the oil could be kept in its proper place, keeping work free from it.

Felice Pauloni suggested riddling work coming from ASMD and separating all chips to their respective alloys, which would save more mixed scrap and reclaim more oil.

### New Assignments

The following notices of appointment have been received:

Effective September 8, Mr. David Lyons was appointed Supervisor of General Training Room No. 2, reporting to General Foreman R.V. Havican.

Effective October 1, Mr. Robert W. Aitchison is appointed Acting Chief of Guards reporting to the Director of Employee Relations.

### Waterville News

Reporter—Helen

We extend deepest sympathy to JOE CARUSO on the death of his wife.

The SWERA Factory Bowling League got under way on September 18th at St. Joseph's alleys. Close scores were the rule among the ten competing teams, promising plenty of competition throughout the season.

Ride available from Bristol for 4 or 5 girls leaving Bristol at 7:40—arrive in Waterbury at 7:55. Call extension 318.

### Death Claims Three

HUGH SMITH, retired from active Company service on June 1, passed away on September 12 at his home. A former employee of the Repair Department, Mr. Smith served the Company for 25 years. The funeral was held on Monday, September 15. Attending from Scovill were George Hubbard and Frank Byrnes.

LUIGI SANTA BARBARA died suddenly on Saturday, September 20th, from a heart attack. An employee in the North Mill Finishing Division at the time of his death, Mr. Santa Barbara held a continuous service record with Scovill since 1932. The funeral services were held on Tuesday, September 23rd.

DANIEL C. SHEEHAN passed away at Saint Mary's hospital on the morning of September 27th after a brief illness. A Company employee for 19 years, Mr. Sheehan was working in the North Mill at the time of his death. The funeral was held on Wednesday, October 1st. Attending from the Scovill Foreman's Association were William Cleary, Charles Norton, Dominic Abbondandolo and Robert Metzler.

### Five Who Answered Call For Blood

Upon hearing that a Scovill employee from the Tube Mill was in urgent need of several blood transfusions at the Waterbury hospital a few weeks ago, the five men pictured above from the Extruded-Rod Mill volunteered to donate. Left to right they are: Julius Zravathawecz, Harry Dean, Charles Veronneau, Herbert Eastwood and William Corbett.
