East Plant Blood Donor Day --- Feb. 24

The above members of the Employee Blood Drive Committee met on Friday, Feb. 6, to work out arrangements for the fourth visit of the Mobile Unit to Scovill. The Unit will be stationed at Doolittle Hall on Tuesday, Feb. 24, to accept donations from employees of various East Plant departments.

Committee members representing the East Plant departments which will participate in the Feb. 24th Blood Donor Day are confident that their co-

workers will go over their set quota of 150 units of blood.

The first three visits of the Mobile Unit to Scovill netted an average of 170 units contributed. The East Planters feel sure they will maintain this average and may even top it.

Office employees who have not given in any of the other three visits of the Mobile Unit to the plant are asked to volunteer for this day.

Employee Committee

Pictured above, Committee members include: Bill Daley, Frank Mays, Antonio Lacerenze and Ann Lombardo of Chucking; Carmen Errico of Shell; Harry Posypanko and Tom Deeley of ASMD; Frank Shimkus and Carlton Miles of Hot Forge; Paul Shegda, Adeline Goudreault, Elizabeth Lemieux, John Carey, Stacia Ostroski, Laura Reynolds, Clif Aspinall, Ed McBride, Sal Pitino and Don Taylor of Slide Fastener.

Also: John Nygard and Sal DiNuova of the Wire Mill; Philo Lee and James Redden of Traffic; Al Natale of the Yard Dept.; John Fahey and Chick Brown of Sl. Fast Tool; Tony Jacowich of Hot Forge Tool; and Wendell Oliver of Chucking Tool.

Management Award

Scovill was one of 330 American companies to be awarded the "Certificate of Management Excellence" for the year 1952 by the American Institute of Management, New York.

This year's analysis covered over 3000 companies in all branches of business. The awards were based on management's ratings in ten fields:

Economic function, corporate structure, health of earnings growth, fairness to stockholders, research and development, directorate analysis, fiscal policies, production efficiency, sales vigor, and executive evaluation.

Pay Adjustments

On February 6, 1953, controls on wages and salaries were discontinued. Thus, all petitions for increases that were pending before the Wage Stabilization Board could be put into effect. Effective February 9, 1953, such increases were put into effect for employees of the Main Plant and Waterville Division.

As far as employees in the bargaining unit are concerned, a change in the General Wage Level was put into effect on February 9, 1953. This consisted of changing the labor grade limits and incentive base rates as has already been posted on bulletin boards.

At the same time, an increase of \$.03 per hour was put into effect for hourly-paid workers, except that no person could be paid over the maximum of the labor grade of his job, nor less than the minimum of the labor grade of his job.

For incentive workers, the change in base rates results in an opportunity to earn on the average of an additional 5 to 6 cents per hour.

As the paper work that would be necessary to apply the above program retroactively would be so great, the Company and Union agreed on a program for a payment based upon hours worked from November 3, 1952 to the date of approval by the Wage Stabilization Board.

For hourly-paid workers this agreement provided \$.03 for each hour worked. For incentive-paid workers it provided \$.05 for each hour worked. These amounts will be paid as soon as they can be figured.

The total of added costs brought about by these agreements will require the utmost efficiency if we are to sell the products of our labor and hence maintain our jobs.

Safety First

Employees of Scovill Manufacturing Company can be well proud of the care they take in safely operating the equipment with which they work. In the past ten years, Scovill employees have reduced the accident frequency rate to one-third of what it was a decade ago. According to U. S. Department of Labor Statistics, Scovill's accident frequency rate is 33 per cent lower than similar plants through the country.

In modern industry, one of management's greatest concerns is the safe operation of its machinery and equipment by its employees. To this end many safety precautions are incorporated into machines. However, a machine is no safer than the person who operates it.

At Scovill we have an intensified safety program designed to educate and remind workers to keep safety foremost in the operation of their particular job. By maintaining safety and keeping always on the alert Scovill employees will continue to reduce the accident frequency rate, help increase their earnings and, more important than all, save themselves and their families the anguish and anxiety that comes from accidents.

Alan C. Curtis

Vice-President

New Assignments

Manufacturing Div.

Mr. H. W. Wild, Vice-President in charge of Manufacturing, has announced the following appointment:

Effective February 9, 1953, John L. Smith has been appointed Assistant Foreman of the Shell Dept., Bldg. 136. He will report to Foreman Edward Willhaus.

Mills Div.

Works Manager John J. Hoben has announced the following appointments, effective February 2, 1953:

G. Willard Shove has been appointed General Foreman of the Wire Mill. He will report to Wire Mill Superintendent T. F. O'Connell.

Edward Yurgaitis — Foreman, first shift, Drawbench Division.

John Carrington — Foreman in charge of Tube Mill, second shift.

They will report to General Foreman John Greaney.

Anthony Palladino — Supervisor, second shift, Drawbench Division.

Bernard Yanavich — Supervisor, second shift, Drawbench Division.

They will report to Foreman John Carrington.

Edward Paige — Assistant Foreman, first shift, Drawbench and Muffles Divisions. He will report to Foremen Yurgaitis and Glander.

A. Petrulis Retires

ANTONAS PETRULIS, North Mill, retired from active Scovill service on January 29, 1952.

Mr. Petrulis was hired on October 15, 1928 but, due to several periods away from the Plant, his continuous service record started in 1931. Always in the North Mill, he was a band maker in North Mill Finishing at his retirement.

Maintenance Engineering

Mr. T. W. Colina, Chief Maintenance Engineer, has issued notice of the following appointment:

Effective February 16, 1953, Norman Clark has been appointed an Electrical Engineer. He will report to Mr. E. K. Rogers.

Sales Div.

Mr. P. E. Fenton, Vice-President in charge of Manufactured Sales, has issued notice of the following:

Effective January 26, 1953, Kingsley W. French has been appointed Assistant Advertising Manager of the Main Plant Manufacturing Divisions. He will report to Mr. G. K. Thornton.

Mr. French has been with our advertising department since July, 1947.

A graduate of Trinity College, with a B.S. degree, Mr. French served as gunnery officer on a destroyer in the Pacific Fleet during World War II, participating in four major campaigns. He was present at the signing of the Japanese peace treaty in Tokyo Bay.

He is a director and past vice-president of the Western New England Chapter, National Industrial Advertisers Association.

Kingsley W. French

Alcoholism

Alcoholism is a disease. An illness that is growing and too often not recognized in time. We feel sorry for a victim of cancer, heart or polio, but the alcoholic really has a trail of misunderstanding, fierce resentment, financial insecurity and disgusted friends and employees.

The alcoholic's family and children lead warped lives and still nothing much has been done to help the alcoholic toward rehabilitation.

However, progress is being made toward permanent cure. First, the alcoholic must have strong enough will to stop drinking.

Today in Waterbury, there is an alcoholic clinic on Grove Street. This clinic is ready at all times to help the alcoholic. There is also a local branch of Alcoholics Anonymous. Both of these organizations have had great success with their treatments, and it seems that at last progress is being made in reducing the number afflicted with this disease.

Scoops From Zipper

By Louise Foell

Welcome to George Marlak (Wire Forming) and William Dunn (Laundry), newcomers in Slide Fastener.

Glad to hear that Georgianna Lamorex is well on the road to recovery. She has been ill for the past month.

Good luck to Helen Mathewsen (Wire Forming), who will be away from her job for three months.

Did you know: Stacia Ostroski, Edith Carolan and Jean Fredin serve on our Girls' Club Council . . . Ann Romano is a member of the Lady of Lourdes choir . . . Pat Healy, Phil DiGiovanni, Dorothy Almeida, Joan Oliver, Marie McClusker, Pearl Paradise, Eunice Grady, Edith Carolan and Dolores Bradshaw have enrolled in the Slide Fastener Badminton Club.

Albert Soucey, Electric Shell

Girls' Club News

By Judy Bradshaw

Everyone had such a good time at the last card party and Chinese auction that many requests have come in for another in the near future. We are planning one for Wednesday, February 18, at the Clubhouse at 8 p.m. As usual, there will be a door prize and table prizes and — all for 60¢.

Peg McCarthy has returned from a week's stay in Virginia. What's wrong though, Peg, you have no tan!

Planned Housekeeping For Small Parts

The West Machine Room's tool crib is a fine example of good housekeeping paying off in better service and safety. Above, Pat Galvin and Louis Duchesne check some of the thousands of small screws, bolts, tools, dies, or almost anything else you might name which is needed for machine work.

With these small parts stored systematically, the boys can locate any part or tell exactly how many are on hand in less than two minutes.

TUES. FEB. 24th - BLOOD DAY

Mid-Morning Sag

By Robert W. Butler, M. D.

The Lord never made your stomach to go from 6 or 7 p.m. until the following noon with nothing in it! So this is in behalf of better breakfasts for all those who have developed the bad habit of skipping them, or who get a cup of coffee on the run. The word breakfast means just what it says: break the word in half and the meaning is clear — also, to some extent, the importance.

Your body is somewhat like an engine, and requires fuel to keep it operating properly. The only reason for its going from the last meal at night until breakfast time without balking is that much of that time is spent sleeping and less fuel is required. However, if you try to go beyond that time without food you're asking for trouble. You'll begin to sag in the middle or latter part of the forenoon, and that will be reflected in your work and probably in your disposition too. Studies have proved that a person without breakfast will slow down, make more than a normal number of mistakes in his work after this mid-morning sag sets in.

This is not intended to help you win a popularity contest, but it's a safe bet that the people you work with will like you better if you have food instead of a growl in your stomach.

Pinochle Tournament

As of February 5, John Matulunas' men were leading the tournament with a total of 181,810 points. Erv Honyotski's were second with 178,905 and, Bill Mancini's were third with 174,500.

Evening team scores were as follows:—Mancini — 18,970, Matulunas — 18,340, Honyotski—18,325.

Individual high for the evening was taken by Nick Orsini who totaled 4,830 points. Runnerup was Dan Colangelo with 3,965.

Don't think you can make up for the breakfast you didn't eat by eating a big lunch either. You can't.

What should you have? At least: fruit, cereal, or an egg; milk, toast, and your favorite beverage. If your job is a heavy one, you need more; but that much you should have, whatever you do.

Perhaps you haven't eaten a good breakfast for years and have no desire for that, the most important meal of the day; but why not try it for a week sometime? You'll find that you'll feel better all day — and so will the children if you teach them to form this very good habit while they're young.

Nobody likes to get up in the morning before he has to, and a good breakfast may mean you'll have to climb out fifteen minutes earlier; but what's fifteen minutes in 24 hours? Try it and see!

Family Album

Snapped under the gayly decorated Christmas tree were the children of Harry Miller and Tom Cerasula, both of the Waterville Div. Left to right are: Gerald, Janice and David (front, center) Miller, and Tommie Cerasula.

4.

1. Credit Union #1—(seated): Assistant Treasurer Christine Walsh and President John Robinson. Standing (left to right): Vice-President Frank Martin, Board Clerk George Howard and Secretary-Treasurer George Garrity.
2. Credit Union #3—(left to right): Vice-President Charles Summa, Treasurer George Reilly and President Edward Paige. Secretary Joseph Keroski was not available

when the picture was taken.
3. Credit Union #4—President Harold Stielor and Treasurer John Carolan. Vice-President Ivan Boyd and Clerk Richard Simpson were absent.
4. Credit Union #5—Vice-President Peter Armour, Secretary Margaret Sullivan and Treasurer Max Kohlbrenner. President David Hanley is not shown.

Junior Basketball

At the organizational meeting on February 4, it was decided to change the day of play for the Junior Basketball League from Saturdays to Sundays, at 1 p.m.

Employee and neighborhood boys are invited to join and will be under the leadership of John Briotti and Terry Mackin. Jerseys will be given to each team and awards will be made at the completion of the season.

Drive Safely

February has been designated as "Know and Obey Traffic Laws" month. The Connecticut Safety Commission, along with other traffic authorities all over the state, is sponsoring the campaign designed to create a greater awareness on the part of motorists and pedestrians of traffic laws made for their protection.

Law breakers are life takers. It is the moral responsibility of all highway users to learn and obey traffic laws—not by accident.

Almost 80% of all fatal accidents involved at least one violation of a traffic law. That's why it is so important for every motorist and pedestrian to know and obey traffic laws. The first serves little purpose without the second. There must be a willingness and determination to obey the law to help reduce the frightful toll of traffic accidents.

A good driver is a safe driver. A safe driver knows and obeys laws and observes other rules of safety as follows: gives correct arm signals for lane changes, turns and stops; obeys speed limits; stops completely at stop signs; drives in and turns from the proper lane; observes passing regulations and no passing zones; yields right of way to pedestrians; stops when approaching standing school buses until safe to proceed; exercises special caution at railway-grade crossings; refuses to drive after drinking; and drives defensively, anticipating what other drivers and pedestrians may do.

Fishing Notes

By Jim Littlejohn

Due to the mild weather during the past weekends, ice fishing has been slow on most ponds.

The best result we heard of was Bob Fumire's catch. The Pickerel were mostly small (about 12") but Bob managed to get a few Keepers.

Ever see Maurice Gagnon in a boat with an outboard motor? When he gets back to dock, he kisses the ground and says a silent prayer while kneeling. No, Maurice doesn't like outboard motors.

Employees' Night

Stag and Doe Variety Show

The first plant-wide activity of the year is being sponsored by the Manufacturing Division for all employees. It will be held on Friday, February 27, at Doolittle Hall, at 8:00 p.m. The committee has completed arrangements and announce the program to include:

Wrestling exhibitions by the Springfield College Team—Boxing exhibitions—Lady Humorist, Mrs. Margaret Hubbard—Songs by the Harmony Kings—Dancing to an orchestra from 10:00 to 12:00 midnight—Refreshments.

Master of Ceremonies will be Jack Lavelli who is well known to local sports fans. He is associated with the New York Giants football and baseball teams.

This promises to be one event you won't want to miss. Tickets are limited, so be sure to get yours early.

Birthday Cake For Nellie Melluzzo

Friends and co-workers recently presented Nellie Melluzzo (Connector Room) a cake in celebration of her 66th birthday. Nellie will be also celebrating 27 years of continuous Scovill service on June 19.

Shown above from left to right are: Stella Zaborosky, Filomena Marchiani, Shirley Schmierer, Mary St. Pierre, Anna Famiglietti, Margaret Gorman, Louise Sciarretta, Mary Ciano, Noella Stawski, Nellie, Anna Ciarlo, Sophie Stankus, Maria Rodrigues, Julia Josapawich, Mary Bresnahan and Josephine Scalzo.

Three Succumb

ANNE WHEELAHAN, retired, died on January 31, 1952.

Miss Wheelahan had 35 years of continuous Scovill service when she retired a year ago. She was employed as a bench worker in Assembling.

LAURA DELAGE, retired, died on February 4, 1953.

Miss Delage had almost 28 years of continuous Company service at her retirement on September 1, 1947. She had served as a bench worker in Packing A since 1931.

WALTER DEROUIN, North Mill, died on February 4, 1953.

Mr. Derouin was hired on October 10, 1935, and had a continuous service record since 1936. He was employed as an Inspector-Gauger on flat sheet metal in the North Mill Finishing when he was forced to leave the Company because of illness in June, 1952.

February Suggestion Award Winners

\$25.00
Robert Currie
Trim & Knurl

\$25.00
Arthur Picard
Trim & Knurl

\$25.00
Michael McEnerney
Hot Forge Tool

Arthur Picard has also received two other awards — one for \$20.00 and one for \$10.00.

Some of our key men have added new members to the Roster for 1953. The officers are planning a good program of sports movies for the April 14 meeting at Woodtick. Members are reminded to keep this date in mind.

Cribbage Doings

The American League had high score on February 10, when they totaled 5,425 points, and are leading the tourney by 226 points. The Nationals had 5,295.

Earl Odell and Ed Meafski won individual high with 1,459.

Tentative plans are being made for the annual home-and-home contest with Chase.

Retired Folks Hear Safety Engineer

At this month's meeting of our Retired Folks' Club, Mr. G. H. Davis (Division Engineer of the Conn. Light & Power Co.) gave a vivid description of the dangers from fallen electric wires following storms. A few of the members gathered around Mr. Davis (center, above) to get full details on a "situation" set up on the model which Mr. Davis used to illustrate his talk. They are (left to right): Mike Longo, Billy Guglielmo, Bert Hine, Fred Herr, George Hubbard.
