Continuous-Cast Brass Bars Increased In Size, Weight

"Scovill, the only brass company in America to produce continuous-cast flat metal bars, has raised the weight and size of its standard bar from 2,200 to 3,100 pounds," Vice-President C. P. Goss has announced.

The non-welded brass coils rolled from this larger bar are approximately 40 per cent longer, and their weight by inch of width is increased from 70 pounds to 100. The new coils already represent a third of the company's total shipments of coiled brass.

Preparations for introduction of the 3,100 pound bar were started over a year and a half ago, less than three years after the opening of our new \$10,000,000 automatic, quarter-mile-long continuous strip mill in 1949.

During the past 18 months every step from casting, rolling, annealing

and slitting to shipping has been modified and new equipment added to handle the increased size and weight of the new bar.

"This is Scovill's third major contribution in the field of continuous casting of brass since our introduction, on a large-scale basis, of this method into the U. S. in 1938," said Mr. Goss. "The others were in continuous casting first of billets and subsequently of flat bars."

Do It Yourself Clinics

Employees are responding quite enthusiastically to the Do It Yourself clinics sponsored by the SERA. Approximately 200 attended each of the two sessions held to date.

In cooperation with the J. E. Smith Lumber Company, the next clinic will be held at Doolittle Hall on Monday, April 19, and will cover power tools and the use of plywood. Mr. George Haughton will conduct the program.

For the ladies, a "Don't Do It Yourself" program will be held at Doolittle Hall on Wednesday, April 7, at 8:00 p.m.

In cooperation with Sugeneheimer's Beauty Salon, a program of fashion in hair styling and millinery will be conducted featuring professional beautician and hair stylists.

Retired Folks' Club

The regular monthly meeting of the Scovill Retired Folks' Club will be held on Tuesday, April 13, at the Scovill Girls' Clubhouse at 1:30 p.m.

Mr. E. H. Davis, also a retired member, will be guest speaker.

Mary Mulholland Awarded 50-Year Pin

Vice-President and General Manager, Waterville Div., S. G. Gaillard, Jr. presented the 50-year continuous service award to Mary Mulholland on March 22. On hand for the occasion were (left to right): Plant Manager L. G. Robinson, Mr. Gaillard, Mary, Factory Superintendent Fred Senior, Assembling Foreman John Baker and Assistant Factory Superintendent Joseph Muckle.

Suggestion Awards

The Industrial Improvement Committee announced the following awards at their meeting of March 30:

- \$25—Paul Leventhal, X-Rod Mill
- \$15—Casimir Szczepanski, Sl. Fast. Chain Room
- \$10—Anna Kerner, Sl. Fast. Assem.

Good Friday Shutdown

The Main Plant will close for Good Friday at 7:00 a.m., April 16, and will reopen at 7:00 a.m. on Monday, April 19.

Employees regularly paid on Friday will be paid on Thursday, April 15.

The Waterville Division will be closed also on Good Friday.

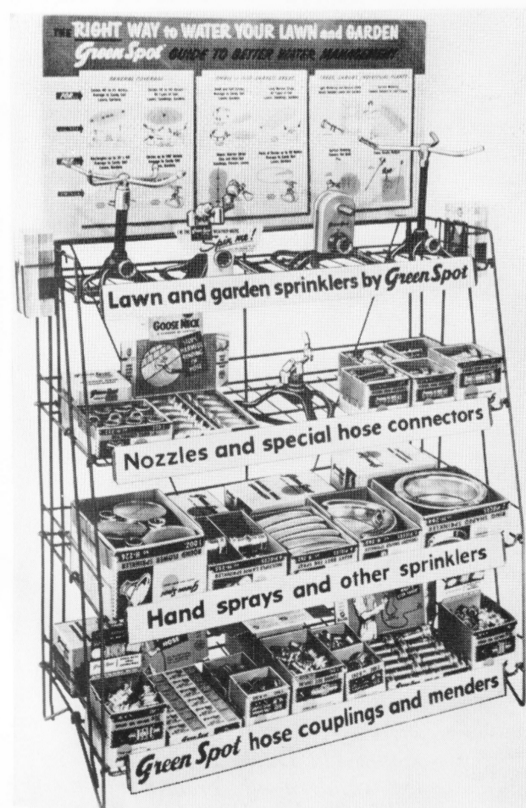

GREEN SPOT Self - Service Stand

Look for this "One Stop" self-service stand when shopping for your garden hose accessories and lawn sprinklers this spring.

The rack is available to retailers for merchandising our 1954 GREEN SPOT line of sprinklers and garden hose accessories.

Made of heavy gauge wire, with green baked enamel finish, the rack shows the complete line of 31 different GREEN SPOT products which includes automatic and stationary sprinklers, couplings, menders and other convenience watering devices. It provides 10½ square feet of display space in less than 3½ square feet of floor space.

A permanent part of the display is a watering guide showing how automatic and other types of sprinklers should be used for lawns and gardens. It will answer shoppers' questions on how to do a more efficient lawn watering job.

Our Jobs Depend On Safety

Safety has a very important part in work or play. By continually thinking of safety and following safe actions, we help to insure for ourselves a productive future. When safety rules are forgotten, or broken, an individual exposes himself to hazards which could kill or maim him for life. Such unsafe actions, of course, have their direct and long range effect on the individual's family.

In other instances, an unsafe act could shut down a whole department, or even a plant, for a period of time. An example of this is the disastrous fire in the modern Livonia plant of General Motors, when an unguarded spark put thousands out of work and caused \$50,000,000 worth of damage.

Material damage can always be repaired. But the loss of income resulting from injury can seldom be fully recovered. There are some monetary compensations for injury and death. They do not compensate for the mental agony of one's family, and of the individual himself.

By following safety regulations, we can be worth more to ourselves and to our families.

Adam C. Curtis
Vice President

Rochester Offices Move

As of April 1, 1954 our sales and services offices in Rochester, New York, are located at 175 Dodge Street.

This district office (formerly located at 311 Alexander St., Rochester) was opened in 1950 and services Scovill customers with brass and aluminum mill products, apparel closures, lawn and garden watering accessory items and contract manufactured metal products made by Scovill. S. O. Drivdahl is District Sales Manager.

Blood Donor Day Tuesday, Apr. 20, 1954

The Mobile Unit will be set up at Doolittle Hall from 1:00 to 6:00 p.m. to receive donations of blood from employees in the area surrounded by Bldg. 112, Wire Mill, Hot Forge and Shell Dept.; plus several offices.

Driver's License Due May 1

The Employee Activities Office will pick up your Driver's License for you again this year—if you get the data to them by Friday, April 9th.

If you will get your application (be sure it's properly signed), and \$3.00 to cover the cost, to the Employee Activities Office by 3:00 p.m. on the 9th of April, they will pick up your 1954 license for you.

If inconvenient for you to get over to the Office (1st floor, Spencer Block) call Ext. 834 and arrangements will be made to take care of it.

Back Pay Office Schedule

Effective March 29, 1954

Hourly And Pieceworkers

Monday	1:30 p.m. to 3:30 p.m.
Tuesday	2:30 p.m. to 3:30 p.m.
Wednesday	2:30 p.m. to 3:30 p.m.
Thursday	11:55 a.m. to 1:00 p.m.
	2:30 p.m. to 3:30 p.m.
Friday	12:00 Noon to 3:30 p.m.

Keep It Clean

"Keep It Clean" — by this we mean primarily this place of work and the attitude toward the job. It is not difficult to spot a worker who does not have the interests of his job at heart. The area surrounding his work place shows it.

An untidy work place can also mean danger to the worker and to others. Accumulated rubbish, scrap, sloppy maintenance of tools, and oily floors will lead to accidents.

It is just as easy and a whole lot more satisfying to keep a place clean as to leave it dirty. It is just a matter of habit. A clean work area will also help you do a better job.

Pinochle Tournament

Scores for the evening of March 25 show that Erv Honyotski's team was high for that night with 32,585 points. Bill Mancini's men were runnersup with 30,950 and John Matulunas' team had 30,515.

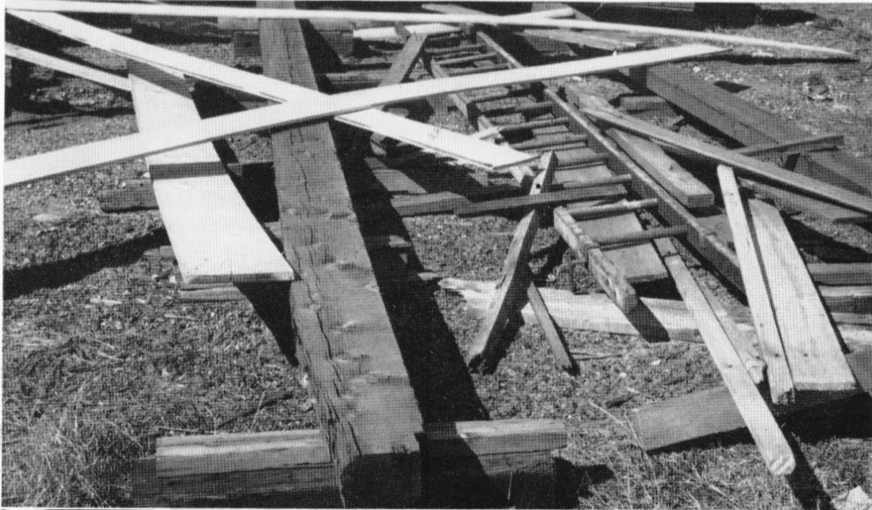

Leading the tournament to date is Bill Mancini's team with 324,170

points; Erv Honyotski's men total 321,840; John Matulunas' 321,025.

Individual high score for the evening went to Ed Mitchell with 4,480 points. Angelo Cannata was second with 4,220.

The last playing night will be April 8 with the annual banquet scheduled for April 10, at the Girls' Club.

Clean-Up Time - - Again ?

Scenes such as the top photo make it necessary to stage clean-up drives annually — it's just a mess and an invitation for an accident. The lower photo was snapped in the Box Shop without advance notice and shows box storage as it always is — clean. No clean-up drives needed here.

Yes, spring is here again and with it the annual clean-up drive. Whether it is the open lot (as pictured above) or indoors, spring is the time for clean-up in many places.

Many departments (as the Box Shop, lower photo) in the plant make good housekeeping a daily habit.

For these departments there is little or nothing to do when the clean-up drive comes. For them there are no accidents due to bad housekeeping between drives. They have learned that it is both easier and safer to run a clean shop than a dirty one — a sound idea.

SPRING CLEANING ON THE JOB

Get Rid Of It

By Robert W. Butler, M. D.

In the last issue we told a brief story about tuberculosis, how it works, and also some of the symptoms which should send you to see your doctor without delay for a checkup. We'll repeat one very important thing which was written: "Don't postpone an examination because you're afraid the doctor will find something!" The chances are 20 or 30 to 1 that you haven't got it — pretty fair odds in any gambling league — but you can't afford to take the chance of being on the short end even once!

We should all take more advantage of the chest surveys which are available at intervals to all of us. When the X-ray unit comes to town, have a picture taken. It's the quickest and easiest way to spot the disease, and we owe it to ourselves, our families, and all people with whom we come in contact.

If they find we have it, what then? Well, the best treatment is rest — complete rest. That means rest — even though we have discovered the disease early and are certain to recover quickly. Frequently that means rest in a hospital bed which nobody likes of course, but which is more comfortable than the old pine box; and in a surprisingly short time people become accustomed to the

change and adjust themselves very well to it. Doctors — all specialists — can get results more quickly for the patient in the hospital, and speed of recovery is what we want most.

Doctors now have many weapons at their disposal in fighting the tuberculosis germ. They can help rest the lung by injecting air into the chest between the linings of the chest wall and the lung. Surgical treatment is sometimes used to accomplish the same result. There are vaccines and very new medicines which also help to fight the disease. All this represents progress. In 1900, 194 out of every 100,000 people in this country died of tuberculosis. In 1948 the figure was 30! So your chances are good if you get at it.

Don't forget either that the person who has been discharged by his doctor as healed is no longer dangerous to his family, and is not an invalid. He can go back to his work and be a normal citizen again. No rocking chair after recovery for the patient who caught it early!

Family Album

The little man with the glasses busily reading the Sunday funnies to his 4½-year old sister, Suzanne, is 9-month old David Levesque. They are the children of Francis of Waterville's Tool and Machine Room.

Don't forget the annual banquet to be held at Doolittle Hall on Thursday, April 8 at 6:30 p.m.

The Club is restocking Woodtick reservoir this year. Members are reminded that the Club is offering prizes for the largest pickerel—perch—black—calico bass — bull-head and trout; also for the heaviest turtle caught from the beginning of the season to the last day of the Reeves Contest. Be sure to register your big ones with Mr. and Mrs. Hart.

First Industrial Application Of Televoice Dictating System

G. Kenneth Thornton (seated) and Kingsley French, Advertising Department, use a telephone handset to dictate their comments on an advertising layout for a newly designed GRIPPER zipper for foundation garments.

The first industrial application of the Edison Fully Automatic Televoice dictating system has recently been installed in our main offices. This system is comprised of three main parts: telephone handsets, four recording and five transcribing machines.

Telephone handsets can be found in the sales department of the Manufacturing Division, planning, advertising, purchasing and credit departments. These dictating handsets are completely independent of the telephone system. For those who dictate considerable material, permanent installations are provided; while in departments where occasional dictation is given, as many as eleven persons can plug the handset into special outlets at their desks. Not all eleven persons can dictate at the same time, for the

Life Out East

By Harry Shewbridge

I am writing this on Sunday evening, March 28. I have just returned from spending the weekend at the Holy Family Retreat House in West Hartford. Forty-five other Scovill men were there with me and although they are too numerous to mention, I am sure that they all want me to say that it was the most wonderful weekend of the year.

Many folks have asked me how Johnny Carolan is doing. You may wonder why he isn't back to work as yet. Johnny, I understand, is still having his ups and downs. The doctor is doing his best to curb Johnny's impatience and until the "doc" is satisfied, Johnny stays home.

Fran Haley, Slide Fastener Production, has the darndest things happen to her. The first known incident occurred while she was eating her lunch in the Waldorf (on the Green). Without warning, an irate female descended upon her and started pulling her hair. A case of mistaken identity, of course, but the incident earned Fran the title of "Slugger." Next, she developed a cyst on her toe and went to the hospital to have it removed. Where do you suppose they put her? Yep, in the maternity ward! Anyone interested in promoting a TV program call "Our Little Frannie?"

Lena Garofalo (Tube Mill Office) has many friends and they all wish to extend their sincerest sympathy for her recent loss.

Mr. and Mrs. Ed Brown, Sr. (Rod Mill) journeyed out to Bourbonnais, Ill. over the weekend of March 20 to witness their youngest daughter take her vows to become Sister Rosalind of Jesus. Congratulations, Mr. and Mrs. B., on having the opportunity to enjoy such a wonderful occasion.

And to conclude the Rod Mill news, I have been handed a simple question to ask. "Why does Dom Polo glow all over when he comes back from a weekend in New Jersey?"

The folks in the Strip Mill Office seem quite pleased to be able to inform me that Jackie Danaber, Jr. is back with them again. Where has he been for the last couple of years? In the Marines of course!

Barbara Stack is placing a disc in one of the four recording machines located in the Transcribing Department. A completed disc has just been removed and will be taken to one of the girls for transcribing.

outlets for these handsets may be on one circuit. When one handset on a given circuit is being used, a red light shows on the others indicating that the line is in use.

When an individual wants to dictate, all he does is pick up the receiver and he is automatically connected to a recording machine. In the event that all recording machines are in use, he gets a busy signal. When he is ready to speak, he presses a "Talk" switch in the handle and the recorder takes down his message. The "Talk" switch is released when there is no dictation being given. If the dictator wishes to play back what he has already dictated he presses a button on the phone base to listen. The end of each separate message is indicated by momentarily depressing the button in the cradle. To make a correction, the "Talk" switch is pressed and the dictator says "Correction" while at the same time pressing the button on the phone base for just an instant. As the end of the disc is nearing a ticking sound is heard letting the dictator know that he hasn't much dictating time left. A buzzing noise is sound-

Dora Falcone, Betti Molaskey, Rose Marshall and Jean Carlin are typing material taken from the recording machines. Centered on their desks are the machines used for transcribing.

ed when the disc is completed.

Four recording machines which can be found in the Transcribing Department take dictation from seventy-three persons located at thirty-eight dictating stations. After a disc is completed it is removed for transcribing, and another disc is placed in the machine. Partially completed records can also be removed for transcribing and then replaced for further dictation. A buzzing sound is an indication that it is time to change a disc. A disc has eighteen minutes of dictation time.

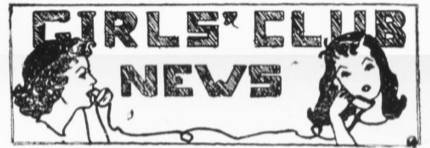

Five machines, similar in appearance to the recorders, are used by the department for transcribing. These machines can be set for volume, speed and tone control no matter what type speaker the dictator may be.

This system is also being used in getting reports from branch offices and field men. As a start, five such offices and their salesmen have been given this equipment. In the case of the branch offices, standard desk units are used. Portable units will be available for use in their hotel rooms by salesmen who go on extended trips. The discs are mailed to Waterbury where they are transcribed, and carbon copies are sent to the dictator.

One of the advantages of this new

system is that it will centralize dictation at the Transcribing Department, even though the dictator may be at the extreme end of the plant about a mile away. It will also make it possible for material dictated to be transcribed and sent out sooner than it was before.

Possibilities for expansion are unlimited. Any number of additional dictating stations and recorders can be added at any time.

By Juanita Addressio

Hear ye, hear ye — the Annual Meeting is coming soon, April 19 to be exact, and this is the night to elect the girls you want to represent you on the Girls' Club Council. If you know of girls interested in serving on the Council please notify a member of the nominating committee. On the nominating committee this year are Angie Cedela, Press 1; Mollie Collins, Mfg. Trucking; Margaret Gorman, Connector; Ruth Lobley, Employment; and Nina Lago, Waterbury Division.

We have a few new members to welcome to the Girls' Club: Kathleen McHale, Lovetta E. Sali and Elizabeth Doyle, all from Mailing; Wylida Marshall, Central File; Adeline Rosa, Billing; and Barbara Stack, Transcribing.

Marie Guerrero, Mary Petrucci and Dotie Budris spent a weekend in New York shopping at all the smart stores and also saw "Me And Juliet."

Florida has called again — Josephine McLroy, Waterbury Sales, had her first plane ride Friday, April 2. She flew to Ft. Lauderdale to see her mother and father and their new home.

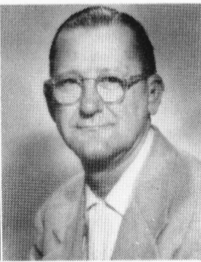

The Girls' Club has a new assortment of cards on sale. Mollie Collins of Mfg. Trucking, Building 49, 2nd floor, is selling the cards. She has Everyday cards, gift cards, get well cards; also wallets.

Don't forget the Annual Girls' Club banquet coming up on May 2.

Chase - Scovill Pinochle

The first round of the home-and-home contest between the Chase and Scovill pinochle players was held at the Chase Country Club on Tuesday, March 23.

The Scovill men emerged victorious in this first session with a score of 88,525 points. Chase had a total of 80,915. Individual high score for the evening went to Scovillites Pat D'Amelia and Archie Hollywood with 8,260 points.

The second half of the contest was held at the Scovill Girls' Club on Tuesday, March 30.

Scovill took the second round with 86,530 points to win the contest. Individual high score was taken by Scovill men John March and Anthony Laudate with a total of 7,770 points.

SERA Golf Clinic Attracts Over 300

Classified Ads

FOR SALE

Approximately 300 people were on hand, March 22, to see Jimmy Thomson (upper left photo) top-flight golf pro, discuss and demonstrate the techniques of better golf. Upper right photo: members of the committee, posing with the guest speaker, are (left to right): Len Corrado, Jim Brislin, Mr. Thomson, Tom O'Connell and Jim Coffey. Golf movies were shown also.

Seven Succumb

CLARK M. CODDINGTON, retired, died on March 13, 1954.

Mr. Coddington was hired on January 25, 1910, which was also his continuous service record date. He was serving as a guard in Plant Protection when he retired in 1952.

JULIUS SHURKUS, Tube Mill, died on March 13, 1954.

Mr. Shurkus first came to Scovill in April, 1937, and had a continuous service record since 1940. Except for a short period in Case 1, he had always been in the Tube Mill. At the time of his death he was serving as an annealer's helper.

ANTONIO DELOIA, retired, died on March 18, 1954.

Mr. DeLoia came to Scovill in February, 1918 and was retired on January 17, 1951. He had been an employee of the Dip Room where he served as a washing machine operator.

WILFRED HAREL, Casting Shop, died on March 18, 1954.

Mr. Harel was hired in December of 1902 and had a continuous service record since 1924. At the time of his death he was serving as a scale man in the Casting Shop.

Fishing Notes

By Jim Littlejohn

Woodtick Reservoir will be opened for the 1954 fishing season on Friday, April 16 at 6 a.m. Restocking of trout will take place Sunday, April 11 at 11 a.m.

Some of our Slide Fastener Anglers have made a start on stripers and were lucky to get some nice fish.

GEORGE F. BOX, Lacquer Room, died on March 22, 1954.

Mr. Box came to Scovill on July 31, 1942 and had a continuous service record since 1951. At the time of his death he was serving as a working supervisor in the Lacquer Room.

GEORGE H. SAUER, Casting Shop, died on March 22, 1954.

Mr. Sauer was hired on February 13, 1942 and had a continuous service record since March 13, 1942. He had been an employee of the Casting Shop where he served as a scale clerk until November of 1953 when he was forced to leave due to illness.

CYRUS SKILTON, retired, died on March 26, 1954.

Mr. Skilton first came to Scovill December 3, 1894. He was serving as a machinist at the Waterville Division when he retired in 1925.

"Scoops" From Zippers

By Louise Foell

Birth announcements: *Casimir Szczepanski* and his wife are very happy with a charming daughter. *Evelyn Sweeney Youngquist* has a new baby boy, her third son, and *Mary Grynuik* has a daughter, her first child.

Did you know that Gerald Roraback made his radio debut on station WWCO playing accordion selections? Gerald's mother is in Slide Fastener Assembly.

A weekend in Maine at this time of year is just wonderful. Just ask *Gladys Rossignol*, who is back after spending a wonderful time there.

It is good to see *Paul Shedga*, Slide Fastener Chain, back again after being out sick. His very popular wife works in the Timekeepers' Department.

Janet Abramovich is leaving Slide Fastener in April, to keep house for her family. Everyone knows *Janet* as our first girl in Slide Fastener, and it just won't seem right not to have her around.

3/4 size bed with new spring and mattress. Call 6-1800.

Washing machine in good condition, \$20. Call 3-7467.

Storkline crib, \$12; Hedstrom stroller, \$8; phone 3-9177 after 6 p.m.

White Florence combination gas stove with oil burner, chrome stove pipe, good condition. Call 3-7804.

Large tricycle; large balloon tire scooter; Convertible studio couch; Cogswell arm chair; man's dark blue pin stripe suit, size 40. Call 3-9167, morning or evening.

White kitchen set—table and four chairs, \$20. Call 5-4396.

7-piece mahogany dinette set, table pads, excellent condition. Call 4-2230.

3-piece parlor set, good condition, very reasonable. Call 4-4918.

Thayer turn baby carriage, like new. Reasonable. Call 5-5654.

Two standard size Anderson sealed windows, new, below cost; Model A 1931 Ford coupe with home made box built on rear. Call 6-6128.

4' x 12' hand made utility trailer, capacity 1 ton. Call 3-5826 after 5:30 p.m.

Two Lionel train sets, including transformer which operates 4 sets. Call 6-4124 after 4 p.m.

V-bottom outboard motor boat; plywood. Good condition. \$60. Call 3-6639 after 3 p.m.

Two hardwood maple kitchen chairs for quick sale. Call 3-7468 after 6 p.m.

Johnson outboard motor, 10 h.p., rope pull starter, \$75. Johnson outboard motor, 16 h.p., rope pull starter, very fast overhaul, \$95. Small outboard motor, 2 1/8 h.p., rope pull starter, \$40. Aluminum doors, canopies and windows, all sizes. Will save you money. Call 4-8315.

Gray kitchen heater with two burner top, is equipped with oil burner, but may be used for coal or wood. Solid oak serving table, Walnut dresser. Inquire at 38 Beech St. (1st right off Long Hill Rd.).

Oil lifter for kitchen range with copper tubing, check valve and strainer, \$15. Also medicine cabinet. Call 5-1820.

Bathroom fixtures, chrome fittings suitable for summer cottage. Made to order curtain stretchers. Ironing board 80" x 20". Copper wash boiler. Call 4-0072.

Three room trailer. Good condition. Reasonable. Call 3-3683.

WANTED TO BUY

Boy's bicycle, 26" in good condition. Call 5-5654.

Combination sink. Call 5-4128 after 4 p.m.

OTHER

Truck available for moving—rubbish removal. Call 5-9371.

Mature, active woman will do baby sitting. For weekend and evening rates phone 5-5320.

Man wanted for spare time to point stones in cellar. Call Woodbury 302 or 152J3.

Little girl wanted to care for in private home. Phone 3-4684.

LOST

Tie clasp with initials RBH. Lost March 25 between Employment Office and Bridge St. lot. Call ext. 2235.

FOUND

Loop earring with leather trim in Button Eyelet Dept. Call ext. 345.

RENT WANTED

4 unfurnished rooms for working couple. Call 5-4998 after 3:30 p.m.

Four or five rooms unfurnished for 2 adults and 9-year old girl. Call 5-8701.

FOR RENT

Large spacious room; private entrance to room and bath—double or single. Parking space free. Bus service. Call 6-6128.

Four furnished rooms. Adults only. Call 5-3063 after 4 p.m.

White porcelain gas range with 4 burners, broiler and baking ovens. Practically new. Grey porcelain coal stove, converted to oil, complete with chrome pipes. Thirty gallon solid copper seamless hot water tank. Call 5-4127.

For sale, rent or lease, or will exchange for small farm—house and 2 lots plus miscellaneous equipment. Call at 13 Shelley St.

Building lots, 100' x 200' on new road in Prospect. Terms. Call 5-7713.

Two sets painted bedroom furniture. Each set consists of: mirror, dresser, metal bed, and side table. All in very good condition. \$40. Call ext. 335.

Johnson outboard motor. Made in 1939. Operating condition. \$20. Call Bristol 9365.

1953 model Florence combination oil and gas range. Less than a year old. Like new. Chrome pipes included. Cost \$300. Will sell for \$150. Identical with 1954 model Florence range. Call 6-4189 after 6 p.m.

18' canoe; 28" boy's bicycle; 2 wheel camp trailer; 4 burner gas stove. Call 5-3226.

Full size walnut bed with spring. Call 5-9151.

Two stainless steel combination salt and fresh water reels (2 spools); Bristol "60" trolling rod, used only one year; \$35. value, all for \$10. Call 4-5324 after 5 p.m.

Automatic Rolleiflex camera with X 3.5 Zeiss Tessar in a Compur synchro shutter, complete with case, sunshade, filter holder, and flash bracket; like new. Call 6-1381 evenings.

Five lots, 50' x 200', near Hitchcock Lake, reasonable. Call 4-1010 after 4 p.m.

1929 to 1941 National Geographic magazines; good for students, collectors, or home library item, like new, reasonable. Call 6-5606 after 5 p.m.

Large ventilator for roof or barn, never used, name your own price; boys' and girls' bicycles and tricycle; electric heater, \$3; electric fan, \$3; Sink; setubs; oil water heater and tank; 3 adjustable metal window screens, 18 x 32, maximum \$2; hardy double daffodils, bulbs and blossoms, cheap. Call 5-6416.

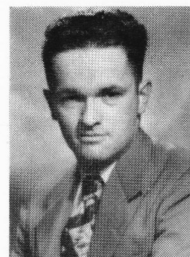

Eight dozen slightly used canning jars, pints and quarts, \$6. Call 3-6706 after 4 p.m.

Cribbage Doings

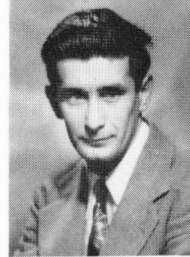

The last half of the home-and-home contest played on March 16 between Chase and Scovill cribbage players, brought victory to Scovill with a total of 15,817 points. Chase players totaled 15,322 points.

High single for the evening of March 9 went to Scovill partners Ed Meafski and Charles Rimkus with 771 points. March 16, Erv Honyotski and Ed Daly took high single with 766 pts.

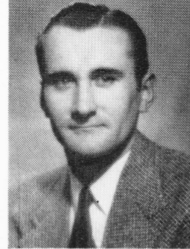

Training Course

Paul Hotchkiss graduated as a Toolmaker on March 21, 1954. He has been assigned to Cutting Tool Room.

James Gray graduated as a Toolmaker on March 28, 1954. He has been assigned to Mfg. Tool Room.

Raymond Misura graduated as a Machinist on March 28, 1954. He has been assigned to West Machine Room.
