New Assignments

General Manufacturing Division

Announced by Mr. A. M. Rogers, Administrative Vice President:

L. R. Root

W. H. Harris

Leroy R. Root has retired from his duties as Sales Manager of the Drug and Cosmetic Container Division, effective February 15, 1956. The retirement is as a result of Mr. Root's request to be relieved of these responsibilities because of ill health. He will continue to serve the division as a consultant on product development.

William H. Harris has been appointed Sales Manager of the Drug and Cosmetic Container Division, effective February 15, 1956.

Announced by Mr. C. A. Burnett, Works Manager, Stampings Div.:

Effective February 13, 1956, David A. Hyde has been relieved of his duties as Production Manager of the Slide Fastener section of the Button & Fastener Div. and has been appointed Production Manager of the Drug & Cosmetic Container Div.; reporting to Works Manager Burnett.

Effective February 13, 1956, Arthur L. Weckler has been relieved of his duties as Production Manager, Drug & Cosmetic Container Div. and has been appointed Production Manager of the Relay Div.; reporting to Works Manager Burnett.

Effective February 13, 1956, Ronald E. Malia has been relieved of his duties as Assistant Production Manager, Contract Mfg. Div. and has been appointed Assistant to the Division Sales Manager, Cont. Mfg. Div., reporting to Div. Sales Manager A. G. Deming.

Purchasing Department

Kenneth H. Staib, buyer in the Purchasing Dept. of the Waterbury Division, has been appointed purchasing agent for the Oakville Co. Division.

Mr. H. W. Leavenworth, vice president and general manager of the Oakville Division, issued notice of the appointment on Feb. 12, 1956.

Scovill Keys at Motorama

Gold anodized aluminum keys are being handed out as souvenirs at all five of this year's Motorama exhibits. The keys, made at Scovill, are replicas of the actual magnetic key used in the ignition lock of General Motors experimental Firebird model featured at the exhibits.

Costs

It becomes more and more evident that every effort must be made to reduce costs if we are to maintain present employment. Wastes of time and material must be stopped. It is everyone's job to help do it. And in doing so, each individual is working to preserve his own job.

The recent wage increase was nice to receive. But it does no good to those whose jobs disappear because of it. In selling our products we must get back all of our costs plus a reasonable profit. If we can't meet our competition on some items, then those products must be discontinued.

If each of us examines his own job—and those close to us—with a critical eye, we can undoubtedly suggest very worth-while ways of savings. And thus add to our own job security.

Adam C. Curtiss
Vice President

Four Retire From Active Service

MIKE BILANCIO, General Training #1, was retired with benefits to start January 24, 1955.

Mr. Bilancio was first hired in October, 1916, and has a continuous service record since November, 1927. He served in various departments until February, 1951, when he went to General Training #1 as a maintenance man. He was forced to leave due to illness in July, 1954.

EDMUND HANBURY, Carpenter Shop, was retired with benefits to start February 1, 1956.

Mr. Hanbury first came to Scovill in September, 1942, and has a continuous service record since November of that year. He has always been a carpenter.

EVA KOZEN, Automatic Screw, was retired with benefits to start February 1, 1956.

Mrs. Kozen was first hired in September, 1921, and has 29 years of continuous service. She served in various departments until 1933, when she went to the Automatic Screw Dept., as an inspector automatic screw parts job leader.

ELLIS PETTY, North Mill, was retired with benefits to start February 6, 1956.

Mr. Petty first came to Scovill in April, 1929, and has a continuous service record of 20.8 years. He has served as a hander-on on North Mill Rolls since June, 1950, prior to which he served in the East and Rod Mills.

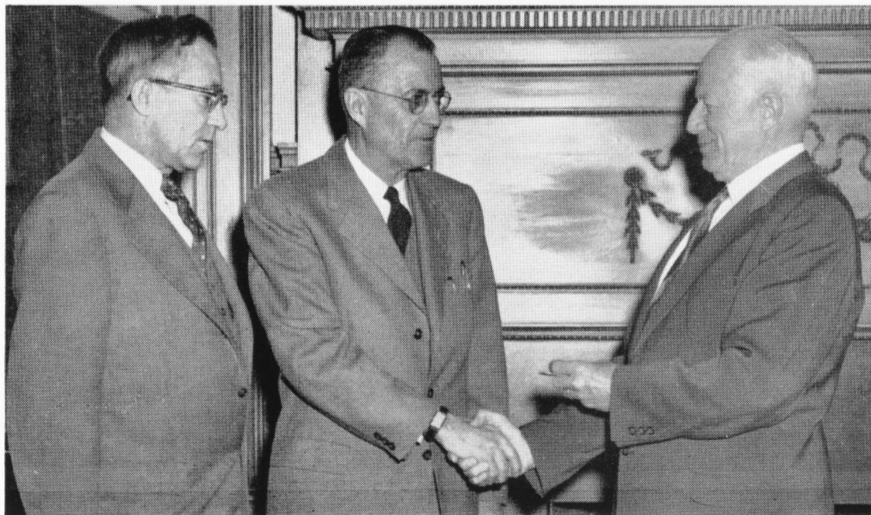

Auto Registrations

Automobile registrations for 1955 do not expire this year until midnight, March 31, 1956.

The Employee Activities Office will pick up your 1956 registrations for you if you will get the renewal application (properly signed) and the necessary fee in to the office by Friday, March 9.

The new fee for all passenger registrations is \$8.00 and covers all passenger cars, regardless of weight. Combination passenger and business on passenger-type body registration is \$10.00. For fees on station wagons and commercial vehicles, contact the Employee Activities Office.

Philo Lee Receives 40-Year Award

Philo B. Lee, Foreman of Outside Transportation, receives congratulations from Vice President and Waterbury Div. General Manager A. P. Hickcox while accepting the 40-year continuous service award and pin. Also on hand for the occasion was Superintendent of Traffic James B. Griffin.

Blood Donor Day Feb. 23, 1956

The Scovill Girls' Clubhouse, on Mill St., (opposite St. Mary's Hospital) will be the scene of activity on February 23, 1956, when the Blood Mobile Unit will be on hand — from 1:00 to 5:30 p.m. — to accept blood contributions from employees, members of their families and friends.

The change of location from Doolittle Hall was made as a matter of convenience for the West Plant departments scheduled to give now.

Al Kean, North Mill Rolls Div., was named Chairman of this drive at a meeting of department representatives held in the new Employee Relations Building on Friday, February 10.

Committee members, who are confident their co-workers will meet the quota of 150 units of blood include: —Michael Campi, Blanking; Dominic Montory, Drawing; Jennie Truncala, Press I; John M. McCormack, Connector.

Richard J. Washington, Electric Anneal; Edward Hannis, Jr., Buff #1; Walter Sawosta, Buff #2; Sophie Radomski, Buff #3; Anthony Ciarleglio, Plating; Frank Quadrato, Wet Rolling; Mary Ferretti, Assembling; Noella Guertin, Solder Room; Armand Santucci, Sanitation Dept.

Edward J. Gilbert and Albert Kean, North Mill Rolls; James Scully, Francis J. McFarlin and Charles Surgener, North Mill Finishing; Edward J. Seward, Millwrights; Vincent Toletti, Electrical; Joseph Dillane, Blacksmith Shop; Ernest Sherman and Donato Daloia, Tin Shop.

Office representatives include: Ronald O'Hanley, Advertising; Leslie H. Coley, Jr., Engineering; John L. Robinson, Estimating; Robert Bailey, Products Development; Carmine A. Garofalo, Drafting; Robert P. Goss, Button & Fastener Production.

Employees whose departments are not listed in Section #3, scheduled to give at this time, but would like to donate a unit of blood are invited to call the Employee Activities Office, Ext. 834, to sign up.

Suggestion Awards \$25.00

Anthony Mastrofrancesco, Casting Shop, Melting Div.

Daniel Sullivan, Rod Mill, Finishing Div.

\$15.00

Arcas Aybar, Sl. Fast., Wire Form
Arthur Schmidt, Scrap Processing

Letters Of Appreciation

Pompeo Cantoni, Maint. Dept., Welders; Joseph Diogostino, Cont. Strip Mill, Rolls (for two suggestions); Grace Paznokas, Sl. Fast. Finish; John Slavin, Sl. Fast Tool Room; Albert Uscowski, Strip Mill, Rolls.

Scovill Sunshine Fund

Report of Activities - 1955

The Scovill Sunshine Fund gave emergency aid to approximately 400 employees, members of their families, retired personnel and flood victims in 1955, in the amount of \$9,395.51.

This money was spent for the items listed below in cases where serious illness or some similar difficulty created a hardship.

Food	\$4,594.98
Rent and Board	1,024.50
Hospital and Sanitarium	29.74
Medicine	142.15
Medical Bills	2,171.05
Blue Cross & C.M.S.	460.25
Fuel	183.10
Clothing and Shoes	168.01
Homemaker	27.25
Utilities	70.00
Insurance	49.50
Transportation	53.00
Household Furnishings	101.86
Miscellaneous	320.12

Sewing Classes

Sewing classes are held every Monday and Tuesday evenings from 7 to 9:30 p.m. at the Scovill Girls' Club-house. Mrs. Eleanor Collins, an expert, teaches the art of making slip covers and draperies.

New members are always welcome. If interested, call the Employee Activities Office, ext. 834.

When an active, or retired employee is reported to be in difficulty Mrs. Marie H. Hayes makes a thorough investigation. In some cases, referrals are made to a local Federated Fund agency or a State or Federal department.

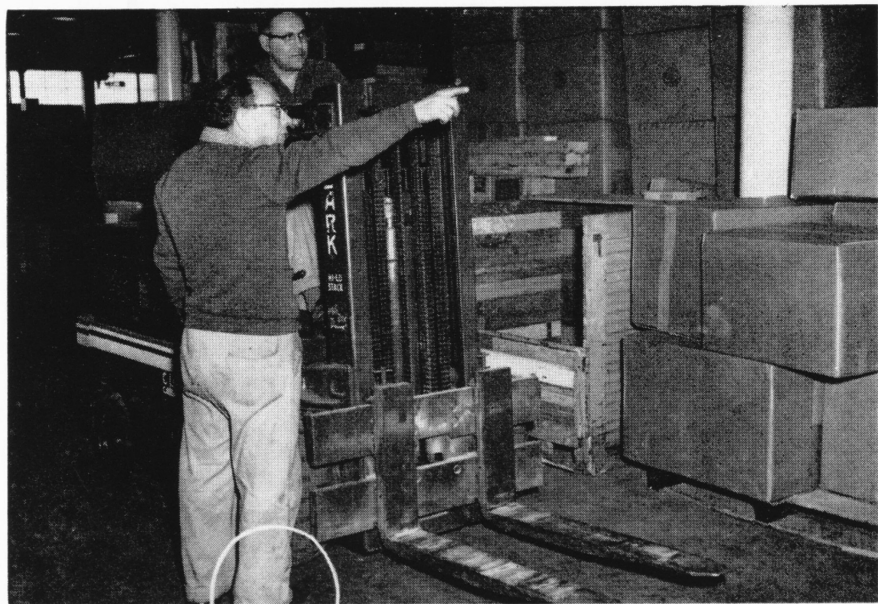

The Sunshine Fund is supported by profits from the various candy machines located throughout the plant, and other funds, with the administration centered in a group of employees.

The number of families needing assistance this past year was increased due to the floods of last August and October. The funds available for assisting these families was helped greatly by contributions from employees in the various Scovill divisions and several of our customers.

J. Milton Burrall, Manager of Employee Relations, is chairman of the Scovill Sunshine Fund Committee. Other members of the committee are: Wayne Johnson, Ray Kasidas, Mollie Kelly, Leon Mayshaw, Jennie Truncala and Mrs. Marie Hayes.

Blood Donor Day
 Thursday, February 23, 1956
 1:00 to 5:30 p.m.
 at
 Doolittle Hall

Watch Those Toes

James Testa (standing) and Daniel Mancini (on jitney), Receiving, illustrate a hazard that is much more than imaginary within the plant. Safety shoes recently prevented a serious injury to a foot in a similar situation.

Drivers of in-plant vehicles must be alert for pedestrians who stand too close or who may move unexpectedly while their vehicles are in motion.

Pedestrians who are near a vehicle should also be alert at all times. There

is always the danger of the vehicle moving unexpectedly.

A key point to remember for both the driver of a vehicle and a pedestrian seeing a vehicle is to keep plenty of space between each other.

It's Heart Month

By Robert W. Butler, M. D.

—and tacked onto the end of innumerable radio and T-V commercials, and in newspapers and magazines are requests that you contribute to the Heart Fund. Incidentally, I'm in favor of it. The dimes, quarters and dollars you gave last year resulted in the saving of thousands of lives this year—but right now we're interested in your heart 12 months in the year—not just during Heart Month.

For some months now you've been reading about one type of heart disease in the papers every day. At least it's been there to read, and one way or another has provided a pretty complete course in coronary thrombosis. That's what happens when one of the most important hearts in the country is afflicted and whether or not Ike decides to run for a second term, his attack has been a great boon to the rest of humanity. That's educating the public the hard way, to be sure, but there's no education without pain; and between the President with his misfortune and Dr. White with his knowledge they've done a grand job of it.

It may be too late for most of you to change your occupation, but if it isn't and you want to avoid death from heart disease, become a farmer, carpenter, bricklayer or plumber. If that's the kind of death you prefer, be a doctor, barber or bartender. (That's an item you can add to your store of interesting but unimportant information.)

There are about nine million people in the United States who have Heart disease, and it is responsible for about half of all the deaths which are not due to violent deaths. That makes it number one on the killer parade. It's responsible for about 152,000,000 lost workdays, at a cost of more than a billion dollars per year. (Those are figures worthy of serious thought.)

Doctors have much to learn about the causes of Rheumatic Heart Disease, coronary artery disease and high blood pressure, but we do know a great deal about diagnosing and treating them.

Treatment particularly has made tremendous advances in the past 10 years with the result that lives have been saved and people once doomed to invalidism now have returned to gainful occupations. New drugs and new surgical skills have done it—have accomplished results beyond the wildest dreams of medicine in the 30's!

One thing of vital importance has not yet been developed. Nobody has been able to discover a diagnosing gimmick which your doctor can point at you when you pass him on the street, or one hooked up with radar or sonar so that he can make the diagnosis while you sit at home! If you have it, things can be done to help prevent death or invalidism; but nothing—no nothing—can be done unless you both know you have it.

How about giving him—and you a chance?

See, Steer, Stop

Check the following and see if your car is in condition to be driven on the open road—can you honestly say you have a safe car?

1. Front light output, at least 50% of new lamp value.
2. Horn, audible for 200 feet.
3. Brakes, stop evenly, not more than 30 ft. at 20 m.p.h.
4. Windshield wipers, wipe cleanly.
5. Safety glass all around and unobscured by stickers.
6. Rear view mirror, give steady view of roadway behind.
7. Steering equipment, only minimum play in steering wheel.
8. No front-end looseness.
9. Rear lights, clean, bright, working properly.
10. Tires, no bulges, cuts, bruises.
11. Exhaust system, quiet, no leaks.

Service Awards

Forty Years

Harold L. McCarroll
Solder Room
February 17, 1956

Twenty-Five Years

Evdokim A. Yasbenko
North Mill Finish
February 16, 1956

February 16, 1956

Ten Years

February 11—Charles Saukas, Waterville; February 12—William M. Yanavich, Casting; February 17—Elisa M. Lavado, Press II; February 19—Carmen Gugliotti, Waterville.

Pinochle Tournament

Team scores for the evening of February 9th, put Laudate's team out front with 31,000 points; followed by Matulunas' team with 28,175 points; and Mancini's team with 26,165 points.

Halfway through the second round, Laudate's boys are ahead with 175,200 points; Matulunas' boys a close second with 168,025 points; and Mancini's team third with 166,940 points.

Individual high score for the evening go to John Carolan with 4,495 and Angelo Cannata with 4,335 points.

Rod & Gun Club

President Henry M. Miller announces that the regular meeting of the Scovill Rod and Gun Club will be held on Tuesday evening, February 21st, at 7 o'clock in Room 1, E. R. Bldg.

Plans will be discussed for the spring banquet and the fishing season.

Restocking plans are now complete, calling for a larger addition of legal size trout.

A card party (set back) will follow at the conclusion of the meeting.

"Scoops" From Zippers

By Louise Foell

Welcome back to Lucy Castagna and Sal Pitino who have returned from sick leave.

Good luck to Julia Sbegda who has decided to become a homemaker instead of a timekeeper.

Ann and Charles Romano are going to Chicago to attend their daughter Marlene's Holy Habit Day. She will receive her Holy Habit at the Notre Dame Montiale at Bourbonnais, Illinois. Edith Carolan is also planning to attend this special day.

Judy Gyllenhammer's son, Al, is now in Alaska. It was a six hour trip from the state of Washington. This boy really likes the cold. Happy wintering, Al.

Slide Fastener is really going all out as far as cars are concerned. So far we have Mary Hanson with a new Dodge; Dot Mochakas, Plymouth; Hazel Brodeur, Chevrolet; Irene Mulligan, Oldsmobile; Del Goudreault, Ford and last but not least, Grace Jansson with a Chrysler.

Four Succumb

WILLIAM J. LAWLOR, Wire Mill, died on February 4, 1956.

Mr. Lawlor came to Scovill in June, 1907, but due to periods out of the plant his continuous service record began in May, 1946. He had served in Chuckling, East Mill, North Mill and Wire Mill where he was a checker at the time of his death.

FRANK DIVITO, retired, died on February 8, 1956.

Mr. DiVito was first hired in June, 1946, and had a continuous service record since September of the same year. Always in the Waterville Div. Foundry, he was serving as a core inspector when illness forced him to leave in July, 1954. He was retired in January, 1955.

MITCHELL MERO, Chuckling, died on February 12, 1956.

Mr. Mero first came to Scovill in January, 1941, and had a continuous service record since June, 1944. He served in various departments until 1947, when he went to the Chuckling Dept. as a toolsetter.

EDWARD V. LAWLOR, Button & Fastener Design, died on February 13, 1956.

Mr. Lawlor first came to Scovill in September, 1911, but due to periods out of the plant his continuous service record began in August, 1937. He served in various departments of the Tool Div. until 1951, when he went to the Button and Fastener Design Dept. as a Button Model Maker.

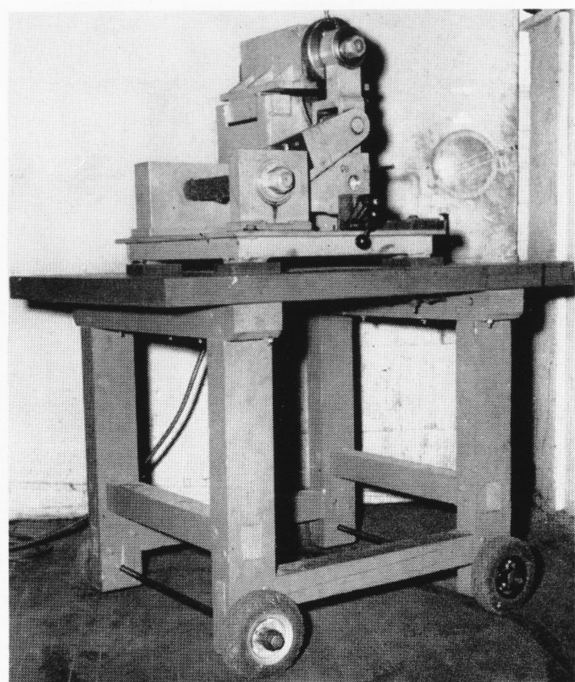

PANELOC Testing Machine "Rides On Air"

A new testing machine specifically designed to test our PANELOC aircraft fasteners was recently put into use in the Metals Research Dept.

Upon installation, it was found that the vibrations from the machine were disturbing to the delicate testing equipment in the department.

Our engineers who designed this machine, experimented with every known vibration absorbing material to eliminate the disturbance. They finally tried small pneumatic tires.

These tires completely eliminated the disturbance and made the machine literally "ride on air" without interfering with its normal function.

The Scovill PANELOC fastener is designed primarily for the aircraft industry, as a fastener to hold together two overlapping metal sheets under conditions of fatigue and vibration in shear.

Suitable equipment to test the durability of the fasteners was not available on the market, so Scovill engineers were called upon to design and have built a testing machine to meet the rigid specifications required for the fasteners by the National Aircraft Standards Committee.

The fastener is placed in the machine between two panels and subjected to shear stresses 1800 times a minute to test the durability of the fastener. This

process is so rapid that the moving parts when in operation cannot be seen with the naked eye.

The building of this machine not only fulfilled the need for testing PANELOC fasteners, but it also tested the ingenuity of our engineers in solving the unforeseen problem of the disturbing vibrations.

Girls' Club News

By Teresa Ryan

The pre-Lenten card party was a highly successful and entertaining affair. The door prize, a lovely pale blue coffee carafe and place mats, was won by Loretta McGrath of Waterville.

Mabel Ottinger, Waterville, is a busy lady these days. At present she is on the council of the Veterans of Foreign Wars, which is arranging a bingo party for the benefit of the veterans hospital at West Haven.

Frances O'Rourke, Lipstick, spent a day shopping for her Easter finery in Hartford.

Agnes Blondin, retired member, recently visited friends at the Employment Office.

Mary LaFrance, Laura Perigard and Rose Winslow, retired members, looked very well and happy when seen returning from church recently. Mary reports crocheting a bedspread is keeping her busy.

We extend our sincerest sympathy to Anna Gould, Waterville, Betty Affeldt, Japan Room, and Chloe Read, Payroll, for the recent loss of loved ones.

Jo Keilty, Waterville, Louise Posa, Closing, and Marie Martineau, Slide Fastener, are on the sick list. Hurry and get well, girls, everyone misses you.

Candy, bunnies and other toys will be sold by the Club for Easter. Watch for the flyer which will appear soon.

James E. Bennett, Adv. Trng. Course

Safety Shoe Store

The Safety Shoe Store, located in the basement of the new Employee Relations Building, is ready for business.

Safety Shoes are sold every Tuesday and Thursday from 7:30 a.m. to 4:30 p.m.

If these days are inconvenient, call the Safety Office at Ext. 888 for an appointment.

For Our Family Album

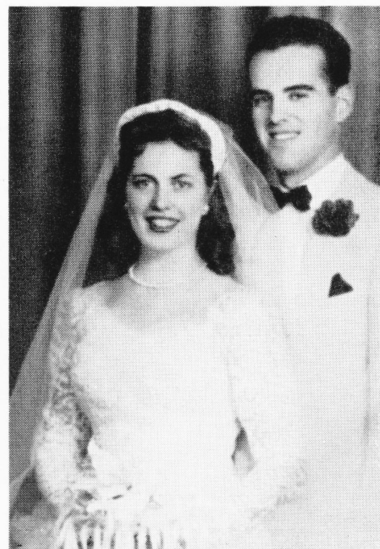

These smiling youngsters are the Montorys: Daniel, 4; Angela 1; and Rosalind, 6. Grandfather Dominic, is in Drawing, Uncle Robert is in Training and father, Daniel, was formerly of the Case Shop.

It was a great day for the Palombo children. Jimmy, 4; Angela, 3; and Christine, 7, when they had this picture taken. Grandmother, Angie, is in Lacquer, Uncle Chester Gursky was formerly of Connector.

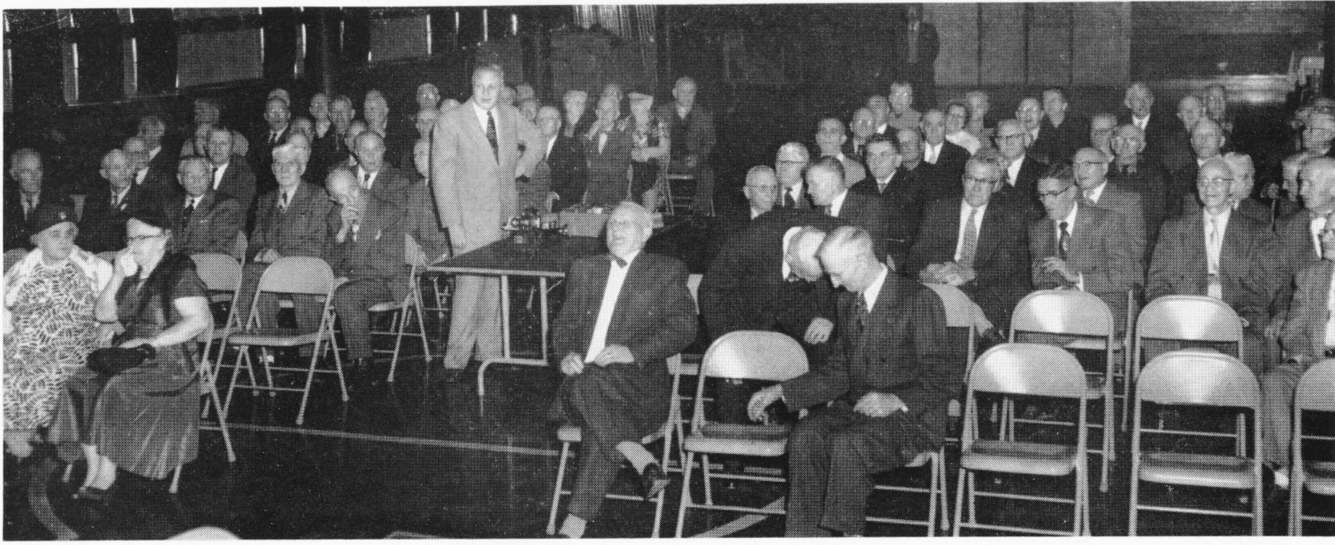

A high stepping majorette is Fay Burns, 17, daughter of George, Plant Protection. She is a senior at Crosby High and member of the All-American Drum Majors Assoc.

This happy couple is Mr. and Mrs. Francis Nonamaker. Francis is with the Waterville Div. and Patricia Ann's father, Leon Saunders, is with the Millwright Dept.

Retired Folks Enjoy Talk, Slides On Far East

Approximately 90 members of the Retired Folks' Club were on hand for the Feb. 8th meeting at Doolittle Hall when Vice President Mark L. Sperry showed colored slides taken on his trip through Far East countries. His com-

mentary on the people, customs and scenic wonders, together with some of his experiences on the trip, delighted the viewers. The next meeting of the group will be held on Tuesday, March 13. Details will be announced soon.

Basketball

On Monday, February 13, Maintenance defeated Slide Fastener Tool, 28 to 18. Brick shot 16 points for Maintenance and was high man for the evening. Bronsard of Slide Fastener Tool, made 16 points with 7 field goals in the second half.

The second game of the evening was Waterville 58, General Training 27. Fusco of Waterville was high man for the evening with 22 points.

So far in the league, Waterville is in first place with 3 wins and 2 losses. But the winners of the first round cannot be decided until two makeup games are played; Maintenance and General Training; Maintenance and Slide Fastener Tool. If Maintenance takes these two games they can tie Waterville for first place.

Annual Golf Clinic

The S.E.R.A. 9th Annual Golf Clinic will be held on Wednesday, March 21, 1956. Featured at the event will be Bud Geoghegan, former professional golfer at Highland Country Club, Meriden, and Rockledge Country Club, Hartford, and presently at the Crestmont Country Club, N. J.

The committee headed by Chairman Don Garrick have plans underway for a very successful and entertaining event. Watch *THE BULLETIN* for further information.

Annual Bowling Sweepstakes

At the monthly S.E.R.A. meeting held on Monday, February 13, the Board of Directors appointed Ruth Peterson, Jean Ostroski and Al Kean co-chairmen of the 12th Annual Bowling Sweepstakes, which will be held sometime in March. More details in coming issues of *THE BULLETIN*.

 Individual High Three—Tracy—379

Softball

Although it is still very early in the season to do much about softball, there are a few eligibility rules under which the S.E.R.A. Plant-Wide Softball League will operate. Perhaps it will help to assemble teams at the beginning of the season without delays due to lack of information.

(1) Any department may have a team but may not go out of the division for players, except as specified below.

1. Maintenance including Service and Power House.
2. East Mfg.—Hot Forge—Shell Case 109-112 bldgs.
3. West Mfg.—All Mfg. Depts.
4. All Mills and Casting Shop.
5. Tool Depts.
6. Offices including Advanced Training Course personnel regardless of where they are assigned.
7. Oakville Div.
8. Waterville Div.

(2) If there are some zones with too few players to comprise a team or some zones not interested in being represented, players in those zones go into a pool and any drafting will be in order of last team of previous year getting first selection.

(3) In case of transfer during the playing season, any player affected will remain on his present team until the end of the season.

Waterville Foremen Hold Elections

The monthly meeting of the Waterville Foremen's Association was held on Tuesday, February 7.

The election of officers was held. James A. Hollywood succeeds Walter Keating as president. Thomas C. Chapman took over the position of vice president which was vacated by Mr. Hollywood. Re-elected to office were: Roy A. Ferris, secretary, John F. Baker, treasurer, and Leon A. French to the Board of Governors for a three year term.

Plans were completed for the Association's annual banquet which will be held at the Copper Kettle on Saturday, February 25. The members and their wives are looking forward to as successful an evening as last year.

June 9th was the date set for attending a Yankee vs. Cleveland baseball game in New York.

Following the business meeting, William Foley was presented a gift on behalf of the Association in honor of fifty years of continuous service at Scovill which will be completed on February 21. Mr. Foley accepted the gift with a few words of gratitude.

Refreshments consisting of home cooked corned beef sandwiches, homemade cake and coffee were served, completing a satisfying evening.

The next meeting will be held on Tuesday, March 6, at 7:30 p.m.
