First Medical Director Visits Hospital

Dr. Nelson H. Pomeroy is very much interested in a typical patient record form which Assistant Medical Director Harold J. Curran explains. Also gathered at the "Butler-designed treatment table" in the clinic are Medical Director Robert W. Butler and President William M. Goss.

One of the first visitors to the new Scovill hospital was the distinguished Dr. Nelson D. Pomeroy who was the first medical director for the company. During his visit, Dr. Pomeroy termed the new hospital, with its facilities, a palace compared to the facilities in the

Main Plant hospital back in 1914.

With over 2,000 employees at that time, records show that the hospital treated 4800 major and minor accident cases in 1914. Dr. Pomeroy recalls
(Continued on Page 4, Column 1)

New Assignments

Engineering Div

Announced by Chief Plant Engineer T. W. Colina:

Effective January 23, 1956, Robert C. Weber has been relieved of his duties as maintenance engineer in the Manufacturing Div. and has been appointed a maintenance engineer in the Mills Div., East Plant, reporting to William Carew.

Henry Hart has been appointed a maintenance engineer in the Manufacturing Div. and will report to the Chief Plant Engineer.

Announced by Chief Power Plant Engineer C. K. Stickney:

Effective January 30, 1956, John P. VanderMeer has been appointed General Foreman of the Steam Dept. He will report to Assistant Chief Power Plant Engineer Thomas P. Healey.

Effective January 30, 1956, Anthony Brooks has been appointed Shift Superintendent of the Steam Dept. He and Shift Superintendent Leon Schliff will report to Gen. Foreman VanderMeer.

Button & Fastener Div.

Announced by Mr. J. G. Wolff, Works Manager:

Effective January 19, 1956, Jesse Barratt has been appointed Superintendent and Raymond V. Havican has been appointed General Foreman of the following departments:

Wet Roll, Process Store, Inspection, Gripper Eyelet and Tool, Button Eyelet and Tool, Cutting and Tool, Clos-

ing and Tool, Japan, Button Pack, Gen. Training and Attaching Machine.

Mr. Barratt will report to Works Manager Wolff, and Mr. Havican will report to Superintendent Barratt.

Announced by Mr. M. A. Bristol, Superintendent—Slide Fastener:

Effective January 20, 1956, Alexander A. Andrews, Chief Project Engineer has assumed responsibility for the activities of Dept. #361, Slide Fastener Tool and Dept. #670, Design.

General Mfg. Div.

Announced by Mr. C. A. Burnett, Works Manager, Stampings Div.:

Effective January 30, 1956, Norman J. Schaffer has been relieved of his duties as Production Manager, Merchandise Div. and has been transferred to the Rod Fabricating Div.

Effective January 30, 1956, Peter J. Dowling has been appointed Production Manager of the Merchandise Div., reporting to Works Manager Burnett.

Announced by Mr. W. H. Machin, Works Manager, Rod Fabricating Div.:

Effective January 23, 1956, Robert E. Anderson has been appointed Foreman of Dept. 371, Hot Forge Tool Room. He will report to Tool and Forging Engineer George C. Venter.

Effective January 30, 1956, Norman J. Schaffer has been appointed Production Manager and will make his headquarters in the Hot Forge Production Office. He will report to Works Manager Machin.

Blood Donor Day — February 23, 1956

The Blood Mobile Unit will be set up in Doolittle Hall on Thursday, February 23, from 12:45 to 5:30 p.m. to receive blood donations.

Although the visit is set up for Section #3—West Plant departments, all employees and eligible members of their families are welcome to help meet the quota of 150 units.

Departments to be solicited include: General Stores, Mfg. Metal Stores, Mfg. Dept. Stores, Finished Goods-B & F, Finished Goods, Packing B, Packing A, Drill & Tap and Tool, Assembling, Solder, Electric Test Lab.

Also: Trucking and Mfg. Elevators, Rolling, Sanitation, Buff #2 and #3, Connector and Tool, Press #1 and Tool, Dip Room, Plating Room, Tool Chrome Plate, Drawing Room, Annealing, Blanking Room, Blank & Draw Tool.

Receiving, North Mill Depts. 130-132, 135, 301, Rolls Grinding, #310 Electrical, Repair, Millwrights, Tin Shop, Welding, Blacksmith Shop, Carpenter Shop, Oil House, offices.

Others wishing to donate are asked to contact the Employee Activities Office, Ext. 834.

Dallas Office Moves

The Dallas office and warehouse of the Scovill Manufacturing Corporation has moved to a new location as of January 11, 1956.

They are now located at 1516 Edison S., Dallas 7, Texas. The telephone numbers are STerling 3406 and 4680.

Blue Cross Benefits

Effective February 1, 1956, Blue Cross benefits have been increased to the Extended coverage, in accordance with the Company-Union agreement.

If an employee or any covered dependent is a hospital patient between February 1 and 15, 1956, notice should be given to Mrs. Helen White, factory phone 2389, who will notify Blue Cross so that there will be no question about the increased benefit.

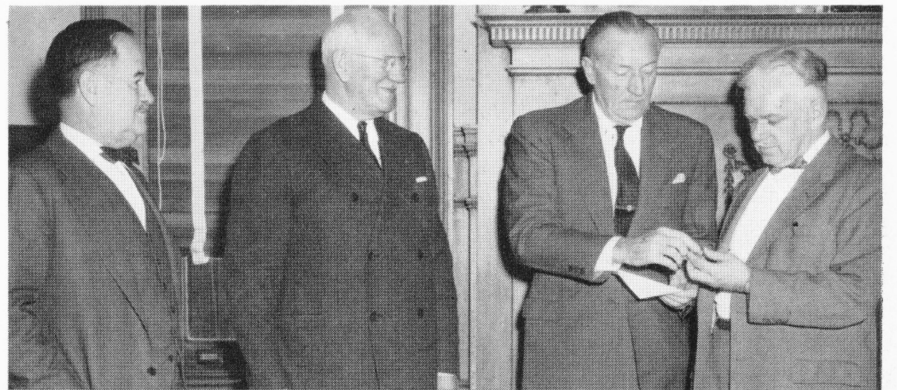

If the patient has been hospitalized since before the effective date of the extended coverage, the \$15.00 per day allowance (instead of \$12.00) will start on February 1, 1956.

Pamphlets regarding the new coverage are available in the Group Insurance Office, Employee Relations Bldg.

Retired Folks Club

Our Retired Folks Club will meet on *Wednesday*, February 8, at 1:30 p.m. at Doolittle Hall. Guest speaker will be Vice President Mark L. Sperry who will show color slides, with commentary, on his trip last year across the Pacific Ocean and Eastern countries.

40 And 50-Year Awards Presented

William V. Coleman, Finishing Engineer in the Development Lab, accepts the 40-year continuous service pin and award from President W. M. Goss. On hand for the occasion are: (left to right) Manager, Button and Fastener Div., Paul E. Fenton and Works Mgr., Button and Fastener Div., Jerome G. Wolff.

Rocco Guerrera, Chucking, receives the 50-year continuous service award from Vice President and General Manager A. P. Hickcox. Looking on are: (left to right) Foreman Frank J. Williams, Works Manager, Rod Fabricating Div., Willis H. Machin, Sr. and General Foreman Emile W. Rochon (ext. right).

Your Scovill Credit Unions

The Scovill units are a mutual saving and loan association organized under a federal charter to serve the credit needs of Scovillites. Interest paid on deposited funds is equal to the maximum offered by banks, often more . . . Interest rates on loans to members are much lower than offered by outside sources . . . The banked funds of members are invested in government bonds and other decidedly stable investments, thus safeguarding members' funds.

Credit Union No. 1

A dividend of 3.5% was declared at a meeting held January 17, 1956.

Officers:—President, John Robinson; Vice President, Frank Martin; Secretary-Treasurer, George Garrity; Clerk, George Howard; Assistant Treasurer, Inez McMullen.

Board of Directors:—John Robinson, Frank Martin, George Howard, George Garrity, Fred Kirschbaum, Joseph Wolff, James Moore, Raymond Murphy and John Mitchell.

Credit Committee:—Tenant Elwin, John Meehan and John Humphrey.

Supervisory Committee: — Edward O'Donnell and Thomas Rush.

Credit Union No. 2

A dividend of 3% was declared at a meeting held January 16, 1956.

Officers:—President, Peter Montea; Vice President, Salvatore DiNuovo; Secretary-Treasurer, James Ryan.

Board of Directors:—Angelo DiGiovanni, Patrick Fitzpatrick, Carl Longo and Vincent Iacovino.

Credit Committee:—Angelo DiGiovanni, Carl Longo and Vincent Iacovino.

Supervisory Committee: — Henry Friez, James Smith, John McGovern.

Credit Union No. 3

A dividend of 3% was declared at a meeting held January 20, 1956.

Officers:—President, Edward Paige; Vice President, Erving Honyotski; Secretary, Joseph Keroski; Treasurer, Tom Guinea; Asst. Treas., Ed Sabis.

Board of Directors:—The officers.

Credit Committee:—John Degnan, Norman Curtis and Edward Mitchell.

Supervisory Committee: — Leonard Rosa, Bernard Yanavich and Honorious Shabot.

Credit Union No. 4

A dividend of 3.6% was declared at a meeting held January 10, 1956.

Officers:—President, Harold Stieler; Vice President, Thomas Healey; Secretary, Margaret Sheehan; Treasurer, John Carolan; Asst. Treas. John Carey.

Board of Directors:—Alton Norton, George Block and John Carey.

Credit Committee:—Emil Brodeur, Margaret Sheehan, Elmer Barnes, James Berkel and William Crohitire.

Supervisory Committee: — James Schaff, Chairman; Ivan Boyd and Bruce Woods.

All members are requested to send in their passbooks for auditing.

Credit Union No. 5 (Waterville Div.)

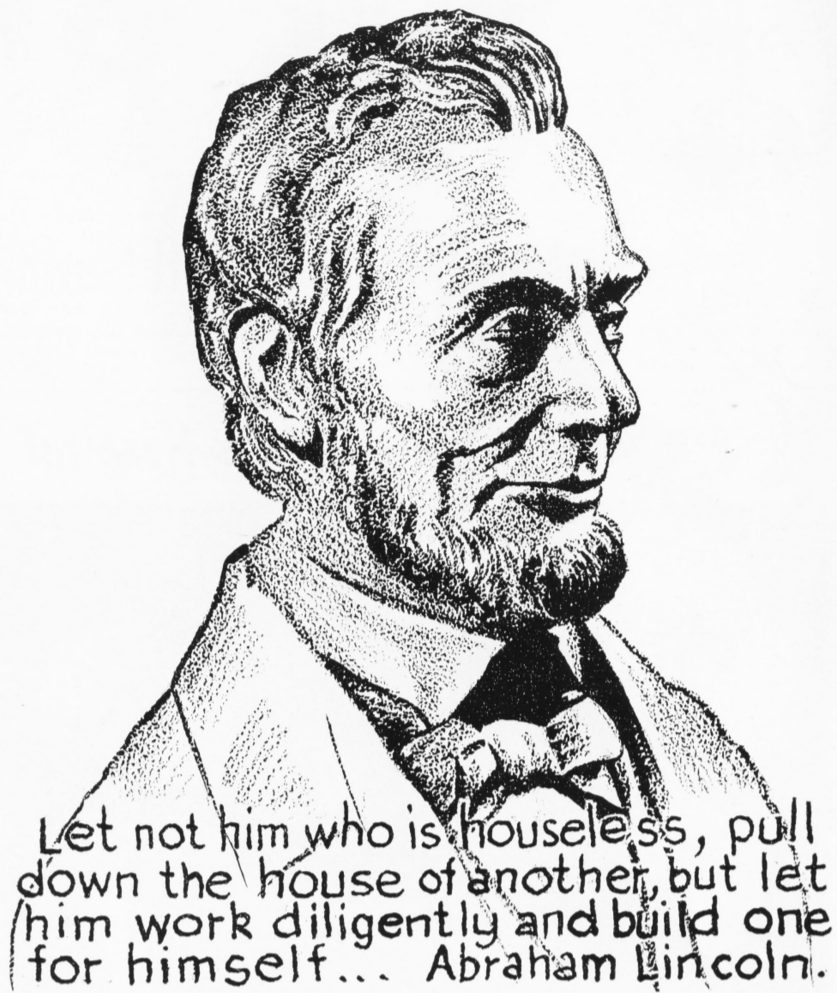

A dividend of 3% was declared at a meeting held January 25, 1956.

Officers:—President, David Hanley; Vice President, Max Kohlbrenner; Secretary, Margaret Sullivan; Treasurer, Robert Dunn.

Board of Directors:—The officers plus Peter Armour, Henry Chestone and Ann Burfield.

Credit Committee:—Charles Campi, Chairman; Gabriel Riccio, Hormidaf Beausoliel, Lyda West and David Hanley.

Supervisory Committee:—Raymond Kozen, Chairman; Walter Keating and Arthur McSweet.

Who's The Doctor?

By Robert W. Butler, M. D.

Self-appointed medicine-men are as old as history. Man has always been interested in his body and how its various parts function, and particularly when for one reason or another it fails to operate properly.

Long, long ago, long before me and thee, Herodotus gave us in "History" accounts of what was done in the earliest days of medicine. Regarding an ancient Babylonian custom he wrote:

"I now come to the next wisest of their customs: Having no use for physicians, they carry the sick to the market place; then those who have been afflicted themselves by the same ill as the sick man's or seen others in like case, come near and advise him about his disease and comfort him, telling him by what means they have themselves recovered of it or seen others so recovered. None may pass by the sick man without asking what is his sickness."

Does that sound familiar to you?

How hath human nature not changed! It isn't quite the same today because we don't lug 'em to the market-place, but we still do pretty well for a lot of amateurs. Wonder how those old boys ever survived? Imagine getting high-class advice from everyone in town on what to do for your ailing liver? Visiting hours every hour all day and all night until the patient (if he survived) was able to drag himself out of there!

Well, if we're still doing pretty much the same thing, we haven't advanced much in the past few thousand years, have we?

Self-diagnosis rates high on the list of all-American curses! If the lawyer who tries his own case has a fool for a client, and if the doctor who treats his own case has a fool for a patient, just where do you stand? Doctors, hard though they try, and in spite of their knowledge and the diagnostic aids which are available to them, are not infallible; but you help neither them nor yourself by starting out with the Babylonian practice.

It's nice to be neighborly. It's also nice to be sympathetic to the neighbor who is ill—but don't carry it to the point of attempting diagnosis and treatment for his ailment, whatever you think it may be. You're not trained for it. The odds are at least 5-1 that if you're sure you're right, you'll prove to be wrong; and if you are, you'll certainly have done him no favor. And that's what (with all your good intentions) you set out to do. You may have done him great harm, even.

The tragedies of self—or neighborly diagnosis are seen daily in every doctor's office. Sometimes they're fatal—sometimes they're only more costly in time, money and pain; but who wants those? Early diagnosis means early recovery in every disease and that's what we all want. There's only one person capable of making it, and he can't do it if you don't get to him. Delay can be dangerous.

All medical articles you see in the magazines these days are written to keep you informed about medical progress and delay some of your fears, perhaps, and to urge you to get adequate and early diagnosis and treatment for your ills. Every editor of every one of these publications will deny with all the vehemence at his command that he's trying to make a doctor of you, and rightly so.

Leave self-diagnosis and self-treatment to the Babylonians!

Inter-Dept. Basketball

The inter-department basketball league which consists of four teams, play their games every Monday at Doolittle Hall.

Standings to date are:

| | Wins | Losses |
|------------------|------|--------|
| Waterville | 3 | 1 |
| Maintenance | 1 | 1 |
| General Training | 1 | 2 |
| Slide Fastener | 1 | 2 |

Be Wary Of "Stray" Ladders

Frank Cullen and "Brad" Bradford, Electrical Dept., examine a "stray" ladder which was the cause of an accident recently.

"Stray" ladders are usually unsafe, cheap ladders which have been abandoned in the plant. Such ladders are "dogs", "mongrels", "booby traps" or whatever your term may be for meaning dangerous and should be junked.

Before using a ladder, be sure it has a department name on it; then look it over carefully before trusting your life on it. A fall from a ladder can result in a very bad injury.

Pinochle Tournament

Team scores for the evening of January 26th put Matulunas' team out front with 27,550 points; followed by Laudate's team with 27,195 points; and Mancini's team with 26,195 points.

So far in the second round, Laudate's boys are ahead with 116,080 points; Mancini's boys second with 113,280 points; and Matulunas' boys third with 111,585 points.

Individual high went to John March with 4,800 points and Victor Baker with 4,430 points.

Rod And Gun Club Officers

Those elected to "guide the destiny" of the Rod & Gun Club during 1956 are: (left to right) Vice President—Ray Laneville, Slide Fastener; President—Henry Miller, Mechanical Engineering; Secretary—Robert Anderson, Hot Forge; and Treasurer—Ted Sandulli, Hot Forge. See story in column 3.

SERA Sponsors Dances

The SERA has scheduled two dances during February. The first will be a Teen-age Dance to be held Friday, February 10, at Doolittle Hall. Tommy Thomas' Orchestra will provide the music from 8:30 to 11:30 p.m.

This is the first of a series of dances to be held for teen-agers. Tickets have been distributed to the various high schools in the city and they may be obtained by calling the Employee Activities Office, ext. 834. All tickets will be sold on a first-come, first-served basis and no tickets will be sold at the door.

The second dance, an ever-popular Cabaret Dance, will be held on Saturday, February 11, 9:00 p.m. to 1:00 a.m., at Doolittle Hall. Music will be by Francis Delfino's Orchestra.

The committee for the affair consists of: Betty Affeldt, William Armour, John Capone, John Carey, Victoria Daniels, Vin Manzolli, Ruth Peterson, Cloe Read, Evelyn Smoil, Margaret Snowden, Agnes Towne, John Mitchell and Bill Watts.

Don't Mix Ammonia And Bleach Water

By Walter J. Racicot

Housewives are warned not to mix household ammonia water and Chloride of Lime bleach water sold in stores under various brand names.

The Federation of Mutual Fire Insurance Companies reports of several incidents wherein the two chemicals were mixed in which a highly irritating gas resulted.

Since both the chemicals involved in these accidents are found in practically every home, it would appear that the hazards described might be widespread and dangerous.

This can particularly be so with children in the home. Keep these and all chemicals stored out of their reach.

Both chemicals are excellent alone, but very dangerous when mixed.

Please pass this information on to your family and neighbors.

Michael D. Cronin, Mailing Dept.

The Newest Kingsbury Machine At Scovill

Anna Opel, Chucking, places a brass forging in the automatically operated chucks on a Kingsbury machine. She presses a button which indexes the machine and 27 operations are performed simultaneously.

Scovill is believed to have the largest group of Universal Kingsbury machines in the United States. This puts us in a very favorable position to bid on contracts for parts requiring multiple machining operations such as drilling, reaming, threading or milling.

Rod & Gun Club

Presenting the new Rod and Gun Club officers who will guide the destiny of the organization during 1956.

President Henry M. Miller, Mechanical Engineering, is truly a veteran sportsman and one of the early birds who with Jim Littlejohn, Russ Hickman, John Hubbard, Lee Reid and others formed the Club so many years ago.

Henry has the distinction of clinching the annual fishing championship three times and owns the famous "Julius Biener" cup to vouch for this feat. Other piscatorial achievements include catching the biggest bullhead on record at Woodtick (24" long); accidentally throwing his complete casting outfit in the lake (it slipped he says); and a doubtful accuracy rating in spin casting.

Vice President Ray Laneville, Slide Fastener, was doomed to become a fisherman, surrounded by such elite as John Matulunas, Frank Williams, Bill Vining, Lee Reid and other past masters of the gentle art of angling. Ray just had to go out and "show" the gang—which is exactly what he did. An expert fresh water fisherman, he also knows his "eelskins" and has set many a hook in the hardened jaw of a fighting Cape Cod striper. A mighty man is Ray!

Treasurer Ted Sandulli, Hot Forge, also a skilled fisherman in his own right, is recognized as the foremost "Whirlaway" expert in the Club. Ted has given many lectures on the effective use of the whirlaway and is always ready to sing its praises.

A minor failing, which he has partially overcome, is forgetfulness such as forgetting to pull up the anchor and then scolding his partner for slow progress. Otherwise the fishermen consider Ted a splendid angler and hope he will be as sparing with the Club's finances as he is occasionally with his worms.

Secretary Bob Anderson, also Hot Forge, has, despite his tender years, an enviable angler record. Known as "the great philanthropist" for his generous fish feeding programs ("I'd rather feed them, then catch them"), Bob has turned his hidden talents to dog training—hoping that maybe there'll come a Saturday during the hunting season when "S.L." Venter will relent and let him go hunting. But Bob made one mistake, the dog won't be trained. It turned out to be a "Sooner". Next time get a beagle, Bob!

The members wish their officers well and look forward to another good year of fishing fun.

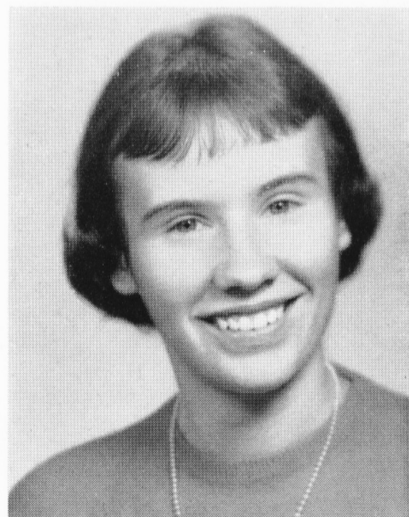

These can be performed in this equipment, where previously they were performed as individual operations.

This Kingsbury machine puts the proper size holes in a brass forging which we produce in the Hot Forge Dept. On the machine there are 15 units for drilling, tapping, hollow milling, threading, counterboring and reaming. Of these 15 units, three have multiple drill heads, each with five drills, making a total of 27 operations.

A coolant is automatically piped to run continuously over the tools while they are in operation, helping to keep them cool and to provide a better finish on the machined parts.

For each different job, a Kingsbury machine must be rearranged and retooled. This is done entirely by our own tool engineers and mechanics.

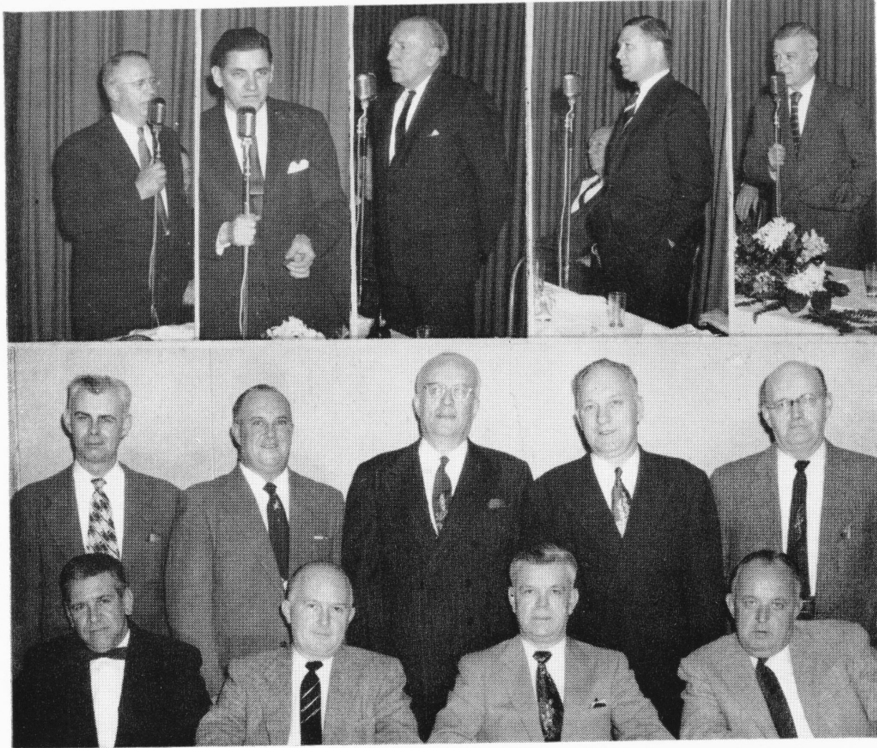

Future Homemaker

Clarence J. Griffith, Extruded Rod, has reason to be exceptionally proud of his daughter Mary Ann. She was named "Betty Crocker Homemaker of Tomorrow" at Southington High.

Mary Ann earned this title by receiving the highest score in a written examination which tested the home-making knowledge and aptitudes of girls in the senior class. She is now eligible to enter competition as Connecticut's candidate for the title of "All American Homemaker of Tomorrow" and will also be considered for the runner-up award in the State.

Foremen's Club Hold Annual Banquet

The Scovill Foremen's Club recently held their annual banquet at Waverly Inn. (Top, left to right) Ivan Coulter did a fine job as M. C.; Retiring president John Meehan; Guest speakers President W. M. Goss and Treasurer-General Counsel M. L. Sperry, 2nd; Newly elected president Herbert Colby.

Bottom photo, standing:—Trustees Thomas Rush and James Coffey; Editor of the "Foremen's Newsletter", Albert Carignan; Trustees Carl Anderson and Alfred Smith. (Sitting) Asst. Treasurer Arthur Graveline, Secretary Harry Shewbridge, President Herbert Colby and Vice President Thomas Ryeal.

Dr. Pomeroy

(Continued from Page 1, Column 2) that most of the minor injuries were treated with iodine only and that the major problem was educating employees to seek treatment promptly and to teach them the value of cleanliness.

Today, over 5,000 employees have the most modern equipment and efficient, trained medical staff to care for their injuries and minor ailments.

Big Game Hunter

Proudly displaying the 105-pound button buck he recently shot in Alford, Mass., is none other than our own big game hunter from North Mill Finishing, Lewis C. Newman.

"Scoops" From Zippers

By Louise Foell

We're proud that the Foremen's Club president is none other than our own Herb Colby. Congratulations, Herb.

Another potential "House of David" player, beard and all, is Stanley Mis of Slide Fastener Toolroom.

Charlie Bozzuto and his wife have announced the engagement of their daughter, Dolores to Pfc. James M. Maloney of Montgomery St. James is stationed at Fort Benning, Georgia.

Bruce Herbert Robertson—a cute name for the newcomer in Herb Robertson's home. Congratulations to the new parents.

Slide Fastener Toolroom has a celebrity in its midst. Bill Birmingham has recently been elected president of the Washington Community Club.

The Bowling Ball

Standings of the three top teams of the various bowling leagues within the plant are as follows:

SERA Men's Handicap League

As of January 25:

| | Wins | Losses |
|----------------|------|--------|
| Slide Fastener | 53 | 31 |
| Strip Mill | 52 | 32 |
| X-Rod | 46 | 38 |

SERA Inter-Dept. League

As of January 26:

| | Wins | Losses |
|-----------------------|------|--------|
| Press #2 | 54 | 10 |
| Closing | 51 | 13 |
| Slide Fastener Scoops | 32 | 32 |

Cost Office League

As of January 30:

| | Wins | Losses |
|-------------|------|--------|
| Time Office | 42 | 30 |
| Drafting | 40 | 32 |
| Purchasing | 39 | 33 |

Three Succumb

EDWARD F. WEBB, retired, died on January 20, 1956.

Mr. Webb first came to Scovill in May, 1918, and had a continuous service record of over 31 years when he retired in July, 1949. Always in the Stores Div., he had been in Store #5 since 1931 where he served as foreman for over nine years.

JOHN S. MOSHKA, Tube Mill, died on January 31, 1956.

Mr. Moshka first came to Scovill in January, 1937, and had a continuous service record since September, 1940. Always in the Tube Mill, he was serving as an inspector-gauger at the time of his death.

Word has been received of the sudden death of William R. Westfall on Friday, January 27, 1956, at his home in Forest Hills, New York.

Mr. Westfall was connected with Scovill's sales force for ten years and, in December, 1939, left direct employment to become one of the Company's sales agents handling our line of industrial hose couplings.

Girls' Club News

By Teresa Ryan

Victoria Daniels and Evelyn Smoil, Closing, spent an enjoyable weekend in New York, recently. They saw "Tea House of the August Moon" and came home with some new finery.

Anna Romano and Edith Cavolan have been very busy girls. They spent a weekend in New York—saw "Rigolletto" at the Met, an ice show and dined at the House of Chan. The dinner and service as described was exotic and heavenly. They also have their Easter bonnets, which are handmade of flowers while they watched.

Anna and Edith were also hostesses recently at a party for the Mother's Club of Notre Dame Academy. Refreshments were: homemade bread, cake, cookies and other goodies. Viola Valaitis, Lipstick, attended the party, but was unable to relax even for a moment.

Jean and Patricia Loy, nieces of Mary Murphy, Slide Fastener, were members of the cast of "Hansel and Gretel" which was recently presented at the Waterbury Catholic High School auditorium by the students of Notre Dame Academy.

The girls at Slide Fastener would like to have Mary Kerwin sing a little louder when they harmonize.

Best wishes for a complete recovery to Louise Longo, Mary Conti, Irene Bennett and Sue DeLeo who have been sick.

The Club extends its sincerest sympathy to Ruth Lobley, Employment Office, and Hattie Murtba, Electric Shell, on their recent losses.

We welcome Jo Hawkeley and Mary Ellen Pirog, Waterville, as new members.

We were thrilled and happy to receive many cards and thank you notes from our retired members.

Remember the card party which will be held, Wednesday, February 8 at the Girls' Club house. There will be cards, bingo, a Chinese auction, door and table prizes and refreshments. Come and bring a friend.

On the weekend of February 11 and 12th, there will be a trip to Boston. \$14.95 will cover transportation, hotel and meals.

Glendale combination gas and oil range, good condition. Call 3-9116.

Twelve 1/2" and six 3/4" brass pipes. Call Cheshire, BRowning 2-4340 after 5 p.m.
