Scovill Advertising Wins Award

G. Kenneth Thornton, Advertising Manager, recently accepted the above Certificate of merit awarded to Scovill by the Associated Business Publications for the Company's 1949 advertising campaign on GREEN SPOT Garden Hose Equipment. With nearly 300 campaigns entered, ours was judged one of the 33 which were rated as having made the best and most effective use of advertising space in merchandising type of trade magazines.

Advertising competitions have been sponsored by the Associated Business Publications for the past eight years. This year, in addition to the annual Industrial Advertising Competition, ABP sponsored separately for the first time a competition for advertising in

merchandising publications — the publications directed to wholesalers and retailers.

Entries in the competition were judged by a committee of 14, comprised largely of key buyers and merchandising personnel of well-known department stores, chain stores and buying groups.

Mr. Bayard Allis, account executive of the James Thomas Chirurg Company (one of Scovill's advertising agencies), entered our GREEN SPOT line campaign in the contest. It was entered in Division 5—"Advertising to describe and induce the dealer to use sales promotion aids, such as window display pieces, price cards, counter displays, advertising mats, envelope stuffers, etc."

In addition to Scovill, the 33 award winners included many of the country's largest and best known manufacturers such as:—

Owens-Corning Fiberglas Corp., E. I. duPont deNemours & Co., Inc., The Borden Cheese Co., General Electric Co., Gilbert & Barker Mfg. Co., Armstrong Cork Co., General Motors Corp.-Frigidaire Div., Monowatt, Inc., Revere Copper & Brass, Inc., Cannon Mills, Inc., General Foods Corp., Taylor Instrument Companies, Owen-Illinois Glass Co., and Koppers Co.

New Assignments

Manufacturing Div.

Notices of the following appointments have been received from Vice-President H. W. Wild:

Effective May 8, 1950, Chester A. Burnett has been appointed General Production Manager in the Manufacturing Division of the Main Plant. He will be directly responsible to the Vice-President in charge of Manufacturing, with headquarters in the Manufacturing Superintendent's Office.

Effective May 8, 1950, Milton A. Bristol has been appointed General Superintendent of the Slide Fastener Dept. He will report to Vice-President in charge of Manufacturing.

Mr. S. G. Hickcox, Superintendent of the Screw Machine Products Division has issued notice of the following appointment:

In addition to his present duties as Foreman of the Chucking Tool Room, and effective April 25, 1950, Mr. H. T. Peterson has been appointed Foreman of Chucking Machine and Hand Screw Machine operations in Bldg. 109-4, Dept. 81, Chucking.

He will be located in Chucking, 112-4, and will report to General Foreman E. W. Rochon.

Memorial Day Shutdown

Memorial Day will be celebrated on Tuesday, May 30.

All Main Plant departments will be closed on that day. Notices will be posted within departments as to re-opening schedules.

The Waterville Division will be closed on Memorial Day, May 30, also.

Our Hospitals

Our two hospitals in Waterbury, St. Mary's and the Waterbury Hospital, serve an area with 175,000 residents. These hospitals have given excellent service in the past years. More and more people are using their services because of Blue Cross and insurance programs. Whether or not our hospitals continue to give adequate service depends upon us who may use them.

Medicine and surgery have advanced tremendously in effectiveness in the past 20 years. In order for us to have the advantage of these new techniques it is necessary that our hospitals have adequate space for laboratories and beds, and be equipped with proper apparatus. Our hospitals are now lacking in these requirements. We cannot allow this condition to continue.

Waterbury is blessed with many excellent doctors. If this is to be true in the future we must furnish the modern tools of their profession. Hospitals with up-to-date equipment will draw to us the best in the medical profession.

We may believe that if we go to the hospital and pay our bills we have done our part. If we believe that, we are wrong. Each hospital loses money each day we use them. The difference is made up through the Community Chest and other gifts and from income from endowment funds. Our hospitals are non-profit institutions.

They have no funds for keeping up with the times by adding space, laboratories and equipment. Such funds must be raised separately. Our hospitals have worked together and have combined their total requirements for funds to meet the requirements of us who use them.

We will each have opportunity to pledge our material support to this project. We can do this knowing that we will be helping ourselves. Someone in each of our families will have need of improved, modern hospital service in the not too distant future.

Here at Scovill we will not have "in plant" solicitation and payroll deductions. But every employee will be given opportunity to help. You will be kept informed of the program.

Alan C. Curtis
Vice-President

Woodtick Recreation Area Opening May 27

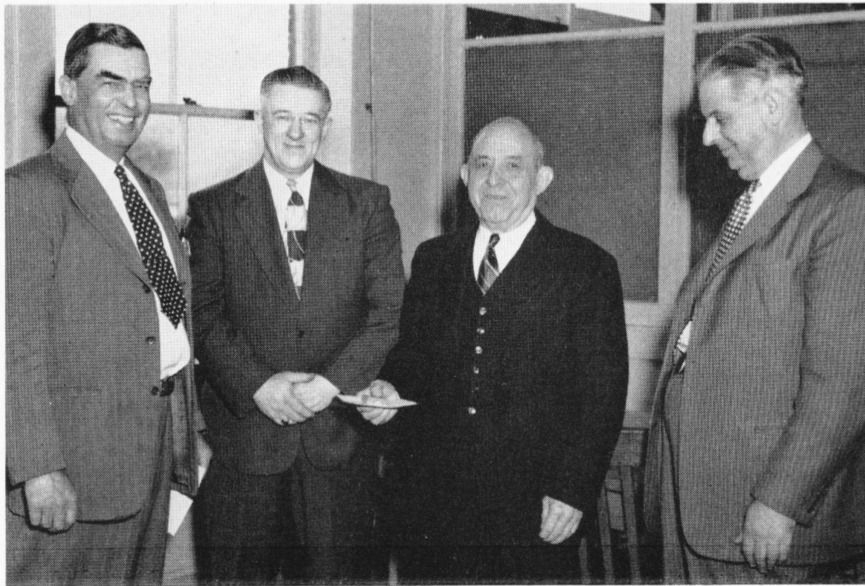

The Woodtick Recreation Area will be opened officially for the summer season on May 27. The swimming, picnic and games areas have been readied for use by employees and members of their immediate families.

Main Plant and Waterville Division employees will receive their Employee

Swimming Permits in their departments soon, together with an application blank for requesting passes for members of their immediate families, residing at the same address.

Well-qualified lifeguards will be at the Swimming Area for the summer beginning Memorial Day, May 30.

40-Year Award For Raffaele Guerrera

Raffaele Guerrera, Waterville, (third from left) is shown after having received his 40-year continuous service award with one diamond from Vice-President and General Manager S. G. Gaillard, Jr. Foundry Superintendent P. M. Malloy and Plant Manager L. G. Robinson smile their approval.

It's Your Federal Government

By Robert L. Johnson

President, Temple University, and Chairman Citizens Committee for the Hoover Report

No. 9 Commerce—A Disintegrated Department

The Dept. of Commerce is a division of government whose functions, like the sheep of Bo Peep, have strayed away into nearly every other agency of the Executive Branch. Unlike that young shepherdess, the Department knows where to find them, but it will require a major reorganization to bring them back into the fold.

In the Act of 1903 which created the Dept. of Commerce, its activities and responsibilities were specified to include the development of industry, transportation and commerce. But in the 46 years of its existence, while some of the functions have been placed in other agencies, transportation matters have become scattered over many parts of the government.

During those years transportation developed rapidly along lines never envisioned by the framers of the Act. The vast activities of motorized transportation and expansion of commercial aviation have grown up outside the jurisdiction of the Dept. of Commerce. They have come under the control of independent regulatory commissions. The bipartisan Hoover Commission recommended that all administrative matters relating to transportation be transferred from these commissions and restored to Commerce.

These are the strayed functions which the Commission says should be called home to the Department:

The Maritime Commission, now practically independent . . . *National Advisory Committee for Aeronautics*, independent . . . *Civil Aeronautics Board*, with respect to certain safety devices . . . *Interstate Commerce Commission*, in respect to safety and car service . . . *Public Roads Administration* . . . *Office of Defense Transportation* . . . *Coast Guard*, now in the Treasury Department . . . *Division of Commercial Fisheries*, now in the Fish and Wildlife Service of the Department of the Interior.

In assuming full control of our transportation system, the Commerce Dept. will be taking on a man-size job. This country has more than 227,000 miles of railways which, each year, haul 600 billion ton-miles of freight and operate 70 billion passenger miles. Our air services operate more than 7,000,000 passenger miles annually and transport cargo and mail over 100,000 miles of domestic routes and 179,000 miles of international routes with 6,000 airports.

We have a million and a half miles of surfaced roads, 27,000 miles of improved inland waterways and nearly 5,000 ocean-going ships.

Our government has gone after transportation in a big way. In the past 30 years it has spent \$30 billion in the development of transportation facilities and before July will have spent another billion. There are 89,000 federal employees engaged in various areas of transportation.

Of the various agencies which the Commission would add to the Dept. of Commerce, the Report makes several points:

The Maritime Commission, as it stands, is an independent body made up of full-time members who have various functions but, the Commission says:

"It is an anomaly that a regulatory commission should also conduct the executive function of managing a large business; that such executive functions should be carried on by an agency that is not subject to Presidential direction; that executive functions should be carried on by a full-time board, of which all members have equal responsibility and authority, instead of a single administrator.

"The *Coast Guard* is obviously misplaced in the Treasury. Considering the nature of its work, its location there has no reasonable basis. On the other hand there is need to coordinate its work with that of the Civil Aeronautics Administration and the Maritime Commission and with the work of the transportation agencies.

"The *Bureau of Customs* of the Treasury Dept. performs certain marine functions which have largely to do with transportation. The Commission recommends that a study be made of its marine functions to determine if it cannot advantageously be transferred to the Dept. of Commerce.

"The *National Advisory Committee for Aeronautics* is not directly in the line of Presidential authority and it is unsound organization for it to be governed by a committee. It should be placed under the Bureau of Civil Aviation in the Commerce Dept.

"The *Public Roads Administration* should be transferred to the Dept. of Commerce from Public Works.

"The *Weather Bureau* serves both aviation and the Merchant Marine. We recommend that it be coordinated in the Commerce Dept.

"The Commission recommends that all commercial fishery activities of the Dept. of the Interior be transferred to the Bureau of Commercial Fisheries in the Dept. of Commerce."

Now there, in brief, is the situation in the Dept. of Commerce. More efficiency could be attained by following out these recommendations but this will not necessarily happen by itself.

We, the citizens, must demand it. We must make it clear that we do not approve of such conglomerate methods of government and that we want a much-needed change.

We should write to our Senators and our Congressmen and tell them what we want. They are there to represent us and to try to fulfill our wishes.

All we have to do, therefore, is to make it clear beyond any doubt that we want the Hoover bills to pass. The rest will take care of itself.

Rod & Gun Club Notice

The May meeting of the Rod & Gun Club will be held on Tuesday, May 16, in the 3rd floor Conference Room of the Spencer Block at 8 p.m.

A Handsome Group Of Scovillites' Youngsters

In pictures from left to right are (first picture):—Jeri, Kathie, David and Nancy Descoteaux whose dad is of the Extruded Rod Mill. Their mother, the former Kay Carroll, had worked in the Merchandise Sales Office.

Next is Walter Buczak, Jr. whose dad is in Mechanical Engineering. His mother, Wanda, is formerly of the Slide Fastener Department.

Baby Jim Finnegan is the grandson of one of our retired folks, George

Nolan. Jim's mother, Alice, is formerly of Packing A. Uncles James and Fred Nolan are also Scovillites.

Marcel Collin is the son of Marie who is employed in the Assembling Department in Waterville.

Inter-Dept. Softball

The Inter - Department Softball League, consisting of twelve teams, got under way on Monday, May 8. The games are being played at the Brass Mill Diamonds on Monday and Tuesday evenings, starting at 6 p.m.

The teams competing in the League are: North Mill (last year's champs), Advanced Training, West Machine, Metals Research, Slide Fastener Tool, Gripper Eyelet, Slide Fastener Production, Waterville Foundry, Button Tool, Trucking, Merchandise Stores and Trim & Knurl.

The twelve teams in the League will play one complete round. The top six teams in the first round will play a round-robin type playoff. The winners of the two rounds will play off for the League championship.

Girls' Club News

By Barbara Gedraitis

The annual banquet, held at the Hotel Elton on Saturday, April 22, was a big success. Approximately 200 attended. Retiring President BETTY AFFELDT presided at the head table. She introduced our new president, MURIEL HAM, and her staff. Guests of honor included Mr. and Mrs. Leavenworth Sperry, Mr. and Mrs. Alan C. Curtiss, Rev. Doherty, Mrs. E. O. Goss, and Rev. Heydenreich. Dinner music was furnished by Tommie Thomas and our soloists were MRS. MILDRED LEZOTTE and AGNES LAD-DEN. Congratulations to Chairman of Entertainment LUCILLE PEPIN and her committee who put the finishing touches on a fine term with this grand party.

The welcome mat is out to our newest additions: PAULINE BRESNAHAN, North Mill, NINA CIARCIA, Waterville, RUTH ANN HOUGHTON, General Sales, STACIA OSTROSKI and ALMA TORRE of Slide Fastener.

Our sympathy goes to BARBARA MORTISON, D & C Sales, on the passing of her grandmother recently.

SUE GUARRERA, D & C Sales, reports we have a very nice selection of Gift Cards, Note Paper and Everyday Cards. Anyone who would like any of these items are asked to contact SUE or a Council member.

In the SERA Inter-Department Bowling League, Electric Shell won first honors. ANN KISONAS of Lipstick, HELEN JACOVICH of Aluminum Finishing, FAUSTINA SHEA of Metals Research, BETTY AUDIETIS of Waterville, and "yours truly" of Trim & Knurl make up the team.

OLIVE GAFFNEY, Employment, and JAMES GILL, West Machine, were married on April 29. Best wishes!

Poor Housekeeping---Everybody's Enemy

Good Housekeeping---Everybody's Job

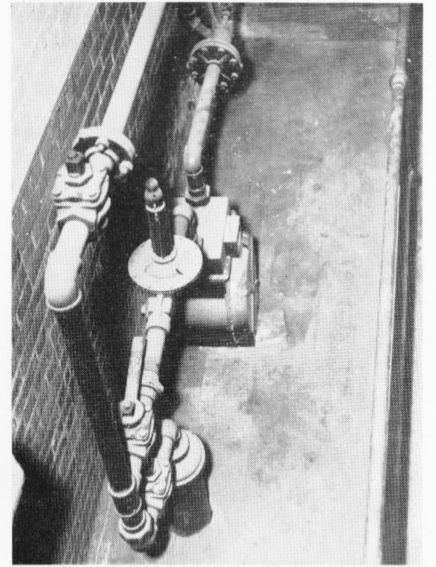

Before

Careless disposal of trash in a "no-man's land" between rooms can endanger the plant as a fire hazard as well as cause injury to employees, such as meter readers who must visit this area.

After

The same area after clean-up.

Shops, like people, are judged a lot by appearance. There's good reason for this. A sloppy, dirty, disorderly work area is often a place where people get hurt — where production runs into trouble and workmanship becomes substandard. Frequently these conditions also set the stage for fire.

Springtime is clean-up time, and in our plant these past two weeks a drive has been on to clean out the trash and remove unwanted materials.

Tons of trash and salvagable materials have already been removed with more to go and the result of this drive will be a cleaner, safer place to work. However, the only way we can maintain the improved appearance is through sustained effort in every day housekeeping.

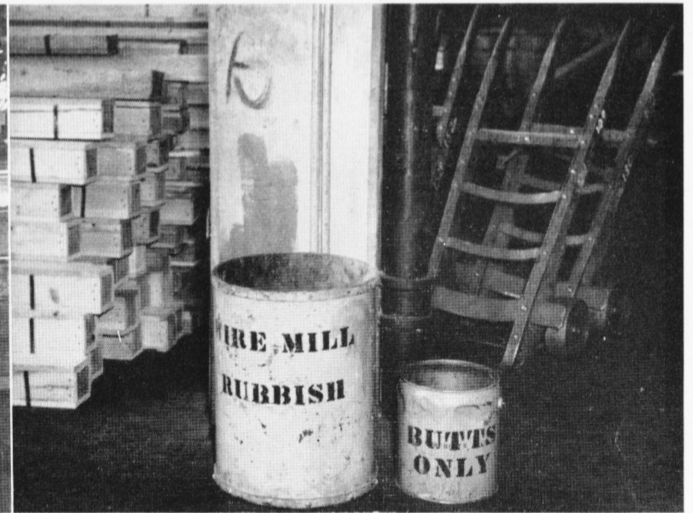

At the right are a few pointers from some of our departments whose

reputation for continuous good housekeeping goes beyond the walls of our plant.

1. Have a place for everything and put things in their proper place. This includes trash in trash cans and butts in butt cans only.
2. Don't let stuff go onto the floor if it has to be picked up or wiped up later on. Get it into the right place the first time.
3. Avoid placing seldom-used materials around busy spots.
4. Return surplus materials to stock or stores.
5. If space is limited, keep supplies down to the lowest working quantity.
6. When "visitors" do work in the area, be sure they leave the area as good as they find it.
7. Keep materials in orderly, compact piles and maintain aisles and pass-ways to exits, extinguishers and stretchers.
8. Remember that housekeeping is teamwork—not somebody else's job.

Clean, clear aisles such as this keep traffic moving and with speed and safety.

Proper containers properly used keep areas looking good and reduce the danger of trash fires.

By Betty Young

BARBARA GEDRAITIS is the new reporter for the Girls' Club. Lots of luck, BARBARA. Your next job will be with the New York Times!

BOB CURRIE is recuperating in Waterbury Hospital after an operation. We all wish you a speedy recovery, BOB, and be back with us soon.

MADLINE CAGGIANELLI FERRI wishes to be remembered to all Trim & Knurlers.

Congratulations to MR. & MRS. MARIO GUERRERA on the birth of their first child, a daughter.

The welcome mat is out to BLANCHE ARNOLD who is on the first shift and is a former Trim & Knurler and, to CHARLES SMITH who is a new employee and is on the second shift.

LOUIE RAGOZZINO is moving out to the lake this summer and says that his son, Frankie, plays the guitar and can serenade him on the beach.

SERA All-Men Golf

The SERA All-Men Golf League will get under way on Tuesday, May 16, with sixteen two-man teams entered. The League will play one complete round of round-robin type, with occasional special matches and outings during the summer.

The men pay weekly dues which will go toward prize money and a banquet at the completion of the season.

Season's matches will take place at the East Mountain Golf Course as soon after 5 o'clock as possible.

Fishing Notes

By Jim Littlejohn

The weather hasn't been too kind to anglers — especially on weekends. The "big ones" are still waiting to be caught. Ask our Quassapaug Double Quartet who visited Lakeville—2 trout!

Our patient and persistent Scovill fisherman, NEIL GRANOTH of Waterville, has started the 1950 season in grand style, with a nice brown trout—14 $\frac{3}{8}$ " long. He and his son had 2 brown and 2 rainbow trout from Woodtick.

BRIAN MADDEN got snowed under at Woodtick and had to walk home. Yes, BRIAN, how about that!

Life Out East

By Harry Shewbridge

Some of us folks got together and treated MARY and DICK RENNA at the Colonnade on April 27. To those who weren't there, she sends a sincere "thank you" for the mahogany bridge set. Gone, but not forgotten.

Speaking of going away—when this goes to press, the "little man", JOHNNY CAROLAN, of Credit Union fame, will have been sojourning in St. Mary's Hospital for one week and plans to stay for three. I'm sure he'd appreciate visitors. Don't forget to bring a pack of cards!

As for Chucking—it has become a godparent again. PEGGY and FRANK WAITR had a fine baby boy the weekend of May 5. Will it be named Kingsbury?

Wedding bells rang for EDA FLAMMIA on May 12, and a sigh ran through Chucking. It sure must be a romantic place, that 4th floor.

The 15th marked the 12th wedding anniversary for yours truly. Before you say it, how could any woman stay married to a time study man for 12 years and remain sane? Well, she's still married to me, so the conclusion is obvious. A very large orchid to her.

I think it only fitting to make public notice that due to the inspiring article by JULIA McMANUS on the subject of my hat, I have purchased a new one.

Classified Ads

FOR SALE

Lady's Wilton brown and white golf shoes, spike soles and heels, size 5 1/2 C, never worn, \$6; man's grey all wool double-breasted suit, size 42, worn twice, original price is \$65, will sell for \$35. Call 3-3779.

Bridesmaid gown, hat and mitts to match, pink, size 11. Call 3-7459 after 4 p.m.

Electric heat control for a coal furnace. Good as new, \$20; kitchen table, \$2; 3 sets of picnic tables with benches, \$5 per set; 2 awnings complete with fixtures, size 6x5', used 2 months, \$10 each. Call 3-8862.

Two white Palm Beach suits, one is double breasted and one is half belted, suitable for young man's graduation or prom, size 38; baseball suit, regulation, solid grey with blue trim, size 38. Call 5-4643 or 4-1534.

Strawberry plants, 100 for \$1. Call 4-1323.

1948 Chevrolet pickup truck, driven 5,000 miles; 1940 Chevrolet sedan, perfect condition. Call 4-0450 after 6 p.m.

Farm deep freezer. Call 4-4950.

Divan and chair, 2 sets of slip covers. Call 5-7979 after 6 p.m.

Combination Fenway stove, coal and gas, dual oven, cream and black, very reasonable. Call 6-0154.

1930 Nash sedan, good tires, very good running condition. Call 4-8929.

Three inner-spring mattresses, clean; six varnished kitchen chairs. Call 3-2881 between 5:30 and 6:30 p.m.

Old-Time Bulletin Negatives Available

Earle Pierce, Scovill photographer, reports he has a collection of photo negatives on glass, size 5 x 8, of Scovill employees which were taken between 1918-1928 for use in the old Bulletin when it was published by the Scovill Foremen's Association.

These individuals, or members of their families or friends, who might like to get these glass plates may have them for the asking. Contact Earle at the Photo Lab, phone 779.

Plates which are not called for within a reasonable time will be destroyed as of no further use.

Baby carriage, very good condition, has sun visor, storm shield, non-tip safety stand, carriage pad, \$25. Call 5-3803.

Handy Hot portable washer, like new, \$20. Call 3-4765, Mon.-Thurs., after 3:30 p.m.

New, grey enamel, Magee coal stove, 3 gas burners, good condition. Call 5-5652 after 4 p.m.

Twin stroller, good condition, reasonable. Call 4-1008.

Cabinet style table suitable for TV or radio, \$3; porch glider, \$5. Call 3-6961 evenings.

New ringer head for Hot Point washer, half price; other parts free. Call Southington 462W1 after 5 p.m.

16 x 20' tent, 5 camping chairs, like new, cost me \$130 — will sell for \$90; 2 adjoining lots on Transit St., 60 x 120', reasonable. Call 5-7308 after 4 p.m.

Grey kitchen range with oil burner; Philco floor model radio; both in very good condition. Call at 168 Wood Street, floor 1.

Two clean oil drums with faucets, \$7. Call 3-2883.

One twin size mahogany bed with a practically new inner spring mattress. Any reasonable offer accepted. Call 6-2081 evenings.

Portable phonograph with records in a case, \$9. Call 3-0522.

1937 Plymouth, 4-door sedan, radio and heater, \$75. Call 3-2270 between 3:30 and 4:30 p.m. or call at 33 West Clay Street, floor 1 anytime.

Combination stove with Florence oil burner, cream colored, A-1 condition, \$50. Call 5-3657 or at 91 Wolcott St.

RENT WANTED

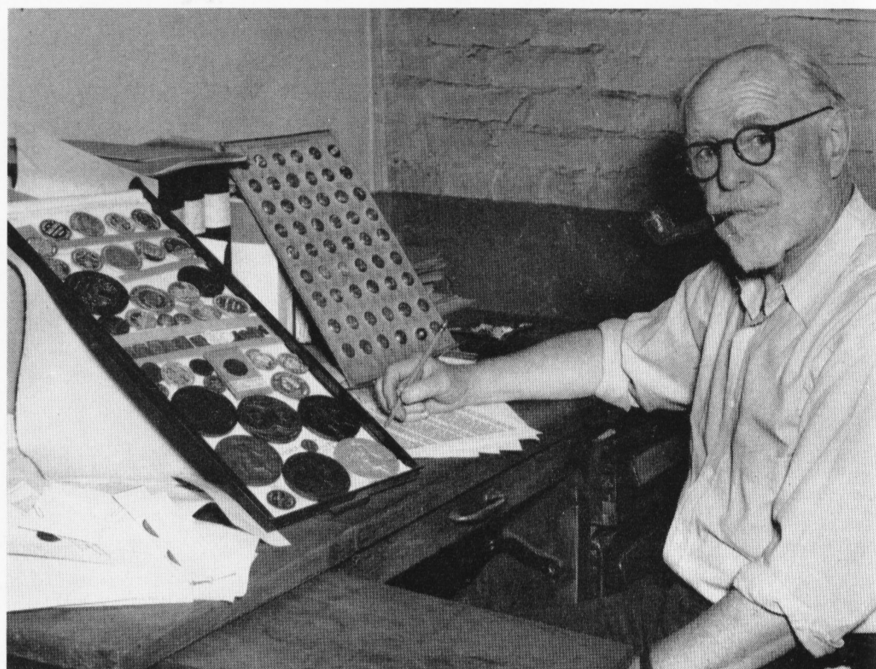

Garage in vicinity of High Street. Call 3-6756 mornings.

Woodtick Gardens

The plowing and harrowing of the garden plots was scheduled for early this week — provided good weather continued, allowing the ground to dry enough for such activity.

At press time, approximately ten choice plots remained unreserved. If you are interested in having a garden at Woodtick this summer and haven't already made your reservation, contact the Employee Activities Office soon, phone 834.

E. H. Davis, Retired--In Name Only

Bernard Shaw says, "a perpetual holiday is a good working definition of hell." Mr. E. H. Davis, who retired from active Scovill service on July 1, 1949, says that he has yet to discover this is so. For him certainly time has not dragged as he is continuing his most interesting study of the Company's old-time work in the art of buttons and medals.

Mr. E. H. Davis, who retired from active Scovill service last July, has long been engaged in a study of the Company's old-time work in the art of buttons and medals. Since his retirement, he has continued his research which is proving to be a most interesting and educational project.

A rich and fascinating story, Scovill's history has its tragic spots. One was the fire of 1830. Of the brave achievements of the little plant up to that time, pitifully little has survived for study. Another was the midnight fire of 1881 which left the button and medal shop a jumble amid brick and cinders.

To recapture wholly the records of what went before, to say nothing of the actual buttons and medals in the 50 years between 1830 and 1880, is an impossibility, but good fortune has brought much out of the past.

For example, Mr. Davis in talking with a Naugatuck collector recently, learned that this collector had in his possession a famous medal granted to Scovill more than a century ago. He had acquired it at a New Haven collection and has promised it as an addition to the Scovill exhibit.

Another bit of good fortune came when Mr. Davis obtained two of the earliest Scovill-marked buttons from other collections. These buttons were made by us for the government during the war of 1812.

Possibly there are others around. If any reader has or may know of buttons or medals of other die-struck planchets of that period, Mr. Davis would appreciate hearing about it. He may be reached through the Bulletin Office.

Rod Mill Topics

By Dom Polo

Heard that TOM RYEAL enjoyed winning three Titleist golf balls recently. His friend CHARLIE VAUGHAN said the only reason he won them was because he didn't have any stiff competition. Must be sour grapes, eh, TOM!

HORACE BURR left us to work in the Mill Production Office. Lots of luck in your new work, HORACE.

ED MITCHELL and his wife celebrated their tenth wedding anniversary on May 4. Congratulations.

Three Men Succumb

Maurice Flaherty

MAURICE FLAHERTY, retired, died on April 27, 1950.

Mr. Flaherty had thirty years of continuous Company service when he retired on October 21, 1944. He had been a Sergeant in Plant Protection from 1918 until his retirement.

Otto Telash

OTTO TELASH, Plating, died on April 29, 1950.

Mr. Telash received his twenty-five-year service pin last March. Always in Plating, he was a rack maker at the time of his death.

William Henderson

WILLIAM HENDERSON, retired, died on May 6, 1950.

Mr. Henderson had served Scovill continuously for forty-six years. At his retirement on July 1, 1944, he was general foreman of East Machine.

Calling All Fishermen For The Best Catch Of The Year

It's going to be a fine season for Scovill fishermen. In addition to the ample numbers of pickerel, black bass, calico bass, perch, trout and bullheads already in—200 brown trout (10" to 14") were put into the lake recently.

Dan Camerota (right) of the Finishing Lab holds an 18" trout which was put into the lake by the Rod & Gun Club. A special prize of \$3. is being offered to the Club

member who is lucky enough to catch it. The competition for this fish started April 15 and will end with the final Reeves competition. As fishing at Woodtick is open to all employees, Club members had better get out their best bait for this catch. A non-club member may keep the 18-incher should he catch it,— no prize, of course.

Fish must be measured by the Caretaker at the Lake.

Model Association

The first stunt contest of the season, scheduled for Sunday, May 7, was cancelled due to poor weather conditions.

The next contest (speed) will be held at Woodtick on Sunday, May 21.

Those interested in participating should contact Willis Pond, General Training Room.
