# **Our Friend**

From earliest times man has sought to better his lot. With his own brawn, and with the aid of beasts of burden, he supplied the simple needs for living. Then he adapted elementary mechanical devices such as the wheel and the fulcrum to lighten his physical burden and increase his production. Each small step that lightened his work and increased his productivity has raised his standard of living.

With the coming of the industrial age his progress was relatively rapid. Mechanical devices performed more and more of the hard labor. Man controlled the machine. His output per hour multiplied. He created more and more wealth in less and less time. Physical labor diminished. As machinery became more complicated, his skill increased. Because man's productivity has increased many times through use of the machine, it takes a smaller part of his time to earn the necessities for living. More of his earnings are available for recreation and many other items that were once considered luxuries.

Man, by harnessing complicated mechanisms, has come a long way toward the better life he has always sought. The machine is his friend.

# THE BULLETIN Acquires New Look

With the start of a new year, our publication carries a new head. The name remains the same but now prominently displayed is the Scovill namein new dress.

The new heading adds a modern touch to the publication—which would appear in order with the modernization program going on throughout the plant — but the reason for the changeover is much more important.

It is in keeping with Management's plan to have uniformity in the usage of the Scovill name by all its divisions in their communications with the public. It will take time to make a complete changeover but, from now on, you'll be seeing more and more of the new identification.

Up to the present time, there has been little uniformity in the various ways the corporate name has been treated by the different divisions in their communications with the public. In some cases, there has been no Scovill identification at all.

Divisions as Hamilton Beach, Schrader, Oakville Co. and DeLong will continue to use their brand names which have become so well-known, but there will be a definite association with Scovill in all communications.

We're happy to adopt the new type head but we must say, after fifteen years with the former head, it has become as familiar and comfortable as an old shoe. We'll miss the old, but on with the new!

# **Quality Control Men View Forging Charts**

Of special interest to recent visitors were the Statistical Control Charts in the Forging Dept. which Michael Cicchetti, Forging Methods Analyst, described. The visitors, some of the over 100 members of the So. Conn. Section of The American Society for Quality Control, toured the plant on Dec. 12.

Quality Control is a term heard quite frequently throughout the plant. It means a constant check to be sure products and parts made at Scovill are the best which can be made.

They must be "the best" in order to appeal to prospective customers and, in view of today's competition, they must be produced at as low a cost as possible. So we must be constantly watching for better methods as well as quality products.

In all phases of manufacturing, there is always room for improvement —even in quality control methods.

Chris Pedersen, Quality Control Engineer, discovered this was possible in the Forging Dept. He devised the

system now being used in that department whereby an hourly check is taken on parts being forged.

In the picture above, Mike Cicchetti is explaining the new method to visiting Quality Control Men who were very impressed with the setup. On this particular job, five newly forged parts were checked, every hour, with specifications required. They were checked for thickness of flat and small ends on one gauge, and for length and width on another.

Readings are posted on Statistical Control charts which are kept close to the machine. Another chart is kept in (Continued from Page 3, Col. 4)

# Twenty-Five Retire

EDWARD KOLEY, Cont. Strip Mill, was retired as of March 1, 1956.

Mr. Koley came to Scovill in October, 1941, and has a continuous service record since November of the same year. He served in the Power House and North Mill, and was serving as a helper on the Slitting Machines in the Continuous Strip Mill when illness forced him to leave in April, 1955.

The following have retired from active service as of December 1, 1956.

LESLIE H. COLEY, General Stores Office, came to Scovill in September, 1919, and has 37.3 years of continuous service. Always in the Stores Division, he has served as Asst. Foreman and later Foreman in the Box Shop, and was serving as General Foreman of General Stores when retired.

J. HAROLD PILKINGTON, Transportation, has 28.10 years of continuous service beginning in February, 1928, when he came to Scovill. Always in the Transportation Dept., he was serving as car dispatcher and clerk when retired.

LOUIS VENTER, Steam Dept., has over 39 years of continuous service beginning in August, 1917, when he came to Scovill. Always in the Steam Dept., Mr. Venter was serving as Foreman when retired.

LOUIS C. WILLARD, Mill Production, was hired in August, 1916, and has over 40 years of continuous service. During his career at Scovill, he has

served as Foreman of the Rod Mill, Asst. General Foreman of the Rolling and Rod Mills, Asst. Superintendent of the Rolling Mills and since July, 1946, has been Asst. to the Works Manager, Mills Division.

FRED L. WIDMER, Shipping and Receiving, was hired in December, 1919, and has 37 years of continuous service. He served in the Butt and Valve rooms before going to the Stores Division in October, 1928. When retired, he was serving as a storekeeper in Shipping and Receiving.

Antonino Insogna, Yard Dept., was retired as of December 3, 1956.

Mr. Insogna was hired in September, 1935, and has a continuous service record since October, 1937. He served in the North Mill until August, 1941, when he went to the Yard Dept.

The following have retired as of January 1, 1957

ROBERT AYLWARD, Screw Machine Tool, came to Scovill in December, 1912, and has almost 44 years of continuous service. Always in the Tool and Machine Div., he has been a toolmaker in Screw Machine Tool since January, 1930.

GEORGE AYOTTE, Repair Dept., first came to Scovill in March, 1912, but due to a period out of the plant his continuous service record begins in March, 1932. He served in various departments until he went to the Repair Dept. in April, 1943. He has been serving as a lath operator.

LUCIO CANNATA, Wire Mill, was hired in January, 1929, and has 23.2 years of continuous service. He served in the Salvage Department, Wire Mill, Blanking Room and then back to the Wire Mill in September, 1943, where he has been a pickler's helper.

SAVERIO CAPPELLA, Lipstick, was hired in August, 1909, and has a continuous service record since June, 1912. He served in various departments until 1924, when he went to Lipstick where he has been a packer-shipper.

PATSY CARMEN, Trucking, came to Scovill in May, 1915, but due to a period out of the plant his continuous service record begins in July, 1920. He has always been a trucker.

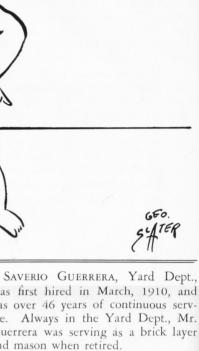

GARRETT W. CASEY, Packing A, came to Scovill in August, 1916, and his continuous service record begins in November of the same year. Always in Packing A, Mr. Casey was serving as a marker-shipper when retired.

JOHN L. DAVIES, Milling and Grinding, first came to Scovill in July, 1910, leaving in 1929. He returned in December, 1941, which is his continuous service date. He served in the Chucking Dept. until April, 1942, then went to the Milling and Grinding Dept. as a Milling Machine operator.

BERNARD DRESSELL, Casting Shop, has a continuous service record of 34 years beginning in November, 1922, when he first came to Scovill. Always in the Casting Shop, he was serving as a productive helper when retired.

LODOSLO DRUZINSKI, Steam Dept., has over 37 years of continuous service beginning in September, 1919, when he first came to Scovill. Always in the Steam Dept., he served as shop foreman for approximately 15 years. He was serving as a machinist when retired.

JOHN GUDERGIS, Single Spindle Screw Machine, first came to Scovill in December, 1922, to serve in Buff II until 1925, when he left Scovill. He returned in December, 1950, which is his continuous service date, to serve in the Single Spindle Screw Machine Dept. as a floorman-scrapman.

was first hired in March, 1910, and has over 46 years of continuous service. Always in the Yard Dept., Mr. Guerrera was serving as a brick layer and mason when retired.

ZIGMONT KLIMASEWSKI, Wire Mill, first came to Scovill in July, 1913, and has over 43 years of continuous service. Always in the Wire Mill, Mr. Klimasewski was serving as a maintenance man when retired.

ANGELO LOMBARDO, North Mill Rolls, came to Scovill in June, 1916, and has almost 38 years of continuous service. He served in several different departments until December, 1954, when he went to the North Mill Rolls as an oiler.

JAMES W. LYMAN, Shell Dept., came to Scovill in July, 1943, and has a continuous service record since January, 1944. He served in the Casting Shop, North and East Mills prior to April, 1953, when he went to the Shell Dept. as a maintenance man.

SABATINO MARINO, Blanking and Drawing Tool, was first hired in July, 1915, but due to a period out of the plant his continuous service began in December, 1941. He served in various departments until February, 1951, when he went to the Blanking and Drawing Tool as a maintenance man.

JOHN OBERNIER, Hardening Room, came to Scovill in April, 1912, and has a continuous service record since October of the same year. Always in the Tool and Machine Division, he has served as a hardener in the Hardening Room since 1930.

IGNAZIO PISANI, Waterville, was hired in August, 1909, and has almost 47 years of continuous service. Always in the Waterville Division foundry, he was serving as a core inspector at the time of his retirement.

ELMER SYMONDS, Steam Dept., came to Scovill in August, 1919, and has a continuous service record since November of the same year. Always in the Steam Dept., he was serving as a Turbine Room Engineer when re-

# Follow Safety Regulations — Use Butt Cans

Anthony Daddona (left) and Gerald LeBlanc, both of the Planning Dept., deposit their cigarettes in cans provided for butts before entering a "no smok-ing" area.

One of the most destructive, expensive and feared hazards is fire. The careless discarding of matches, cigarettes, pipe embers and cigars is often the cause of these accidental fires.

To help prevent fires the Safety Dept. has put conspicuous signs in all the "no smoking" areas in the plant. These regulations apply to everyone in the plant — workers and visitors alike.

At the entrance of these "no smoking" areas are sand filled butt cans in which the smoker may deposit his matches or smoking material without danger of fire.

### Retired Folks' Club

The first meeting of the year for Scovill retired folks will be held on Wednesday, January 9, at Doolittle Hall, at 2:00 p. m.

Mr. Mark L. Sperry, 2nd, Executive Vice President and General Manager will be guest speaker. He will discuss the Company today, its plans and prospects for the future.

#### Pinochle Tournament

Team scores for the evening of Thursday, December 27, put Laudate's team out front with 29,100 points followed by Matulunas' team with 28,470 points and Mancini's team with 26,-685 points.

Individual high for the evening went to Ed Mitchell with 4,215 points and Pete Arots with 4,085 points.

This evening of play concluded the first 12 weeks of play. Even though Matulunas' boys came out second best in this evening of play they took the honors as winners of the first round with a total score of 349,920 points. Laudate's boys came in second with 344,490 points and third was Mancini's team with 331,740 points.

The second round and 12 weeks of play were started Thursday, January The winners of these two rounds will play at the end of the season for the championship unless Matulunas' team takes the second round then they will be the undefeated champs.

# "Holiday Special" Blood Donor Day Nets 133 Pints

Here are members of the committee which sparked the "Holiday Special" visit of the Bloodmobile Unit to the Waterbury Division on Tuesday, Dec. 18, 1956. Co-chairmen were Louis Cosair, Tube Mill (1st row, second left)

and Herbert Eastwood, Extr. Rod Mill (1st row, 2nd right). More than enough volunteers were on hand to easily reach the quota set for the day but, due to approximately 25 temporary rejections, the amount collected was 133 pints.

### **New Assignments**

Announced by Mr. A. P. Hickcox, General Manager-Waterbury Divs .:

Effective January 1, 1957, all barrel plating facilities located in Bldg. 53 Basement, and Bldg. 49A Basement are transferred to the jurisdiction of the Closure Division, together with gold plating and laboratory operations located in Bldg. 12A. These operations will constitute Dept. #27 — Barrel Plating.

Other facilities located in Bldg. 49A Basement will remain under the jurisdiction of the General Manufacturing Division and will be known as Dept. #26 — Rack Plating.

#### General Manufacturing Division

Mr. Ernest B. Lawton, Jr. has been appointed Sales Promotion Manager for the General Manufacturing and the Forging and Screw Machine Divs.

The appointment, effective January 1, 1957, was announced, jointly, by Mr. W. H. Machin, Manager — Forging and Screw Machine Div., and Mr. H. W. Wild, Manager — General Mfg. Div.

Mr. Lawton is responsible for sales promotion activities of these two divisions, reporting to the Managers of the respective divisions.

Mr. Machin also announces the appointment, as of January 1, 1957, of Mr. Joseph S. Stevens as Sales Manager for Screw Machine Products in the Forging and Screw Machine Div. Mr. Stevens will report to Division Manager Machin.

Announced by Mr. J. G. Wolff, Works Manager, Closure Division:

Effective January 1, 1957, Mr. Frank M. Tutolo has been appointed Foreman of Dept. #27 — Barrel Plating Dept. He will be located in Bldg. 53 Basement and will report to Mr. R. V. Havican, General Foreman of the Button and Fastener Section of the Closure Div.

Announced by Mr. G. L. Chase, Factory Supt. — Gen. Mfg. Div.:

Effective January 1, 1957, Mr. John J. Meehan has been appointed Foreman of Dept. #26 — Rack Plating, in addition to his duties as Foreman of Dept. #30 — Aluminum Finishing. He will continue to report to General Foreman L. H. Mayshaw.

Effective January 1, 1957, Mr. Henry W. Kamens is appointed Foreman of Dept. 3, Trim & Knurl, in addition to his duties as Foreman of Dept. 5, Electric Shell.

He will continue to report to Mr. L. H. Mayshaw, General Foreman.

#### Mills Division

Announced by Mr. C. P. Goss, Manager, Mills Division.

Effective January 2, 1957, Mr. George E. Sickles is appointed Sales Manager, Brass Tube Products, including Condenser Tubes.

Effective January 2, 1957, Mr. John R. Babin is appointed Sales Manager, Copper Tube Products.

Messrs. Sickles and Babin will report to Mr. C. P. Goss, Manager, Mills

#### 1957 Auto Plates

Although the 1957 auto registration plates are not needed until April 1st this year, drivers are already writing in or getting in lines at local Motor Vehicle offices to get their applications

The applications are being filed by drivers who would like to keep the registration numbers they now have -plates which do not have a number and letter prefix or a letter and number prefix. (i.e.  $\frac{3}{V}$  or  $\frac{V}{3}$ ).

When sending in your application, don't forget to sign the renewal application blank which is attached to your 1956 registration, and mail it (or bring it in to the local Motor Vehicle Office) together with a check or money order for \$8.00.

#### Santa Was There - -Thanks To You All

On behalf of the Girls' Club and the families you helped to remember — I would like to thank all employees who purchased cards and candy, who donated toward the purchase of toys, who helped deliver the Christmas baskets and, especially, the girls in the General Accounting offices who dressed the dolls so beautifully.

With sincere wishes for a very happy and prosperous New Year -God bless you all.

Margaret Snowden, Chairlady

### **Quality Control**

(Continued from Page 1, Column 4)

the foreman's office which is kept posted also.

The charts are set up to include control limits related to the minimum and maximum tolerances allowable on a specific part. As soon as the charts show readings close to control limits, the tools are checked and replaced.

With this new system, the Forging Dept. proudly reports it turns out "the best' in forgings, with a minimum of down-time and elimination of scrap.

#### Rod & Gun Club

The annual meeting of the Scovill Rod and Gun Club was held at the Employee Relations Building and, as usual, was quite heavily attended.

Henry Miller, Engineering, presided and in his annual report outlined the highlights of his year in office. Treasurer Ted Sandulli reported on the disgustingly healthy treasury and Secretary Bob Anderson commented favorably on duties of his office.

Ray Ladden, chairman of the nominating committee, reported on the activities of his committee and presented the following slate of distinguished officers for the incoming year: President—John F. Hubbard, Sr., Employee Relations; Vice President—Henry Miller, Engineering; Treasurer—Ted Sandulli, Hot Forge; and Secretary—Bob Anderson, Hot Forge.

Nominations from the floor followed in quick order and a spirited contest for the various offices resulted. The final ballot, taken just previous to the curfew, showed that by the narrowest of margins the *Ladden* slate was victorious. By acclamation the group declared the election unanimous!

#### John Hubbard - - President

In the new president, John Hubbard, the Club has an experienced and most capable leader, who served as president in the early twenties when the Club met regularly at its Reidville Clubhouse. In those days the duties of the president included the day's distinguished office! Known as a sound planner with a highly imaginative mind the Club looks forward to many innovations under John's dependable guidance. Henry Miller still fresh from his just completed turn will prove a source of inspiration and practical experience to the president, while the teams of Sandulli and Anderson will lend dignity and sound backing to the future plans for the Club.

The meeting was adjourned on a high note of expectation based on the pledge made by officers and members alike that 1957 will be our best year yet!

Important:-Next meeting will be held Tuesday, January 15, at 8 p. m. at the Employee Relations Building.

All members are urged to attend. Your 1957 membership is now due. Please contact the secretary, *Bob Anderson*, Hot Forge.

# Christmas — Season Of Giving, Color And Gayety

The spirit of Christmas was evident throughout the entire plant. For the Girls' Club, several girls of General Accounting made clothes for dolls which were given to needy children. (1) Catherine McCormack and Margaret Snowden inspect the finished products with pleasure.

Decorations throughout the plant varied from colorful trees such as in Addressograph (2) which Harriet DeRosa

and Kay McHale decorated, to displays as in Hand Screw Mach. (3) and paintings on the windows in Chucking (4).

Parties were very much in the scene during lunch hours. Blank and Drawing Tool Room (5) combined their Christ-mas party with one honoring Sabatino Marino (center, hold-ing card) who retired as of January 1. Merchandise Sales (6) one of the groups to hold theirs in Girls' Clubhouse.

## Girls' Club News

By Teresa Ryan

Approximately 1200 happy children attended the two Christmas parties given at Doolittle Hall. Judging from the laughter and applause at the party the children thoroughly enjoyed the cartoons and Santa Claus. Agnes Towne as chairlady wishes to thank all persons who helped to make this event a success.

Margaret Snowden flew to Florida for the New Year's holiday.

A belated happy New Year to all.

#### Scovill Credit Unions

Members of the five Scovill Credit Unions are urged to attend the annual membership meetings which will be held in January. Elections of officers, voting on dividends and other pertinent business will be conducted.

In addition to the business meeting, it will be a social evening with refreshments being served.

The various Credit Unions will hold their meetings as follows:

Credit Union #1—Tuesday, January 22, at 7:45 p. m., at the Scovill Girls' Clubhouse.

Credit Union #2—Monday, January 21, at 7:00 p. m. at the Scovill Girls' Clubhouse.

Credit Union #3-Friday, January 18, at 7:30 p. m. at the Scovill Girls'

Credit Union #4—Tuesday, January 8, at 7:00 p. m., at the Scovill Girls Clubhouse.

Credit Union #5 (Waterville Div.) —Wednesday, January 30, at 8:00 p. m., at the Waterville Plant.

### Scovill Basketball

The schedule has been set for the Scovill basketball season. game will be played on Monday, January 7, 1957, at Doolittle Hall.

This six-team league includes two teams from the Tool Division, one each from the Manufacturing, Maintenance, Waterville and Oakville Divs.

### First Display In 1957 To Be Seen In Boston

Our first display for 1957 will be shown at the Hotel Statler in Boston, January 14 to 16, at the exhibit being sponsored by the International Association of Clothing Designers.

Scovill will have a single booth featuring GRIPPER Zippers for dress trousers. An added attraction to the booth will be a treasure chest containing valuable gifts. Keys will be distributed to visitors to the booth together with instructions to return at a specified time for the awarding of the chest. The person with the key which opens the chest may keep its contents.

#### Four Succumb

Mrs. Mary Lathrop, Assembling Room, died on December 15, 1956.

Mrs. Lathrop first came to Scovill in October, 1915, leaving in 1920. She returned in July, 1941, and was serving as a power press, foot press operator at the time of her death.

PASQUALE CIARLEGLIO, retired, died on December 19, 1956.

Mr. Ciarleglio, who began his career at Scovill in October, 1922, has always served at the Waterville Division. At the time of his retirement in August, 1953, he was serving as a pickle unit operator in the Annealing and Pickling Room.

DOMENIC MACCIONE, retired, died on December 23, 1956.

Mr. Maccione had about 24 years of continuous service when he retired in May, 1954. He was with the Yard Dept. and Casting Shop prior to going to the Dip Room in 1920 where he had been a maintenance man.

ANTONIO DADDONA, retired, died on December 30, 1956.

Mr. Daddona first came to Scovill in November, 1924. His continuous service record began in December, 1945, due to a long period out of the plant. He was serving as a factory janitor in the Sanitation Dept. when retired in March, 1955.

# **Training Course**
