Employees' Blood Donor Program

Manufacturing Depts. To Donate December 7

Jack Carrington, Tube Mill, was elected Chairman by the Employees' Blood Donor Program Committee at its meeting of November 9. Seated in the center, above, Jack is flanked by Louis Boroch of Button Tool (left) and Erv Honyotski of the Extruded Rod Mill, members of the committee's executive group.

Standing: Members of the Committee representing Manufacturing Departments are Katherine Young of Press 2, Tom O'Connor of Tool Room #1, Ernest Moeller of Lipstick. They will head the drive for December 7 donations.

Thanksgiving Day

The Main Plant will close in celebration of Thanksgiving Day at the end of the workday on Wednesday, November 21, 1951.

Except for such departments or employees as are individually scheduled on November 23 and 24, 1951, the Main Plant will reopen with the start of the first shift on Monday, Nov. 26.

So that employees may have their pays before the holiday, the Payroll Department will pay all employees on November 21. In order to do this, it will be necessary to pay by check instead of by cash.

Thanksgiving Day is one of the six holidays for which hourly and piece work employees who qualify are paid when they do not work.

New Assignments

Tool & Product Development

Superintendent W. H. Machin has issued notice of the following:—

Dept. 356, Button Tool Room, will be known as Dept. 356, Attaching Machine Department.

Dept. 355, Button Model Room, will be known as Dept. 672, Button & Fastener Design Dept. It is subdivided into two sections:—Product Design and Machine Design.

Effective October 29, 1951, Michael J. Carpinella has been appointed Foreman of the Product Design Section; Alfred E. Blatter has been appointed Foreman of the Machine Design Section. They will report to the Superintendent of Tool & Products Development Division.

As voted by the Committee, the Main Plant has been divided into four sections. Each section will be called upon to donate blood, in rotation, thereby calling upon each employee but once a year.

Of course, employees wishing to donate at any time are always welcome and may check with the Employee Activities Office for making appointments.

At a drawing of the Committee on November 9, Section #4 (Manufacturing Departments) was picked to provide the quota of 200 pints on Friday, December 7. The blood mobile unit will be set up in the SERA Clubhouse.

The executive group of the committee elected were: Chairman Jack Carrington, assisted by Louis Boroch and Erv Honyotski. Two more members, one from each plant, will be appointed to this group. This executive group will work with each section's committee on their specific drives.

Some office employees will be included in each section, in order to bring each section's number as close to an equal division as possible.

Section #4 to Give Dec. 7

Departments included in Section #4 are: Mfg Eyelet and Tool, Gripper Eyelet and Tool, Burnishing, Closing and Tool, Cutting and Tool, Japan, Tool Room #1, Hardening, Mill and Grinding, Button Tool, General Training #1, Press 2 and Tool.

Also, Lipstick, Lacquer, Lacquer Wash, Aluminum Finishing, Stamp, Model and Button Model, West Machine, Button Eyelet and Tool, Trim & Knurl and Tool, Electric Shell and Tool, Buff #1, Repair Room, and approximately 170 office employees.

Remember The Camel

Government controls are involving an ever-widening area of business and industry. As government controls spread, free competitive enterprise is more and more restricted. When one segment of the economy is controlled, then other segments become unstabilized and must be controlled. Mr. C. E. Wilson, President of General Motors Corporation stated, "The camel of government control now has his nose under the tent of free competitive enterprise and is crowding in. We will all have to watch him or he will take over the tent and we will lose our economic freedom."

He continued, "The present emergency is being used to promote regimentation under the false assumption that this is the best way to get the job done . . . If in the process of organizing our strength in the hope of avoiding war, we lose the basic freedoms that Americans have enjoyed for 175 years, we would lose the very values for which we would be willing to fight such a war."

Economist Ralph Robey recently remarked in a similar vein. Said he, "The current emergency may last 10, 20 or 30 years. Emergency powers granted now may not be lifted during the lifetime of adults now living."

Commerce Secretary Sawyer and Defense Mobilizer Wilson are for easing and eliminating controls at the earliest possible moment. But the growing army of federal job holders oppose this view. Many of them believe in and work for a planned economy.

Our concern must be for the continuation of our free economy. We must not lose it through default. Our elected representatives in Washington should be informed of our individual ideas on this vital subject. We can compromise our freedom for short periods when necessary for the common good. We cannot give it up for long periods and expect it to be returned to us in its original state.

The substance of the above taken from an editorial by Editor-in-Chief Shaner of "STEEL".

Suggestion Awards

Recent prizes, awarded by the Industrial Improvement Committee, are:

\$50.—Joseph Lokis, Strip Mill.

\$35.—Clifford Aspinall, Slide Fastener; Anthony Yurgaitis, Press 1.

\$25.—Lucien Collin, Tube Mill.

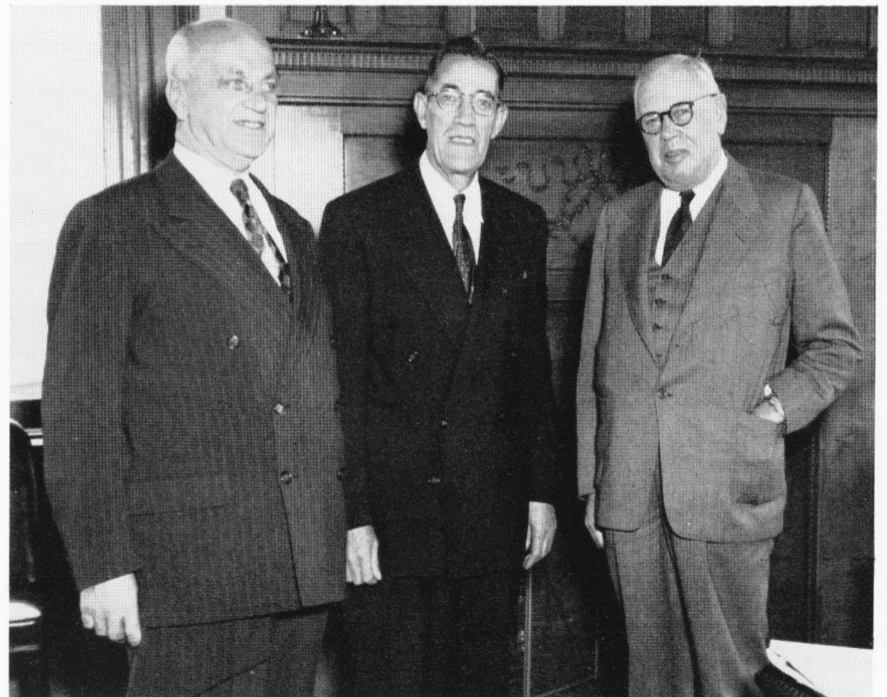

\$15.—John Tata, Continuous Strip Mill; Louis Ragozzino, T & K; Arthur Yadarola, X-Rod Mill.

One Retirement

HENRY WALDO, Steam, has been added to the Special Retirement List as of October 8, 1951.

Mr. Waldo first came to Scovill in 1915 but, due to several periods away from the plant, his continuous service record started in 1928. He has served as a Turbine Room Engineer in the Steam Department since 1944.

William Foley Receives 40-Year Award

William J. Foley, Steam, is shown after having received his 40-year diamond-studded service pin and certificate from President L. P. Sperry. On hand to offer congratulations was Chief Power Plant Engineer Leo J. Niekerk. Mr. Foley completed 40 years of continuous Scovill service on October 23.

Thanksgiving Day—1951

Let us give thanks. Some people might say, "What for?" If we allow ourselves in retrospect to go back some years, whether from personal knowledge or from historical writings, maybe we will be more thankful for the abundant life of today.

Let us start with the pot-bellied stoves for heat, usually only in a couple of rooms or maybe only in the kitchen—the lack of bathing facilities, if we were real prosperous our families might have afforded a tin bathtub with water being carried from the kitchen to the bathtub which sometimes was located in the cellar—the dirt roads—horse drawn cars—hand-me-down clothing—and if you were lucky, you earned the magnificent sum of \$9.00 weekly—no movies until the early 1900's—and, in fact, very little entertainment of any kind—maybe some local club would produce a minstrel show and dance annually. All of the above conditions and more existed not too many years ago, and we were a happy and contented people.

Now, in this day and age, luxuries have become necessities—the high speed transportation that allows one to cross the country in twelve hours—even to Europe and return in not much more than twenty-four hours—automobiles, radios—television—sound movies—electronics—oil and gas heated homes and many other items being invented almost daily for our personal comfort and nearly all within our reach financially—so we do have many things to be thankful for in a material way. We can also be thankful for a free country where we can live as we wish—worship as we wish and vote as we wish, as has been abundantly proven in the past few weeks, months and years.

So, let us on this Thanksgiving Day give thanks and mean it!

Rod & Gun Club

The regular monthly meeting of the Club will be held on Tuesday, November 20, in the Spencer Block third floor conference room at 8 p.m.

Girls' Club Minstrel

November 30 — Doolittle Hall
John Jannetty, Director
Delfino's Orchestra

Safety Shoes Set A Record

Ted Kremski (left), of the Steam Department, holds a new safety shoe as Bob Dobrick, of Safety & Health, looks over one of Ted's old shoes which served him for two years without repair.

Safety shoes are available to employees on a payroll deduction basis. They come in a variety of styles and sizes to meet all situations. They have set an outstanding record of perform-

ance, comfort and toe protection.

If you need good shoes and toe protection, call at the Safety Dept., Bldg. 61A, between 7:00 a.m. and 4:00 p.m. on Tuesdays or Thursdays.

ONE GOOD WAY TO SHOW OUR THANKS

Inter-Dept. Leagues

Basketball

The first night of play for the Inter-Dept. League was on Nov. 12. Winners were the Strip Mill, Special Trng. and Oakville.

Captains and six teams in the League this year are: Frank Mirto and Jim Terrill of Gen. Trng., Paul Proulx of Btn. Tl., Charles Buckingham of Oakville, Pete Dowling of Special Trng., John Danaher of the Strip Mill and Dick Kruse of Truckers.

There will be two rounds and a play-off. The champions of the League will receive tickets to some sports event in New York as a reward.

Joe Begnal (West Machine) and Jack Carrington (Tube Mill) officiate at the games.

Rifle

Captains and teams in the Inter-Dept. League are Leo Beck of Mfg. Eyelet, Andy Lynch of Sl. Fast., Victor Bart of Hot Forge, Ed DeBisschop of Elec., Morgan Fitzsimmons of Chuck. #2 and Joseph Aurelli of Chuck. Tl.

The first match took place on Nov. 5, and Hot Forge defeated Chuck. Tl., Elec. took over Sl. Fast. and Mfg. Eyelet was victorious over Chuck. #2.

Social Security

Be sure your Social Security records are up to date. Incorrect data may mean the loss of wage credits. If your answer is "yes" to any of the following questions, you had better get in touch with the Employment Office:

Have you lost your Social Security card?

Have you married and changed your name since receiving your Social Security card?

Is your card worn out?

Do you have more than one Social Security number?

Rod Mill Topics

By Kilroy

Danny Pistone is another of our lads who is donned in Army khaki. We're sure you'll make friends in the Army as quickly as you did with us, Danny.

Clarence Griffith's teen-aged children have developed a thriving chicken and egg "hobby-business". We're sure he'll have "mucho" Thanksgiving wing on his table.

When it comes to talking about TV, you can't beat our ex-Army radar man, Lyle Lawrence, who has three sets. He's such an enthusiast, I wouldn't be surprised to see him with a walkie-talkie TV soon!

Bob Hayden has been painting greenhouses during his spare time. Remember, you shouldn't throw stones, Bob!

Viktor Vaitkus enjoyed Strauss' opera, "Die Fledermaus" recently. After the performance, Viktor went backstage and shook hands with his friends in the cast. Years ago, he had studied dramatics with them in his native Lithuania.

Our Family Album

Ted Karklin of ASM Tool took time out on his birthday to have a picture taken with his granddaughter, Brenda Greve (age, 6½). Her mother and stepfather are Alvina and Charlie Martin of Employee Relations.

Training Topics

By Charlie Martin

Eugene Lockhart, whose smiling face has heretofore belonged to the Mailing Dept., has transferred to GT #1. Welcome to the Course, Gene!

Here's to a speedy recovery for Al Klobedanz (East Machine) who had a minor operation and Bill Behlman (GT #1) who broke his leg playing football. Bill was to have reported to Mfg. Eyelet on October 29, so I imagine he's doubly anxious to get back to work. Oddly enough, both their names appeared in this column jointly a few issues ago as the two biggest trainees. Let's hope you weren't jinxed!

John Zibell, Crosby, '49, has been assigned to GT #1 and there's a girl named Rita who will be pleased to hear this. He is now, temporarily at least, bottom man on the Totem Pole—last one in and last on the alphabetical list.

We have three ambitious fellows in training who are building or have built their own homes. Take a bow Bob Boyd (GT #1) who is living in his four-room, covered-with-ivy cottage in Cheshire, Bob Meyer (Press #2) who plans on moving into his six-room (I said six) Oakville home in January and Bob Doyle (GT #2) who has completed the foundation and installed the utilities in his house out in Mill Plain. If your name is Robert, watch out—your wife will have you building a house before you know it.

Art Diziezynski, who returned to GT #1 recently after Army service, is now employed in the Drafting Room. He took a jaunt up to Torrington on November 10 and acquired a new first sergeant. Congratulations, Art!

Life Out East

By Harry Sheubridge

And how are you all enjoying this miserable month of November? If you are growing a moustache (and guess who is!), I have an ancient Roman recipe which will help. Before retiring, rub some table salt on the moustache area. Then place a cup of water near the head of the bed. During the night, the little hairs will get thirsty and grow out towards the cup of water. When they do, reach up and tie a knot in each one and then they can't slip back in again. This is guaranteed. Why not try it?

While we are speaking of the Chucking Dept., here is news of a Scovill romance breaking in full bloom. Thomas O'Connor and Betty Sazanowicz met while working in the Training Room during the last war. Last Saturday they were married. Thomas is the son of Mollie O'Connor whom we all know well, and Betty is the sister of Mary Renna, formerly of the East Planning Office.

Those of you who remember Evelyn Hyland, formerly of East Estimating, and Jack Hyland, formerly of Metal Stores, might be interested to know they have just acquired their second son and a new home in Southington. They are doing exceptionally well and are just about as happy as any family can be.

As for that golf match in ASMD, there seems to be a rumor to the effect that John Matulunas' doctor stopped it before he had a nervous breakdown. Thus, the match has been awarded to the untested team of Sutton and O'Neill on a technical knockout.

And now for the big scoop of the year. As I mentioned above, John Matulunas' nerves are completely shot and he has been ordered to take time out to relax. So, on Nov. 30th at 4 p.m., he and his family will take off for Florida. He says they will have supper in Daytona the following night. John has been very secretive about this trip and will be surprised to find that the news has leaked out. I'm sure that we all hope that the trip will do him a world of good.

From where I sit, I can see a glow in the Continuous Strip Mill. No, it isn't from the furnace, it's Ed Brousseau's pride. You see, at the recent Hallowe'en party at Doolittle Hall, his daughter, Lorraine, and her cousin, Barbara Costello, were picked as two of the winners in the costume selection. They were dressed as two old fashioned girls which just goes to prove that a couple of "old fashions" are welcome at any time.

They are pictured below, at the extreme right of the back row.

Sporting Notes

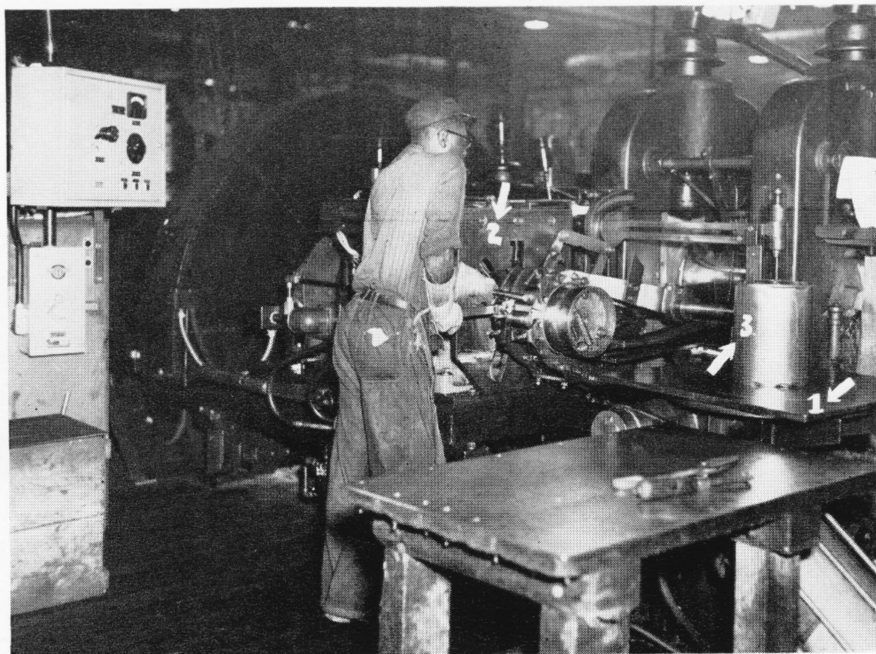

By Jim Littlejohn

Some of our deer hunters have been coming home from the north woods with their cars covered with trophies of the hunt. Bill Vining and Lee Reid had two deer each.

Another year of fishing has ended. The pond at Woodtick will close officially on Sunday, November 25.

I'd like to thank everyone who helped make this season a success. Keep it up!

North Mill Installs New Tension Blocks

Charles Dildy of the North Mill Rolls Division operates one of the two new Tension Blocks recently installed. This machine was so designed to take care of heavy coiled metal coming from the Continuous Strip Mill.

For the past six months, new blocking and mechanical equipment called the Tension Block has been in operation on the 16" line of rolls in the North Mill.

It was felt necessary to have this new equipment as the coils coming in from the Strip Mill are not only too heavy but too wide to be handled by the Cone Clutch Drive. As the latter machine is belt driven, it can handle up

to 250 pounds before slippage starts. The 1000-pound coils coming in from the Strip Mill presented a problem of rolling and handling. The new Tension Block is so designed to eliminate these obstacles.

The mechanical equipment of this new machine was made by the West Machine Room, while the electrical parts are from General Electric. The speed variator, which consists of a driving motor, generator set, control board and amplydyne, gives tension and speed control. When the amplydyne gives a signal, the speed and tension on the block are controlled. As a result, the pull on sheets of metal is uniform regardless of weight and, therefore, a more uniform gauge tolerance in rolling is obtained.

After the 1000-pound coils have been run through the Tension Block, they are removed from the block pneumatically (by compressed air). An upender and back spinner device (#1 in photo) is dropped in a vertical position in readiness to receive the wound coil. A stripper plate (#2 in photo) pushes the coil onto the arbor (#3 in photo) of the upender and back spinner, and this in turn is replaced in an upright position for handling by an auxiliary crane which is not shown.

The new Tension Block is the answer to the problem and the North Mill already has two installed, a third in the process of installation and a fourth projected for installation.

Alexander Buccini, Btn. Eyelet
Daniel Pistone, X-Rod Mill

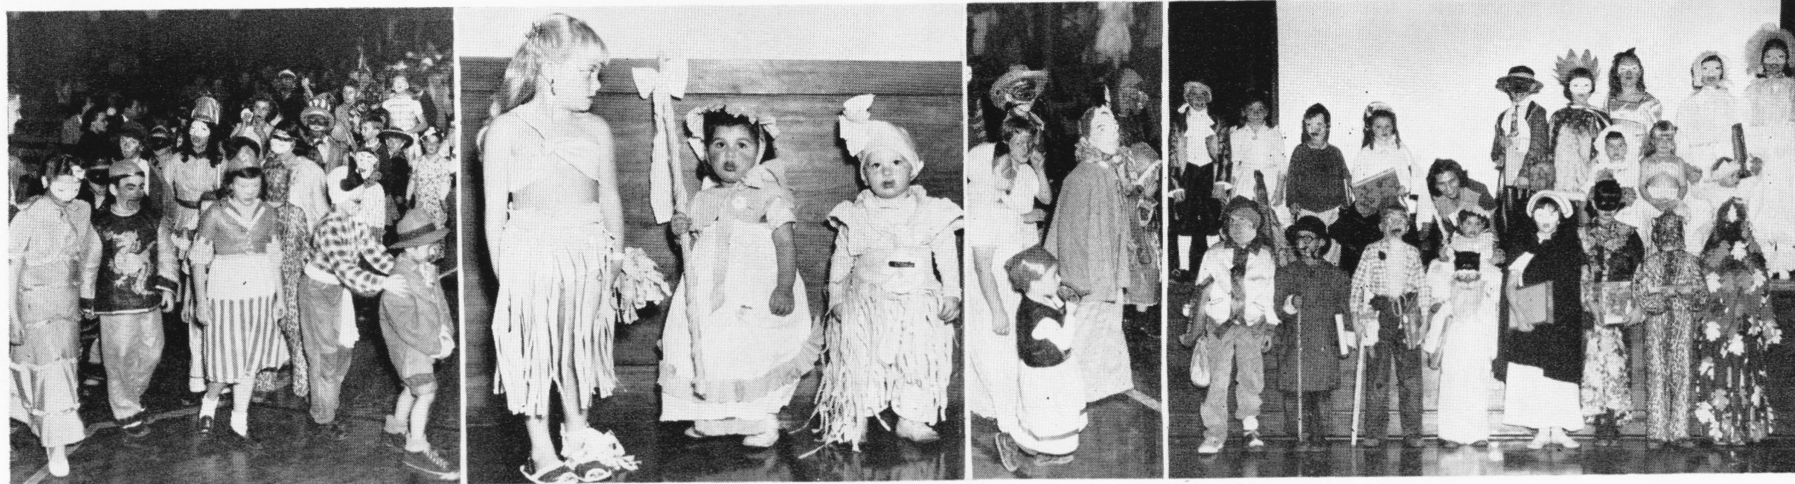

Pinochle Tournament

At the end of play on November 8, the boys on Erv Honyotski's team were leading the tournament with a total of 196,055 points. Bill Mancini's men were second with 190,130 and Art Denker's last with 188,275.

For that evening, scores for the teams were as follows: Mancini's—36,225, Honyotski's—35,835, Denker's—33,230.

High man was Domenic Sacco who totaled 4,450 points. Ed Mitchell was runnerup with 4,295 points.

Scovill Kids Celebrate Hallowe'en At Doolittle Hall

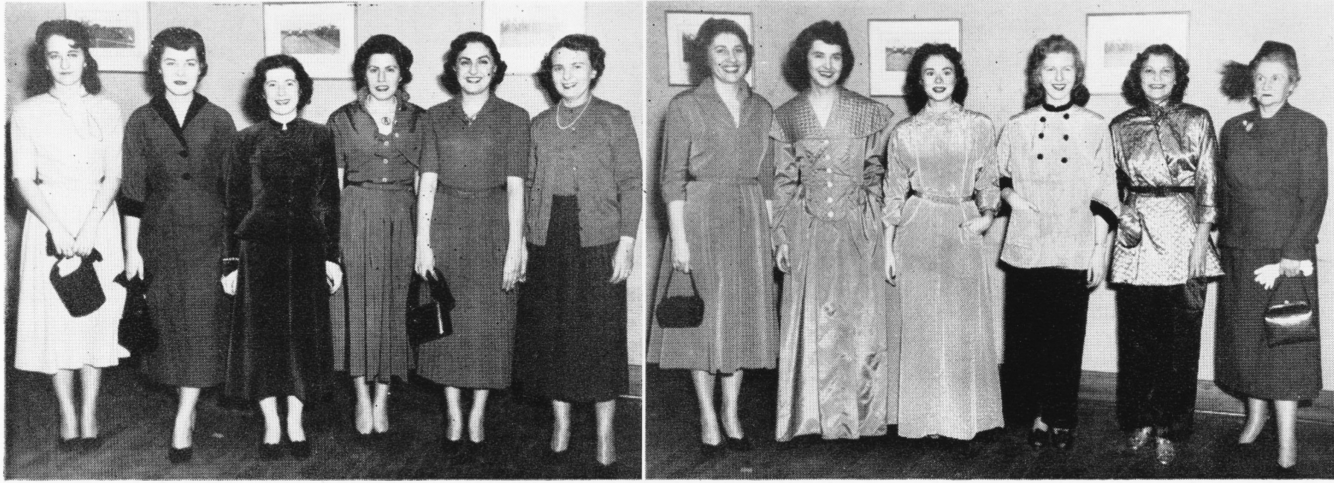

About 250 children attended the annual Hallowe'en Party, sponsored by the SERA, at Doolittle Hall on Wednesday, October 31.

Choosing the winners for the funniest, prettiest, ugliest and most original costumes was quite a job for the judges; their selections pose in the picture at the extreme right. In the second photo, blonde Darlene Pierce studies a smaller-

sized "bula" dancer in the person of Alfred Haag, while Diana "BoPeep" Murteza wonders what the photographer is up to.

Incidentally, Darlene and Alfred have something else in common. While not related, each claims a Scovill grandfather of the same name—Charles Pierce. Diana is the granddaughter of Sula Murteza.

Latest In Fashions Modeled By Girls' Club Members

Modeling at the Girls' Club Fashion Show and Card Party, held at Doolittle Hall, on November 7, were: (left to right, above) Eunice Grady, Cecelia Petro, Dorothy Bernier, Beatrice Biondi, Nina Ciarcia, Josephine Leven-

avich, Margaret Fenske, Ruth Tourangeau, Anita Bosse, Margaret McCarthy, Mary Lee and Mabel Ottinger. Josephine Perry also modeled. Mrs. Ryc Trier Jackson was commentator, fashions by Worth's.

Girls' Club News

By Dorothy Bernier

Let's fluff up the cushions for our three new members, Mary Lee, Patricia Healy and Dorothy Machokas, all of Slide Fastener. Hello, hello and hello. Incidentally, Mary Lee made a lovely model in our Fashion Show earlier in the month. In spite of the inclement weather, we received a great deal of support from all our members and friends and we would like to thank everyone who contributed in any way to making the evening so successful—especially our very own "Swami".

Wedding Belles

Janet Russell, Merchandise Sales, became Mrs. Mahlon Lynn on Nov. 17. Anneliese Myers, B & F Sales, was her matron of honor and was right there with her moral support in case Janet got nervous. After all, this was the second time within a year that Anneliese has marched down that long aisle. Remember last June?

Jingle Bells

We hope you have all seen the Girls' Club Christmas cards. They're so very pretty we know you'll want several boxes. Muriel Ham, Central File, and Betty Affeldt, Japan, will be very glad to take your orders.

Mollie Collins, Trucking, has on hand the figurines you had on your Christmas list (we hope you did, anyway!).

If these little announcements of items handled by the Club seem casual, they aren't. Our treasury needs your support! To whisk away the last subtlety from our advertising—we're trying to make a buck, and we certainly would appreciate yours.

Gathered At Random

Ruth Osborne, SERA, has a real talent for interior decoration, and her most recent accomplishment has elicited compliments from so many people.

Council Changes

Welcome to our three new Council members:—Dora Mori of Refrigeration and Heating Sales; Irene Rosato of Mill Production; and Nina Ciarcia of Waterville Division.

Cribbage Doings

As of November 13, the boys in the National League were still victors over their opponents in the American League by 650 points. The scores were 54,634 - 53,984.

High score for the evening went to Harry Weiss and Paul Delage who totaled 1,441.

TENANTS WANTED

Single room with double bed and kitchen and laundry privileges for one or two ladies at 78 Oakland Ave. (off Cooke). Call 3-2302 from 6 to 9 p.m. or see Mrs. Fred Rowe, first floor.

Three Men Succumb

FRANK GEDRAITIS, retired, died on November 3, 1951.

Mr. Gedraitis had 28 years of continuous service when he was retired on September 24 of this year. Except for a couple of months in the Buff Room, he had spent all of his Scovill years in Lacquer as a stripper.

JOHN HEERY, retired, died on November 3, 1951.

Mr. Heery had been with Scovill continuously since the day he was hired on June 6, 1910. Most of his years with the Company were spent as a tool-setter in the Manufacturing Division. At his retirement on May 17, 1942, he was a bench worker in Repair.

ARTHUR BOUCHER, retired, died on November 5, 1951.

Mr. Boucher had been employed as a grinder for 38 years. He had been in the Tool Division until 1940, when he was transferred to the North Mill as a roll grinder. He was retired on November 1, 1950.

Kids' Christmas Party

Two Parties Set--Dec. 15, 16

With over 1100 children participating in the Christmas parties last year, it is felt necessary to set two parties again this year.

All Scovill children between the ages of 2 and 10 years are invited to attend the parties which are sponsored by the Girls' Club, together with the assistance of the SERA and the Scovill Sunshine Fund.

The parties will be held at Doolittle Hall on Saturday and Sunday, December 15 and 16, from 2:00 to 4:00 p.m. with a limited attendance each day of 500 children. Tickets will be issued on the basis of:—the first 500 reservations to be received for Saturday will be given tickets for that day, the remainder will receive Sunday reservations.

All reservations must be in by Monday, December 10, in order to arrange for a gift for each child. Ruth Osborne, Employee Activities Office, is in charge of tickets. They may be picked up at this Office at any time.

SERA Fishermen's Annual Banquet

First, second and third honors for this season's fishing competitions went to Steve Sharka, Vinnie Manzolli and John Hubbard shown above. Vice-President Alan C. Curtiss was principal speaker of the banquet at the Copper Kettle on Thursday, November 8. Charles Rietdyke was toastmaster.

Prizes to the season's top fishermen were presented by Tool & Develop. Supt. W. H. Machin. Candy and pocket notebooks distributed to all in attendance, were contributed by Eli

Douville and Thomas Behan. For the very first time, this event was by-passed by Judge F. T. Reeves. All of his friends were sorry to hear he was laid up with a cold.
