20 Years With American Airlines

Vice President and General Manager A. P. Hickcox accepts certificate of recognition from American Airlines District Sales Manager R. G. Terry on the 20th anniversary of the air lines' Credit Card Program. Scovill is one of eight companies in this area to receive the "20-Year Subscriber to the Plan" award. At the right is C. A. Tucker, Sales Representative of the American Airlines.

New Assignments

General Mfg. Division

Announced by Mr. A. P. Hickcox, General Manager, Waterbury Divs.:

Vice President H. W. Wild has been appointed Manager of the Gen. Mfg. Div., effective May 14, 1956. He is assigned line responsibility for sales and production of this division. He will report to the General Manager.

Mr. Wild will have administrative responsibility for the following Sales Offices:—New York, Detroit, San Francisco, Chicago, Waterbury Mfg., Sales Manager's Ofc., Contract Mfg., Drug and Cosmetic, Merchandise, Government and Automatic Valve; the Art Dept.; and sales direction of General Manufacturing personnel in other branch offices.

In addition, Mr. Wild will have administrative responsibility for the: Manager's Office, Tool Office, Process Engineers, Estimating, Products Development, Drafting, Ordnance Development, Mfg. Finishing Lab, Merchandise Production Office, Contract Mfg. Production Office, Drug & Cosmetic Production Office, Mfg. Stores Records.

Also: Blanking, Drawing, Trim & Knurl, Press 1, Electric Shell, Shell Dept., Connector, Mfg. Eyelet, Press 2, Annealing, Buff Rooms 1, 2 and 3; Lacquer, Plating, Dip, Aluminum Finishing, Assembly, Fuse Assembly, Lipstick, Relay, Solder, Mfg. Packing.

Repair Dept., Inspectors, Mfg. General Expense, Mfg. Metal Stores, Mfg. Work in Process Stores, Mfg. Trucking, Mfg. Elevators.

Also the following Tool Depts.:—General Mfg. Toolroom, Milling & Grinding, Model Room, Hardening Room, Blanking and Drawing, Trim & Knurl, Press 1, Electric Shell, Tool Chrome Plating, Connector, Mfg. Eyelet, and Press 2.

Engineering Division

Chief Plant Engineer T. W. Colina has issued notice of the following appointments, effective May 7, 1956:

Frank S. Weiser has been relieved of his former responsibilities and will devote his entire time to a special assignment on experimental and development work.

Gordon E. Signor has been assigned the responsibility of engineering work in connection with annealing and cleaning equipment in the Waterbury Divisions. He will report to Chief Engineer Emory K. Rogers.

Douglas M. Estelle has been appointed combustion control engineer responsible for maintenance and construction of annealing equipment in the Waterbury Divisions, and will assist Mr. Signor in engineering problems as required. He will report to Mr. Signor.

Ford Exhibition Vacation Treat

Scovillites who will be travelling through Michigan on vacation this summer will want to visit the Ford Company's exhibit of industrial contributions to the motoring nation.

The exhibit, "Partners in Production," will be held at the Ford Rotunda (the showplace of the auto industry) in Dearborn, Mich. from May 9 through Sept. 3, 1956. It is a tribute by the Ford Company to the thousands of suppliers of items purchased by Ford to create their family of fine cars.

Fifty-two suppliers will present individual exhibits displaying their products. Scovill is one of the thousands of suppliers whose names will be listed on a central display.

Scovill has made a variety of parts for the Ford Company during the years (Continued on Page 2, Column 1)

Memorial Day Shutdown Waterbury, Waterville Divs.

Memorial Day will be observed on Wednesday, May 30, 1956.

Except in cases where individual employees or departments are notified to the contrary, the plants will be closed at the end of the workday on Tuesday, May 29, and reopen with the start of the first shift on Thursday, May 31.

Woodtick Opens May 30

Woodtick will officially open on Memorial Day, Wednesday, May 30.

Passes have been sent to all employees together with application blanks for passes for members of their families. The blanks should be returned to the Employees Activities Office as soon as possible and the passes obtained in order to avoid confusion.

With the increase of the rate of amusement tax, it has become necessary to add a tax of \$.05 to the \$.25 admission fee for a total of \$.30. Admission for children will be increased also.

East Plant "B" Day May 25, 1956

A quota of 135 pints of blood has been set for the May 25th visit of the Mobile Unit to Scovill. It will be set up in Doolittle Hall from 1:30 to 5:00 p.m. to receive donations from East Plant employees.

Tony Jacovich, Hot Forge, was named Chairman of this drive at a meeting of department representatives held on Thursday, May 17. The committee was confident the quota will be reached.

Departments scheduled to give at this time include: Bldg. 112 Service and Cleaning, Slide Fastener and Tool, A.S.M.D. and Tool, Chucking and Tool, Pipe Shop, Paint Shop, Transportation, Yard Dept., Box Shop, #307 Electrical, Wire Mill, Hot Forge and Tool, Shell, and various offices.

Employees whose departments are not listed in Section #1, as well as family members and friends, are invited to give at this time also. Call the Employee Activities Office, Ext. 834, to sign up.

High Costs

When, for any reason, our boss stops buying, it results in less work for us. Our boss is, of course, our collective customers.

Perhaps our boss has overproduced, or perhaps he hesitates to buy because the copper market has shown weakness in price. Whatever the reason, it has the same effect on us. Fewer jobs, or shorter hours.

With costs that have climbed steadily because of wage increase after wage increase, we can expect our boss to be more sensitive about buying. He doesn't want to accumulate excessive high priced inventory.

High wages require careful attention from us all to reduce every type of waste — so costs will not pyramid.

Alan C. Curtis
Vice President

Two 40-Year Awards Presented

Two Scovillites recently received awards for 40 years of continuous service. Top photo:—Tommaso Lepore, Mfg. Packing, received his award from President W. M. Goss. Looking on are Foreman Charles A. Pulford, General Foreman Leon H. Maysbaw and Stampings Div. Factory Supt. George L. Chase. Bottom photo:—David F. Giannini, Press II, also received his award from Mr. Goss. On hand for the occasion were: Foreman Frank E. Shanaban (extreme left), General Foreman Harry Dunn and Stampings Div. Factory Supt. Chase.

Final Standing Of Scovill Bowling Leagues

Girls' Inter-Dept. League

	Won	Lost
Press #2	98	22
Closing	80	40
Slide Fast. Scoops	75	45

Team high three — Slide Fastener Scoops—1389; high single—Press #2—489. Individual high average — Claire Mancini—96.39; high three—Nancy Jones—331; high single—Angeline Osowski—136.

SERA Men's Handicap League

	Won	Lost
Strip Mill	94	46
Slide Fastener	82	58
X-Rod	76	64

Team high three—Slide Fastener—1675; high single, tied—X-Rod and A.S.M.D.—551. Individual high average—Ed Reed—109.36; high three—Art Woods—396; high single—David Angell—152.

Cost Office League

	Won	Lost
Drafting	70	50
A.S.M.D.—	67	53
Cost #1—	67	53
Cost #2—	63	58
Cost #3—	63	58

Team high three—1288 and high single—475—A.S.M.D.; Men's individual high three—Don MacIntosh—395; high single—Len McLroy—162. Women's individual high three—333 and high single—139—Peggy Sanchi.

Hot Forge League

	Won	Lost
S. Jacovich	30	15
C. Brown	28	17
T. Ryan	22	23

Team high three — 149 and high single—540—S. Jacovich. Men's individual high three—Gus Fabiani—369; high single—Stanley Jacovich—156. Women's individual high three—339 and high single—121—Pearl Hills.

Ford Exhibition

(Continued from Page 1, Column 2) and, today, supplies all the dial faces for the dash board of the 1956 cars together with other small parts for the dash board and the transmission; filler necks for the top of the radiator and drain cocks for the bottom of the radiator. Waterville Div. employees turn out various screw machine parts for the carburetor.

Retired Folks Visit Craftsmen Show

The members of the Retired Folks' Club who attended the May 9th meeting were particularly pleased with the special event of the afternoon. They enjoyed the Connecticut Craftsmen's show at Doolittle Hall where they were given demonstrations (top photo) of the tools and materials used in the various exhibits. Bottom photo:—These women are especially interested in the art of rug making.

C'MON, LET'S HURRY TO WOODTICK!

Facts And Fables

By Robert W. Butler, M. D.

Ever feel you were eating your meals in a goldfish bowl? No? Well, if you haven't but would like to try, there are two ways you can do it: Get a table at a sidewalk cafe and push aside the potted palms that screen you from passersby, or start preaching to your relatives and friends on the evils of blubber!

The sidewalk cafe deal isn't very practical in this neck of the woods, but the other method is absolutely guaranteed. Just preach a bit, and you'll soon have one or more of your victims leering at your plate every time you sit down to eat—to see how you're doing. And, you know, that just might not be too bad!

We were reminded the other day that we hadn't beaten the drum on this most important overweight problem for quite some time when we saw one of our better calorie-conscious converts eating in a local restaurant. He was making pretty good time with a luscious-looking dessert; and he stopped by on his way out to say he'd had nothing but asparagus before it. That was pleasant but unnecessary information, because he'd been in the goldfish bowl for a half hour and didn't know it.

Perhaps we're his second conscience—we'd like to be yours too (if you need it)—it's so almighty important to your future well-being!

There are a few facts and fables about this overweight business that are worth your very serious consideration if you're one of the 20-25% of the people in this country whose overweight is a menace to their health. Quite a figure, isn't it? One out of every four or five of us looking for trouble!

Let's have the facts:

First and foremost, all overweight comes from overeating. You take in more calories than you expend in energy, and your girdle runneth over!

Second, the older you get the easier it is to put it on, and the harder it is to get it off. Also, the longer it's on, the harder it is to get it off. So if you can't stay young, watch the calories closer; and if you're too big in the wrong places already, take some weight off *now*—it will be harder to do later.

Third, overweight may or may not cause (but certainly is closely associated with) high blood pressure, diabetes, hardening of the arteries (including the coronaries), gallbladder disease, and several others—none of which you want, and all of which are likely to come on slowly without your knowing about it.

Let's also have a few fables. These have all been produced by the excuse-makers and they're strictly 99-44/100% fiction:

1. That overweight is inherited. There may be family tendencies to it, but it's not inherited; so quit blaming your ancestors and control the "tendency" by pushing yourself away from the table.

2. That it's the result of poorly functioning "glands". On that score you just might be right if you're one of the 1/2 of 1% of the people of whom it is true. But don't use it as an excuse until you've had the tests that prove it, because the odds are 99 1/2 to 1/2 that you're wrong.

3. That you can take it off by exercise alone. Not by any means—unless it's an every-day-of-your-life proposition, and then you must be careful not to indulge the increased appetite which the exercise produces. It's a fine thing, but don't expect it to do *that* job.

So what do you do? You quit snitching, tasting and nibbling, and you quit eating between meals. You eat a little less of everything at meals, (and 21 times a week, too) and you

Inter-Dept. Softball

The 1956 SERA Inter-Department Softball League consisting of eleven teams started its season on Monday, May 14.

At a meeting of the team captains, held on April 30, it was decided to have two rounds with the winners of the first round playing the winners of the second round to decide the champions. Individual awards will be given to members of the winning team and a banquet will be held in their honor.

The schedule for Monday, May 28, is: Gripper Eyelet vs. Strip Mill—Brass Mill #1; Drafting vs. West Tool—Brass Mills #2; S.W.E.R.A. vs. A.S.M. Tool—Brass Mills #3; Casting vs. West Machine—Woodtick; and Lipstick vs. North Mill—City Mills.

Last Cabaret Dance Until Next Fall

The last Cabaret Dance of the season will be held on Saturday, May 26, at Doolittle Hall. Music will be provided by Francis Delfino's Orchestra and dancing will be from 9 to 1.

Tickets will be sold on a first-come, first served basis.

The committee consists of Chairman John Mitchell, Betty Affeldt, William Armour, John Capone, John Carey, Victoria Daniels, Vin Manzolli, Ruth Peterson, Cloe Read, Evelyn Smoil, Margaret Snowden and Agnes Towne.

Facts And Fables

(Continued from Page 2, Col. 4)

pay no attention to these "miracle" diets. If you don't take it off, you see your doctor and he'll tell you how to do it—safely. And, brothers and sisters, you'd better do it or you'll be sorry, and too late!

Dr. Goldsmith of Tulane University has come up with some interesting information: If a person eats only 100 more calories a day than he uses up in energy, his net gain by the end of the year will be 10 pounds.

Here is the calorie value of some typical "snacks":

	Calories
Coffee (1 cup with 2 tbs. cream, 2 tsp. sugar)	90
Soft drinks (6 oz. glass)	80
Martini cocktail (average)	160
Scotch, bourbon, rye (1 oz.)	80
Peanuts (10)	60
Chocolate ice cream (2/3 cup)	230
Chocolate bar with nuts	275
Layer cake with icing (average serving)	345

Who said you can't eat your cake and have it too? Of course you can—right around your middle!

Suggestion Improves Method, Wins Award

Arthur Boucher, Shipping and Receiving, demonstrates his award winning suggestion by adjusting a jig onto a small battery driven transporter which will enable it to accept the tongue of a freight wagon or other such apparatus.

There is always room for improvement — in whatever we may be doing. On the job, sometimes a simple little change will work wonders in getting the job done easier and safer; and might even merit a cash award.

The Industrial Improvement Committee meets once a month to study ideas suggested by employees and to issue cash awards for ideas which help reduce costs, improve operating methods, increase production or eliminate safety and health hazards.

Among the recent awards was one given to Arthur (Frenchy) Boucher of Shipping and Receiving. It concerned the method of hauling wagons, gondolas, etc. between departments.

In the Shipping and Receiving Room, various types of material have to be moved around or delivered. Some materials, such as steel, have to be loaded

on freight wagons, gondolas or other vehicles for delivery. The only way that these vehicles can be moved is by hooking them to a large size transporter (or as it is commonly known within the plant, a jitney).

Frenchy felt that the large transporter with a wagon attached to it was just too bulky and too long to fit into an elevator. The wagon had to be disconnected and either two trips were required or another jitney had to be available on the next floor to reattach the wagon for delivery.

In this department small battery driven transporters are also used, pri-

(Continued on Page 4, Col. 2)

Girls' Club News

By Teresa Ryan

The 35th Annual Girls' Club banquet was held on May 5, at 6 o'clock in the ballroom of the Hotel Elton. Approximately 325 happy, gay and prettily attired members and guests attended the affair, which is a highlight of the year.

The invocation and benediction were given by Reverend Paul Humphreys of the First Baptist Church.

Guests of honor were Mr. and Mrs. William Goss, Mr. and Mrs. Samuel Gaillard, Mr. and Mrs. Fred Wilson and Miss Elizabeth Kelly. Short talks were given by the Messrs Goss, Gaillard and Wilson.

Agnes Towne, retiring president, introduced the retired members in attendance, and the new officers and council members for the coming year.

We were especially delighted that Harriet Goodyear and Ella Patchen were able to be among the 31 retired members who attended. We missed Mrs. E. O. Goss and Carrie Boune who were unable to attend.

We wish to thank Mrs. E. O. Goss and Mrs. William Goss for the beautiful vases of flowers which decorated the head table.

Beatrice Biondi, Slide Fastener, sailed to Italy on May 19. She intends to visit Rome, Venice, Naples and other points of interest.

Lucy Castagna, Slide Fastener, and Beatrice Burnham, Electric Shell, are both ill in the hospital. Hope you feel better soon.

Mr. and Mrs. Matteo (the former Elinor Rinaldi of the Waterville Div.) are the proud parents of a fine healthy baby boy, born on May 7.

Irene Bannett, Electric Shell, became a grandmother for the second time. Now she has two children to spoil, which is a grandmother's privilege, I understand.

We wish to express our sincerest sympathy to Barbara Gilroy on the recent loss of her grandmother.

Preparing Woodtick For Summer Activities

Every spring the Woodtick Recreation Area gets a face lifting in preparation for the summer. All facilities and equipment are checked and reconditioned to provide safe fun and relaxation for all Scovillites and their families.

While Terry Mackin (upper right) gives the bath house a new paint job, Anthony Crispino (Employee Activities) checks the markers that are put in the lake to prevent swimmers from going into unsafe water, adjusts a picnic grill, and checks the swings in the picnic area to be sure they are in good condition.

Time Well Spent — Sewing Classes

Top photo:—Smiling and proud of what they have accomplished since last fall are the girls who have been attending the SERA sewing classes instructed by Mrs. Eleanor Collins. Bottom photo:—Jean Weber and Rose Lacerenza display drapes, chair cover, etc. to show just a few of the items made by the girls. Highlighting their last meeting of the season was a demonstration given by the Singer Sewing Machine Co. of one of their newest model sewing machines.

Fishing Notes

Paging Ripley!

Believe it or not—This incident is vouched for and happened recently at Woodtick:

Ed Blade, of Closing, together with his friend Lin Dayton were boat fishing. Lin pulled in his line and suddenly felt a fish. He set the hook and reeled in. To his amazement, he found a 17" brown trout with a hook spinner fastened in his jaw and a piece of looped leader extending. In reeling in, his bare hook had caught the loop in the leader! Lin not only landed his trout, but received a new spinner as well!

What a heck of a way to catch a trout!

Waterville Foremen

At the monthly meeting of the Waterville Div. Foremen's Assoc., held on Tuesday, May 1, it was decided to have an outing this summer. Appointed in charge of the affair are General Chairman Leon French, Walter Keating, Ray Caffrey and John Baker.

The committee in charge of the June 5 meeting consists of Ray Kozen, Walter Knox and John MacKeller.

Following the meeting, a question and answer period on "behind the scenes of television and radio" was held under the able direction of Lou Davis, disc jockey for Waterbury's station WBRY.

Refreshments were served and the members ended the evening by playing a few hands of pinochle.

Improved Method

(Continued from Page 3, Col. 4)

marily to transport cargo which must first be piled on wooden pallets then placed on the tongues of the transporter for delivery. Frenchy decided that if one of the small transporters was fixed to pull these wagons they could fit into the elevator and the bulkiness of the large transporter would not be in the way.

With this idea in mind, Frenchy welded short channels and stop lugs to the side walls of the battery case on which he could connect a jig with openings to accept the tongue of a freight wagon or other such apparatus. In this way the transporter provides a dual hauling device and leaves a large transporter free for other jobs.

Frenchy's effort and ingenuity not only improved a method of transporting material, but it also provided him with some extra cash. If you have an idea, don't just think about it; send your suggestion to the Industrial Improvement Committee, it may be worth your while—ask Frenchy!

"Scoops" From Zippers

By Louise Foell

Joe Donahue, Slide Fastener Toolroom, is more than pleased with his new daughter-in-law who is from Long Beach, Calif.

Philomena LaRiviere and Louise Collette who took golf lessons from Hector LaRiviere, proved the pupils to be better than the teacher by beating him.

Welcome back to Dolores Barkauskas and Priscilla Bartolini who have returned from leaves of absence.

We all extend best wishes to Lucy Castagna who is absent because of illness. Get well quick, Lucy.

Eddie Pesino has returned from a cruise with the Naval Reserve.

Congratulations to Gino Giacobini who has completed ten years of continuous service at Scovill.

Welcome to Ronald Wright a new employee at Slide Fastener.

Sympathy to Tom Jones on the recent loss of his nephew.

Greetings to Iva Corcoran who celebrated her birthday by having dinner at the Yankee Drover.

Three Succumb

ROBERT START, Sanitation Dept., died on May 8, 1956.

Mr. Start had over 14 years of continuous service at Scovill. Since he came to Scovill in Jan., 1942, he had always served in the Sanitation Dept.

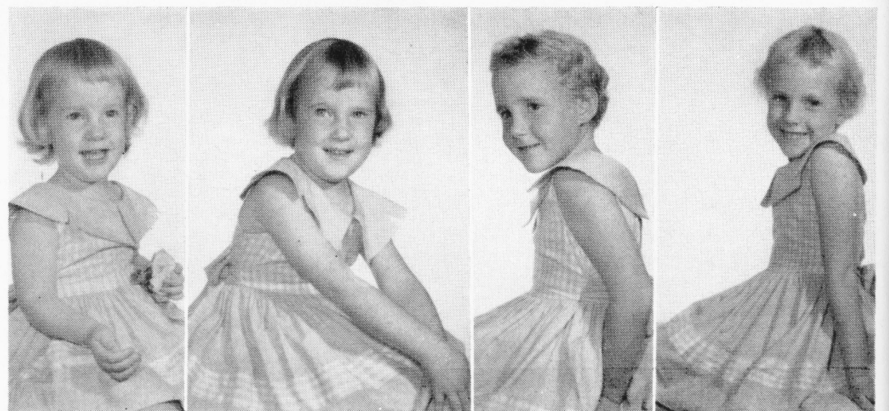

PATRICK J. FINNAN, Plant Protection, died on May 10, 1956.

Mr. Finnan first came to Scovill in November, 1917, and had a continuous service record since December, 1928. He served in various departments until August, 1933, when he went to Plant Protection as a guard.

WILLIAM H. ROSEVEAR, SR., Pipe Shop, died on May 14, 1956.

Mr. Rosevear, who had over 40 years of continuous service, first came to Scovill in June, 1915. He has always been in the Pipe Shop and was serving as a lead man construction steamfitter and plumber when he was forced to leave due to illness in April, 1956.

Four Beautiful Blond Sisters:

These four beauties are the daughters of Clifford Aspinall, Safety Dept., and nieces of John Leo Phelan, Telephone Dept., and Irene Stollar, Cont. Strip Mill. They are (left to right) Polly (2), Molly (5), Ellen (6) and Sally (8).
