## Over 150<sup>th</sup> Merry Christmas

The original Mill on Mad River.

Again, on behalf of your Officers and Directors, I am privileged to extend to all Scovill employees and their families our sincerest wishes for a Merry Christmas together with the hope that the New Year to follow will be fortunate for all of us.

This year Scovill Manufacturing Company closes its books on the 150th year of its existence. In this century and a half, our country has grown from a small nation to a position of world leadership. Yet, with all this material progress, we should never lose sight of the true meaning of Christmas.

It is proper that "Merry" should be associated with Christmas as it is a joyful occasion. But Christmas had its beginnings in a spiritual way which was heralded by ". . . on earth peace, good will toward men". In our own daily relationships throughout the year, let each of us attempt to keep alive the attitudes prevailing during this happy season.

President

### Federated Funds

Scovill employees were reaching toward a goal of \$75,000 in their Federated Funds campaign as *THE BULLETIN* went to press. This is in excess of the \$65,000 (one-tenth of the community goal) which has been assigned to the Main Plant, Waterville and Oakville Company Divisions.

The campaign among the salaried workers was completed on November 24, with a record-breaking total in excess of their quota.

(Continued on Page 5, Column 4)

### Holiday Shutdown Main Plant

Wednesday, December 24—the plant will operate as per notice posted in each department. No work will be performed after 5:00 p.m.

*Christmas Day*—the plant will be closed.

Friday, December 26 — the plant will reopen with the start of the first shift. All employees will be paid on this day.

Wednesday, December 31 — the plant will operate on regular schedule.

*New Year's Day*—the plant will be closed.

Friday, January 2, 1953—Inventory will be taken. All offices will work on regular schedule. Other employees needed for inventory or maintenance work will be notified.

Due to the taking of inventory, Manufacturing and Tool Division employees will be paid at the Back Pay Station from 9:30 a.m. to 12:00 noon. All other departments will be paid from 12:00 noon to 2:30 p.m.

Those who are working will be paid at their work place.

Employees who do not receive their pay on Friday will be paid at their work place on Monday, January 5.

### Scovill Ownership Shared By 16,000

That New England has faith in its home industries is indicated by an analysis of common stock ownership of Scovill Manufacturing Co. Approximately fifty per cent of the 1,225,957 publicly-owned shares were held by New Englanders at the beginning of this year, who also represent roughly one-half of the individual stockholders.

Scovill, which is one of the oldest companies in America, is celebrating its 150th anniversary during 1952. It has one of the largest and most modern brass mills in the country, and is one of the leading fabricators of metal products using brass, copper, aluminum, steel and nickel.

A company statistician rooting through 1952 stockholder files has come up with these facts:

The number of stockholders exceeds the current company employment by 45 per cent with 16,008 stockholders as compared with 11,004 employees.

Connecticut has the largest number of stockholders, totaling 6,045. New York is second with 2,122, and California third with 1,331. In the past seven years the number of stockholders has increased about 43 per cent.

Stockholder interest in the company is reflected by the fact that 71.2 per cent of the stockholders returned proxies prior to the last annual meet-

(Continued on Page 2, Column 1)

### Retirements

PAUL BLUM, ASM Tool, retired from active Scovill service on October 27, 1952.

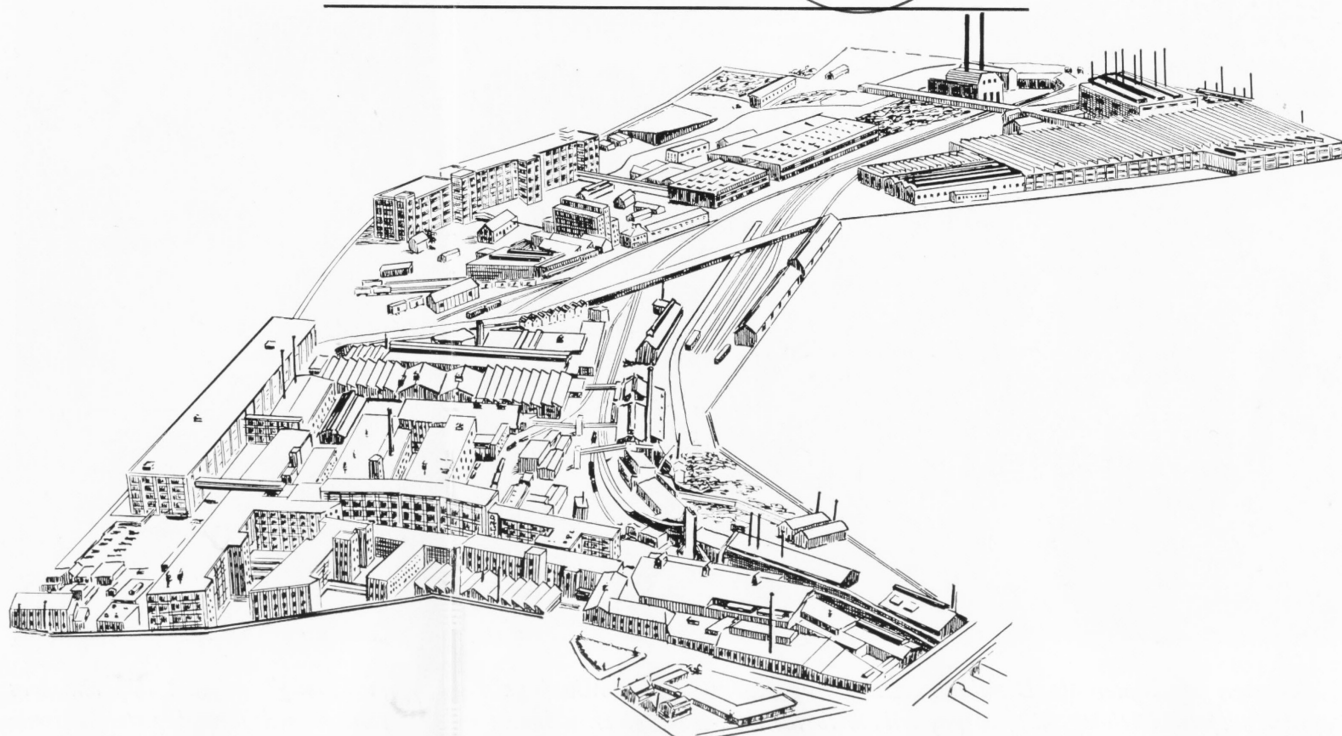

Mr. Blum has 39 years of continuous Scovill service. He was employed as a machinist in ASM Tool.

HARRY MAZURINE, Sanitation, was placed on the Special Retirement List as of November 1, 1952.

Mr. Mazurine was hired in 1916, and has a continuous service record since 1921. He had served as a maintenance man in Sanitation since 1937.

THOMAS MURPHY, Buff 2, was retired on November 10, 1952.

## Christmas - 1952

### Peace on Earth to Men of Good Will

The entire BULLETIN Staff wishes you and yours a Merry Christmas and a Happy and Prosperous New Year. We also express the wish that the sentiment referred to above will continue down through the years. And if men and nations will think more of peace and less of dominating others with their wills, we are sure that Peace on Earth to Men of Good Will will continue through the centuries.

### Scovill Ownership

(Continued from Page 1, Column 3)

ing in April, and 78.7 per cent of all outstanding shares was represented at the meeting either in person or by proxy. No one individual owns more than one and one-half per cent of the total number of outstanding shares, the average holding being 76 shares per stockholder.

Scovill has plants in three states, Canada and the United Kingdom; has stockholders in every state in the union, in the District of Columbia, Canada, South America, Mexico, England and European continental countries.

On a per capita basis there is one share of stock held for every 332 persons in Connecticut. Vermont rates second with one shareholder for every 2,042 persons in that state. The national average is one Scovill stockholder per 10,237, while New England's ratio is one Scovill owner per 1,247 persons.

### National Organization Names Ken Thornton

G. Kenneth Thornton, advertising manager of Scovill Manufacturing Co., was named president of the Controlled Circulation Audit at the group's annual meeting held in New York City. The CCA is a national organization composed of advertising executives of trade papers, industrial firms and advertising agencies.

Ken Thornton is a member of American Marketing Association, treasurer of the Hartford chapter of National Industrial Advertisers Association, past director of NIAA and for the past two years director of CCA. During the past year he was vice-president of that organization.

George F. Boisvert, Gen. Trng. 1  
James J. Perugini, Mfg. Eyelet

### Do's For Diabetics

By Robert W. Butler, M.D.

If you discover you have diabetes, the first thing to remember is not to worry about it. There's an old saying to the effect that intelligent people never die of chronic diseases that they know they have. Frequently since they take better care of themselves because of it, they live longer than they would have without it. So don't worry about it, but don't ever lose your respect for it, either.

Your doctor will put you on a diet intended to keep you at a normal weight (there's a good chance that you're too heavy—diabetes being one of the dangers from overweight—so you may have to reduce) and to keep you well nourished. Then he will give you enough insulin to make up for what your body isn't producing.

It's almost as simple as that, too; but there are a lot of little quirks that you should know about right from the beginning.

For instance, if you have an infection, whether it be a carbuncle or a cold, you need more than your usual amount of insulin; and if you are going to get a lot more than your usual amount of exercise you can use less insulin, or more food. If you're an expectant mother (diabetics have children too) you may need more insulin during the latter part of pregnancy.

You should have something on your person to identify yourself as a diabetic: a dog tag around your neck, a bracelet, or a card in your purse. You may never be brought to a hospital or doctor's office unconscious; but if you should, it's a very valuable gadget to have with you.

There are many other things, too numerous to mention here, but your doctor will recommend a book for you which you will find interesting and easy to read. There is probably no disease in which it is more important for the patient to have a thorough understanding of all the angles, or in which it is easier to get the necessary information.

Get this knowledge and you'll find it's not such a hard disease to live with after all; and if you don't cheat, it won't shorten your life, either!

### Minnie Mulholland Feted At Surprise Birthday Party

Members of Waterville Division's Assembling Room staged a surprise birthday party to pay tribute to their beloved Mary (Minnie) Mulholland on December 2.

Minnie was 70 years "young" on that day and was given a lovely cake, a corsage and several gifts. Minnie has a continuous service record of almost 49 years.

### Pinochle Tournament

The thirty-eighth season of pinochle tournaments got under way a bit late this season. The boys had their first night of play on November 20.

Team scores for December 4 are as follows: Honyotski—22,490, Matallunas—22,040, Mancini—21,640.

Joe Michaud had high for the evening when he totaled 5,450. John March was second with 4,410.

## Girls' Club News

By Judy Bradshaw

The Christmas season is again upon us and, in their usual manner, Council members have been buzzing around like a hive of bees in planning activities.

The CHILDREN'S CHRISTMAS PARTY. The popularity of this annual event is proven by the fact that, at press time, it seemed apparent that last year's total of 1200 attendants at both parties will be met again this year.

The CHRISTMAS BASKETS AND CLOTHING. It has been the custom to deliver baskets of food to needy Scovill families for a good number of years. This year, however, the Club is going to issue Food Certificates, drawn on one particular store to which the recipient can go and choose his own supplies.

While the food sent to these families has always been of the best quality, sometimes special diets eliminate certain foods from family menus, so it was decided to issue food certificates so that individuals can purchase the foods which they can best use.

The Club would like to take this opportunity to thank all employees who, thru their purchases of the candy, cards and miscellaneous from the Club, make all these Christmas activities possible. A Merry Christmas to you all.

July 8—Daniel Nardozzi, Bldg. 112 Ser.; July 9—James Zibluk, W. Mach.; July 13—Mary Murphy, Sl. Fastn.; July 16—Richard Johnson, Btn. Eye; July 18—Charles Anthony, Casting; Marguerite Rossi, Plating.

July 21—John Barnauskas, W. Mach.; July 22—Shiver Young, Casting; July 24—James Williams, Drafting; July 27—Vincenza Bianca, Chucking; July 29—Chester Oldakowski, Mill & Grind.; Leon Schliff, Steam; Jeremiah Shea, Pl. Prot.

July 30—Frank Iorio, ASM Tl.; Richard Renna, Sl. Fastn. Tl.; Aug. 4—George Kachman, Casting; Aug. 9—Leonard Synkowitz, Btn. Tl.; Aug. 12—Elizabeth Affeldt, Mfg. Rm. Clerks.; Frank Sabis, Casting.

Aug. 14—Michael Biello, Sanit.; Aug. 16—Antonio Santuro, Casting; Aug. 18—Lenzola Mercer, Casting; Aug. 20—Andrew Wendel, Wtvl.; Aug. 21—John DeLuca, Casting; Michael Tata, Sanit.

Aug. 24—Domenic DiVito, Mfg. Eye.; Bertrand Lafreniere, Gr. Eye; Aug. 28—Francis Bergin, T & K; Sept. 1—Kasimir Pernerewski, Chucking Tl.; Sidney Wells, Btn. Eye; Sept. 3—Paul Bennett, Mill. & Grind.; Anna Pivrotto, Buff 3.

Sept. 4—Carmine Moffo, Box; Ruth True-love, N. Mill Rolls; Sept. 5—Julia Santopietro, Mfg. Room Clks.; Sept. 7—John Deegan, Grip Eye. Tl.; Sept. 8—Peter Hickson, Casting; Sept. 9—Patsy Caputo, Casting; William Cordelli, Press 2; Frank Harenza, Tube Mill.

Sept. 11—Anthony Cugno, Gen. Mfg. Tl.; John Raines and Mike Swoditch, Jr. both of Casting; Sept. 13—Marjorie Kieran, Wtvl.; Sept. 14—Alfred Christiano, Fin. Goods Stores; Sept. 15—Joseph Gurtoski, Wtvl.

Sept. 18—Jessie Ciarleglio, Mfg. Rm. Clks.; Mary Danese, Assembl.; Sept. 19—Arnold Pernerewski, W. Mach.; Sept. 22—Christy Carozzo, Grip. Eye.; Daniel Shugrue, Physical Stores; John Stawski, Cast.

Sept. 25—Nick Canonic, Automobiles; Sept. 28—Joseph Lapierre, CSM; Grace Kelley, Purchasing; Sept. 29—Margaret Gaborcik, Hot Forge; Sept. 30—Douglas Estelle, Engineering.

## Sabis Family Album

Frank Sabis, Casting Shop, is mighty proud of these youngsters. Daughter Mary Gertrude is twelve years old, and son Charlie is eight. The youngsters, in turn, can be proud of their Dad and Uncle Ed (also of Casting) who turn in some pretty nice golf scores. Dad has been on the SERA Varsity Team and Uncle Ed has scored a "hole in one" at East Mountain this past season.

## Retirements

(Continued from Page 1, Column 4)

Mr. Murphy has 36 years of continuous Company service. He was employed as a buffer in Buff 2.

JOSEPH GOKAS, Blanking, was added to the Special Retirement List as of December 1, 1952.

Mr. Gokas first came to Scovill on August 25, 1908, and worked intermittently until 1914 when his continuous service record started. He was employed as a floorman in Blanking.

## Life Out East

By Harry Shewbridge

Yep, I'm back again, and this time with a network of private eyes that would make Walter Winchell drool.

I might as well warn the Rod and Tube Mills, I've got a spy over there now, who pardon the expression, is "all ears". As a sample for this issue, take the case of *Mary Perrotti*, a gal well known in the Tube Mill. *Mary* attended the testimonial dinner for Rocco Diorio at Waverly Inn a couple of weeks ago. I don't know how Rocco and the other 649 guests enjoyed themselves, but *Mary* sure had a wonderful time. I wonder if she'll ever stop talking about it. Don't mind me, *Mary*, I'm just jealous.

But enough of this dawdling (take my word for it, there is such a word) and let's get along. Some news about two Chucking Department absentees.

*Emile Rochon* has been in the hospital resting up and the news of the moment is that he is coming along fine. All us "Out Easter" hope that when this goes into the mail, he will be back with us again.

The other item is about *Theresa Palmer*. *Theresa* became a happy little mother on November 26th. What a happy Thanksgiving for the Palmers. An 8-lb. 2-oz. girl, and a redhead at that! As one old redhead to one new redhead, my very best to you, Miss Palmer.

Upstairs, on the 6th floor of 112 Building, is the "Suburban Club", otherwise known as the East Planning Department. A new member has been added. Who? Why *Reed (Diamond Jim) Smith*, of course. A carat and a half gem of a guy. Remember molasses moves slowly but it sure sticks to the job.

While we're on the top floor, let's take a look at Elevator 24. For your information, strangers, that is our new elevator, ultra modern in every way. But for heaven's sake, *Danny*, when are you going to get that white uniform with the gold braid? *Mary*, for the sake of the *Nardozzi's* can't you whip up one out of an old sheet or something? Remember he's the captain of the best elevator in the building.

A little late, but nonetheless sincere, are our congratulations to *Stan Pribus* on the birth of twin daughters. Barbara Gayle and Beverly Lynne joined the family on October 24, 1952 in Chamblee, Georgia. Stan is now connected with the Atlanta Office.

## Jim Littlejohn and His Scottish Pals

While on a tour to his native Scotland this summer, Jim Littlejohn (Factory Acct.) was Guest of Honor at a banquet. Pictured above are Jim and his pals whom he hadn't seen in fifty years. That's Jim seated in the center. The scene is outside the Masonic Hall in Dalry, Scotland.

## Scovill Participates in 150th Anniversary of Brass

The city recently celebrated the 150th anniversary of the founding of the brass industry with an "Industry Open House" at the Armory in which two exhibits described Scovill's contribution to its growth.

In the Hotel Elton—top photo—the Scovill exhibit was set up in the display case at the request of the city's committee. While it was composed of brass articles made by Scovill over the years, it represented a cross section of the type of work produced throughout the brass industry.

The rotating center portion bore the label "Brass from Waterbury has lighted your way for 150 years". E. H. Davis' selection of buttons and medals, which were our earliest production items, attracted much attention.

In addition to the Open House, Scovill's participation in the anniversary included the above displays—one set up in the lobby of the Hotel Elton, the other set up in the Silas Bronson Library.

The exhibit was prepared by W. H. Cleveland, Engineering Dept., with the help of commercial artists.

In the Silas Bronson Library—lower photo—the exhibit, also prepared by Bill Cleveland, was sponsored by the Industrial Museum with which Bill is associated. It contained articles of brass, photographic equipment, plastics and aluminum articles representing many phases of Scovill production during its first 150 years.

In addition, an exhibit was set up in the Mattatuck Historical Society. For this, Scovill furnished some old-time photographs of buildings and personnel. It included an original copy of the "Scientific American" of 1879 which carried on its cover striking pictures of the Scovill plant of that day.

### Pvt. Felladore in Korea

From a dispatch received from the Army Home Town News Center, Kansas City, Mo., we note that Pvt. Robert S. Felladore, formerly of Plumbing Parts Stores, Waterville Division, is among the G.I.'s who are keeping warm with a new kind of stove in Korea.

A 7th Infantry Division artilleryman, he was among the first soldiers to receive one of the Army's all-fuel heaters designed especially for use in tents, bunkers and other field shelters. The stove can be used with coal, wood, charcoal, fuel oil, diesel oil or gasoline.

Private Felladore, who arrived in Korea last August, is a radio and telephone operator in Battery A of the 49th Field Artillery Battalion.

The celebration of the 150th anniversary of the brass industry was climaxed by a banquet on October 7th. Attending were officials and key personnel of the brass industry. Scovill President L. P. Sperry was one of the principal speakers.

Mementos distributed at the affair were a restrike of the button presented to Lafayette, and a copy of "Brass Roots", edited by Ken Howell.

### In Service

Twin Cpl. Donald and Pfc. Daniel Mattaboni are stationed at Schofield Barracks in Hawaii. Both lads have been in the service for twenty months. Their dad is John Mattaboni of the Wire Mill.

## 125 West Planters Donate At 3rd Visit Of Blood Mobile

The above scenes were taken at the Scovill Girls' Clubhouse on Tuesday, December 2, when the Mobile Unit made its third visit to the Main Plant for

employee donations, as set up by the Scovill Employee Blood Donor Program. 125 out of 165 volunteers donated, the quota falling short by 25.

### Fishing Notes

By Jim Littlejohn

On Thanksgiving Day, one of our keenest sportsmen decided to reduce the pheasant population out Colchester way. He promised his wife the spoils of the chase. However, at the close of the day, our hunter brought home scallops and oysters so that wifey wouldn't be disappointed. Perhaps some friends gave him a new recipe for stuffing the bird!

Joe Balfe and his friends had a very successful season getting their limit of pheasants, etc. Perhaps it's Joe's new gun that does the trick.

Ray Ladden always keeps a pheasant in his icebox. No, he doesn't shoot them. He has some very good friends.

For years, Louis Savino has been the owner of a good Beagle and has had plenty of friends when he went rabbit hunting. Unfortunately, Louis lost his dog but it hasn't bothered his hunting at all. He has bagged more rabbits than ever before. What's that theory about, "You can't teach an old dog new tricks"?

Les Hart has all the boats stored away for the winter season now.

The third visit of the Blood Mobile unit to the Main Plant was considered a success even though the quota of 150 units was not met. With the first two visits of the Mobile Unit, the Scovill employees' contribution to date averages 170 units per visit — still above the set quota.

Committee members, on the whole, did a fine job. Reporting back on the day following, they stated that another drive would be much easier since it had become generally known that to give blood is a painless process and that those who did give were very enthusiastic. As one donor exclaimed, "It's really a miracle that so easy and painless giving of blood could help to save lives — at home or the boys overseas."

Two committee members who deserve added commendation are Jennie Truncale of Press 1 and Ernest

Sherman of the Tin and Welding Shop.

Jennie Truncale, in addition to donating herself, signed up 16 donors in her department which was 10 above the quota set for that room.

Ernest Sherman, whose name was not included in the published list of committee members, also procured more than his quota for his department and was himself a donor.

The fourth visit of the Mobile Unit is scheduled for February, 1953. This visit will complete the circle of the Blood Program plan as instituted by the Scovill Employee Blood Donor Program Committee.

The plan divides the plant into four sections geographically and numerically. Each section is called upon once a year to contribute.

A quota of 150 units is set for each section, making a total of 600 units to be given by Scovill employees in one year.

While the need for blood for our boys in Korea is still a vital problem, that quota must be met first. The remainder of the donated blood is sent to the local hospitals for use, when needed, by any employee or member of an employee's family.

### Federated Funds

(Continued from Page 1, Column 1)

The campaign among the hourly and incentive-paid employees was conducted from December 8 thru 12. For the first time at Scovill, a joint management-labor committee in every department has been conducting the drive under the co-chairmanship of C. Arthur DuBois from Management, and William Blacker from Scovill Union, Local 1604 - CIO. Charles Mackey, with Frank Spadola and James Byars headed the Waterville campaign. Edward Ring directed the campaign at Oakville.

Representing Management—H. W. Wild, M. L. Sperry, Jr., A. P. Hickcox, John Hoben, Thomas Colina, Willis Machin, Milton Bristol, Gunnar Schlander, J. Milton Burrall, J. Nelson Bridges, George Goss, Leon Mayshaw, Raymond Havican, George Chase, William Morrison, Arthur Chaffee, William Wells, Wayne Johnson, Charles Stickney, Charles Mackey and Edward Creem.

Representing Local 1604 — Michael Exarhou, Ida Lebeau, Joseph Scarpati, Victor Palladino, Ralph Daddesio, Joseph Kullman, Michael Rahuba, Frank Spadola, James Byars, Cora Shaw, Arthur Ciarleglio, Frank McHale, and Joseph Briotti.

### Examples of Retirement and Survivors Federal Social Security Benefits

Based on average wages earned after January 1, 1951 for at least 18 months of Employment

The Table shown here has nothing to do with Unemployment Insurance Benefits. It deals strictly with Old Age and Survivors Insurance. This is the 1 1/2% deducted from your pay each week plus 1 1/2% your employer pays.

We thought it might be of general interest to some of you since even some tax-minded people with young families do not realize the amount of protection under Social Security the insured worker's family is getting in case of his death regardless of his age.

Take the case of John, for example: His average monthly wage is \$250—he is 38 years old, married and has 2 children; one is 5 years old and the other is 2. John dies. His widow, who is 35 years old, will receive a

lump sum payment of \$232.50 and \$155.20 a month for 13 years and \$116.40 for the following 3 years, making a total of \$28,634.10.

If John averaged \$300 instead of \$250, his widow will receive \$31,197.00 for her share and the two children's share of Survivors Insurance over the period of 16 years.

Retired workers eligible for benefits at age 65, as are their wives or husbands. Under certain special conditions of employment, the above benefits may change slightly. A widow, without children under 18, receives no benefits until she is 65. A child receives no benefits, based on parent's wages, after age 18.

#### Monthly Benefits

Average Monthly Wage	Retired Worker	Retired Worker plus Wife, Husband or Child	Child, Widow or Widower of Deceased Worker	Widowed Mother and a Child who is under 18	Widowed Mother and 2 Children who are under 18	Lump Sum Benefit paid only at Death
\$34 or less	\$25.00	\$37.50	\$18.80	\$37.60	\$45.10	\$75.00
35 to 47	26.00	39.00	19.50	39.00	45.10	78.00
50	27.50	41.30	20.70	41.40	45.10	82.50
75	41.30	60.00	31.00	60.00	60.10	123.90
100	55.00	80.00	41.30	80.00	80.00	165.00
125	58.80	88.20	44.10	88.20	100.10	176.40
150	62.50	93.80	46.90	93.80	120.00	187.50
175	66.30	99.50	49.80	99.60	132.80	198.90
200	70.00	105.00	52.50	105.00	140.10	210.00
225	73.80	110.70	55.40	110.80	147.80	221.40
250	77.50	116.30	58.20	116.40	155.20	232.50
275	81.30	122.00	61.00	122.00	162.80	243.90
300 (Maximum)	85.00	127.50	63.80	127.60	168.90	255.00

### SERA Rifle Men Make History

In the final match of the Moon-Lite League, Scovill men had a perfect score of 2000 with 149 x's. This is the first time a perfect score has been shot in the Moon-Lite League. Members of the SERA team are (left to right): Les Coley, Jr., Dick Rosengrant, Tom Cullen, Mascot Davy Coley, Ben Blake, Allan Steele, Willis Pond and Warren Harrison.

# Training Course

Charles Brickner graduated as a Machinist. He has been assigned to the Attaching Machines Department.

Frank Dunn graduated as a Toolmaker. He has been assigned to the Gripper Eyelet Tool Room.

Charles Humphrey graduated as a Toolmaker. He has been assigned to Slide Fastener Tool Room.

Alton Klobedanz graduated as a Machinist. He has been assigned to the East Machine Room.

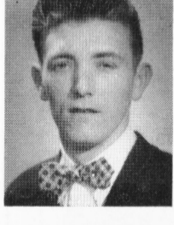

Vito Mikenas graduated as a Welder. He has been assigned to the Welding Department.

Thomas Perry graduated as a Machinist. He has been assigned to the Attaching Machines Department.

David Tracy graduated as a Toolmaker. He has been assigned to the Gripper Eyelet Tool Room.

George Tuttle graduated as a Machinist. He has been assigned to the East Machine Room.

The annual meeting will be held tomorrow, December 16, in the Spencer Block third floor conference room at 8 p.m. All members are urged to attend as there will be an election of officers and the financial report will be read.
