Holiday Shutdowns

Main Plant

Christmas Shutdown-the Main Plant will close at the end of the workday on Friday, Dec. 22, 1950 and will reopen with the start of the first shift on Tuesday, Dec. 26, 1950.

New Year's — the Main Plant will close at the end of the workday on Friday, Dec. 29, 1950. All offices will reopen on Tuesday, Jan. 2, 1951.

Inventory will be taken on Tuesday, Jan. 2, 1951. In departments other than offices, only those employees told individually to report should do so on Tuesday, Jan. 2, 1951. The balance of the Plant will reopen on Wednesday, Jan. 3, 1951.

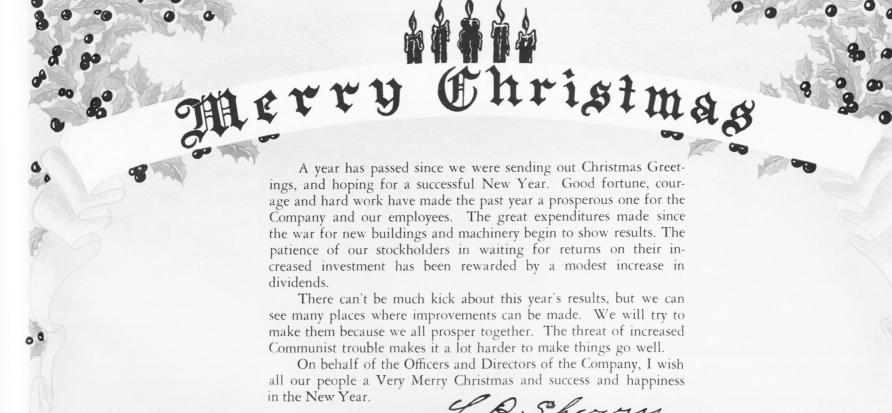

Any variations in the above schedule will be by individual assignment.

Christmas and New Year's are holidays for which hourly and piecework employees who qualify according to regulations are paid when they do not work

Kids' Christmas Party

The Christmas parties, scheduled to be held at Doolittle Hall on December 16 and 17, were bound to be well attended as, at press time, there were 1100 tickets distributed.

The program was to consist of movies, a toy and candy-filled stocking for each child and ice cream.

No. 24

Christmas—1950

An annual church festival kept on December 25th in memory of the birth of Christ.

It is celebrated by a particular church service, by special gifts, greetings and hospitality, and in most Christian communities is a legal holiday.

Because of the world strife, it may be that many of our people will not have a Merry Christmas. However, if we will all realize that Christmas is the anniversary of the birth of Christ and offer up our prayers for World Peace, certainly it will not be long before we can in all earnestness again say "Peace on Earth to Men of Good Will".

Tribute To A Champ!

By Charles Rietdyke

Jerry Pomponio is now totally blind. Those of us who know him, remember him as the "Champ" — big bodied, strongly built, swinging his heavy cleaning baskets with the gay abandon of a man sure of his strength, positive of his ability, happy in his work.

Jerry Pomponio smiled most of the time — built his house, raised a fam-

ily-lived happily until-

In 1947 the lights went dim for Jerry. With agonizing certainty the unrelenting tide of blackness rose—until it finally strangled and engulfed the final faint vision. Jerry Pomponio is now totally blind.

This might have been the end of the trail, except for one thing! Jerry had guts! He fought back! Used to swinging heavy loads, he now learned the delicate movements of weaving and leathercraft. Leather belts and leather bill folds, exquisitely handfashioned by

Jerry and sold at his home at 235 Oak Street will make cherished Christmas presents for many.

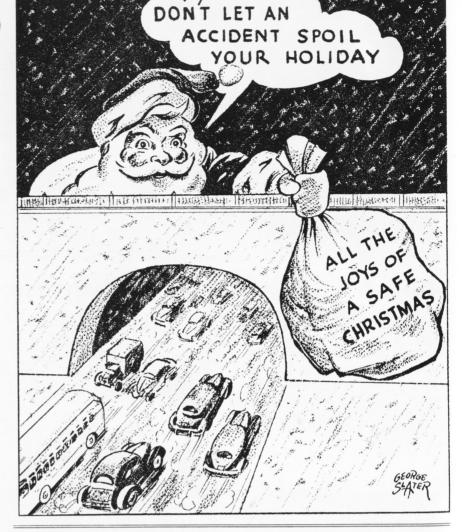

Jerry is winning his long, long battle. It is a far cry from cleaning baskets to leather goods, but Jerry had done it and he can still smile.

To his many friends at Scovill, Jerry lifts his now sightless eyes and says a grateful "Merry Christmas and God bless you all".

Yes, Jerry Pomponio is now totally blind, but he is still the "Champ". Why not drop by and wish him a Merry Christmas, too!

Rod & Gun Club

The annual meeting and election of officers will be held in the Spencer Block third floor conference room on Tuesday, December 19, at 8 p.m. All members are urged to attend.

By Dom Polo

Three more Rod Mill men are sporting service award pins. DAVE GRIFFIN, JOE DESTEFANO and "yours truly" just passed the 10-year mark.

Sometimes it pays to take a chance, 'eh, JUDY! JUDY BRADSHAW won a Toni doll, recently. To say the least, it was quite apropos this time of year.

Our deepest sympathy is extended to JAMES THOMPSON (of the 1st shift) whose brother was killed in Korea, recently.

Congratulations to GEORGE REILLY who was elected new president of the SERA. GEORGE is of the Tube Mill.

Hoping that everyone has the best holiday ever. Merry Christmas!

Have A Safe Christmas

Christmas Tree

Remember—when you bring a tree into your house, it is going to dry up and be highly inflammable. It is best to bring in a fresh tree a short time before Christmas and remove it soon after the holidays.

The tree can be kept fresh if you set it up in a pan of water. Cut off the base of the tree at an angle at least one inch above the original cut and keep it standing in water during the entire period it is up, adding water so that it is always above the cut.

The place you select for your tree should be well away from heat and, held against the wall by inconspicuous wires. When smoking, keep away from the tree.

Lighting

The candle for Christmas is still taking its yearly toll of lives and property. Open-flame lighting is entirely out of place unless you set up your candles and lamps well away from trees, window curtains, and burnable decorations. Have a fire extinguisher handy.

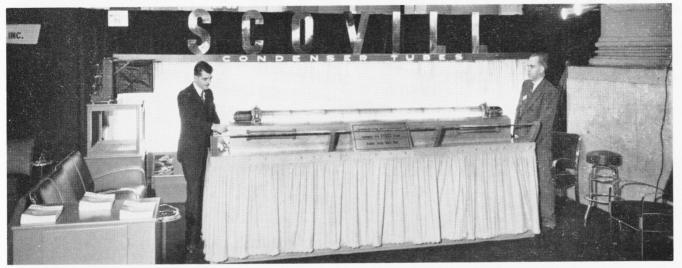

It is important that your Christmas lights be in good condition. A short circuit in worn wiring might be sufficient to start the tree burning. Also, an overloaded circuit is dangerous for fires may start in the walls. Light sets bearing the label of Underwriters Laboratories, Inc., have been tested for fire hazard and pronounced safe by experts.

Inflammable Decorations

Use incombustible materials only for decorations. Flameproofed materials can be purchased. Insist on them. Flame-proofing treatment is also available for home use if combustible materials are used.

If your tree catches fire, call the fire department immediately. Have your fire extinguisher handy. As an additional precaution, have the garden hose connected to a faucet within reach of the tree.

Scovill Glass Model Heat Exchanger At 1950 Power Show

Attendants at the Scovill booth at the recent National Exposition of Power and Mechanical Engineering included: Maurice C. Presley (left), Supervisor—Condenser Tube

Technical Service, and Edward J. Duffy (right) of Metals Research. The exposition was held at the Grand Central Palace in New York from November 27 thru December 2.

Over 30,000 people visited the 1950 Power Show. Tremendous interest was shown by at least 10% of the total visitors (including Engineers, Purchasing Agents and Officials of companies in-

terested in Heat Exchanger applications) at the Scovill booth.

As pictured above, a novel device, consisting of a glass model liquid-to-liquid heat exchanger with colored

fluids, revealed typical flow patterns. This unique demonstration showed lines of fluid flow inside and outside of condenser tubes. Air was entrained to make the flow visible.

Christmas Shoppers' Lists May Include Scovill-Made Metal Products

Many Scovill-made metal products will find their way on or under the Christmas tree — all handsome and practical gifts. Pictured above are a few of the items which include useful gifts for all members of the family.

For the home or homemaker:—Ash trays, thimbles, skirt markers (all metal parts are Scovill-made), machine oil cans, salt and pepper shakers, aluminum coffee tops, aluminum wrap-around for "Globe Trotter" portable radios, GRIP- PER Fasteners, and our line of GREEN SPOT garden hose equipment.

For the ladies:—cosmetic containers such as vanities, rouge boxes, lipstick and eyebrow pencil containers, perfume holders, novelty boxes.

For general use:—bill clips, pocket heaterettes, "jiggers", novelty bottle opener-screw driver-key rings, magnetic fly box for the fisherman, typewriter erasure shields and copy holders for the office, hearing aid cases, etc.

Card Playing

Pinochle

As of December 7, Bill Mancini's men did well for the evening. They were high with 29,280 points. Erv Honyotski's team was a close second with 29,235.

Anthony Laudate took individual high score for the evening with 4,380 points. Bill Phelan was second, 4,255.

To date, Art Denker's men are leading the tournament with 274,705.

Cribbage

The second night of play of the second round was held at the SERA Clubhouse on December 12, with the National League leading the tournament by 150 points.

Totals scored by both leagues for the evening were: Nationals—10,318, Americans—10,235.

Individual high score was taken by Phil Fecteau and Earl Odell who totaled 1,462 points.

Life Out East

By Harry Shewbridge

You could have knocked me over with a breath of Christmas when I heard that a couple of weeks ago DICK SIMPSON of Slide Fastener left the conservatives and got married. That's news that is news! Good health to you both, Mr. and Mrs. S. . . . And before we leave the department, my very charming second shift reporter with the initials L.F. (guess who), tells me that LAURA REYNOLDS is back again after a month's absence due to illness. Your friends are glad to see you back, LAURA . . . Also, the second shift Christmas party is scheduled for the 22nd. They are not going to be outdone by the first shift party on the 18th. Slide Fastener parties are traditionally successful and this year will be no exception.

A week or two ago, your roving reporter witnessed a near tragedy when HENRY PETERSON and CHET MALON, both of Slide Fastener, nearly became subdivided by an automobile in front of the New Haven Junior College. What I want to know is—did HENRY jump or was he pushed?

As space is limited this week, I am going to jump into reverse from the 1st to the 6th floor and wind up with two items. First, the Sales Office. A few days after the recent hurricane, the Cleveland Office called the ASM Sales Office. ANDY MONAGAN answered and a voice inquired, "How is the big wind?" Quite without thinking, ANDY answered, "I'm fine!" Believe me, nobody laughed louder than ANDY . . . Finally, I would like to request that if anyone knows how to keep a hammer from moving away from where he put it down last, please communicate with ART ROBERTS in ASM Packing, who is having double hammer trouble.

Happy Holidays, Everybody!

Girls' Club News

By Barbara Gedraitis

Welcome

A big welcome to the following new members—HELEN HUBBARD PELZER of Slide Fastener and FLORENCE IAPA-LUCHI of Closing.

Stork Wings

SHIRLEY (COLLINS) KREIDEL, formerly of Mechanical Engineering, joined the ranks of mamas when she presented hubby their first, a girl, Carol Amy, on December 4.

Patrick Shea III arrived on November 15 at the home of FAUSTINA (SULLIVAN) SHEA who formerly worked in Metals Research. The proud father is of North Mill Finishing. Congratulations to the happy parents.

Engagements

HELEN JACOVICH, Aluminum Finishing, is a very happy girl these days. HELEN received a very lovely engagement ring from August Krisavage. As yet, no date has been set.

Odds 'n Ends

We're all happy to see MARGARET RIETDYKE back to work in the Central Time Office again.

After vacationing in Washington for an exciting two weeks, MADELYN DUBAUSKAS and ROSE JARRAPINO are back to work.

Credit Union No. 4

The annual membership meeting of Credit Union No. 4 will be held at Doolittle Hall on Monday, January 22, 1951.

Business for the evening will include election of officers, voting on dividends and all other business. All members are urged to attend.

Terence Murphy Receives 40-Year Award

Terence Murphy, foreman of Buff No. 1, accepts the gold pin with a diamond from President L. P. Sperry. Mr. Murphy completed 40 years of continuous Company service on December 1, 1950. On hand to offer their congratulations and best wishes were General Foreman Joseph McConas, Assistant Factory Superintendent Robert Johnson and Factory Superintendent J. G. Wolff.
