Profit

A company cannot operate long if it does not make a profit. There may, of course, be periods of unprofitable operation. But so long as a company has costs which allow it to be competitive, it should yield a profit over the long period. Profit is necessary, as from profit come expansion of facilities and improved equipment. Also, from profit stockholders are paid for use of their money.

Repeated wage and salary increases increase costs and raise the break-even point. That is the point where the volume of business shows neither profit nor loss. As the break-even point rises, it becomes imperative to reduce the amount of labor in a job. This is done by means of better methods and improved design. In many cases it means training employees in entirely different jobs. It may mean eliminating certain lines of business, and getting into others. It may mean moving plant to locations closer to customers.

We must all do what we can to make our jobs yield a profit. If we don't, the jobs will disappear.

Alan C. Curtis
Vice President

Two Displays Begin The Fall Season

The first two displays to be shown by Scovill this fall will be seen at the Penn Sheldon Hotel in Pittsburgh, Pennsylvania, and at the Hotel Statler in Los Angeles, California.

The National Association of Oil Equipment Jobbers Trade Show and Convention will be held in Pennsylvania, September 23 to 25. Our contribution will be an attractive sign advertising hose couplings together with oil and water fuses made at Scovill.

The display which will be used in California will feature Scovill's high performance *PANELOC* aircraft fasteners. This show is being sponsored by the Society of Automotive Engineers, Aircraft Engineering.

Two Retire

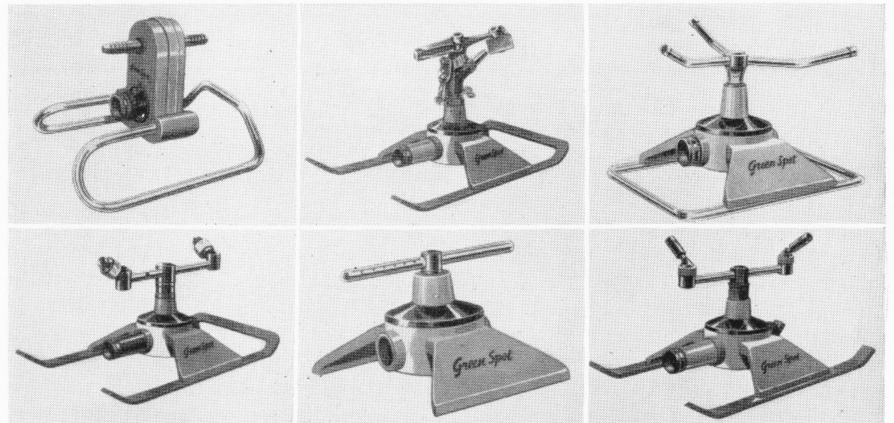

PATRICK J. O'CONNOR, Casting Shop, was retired as of Sept. 1, 1956.

Mr. O'Connor was first hired in October, 1916, but due to periods out of the plant his continuous service record began in January, 1928. During his career at Scovill, he served in various departments. Since 1927 he has been in the Casting Shop, where he was serving as a scaleman when illness forced him to leave last July.

MARY E. PARSONS, Packing B, was retired as of September 1, 1956.

Mrs. Parsons began her career at Scovill in May, 1923, and has a continuous service record since November of the same year. She began in Packing B, went to the Spring Motor Dept. and, on November 9, 1923, transferred back to Packing B, as an inspector. She was serving as a bench and machine inspector when retired.

Introducing The 1957 GREEN SPOT Line

The new GREEN SPOT sprinklers for 1957 are the smartest ever made. Top row, left to right:—Waterite (Oscillating), Waterbob (Impulse-Type), and the Three-Arm. Bottom row:—Twin-Dial Adjustable, the Two-Arm and the Two-Arm Adjustable.

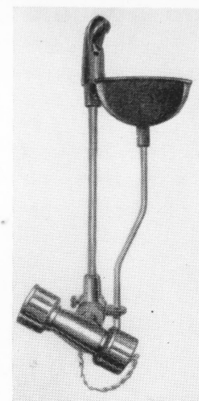

Our new GREEN SPOT line of sprinklers for 1957 has been given a completely new look — long and low with smart white bases, a cap on the base for storing extra washers, extension on the coupling nut to ease attaching of hose, tipped ends on the sled base for easy dragging, broad and low base to assure stability. These features make them unsurpassed in quality, performance and appeal.

The WATERITE OSCILLATING sprinkler has a dial which can be set for the size of the area to be watered and will not overwater at the ends of the sweep. All working parts are protected by compact die-cast aluminum body and all moving parts are corrosion-resistant. It has hydraulic type seals, a non-tip aluminum rod and sled-type base.

The WATERBOB impulse-type sprinkler has an even water coverage over desired areas from a slender wedge up

(Continued on Page 2, Column 1)

A brand new miscellaneous item has been added to the GREEN SPOT line.

It is a handy faucet bubbler to provide drinking water outdoors, eliminating necessity of children going in and out of the house for water.

It threads onto any outside faucet, and can be used simultaneously with the garden hose. There is a push button valve, hygienic guard and is of anti-squirt construction. It has a cast body, is chrome plated, and has a styrene bowl.

Annual meeting and election of Board of Directors of SERA will be held on Wednesday, Sept. 26, at 7:30 p.m. at the Scovill Girls' Clubhouse.

150 Units Set As Quota For September 21st Blood Day

Remo Gualducci, of the Closing Room, and Raymond A. Curtis, of the Milling & Grinding Department, were named co-chairmen of the Blood Bank Committee at a meeting held in the Employee Relations Conference Room.

Committee members pictured at the recent organizational meeting included: Co-chairmen Remo Gualducci and Raymond Curtis; Vincent Campoli and Stanley Blum of Mfg. Eyelet; Margaret Wilcken, Press #2; Edward Mannis, Jr., Buff #1; Ethel Wallace, Lacquer Room; Betty Colbassani and Helen Dubauskas of Lipstick.

The committee is made up of representatives of departments which make up West Plant, Section #4. This is the section of the plant scheduled to participate in the Sept. 21 visit of the Blood Mobile Unit to Doolittle Hall.

Charles A. Mott, Repair; Felix Panasci, Button Eyelet; Samuel Andolina, Aluminum Finish; Francis Minicucci, Gripper Eyelet; George Budzinski and Irving Leach, West Machine Room; Nicholas Ruffino, General Training #1; Thomas Dowling, Mfg. Tool #1; Wallace Bergstrom and Margaret E. Snowden, Milling &

Grinding; John A. Galgot, Press 2 Tool Room; Francis Miklinevich, Closing Tool.

Office representatives included Edward O'Donnell, Cost Office; Janice Lubinsky, Factory Accounting; Jeremiah Smith, Tabulating Dept.; Robert Bailey, Products Development.

New Assignments

Mills Division

Mr. John J. Hoben, Works Manager, Mills Division, has issued notice of the following appointments, effective Sept. 1, 1956:

James F. Shanahan — Superintendent of the Rod and Wire Mills, reporting to Works Manager J. J. Hoben.

Edward G. Brown — Assistant Superintendent of the Rod Mill, reporting to Superintendent J. F. Shanahan.

G. Willard Shove — Assistant Superintendent of the Wire Mill, reporting to Superintendent J. F. Shanahan.

Gen. Mfg. Division — Sales

Announced by Mr. W. H. Harris, Sales Manager, Drug & Cosmetic Div.:

Effective Sept. 10, 1956, Mr. Donald A. Seaver has been appointed Development Engineer and is responsible for products development in the drug and cosmetic division. He will report to the Sales Manager, Drug & Cosmetic Division.

1957 GREEN SPOT Line

(Continued from Page 1, Column 3)

to a full circle of 80 ft. across. It will work on very low water pressure. This sprinkler is available without the base for underground systems. It has a coupling nut extension, washer storage cap, forged brass head and body, cast base with rust-proof runners, nylon-graphite bearing surfaces, 1/2" iron pipe thread on the head and a 3/4" swivel garden hose nut.

The THREE-ARM sprinkler waters uniformly in a circle of 40 ft. across from three permanently set spray tips. It has a solid brass head and arms together with a cast base enameled white mounted on a rust-proof sled.

The TWIN - DIAL ADJUSTABLE sprinkler waters in circles from 10 ft. to 50 ft. across. The nozzles can be set for the size of circle desired with perfect water distribution on low or high pressure. It features a solid chrome-plated brass head which rotates on 22 stainless steel ball-bearings, a coupling nut extended for easy accessibility, special storage cap which contains extra washers, nylon-graphite bearing surfaces and a durable cast base with rust-proof runners.

The TWO-ARM sprinkler has two permanently set spray arms which water uniformly with rain-drop spray in a 35 ft. circle across and will function well even on very low pressure. Nylon bearing, arms and head of brass and cast base enameled white.

The TWO-ARM ADJUSTABLE sprinkler waters circles of 10 ft. to 50 ft. or odd-shaped areas with fine or coarse spray. The balanced arms spin smoothly on silent nylon-graphite bearings which guarantee longer life. The heavy brass nozzles can be locked at any angle, set for any type spray and the arms can be made stationary or rotary by adjusting the sliding sleeve. The arms and nozzles are of solid brass. The base is cast with rust-proof runners and it also has a coupling nut extension and washer storage cap.

Sewing Classes Resume

The third season of the highly creative and instructive sewing course resumes its classes tonight at the Scovill Girls' Clubhouse from 7 to 9 p.m. A second class will meet on Tuesday, September 18, at the same time.

Under the direction of Mrs. Eleanor Collins, an expert in her field, Scovill girls will have the opportunity to create with material.

The ten-week sewing course is sponsored by the S.E.R.A. Questions relative to registration may be directed to Employee Activities Office, ext. 834.

Join The Campaign — Prevent Falls

September 1st was the kick-off date for an intensive nationwide campaign to reduce accidental falls. The following statistics published by the National Safety Council and the U. S. Department of Labor, show why:—

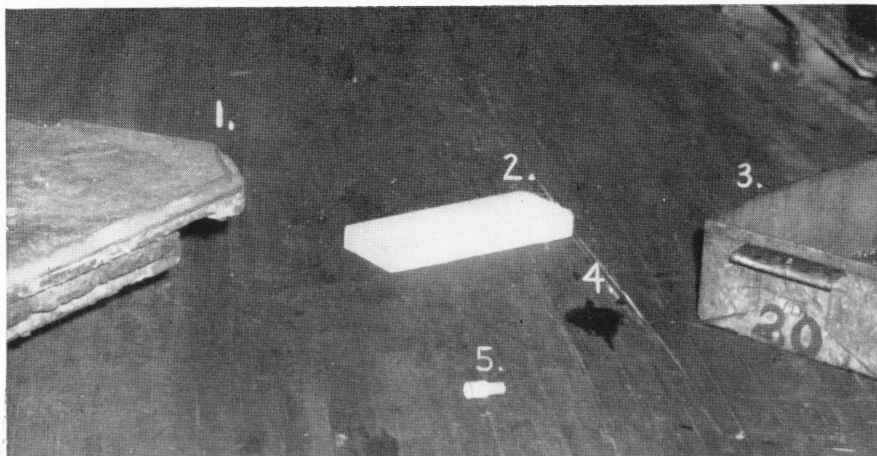

1. Falls account for more accidental deaths than any other cause, with the exception of traffic accidents.

2. In industry, falls rank just after "handling objects" as the greatest source of disabling work injuries.

3. The cost and suffering from falls are substantially more than for other accidents.

4. Falls now account for more than half the injuries to office workers.

Falls are almost entirely preventable. Good housekeeping (clear aisles, clean floors, good lighting) will eliminate many of the causes of falls. Personal alertness for hazards (oil spots on floors, defective ladders, slippery footing, obstructions on floors) will save many persons from injury.

Safety Department records show that most of the falls in the plant are caused by such hazards as pictured here:— (1) hand trucks, (2) pieces of wood such as separators, (3) work containers, (4) oil spots and (5) work pieces.

SURE.. BUT HAS HE GIVEN ANY BLOOD LATELY?

Ten-Year Awards

Sept. 5—*Matthew Wisniewski*, Gripper Eyelet; Sept. 6—*George D. Leyden*, Cutting Room; Sept. 7—*Patsy F. Capuano*, Cont. Strip Mill; Sept. 9—*Paul W. Belevetz*, Screw Mach. Tool; *Eugene E. Blanchette*, Waterville; *Henry F. Mastriano*, Ship & Receive.

Sept. 10—*Edith P. Tucker*, Waterville; Sept. 13—*Justin F. Casey*, Cost Office; *Francis Rinaldi*, Slide Fast. Stores; Sept. 17—*Hazel M. Kawczynski*, Waterville.

Fishing Notes

Carey Claims 15' Eel Catch

John Carey, popular Chief Inspector at Slide Fastener and outstanding proponent of more and better Quality Control, spent part of his vacation at Walnut Beach where he did some phenomenal fishing. He reports a fifteen foot eel catch!

Jack, whose veracity has seldom been questioned, swears his statement is true. "In fact," he said, "my catch was better than fifteen feet. I laid 'em out, nose to tail and the five of them measured well over fifteen feet."

He then began to talk about a three hundred pound shark captured in but three feet of water;—claimed he had pictures to prove it — but somehow "shark-talk" fell flat after his "eel-report".

Imagine, fifteen feet of slimy slithering eel. What a guy! Oh yes, he plays a similar game of golf too!!!

Heavy Registration For Reeves Competition

Looks like the boys will be hugging the bank again for the first leg of the competition as registration far outstrips boat seating capacity.

If we get a good break in the weather, we should have a record attendance and maybe even a record smashing contest.

Competition will be strong and the 1956 champion will have to really earn his title.

Lee Graham Hits "Bass" Jackpot!

Leland A. Graham, Strip Mill, set an all-time record for bass fishing at Woodtick, by taking three giant bass in one week weighing 6 1/4, 6 1/2, and 8 1/2 lbs., and measuring 22" and 25".

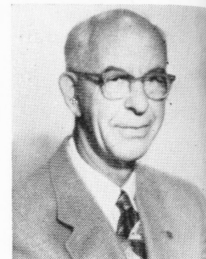

The 6 1/4 lbs. bass was caught during the first Reeve's Competition and easily took a first daily prize. *Graham* is a newcomer and certainly has the makings of a future champion.

Look to your laurels, boys!

Pinochle Tournament

The Scovill pinochle tournament will begin its 1956-1957 season on Thursday, October 4. The opening dinner will be served at 6:30 p. m. at the Scovill Girls' Clubhouse followed by the first game of the first round.

Scovillites interested in playing pinochle are asked to call Joe Brenneis, ext. 2155.

Promotional Campaign For 1957 Line Of GREEN SPOT Garden Hose Accessories

Selling the numerous different products made by Scovill employees can be a complex job. An important factor in getting our products before the consumer is advertising. This is done in various ways, all of which serve as valuable aids to our salesmen. Ads promoting our products appear in national magazines such as The Saturday Evening Post, Better Homes and Gardens, Life and Sunset (the magazine most popular on the West Coast). Magazines of various trades carry ads on our products in their particular fields.

Free television time is also used to promote our products. The color film "Water Magic" starring Alan Bunce, covered our GREEN SPOT line. It was made available to all TV stations and, to date, has had 268 bookings with an estimated audience of 32,500,000 viewers. Also available to clubs, community and other groups, it has had 1,190 bookings with an estimated audience of 89,000.

Meeting held at the Roger Smith-Elton Hotel in Waterbury, Conn. for salesmen and representatives of the New England and Mid-Atlantic territory.

Front row:—Advertising Manager G. K. Thornton; J. J. Donovan (Donovan Co.); J. North Hathaway, Assistant Sales Manager, Garden Hose Accessories; S. M. Main, Sales Manager; and A. P. Henricks, Sr. (A. P. Henricks Co.).

Back row:—O. H. Buck and O. H. Henricks (A. P. Henricks Co.); C. R. Johnson, Jr. (National Variety Chain Stores); S. P. Henricks, Jr., Melvin Lyon, P. H. Carter and F. S. Lee (A. P. Henricks Co.); G. I. MacMasters (Donovan Co.); Paul Rhodes (Chicago); W. J. Malvey (New York Office); J. H. Beatie (A. P. Henricks Co.); Paul DeFrehn (Donovan Co.); J. A. Bayard, an Assistant to the Advertising Manager.

The Donovan Company represents Scovill in the New England states territory; A. P. Henricks Company covers the Mid-Atlantic states territory.

Our sales force, however, is the main factor in the selling of our products. To do a good job, they must know all about the product they will handle and be enthusiastic enough about it to convince dealers, wholesalers and manufacturers that they would do best by buying our products.

To keep the sales force well informed on these items, meetings are held so that they can learn all about new items before going into the field to sell them. These meetings may be held at the main office in Waterbury, or they may be held in the various salesmen's headquarters.

One such "briefing" was held recently in connection with the introducing of the new 1957 GREEN SPOT line. Meetings were held in the various territories and the salesmen were given all information on the new products together with brochures, display cards and kits prepared by the Advertising Dept. to give them visual aid in introducing the new products to prospective customers. Below are pictures of the groups attending these meetings.

Meeting at Muehlebach Hotel, Kansas City, Missouri, for salesmen and representatives of the Central and North Mid-West and Ohio-Michigan areas.

1st row:—J. N. Hathaway; Robert Murphy and Rolly Johnson (Bert J. Clark Co.); Anthony Morrow of Design Research, Inc., the firm that designed the 1957 line of GREEN SPOT sprinklers and Vincent Velie (Velie Sales Co.).

2nd row:—Mr. Main; Bert J. Clark (Bert J. Clark Co.); W. W. Campbell (W. W. Campbell Co.); John Doozee (Bert J. Clark Co.); Paul Rhodes (Chicago); C. O. Lee (Bert J. Clark Co.) and Mr. Bayard.

The Central Mid-West states territory is covered by the Bert J. Clark Co.; the North Mid-West states by Velie Sales Co.; the Ohio and Michigan states territory is covered by the W. W. Campbell Co.

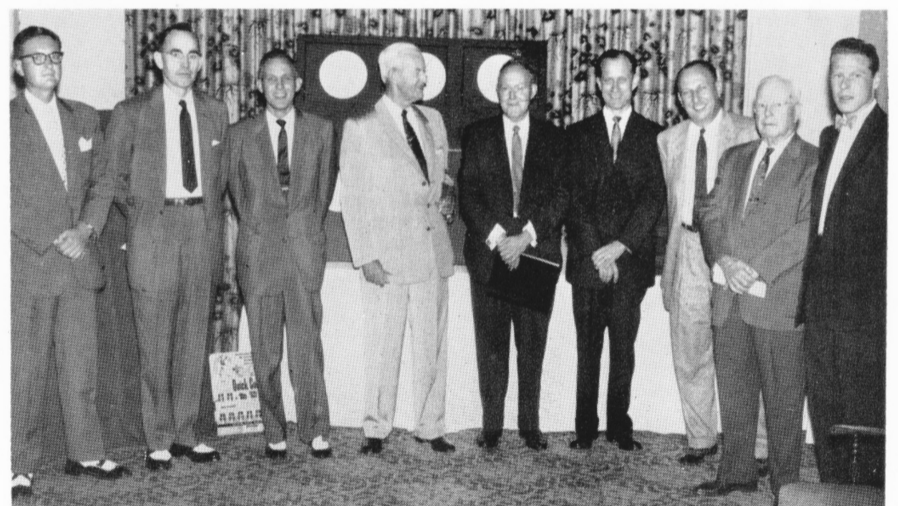

Meeting held at the Sir Francis Drake Hotel in San Francisco, Calif., for salesmen and representatives of the West Coast Territory.

Front row: J. A. Swindelle and K. M. Reid, Sales Manager (San Francisco Office); William A. Matzke (William A. Matzke Co.).

Back row: Charles Martin (San Francisco Office); Mr. Bayard; Mr. Hathaway; Robert Matzke (William A. Matzke Co.); H. Javitt (Los Angeles Office).

The William A. Matzke Co. represents Scovill in the Northwestern area; the Scovill Office in San Francisco covers Northern California and our Los Angeles Office covers the Southern California territory.

Meeting held at the Peabody Hotel, Memphis, Tennessee for salesmen and representatives of the Southeastern and South Mid-Western States.

G. M. Baird, Jr., I. W. Williams, W. I. Welker and G. M. Baird, Sr. (G. M. Baird & Co.); Mr. Main; Mr. Hathaway; Forrest Johnson and Frank Johnson (Frank and Forrest Johnson Co.) and Mr. Bayard.

G. M. Baird & Co. represents Scovill in the Southeastern States territory; Frank and Forrest Johnson Co. cover the South Mid-Western States.

A similar meeting was held at the Brown Palace Hotel, Denver, Colo., with C. E. Lawton of Lynn and Brooks Co., of the Rocky Mountain area.

Day Camp Closes

The ninth season of the SERA Day Camp has been completed. It was conducted for nine weeks with an average of 100 children per week.

This camp is a service sponsored by the Scovill Employees Recreation Association for employees' children and grandchildren between the ages of 6 and 12. The camp was held at the Woodtick Recreation Area, week days.

A daily schedule was planned with weekly special features such as hot dog roasts and hikes or exhibitions of swimming and diving given by the Woodtick life guards and counselors.

Kicker's Golf Tourney Held At Hamden Course

Fair weather held for Scovill golfers during their annual Kicker's Handicap Golf Tournament, held Saturday, September 8, at the Meadowbrook Country Club, Hamden.

This successful event was under the able direction of J. Arthur Rompre, who served as chairman, with the assistance of Harold Nichols, Les Coley, Jr., Vic Sabalauskas, Jim Coffey, Howie Kraft, Ralph Orsini, Les Fuller, Pete Smoley, Bob Dunn and Jim Smith.

Kicker's prizes were awarded to Fred Nardelli, Bert Anderson and Art

Rompre, respectively, with additional prizes going to William Lanzoni for a low gross score of 79, Michael Petrucci in the 80 to 90 gross class, Carl Pickett in the 90 to 100 class and William Dziura in the over 100 class.

Karl W. Czapor, Electric Shell

Bowling In Full Swing

Four Scovill golf leagues started their 1956-57 season during the week of September 9th.

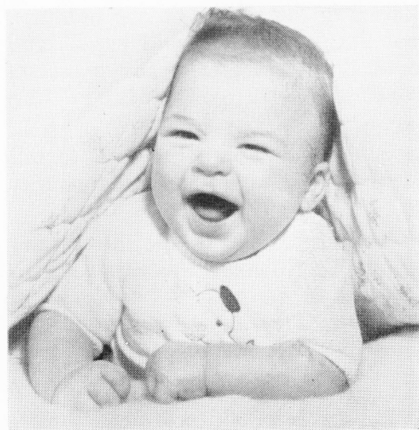

The Cost Office league will play on Mondays at 5:20 p. m. at Sena's Recreation Center.

The Men's Office league will bowl 7 to 9 p.m. on Mondays at Sena's.

The Men's Handicap league will have their games at the Spillway Bowling Alleys every Tuesday 7 to 9 p.m.

The Girls' Inter-Department league will bowl 7 to 9 p.m. at the Mattatuck Bowling Alleys.

Four Little Scovillites For Our Family Album

Joseph D'Amico, Jr. is well represented at Scovill. His father, Joseph, is a patternmaker apprentice; Grandfather Michael D'Amico, Scrap Room; Aunt Mildred Basso, Lipstick; Uncles Joseph Giattino, Scrap Room, and John D'Amico, Oakville.

Ronnie Boucher, now six months old, is pictured at three months of age. He is the son of Ronald Boucher, Drafting Room; nephew of Madeline Ciarlone, Buff Room #3; grandson of Leo Boucher, North Mill, and Thomas Verrastro, retired.

These two handsome youngsters seem pleased about having their picture taken. Anthony John, one year old, and Wendy Joy, two years old, are the children of Anthony Emanuel, Jr., Gripper Eyelet. Aunt Jane Bruno, is in Metals Research.

Four Succumb

MICHAEL MOORE, retired, died on September 2, 1956.

Mr. Moore came to Scovill in March, 1914, and had a continuous service record since September, 1919. He served in the Vacuum Cleaner and Scrub Dept., Mfg. Stores, Assembly II, and in 1925 went back to Mfg. Stores where he was serving as a store man when he retired April 17, 1950.

ELBY BOULANGER, retired, died on September 9, 1956.

Mr. Boulanger was hired in June, 1911, and had a continuous service record since August of that year. Always in the Tool and Machine Div., he went to the Attaching Machine Dept. in 1953 where he became a work supervisor. In April, 1955, he went to the General Training Room as an instructor, retiring in July of this year.

MARY A. CIRELLI, Trim and Knurl, died on September 9, 1956.

Miss Cirelli was first hired in August, 1926, and had a continuous service record since March, 1929. She served in various departments until 1939 when she went to the Trim and Knurl Dept. and was serving as a verticle edger in this department when illness forced her to leave August 21st of this year.

GEORGE TEACH, Sl. Fastener Chain Machines, died on September 9, 1956.

Mr. Teach had a continuous service record since March, 1953, when he first came to Scovill. He was an apprentice toolsetter in Slide Fastener Chain Machines. Except for a brief period in Slide Fastener Wire Form, Mr. Teach has always been in Chain Machines.

"Scoops" From Zippers

By Louise Foell

Vacations have ended for Edgar Bergeron and Charles Bozzuto; have just begun for Maureen Breen and Kasper Krank. Congratulations to Robert Maher and Jean Fabianski. The big day was Sept. 15th.

Another Slide Fastener employee leaves to enter a new venture — Tom Ashton. Our best wishes go with him.

A proud new father is Harold Francis. The new addition is Carla Marie, born on September 2nd.

Ethel Lockhart spent Labor Day weekend at the Cape, while Mary Murphy enjoyed the seashore.

Girls' Club News

By Juanita Addessio

The Girls' Club Council had their first meeting of the new season and planned our activities for October.

A Card Party and Chinese Auction for members and friends will be held on October 10th. The admission will be a new toy which the Club will use for the needy families at Christmas time. Here's your chance to help some child have an extra toy for Christmas as well as have a good time playing cards with friends.

Another special event will be a Cabaret Dance on October 27th. Remember the usual rush for tickets, so make sure you get yours early.

Josephine McIlroy, Waterbury Sales, is spending a week redecorating around her home and just plain visitin' folks.

Jeanette Voycik, Bulletin Office, was married on September 15th, in Seymour, to Larry Bogen who at the present time is a member of the U. S. Navy. Wishing you two loads of happiness.

Pat O'Mahoney was feted to a shower last week by the members of the present Council. Pat is getting married Oct. 6th.

Teresa Ryan is off on a trip to Canada with Mr. Ryan. We're surprised Teresa will leave that Granddaughter of hers for two weeks!

Hazel Didsbury, Mary Winton, Florence McEvoy, Lauretta Clark, Valerie Povilatis, Helena Kelly and Jo Hawksley took Alice Danard out to dinner at the Buck Board before Alice went back to college. These girls are all from Waterville.

Louise Rosa and Minnie Cipullo, Closing Room, are spending their three weeks vacation in California. They are visiting Louise's daughter Marie and getting acquainted with a new grandson, Robert Edward Yeo.
