Scovill Pioneers Continuous Casting

Here is a view of the huge four-story Continuous Casting machine which now transforms a continuous flowing stream of molten metal into brass billets at the rate of about 15,000 pounds hourly. These billets are then ready for Hot Extrusion into rod, wire, or tubes.

The 1951 Scovill Mill Products exhibit at the National Metal Exposition in Detroit, Mich., October 15-19, will demonstrate Scovill's foresight and leadership in the American development and commercial production of continuous castings.

At the booth will be displayed a brass bar, about 10' x 2' x 2 1/2", one complete side of which has been finished and etched to show the inherent uniformity and soundness of quality in Scovill continuous-cast brass.

In addition, the continuous-casting story will be shown in a series of 28 three-dimensional color slides. The "Better By The Mile" slides illustrate the Rossi continuous-casting method for producing Brass bars and billets (subsequently processed into sheet and strip, rod, wire or tube).

This process, which assures a high degree of uniformity and soundness in Brass Mill Products and consequently maximum utilization of Brass in fabricated parts, is also of particular interest to both producers and fabricators of copper, steel, and aluminum.

Scovill was the first company in America to install a commercially successful continuous casting ma-

(Continued on Page 4, Column 2)

Suggestion Awards

The following awards were announced by the Industrial Improvement Committee:

\$75.00

Richard Brown, Sl. Fast. Tool
George Jmanic, ASM Tool

\$50.00

Albert Daraskevich, Sl. Fast. Tool
Katherine Tartaglia, Sl. Fast.
Margaret Massicotte, Lipstick
Thomas J. Murphy, Pipe Shop

\$25.00

Peter Tartaglia, Sl. Fast.
(two awards of \$25.00 each)
Mabel Dunn, Sl. Fast.

\$15.00

Mabel Dunn, Sl. Fast.
Thomas J. Addona, Btn. Tool
Clifford Aspinall, Sl. Fast.

\$10.00

Paul Shegda, Sl. Fast.
John A. McCarthy, Cont. Strip Mill

Torch Drive

Oct. 11 - Nov. 2

For our community needs — for our boys in the services—support the United Torch Drive!

Where Do We Stand?

Since the strike by UAW-CIO scheduled for September 24, 1951 was called off things have moved rather slowly. Most of the Companies involved, and the UAW-CIO, appeared at a hearing in Washington on Friday, September 28, 1951. The purpose of the hearing before a Disputes Officer of the Wage Stabilization Board was to acquaint the Board with Company and Union ideas of proper procedure for hearings on the merits of the case.

This Company, and most of the other Companies involved, felt that each case should be heard by the Board separately. The Companies involved do not constitute an industry. Some of them have brass mills, some do not. Some manufacture items of brass, others use steel primarily. Some compete with each other in part, others do not. About the only thing in common among all the Companies is that some Local UAW-CIO represents some or all of their employees.

Although a local Union official was quoted in the press as stating industry-wide bargaining was not the purpose of UAW-CIO, the evidence points to the contrary. The Union stated at the Washington hearing that all cases should be handled together. Probably by the time you read this the hearings on the merits of these cases will be in progress.

This Company is after a fair settlement—fair to you, and to our stockholders. To be fair to all it must be reasonable. It must allow us to compete so we can provide jobs. Let's hope reason prevails.

Alan C. Curtiss
Vice-President

P.S. If you want to stop your Union Dues deduction, now is the time. Deliver to the Company by mail, or by handing to your foreman not later than October 18, 1951, a written and signed statement to stop Union Dues Deductions, and you will have done it.

P.P.S. After a several weeks' strike our Schrader plant is back to work.

Kids' Hallowe'en Party

Wednesday, October 31, is Hallowe'en. Employee and neighborhood children are invited to celebrate the occasion at the annual Hallowe'en party, at Doolittle Hall.

Sponsored by the SERA, the party will get underway at 7:30 p.m., with movies, refreshments, and prizes for games and costumes.

O. LeBeau Retires

OVILA LEBEAU, Cutting, has been added to the Special Retirement List as of October 8, 1951.

Mr. LeBeau first came to Scovill on March 25, 1915 and worked intermittently until 1923 when his continuous service record started. He was a tool-setter in Cutting when forced to leave his work because of illness.

Horseshoe Men Are City Champs Again

For the second consecutive year, the men on the SERA Horseshoe Team have won the title of City Champions. They represented Waterbury in the State Tournament both years—placing second last year, third this year.

The boys who make up the SERA team are (kneeling, left to right):—Vito Pace, Chester Bandurski and Captain Rudy Morse. Standing are:—Constantine Napolitano, Dula Kovach, Ed Gilbert and Erving Honyotski.

National Bible Week

October 15 - 21, 1951

The world's most famous book — the Bible — will be honored throughout the nation during the week of October 15 - 21. All our people are urged to make it an occasion for special prayer, a period in which to plant in the hearts of everyone belief and faith in God, and our American way of life.

Under the able leadership of Congressman Judd, National Bible Week, now in its eleventh year, is expected to exceed the most sanguine anticipations of its sponsors, who are confident it will be firmly established as one of the great worthwhile movements against Godless communism. Congressman Judd follows the example set by Daniel Webster, greatest Congressional speech maker, whom history relates never went to the floor of the Senate to make a speech without first consulting the Bible.

The Bible has profoundly influenced American history, and still does. Most of our Statesmen and Military Leaders have read the Bible, quoted it, and sincerely believed in it.

Veterans' groups, labor unions, fraternal organizations, women's clubs, youth movements, Chambers of Commerce, and religious organizations of all faiths should concentrate on the one objective—National Bible Week.

Inter-Dept. Rifle

Chairman Gerald Bousquet announces that the League expects to get under way the first week in November at the Woodtick Range. Those interested in participating should call the Employee Activ. Office, ext. 834.

Setback League

A schedule for the season will be set up by team captains on Oct. 16. Nights of play will be on Fridays at the SERA Clubhouse. Refreshments will be served. There will be individual and team prizes.

Employees interested in playing should call ext. 834.

Mushroom, Jumbo Size

Frank Gagliardi, Drawing Room, proudly holds one of the dozen mushroom-size mushrooms he has picked recently. The smallest one of the group weighed five lbs.

Read - And Heed Labels on Containers

You'll recognize, in this photo, one of the many kinds of labels used on containers throughout the plant. It is required by law that "dangerous" materials be so labeled.

If you use material from containers—read these labels. Some warn of poisons, others of fire hazards; some warn of dangerous fumes or material which might do harm to the skin. These are all necessary and useful materials and they are not dangerous when properly handled.

Necessary equipment and personal protection for handling dangerous material are provided by the Company and it is important to use them properly.

Read the labels and take the precautions which are called for. If in doubt, ask your foreman about the material you may be required to work with.

Life Out East

By Harry Shewbridge

The important news of this issue is the fact that October was ushered in with gala festivities on the 3rd when Elmer Barnes and I celebrated our respective birthdays. As for me, the gang in the office presented me a birthday cake large enough to satisfy the appetites of 18 people by actual count. Now I can vote!

Let's keep in the party mood all the way this time. Take Marie Lertz for instance. She left the Chucking office a couple of weeks ago and about 35 of her girl friends gave her a farewell party at Harmon's. She was presented a purse as well as presents for herself and the little one to come. Good luck, Marie!

And you remember Pamela DaRoss who used to be in Planning about a year ago, don't you? According to the newspaper, she comes from Litchfield, Conn., is working in San Diego, Cal., and has just got herself married in Tucson, Ariz. to a Navy Quartermaster from Chilton, Tex. Isn't it a small, small world!

Finally, do you remember the big wind that was supposed to strike on Oct. 5? Well it didn't. Instead, the sun broke through the clouds and smiled on us. Know why? Margaret Mary Griffin (ASM Packing) was getting married to Henry Kellner at 10 a.m. in Hartford. Just to keep in the spirit of things, some of us folks gave her a floor lamp and teapot for her new home. Good luck, kids!

Your Credit Union

By Jim Bruno

Your credit union is a volunteer organization, operating "not for profit, not for charity, but for service". Many people forget that the credit union is also a dollars and cents asset to economy.

Your credit union encourages buying for cash and prompt payment of bills, which means the business man's money is not tied up in overdue bills, charge accounts and time payments. He has that money to use, to turn over again as a profit.

Your credit union is an important hedge against inflation. Its primary purpose is the encouragement of thrift. "Regular saving" is its watchword.

Most important, loans are made only for provident and productive purposes. This principle has been a fundamental part of credit union philosophy ever since the first credit union was organized over 100 years ago. Today, as always, credit unions are helping people meet their sound credit needs, while they effectively discourage irresponsible, inflationary borrowing and spending.

Carol Ann Borch Doing Nicely

Carol Ann Borch, pictured at the right with her Dad and big sister Geraldine, asks us to let all the nice people in Scovill and in the city know that she is coming along fine.

Carol Ann was stricken with hypoletic anemia and, through the warm hearts of so many Waterbury people, was able to have 36 blood transfusions and enough of the wonder drug ACTH to pull her through several serious attacks. She is at home now, with her mother giving her the necessary ACTH twice a day.

The picture at the right was taken the last weekend in September and shows Carol Ann to be as spry as any youngster 19 months old. Her Dad, Louis Borch, Jr., is a machinist in our Button Tool Room.

Latest Improvement In Hot Forge

Mary Vellucci demonstrates how conveniently she can take work from the new Work-O-Matic drop-bottom steel box which is set up on a steel stand. This new equipment eliminates the use of work pans which had to be disposed of, by the operator, as each was emptied.

A new type of material-handling equipment, called the Work-O-Matic drop-bottom box and stand, has been in operation in Hot Forge on a trial basis. Thus far, it has been working out most satisfactorily and this department has ordered more for other machines to be delivered in the near future.

These boxes may be used as hoppers at any machine in the department or may serve for transportation or storage of work. However, at the present time, they are being used interchangeably between Heat Treating and Clipping Battery and the stand is set up adjacent to one of the presses in the Clipping press area.

After material has received the heat treating operation, the work is placed in the steel box. When the box is filled, a lift jitney transports it to the stand in Clipping Battery. Previously, work was emptied into pans and ten pans were required to equal the volume of one of these new containers.

After the container has been placed on the stand, the drop bottom allows work to tumble onto a hopper or

tray. This eliminates undesirable heavy handling of emptied pans by the operator. In addition, the machine operator may be seated on some jobs while feeding pieces into the machine as the stand is adjustable and can be set up on an operating level most convenient for the operator.

In short, this new equipment simplifies operations and makes it easier for a person working at the machine.

Girls' Club News

By Dorothy Bernier

Vacationing

"Oh, there's no one with endurance like the man who sells insurance", unless it's the gal who can wait until October for her vacation. But Elizabeth Keilty, Employee Relations, believes that's the best time of year for Washington, D. C. and Atlantic City. We heartily agree!

Vital Statistics

Our sincere congratulations to two brand-new sets of parents—all Scovillites! Julie Ferris Proulx, formerly of CTO, and hubby Paul are singing lullabies to Michael Theodore who arrived on October 1. Mary McNerny Gibbons, formerly of Mill Sales, and dad, Jimmy, have named their newcomer Kevin James.

Gathered At Random

Nicest thing we've seen in days is the glow about Lucille Pepin, B & F Prod., when she's describing her dream house. And it's not a dream—it's for real!

Sue Guarrera, Defense Material, is an ardent patron of the theater. She reviews nearly all the shows at Shubert's from the fourth row, center—nice seats if you can get them!

Barbara LaFlamme, Slide Fastener, is very much engaged to Fred Presnick, but hasn't set the date yet. The housing problem has to be solved first.

Lorraine Delage, Billing, made a very pretty bridesmaid at Dolores Genest's wedding recently. Dolores, who formerly worked in Billing, became Mrs. Tracy Dixon on September 15.

Saddest baseball fans in town—Mary and Catherine Brick, B & F Production, the last few days of the pennant race. Those Boston Red Sox—wha hopen?

Waterville

Our special orchid reserved for special occasions goes to Marie Sonier of Waterville who just returned from Tucson, Arizona. It's a long trip, but Marie found it worthwhile—she is now a very proud grandmother. Congratulations!

Here's to a speedy recovery for Marjorie Kiernan who is out ill. Your friends miss you, Marjorie.

Fishing Notes

By Jim Littlejohn

The fourth and final round of the SERA Reeves Fishing Competition for 1951 was held on October 4 with 30 employees participating.

Steve Sharka was not content to bring in the largest Perch of the fourth round, but also had the largest Pickerel and the largest Calico.

John Hubbard managed to pull in the best Trout and he tied with Vinnie Manzolli for the Bullhead.

Winners of the largest fish caught in the four rounds are as follows:

- PERCH—V. Manzolli, 12"; S. Sharka, 11-7/16"; D. Shanahan, 11-1/8"
- PICKEREL—S. Sharka, 19-1/4"; H. Eastwood, 17-1/2"; H. Miller, 17"
- BLACK BASS—T. Kaukas, 19-1/2"; J. Coffey, 16-3/8"; D. Camerota, 15-3/4"
- CALICO—C. Semetas, 12-1/8"; S. Sharka, 10-7/8"; V. Manzolli, 9-5/8"
- BULLHEAD—J. Hubbard - V. Manzolli, 16-1/2"; L. Reid, 14-1/2"
- TROUT—J. Hubbard, 15-5/8"; J. Littlejohn, 13"; L. Reid - W. Coleman, 12-7/8"

Winner of the 1951 Reeves Competition is Steve Sharka who totaled seven points. Vinnie Manzolli is second with six and a half points and John Hubbard is third with five and a half points.

The annual fisherman's banquet will be held on Thursday, November 8. Get your tickets now. For further information, contact Jim Littlejohn, Factory Acct.

The Rod & Gun Club offered members special prizes for the largest fish caught from the opening of the season to the end of the Reeves Competition. Winners are as follows:

- PERCH—C. Klimaszewski, 12-3/8"
- PICKEREL—X. Rudaitis, 23-7/8"
- BLACK BASS—N. Granoth, 19-3/4"
- CALICO—C. Klimaszewski, 13-1/4"
- BULLHEAD—W. Aylward, 20-1/4"
- TROUT—J. Hubbard, 15-3/8"

Cribbage Doings

The first night of official play for the Cribbage Tournament took place at the SERA Clubhouse on Oct. 9.

As in previous years, the players are divided into two groups—the American and National Leagues. There are eight players in each league. The American League is under the direction of Captain Henry Nault and the National League under Captain Earl Odell.

At the end of play on the first evening, Henry Nault's men had 150 points more than their opponents and a total score of 5,517. Individual high was taken by Bill McCasland and Erv Honyotski who totaled 1,413.

Rod Mill Topics

By Kilroy

"Rusty" Williams, Darwin Weeks and Denny Shanahan have been seen fishing at Woodtick with Don (Hawk) Albrecht. Guess Hawk's tutoring was not in vain as Denny won a prize in a fishing competition recently.

Mrs. Peter McCarthy, nee Margaret Sullivan, has returned from her wedding trip. The gang is glad to see you back, Peg.

We hear that Simon Magnarella was doing quite a bit of hot rod motor boating around Lake Hitchcock during his recent vacation.

Vacationists from whom we received greetings: Tom O'Connell from the Pocono Mts., Charlie Verroneau from Canada and Herman Eason from North Carolina. Bill Tinney spent his vacation in Pennsylvania but wound up digging ditches. Looking for coal, Bill?

Best wishes to George Rein who joined the Navy recently. The second shift boys presented him a gift. Good luck to you, George!

Our former reporter, Dom Polo, spent most of last week in the hospital after an operation. Here's hoping you now feel "fit as a fiddle", Dom.

Inter-Department Softball Champs

The boys on the West Machine Room team captured top honors in the 1951 Inter-Department Softball League. The Trucker team took second place honors.

Winners are shown above (kneeling, left to right):—Sam Tropasso, Coach John Wisneski, Captain Joe Begnal, and Nick Ruffino. Standing are:—Frank Urniezus, Al Crandall, Frank Lacashensky, Mike Matzkevich and Phil Gaudiosi. Ed Yezak, Mike Habrukovich, James Zibluk and Joe Cyr are absent.

Princess Diane

Truly a princess in the Manuel Maia household is 8-months old Diane, for she is the only daughter and has seven brothers. Dad Manuel is a gang leader in Casting Shop's Weighing Up Department.

Local Bank Displays Scovill Exhibit

This exhibit was displayed in the Citizens & Manufacturers National Bank, on Leavenworth St., from October 1st to 10th. It was requested by the bank's president, C. Dana Tyack, who had seen the displays in the windows of a Center Street brokerage firm and liked the idea of telling local residents of the variety of products which are made right here in Waterbury.

Mr. C. Dana Tyack, president of the Citizens & Manufacturers National Bank, noted the impressive Scovill displays set up in the windows of Eisele & King, Libaire, Stout & Co., and the interest they are attracting.

He felt it would be an excellent opportunity to tell more people in the community of the variety of products made right here in our own city if similar displays were set up in the bank lobby. He discussed the possibility of such a display, with the Scovill management, to be set up for approximately ten days.

The above display of GRIPPER Zippers and GRIPPER Fasteners was chosen for the purpose as it had recently appeared in a New York trade show and was still pretty much intact, is an attractive display, and shows samples of our complete closure lines.

Pinochle Tournament

Pinochle got under way at the SERA Clubhouse on Thursday, October 4, with a dinner preceding the tournament.

For the evening, Erv Honyotski's team was in first place with 28,515 points. Bill Mancini's men were second with 26,875 and Art Denker's last with 26,825 points.

Joe Brenneis, substituting for Charlie Ruffini, had individual high score of 4,375.

Kenneth K. Frisbie, Japan
Salvatore M. Fusco, Slide Fastener
Ronald S. Jurzyk, Gen Trng. Room
Robert L. Vallee, Lipstick

The two center models are dressed in typical Western garments which are currently enjoying popularity throughout the entire nation. Arrows point to the Scovill closures which, in this case, are GRIPPER Fasteners, GRIPPER Zippers, tack buttons, rivets and burrs.

At the right, the over-sized bucking bronco design is a blow-up of the design on one of our GRIPPER Fastener caps. In the display, this unit was mechanized so that the bronco actually was "bucking".

Continuous Casting

(Continued from Page 1, Column 2)

chine for non-ferrous metals. Since 1938, about one billion pounds of brass billets and bars have been continuous-cast here in Waterbury.

Many men have experimented with the idea of continuous casting during the past century. Hundreds of patents have been issued, fortunes spent, victories and disappointments recorded along the way.

The original Junghans-Rossi continuous casting process, developed in Germany before World War II, was brought to this country by Scovill engineers, and has been used by our company ever since 1938.

The process in commercial operation today has so spectacularly advanced output, quality of metal, simplicity and dependability that it may replace, to a very considerable extent, present casting procedures in both ferrous and non-ferrous metal production.

This achievement in the brass industry is the forerunner of similar revolutionary developments currently under way in copper, steel and aluminum.

Lawson gas side arm heater, excellent condition, \$12. Call 4-2515.

Boy's 28" bicycle, \$8. Call 4-8232.

Parlor oil stove with chrome trim and chrome pipes, has 7" burner, excellent condition, \$30. Inquire at 455 Hill St., 1st floor, before 3 p.m. weekdays or all day Saturday and Sunday.

Training Topics

By Charlie Martin

Bill Peters, GT#1, reports that his son, Bill, Jr., has completed basic training and is now enjoying that beautiful Cal. weather. Although we're sure the climate out there is wonderful, moving 3,000 miles closer to the enemy would counteract the advantage in climate for us.

George Giba has not only joined the Training Course but also the six-footer club. Welcome, George!

Carl Pickett, who is a native of Sanford, Maine, has been assigned to GT#1. Incidentally, have you noticed what nice fellows these "down-Mainers" are?

We have two new aspiring grinder trainees. Vincent LaPorta is in Chucking Tl. and Bill Smith in Mill & Grind.

Doug Yurtin has moved from GT#1 to Mfg. Eyelet. Originally, he and his twin brother, Donald, entered the course together. Donald left last year for service in the Air Corps. He is now in Cal.

We welcome Tom Mack into the course. Tom got out of Leavenworth this year — that is Leavenworth High School, of course!

The General Training Room welcome mat is out for Frank McIsaac, Charlie Charbonneau, Edward Jordan and Pat Maisto. Frank and Charlie are here fresh from Camp Pickett.

\$150 Lionel train set with accessories in good condition, reasonable. Call 5-2517 from 9 a.m. to 1 p.m.

White Glenwood combination coal and bottle gas stove in good condition, reasonable. Call 6-2698 after 4:30 p.m.

Wood and coal parlor furnace in good condition; 30-gallon gas heater, no reasonable offer refused. Call 6-1046 from 4 to 8 p.m.

Oil drum with faucet, wicker rocking chair, gas heater for small room, bird cage on stand, boy's coat and legging set, size 2-3. Call 3-8638.

250 books of fiction and non-fiction — includes 7 volumes of Kenneth Roberts famous historical novels, 25-volume set of Funk & Wagnalls encyclopedia and 20-volume set of Outline of Knowledge, \$25. Call 3-6961 after 5 p.m.

Florence DeLuxe model parlor stove, \$40; walnut bookcase, \$25. Call 5-5303.

Shoemaker's machine, sewing machine, gas lawn mower, gas wood saw, 1935 Chevrolet, cider mill, tractor, grain wood, Glenwood stove, dining room set, rabbits. Call 5-4111.

16' cedar Lapstrake boat and 3 HP out-board motor. Call 4-6875.

Florence DeLuxe stove in excellent condition, 4 and 4, less than a year old. Call 5-4749 or can be seen at 446 Baldwin Street.

Library table, 26 x 42", practical as a desk, \$10; RCA Victor Console in good condition, \$15. Call 5-4203 after 3 p.m.

1936 Plymouth in good condition, reasonable. Call 3-7779.

Storm windows—1—54 1/2 x 29 1/2"; 1—54 1/2 x 24"; 2—32 x 51"; 1—32 x 35"; 8—28 x 51". Call 3-6443 evenings.

Parlor stove with pipe, like new, reasonable. Call 5-3568.

WANTED TO BUY

RENT WANTED

Garage in vicinity of Willow and West Main. Call 4-0263 after 3:30 p.m.

OTHER

Good home for kitten. Call 5-9690 after 4 p.m.

From The Frisbie Family Album

For the first time in eleven years, Mr. and Mrs. George Frisbie, Sr., had their four sons, daughters-in-law and eight grandchildren visiting them at the same time. This called for the above family picture. Dad Frisbie (dark suit) is employed in the Button Eyelet Room.

His sons, all former Scovillites, are: Ken (second from left) formerly of the Japan Room, Bill (3rd, left) and George, Jr. (5th) of Manufac-

turing Eyelet, and Joe (6th), of East Power House. Ken's wife, Sylvia, (seated, second from left) is with the Waterville Division.
