Strike!

The word seems to be in the air again as it was in 1946. As this is written, 95% of the domestic copper production, and several zinc mines are closed down. Many plants of competing brass manufacturers are closed by strikes. Several have settled with their various Unions and are operating under new contracts. The Union reports that you in the bargaining unit have authorized a strike to be called at the Main Plant and Waterville Division.

The demands of the Union in our case are, in total, absolutely beyond the Company's serious consideration. That is a statement of cold fact. Such being the case, the answer to the situation would seem to be self-evident. We are very sorry that this is so. A similar situation caused a shutdown in our Brooklyn plant.

The effect in Waterbury of a strike at the Main Plant and Waterville Division will be long felt, as was the case in 1946. We have considered these effects carefully.

Our offer to the Union would result in a settlement in line with those already made in related industry. Our competitive position, and our ability to provide jobs, depend upon such a settlement. We sincerely hope that this can result without the costly experience of industrial conflict.

Adam C. Curtis
Vice-President

Girls' Club Plans For Fall Minstrel

An old-fashioned minstrel will be sponsored by the Scovill Girls' Club during the fall. A local, well-known director will handle the show.

All Scovillites interested in taking part are invited to attend a meeting with the director, soon after Labor Day. Notices will be issued with full details as soon as arrangements are complete.

New Assignments Waterville Division

Mr. S. G. Gaillard, Jr., Vice President and General Manager of the Waterville Division, has issued notice of the following appointment:

Charles W. Mackey has been appointed Special Assistant to the General Manager with such duties and responsibilities as shall be assigned him from time to time.

John McCarthy, Winner Of Two Awards

John McCarthy, roller in the Continuous Strip Mill, was given awards of \$25.00 and \$15.00 recently for two suggestions which he submitted to the Industrial Improvement Committee.

There is always room for improvement. John found this to be true even in such locations as our new Continuous Strip Mill (the most modern rolling mill in the world) with its highly mechanized operations.

Suggestions are always welcome. Blanks and envelopes are available in each department.

The Industrial Improvement Committee meets once a month and is glad to hear from all employees with suggestions.

Woodtick Area Closed

The Labor Day weekend marks the official closing of the Woodtick Area except for organized picnic groups who have already planned their outings.

Arrangements can be made by any department or organized group within the plant, to use the Picnic Area for such activities, by calling Ext. 834.

Kids' Day Camp

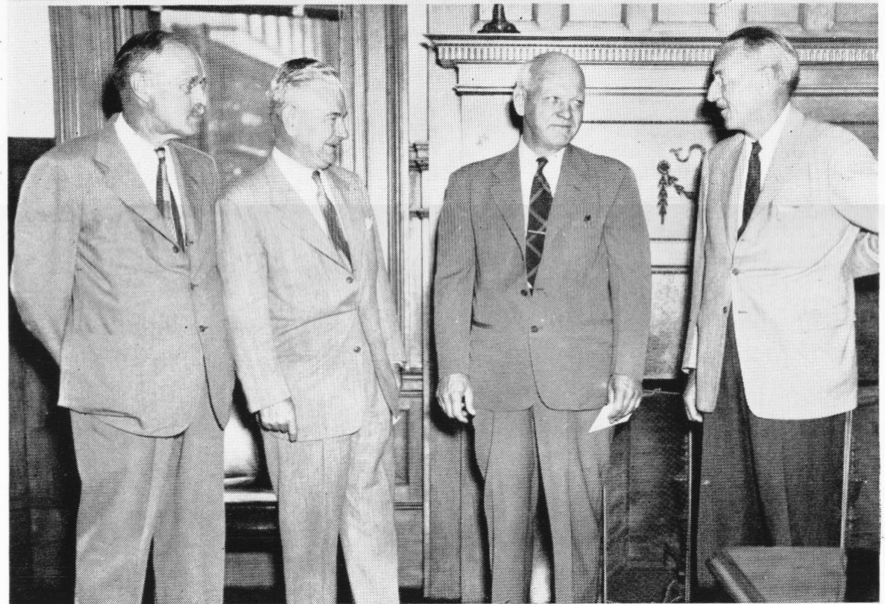

The SERA Kids' Day Camp brought another successful season to a close with the Labor Day weekend. Approximately 255 children participated during the eight-week program.

Twelve children attended every session of the Camp schedule while, for the most part, the children were in attendance for one or two weeks. Several alternated — one week at Camp, one week at home, and so on.

Retired Folks' Outing

The Scovill Retired Folks' Club will resume monthly meetings with a picnic at the Woodtick Area on Tuesday, September 11.

Two Receive 40-Year Service Awards

Vice-President William M. Goss (extreme right) recently presented 40-year diamond-studded gold service awards to two employees.

Upper photo:—Elby Boulanger (Button Tool) looks over his award as Superintendent of Tool & Development W. H. Machin and General Foreman Ray Havicani smile in approval.

Lower photo:—Payroll Dept. Supervisor E. T. Ford and Comptroller W. F. Burke were on hand for the presentation of the award to Earl Odell (second from right) Supervisor of the Addressograph Dept.

Blue Cross--CMS Plans

Membership Numbers

Your Blue Cross membership number is now used to identify both Blue Cross and CMS membership agreements. Previously, CMS membership cards were issued with separate membership numbers.

This step was taken to speed up the handling of payments, membership changes and inquiries.

If you received your CMS card before April 1, merely disregard the membership number which appears on the card. Your Blue Cross membership number now does the job for both plans.

Subscribers Service

Conn. Blue Cross announces the opening of a new information service, the "Subscribers Service" at its home office, 345 Whitney Ave., New Haven.

If you have a specific question involving a check of records or if, for example, you have a question regarding a particular hospital case and you feel

that it requires telephone handling, simply call the Blue Cross Home Office and ask for Subscribers Service.

If your questions are of a general nature concerning Blue Cross benefits or enrollment regulations, contact Mrs. Helen White at the Blue Cross Office in the Spencer Block, or call Ext. 2389.

Subscribers Service is also equipped to answer telephone inquiries concerning the CMS Surgical Plan.

Facts And Figures

In the first six months of this year, Blue Cross paid out a total of \$6,637,701—the highest total for a six-month period since the start of your non-profit hospital plan in 1937. Chief reasons for the increase are greater use of hospital facilities, higher hospital costs and the introduction of new hospital services.

In the 14 years since it was started, Blue Cross has paid a grand total of \$53,643,644.07 for members' care in hospitals — a significant sum even in these days of astronomical figures.

Ten Years Old--Sept. 8, 1951

Ten years ago September 8, *THE BULLETIN* was re-born. Much water has gone over the dam since then, and *THE BULLETIN* has done its best to bring you the news as the torrent increased over the years.

One of the most sensational news items in years came on Pearl Harbor Day, December 7, 1941. From that date until October, 1945, *THE BULLETIN* carried the stories and activities of the "Company that War couldn't beat."

Whether it was supplying materials of War, Bond Drives or any Community Drive to promote our Country's successful War Effort, Scovill was in the front line.

During these trying years, *THE BULLETIN* and its staff did its best to keep employees and the community informed of all Company and War activities.

During the late months of 1945, a period of reconversion to peace time living commenced, and it seemed that we had many years of peace ahead of us.

Our reasoning proved wrong, for in June, 1950, the Korean War commenced and as *THE BULLETIN* approaches its 10th birthday, it seems that we are in for another period of unrest. However, we are sure that no Scovill employee will be found wanting in their efforts to aid in bringing the present conflagration to a successful conclusion.

It is our fond hope that our 11th birthday will find the World at Peace.

Inter-Dept. Golf

At the end of the 1951 season, the teams of Kraft-O'Connell and Sabis-Vaughan were tied for first place with 11 wins, 3 losses, 1 tie.

The Kraft-O'Connell team won the championship playoff on August 20.

Ed Sabis had low gross and low net honors throughout the season with 35 and 24 respectively. John Latvis had a second low net honor of 25.

Saturday, October 13, is the tentative date for the annual banquet to be held.

Around The Plant

By Our Roving Reporter

We're happy to report that Fred Wilson is recuperating nicely, altho at this writing, he is still a patient at St. Mary's Hospital.

Emilio Lattanzio (Lacquer) will soon be able to tell you quite a bit about Paris, LeHavre, etc. His wife has just returned from a four-months' trip abroad.

Hello and Goodbye. Hello to Mike Solomita of the Bulletin Office who is taking over the posting of the plant bulletin boards. Goodbye and good luck to Howard Kunofsky who has left to help out in his father's business.

For Safety's Sake--Don't Go Up Too Far!

Yes, you can go up a ladder too far. The top two or three steps (or rungs) were not meant for feet. They are used, properly, as body rests or hand holds.

In this picture, Wilbert Heyward and Harold Moore of the Sanitation Department, pose to show the right way (Harold on the ladder at the right) and the wrong way (Wilbert at the left) to use a ladder.

Keep off the top of ladders. There are many hundreds of ladders in the plant and the right one for the job can be obtained. In some years, more than one hundred ladders have been bought to keep men on safe footings above floor levels.

If better or different ladders are needed to do jobs safely—don't take a chance—ask for the right ladder. Don't go above the third step from the top of a ladder!

Scovill Appears In New Button Book

Though Scovill through the years has been reported, in the button field, as a manufacturer chiefly of metal buttons, its long and distinguished history in that limited branch of the art has won it a pre-eminence which brings its name forward whenever buttons are discussed.

A recent instance of this is noted in the new appearance of a pocket-size button handbook, *The Button Sampler*,

published as the eighth volume in *Collectors' Little Book Series* under the authorship of Lillian Smith Albert and Jane F. Adams. Mrs. Albert is widely known as the editor of the *Button Bulletin*, the elaborate bi-monthly of the National Button Society.

Several Scovill buttons, of historical significance, are illustrated in the volume, from the LaFayette and Washington buttons of the 1820's and the varied and attractive Sporting buttons of the 1840's to the exquisite and now exceedingly rare chased aluminum buttons of the 1890's. Indeed, Scovill enjoys the nearly unique distinction of a specific mention in connection with the buttons of the two latter groups.

Considering the extremely wide range of button varieties, both metal and other, covered by the book, Scovill people may feel distinctly honored by the significant representation given to its button production.

Credit Union No. 1

By Jim Bruno

John W. Humphrey (Class A Production) was elected to the Credit Committee at a meeting of the Board of Directors on August 14, 1951. He will serve the unexpired term of Charles F. Healey. Other members on this Committee are Tenant Elwin and Norman Schaffer. These men perform a very valuable service for the successful operation of your credit union. They act on all applications for loans.

Your Credit Union, with assets of \$262,000, is a sound financial institution. You should use it for savings or when in need of a loan. A 2.8% dividend was declared for last year on savings as of December 31, 1950.

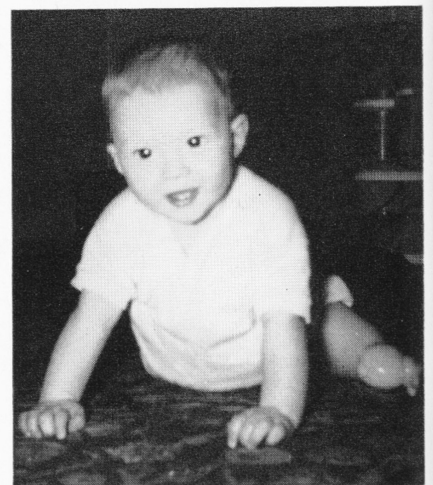

You can borrow up to \$500.00 at 1% interest per month on the unpaid balance or over \$500.00 at a straight 5% per annum interest charge, with no extras. To borrow wisely is good business.

Your Credit Union will also finance that new car for you. While all loans are now governed by certain Government Regulations, the Credit Union can give just as liberal terms as any other lending agency.

All unpaid loan balances are insured against death or total disability of the borrower. In case of sickness or adversity, necessary extensions are permitted.

For further information consult your Credit Union Secretary.

Our Family Album

Master Robert David West, who was all of one year old in March, is the grandson of Peter Kelly, *Chucking Tool*. Grandmother Mary McDonald Kelly was formerly with the No. Mill.

Air Force's New Fire Truck Equipped With Scovill LOXIT Fittings

The above scene is of a gasoline fire engulfing an abandoned Flying Fortress a few seconds before the Air Force's new fire truck cut a rescue path into the flames in a demonstration at Bolling Air Force Base recently.

At the right is a closeup of the truck. The 13-ton vehicle is designed to smother the hottest gasoline blaze under a blanket of foam in a few seconds. It is equipped to roll up beside a flaming wreck in which airmen may be trapped and cool it enough for rescuers to cut their way inside while protected by a torrent of foam, chemical fog or water.

The extinguishing fluids are distributed under high pressure from remotely controlled nozzles on top of the truck and three others set to spray the ground in front of the wheels.

This fire-fighter was the first production model of a new line of vehicles developed by the Air Force. Manned by a crew of four, the vehicle can accelerate to 60 miles an hour in as many

seconds. It carries up to 600 gallons of water and foam solution.

Three members of our Automatic Screw Division conferred with American-LaFrance on the assembling of the model truck. They were: V. A. Hedberg, Stanley Lucas and John Greenleaf. Stan also engineered the inside

setup of the truck—regarding heating, pumping, hydraulics.

The quality of our LOXIT fittings is verified by the fact that all Air Force fire trucks will be equipped with these fittings. American-LaFrance has contracted to use the fittings in all fire trucks they make for civilian use also.

Training Topics

We welcome the following to the Gen. Trng. Rooms: George Boisvert, Ady Grandmaison and Louis Guarda, all local lads, and Fred Allison of Naugatuck. Angelo Barnaba, Chucking Tool, and Ralph Moone, Milling & Grinding, are entered in our Machine-Tool Specialist course.

Mike Kloc, General Training #1, walked off with low gross in the SERA Tournament at Chase Country Club on August 25. Incidentally, he shot 74.

You know what happens in September, don't you? Why school, to be sure. And, I just know everyone will be happy to hear that the related training school for apprentices reopens on September 10.

Three of our boys are in new quarters now. Tom Fitzpatrick is in Mfg. Eyelet, Ed Adamski in Btn. Eyelet and Bob Hucins in Slide Fastener.

Sorry to hear that Bob Hincks' wife has been stricken with polio. Bob is a member of the Advanced Training Course.

SERA Golf Tourney

The annual SERA Kickers' Golf tournament was held at the Chase Country Club course on August 25. It was open to all men and women golfers in the plant and 55 players took part.

Prizes were awarded to the following: 1st Kickers—John Foley, 2nd Kickers—Frank Connelly, 3rd Kickers—James Baker.

Mike Kloc turned in low gross of 74 and Jim Dorso had low net, 63.

Hamburgers and hot dogs were served in the picnic grove. Erving Honyotki and Dan Smith were food purveyors and they kept the players well supplied throughout the day.

The annual clambake was held at Woodtick on Saturday, August 18, with Joe Paige as caterer. You should have seen that food go!

The main event of the day was a varied sports program planned by the committee. First and second place winners of the different sports were: SKEET—Lee Reid-Fred Ensminger, Irving Fagan

PLUG CASTING (Accuracy)—John Foley, John Matulunas
PLUG CASTING (Distances)—Tom Kaukas, John Matulunas
FLY CASTING (Accuracy)—Irving Fagan, Tom Kaukas
FLY CASTING (Distance)—Tom Kaukas, Fred Ensminger
HORSESHOE—Vin Manzolli-Ray Ladden, Dan Camerota-Archie Hollywood
BOCCI—Maurice Gagne-John Hubbard, Roger Huot-Gene Delage

Rod Mill Topics

By Kilroy

Congratulations to Al Lupica who was married Saturday, August 25. Best of luck from all the gang.

We hear that Bill Goggins and Leo Moritis have been doing a lot of fishing of late but as yet we haven't heard any fish stories. No luck boys?

We wonder if Art Tracy is related to that famous detective, Dick Tracy. They tell us he is very good at finding things.

The golfing boys in the mill report they had a very nice time at the golf outing recently. Those attending were H. Kraft, J. Dorso, B. Dillon, R. Dayharsh, C. Vaughan, T. Ryeal, J. Kinney, J. Zravathawecz, R. Williams and H. Desco-teaux. Two of the prize winners were Joe Dorso and Howie Kraft.

Fishing Notes

By Jim Littlejohn

The first round of the SERA Reeves Fishing Competition for 1951 was held on August 25, with 40 employees participating. Winners were as follows:

PERCH—John Hubbard
PICKEREL—Jim Coffey
BLACK BASS—Tom Kaukas
CALICO—Harold Rogers
BULLHEAD—John Delaney
TROUT—Dennis Shanahan

The nicest fish was a Bass caught by Tom Kaukas. It weighed 4 lbs., 14 oz. and was 19½" long.

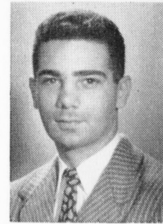

The second round will be held on September 8. All interested employees are welcome to join the group. For particulars, call Jim Littlejohn.

There are still bigger and better fish at Woodtick. E. Delage swears he had a whopper but Ray Ladden found the hook stuck on the anchor rope. Gene still claims he had a very big fish!

Training Course

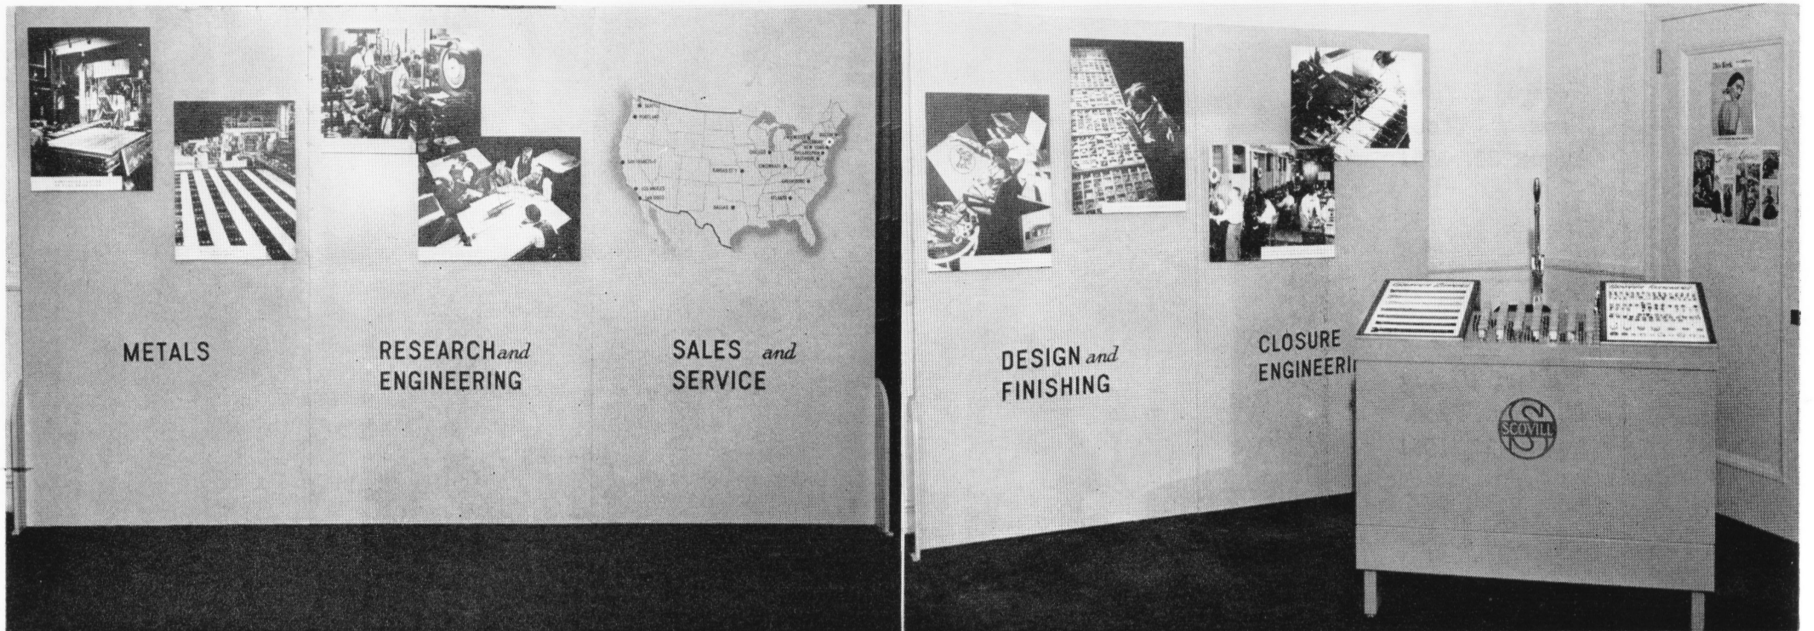

Joseph Seebach graduated on August 19, 1951, as a Toolmaker. He has been assigned to the Mfg. Eyelet Tool Room.

John Zappone graduated as a Toolmaker, on August 12, 1951 and has been assigned to the Oakville Co. Division.

Scovill Displays Feature Closures At National Trade Shows

This attractive display (in two parts) featuring Scovill facilities for designing, manufacturing and marketing metal closures for the garment industry was used at two trade conventions recently.

In addition to showing samples of our snap fasteners, tack buttons, rivets and burrs, and zippers, large photos mounted on individual panels illustrated the extensive facilities of Scovill.

The display appeared at:
 The Southern Garment Manufacturers' Convention, Hotel Peabody, Memphis, Tennessee, Aug. 8-10.
 The Textile Merchants and Associated Industries Convention, Palmer House, Chicago, Aug. 13-15.

Both conventions were attended by representatives of garment manufacturing companies, notably the work clothing group. Scovill supplies this industry with tack buttons, snap fasteners, rivets and burrs, wire trim and zippers.

At the far right may be seen the table which carried sample boards of zippers, and other closures. In the center is a machine used by our repre-

sentatives to make up sample swatches with the appropriate fastener mounted in them. Thus it is possible to give prospective customers the application of any Scovill closure to a swatch of a fabric in which his particular company might be interested.

Scovillites at the Memphis show included: E. B. Janes, J. DeWitt Knotter and W. R. Spearrin of the Main Plant;

Midwest Territory representatives J. J. Hurley, J. H. Moran and A. G. Bischof.

At the Chicago exhibit were: Messrs. Janes, Knotter, Spearrin, Moran, Bischof, and representatives of our Southern territory: C. E. Selsam, W. E. Ashwell, E. O. Grimes, M. D. Farrar, D. H. Miller, D. W. Copeland, E. R. Swanson and E. G. Overton.

By Dorothy Bernier — Alice Spillar

You Have A Date!

September 16, at Woodtick. All arrangements have been completed for our annual clambake. This year the outing will be a real family affair, with the men-folks and children along.

You may purchase your tickets from any Council member—adults \$3.75, children, \$2.00. The menu includes a complete chicken dinner plus all the other fixin's.

Vacations

Evelyn Shugdinis, Contr. Mfg. Sales, certainly looks as though her vacation agreed with her. Evelyn brought back a beautiful sun-tan after a week at Isle La-Motte, Vermont, on Lake Champlain.

Mary McKenna, CTO, covered a lot of New England territory, motoring up to Boston, Gloucester, Hampton Beach, Portland and Bar Harbor. Says the Desert of Maine is worth the trip, but if that's too dry for your taste, stop off at The Flume in the White Mountains.

Martha O'Brien, CTO, and her daughter spent a week at Madison—Cards have been arriving from Muriel Ham, Central File, postmarked all over Mass. and New Hampshire—The bad weather didn't interfere with the wonderful time Louise Longo, CTO, enjoyed at Crescent Beach, Niantic. Louise is now an ardent supporter of the Ivoryton Theatre.

Dora Mori, Waterbury Sales, and Irene Rosato, Mill Prod., recently spent a superlative weekend in Atlantic City where they were registered at the Lafayette Hotel—Edith Laudati and Carmel Coscia, CTO, are very enthusiastic about East-over, Mass. Golfing every day, dancing every night—who wouldn't be?

Josephine Bombaci, CTO, drove over the border for some sight-seeing in Montreal and Old Quebec. The climax of her vacation, of course, was the Saguenay River cruise.

Josephine Keilty, Mabel Ottinger, Irene Peters and Hilda Kramer spent a week in Montreal. They also finished a weekend in New York—Betty Pryor and Mary Ellen True enjoyed their week in Niantic. Some color you have there, Betty!

Marie Pennell enjoyed going here and there and relaxing. One big event of her vacation was "The Pennell Reunion" in Harwinton—Frances Carrington went to Putnam to visit her mother. She also entertained her brother from Chicago at her home—Helen Kelly is at Cape Cod.

Council News

Sorry Pat Rainville is resigning from the Council and the Club, but we're losing her to a worthy cause. We're sure the nursing profession will have reason to be proud of its newest recruit. Good luck, Pat.
