U. S. Savings Bond Program 15 Years Old On May 1st

May 1, 1956 marked the 15th anniversary of the Series E Savings Bond program. In observance of the occasion, employees will be given another opportunity to sign up for bonds.

At a meeting to be held on May 14th, foremen and departmental stewards will be given full instructions on the Payroll Deduction program for the systematic purchase of bonds. For the

remainder of the week, they will be available to answer questions of employees in their respective departments interested in the plan.

Most Scovillites purchased these bonds during the war years and know the value of saving through this plan. The present Payroll Deduction program was reinstated in 1953 at the request of interested employees.

Saving

Many of us save in one way or another. Too many of us intend to save—but somehow we don't get to the bank regularly, or perhaps not at all.

The security of our families and of ourselves depends, in large measure, on our saving. Despite pensions, Blue Cross, Social Security, and the other benefits to help us in times of stress, there are many contingencies that cannot be foreseen. Past savings take care of such contingencies.

The easiest way to save is to buy U.S. Savings Bonds. Why not sign up for payroll deductions and peace of mind now?

Alan C. Curtiss
Vice President

Three Scovillites Retire

CHARLES CLEMENTE, Dip Room, was retired with benefits to start as of May 1, 1956.

Mr. Clemente came to Scovill in October, 1908, but due to periods out of the plant his continuous service record begins in July, 1911. Except for a short period in the Fuse Dept., he has always been a dipper in the Dip Room.

VICTOR GICAVICIUS, North Mill Rolls, was retired with benefits to start as of May 1, 1956.

Mr. Gicavicius was hired in March, 1927, and has a continuous service record since September, 1928. He has been a crane trailer operator in the North Mill Rolls since December, 1949, prior to which he served in the East Mill.

WILLIAM P. FERGUSON, Rod Fabricating Div. Production Manager, was retired from active service as of May 1, 1956, with over 38 years of continuous service.

Starting in the Waterbury Division, he served, in turn, as a purveyor in the Fuse Dept., in charge of the Production Office for vacuum cleaners and carpet washers, and head of Class 32. In 1926 he was moved to Waterville Div. as head of the Production Office, becoming Asst. Superintendent shortly after and, in 1934, Plant Supt.

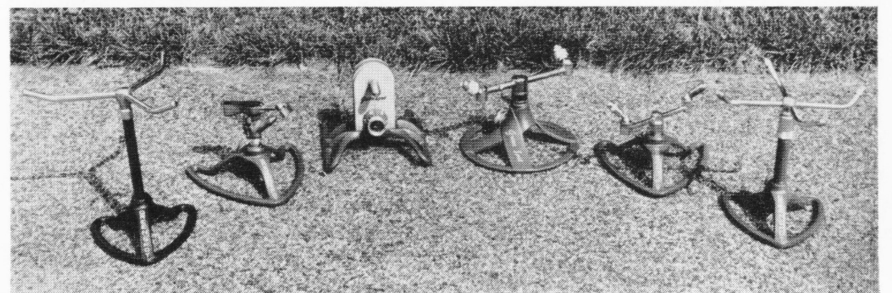

In 1939, Mr. Ferguson came back to Waterbury Div., as Classification Head of Screw Production. He became Asst. Production Manager in 1943 and, in 1947, Production Manager.

A. P. Hickcox Talks To Retired Folks

Prior to speaking to the Retired Folks Club, Vice President and General Manager A. P. Hickcox (left) welcomes James Hamilton, one of the members. Approximately 80 members were present for this April meeting at Doolittle Hall. The next meeting will be held on Wednesday, May 9, at Doolittle Hall. The special event planned for the afternoon will be demonstrations of the tools and materials used in the various exhibits of the Connecticut Craftsmen Show.

Allan Bunce In Film On GREEN SPOT Line

In the film, "Water Magic" Allan Bunce compares the difficulties of watering a lawn with watering can and hose (top photo) with the safe and sure method of using GREEN SPOT products, including (lower photo) the 3-arm, "Waterbob", "Waterite", "Twin-Dial", 2-arm adjustable and 4-arm sprinklers.

With its recent debut on television, our line of GREEN SPOT Garden Hose accessories is being seen and read about by hundreds of thousands of consumers.

Allan Bunce, star of TV's "Ethel and Albert" series, demonstrates the use of various GREEN SPOT sprinklers and accessories in a new 16mm color film, "Water Magic". It runs approximately 12 minutes.

The film depicts a home owner getting set to water his lawn. With watering can and hose, he runs into several difficulties. Then he switches to the appropriate GREEN SPOT products and is free to sit under a shady tree, relaxed and confident his lawn is being watered properly.

With that certain Allan Bunce touch in handling situations, the film is kept humorous as well as educational. It has been used by community, garden club and P.T.A. groups and, already, has been shown over 200 TV stations.

It is available to any such groups interested in showing the film. More details are available at the Employee Activities Office (Ext. 834) in a pamphlet called "Water Magic".

Clean-Up - Clean-Out

The week of May 6-12 has been designated as "Clean-up, Paint-up, Fix-up Week" in Waterbury. All residents are asked to help make the community a cleaner, safer and more attractive place in which to live by participating actively in the campaign.

The old saying "A place for everything and everything in its place" is not the best slogan for Clean-up Week. It may be all right for a can of sardines or grandma's attic trunk but not for the factory or modern home with closet-size rooms.

"A place free of unnecessary things and everything in its place" will get better results. There aren't many places left where a fellow can shove the stuff, or even pile it, when someone says "clean-up"—so, something has to go.

In the factory, unnecessary things go to storage or salvage. They must go for space is more valuable. Space prevents accidents, speeds travel, makes locations more accessible and just plain makes a place more pleasant to be in.

You, too, play an important part in the clean-up campaign. It's watching the simple little things — so small in themselves, yet so important in maintaining a safe and healthy place to work . . . putting materials in their proper places; returning lunch-time milk and coke bottles to their proper places. Neglected, the remains breed germs and prove a starting point for disease. Broken, the bottles are daggers in disguise. "Butts" in the wrong containers can start fires. Blocked exits, extinguishers or stretchers can be dangerous in times of emergencies.

Clean-up is an everyday job, all year around — your health, safety and livelihood depend on it.

Clean-up, Paint-up, Fix-up Time

Joseph Scarpati, Mfg. Trucking, is doing his part for clean-up week by stenciling a few of the hundreds of barrels which are placed around the plant for special disposal of rubbish. Every location in the plant is well supplied with these containers and it is up to everyone to do his part by making use of them.

Enough rubbish is collected every week to require dozens of men working full time to dispose of it. Having enough of these barrels on hand and someone to take care of them is

only half the job, the rest is up to you. It is everyone's duty to throw rubbish in the correct barrels; not on the floor or in containers intended for other things such as scrap metal.

Itchy Feet?

By Robert W. Butler, M. D.

We don't mean the kind which make you want to be somewhere you're not—we mean the kind which literally itch and perhaps burn, too. You can get 'em anytime, but hot weather is the real season; so here are a few tips:

Many people are affected with itching, cracking or blisters on the feet, especially between the toes. This condition is often a ringworm infection or epidermophytosis, as it is called, and is caused by a vegetable parasite which grows in the skin. It is a very common infection and at least 60 per cent of all persons have it at some time. It is particularly objectionable in diabetics, because it itches, and scratching may give opportunity for other more dangerous infections to get started. The disease is usually picked up by walking barefoot on the floors of common shower baths, dressing and locker rooms, infected bath mats, or any floor or floor covering where others have walked in their bare feet.

The disease most commonly shows itself as a slight cracking or scaling of the skin, giving the appearance of dead, white skin between the fourth and fifth toes. The so-called soft corn is one form of this infection. In more severe cases, groups of small deep blisters come on the soles of the feet and the palms of the hands. This form usually itches intensely. Most cases are worse during hot weather or when wearing shoes or stockings which heat the feet.

If you have the disease, or if you would prevent catching it:

1. Wash the feet daily with soap and water.
2. Dry the feet with a paper towel or with a towel which will not be used on the rest of the body.
3. Stand on a clean bath mat, a newspaper or paper towel when you get out of the bath.
4. Never walk on any floor barefoot.

5. Do not wear wool stockings next to the skin—wear thin socks inside that can be boiled.

6. Do not wear shoes which heat the feet.

7. Use dusting powder on your feet, in your shoes and in your bath slippers.

8. Wash your hands after touching your feet.

9. Don't scratch if your feet itch—put on some ointment.

10. If your feet get worse in spite of your treatment, consult your doctor about it. He is the man who can get you straightened out, but see him while you still have some skin left!

Scovill Golfers Tuesday Nite Golf League

It was decided to change the name of the Tuesday Inter-Dept. Golf League to the Tuesday Nite Golf League. Matches will be played at the East Mountain Golf Course on Tuesdays, at 5 p.m. beginning May 8.

SERA Inter-Dept. Golf League

The Thursday Inter-Dept. Golf League have changed their name to the SERA Inter-Dept. Golf League. These 12 two-man teams began their season at 4 p.m. on Thursday, May 3, at East Mountain.

Thursday Nite Golf League

This league, formerly known as the Friday Nite Golf League, have changed their day of play and name to Thursday. These matches began on Thursday, May 3, at 5 p.m. at the East Mountain Golf Course.

Engineering Golf League

The Engineering Golf League has ten two-man teams. Their matches will be played on Mondays, at 5:30 p.m. at East Mountain. The first game was scheduled to begin Monday, May 7.

Choral Society To Be Organized

A group of employees met on Tuesday, April 24, to discuss the possibility of organizing a Choral Society.

All employees interested in such an activity are invited to contact the Employee Activities Office, Ext. 834. Employee response will determine the scope of the project. It is hoped to get the group organized by fall.

Those attending the meeting included: Ann Evans, Les Coley, Jr., Ernest McCorkle, Allan Steel (all of Engineering); Tony Minicucci, North Mill; William Carew, General Stores; Jack Kennedy, West Machine Room.

Bill Ferguson Feted On Retirement

This smiling group of men represented the many friends and co-workers of William Ferguson (Production Manager, Rod Fabricating Div.) when Vice President H. W. Wild formally presented the beautiful television set to him in honor of his retirement. They are: Raymond Murphy, Willis H. Machin, Norman J. Schaffer, Mr. Ferguson, Mr. Wild, William F. Sutton and Paul H. Wislocki.

Bowling Sweepstakes

The 12th Annual SERA Bowling Sweepstakes attracted 191 kegglers from the Waterbury, Waterville and Oakville Divisions who took their shot at a share of the \$209.00 in prize money.

The winners were: Class A, high three—Tony Martino, 2nd high three—Don MacIntosh, high single—Ralph Cary; Class B, high three—Roland Parizo, 2nd high three—Joe Burke, high single—Armand Fisher and Anthony Crispino. Class C, high three—Mabel Korbusieski, 2nd high three—Ward Hobbie, Jr., high single—Anthony Laudate; Class D, high three—Bertha Paoloni, 2nd high three—Nancy Jones, high single—John Perugini.

Special prizes for girls only: Class C, high three—Jean Ostroski, high single—Hazel Didsbury, high game without a mark—Anita Ricciardi; Class D, high three—Ann Beaudetti, high single—Shirley Schierer, high game without a mark—Mary Ferretti.

"Scoops" From Zippers

By Louise Foell

Welcome back to Bea Weidinger, Slide Fastener Stores, who has been on a leave of absence due to illness.

Ann Napiello, Assembling, and her husband decided to vacation early. They picked Florida and had a wonderful time.

Arcar Aybar, Wire Form, is the proud papa of a brand new baby named Daniel who was born on April 10.

Marion Purvis, Finishing, recently attended a very nice wedding in Avon, Conn. when Henry Holihan, Jr. and Grace Proue were married.

Gladys Roche, Wire Form, is attending driving school to learn how to drive properly. Smart girl, Gladys.

Earl Murgatrov, Chain Machines, and Mary Barbieri were united in marriage on April 27. Best of luck and happiness to both of you.

GREEN SPOT Film

(Continued from Page 1, Col. 3)

GREEN SPOT products also recently "appeared live" on television. As a guest of Joe Francis on "Good Morning From Connecticut", Jim Bayard (Advertising Dept.) appeared on the April 16th telecast over WNHC-TV, Channel 8.

Jim explained the use of various GREEN SPOT products and, with illustrated charts, gave some very interesting pointers in the proper watering of lawns and gardens.

Recent Visitors To The Plant

Recent visitors to the plant included (top photo) a group of Connecticut State Technical Vocational School Directors who held their monthly meeting in the Training Conference Room, prior to which they toured the new Employee Relations Building, General Training Room, Metals Research and the Mills Div.

The second group (bottom photo) consisted of 63 engineers who attended the New England Regional Conference of the American Institute of Mining, Metallurgical and Petroleum Engineers, Institute of Metals Div. They toured Metals Research and the Mills Division where they followed every step in the production of brass mill products from melting of alloys to final packaging.

Girls' Club News

By Teresa Ryan

The annual meeting of the Girls' Club was held on Monday, April 16th. The annual report on activities was given by Agnes Toune and the financial statement was read by Margaret Snouden.

The council elected for the year is: President Clothilde Read; Vice President Teresa Ryan, Secretary Betty Doyle; Treasurer Margaret Snouden; Catherine McCormack, who will handle membership; Patricia O'Mahoney, in charge of recreation; Agnes Toune, Betty Colbassani, Ann Romano, Edith Carolan, Mary Jarosz, Victoria Daniels, Evelyn Smoil, Marie Martineau and representing the Waterville Div. are Hazel Didsbury and Mary Winton.

Loretta Clark, Mary Winton and Hazel Didsbury, all of Waterville, motored to New York last Sunday to visit former member Agnes Cleveland, who is very ill.

Ann Napiello, Slide Fastener, has returned from her Florida vacation brown as a berry and full of vim and vigor.

Belated birthday greetings to Evelyn Smoil and Agnes Toune.

Congratulations to Mary Sequenzia, Lipstick, on receiving her ten year pin.

Ann O'Shea, Lipstick, will sail to Ireland in the near future.

We wish to welcome the following new members: Margaret Massicotte, Sadie Brenner, Josephine Martins, all of Lipstick, Beatrice Burnham and Anita Barrieau both of Electric Shell.

Ten-Year Service Awards

April 18—Anna S. O'Shea, Lipstick; April 21—Giovanna M. Nanni, Press II; Donald H. Wood, Gripper Eyelet Tool; Pete J. Yanavich, Casting; April 22—James N. Hathaway, Mdse. Sales; George R. O'Meara, Cost Office; Samuel T. Tropasso, Pipe Shop; April 24—Oscar Pierce, Waterville; April 25—Peter J. Michielli, Waterville; April 26—Mary K. Byrne, A.S. M.D.; Victoria B. Jones, Press I; April 29—Vincenza C. Bonvissuto, Lacquer; Samuel F. Danzneri, Waterville; April 30—John J. Dempsey, Millwrights; John Mongillo, Waterville.

May 3—Julian Laczenski, Gripper Eyelet; May 6—Rosario P. Fappiano, Waterville; Philip B. Jensen, B & F Sales; Anna R. Romano, Slide Fast. Assembly; Steven Zainc, Waterville; May 7—Olive O. Abrens, Waterville; James P. Donabue, Mill. & Grind.

New Assignments

Rod Fabricating Div.

(Continued from Page 1, Column 4)
Service; #81, Chucking; #82, Fuze; #83, Single Spindle Screw Machine; #84, Screw Packing; #85, Cleaning; #88 Multiple Spindle Screw Machine; #89 Hot Forge; #371, Hot Forge Tool and #378, Screw Machine Tool.

Announced by Mr. W. H. Machin, Manager, Rod Fabricating Div.:

Effective April 16, 1956, Foreman Anthony G. Sandulli is responsible for the Saw, Clip, Dip, Final Inspection and Packing operations in the Hot Forge Dept. #89, reporting to General Foreman F. R. Boucher.

Effective April 16, 1956, Roger J. LaFrance has been appointed Assistant Foreman of Hot Forge Press operations in Hot Forge, Dept. #89, reporting to General Foreman F. R. Boucher.

Mills Division

Announced by Mr. J. J. Hoben, Works Manager, Mills Div.:

Effective April 16, 1956, John J. Buckley has been appointed Assistant Foreman, 2nd shift, Wire Mill, reporting to Gen. Foreman G. W. Shove.

Effective April 23, 1956, Carl Glander has been appointed an Assistant to the Superintendent of the Tube Mill, reporting to Supt. P. F. Moran.

Effective April 23, 1956, Charles Summa has been appointed Foreman of the Schloemann and Hydropress Extrusion Div., Tube Mill, reporting to Supt. P. F. Moran.

Exhibit Of Art Work

Interested in the art of weaving, stenciling, enameling, jewelry, ceramics, pottery, fabric printing, woodwork or tole ware?

If so, you'll want to take advantage of the opportunity to see finished products of these various crafts at Doolittle Hall, Monday thru Friday.

The Society of Connecticut Craftsmen, in cooperation with the SERA, is presenting its spring exhibition and demonstrations at Doolittle Hall this week. Demonstrations on the use of tools and material will be held on Wednesday, 1-5 p.m. and 7-9 p.m.

If you have been engaged in craft work and would like to display articles you have made, contact the Employee Activities Office, Ext. 834.

The exhibition and demonstrations are free and all are welcome.

Waterville Div. Exceeds Blood Quota

Above are scenes taken at the bloodmobile which visited the Waterville Div. on Friday, April 13. The Waterville Div. employees did themselves proud by exceeding the quota of 55 pints by donating a total of 80—25 over the quota. This is the second time that this division has exceeded its quota this year. Chairman Bob Dunn and his committee thank all the donors for a job well done.

Lost And Found

Lost—A pair of horn rimmed glasses, not in a case, somewhere in the area of the Main Office. If found please forward to Peter Young, New York Office.

Found—Heavy silver leaf design bracelet near the Mill St. Gate. A pair of safety glasses in the company car. Call ext. 345.

Other

Cellars cleaned and general moving done. Call 5-5654.

Used lumber for kindling wood, no cost, just haul it away. Call 3-8588.

Two Succumb

LUCY KELLY, Teletype, died on April 16, 1956.

Mrs. Kelly was first hired in October, 1927, and had a continuous service record since July, 1928. She served in various departments until June, 1941, when she became a teletype operator. Mrs. Kelly held the position of Chief TWX Operator when she was forced to leave due to illness last July.

JOSEPH T. FORD, General Training Room, died on April 26, 1956.

Mr. Ford came to Scovill in October, 1916, but due to periods out of the plant his continuous service record began in March, 1942. He served in various departments until October, 1945, when he went to the Machine Tool Section of the General Training Room as a lathe operator. He was forced to leave due to illness in December, 1947.

Fishing Notes

Though the weather was almost impossible, Scovill anglers arrived in droves at Woodtick on opening day, and have kept on coming ever since. Fifteen boats have been in daily use and the catches have been satisfactory.

Jack Nagrabski, of the Wire Mill, caught a 21" brown trout and Bob Fumire, beside his limit on trout, measured in two nice pickerel, 21 1/2" long.

The Palano brothers as well as John Stawski, Casting, hit their trout limit.

Waterville fishermen also made good catches at Woodtick, with brother Pelletier outstanding in pickerel.

All in all, regardless of bad weather, Woodtick has given some excellent sport to our anglers already, indicative of the fine work done by the restocking committee. The anglers can show their appreciation by being sportsmen at all times by taking good care of the equipment and by seeing that others do likewise.

Flash: John Stawski hooked the largest brown trout ever caught at Woodtick—26 1/2" long, better than 10 lbs. in weight. Try and beat it!

Woodtick Gardens

Scovillites who are interested in obtaining a plot for gardening at Woodtick this year are asked to get in touch with the Employee Activities Office. Employees who have had gardens previously will have first choice, the rest of the plots will be distributed on a first-come, first-served basis.

These plots will be plowed and the gardening can begin as soon as the weather permits. As a protection against trespassers, be sure to have the garden in the name of the person who will be working it.
