Prestidigitators Put The Show On The Road For Scovill

Don Alan and John Platt, the magicians who performed at Scovill's booth at the National Metal Exposition in Chicago, show some of the various props they used to attract Exposition visitors to the booth.

In the background is a typical warehouse scene with stocks of various shapes of brass wire, rod, strip and tube. The map in the magic theme illustrates the Company's plants, sales offices and warehouses.

Scovill arranged for other magicians to visit the children's wards of six Chicago Hospitals prior to the opening of the exposition.

On this tour, they performed special feats of children's magic and gave each youngster a bag of tricks and illusions with which to entertain himself and fellow patients. Refreshments were also provided by Scovill.

Thanksgiving Shutdown

The Main Plant will close at the end of the work day on Wednesday, November 24, 1954 in celebration of Thanksgiving Day. It will reopen at the start of the first shift on Friday, November 26, 1954.

Any deviation from the above schedule will be by notification to departments or individual employees.

Insofar as possible, employees in departments not scheduled to work on Friday, Nov. 26, will be paid at their work places on Wednesday, Nov. 24.

Employees whose departments work on Friday, Nov. 26, will be paid at their work places or at the pay station on Friday Nov. 26.

Thanksgiving is one of the seven holidays for which hourly and piece-work employees who qualify are paid when they do not work.

Twelve Retire

KATHERINE CAMPBELL, Assembly, was retired with benefits to start on November 8, 1954.

Miss Campbell came to Scovill on April 1, 1909, and has a continuous service record of over 45 years. She was serving as an assembler-inspector-packer in Assembly until April, 1954 when she left due to illness.

NATALE DiBARTOLOMEO, Tin Shop, was retired with benefits to start on November 1, 1954.

Mr. DiBartolomeo came from the Waterville Div. to the Main Plant on September 8, 1937, and has a continuous service record of over 25 years. Always in the Tin Shop, he was an iron worker's helper when he retired.

The Gift Of Life—Only You Can Give

Blood Donor Day - November 30

All employees and members of their families are invited to join with Section #2 of the Main Plant in the "Holiday Special" Blood Donor Day at Doolittle Hall on November 30.

Americans invariably respond when catastrophe and tragedy point up the need for blood. They know that blood cannot be mined or manufactured — that it must come from the veins of healthy men and women.

What better gift can you give — or receive—at Christmas than the knowledge that, in any emergency, there is blood available at the local hospitals for use by you, a member of your family, or a neighbor?

Let's not wait for a catastrophe or tragedy — let's be prepared for any

emergency that can turn up during the winter or holiday season. An application blank is given on page 3 — won't you fill it in today and return it to the Employee Activities Office. Your appointment will be confirmed.

Suggestion Awards

Three employees were granted Suggestion Awards at the Nov. 3, 1954 meeting of the Industrial Improvement Committee.

\$25.00 Award

Francis McFarlin
North Mill

\$15.00 Award

Roger Lawrence, Gripper Eyelet

\$10.00 Award

Albert Fischang, Attach. Machines

The E. R. Building

November 11, 1954 marked the official beginning of construction of the new Employee Relations Department building. It is estimated the building will be ready for occupancy late next summer.

On the first floor, extending along East Main St., will be the Employment Office. In the section facing the Hayden St. gate will be the hospital including the following rooms: emergency and preparation, first aid, physiotherapy, X-ray and dark room, electro cardiograph, and two recovery rooms; also, an ambulance entrance. The hospital records section will be located in the area facing East Main St.

The second floor will house the various offices of the Employee Relations

(Continued on Page 2, Column 2)

Groundbreaking

Another milestone in Scovill's history was chalked up last week when the ground was broken for the new Hospital and Employee Relations Department building. When it is opened the latter part of next summer it will be one of the most modern facilities of this type in the country.

Of significance is that this building is still another example of Scovill's know-how as it was planned, designed and engineered by our own Engineering Department. It is indicative of the broad experience that is part of the Scovill story.

Your Company has a proud history of accomplishment. It has been built on a solid foundation which has helped the firm to continue in business for over 150 years and provide jobs for thousands of persons. Erection of this building is part of the long range thinking for the future. Modernization of old facilities is but an expression of our faith in the future of Scovill and the American economy.

William C. Curtis

Only You Can Provide It

Every so often an emergency call goes out for human blood to help save the lives of individuals injured in some type of catastrophe. The response is generally very generous and spontaneous.

But it is the day-to-day needs of our hospitals that we seem to overlook. Every day in Waterbury's two hospitals doctors are performing various types of operations that call for blood transfusions. But the doctors are finding themselves in an awkward position. They are continually calling on the state blood bank in Hartford for emergency blood supplies.

Why? Because people in Waterbury are not meeting the quota necessary to keep a sufficient supply on hand for local emergencies. You can help yourself, your family and your neighbor in time of emergency by donating blood the next time you are asked. If you are asked to give blood on November 30, do it. Only you can provide it. You will be showing you care.

Pinochle Tournament

Scores for the evening of November 4 put Bill Mancini's team at the top with 33,905 points; Erv Honyotski's team came in second with 33,605 points and John Matulunas' team was third with 30,735 points.

To date, Bill Mancini's team is leading the tournament with 161,945 points; Erv Honyotski's men have a total of 161,840 points; John Matulunas' 158,160.

Individual high scores for the evening went to Vic Baker with 4,495 points; Erv Honyotski with 4,440.

The E. R. Building

(Continued from Page 1, Column 1)

department, testing department, conference and class rooms.

In the basement will be located the telephone switchboard, guard offices, health and safety office and store, record vaults and rest rooms.

The interior arrangement of the building will be flexible through the use of moveable partitions. A new electrical substation will be installed for this building.

North Mill Crew Scores A "Put-Out"

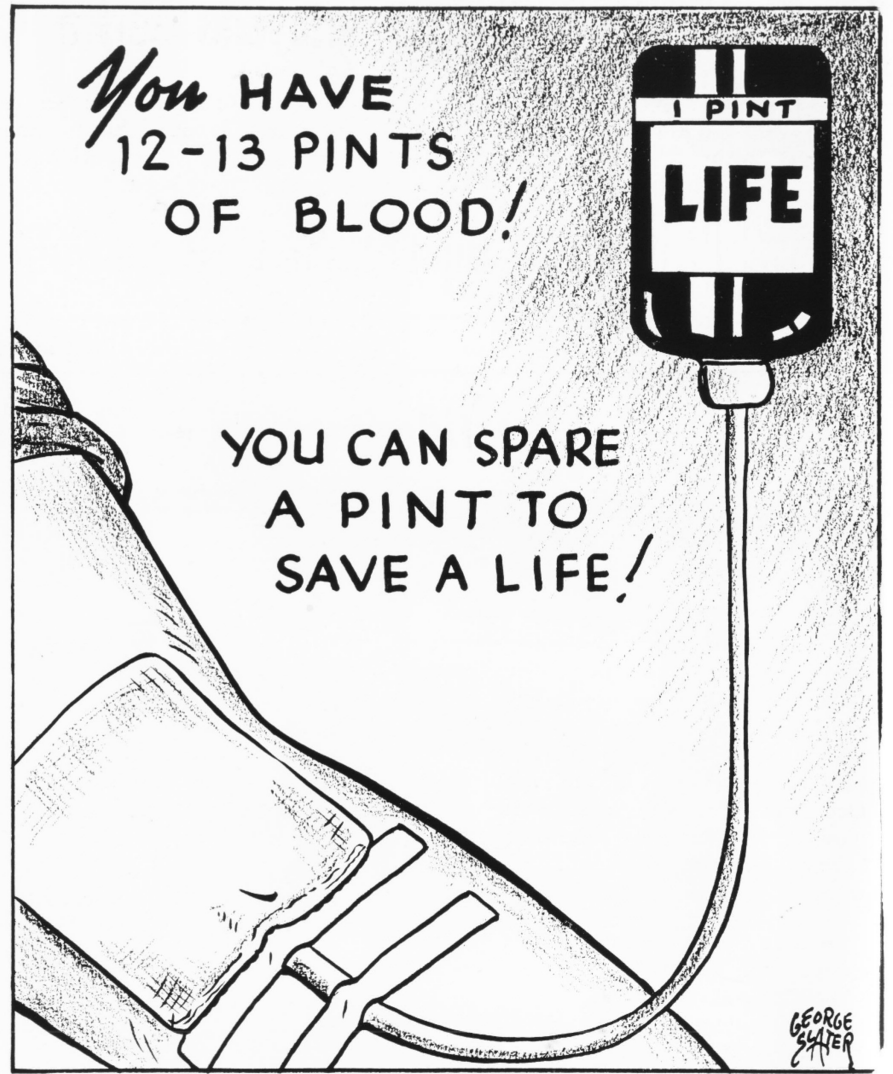

Bill Timney (left) and Charles Norton (right), foremen, congratulate Joseph O'Neill, Joseph Shelley, Fragher Knight, Nick DiPaolo, and Jose DePaiva for the "put-out" they scored on a recent fire in the North Mill.

The value of teamwork was demonstrated recently in the North Mill when the quick action on the part of five men prevented a fire from becoming serious. Upon discovery of the fire, one of the men immediately called the city fire department. The

others stopped the equipment and went to work on the fire with extinguishers, putting it out before the city department arrived.

These men are to be commended for a job well done. They knew what to do and did it without any delay.

Lucky You!

By Robert W. Butler, M.D.

If you don't need any of the blood being collected during the visit of the Bloodmobile and, luckier still, if you're healthy enough (and most of us are) to donate some. After all, you've got twelve pints or so and you won't miss one of them very much, especially since your own blood-making organs will transfuse it back into your circulation in about twenty-four hours — a small, and short-term loss!

It's not a bad investment either because if you should need it in the hospital, it's free. There is a hospital charge for typing and administration, but none for the blood. Let's just keep healthy, though, and not have to collect five to ten pints for the one we donated!

Plasma is processed from blood donated by volunteer donors, and as the cost of this processing is being borne by the Red Cross as a public service, plasma also is available without a charge to the recipient. It is possible that a charge for the administration service may be made by the hospital or physician giving the transfusion.

This didn't start out to be a flag-waving performance for the Bloodmobile and the program of life-saving service it represents — you know all about that. What we started to do was to give some of the answers to some of the questions which are constantly arising regarding the donation of blood. They can't possibly all be answered here since some of them require the decision of the Medical Director of the blood center. Here are some of the regulations regarding those who may donate:

Donation Intervals—At least 8 weeks between donations. Not more than 5 times in any one year.

Sex and Race—Any.

Age—21-59 inclusive. 18-20 with signed parental release. (Married minors or minors on active duty in the armed service do not require a release from parents, guardian, spouse or commanding officer.)

Weight—110 pounds or over.

Blood Transfusions—Must have received none in the past six months.

Illnesses—None in the past month. However, a Mobile Unit Physician may accept someone who has had a common cold, but since recovered.

Surgery—No major surgery in the past six months.

Pregnancy—During pregnancy and for twelve months after delivery, should not donate. A prospective donor with a history of miscarriage within the past twelve months should be referred to the physician in charge.

Jaundice—Persons with a history of viral hepatitis may be accepted provided they have had no attack within the past two years.

Malaria—Persons with a history of malaria who have had no clinical attack within the past six months may be accepted for donation.

Meals Before Donation

Donors may eat at their regular meal time. If their appointment is within four hours after the meal, they should omit any fatty foods at that meal. These fatty foods include such items as: butter, oleomargarine, salad dressing, cream, ice cream, whole milk, eggs, cheese, fat meats, pork, bacon, and soup (except a clear consomme).

There are other conditions which might make it inadvisable for you to give blood, but no regulations can be made, and each case must be judged on its own merit by the blood center. Most anyone is healthy enough to do this service for his neighbor once in a while — and in twenty-four hours you can produce a pint for a patient!

Mary A. Altieri, Payroll Office

Twelve Main Plant Employees Retire

(Continued from Page 1, Column 2)

DOMENICO ERCOLI, Trucking, was retired with benefits to start on November 1, 1954.

Mr. Ercoli came to Scovill on February 28, 1916, and has a continuous service record of over 38 years. Always in Trucking, he was serving as a trucker when he left in April of 1954 due to illness.

GEORGE EZERSKY, Blanking, was retired with benefits to start on November 1, 1954.

Mr. Ezersky came to Scovill on October 31, 1916, and has a continuous service record of over 34 years. In Blanking since 1922, he was serving as a toolsetter when he retired.

ANTONIO GAUDIOSI, Salvage, was retired with benefits to start on November 1, 1954.

Mr. Gaudiosi came to Scovill on June 4, 1906, and has a continuous service record of over 34 years. Although he had served in the Yard Dept., the Wire Mill, and the Stores, most of his years here were spent in Salvage. He was serving as a sorter when he retired.

NELLIE GEDDES, Mfg. Packing, was retired with benefits to start on November 1, 1954.

Mrs. Geddes came to Scovill on February 9, 1911, and has a continuous service record of over 35 years. She had worked in various departments until 1931 when she transferred to Mfg. Packing. She was serving as an inspector and packer when retired.

JOSEPHINE HILL, Lipstick, was retired with benefits to start on November 1, 1954.

Miss Hill came to Scovill on July 8, 1918, and has a continuous service record of over 35 years. In the Lipstick Department since 1931, she was serving as a disassembler when she retired.

MARGARET L. HOSKING, Press #1, was retired with benefits to start on November 1, 1954.

Mrs. Hosking came to Scovill on October 25, 1904, and had a continuous service record of 18.6 years. Although she had worked in various departments, she was serving as a bench and power press operator in Press #1, when she retired.

ROLAND E. JAMINET, Lacquer Room, was retired from active service as of November 1, 1954.

Mr. Jaminet came to Scovill in November of 1903, and has a continu-

ous service record since December 19, 1913. In the Lacquer Room since 1918, he was serving as a working supervisor there when he retired.

GIUSEPPE SANTORO, Tube Mill, was retired with benefits to start on November 1, 1954.

Mr. Santoro came to Scovill on December 4, 1922, and has a continuous service record of over 30 years. Except for short periods in the East Mill and Casting Shop, he has always been in the Tube Mill. He was a solution maintenance man when he retired.

PETER SLATER, Tin Shop, was retired with benefits to start on November 1, 1954.

Mr. Slater came to Scovill on January 19, 1942, and has a continuous service record of 12.8 years. In the Tin Shop since 1953, he was serving as a storekeeper when he retired.

EDMOND WALSH, Wire Mill, was retired with benefits to start on November 1, 1954.

Mr. Walsh came to Scovill on October 18, 1916, and has a continuous service record of 28.2 years. Most of his years here were spent in the Wire Mill and at the time he retired he was serving as a scrap man.

Fishing Notes

By Jim Littlejohn

The fourth and final day of the Reeves Contest was held on Saturday, October 23 and after the results were checked for the 4 days, the champion was *Louis Daveluy* of the Oakville Division.

Tied for second place were *Havold Rogers*, *John Matulunas* and *Vincent Manzoli*, making it a tight race down to the wire.

Other prize winners were *Robert Anderson*, *Henry Miller*, *Maurice Gagne*, *John Delaney* and *John Hubbard*. *Thomas Kelly* and *Henry Herren* were the winners from the Waterville Division.

In all, 26 employees shared in the prizes, so next season get ready and come out to Woodtick and enjoy good fishing and fellowship.

Woodtick was closed to fishing as of Sunday, November 7, 1954.

Fishermen's Banquet

By Charlie Rietydke

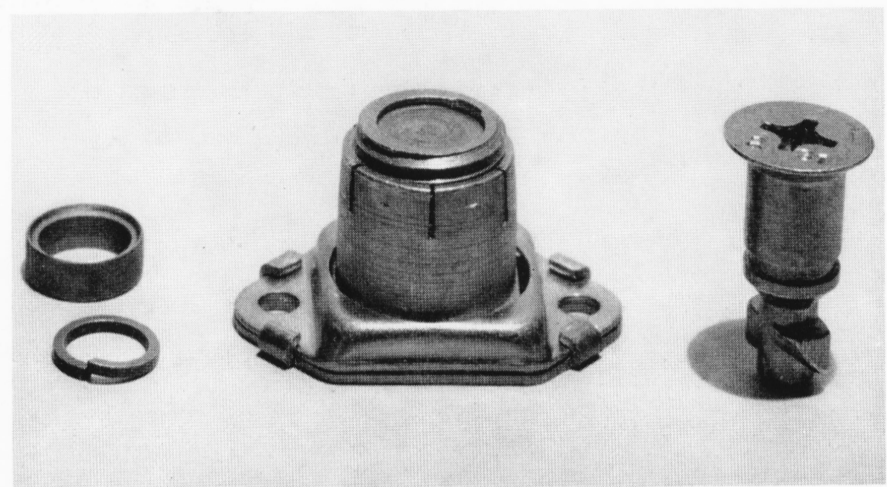

The annual Fishermen's Banquet, held at the Copper Kettle last Thursday, attracted an unusually large group of Scovill sportsmen, all of whom enjoyed a well prepared program of entertainment and sporting pictures.

Arranged by the SERA fishing committee Chairman Jim Littlejohn, and emceed by Charlie Rietydke of Employee Relations, the party rolled along at a rapid happy pace, highlighted with the dry humor of Judge Francis Reeves, (after whom the Reeves Fishing Competition is named), more serious, but extremely well received remarks from Vice-President Alan C. Curtiss, and the hilarious prize presentation by T & M Superintendent Willis Machin.

SERA President John Mitchell pledged full support to the Fishermen's program and Jim Littlejohn received a standing ovation from the men for the many years of devoted and unselfish service rendered to the Scovill sportsmen.

Recognized as honored guests also were Art Harriman of Sealtest, Eli Douville of Pack Shop of Connecticut, and Fred Wilson, Executive Secretary of the SERA.

New High Performance Aircraft Fastener

Here are the component parts of the new Paneloc High Performance Aircraft Fastener. They are (upper left ring) shear washer, (lower left ring) retaining ring, (center) receptacle, and (right) stud.

Our Aircraft Fastener Division has worked for over two years on the development of a new aircraft fastener which will meet the design and qualification requirements specified by the National Aircraft Standards Committee. Our new Paneloc High Performance Aircraft Fastener, which is the result of this work, exceeds the ultimate loads in tension and shear as set

forth in the NAS 547 specification with sheet separation and deflection characteristics superior to aircraft nuts and bolts.

Consisting of four parts—a receptacle, stud, retaining ring and shear washer, the fastener can be opened and closed with a quarter turn. The stud can be locked in the removable panel by means of the shear washer and the retaining ring.

The receptacle is completely assembled and ready for attachment with two rivets, and can be capped for pressure sealing when necessary. It is also adjustable with any stud length to compensate for added thickness or bending of panels, making a large inventory of studs unnecessary.

These fasteners will be found in many places in all types of planes. One of the primary uses will be to attach stressed panels so that they may be removed for inspection and maintenance.

By Juanita Adessio

Since Christmas is only 5½ weeks away things are really buzzing around the Club House. *Margaret Snowden* is chairman of the needy family certificates this year and she has *Ruth Tourangeau* and *Dorothy Budris*, *Betty Doyle*, *Mary Petrucci*, *Mabel Ottinger*, *Betty Colbassani* and "Me," too, as her committee.

Cloe Read is chairman of the Children's Party this year, which is being held on December 18 and 19. The age limit this year is 2-10. *Cloe* has *Betty Affeldt* and *Marie Martineau* as part of her committee. I'm sure *Cloe* will be glad to have any help she can get, so if you are interested, just contact her.

Mary Petrucci is chairman of the Christmas cards, and she is over at the Club House every day but Thursday. *Mollie Collins* will also sell cards at her office (Trucking) every day. Remember, the last day to buy your cards this year is Dec. 10.

Betty Affeldt is in charge of candy and cookies and she will be selling them from the Trucking office every noon hour. The Club is selling candy and cookies for Thanksgiving and for Christmas.

The Girls' Club really needs dolls for their baskets this year, so please look around to see if you can find any. In fact, they will even take new dolls.

Christmas Afghan Sale

The Scovill Girls' Club will sell a beautiful hand-made "Granny" afghan, valued at approximately \$100. to the highest bidder.

Sealed bids will be accepted — up to December 10 — the bids will be opened at an Open House meeting, time to be announced later.

Place your bid (giving amount of bid, your name and department or home address) in an envelope, seal it, mark "Bid" on the outside so that it cannot be opened before the meeting, and send it in to the "Secretary, Scovill Girls' Club" in care of the Company, or send it via factory mail.

The Priceless Gift — Life Itself

All employees of Scovill and members of their families are invited to join in the November 30th "Holiday Special". If you are not contacted by a representative in your department—or if some other member of your family is employed at Scovill — won't you

join in this effort to make certain that we will be prepared for any emergency during the coming winter and holiday season? Fill in the application and send it in to the Employee Activities Office. You'll be notified of arrangements.

Scovill Kids Celebrate Hallowe'en At Doolittle Hall

Approximately 200 children attended the annual Hallowe'en party, sponsored by the SERA, held at Doolittle Hall on Friday, October 29, 1954.

Seventeen prizes were awarded to first and second place winners for the prettiest, most original, most horrible and the funniest costumes.

Life Out East

By Harry Shewbridge

Now that Hallowe'en and Election Day are past and we can once again watch our favorite TV program without interruption, we can relax and worry about anti-freeze, snow tires, and football games.

And speaking of football, we noticed in the paper the other day that *Ted Goumey* (Merchandise Division Production Office), a former Crosby athlete, was a close friend of Art Raimo, now assistant coach at Yale. *Ted* and *Art* chummed around together during their undergraduate days at Villanova.

We heard some news from *Gert (Swir-da) Kapaski* (Slide Fastener) recently, which we think is well worth repeating. It seems that her daughter Janice is a student nurse at St. Mary's Hospital and had been entrusted to safeguard some funds collected by her fellow students for a dance. Janice unfortunately lost her wallet and the money. However, she was a lucky girl, and we do mean lucky. *Walter Misavage* (Plating Room) found the wallet and saw to it that it was returned safely to her. Isn't it nice to know nice things happen once in awhile?

Another item came in last week which puzzles us. Probably it is quite significant to those involved. We repeat the item which is one simple question. "Who is the peanut snatcher on the sixth floor of 112 Bldg. who got caught with the goods?"

Emile Rochon, we understand, was admitted to Waterbury Hospital recently to have some teeth out. Where do you suppose they put him when he arrived? Believe it or not, he landed in the Maternity Ward! Go get him boys, if he's back to work — insist on cigars, or tell him you'll call him "Christine".

Finally, yours truly recently decided to take the First Degree in the Cheshire Council of the Knights of Columbus. When I arrived at the hall, I found to my surprise that there were quite a few Scovillites present. *Bill Rotella* and *Ernie Montambault* (Chucking) were on hand to take the degree along with me, and *Bill Brodeur* (Chucking) came out to be present during the ceremonies. *Bill Crochetiere* (Slide Fastener) was on hand also, along with *John Capone* (Tin Shop), a veteran First Degree man of two weeks standing. I can't tell you about the initiation, but I can say that *Billy*, *Ernie* and *Harry* stuck together like three long lost brothers.

Tin Shop Plans For 9th New Year's Eve Party

The committee in charge of the Tin Shop's ninth annual New Year Eve's party issues notice to the effect that all interested in attending should get their tickets soon.

Reservations are limited to 100 couples and tickets are being sold on a first-come, first-served basis. As requests are coming in already, be sure to get yours early so that you won't be disappointed as so many were last year.

Music for dancing will be furnished by Joe Rock and his orchestra, from 9 p.m. to 2 a.m. The affair will be held at Doolittle Hall.

The committee includes John Capone, Art Graveline, Hector LaRiviere, Fred Milano, and Ernest Sherman.

Seaman John Breuer

Seaman apprentice John Breuer is the 17-year old son of Jacob Breuer of Gen. Trng. John, who is now at Norfolk, Va., had his basic training in Maryland.

"Scoops" From Zippers

By Louise Foell

Election is over but not forgotten, especially by our timekeeper (Chain Room), *Marie Martineau*. *Marie* is still sporting her (diamond?) earrings made to read "I like Ike". What next?

Lydia Carrasquillo and *Alberta Simmons* voted for the first time on Nov. 2.

Helen Andreano and her husband celebrated their 14th wedding anniversary, October 28, 1954.

Welcome back to *Germaine Messino* (Chain Room) and *Rose McHugh* (Wire Form), absent because of illness.

Late, late, late vacations: *Grace Jameson* at Cape Cod; *Jo Green*, relaxing in Florida; *Helen Tamulis*, deep sea fishing in Florida; *Fred Teach*, destination unknown.

Betty Affe is our grandmother for the month of October. Her daughter *Betty Cristofano* presented the family with a beautiful daughter, *Carol Ann*.

"It's a long way to Tipperary" when you haven't been home in six years. *Marie McCusker* is planning a December visit. What a wonderful Christmas present for *Marie's* family.

Two Succumb

AURELIO BONALDI, retired, died on November 3, 1954.

Mr. Bonaldi came to Scovill on October 18, 1922, which was also his continuous service record date. Always in the Box Shop, he was serving as a maintenance man when he retired on January 6, 1953.

TIMOTHY FITZMAURICE, retired, died on November 10, 1954.

Mr. Fitzmaurice came to Scovill on February 26, 1915, and had a continuous service record since March of 1926. He had worked in various departments in the plant until his retirement in 1949. He was serving as a floorman in the Closing Room when he retired in July of 1949.
