New Assignments Manufacturing Division

General Superintendent, Slide Fastener Div., M. A. Bristol has announced the following appointments, effective December 25, 1950:

George H. Ashman—General Foreman of Depts. 92, 93, 94 and 95 of the Slide Fastener Div. He will report to Operating Supt. W. H. Vining.

Raymond A. Laneville—Foreman of Chain Room, Dept. 92.

John J. Bresnahan—Foreman, Dept. 92 (laundrying, lacquering, lubricating, enameling, presses and assembly batteries).

Gordon B. Groff—Foreman, 2nd shift, Dept. 92.

Herbert M. Colby—Asst. Foreman, Dept. 95 Stores Section.

John J. Carey—Chief Inspector of Quality Control, Dept. 92.

These men will report to General Foreman G. H. Ashman.

Alexander A. Andrusiewicz—Chief Project Engineer of the Slide Fastener Div. He will report to Operating Superintendent W. H. Vining.

Mills Division

The name of Department #695 has been changed to "Works Manager's Office—Mills Division". It is no longer "Mill Supt's Office".

Mr. John J. Hoben, Works Manager, Mills Division, has issued notice of the following appointments—effective December 18, 1950:

Leonard Corrado—Assistant to the Supt. of the Continuous Strip Mill.

Elbert Sperring—Assistant to the Supt. of the Continuous Strip Mill in charge of Rolling Mill development.

James Hoben—General Foreman of Metal Preparation Area.

Dominic Abbondandolo—Foreman of the Metal Finishing Area.

James Nolan—Asst. Foreman in charge of the third shift.

These men will report to Superintendent K. Tingley.

Edward Nadolny—Foreman of the 1st shift, 2-Hi area.

Vincent Oldakowski—Foreman of the 1st shift, 4-Hi area.

These men will report to General Foreman James Hoben.

Frederick Dawson—Asst. Foreman, 2nd shift, 2-Hi area.

Warren Blanchard—Supervisor, 2nd shift, 4-Hi area.

These men will report to Foreman Joseph Butler.

John Casey—Supervisor, 3rd shift, 4-Hi area, reporting to Asst. Foreman James Nolan.

Ward D. Hobbie, Jr.—Supervisor, 1st shift, Metal Finishing Area, reporting to Foreman D. Abbondandolo.

HAPPY NEW YEAR 1951

Three Scovillites Die
Although three months of age is a bit young to start making New Year's resolutions, Baby Timothy Dowling is pleased, on behalf of THE BULLETIN and its staff, to wish you all a Happy and Prosperous New Year. Young Tim is the grandson of Michael Ciarlariello, of the Box Shop.

New Assignments
Comp. Dept.

Mills Division
Works Manager John J. Hoben has announced...

Annual Meeting
The annual meeting of the membership of the Association will be held at a date to be set by the Board of Directors at its meeting of November 13.

Torch Drive
FEDERATED FUNDS
Oct. 12 - Nov. 1

Group Insurance

Other Than Active Employees

If your active employment in Scovill is stopped—either through Leave of Absence or Layoff—be sure to stop in at the Insurance Office (1st floor, Spencer Block) to check on the possibilities of continuing your participation in the following plans:—

- Group Life Insurance
- Disability and Accidental Death and Dismemberment*
- Blue Cross**
- Conn. Medical Service**

*—Benefits will be paid for a disability contracted while coverage is in effect.

**—Benefits will be paid only when an employee is covered at the time of hospitalization or when surgery is performed.

Two Retirements

JOHN B. MIHALKO, Trucking, retired from active Scovill service on December 21, 1950.

First hired on September 14, 1911, Mr. Mihalko worked intermittently until his continuous service record started in 1913. All of his years here were spent in Trucking, mostly as an elevator operator.

DEWAYNE FRANCE, Works Manager's Office—Mills Division, retired from active service on January 1, 1951.

Prior to his entering the employ of Scovill in 1917, Mr. France had done research work at MIT and in industrial concerns in Boston. He continued his research here and his work took him to the Casting Shop, all the Mills, and the Salvage Dept.

He became superintendent of the North Rolling Mill in 1931, and at his retirement, was assistant to the Works Manager in the Mills Division.

Three Scovillites Die

Three Scovillites who died recently were: Vice-President George Boden, and retired employees Katherine Kerr and Antonio DeBiase.

Vice-President George Boden

VICE-PRESIDENT GEORGE BODEN, age 82, died suddenly at his home in Middle Haddam, Conn., on Dec. 26.

Mr. Boden first came to the Oakville Company in June, 1890, and was soon made foreman. He was named Superintendent at least as early as 1903 and in 1911 was elected Secretary. Mr. Boden was made a Director in 1914 and General Manager in 1920. In January, 1923, he was elected Vice-President and General Manager.

The Oakville Company was merged with Scovill Manufacturing Company in December, 1923, and shortly thereafter Mr. Boden was appointed General Manager of the Oakville Company Division.

In January, 1942, he was named Vice-President of the Company and

(Continued on Page 4, Column 1)

The New Year

1950 was a hectic year in many ways. We engaged in a war to aid an invaded democracy. We have been subjected to creeping inflation. As the year ended, our economy was approaching closer and closer to all-out controls. What will 1951 be like?

From all indications it will be a year of decision. We will be preparing for war, and hoping for peace. Production for civilian use will reduce to absolute necessity. Military preparation for our country and our Allies will take more and more of our productive capacity. Of necessity, taxes will increase greatly. More and more of our young men and women will see service in the Armed Forces. Will there be another World War?

The answer to that question appears to rest with Stalin and his fellow conspirators in the Kremlin. He has bulled his way through treachery, lies, appeasement and infiltration to control a large part of the world's population. There is little question but that his ultimate goal is the control of the U.S.A. But has he set the date for direct action to accomplish this? Or will he continue to try to wear us out through minor aggressions by Russia's satellites?

Our path for 1951 seems clearly marked. If we value our way of life, we must prepare to defend it. That will be costly. It will involve great sacrifice. And it can be accomplished only through the cooperative action of all groups in our society. This forecast for the New Year is not pleasant. The future will be far less pleasant if we fail in our endeavor.

No. 1

It's Your Federal Government

By ROBERT L. JOHNSON

President, Temple University, and Chairman Citizens Committee For The Hoover Report

No. 5—The Price of Peace

Thousands of young Americans have given their lives to beat back aggression in Korea. They have set a standard of sacrifice which will make our best efforts in defense of freedom seem small indeed.

Yet your part and mine in building a strong defense establishment will not be discharged easily.

Consider this: The present Federal budget is \$42 billion a year. Its cost averages \$1,000 per American family per year. About 1/3 of this cost is spent for defense purposes.

Within two years, defense costs may well be tripled. The cost of our government will then be close to \$2,000 per family per year. Of this about 2/3, or \$1,500 per family, will go for defense purposes.

No American living today has ever seen, or can possibly imagine, a peacetime military establishment of the size we are now building. More money for planes, ships, and guns is bound to mean less money for automobiles, radios, television sets, and other luxuries of American life. We can get along without these things cheerfully if we must. But remember, this large Army must be paid for by taxes.

The purchasing power of our dollars tends to shrink when taxes increase. Unless we manage carefully, we may find that even the cost of necessities may get beyond our reach.

You hear a lot about inflation. What does it really mean? It means that dollars will be more numerous than the things they buy—the cost of coffee, let us say, might be tripled or quadrupled to the point where neither you nor I could afford it, no matter what our wages might be, simply because the purchasing power of our wages is being decreased every day by competition for goods and the constant demands of taxation.

Inflation came to Central Europe in the 1920's. Once it got under way, they couldn't print money fast enough to give it any meaning. Housewives went to stores with bushel baskets full of money for a single loaf of bread. This was the direct result of over-taxation and under-production.

One of the greatest causes of inflation is waste. If there is waste in the management of our government the danger of inflation becomes that much greater. That is why we need, more than ever before, an efficient and economical government which will make the best use of every dollar we pay in taxation.

The bipartisan Hoover Commission showed us that \$1 in \$10 of Federal expenditures could be saved by better management. The six Democrats and the six Republicans of the Commission made recommendations which could save at least \$100 per family per year.

So far, the Congress, with President Truman's approval, has enacted 50% of the Commission's recommendations with savings which will amount to not less than \$2 billion a year, or about \$50 per family. This is important to us all. If \$100 a year per family can be saved on a budget of 40 billions, then \$200 a year can be saved on a budget of 80 billions.

Better still, we will be getting our full "money's worth" for the defense dollars we spend, not only in terms of material but of manpower. We simply can't afford to have large numbers of people doing unnecessary things, in government or out of it. In the coming contest every pair of hands, every heart and every mind must be made to count to the utmost.

The biggest thing that the Commission showed us was that our government can move faster and do a better job for us if it is better organized.

For example, the Army, Navy and Air Force were unified along lines recommended by the Commission. This produced a new brand of teamwork on the combat fields and behind the lines. Without unification I doubt if our troops would even be in Korea today, our losses would surely have been much heavier.

The greatest savings of reorganization, therefore, would be made not solely in terms of dollars but of manpower, material and, above all, lives. We can never rest assured that America is properly organized to meet the demands of defense while maintaining its own living standards and lifting the living standards of the rest of the world unless the remaining 50% of the Hoover Commission's recommendations are adopted.

Will this be done? That is up to you and me. As citizens we can tell our Representatives in Congress that we want to cut out waste and duplication so that every bit of our national effort and all of our resources are used wisely and well in defense of freedom.

You can vote every day of your life if you will just take the trouble to write to your Representatives and Senators and urge them to adopt the remaining half of the Commission's Report.

Rod & Gun Club

John Matulunas was elected President of the Club at the annual meeting on December 19. Also elected to serve for one term were: Vice-president, Irving Fagan (reelected); Secretary, Ray Ladden; Treasurer, Jim Littlejohn.

Retiring officers Ed DeBisschop, Fred Ensinger and Joe Balfe are to be thanked for their tireless efforts on behalf of the Club. Despite their decisions not to run for reelection, we know they will still be among our most active members.

Ray Ladden urges all Club members to send in their dues early.

Life Out East

By Harry Shewbridge

Now that the holidays are over, we can spend the next month recuperating and reflecting on our New Year's resolutions.

PAULINE CAMPBELL of Slide Fastener resolved to change her name for 1951 and now goes by the name of Mrs. ROGER CYR. The U.S. Navy appreciates her interest.

And in the same department, they tell me that JERRY RUSSO was swinging from the rafters a couple of weeks ago. It was all because his wife, PAULINE, (the former mail girl Out East) presented him an 8 1/2-pound son. Some Christmas present!

Play It Safe---Don't Get Trapped!

You wouldn't get caught in this fox trap? No, you wouldn't—if you saw it first. It's a trap, sure enough, and it was made to get the foolish fox who isn't following all the safety rules his father taught him.

"Traps" of one kind or another can be set by thoughtless persons, and they can cause serious accidents. People who are not forewarned and alert to protect themselves become the victims.

Don't set a trap for a fellow worker: put the guards back on the machine

—keep the hand trucks out of the aisles—pile the stuff square and solid—report the defective equipment—toot your horn—report the burned out light in the stairway—don't set a trap! If you come across such a trap, "spring it" safe by correcting the situation.

Training Course

Alois Adanos graduated on Dec. 17, 1950 as a Welder. He has been assigned to Welding.

Frederick Altfer graduated on Dec. 24, 1950 as a Draftsman. He has been assigned to Chucking Tool.

Richard Bares graduated as a Machinist on Dec. 10, 1950. He has been assigned to Button Tool.

Roland Beauvilliers graduated on Dec. 24, 1950 as a Toolmaker. He has been assigned to Btn. Eyelet Tool.

Charles Burns graduated as Toolmaker on Dec. 3, 1950. He has been assigned to Trim & Knurl Tool.

William Crowley graduated on Dec. 10, 1950 as a Machinist. He's been assigned to Button Tool.

Ronald Loyer graduated as Toolmaker on Dec. 3, 1950. He has been assigned to Button Eyelet Tool.

Your Credit Union

Your Credit Union will take care of your financial needs at a low rate of interest. The purpose of your Credit Union is to teach members to save money and have a substantial cash reserve for emergencies which require borrowing.

Annual membership meetings for all Credit Unions are as follows:

Credit Union No. 1

SERA Clubhouse—Wednesday, January 17, 7:30 p.m.

Credit Union No. 2

Copper Kettle—Thursday, January 11, 8 p.m.

Credit Union No. 3

Doolittle Hall—Friday, January 12, 7 p.m.

Credit Union No. 4

Doolittle Hall—Monday, January 22, 7:30 p.m.

Waterville

SERA Clubhouse — Wednesday, January 24, 8 p.m.

The program for the evening for all Credit Unions will include election of officers, voting on dividends and other business. Refreshments will be served. All members are urged to attend.

Members of all Credit Unions should put their pass books in deposit boxes as soon as possible so that auditors can check them and dividends can be recorded.

Survival Under Atomic Attack

This is the first of a series of articles about what to do in the event of an atomic attack. We do not anticipate such an attack, however, the atomic age requires that we all have special knowledge to deal with the unexpected. The material in these articles is from a report by the Civil Defense Office, a part of the National Security Resources Board, which is attached to the Office of the President of the United States.

No. 1—Six Survival Secrets

Always Put First Things First and . . .

1. Try to get shielded. If you have time, get down in a basement or sub-way. Should you unexpectedly be caught out-of-doors, seek shelter alongside a building, or jump in any handy ditch or gutter.

2. Drop flat on ground or floor. To keep from being tossed about and to lessen the chances of being struck by falling and flying objects, flatten out at the base of a wall, or at the bottom of a bank.

3. Bury your face in your arms. When you drop flat, hide your eyes in the crook of your elbow. That will protect your face from flash burns, prevent temporary blindness and keep fly-

ing objects out of your eyes.

Never Lose Your Head and . . .

4. Don't rush outside right after a bombing. After an air burst, wait a few minutes then go help to fight fires. After other kinds of bursts, wait at least one hour to give lingering radiation some chance to die down.

5. Don't take chances with food or water in open containers. To prevent radioactive poisoning or disease, select your food and water with care. When there is reason to believe they may be contaminated, stick to canned and bottled things if possible.

6. Don't start rumors. In the confusion that follows a bombing, a single rumor might touch off a panic that could cost your life.

Pinochle Tournament

On the Thursday before Christmas, Art Denker's men were high for the evening with 29,970 points. Erv Honyotski's team was in second place with 28,670 and Bill Mancini's had 27,115.

Individual high score for that night was won by Erv Honyotski who totaled 4,530. Domenic Sacco was second with 4,370.

Art Denker's men are leading the tournament by 8,420 points. Team grand totals to date are as follows:

- Denker—342,060
- Honyotski—333,640
- Mancini—326,915

Q:—If I receive Blue Cross benefits more than once, will my membership be cancelled?

A:—Membership is cancellable only if a member fails to pay dues, or if the Blue Cross group at the member's place of employment is dissolved.

Q:—Does issuance of a new membership to a subscriber in any way affect the continuity of membership?

A:—The issuance of a new membership number generally follows a request from the individual for a change or transfer on his contract, but it in no way affects continuity of membership.

Transportation Dept.'s New Quarters

Top photo:—An inside view of the Transportation Department's new home for all gasoline motorized equipment which is now located in Building 143-1. Approximately 54 vehicles, including trucks, buses, tractors, passenger cars and a fire engine are housed in about three-quarters of the building.

Lower, left:—Foreman Philo Lee (standing) discusses a transportation problem with Car Dispatcher Harold Pilkington in their new office which is now located in Bldg. 42-1.

Lower, right:—The new stock

room is located in the northeast corner of Bldg. 143-1. It is used for the storage of tires and other valuable equipment. All maintenance work is done in the north end and northwest corner of the building.

Girls' Club News

By Barbara Gedraitis

Kids' Christmas Party

Another howling success — or shall we say, two howling successes? Almost 1200 children were entertained at the parties held on Saturday and Sunday, Dec. 16 and 17. Our thanks to all the Club members who so capably assisted Chairman MURIEL HAM at the events.

Our sincerest thanks, also, to: ERVING HONYOTSKI who represented Santa Claus on Saturday, and JOSEPH CAOUE-TTE on Sunday; PAT WALLACE and GUS SCHOECK who helped the programs to run so smoothly.

Also, to those who helped fill all those stockings, they sure looked good!

Christmas Baskets

Baskets were delivered to 41 Scovill families on Thursday, Dec. 21, with the assistance of the following who so generously offered their time and cars to make the deliveries:—FRED BOUCHER, CAM KLOBEDANZ, HOWARD KRAFT, DON MacINTOSH, GEORGE SLATER, BILL WELLS and FRED WILSON.

Preparations for the baskets were handled by MARGARET FENSKE, MOLLIE KELLY, MARIE HAYES, and CHARLES WILLIAMS of the Main Plant Hospital.

Sweaters were included for 127 children —MARY ORLANDO arranged for these.

On behalf of the Club, ELIZABETH KELLY sent Christmas gifts to each of our retired women.

We would like to take this opportunity to express our appreciation to all Scovillites who purchased their Christmas cards and candy thru the Club. The money from these sales helps so much in the financing of these activities.

Card Sales — thanks again to LOUISE FOELL who handled sales in the East Plant and to DORA MORI and ANN KISONAS in the West Plant.

Candy Sales—congratulations on a big job, well done—ALICE BAKER.

The Council's Christmas supper was held at Diorio's on Dec. 18, with MARY ORLANDO and ALICE BAKER acting as hostesses. Fun was had by all exchanging gifts — especially SUE GUARRERA who had to wait till the following day to claim hers.

We welcome back EMMA VANASSE, Mfg. Packing, who has been out ill.

On behalf of the Club, a prosperous and Happy New Year, everyone!

Scovillites Making Merry At Christmas---1950

The offices and factory departments throughout the plant were gaily decorated for the holidays. It was impossible to take pictures of them all but the Hot Forge Dept's tree pictured above, at left, is a typical scene.

Center photo: Slide Fastener Sales Office's tree was accompanied by a candle made up of cardboard around which was entwined colorful rows of slide fasteners—the

candle being constantly turned by a hidden motor.

Top right: A typical department party—this one was taken at the Waterville Division.

The Girls' Club brought delight and cheer to over 1100 children at the Christmas parties and to 41 families with their baskets of food and clothing. President Muriel Ham served as Chairman of the Activities Committee.

Varsity Volleyball

All Scovill men interested in trying out for the Varsity Volleyball team should contact the Employee Activities Office at ext. 834.

Games are scheduled for Thursday evenings at 6:30, at the Leavenworth High School gym with John Thompson as manager. The first game this season will be held on January 4.

Men who are planning to play that night include John Bartolini, Ralph Orsini, Thomas Cullinan and John Thompson, all of Slide Fastener Tool and Ralph Daddessio and John Casey, both of the Continuous Strip Mill.

Notice—Service People
