Redesigned Sprinkler Part Award Winner

This certificate "in recognition of outstanding redesign to take advantage of stampings" was awarded to Scovill recently by the Pressed Metal Institute.

The Pressed Metal Institute is an association made up of 275 of the leading metal stamping manufacturers in the United States. One of their predominant aims is to promote the use of metal stampings in American industry.

In pursuit of this aim, the Institute has developed an annual contest known as the "John Woodman Higgins Redesign Award" which is given each year in recognition of the outstanding redesign to take advantage of stampings.

Any company in the country is eligible to enter the contest and the judgment is made by a committee composed of representatives from the various stamping manufacturers.

Scovill entered this contest for the first time in 1958 with a redesigned component of our *GREEN SPOT* sprinkler. This part, originally manufactured as a screw machine item from heavy brass rod, was completely redesigned as a drawn shell, without any loss of either functional or appearance design characteristics. In the words of the committee:—

"None of the stampers present would have thought of it (the extension) as a stamped job."

The prize-winning redesigned component of our GREEN SPOT sprinkler

In noting the wide field of competition in this contest, we feel we can be justifiably proud in having received the Honorable Mention award. This is especially true in view of the fact that the winning award, a stamped metal housing for a rotary lawn mower, saved \$937,500 in one year of production.

There's Always A Better Way In Design, Program, Production

Cost saving projects are constantly in process—in the designing, planning and promotion of a product as well as in the production processes. They are mandatory for survival in the rising cost markets that face all manufacturers.

Often it is necessary to design a product and get it into production in a very short period of time. This is true on many of the items in our GREEN SPOT line.

The early programming in design makes it very difficult to employ the most economical methods for production of the various components. It is at a later date that extensive review of each and every part is made to investigate cost saving changes without sacrificing in any detail the function or the eye-appeal of the product.

Redesigned Sprinkler Part

The sprinkler extension, which took an honorable mention in the Pressed Metal Institute contest, was an expensive component and, as a result, came in for very close scrutiny.

A team of product development and process engineering personnel devoted many hours to ways and means of producing this part by some other method. The sprinkler base was designed originally by Dave Chapman, Inc. of Chicago for appearance. The study and development that resulted in the sheetmetal variation were initiated by Edward Stuart (Merchandise Div.)

(Continued on Page 3, Column 2)

Vacations — 1958

In accordance with the Company-Union agreement, there will be no plant-wide shutdown for vacations in 1958 but vacation time must be taken.

Vacations can be taken at any time during the year at a time mutually agreeable to employee and foreman. If two or more employees on the same operation want the same period, the senior employees will get preference.

Foremen are canvassing employees to determine when they wish to take their vacations. Employees who fail to notify their foremen as to their choice of time off by April 15, 1958 will lose their preferential status with respect to less senior employees who do notify their foremen by that date.

New Assignments Chicago Appointments

Announced by Mr. H. W. Wild, General Manager—Gen. Mfg. Div.:

Mr. Frederic R. Hodgkinson has been appointed Sales Manager of Appliance Controls with headquarters in our Chicago Office. He will be responsible for the direction of the field sales of appliance controls.

Mr. James A. Kozel has been appointed Chief Engineer of Appliance Controls and will be responsible for Chicago Research and Development.

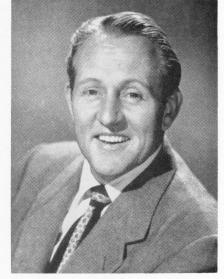

For local administrative purposes, Mr. Hodgkinson and Mr. Kozel will report to Mr. H. G. Dunn, Manager of the Chicago Office. In matters connected with the sale or development of appliance controls, they will report to Waterbury through Mr. A. G. Deming.

Mills Division

Announced by Mr. J. J. Hoben, Works Manager—Mills Div.:

Mr. Thurston S. Merriman has been transferred from the Waterville Division to the Mills Division, Waterbury plant. Effective April 1, 1958, he has been appointed Mill Engineer and will report to Mr. J. J. Hoben.

GREEN SPOT on TV

Art Linkletter

One day each week for thirteen weeks, assortments of GREEN SPOT merchandise will be shown on the Art Linkletter "House Party" program.

"House Party" is an extremely popular program that is carried on CBS TV and CBS radio at 2:30 p.m. every week day as well as on the Canadian Broadcasting Corp. The program is seen and heard daily by over 20 million people, which means that the *GREEN SPOT* name and products will be exposed to many millions of people.

"Other manufacturers have increased their sales by providing merchandise to Linkletter and we feel sure the 'house party' program will accomplish the same thing for us." said Mr. J. N. Hathaway, Assistant Sales Manager of the Merchandise Division. "It is an excellent, yet inexpensive, way of getting our *GREEN SPOT* merchandise in front of the public."

The days of the week on which the GREEN SPOT merchandise will be used on the program will vary from week to week since the format of each show is determined only a few days in advance.

in advance.

40-Year Award for John Shimkevich

The Certificate of Recognition is the point of interest as President W. M. Goss presents it and the 40-year gold service pin with one diamond to John Shimkevich. Charles Stickney, Chief Power Plant Engineer, looks on.

No. 7

March 5, 1958

Mr. William M. Goss, *President* Scovill Manufacturing Company 99 Mill Street Waterbury, Conn.

Dear Mr. Goss:

The Connecticut Regional Blood Program is very grateful to the Scovill company and its employees for sponsoring another Bloodmobile visit (February 13, 1958).

It was the highest number of pints collected since mid-November and we hope it will inspire others that are sponsoring ones in the near future.

As usual, many thanks are due to the committee who did the recruiting and made the arrangements.

We are always grateful to you and your employees for making all these visits possible.

Sincerely yours,

CHARLES H. LANZIERI, M.D.

Blood Program Chairman

Walter Knox Heads Waterville Foremen

Walter Knox was elected president of the Waterville Foremen's Club at the annual meeting held on February 4th. Also elected were: Vice President—John Baker; Secretary— Thomas Kelly; Treasurer—Max Kohlbrenner. Elected to the Board of Trustees were: Ray Kozen, Henry Clement and Walter Fiftal.

The annual banquet, held at the Bow and Arrow Club in Cheshire, was termed most successful. It was a tossup as to which made the most delectable dinner, the melt-in-your-mouth charcoal broiled steak or the mouthwatering jumbo lobster.

Honored guests in attendance included the Messrs. George Goss, Leonard Robinson, Arthur Goepel, Joseph Muckle and Patrick Malloy.

Our officers have a program of activities pretty well lined up already and the coming year promises to be a full and interesting one.

The highlight feature of our April 8th meeting will be a series of movies on Steel and Heading Machines. Henry Montambault and William Gleason are in charge of that meeting which will be held at the Waterville plant.

Skids of the Fifth-Wheel Type

James Dugan, of Mfg. Trucking, demonstrates how an accident could happen when a skid of work being moved with a hand jack is pushed instead of pulled along. Pauline Semplenski (Closing Room) poses as the possible victim.

Safe material handling is an ever growing challenge. Much of our work is moved with a two-wheel hand jack of the fifth-wheel type. While it may seem easier to push the skid, our pic-

ture shows a potential danger.

Remember, always, when using a two-wheel jack handle—pull that skid from place to place. See where you are going and avoid such dangers.

That Man is here again!

DUE APRIL - 15th

Seven Retirements

LOUIS VICHAS retired as of March 17, 1958 with almost 29 years of continuous service.

Mr. Vichas spent a few months in the North Mill as a utility man in 1919. He returned in May, 1929 to start his record of continuous service and during the years has worked as a tandem machine operator and welder, Morgan block in the Wire Mill; press operator in Blanking, productive helper in Case 5 and from February, 1955 until illness forced him to leave in September, 1957, was serving as a maintenance man in the Wire Mill.

GROVER C. BALDWIN retired as of April 1, 1958 with over 32 years of continuous service.

Mr. Baldwin first came to Scovill in January, 1926 as a Supervisor in Tool & Machine. In turn, he served as a Supervisor in General Engineering; Research Engineer in the Finishing Div. and later in the Development & Experimental Laboratory; Assistant Foreman in Electric Anneal; Foreman in the Button & Fastener Div. From January, 1941 to March, 1946, he saw active military service. He returned in April, 1946, as Production Supervisor in the Button & Fastener Office and later in the Mfg. Superintendent's Office. In January, 1948 he was named an assistant to the Factory Superintendent and in August, 1955 was appointed Chief Analyst Control Engineer.

Jose Fernandes retired on April 1, 1958 with more than 21 years of continuous service.

Mr. Fernandes has been employed in the North Mill division throughout his years of service. He first came to the mill in October, 1919 and, working intermittently, has served as a muffleman, pickler, utility man and, at time of retiring, was a maintenance man in the Rolls Division. Antonio Goffredo retired on April 1, 1958 with more than 40 years of continuous service.

First coming to Scovill in October, 1919 as a buffer, Mr. Goffredo has also served as a drill press operator in the Vacuum Cleaner Dept., a dryout man in the North Mill, japaner's helper in the Japan Room, utility man and redraw press operator in Case 1, press operator in Blanking and, from April, 1956 until retiring, an automatic buffing machine operator in Buff #1.

ALEXANDER GRANT had accumulated ten years of service when retiring on April 1, 1958.

Mr. Grant first came to Scovill in July, 1946, as a maintenance man in the Trim & Knurl Dept. He has also served in that capacity in the Connector Room and in Press #1 where he was assigned at time of retirement.

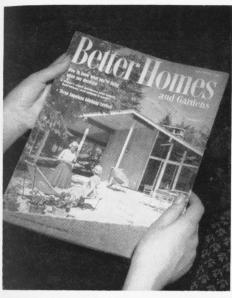

Nunzio Levegnale had completed over 43 years of continuous service when retiring on April 1, 1958.

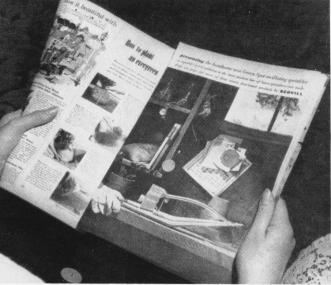

Mr. Levegnale was hired into the Yard Dept. in August, 1913 but with several periods out of the plant, his continuous service record was started in November, 1916. Most of his years here have been spent in the Buff Room where he has worked as a buffer, supervisor, and from November, 1954 until retiring, he has been a set-up man on automatic buffing machines.

EMMA VANASSE retired on April 1, 1958 with more than 38 years of continuous service.

Miss Vanasse came in to Scovill as a drill press operator in May, 1918. After a short period out of the plant, she returned in November, 1919, to the packing room as an inspector. She has spent her entire years of service in this department, Manufacturing Packing, and was serving as an inspector-packer when retiring.

GREEN SPOT 1958 Advertising Program Gets Underway in National Magazines

This handsome fold-out ad appears in the April issue of Better Homes and Gardens. A 2-page version is also appearing in the Saturday Evening Post and Sunset Magazines.

GREEN SPOT'S 1958 spring and summer advertising and promotional program got underway in the April issue of Better Homes and Gardens with a beautiful color ad. This same ad will appear in a revised version in the April 26 issue of the Saturday Evening Post and April issue of Sunset Magazine.

The ad is also being used in several other ways. It has been made up as a

mailing piece and is being sent to over 20,000 retailers and wholesalers in the United States and Canada. It has also been made into counter and window cards for retailers to use in their stores.

"We are already feeling the effect this ad is having on retailers," said Mr. J. N. Hathaway, assistant sales manager of the Merchandise Division. "One chain of 60 department stores called us when they saw the ad and asked to have a *GREEN SPOT* salesman call on them. In addition, many retailers have written us asking for the counter and window cards. We feel sure the ad will help our sales considerably."

Your Social Security

Girls' Club News

By Vera Scott

Our warmest wishes for the best of health and happiness go to our two favorite honorary members—Mrs. E. O. Goss who celebrated her 88th birthday on April 4th and Mrs. Carrie Bowne who celebrates her 94th on April 8th.

These women were ardent boosters of the Girls' Club when it was organized back in 1915 and have, through the years, continued to back the Club in its activities and charitable work. Their interest in our group has always been an inspiration to all our active members.

At least two of our members were all set for the Easter parade—hear Mary Alleva and Mary Perugini (both of Lipstick) spent a recent weekend in New York doing their Easter wardrobe shopping.

All the girls in Lipstick wish to extend their regrets to the family of one of our former members. Angelina Calca, who passed

Our sympathies to Adele Sharka (Slide Fastener) on the death of her father-in-law.

Dates For Your Little Red Book

April 12—The dinner dance, sponsored by our Club in conjunction with the SERA, is to be held at Doolittle Hall. Music will be by Francis Delfino and his orchestra. If you don't have your tickets yet, better step on it. We hear they are really going.

April 15—Annual meeting of the Club. All members are urged to attend the meeting at 8 p.m. at the Girls' Clubhouse. A new Council will be elected and, if you would like to serve on the Council—or know of a girl in your department or section of the plant who would actively serve on the Council—here's your chance to see that your area is represented for the coming year. If the Council is made up of members from all parts of the plant, a program can be set up for the year which will cover activities desired by the most number of members.

May 10—Our annual banquet will be held at Waverly Inn, with dinner to be served at 5:00 p.m. A fine program is being planned and we're sure you won't want to miss this one. Notices regarding tickets will be coming your way soon.

Rod and Gun Club Notes come back to work" to Ed Electrical Dept. will seem once again rule in person over the Sandulli household. It should also make a better

A hearty "welcome back to work" to Ed DeBisschop. The Electrical Dept. will seem normal now. Of course, it's only a coincidence that Ed's recovery and the near opening of the fishing season parallel each other!

The restocking program at Woodtick Lake had to be postponed because of unseasonably cold weather. However, by now the newly admitted denizens of the deep have found their way and will be waiting to play tag with Scovill fishermen.

Les Hart has worked hard to prepare the boats for opening day. Let's help him help us by handling the boats as though they were our own. Watch your anchors and your oars—keep the boats clean—dispose of your garbage and empties in the containers provided at the dock. Let's keep Woodtick

At the regular meeting, Fred Kirschbaum was received as a new member. He was politely invited to a friendly game of setback following the meeting. Said Fred, "How do you play this game?" Yes, you guessed it—he walked away with the first prize! Oh, those Wolcott politicians.

Vice president *Henry Miller* was noticeably absent from the March meeting. When asked the reason for his absence, *Henry* replied, "I fell asleep and I thought it was the next Tuesday." Isn't that the kind of an answer you can expect from an engineer? Two alibis, no less!

Ted Sandulli is smiling again. His theme song, they tell me, is: "My babe is coming home". We're glad Mrs. Sandulli will

Remember, the spring banquet April 19th at Doolittle Hall. Scale Dept. Rescue Crew Saves Nine Lives!

household. It should also make a better man out of *Ted*. With all his bragging about being the best cook the Navy ever had, he still showed that lean and hungry look during Mrs. Sandulli's absence. He'll eat better and more regularly from now on!

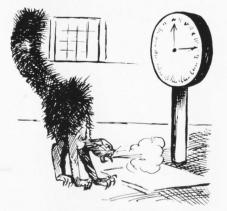

John Griffin, Salvage Dept. foreman, has a soft spot in his old Irish Heart for cats. Consequently, two of these animated mouse traps have the run of the department. The "old lady" especially is John's weakness, so consider his grief when she suddenly disappeared

Several days went by. Occasionally *John* thought he could hear the old lady cry but figured he was hearing the banshees. At the end of the sixth day, a search party finally traced the "cat-nik" signals and the geiger counter indicated the platform scale. Then *John* remembered that the Scale Dept. had made repairs the previous week!

Popular *Steve Sitar* and his cat rescue detail raced over, removed the scale flooring and there was the old lady!

John is lavish in his praise for Steve and his boys and regards the old lady with admiration. "Guess I should get her a medal," said he "after all that soldier who was locked in the capsule and made a simulated trip to the moon got one and he has nothing on our cat!"

It is difficult to believe, but everytime the old lady walks past the scale now, she raises her tail straight up in the air and spits. And *John* nods his head in understanding. "If I were a cat, said he, "I'd do the same thing!"

Pinochle League Winds Up Season

Another successful season of the Scovill Pinochle League was brought to a close with the annual banquet and awarding of individual and team prizes.

Anthony Laudate M.C'd the event which was held at the Scovill Girls' Club on Saturday, March 22. Joseph Brenneis distributed the prizes.

Teams taking top spots for the season were announced as:—1st place—Laudate with 478,285 points; 2nd place—Mancini with 474,585; 3rd place—Matulunas with 473,515 points.

Prizes were awarded to 1st round winners Frank Sabis, John Matulunas, William Phelan, Anthony Laudate and John Carolan.

To 2nd round winners:—William Mancini, John Carolan, John March, Patsy D'Amelia and Peter Arots.

The ball was picked up from there by Peter Dowling (Merchandise Production) and carried through to its culmination by Fred Troske (Mfg. Eyelet) and Edward Collins (Tool Office).

The part was previously made in the Automatic Screw Machine Dept. and now is made in the Manufacturing Eyelet Room.

The redesigning of this sheet metal extension (of which 102,000 pieces are required annually) has resulted in a saving of 30 cents per unit—or an annual saving of \$30,600.

14th Annual Bowling Tournament Attracts 226 Keglers

A record participation in SERA bowling tournaments was set at the 14th annual event held at Perillo's Bowl-O-Drome on March 22, when 226 bowlers of the Waterbury, Waterville and Oakville divisions attended. Pictured are some

of the bowlers. Upper left:-Henry Cipriano (right) who posted a 381 threegame set to take top prize in Class A, tells Ludwig Jasilunas over a cup of coffee how it was done. Both are employees of the Oakville Division.

Four Succumb

ANGELINA CALCA, Lipstick Dept., died on March 22, 1958.

Mrs. Calca was hired as a press operator in the Press Room in February, 1941. From September, 1945 until illness forced her to leave in September, 1957, Mrs. Calca had been employed in the Radio Room, which later became the Lipstick Dept. She was a power press, foot press and bench operator.

JOHN J. LALLY, retired, died on March 23, 1958.

Mr. Lally retired on January 1, 1955, with a continuous service record of almost 50 years. Always in the Blanking Room, he had been hired as an inspector-press operator but, for more than 25 years, had served as a toolsetter in that department.

WILLIAM B. AYLWARD, retired, died on March 23, 1958.

Mr. Aylward came to Scovill in March, 1912 to work for a short time in Brass Finish #1. He returned in February, 1915 to start his continuous service record of over 37 years. He had served as a grinder, overseer and, in turn, foreman of Assembly, Dept. A., Assembly #2 and Trucking. He was foreman in Trucking from September, 1936 until retiring in July, 1952.

LUIGI POSSEMATO, retired, died on March 30, 1958.

Mr. Possemato, a Mill man through most of his 29 years of continuous service, was a fancy straightener operator and toolsetter in the Extruded Rod Mill when retiring in October, 1945. First coming to Scovill in July, 1916 he had also worked for a short time in the Yard Department.
