Published by the Scovill Manufacturing Company for its Employees.

Vol. XXXV

February 19, 1951

No. 4

*"The time is now near at hand which must probably determine whether Americans are to be freemen or slaves . . . Our cruel and unrelenting enemy leaves us only the choice of a brave resistance, or the most abject submission . . . Let us then rely on the goodness of our cause, and the aid of the Supreme Being, in whose hands victory is, to animate and encourage us to great and noble action."*

—From Washington's Address to his American troops.

## SERA Card Party Set For April 13

The SERA is planning a new and different card party to be held at Doolittle Hall on Friday, April 13. Games will include bridge, canasta, cribbage, pinochle and setback, with prizes for each division.

Terry Griffin, C.T.O., has been appointed Chairman of the committee with Lena Garafola, Muriel Ham, Joe Brenneis, Erv Honyotski, and George O'Meara assisting.

## New Assignments Tool & Development

The following notice of appointment has been received from W. H. Machin, Superintendent, Tool & Development Div.:

Effective Feb. 5, 1951, Charles P. Paul has been appointed a Foreman in the General Manufacturing Tool Room, Dept. #354. He will report to General Foreman J. A. Muckle.

### Mills Division

Mr. J. J. Hoben, Works Manager, Mills Division, has issued notice of the following appointment:

Effective January 29, 1951, Peter Palumbo was appointed Supervisor of the Tube Mill Drawbench Division. He will report to General Foreman John Greaney.

## Scovill Blood Program Scovill Day - March 6th

Tuesday, March 6th, has been designated as another "Scovill Day" in the city's blood program. The American Red Cross' mobile unit will be stationed at St. John's Parish house to accept donations.

Scovillites who had registered for the earlier "Scovill Days", and were not scheduled or were rejected until a later date, will be contacted for March 6th donations. Departments not previously contacted will be included.

All who do sign up for contributions on March 6th are asked to make every effort to keep the appointment. If impossible to do so, please call the Employee Activities' Office and advise them of the fact in order that they may keep the schedule intact.

## February Is Heart Month

There'll be no fund-drive in our community since the Waterbury Heart Association receives support through Federated Funds.

This February, however, the Heart Association does want to say "thank you" for your help — and to tell you that, through your continued support, the 1951 program can carry on its work to bring *New Hope for Hearts*.

## More About The Fund

The adjustments in the rates of individuals who are participating in the so-called \$42,000 fund have been included in pay for the week ending February 10, 1951. Checks for time worked from October 23, 1950 to February 3, 1951 will be distributed at an early date. Checks will be mailed to the last known address of those who were eligible to participate, who have left the Company's employ since October 23, 1950. Thus, a long-standing issue is settled.

These adjustments increase costs. While the total adjustment is not large when compared to total payroll, it will have its effect on sales price unless those who receive it increase their productivity. Higher and higher wages are nice to receive—but do they buy more?—or less? Certainly the cost of living has been increasing with discouraging regularity.

It is a trite but true saying that "we can't have our cake and eat it too." Rising wages force prices up. Then the rise in price sets in motion wage demands. It is all pretty shortsighted. In the long run, no one can win a race on the merry-go-round of wages chasing prices.

*Alan C. Curtis*  
Vice-President

## SERA To Sponsor Dog Training Class

The SERA is "going to the dogs" in the latest feature to be added to its activities program.

Starting Tuesday, Feb. 27, at 7:30 p.m., weekly classes in dog training will be conducted at Doolittle Hall under the direction of professional trainers Calvin Haveland of Bristol and Doug McShane of Hamden. Ed Develeskis, Tool Room, is chairman.

On Feb. 27, movies will be shown and demonstrations will be conducted with a trained and a non-trained dog. All expecting to attend are asked not to bring their dogs to this first meeting, but to come and get preliminary instructions and detailed information.

## Girls' Club Reports On 1950 Christmas Activities

Two parties for Scovill children were sponsored by the Girls' Club again this year. Toys, entertainment and refreshments were provided for 1200 children, at a cost of \$395.11.

Other expenses included: \$509.94 for 41 Christmas dinners, \$333.50 for sweaters for 124 needy children, \$118.90 for gifts for 53 retired members. Expenses totaled \$1,357.45.

Receipts were: individual contributions, \$8.00; Scovill Sunshine Fund, \$200.00; SERA, \$150.00; the remainder being made up by the Girls' Club with the assistance of all employees who purchased Christmas cards from the Club.

## Inter-Department Basketball Champions

"Holiban's Raiders"—a new team in the SERA Inter-Department Basketball League—have finished the season in top place. Taking high honors in both first and second rounds, the Merchandise Stores team has captured the Inter-Department Basketball Championship title this year.

The boys who make up the team are (kneeling, left to right):—Evon Gelinas, Wally Scanlon, Laz Iannaccone and Bill Thomas. Standing, are:—Dick Kruse, Buck Titor, "Pottsie" Traver (mascot), Bob Dickey and Emile Rochon, Jr. Congratulations, boys, that is quite a record.

## It's Your Federal Government

By ROBERT L. JOHNSON

President, Temple University, and Chairman, Citizens Committee  
For The Hoover Report

### War And The Hoover Report

"War is hell" is a saying which we have all heard in commenting on everything from blackouts to butter shortages. Yet its sober meaning is never far from us, for the tragic memories of World War II are fresh and vivid.

So it is understandable that, facing the possibility of an even greater conflict, citizens are deliberating most seriously on every phase of our mobilization. We hate war; but if it is a real possibility, we are determined to be as well prepared for it as possible—particularly because of the apparent strength and ruthlessness of our potential adversary. This article tells of one important way in which we can contribute to effective defense mobilization.

Let us look first at Russia's greatest advantages:

**Superior numbers of manpower.**  
A government which like all dictatorships can "turn on a dime" without public discussion or debate.  
**An economy which has never stopped being geared for war production.**

All of these are factors that we must overcome in our mobilization—while at the same time building armed might to insure successful defense and ultimate victory.

Our federal government is taking the necessary steps to build a real arsenal for defense. We can be confident of early and complete success here because American industry and American labor are the best in the world when it comes to production.

But on *manpower* (our greatest weakness in comparison with Russia), and on *efficient and effective administration*, we can not be so optimistic.

We still have a creaky, ill-organized, and wasteful governmental structure which badly needs streamlining. We still are not making the best use of the time, talent, and energies of the 2 million persons who work for the federal government.

But we can be thankful—it could be much worse. Because one-half of the bipartisan Hoover Report for reorganizing the government has been put "on the books", many government operations are running more smoothly.

We can be eternally grateful that chief among these was the real unification of the Armed Forces under the Hoover Commission's Military Unification Act of 1949. The speed and teamwork with which we met the initial crisis of the Korean war are direct

results of this law. Without it—well, let us simply say that the preparation for the North African landing took 18 months. Yet from a "standing start" we had an equal force in Korea in 6 weeks.

Today the Defense Establishment has a strong, effective organization—an organization that can grow and remain efficient, getting the most results from every man-hour and every dollar. For that alone, we could say the Hoover Report has made a great contribution to our security.

But there are other benefits:

The *Labor Department* raised to its proper Cabinet stature,

*Budgetary and Accounting* improvements which can eliminate thousands of unnecessary jobs,

a *State Department* with greatly improved internal structure,  
a new *General Services Administration*.

No more will the government pay \$10 in purchasing paperwork to buy a 50-cent item.

All in all, one half of the Hoover Report has improved the country, and citizens everywhere who worked hard to insure the enactment of these measures can take pride in a fine public service. But let us not be satisfied, particularly now when every American must do everything he can to make the nation strong. Let us just say that accomplishment merely proves the job can be done—the *whole* job.

In my next report we'll see what we, as citizens, can do to *make sure* our national security is strengthened by the balance of the Hoover Report.

## Our Family Album--The Younger Generation

Sandra Deely, one year old, is the daughter of the former Eleanor La-Flamme who had worked in Emp. Rela. Cousin Barbara is of Sl. Fast.

## Survival Under Atomic Attack

(The material in these articles is from a report by the Civil Defense Office, a part of the National Security Resources Board.)

### No. 4—How Should A House Be Prepared?

**Fireproof Housekeeping.** Starting right now, you should go in for "fire-proof housekeeping". Don't let trash pile up around your house and always keep it in covered containers.

When alerted, close all windows and doors, and guard against injury by flying glass.

If you know you have time when an alert sounds, be sure to shut the doors and windows and pull down the shades. This will keep out fire sparks.

If you have shutters or venetian blinds, or heavy drapes, they will also provide some protection against harm from flying glass.

To prevent explosions, shut off oil burners.

Several other household precautions should be taken promptly. Atomic bombs set off high above ground seldom cause breaks in underground gas or water mains. However, shaking and twisting of the buildings by the blast

wave sometimes snaps off household inlets at the point where they enter the basement. This may allow gas or oil to flow into your cellar.

To lessen the danger of fires and explosions that could result from this leakage, you should throw the electric switch that shuts off your oil burner.

Your local utility companies can give you detailed instructions about your gas, pilot lights, etc.

If you have a coal-burning furnace or wood stove, be sure to close all fuel and draft doors. In other words, do all you can to prevent sparks and to put out or cover open flames.

Keep a flashlight handy. Should attack come without warning, take these same precautions right after the raid. Keep at least one flashlight handy and don't strike a match to light your way down into a darkened basement. Gas or oil fumes may be present and an explosion could result.

### What About Radios, Telephones?

Neither explosive nor lingering radioactivity has any effect on the operation of most mechanical or electrical devices.

Unless the wires are down or there is a power failure, both your lights and telephone should continue to work. But don't rush to the phone just to find out how Aunt Susie may have weathered the attack. Leave the lines open for real emergency traffic.

The bomb's radioactivity will not interfere with the operation of your radio. In the event of attack, be sure to turn it on. It may be your main source of emergency instructions.

Don't forget: Battery-operated portable sets, including those installed in automobiles, will continue to work even if the city power goes off.

Television reception, like radio, won't be jammed by radioactivity.

Young Jerry Ranaudo is all set to go to a fire. He was four years old on September 16. His dad, Jerry, is an employee of ASMD.

# Newly Elected Officers Of Main Plant And Waterville Division Credit Unions

The officers of Credit Union #1 are: (seated) President John Robinson and Asst. Treas. Jean Monnerat. Standing (left to right): Board Clerk Frank Martin, Secretary-Treasurer George Garrity and Vice-president Joseph Wolff.

Credit Union #2—Secretary-Treasurer Walter Derouin, President Dominic Paternostro and Vice-president Salvatore DiNuova.

Credit Union #3—Treasurer George Reilly, Secretary John Greaney and

Vice-president Ed Paige. Robert Shove (absent) is President.

Credit Union #4—Secretary Dick Simpson, Vice-president Ivan Boyd, President Harold Stieler and Treasurer John Carolan.

Credit Union #5 (Waterville Division)—Treasurer Max Koblrenner, Secretary Margaret Sullivan, President David Hanley. Vice-president Peter Armour was not available when the picture was taken.

There are, at present, five Credit Unions operating in the Main Plant and Waterville Division for employees' benefits.

Credit Union #1 is set up for employees of the West Plant (except the North Mill).

Credit Union #2—No. and Wire Mills.

Credit Union #3—Casting Shop, Extruded Rod, Tube, and Continuous Strip Mills.

Credit Union #4—East Plant (except those listed in Credit Union #3).

Credit Union #5—Waterville Division.

## Credit Union #1

Board of Directors:—John Cullinan, Raymond Murphy, Leo Belliveau, John Bresnahan and James Bruno.

Supervisory Committee:—Stanley Sunderland, John Carey and Ray Ingram.

Credit Committee:—Tennant Elwin, Norman Schaffer and Charles Healey.

A dividend of 2.8% was voted for the year 1950.

## Credit Union #2

Board of Directors:—Carl Longo, Peter Moneta and Peter Arots.

Supervisory Committee:—Henry Friez, James Ryan and Albert Gelgud.

Credit Committee:—Carl Longo, Peter Moneta and Angelo DeGiovanni.

A dividend of 1.2% was voted for the year 1950.

## Credit Union #3

Board of Directors:—Joseph Keroski. Supervisory Committee:—John Carrington, Willard Shove and Edward Sabis.

Credit Committee:—John Degnan, Willard Shove and John Carrington.

Educational Committee:—George Reilly and John Carrington.

A dividend of 3.6% was voted for the year 1950.

The limits on shares have been increased from \$1500 to \$2000.

Employees of the Continuous Strip Mill, who are members of another Credit Union, are asked to transfer their accounts to Credit Union #3 as the Strip Mill is now officially in the area covered by this Credit Union.

## Credit Union #4

Board of Directors:—George Clark, William Rotella and Ed Pannick.

Supervisory Committee:—Al Hughes, Tom Deeley and Art Proper.

Credit Committee:—Emile Brodeur, John Gorman, Marie Lerz, John Capone and William Phelan.

A dividend of 3% was voted for the year 1950.

## Credit Union #5

Board of Directors:—Loretta McGrath, Josephine Levenavich and Daniel Colangelo.

Supervisory Committee:—Robert Dunn, Arthur McSweet and Raymond Kozen.

Credit Committee:—Charles Campi, David Hanley, Arthur Lanouette, Lida West and Irene Jorgensen.

A dividend of 3.6% was voted for the year 1950.

## 1950 Safety Records

The Safety Department is issuing signs to 52 departments commending them for good safety records in 1950.

During 1950, 44 departments operated without a single day lost because of an injury. They were:

Drawing, Drill & Tap, Stamp, Connector, Mfg. Packing A, Repair, Mdse. Warehouse, Mfg. Dept. Stores, Elevators, Buff 2, Buff 3, Wet Rolling, Alum. Finish, Lacquer Wash, Lacquer.

Japan, Cutting, Closing, Burnishing, Button Packing, Sl. Fastener #93, Sl. Fastener Stores #95, Shell, Cleaning #85, 112 Service, Gen. Mfg. Tool #1, General Training #1.

Milling & Grinding, Model, Chucking Tool, Hot Forge Tool, Button Tool, Sl. Fastener Tool, Tin, Welding, Paint, Blacksmith, Yard, Salvage, Traffic, General Stores, Metal Stores Mfg., Oil House, and Box Shop.

During 1950, there were 8 departments which improved their injury record over the previous year:

Casting Shop Melting Div., North Mill Rolls and Muffles, North Mill Finishing, Continuous Strip Mill, Electric Shell, Plating, Automatic Screw Machine Dept., and West Machine.

## Ten-Year Awards

CYRIL LUDDY, Gripper Eyelet, LUGI MARINACCIO, No. Mill Rolls, MARY LAU, Waterville, Feb. 6; ALTON CASHMAN, Forging Production, LEROY CONRAD, Button Tool, WINSTON ELLIOTT, Slide Fastener Tool, Feb. 8.

WILLIAM MAHER, Plant Protection, MARIE GENTILE, Press #2, Feb. 10; LEO BELLIVEAU, Planning, LOUIS LAVORGNA, Drill & Tap, ARTHUR SOMMA, GERALD MILLER, both of Waterville, Feb. 11.

CARL HETTLINGER, Milling & Grinding, Feb. 12; ANTHONY DIMARIA, Oil House, LOUISE GWISDALA, Waterville, Feb. 13; SUSAN LATOZAS, Chucking, Feb. 16; GUSTAVE LUSCHENAT, Milling & Grinding, Feb. 18.

## Rod Mill Topics

By Dom Polo

Have you noticed the shiny, 1951 models a few of the boys have been sporting recently? There's JOE MOLICA and his Ford, BILL TARTAGLIA and his Nash and HOWIE KRAFT and his Studebaker.

We're all wishing JOHN ALENCKIS' wife a speedy recovery. She's recuperating in St. Mary's hospital after a recent operation.

Welcome back to CHARLES TISHUE and ED TURNER. CHARLES spent several weeks in a local hospital after an operation, while ED was waiting for his broken leg to mend.

## What's In It?

Correct Labeling Important

Tom Serendi, Lacquer Room, uses a piece of chalk to mark, temporarily but clearly, what is in the barrel.

Industrial processes use many flammable, poisonous, corrosive or otherwise dangerous materials. Some of them can be very dangerous to employees if improperly mixed together.

For the safety of your fellow employees, always mark a container for its contents; always obliterate any other markings on the container to prevent a mixing error which might cause a serious injury.

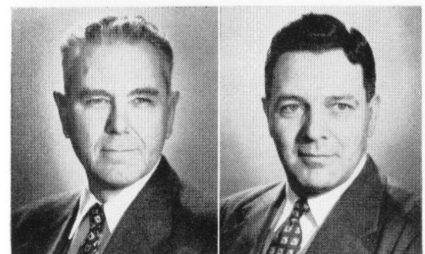

## IRA Basketball

The SERA Basketball Team won the first round in the local IRA League. On Tuesday, February 20, the Princeton-American Brass game will determine the winner of the second round. Scovill will play the winner of the second round in the first game of three for the championship on Sunday, February 25, at the YMCA.

The Scovill team, which was last year's champion, is again coached by Joe Joyce and managed by Jack Carrington. The boys who make up the SERA team in the IRA League are: Bob Dickey, Joe Rovero, Joe Begnal, Jim Grimes, Bernie Sherwill, Rocco Rinaldi, Frank Palladino, John Egan, Tony Jacovich, Ed Zaccaria, Jerry Beccia and Frank Russo.

## Service Awards

## A Wee Bit Of Misplaced Scotch Plaid?

We can't tell you just what the actual connection is supposed to be between Jim MacDonald (Waterbury Sales Office) and George Washington, but "Mac" discovered this bust of our first president, warmly wrapped in Scotch plaid, set up on his desk one morning. Must be a resemblance somewhere, eh, Mac?

## Girls' Club News

By Barbara Gedraitis

### Christmas Activities

Stockings, filled with candy and toys (the same as were given to all the kids at our Christmas parties) were sent to the Southbury Training School for Christmas. We're a bit late in acknowledging a letter from the school, due to space limitations, but we'd like to quote from it now:

"Dear Miss Ham: Will you please express to your group our appreciation for the gifts you recently sent our school. We are most appreciative and want you to know how much these will mean to the children on Christmas morning. It is folks like you who make our Christmas possible and we are most appreciative. (Signed) E. N. Roselle, Superintendent."

### New Members

The welcome mat is out to our newest additions to the Club. They are EDITH CAROLAN and ANNA NAPIELLO of Slide Fastener.

### Club Notes

Our Valentine Dance which was held on February 10 was enjoyed by all who attended. SUE GUARRERA and her Entertainment Committee handled the affair.

March 28—Reserve this date! You will soon be hearing about plans for the Girls' Club Card Party.

### Odds 'n Ends

BERNICE ROBERTS, Slide Fastener, is now MRS. FRANCIS CROWE. The big event took place on February 3. The best of everything to both of you.

OLYMPIA SANTOS PINTO, formerly of Export, is coming along nicely after presenting her husband a son on February 3. Congratulations to the happy parents.

## In Military Service

Employees who have left for service with the armed forces since the last issue of THE BULLETIN.

JOHN T. GRANT, Hot Forge.  
RAYMOND M. GUILMETTE, General Training.

EUDORE LEBREUX, Casting.  
WALTER T. MILLER, Gen. Mfg. Tool.  
ALBERT A. SARGUNAS, Cont. Str. Mill.  
WALTER W. SCANLON, Jr., Buff 2.

## Pinochle Tournament

High scores on February 8 were taken by Bill Mancini's men who totaled 33,085 and Erv Honyotski's who had 33,040. They are also leading the tournament 192,895 and 190,780 respectively.

"Posy" Panko had individual high score for the evening with 4,320. Bill Mancini was second with a total of 4,216 points.

## Life Out East

By Harry Shewbridge

Yes, I'm back again. I was out sick during the last issue, but like the trainmen, I'm back working again. So here's the news and I'm afraid some of it is not so new.

The hat is back in the column again. Not mine this time, but IRWIN HAASE'S of Chucking. Seems he got out of his car down in the back lot one day and his hat kept right on going, over the rail and into the canal. Now we know what he means when he says, "Down the River".

Then there's ASMD JOE BARTUSKI'S version of the Third Man Theme. Mamma presented him a second son. If the next is a second daughter, JOE, I shall bow from the waist.

Now to Slide Fastener. I see by the papers that MARY DOWD and NANCY MULLEN have marriage intentions. NANCY says it's a lovely way to be free of the Planning Department. Our very best to them both.

Which reminds me, NANCY TRUELOVE took the fatal leap a couple of weeks ago when she became Mrs. Larry Kelchner. Funny thing, two days before the wedding, HILDA MAGEE met NANCY downtown. HILDA was on an errand to buy a recording of "Zing Zing, Zoom, Zoom". She came back with "Abadaba Honeymoon". Association of ideas, HILDA?

And from the second shift, MAE MCKENNA came out of the darkness and moved into the first shift . . . VITO SALINARO has left to resume his studies in interior decorating in New York . . . As for JIMMY FARRINGTON becoming a supervisor, seems as though the whole shift is happy about the promotion.

And finally, did you know that JACK PYATT of Planning is receiving expert advice on how to distinguish navy blue from black? Some teachers he has too!

**1950 Income Tax Returns  
Deadline - March 15**

## Three Men Succumb

MICHAEL MITNICK, JR., Continuous Strip Mill, died on January 31, 1951.

Mr. Mitnick had been a crane operator in the CSM for about a year. He had also been employed in Brass Finishing #1, North, East and Rod Mills, and the Rivet Department.

PATRICK J. SULLIVAN, retired, died on February 10, 1951.

Mr. Sullivan had been with Scovill for 36 years when he was retired on November 12, 1945. At the time of his retirement, he was a foreman in Case #1. Prior to that he had been a foreman in the Tube Mill. Other departments in which he had worked were Tool and Machine, Drawing and British Case.

ANGELO ARCERIO, retired, died on February 11, 1951.

Mr. Arcerio came to Scovill in July, 1927. He was employed in the Annealing Department throughout his years of Scovill service and was a coin furnace annealer in that department when he retired on Feb. 7, 1949.

## Camera Club

Highlight of the March 16th meeting will be the showing of General Electric's film "Flash Photography". All interested are invited to the meeting at 8:00 p.m. in the Spencer Block 3rd floor conference room.

## Out Of The Old Family Album

This fair-haired young lady spends her working day in one of the Main Plant Offices, dealing with figures. She does not believe Horace Greeley's advice was meant for young men alone, and is looking forward to the time when she plans to "go west".

This young lad may be a "youngster" as far as years of Scovill service go, but his knowledge of the Company's history would surprise many an old-timer. Located in one of the Main Plant offices, his interesting work takes him to many parts of the plant.
