## Day Camp Provides Variety Of Activities For Children

The SERA Day Camp at Woodtick has been attracting between 60 to 100 children each week. Since its opening on July 10, approximately 140 children have participated in its activities. There are usually about 20 new faces

registering each Monday morning at the SERA Office.

All activities of the children are supervised by the counselors. At the Swimming Area they receive, in addition, the attention of the well-qualified life guards.

The youngsters attending SERA Day Camp (between the ages of 6 and 12 years) are divided into three age groups with a counselor in charge of each group.

In photo #1 above, one of the three groups prepares to leave Camp Headquarters for a swimming session.

2) The youngest group, in the care of Miss Marie Freeman, approaches the swimming area reserved for the young fry.

3) This group enjoys their mid-morning bottle of milk after returning from their swim session.

4) On hand at the Area to supervise the children's activities and to keep the grounds well kept are:— (left to right, front row) Bob Dickey, Jim Healey, Miss Freeman, Chuck Kraft, Dan Grasso and Bob

McDonald. On the steps, second row, are Jack Nordlund and Dick Dube.

5) Having fun during the "free" swimming period, also supervised.

6) The girls join the boys in a softball game—scoring quite a few of the runs, too!

7) The youngest group all set for one of their daily activities.

## Selective Service

### Those Subject To Call

At the present time, men between the ages of 19 to 25 years inclusive are subject to draft. The first to be called under selective service will be the oldest non-veterans, single men 25 years of age, then proceeding downward through age 19.

All those now in the National Guard and in the active or inactive reserves of the Army, Navy, Marine Corps or Air Corps are subject to call at any time irrespective of the draft and regardless of their age, key position or other status.

(Regarding those in the inactive reserve of the Army, Navy, Marine and Air Corps — they are also subject to call by selective service if reached before being called by their respective reserve unit.)

All employees who are members of the National Guard or members of active or inactive reserve of the Army, Navy, Marine Corps or Air Corps are asked to notify their foremen of this fact. The foreman will notify the Employment Office.

### Obligations

All men starting at age 18 have the following obligations under the law:—

**Register with the local draft board. Notify the board of any change of address.**

**Notify the board of any change of occupation.**

**Notify the board when he marries. Notify the board of any change regarding his dependents.**

**Notify the board when he reaches his 26th birthday.**

Failure to notify the board of these facts may mark the individual delinquent in notification and he could be subject to call.

### Classifications

There are still five main classifications, as follows:

*Class I-A* — Available for military service.

*Class II*—Deferred because of occupational status.

*Class III*—Deferred because of dependency.

*Class IV*—Deferred specifically by law or because unfit for military service.

*Class V*—Over the age of liability for military service.

To be exempt because of previous military service, the individual must have served for over a year between September 16, 1940 and June 24, 1948 or for over 90 days between December 7, 1941 and September 2, 1945.

### Classification Changes

The local boards have full jurisdiction and all information or requests should be directed to them. A registrant has ten days within which to appeal from his original classification.

The above information is not from official directives, it is from discussion with the State Selective Service Director.

## Woodtick Activities

During the last half of July, attendance at Woodtick had its ups and downs — according to the weather. Total attendance at the Area during that period was about 15,000.

The week end of July 15-16 saw approximately 2200 people there—Saturday around 1000 and Sunday 1200.

The weekend of July 29-30 well over 2500 appeared — Saturday about 1000 and Sunday over 1500.

Week days during the period found as many as 800-1000 in attendance.

## Merchandise Div. To Hold Sales Meeting

Representatives of the Merchandise Sales Div. who handle the *Green Spot* and *Sprinklemist* lines will attend a sales meeting at the Hotel Statler in Cleveland, Ohio, August 21-22.

The meeting will include talks on the *Green Spot* line and sales and advertising programs for 1951.

## Hoarding

We are confronted with the spectacle of Hoarding. People are buying far in excess of their needs. They are causing shortages on the retail counters of items that are actually in large supply. Under scare buying, counters cannot be stocked fast enough to maintain the supply to the consumer regardless of the supply in the background.

The immediate result is a rise in the price of "cost-of-living" items. We are seeing this at present. Rising prices are the inevitable result of short supply. When goods are not available on the counters, people get scared. They will pay any price to get what they want.

This is all very silly. Not only is the purchasing value of the dollar reduced by such action, but a continuation of it must end in rationing. Our elected representatives will not allow the selfish acts of the minority to cause artificial scarcities and higher prices.

This same urge to get what we want regardless of what happens to the other fellow is also responsible for the black market under rationing. Most everyone will agree that the black market is a blight on our national well-being. And so is hoarding under present circumstances.

We'd all be better off if we'd buy what we need when we need it. We have been assured that there are enough of the "cost-of-living" items to supply everyone. But certainly there will not be enough if we buy just for the sake of buying. It's time to use our heads.

*Alan C. Curtis*  
Vice-President

## This Is America

It is statistically true that in the 150 years of her dynamic, adventurous life, America has made more progress than all the other nations have made in 6,000 years.

### Why?

What has she got that the rest of the world has not?

She has only 6% of the world's area. Other nations have more land and more people. Some are more richly endowed with natural resources. Several enjoy a general level of health, education, political freedom and native ingenuity approximately comparable with our own.

Carry the comparison on down the line, and you will be forced to the conclusion that the one thing which America has that the other nations lack is the American system of free enterprise.

That you live in America is circumstance; but that America lives as she does, is not. For a century and a half, Americans have planned it that way.

### This Is America

##### Notice

After August 18, there will be no withdrawals or loans until September 5 as the Treasurer will be on vacation. In case of emergency, contact Emile Brodeur at ext. 809 or 625.

Books will be picked up on the following Fridays after 4 p.m.—August 18, 25, and September 1. Please do not deposit books except on those days.

## There's A Reason For Every Sign

No matter where you are — at work, at home, on the highways, at recreational places — you will always find signs posted for your safety. Many signs (such as illustrated above) are posted throughout the plant. They are meant to warn you of real danger. Read the signs and respect them.

While signs seem to be a nuisance, there's a good reason for each and every one of them. They are not put up to bother you in your work or pleasure. Neither are they meant "for the other fellow". They are put up to keep all awake for hazards.

Signs are usually restrictive—"Don't do this" — "Don't do that". There is

a reason — they warn against dangers which are real. You may not see the danger. You may not understand it, but it is real.

When you see a sign, whether it is new and shining or old and dirty, read it and respect it. It's there to protect against trouble of one sort or another. *Respect signs!*

T. DeZinno

## Trim & Knurl

By Betty Young

Our deepest sympathy to LYDIA GIROUARD on the death of her husband.

Welcome to T & K—AGNES E. HOFF, and ROBERT E. LARRAWAY on the 1st shift, and FLOYD V. FERNALD, Jr. on the 2nd shift.

Recently returning from vacations — our foreman WILLIAM PHELAN, ART PICARD (who visited Canada with his wife), JIMMY CLEARY, FRANK RAGOZZINO and NICHOLAS GRIFFIN.

Birthday congratulations to CHIC MARINARO.

NANCY POLAKOWSKI (the gal with the pleasant smile) and ROLAND HAMEL are working on the day shift for a couple of weeks.

## "Stripper Fashions"

### Featured In Movie

"Stripper" Fashions — the popular line of sports garments for women — are a promotion of Scovill. They use Scovill closures — notably the new *Gripper Fastener* application that employs a patented thumb-strip idea for easier closing and, also, the new *Gripper Zipper*.

These fashions have been featured in nationwide leading women's fashion magazines; in newspapers such as the Associated Press which has 300 newspapers throughout the country with a circulation of about 5,000,000 and the Bell Syndicate which has 250 newspapers with a circulation of about 1,000,000. This past Spring, these fashions were featured in a series of television commercials.

Now, "Stripper" Fashions have been recorded on film. They were featured in a Pathe News newsreel which appeared in 1,000 theatres throughout the country. The film was shown on the State Theatre screen in Waterbury from July 26 to 29. Live models demonstrated the versatility of the ensembles (one of which is shown below).

## Company Policy

The following material is reprinted from Scovill's Policy Statement, which appears in "SCOVILL, YOU AND YOUR JOB".

### Promotion

We intend that promotion to available positions of higher rating or more responsibility shall be made from the employee group, if employees are found with the qualifications required to fill the higher position.

## Reeves Competition

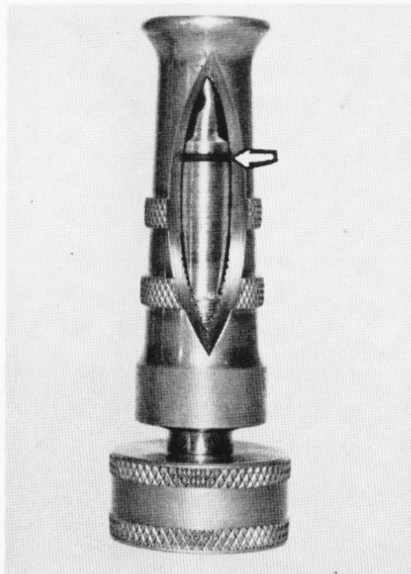

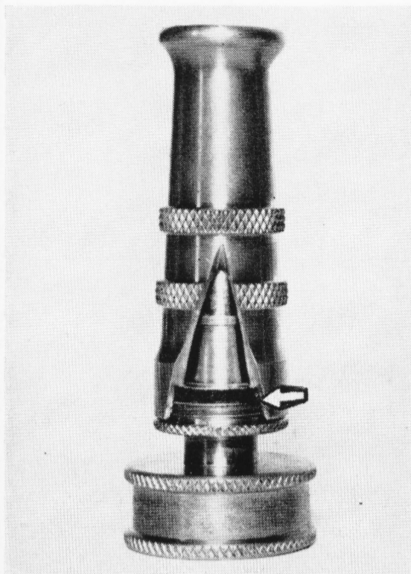

The Reeves Fishing Competition, open to all employees, will be held on the following Saturdays: August 26, September 9 and 23, and October 7. Fishing will start at 1 p.m.

A fishing permit is 25¢ and a place in a boat for each competitor is 25¢. A special entry fee of 50¢ will be charged each competitor. This money will be used to purchase a special prize or prizes to be presented to the 1950 Champion or Runners Up, if funds permit.

Drawing for boats will be held at the Employee Activities Office at 7 p.m. on the Tuesday previous to each competition and there will be 3 competitors to a boat.

All interested should send their entries to JIM LITTLEJOHN, Cost Office, no later than a week before each event.

# GREEN SPOT "Standard" Hose Nozzle Has New Leakproof Feature

If you've been out watering the lawn, you've possibly been annoyed to have a leaky hose nozzle drip water on you or your clothes. This need no longer happen if the hose is attached to one of Scovill's new, improved leak-proof GREEN SPOT "Standard" Hose Nozzles.

In the first two pictures above are samples of the old and the new Standard hose nozzles. The left arrow points

to the old stuffing box construction; the right arrow shows the new flip ring construction.

In the third picture (shown in the Assembly Room) Theresa Covello (in the background) inserts the flip ring into the groove of the stem while Julia Valentino (foreground) assembles the outer sleeve on to the stem assembly and closes it on the press.

## Girls' Club News

By Barbara Gedraitis

### Welcome

The Club extends a hearty welcome to HELEN DIMARIA of Waterville. We hope to see you at our next event so that we can become acquainted.

### Vacations

Among the Slide Fastener girls recently returned from vacations are: ALICE FINELLI, MARY MURPHY and GEORGINA LAMOUREAUX . . . PEG LAHEY, CTO, visited her favorite spot in . . . Newport, R. I. . . . JEAN OSTROSKI, Insurance, SUE GUARRERA, D&C Sales, and EVELYN PAOLONI, Automotive Sales, spent two weeks at Block Island . . . CARMEL COSCIA, CTO, was at Hampton Beach and New York City . . . HELEN JACOVICH, Alum. Finish, and ANN KISONAS, Lipstick, acquired a beautiful tan at Asbury Park . . . MARY ORLANDO, Receiving, was at Miami Beach and Havana . . . LENA GAROFOLA, Tube Mill, spent her vacation at Eastover in Lenox, Mass. . . . HELEN ZABELSKAS, CTO, took in the fights in New York City.

### Illness

We are sorry to hear of LUCILLE PEPIN's illness. Here's hoping for a quick and complete recovery, LUCILLE!

### Engagements

JANET RUSSELL, Mdse. Sales, recently became engaged to Mahlon Lynn. Best of luck to you both, JANET!

One of the latest improvements in our line of GREEN SPOT Garden Hose Accessories is a new leakproof feature which is now being built into the Standard Hose Nozzle.

### The Old Way

For many years, the nozzle with the stuffing box construction has been in use and is practically the standard method of construction by other nozzle manufacturers today.

### The New Leakproof Way

In 1947, our Products Development Department introduced the use of the "flip ring" washer on the Standard Hose Nozzle.

The use of this washer, together with the improved quality, makes the Standard Hose Nozzle the best by far in this field. It was first marketed by us in March, 1950.

This nozzle has three essential parts—the sleeve which is the long outer piece, the stem which is the piece inside the sleeve, and the nut to which the stem is attached. These parts are machined from solid brass with an attractive machine finish.

On the stem of the nozzle there is

a groove into which the synthetic rubber flip ring is inserted. It is the contact between the ring and inner wall of the sleeve which makes it leakproof.

Special features which make the flip ring superior to other leakproof devices are:—

The thinness of the ring — this cuts down friction and makes it easier to turn the sleeve.

The ability to keep its shape.

Its durability — the synthetic rubber from which it is made will not deteriorate or wear away as washers made of natural rubber or leather.

## New Leakproof Method Passes Tough Tests

Since the adoption of the flip ring, the nozzle is constantly subjected to three tests.

In the first test, the sleeve of a nozzle is turned through 25,000 cycles—from "off" to "on" to "off". At the end of the test, there has been no sign of leakage and the ring still in perfect condition.

In the second test, the nozzle is put under water pressure of 400 pounds per square inch. Even under this great pressure, no leakage has developed.

The third test is an accelerated "aging test" which is concentrated into seven days. This test is equivalent to a long period of service. A number of nozzles containing the flip ring are left in a temperature of 158 degrees Fahrenheit and tested periodically during the week to determine whether or not the rings shrink or deteriorate in any way. They don't.

For the coming year, our Standard Hose Nozzle will have the flip ring construction.

## House For Sale

One Scovill house (not including land) located at 317 Hamilton Ave. is being offered for sale by the Company to the highest bidder.

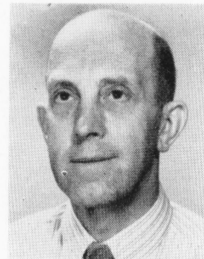

The house must be dismantled and removed from Company property.

Sealed bids will be received up to and including August 15.

All interested employees should send sealed bids to Mr. Taylor, Real Estate Office. For further information, contact Mr. Taylor at ext. 577.

WALTER HAYRE, Extruded Rod, July 22; ALEXANDER FECTEAU, Extruded Rod, July 23; OREN MAXIM, JR., General Mfg. Tool, ROWLAND GRENIER, Waterville, July 24.

CARL KEIPER, Press No. 2, July 27; WALTER POND, Electrical, MARGARET CIMINERA, Lipstick, July 29; CHARLES PROPER, Carpenter Shop, July 30; AMBROSE FEEST, Button Eyelet, JOHN MALARIO, Chucking, July 31.

BENNIE HORBACHUK, Blacksmith Shop, August 2; RAYMOND OLIVER, North Mill Rolls, August 4; ELBERT COLEY, Oil House, August 5; DOMENIC FERRARE, No. Mill Rolls, Aug. 6.

## Rod Mill Topics

By Dom Polo

All who were out on vacation had a wonderful time.

DAVE GRIFFIN did a bit of swimming at Walnut Beach . . . JERRY SHEA sunned himself at Silver Sands . . . BILL ZENICK took trips here and there . . . CARMINE ROSATO spent part of his vacation in the "big city" and the rest at Myrtle Beach . . . CARMINE MENDILLO went somewhere different each day . . . JERRY SULLIVAN spent his time off at Branford.

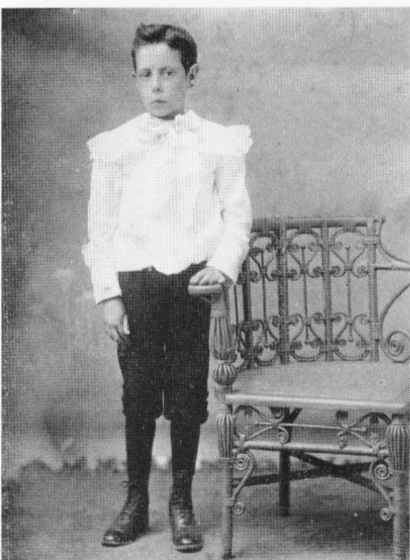

## Company Policy

The following material is reprinted from Scovill's Policy Statement, which appears in "SCOVILL, YOU AND YOUR JOB".

### Individual Ability

We intend that outstanding ability be given great weight in promotion to higher rated or more responsible positions.

## Out Of The Old Family Album

Looking back through the pages of the old family album often brings to light some interesting pictures. Here's a couple of well known Scovillites back in their "younger" days. One interesting fact about them is that both have submitted many articles to THE BULLETIN. The one on the left finds that his work takes him through many West Plant departments; the youngster on the right is seen in the East Plant, mostly through Bldg. 112 departments. You can identify them? Turn to Page 4, Column 4, to see how right you are.

## Training Course

Paul Belevetz graduated on July 30, 1950 as a Machinist. He has been assigned to Button Tool.

Kermit Bouley graduated as a Toolmaker on July 9, 1950. He has been assigned to Gen. Trg. Tl.

Raymond Capowich graduated on July 23, 1950 as a Draftsman. He is now in Sl. Fast. Tl. Design.

Ralph Pratt graduated as a Toolmaker on July 2, 1950. He has been assigned to Gen. Trg. Tl.

Vincent Tedesco graduated on July 16, 1950 as a Toolmaker. He has been assigned to Gen. Trg. Tool.

## Rod & Gun Club

By Jim Littlejohn

The Club's annual fishing contest was held at Woodtick on Saturday, July 22, with some mighty fine fishing reported.

- PERCH—V. Manzolli ..... 10"
- J. Hubbard ..... 9 5/8"
- J. Aleksinas ..... 9 1/4"
- PICKEREL—J. Delaney ..... 17 1/8"
- H. Miller ..... 16 1/8"
- BLACK BASS—R. Ladden ..... 16 3/8"
- CALICO BASS—H. Miller ..... 8 3/8"
- BULLHEAD—H. Rogers ..... 13 1/4"
- TROUT—J. Hubbard ..... 15 5/8"
- D. Camerota ..... 13 3/8"

We missed our good friend, BILL AYLWARD, who is on the Sick List. Hope you'll be back with us soon, BILL, as JOHN HUBBARD and yours truly sure missed those all-day suckers and that radio music.

Stephen Naiser, bait dealer in Torrington, will be closed during August.

### Outing Notice

The annual outing for members and guests will be held at the Woodtick picnic grounds on Saturday, August 19, starting at 1 p.m. instead of 10 a.m. The change in time is made for the benefit of employees who may be working Saturday morning.

All contests will be held after 3 p.m. Tickets, which are \$2.50 each, may be obtained from Club officers and committee members. Those on the committee are: Lee Reid, Slide Fastener; Charles Semetas, Tube Mill; William Soden, Hot Forge; Jim Littlejohn, Cost Office.

## Life Out East

By Harry Sheubridge

Just got back from two wonderful weeks on the Maine coast. Of course, CHARLIE ANCYPA of the Cleaning Room would say, "Better it should be two years in Korea!" What a combination we two would make over there—CHARLIE, you know, a strong back and a strong mind. Incidentally, if I didn't see SAM CHAMPAGNE of Slide Fastener Tool at Old Orchard Beach, his twin was up there.

I'm trying to catch up with what's what around here and find that MARJORIE MILES is back again working in the 96 Division Sales Office. Welcome back, MARGE! Also, I hear tell that HELEN LOY is back in ASMD. Now there's a gal I like to see around. Glad to hear it, HELEN.

And to balance the gains, we have two losses. ESTHER SULLIVAN has left the 96 Production Office for better or worse. And alas and alack, the Mailing Department is losing SHIRLEY KILBORN to the Purchasing Office. Is it possible to expect that the mail will ever again be delivered with such finesse?

I'm sure many people had birthdays and babies in my absence, but there isn't time to gather the facts. I'll wind up by entering a note edged in black that ART ROBERTS of ASMD Packing has yet to experience the thrill of picking a winning horse this season. Cheer up, ART. Maybe Saratoga will be different!

### FOR SALE

Maple cricket chair, \$4; 2 new folding, adjustable beach chairs, \$2 each; tea cart, \$8. Call 3-5524.

12 storm windows and copper screens, \$60, sizes 30" x 55" - 32" x 55", perfect condition. Call 3-2318 after 5 p. m.

\$35 set of fog lights, \$15. Call 4-8740.

Tot's cowboy boots, size 13, worn once, \$4; new white sneakers, size 13, \$1. Call 4-8232.
