Aerial View Shows Progress of Tube Mills in New Milford

Construction of the Company's new Tube Mills at New Milford is on schedule. The roof and sidewalls are up, ready for the heat to go on.

Equipment will start going in by spring, with production slated to begin in the fall. The above aerial view was taken on November 22, 1957.

Division Accountants Named by Controller

Mr. George H. Wadsworth, Controller, has announced the appointment of four Division Accountants, effective January 1, 1958, as follows:

Lawrence W. Bray — Division Accountant, Mills.

William F. Lanzoni — Division Accountant, Forging and Screw Machine

Earl C. Northrop — Division Accountant, Closure

Webster P. O'Neill — Division Accountant, General Manufacturing

These men are directly responsible for development of costs for the Divisions mentioned and are generally charged with handling accounting matters on behalf of the operating divisions.

They represent the Accounting Dept. to their respective divisions and are responsible to the Controller, Waterbury Divisions and Services, in the performance of these duties.

G. A. Goss Heads Waterville Division

Mr. George A. Goss, Jr. has been appointed General Manager of the Waterville Division, effective January 1, 1958 and will report to Mr. M. L. Sperry, 2nd, General Manager of the Company.

Mr. Goss succeeds Mr. S. G. Gaillard, Jr., who has served as General Manager of the Waterville Division since 1939. Mr. Gaillard is relinquishing his duties in preparation for retirement as of March 31, 1958.

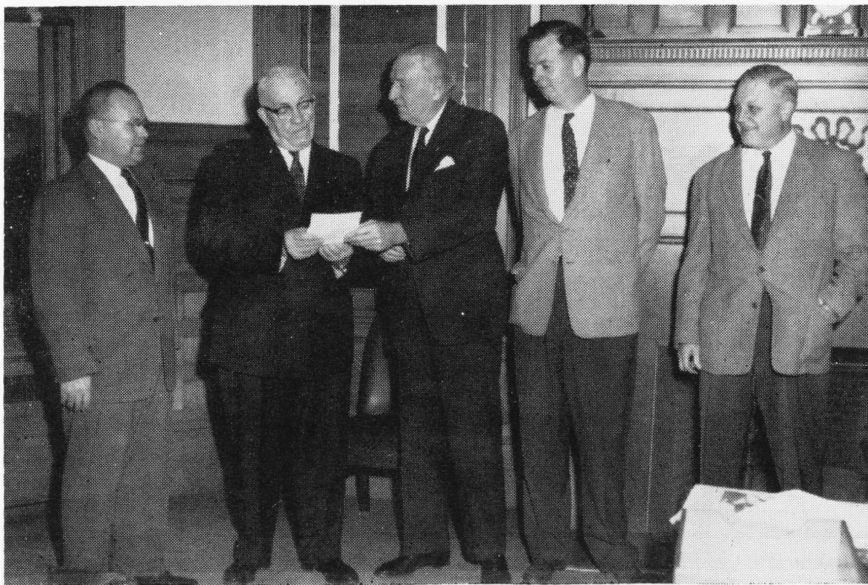

1958

We have entered a new year. We all hope it will be better on the local, national and international scenes than was 1957.

Each of us can contribute to the cause of making it so. Tolerance, good will toward others, and unselfishness are necessary ingredients to accomplish this purpose.

Vice President

G. N. Pistolas Here 40 Years

Mr. George N. Pistolas studies the 40-year service "Certificate of Recognition" being handed to him by President W. M. Goss. He also received a gold diamond-studded pin. On hand were Chief Power Plant Engineer Charles Stickney, Chief Plant Engineer T. W. Colina and Vice President M. L. Sperry.

The New Milford Tube Mill

When completed, the 281,500 square-foot building will be 1,150 feet long, 368 feet wide at the front and 208 feet at the back, and 42 feet high. It will occupy about 6½ of the 70-acre tract.

The new Tube Mills will produce brass alloy tubes up to 100 feet long, and copper tubing up to 200 feet long. Its modern production equipment will afford a greater degree of flexibility and automation to meet the demands of these competitive times.

Deadline Nears For Entries in Hobby Show

Over fifty entries have been registered for the Scovill Hobby Show to be held at Doolittle Hall on Saturday and Sunday, January 25-26, 1958.

With the number of calls and inquiries coming in, committee members estimate there will be approximately 100 entries in the exhibit.

The deadline for registering entries is Thursday, January 9. Applications to be sent in to the Employee Activities Office. Application blanks are available in the Office and a call will bring you complete details.

Entries are being received from retired as well as active employees and members of their families.

There is no entry fee and there will be no admission charge at the hall. All are invited to stop in and see the collections and creative items and historical items which serve as hobbies for so many people.

Twenty-One Retire On New Year's Day

As of January 1, 1958, 18 Waterbury Division and 3 Waterville Division employees have retired from active service. Their individual continuous service records range from just under 10 years to over 52 years.

To all retirees go our best wishes for a long and happy retirement.

Over 50 Years' Service

JAMES P. WATERS, Waterville Div., retires with 52 years and 9 months of continuous service. Hired as a clerk in the Packing and Shipping Dept. in March, 1905, Mr. Waters has served as Assistant Production Superintendent, Production Superintendent and, on retiring, was a checker and serviceman. In March, 1955, Mr. Waters was assigned the responsibility of opening up the new Plumbing Materials warehouse in Chicago. He returned to Waterville in August, 1956.

JOHN H. CULLINAN, Estimating, accumulated 50 years and 9 months of continuous service. He started as a timekeeper in the Plating Room in April, 1907 and, in turn, has served as purveyor in Class #1 office, clerk in Tool Machine, Asst. to the Tool Supt., tool purveyor and expeditor. Since 1946 he has been in Estimating as Supervisor of metal records.

FRANK E. SMITH, Metals Research, has a 50-year, 2-months' continuous service record. Always in Metals Research, he joined Scovill as a laboratory assistant in October, 1907. In 1917 he was made Chemist and, in 1947, was named Analytical Chemist, the position he held when retiring.

40 to 50 Years' Service

HERBERT D. CLEMMONS, Waterville Div., has been retired with 48.5 years of continuous service. He had served in the Morency Van Buren Company in Sturgis, Mich. from 1909 until 1925, when M-VB became one of our divisions. While at M-VB, Mr. Clemmons had served as Factory Superintendent and Assistant Manager. When that company was merged with the Waterville Div., Mr. Clemmons came to Waterville as Methods and Design Engineer for Plumbing Fittings. In 1954 he was named Research & Development Engineer.

LILLIAN COSGRIFF, Waterville Div., has a service record of 47 years and 3 months. Mrs. Cosgriff joined the Company as a telephone operator in October, 1910, serving in that capacity until Sept., 1943, when she was assigned receptionist responsibilities at the main entrance. She has been at this post until retiring.

CLARENCE BUDD, Milling & Grinding, accumulated 46 years and one month of continuous service. Except for a short period in Brass Finish #2, Mr. Budd has always been in Milling & Grinding. He has served as grinder, instructor, and since January, 1951, has been working supervisor.

BENJAMIN HALES, Casting Shop, has completed 41 years and 2 months of continuous service. Coming to Scovill in 1916, Mr. Hales served for a short time in Fuse 23. Since 1918, he has been in Casting where he has been crane operator, crane foreman and, since March, 1953, scale clerk.

GIOVANNI CORTESE, Trucking, retires with 40.3 years of continuous service. He has always been connected with Trucking and Elevators, and was serving as a trucker and elevator operator when illness forced him to leave in June, 1957. He retires as of December 23, 1957.

PETER SZCZEPANSKI, North Mill, has a service record of 40.2 years. Except for a brief period in the Strip Mill in 1949, Mr. Szczepanski has served in the North Mill since coming in to the plant in October 1917. When retiring, he was an inspector-overhauling machine.

25 to 40 Years' Service

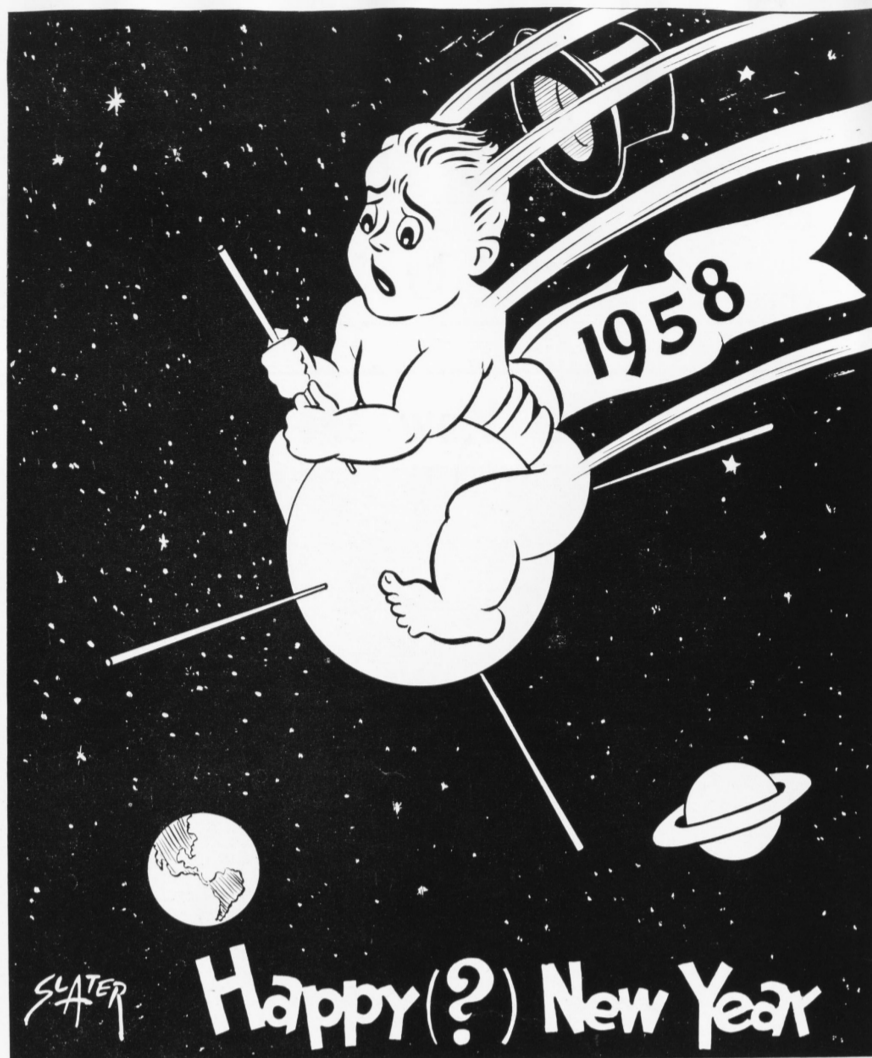

JOSEPH BRENNIS, Mfg. Metal Stores, has served in the Company continuously for 38.5 years. He started as an estimator in the Tool Machine Div. in July, 1919, and has also served in Class #9 and Production Offices. In Metals Stores since December, 1927, he has served as clerk, assistant foreman, inventory clerk and, since January, 1953, as supervisor.

Birthday Greetings to Joe Black

Sincerest congratulations to Joseph Black who celebrated his 90th birthday on December 29th. Above, Mr. Black tells Social Worker Marie Hayes and Margaret Fenske how his Tool Toom (he was foreman for many years) made the tools which were used to make the fuses for shells during World War I.

Miss Fenske holds a sectioned shell which was presented to Mr. Black when he retired in 1931 after almost 40 years of continuous service.

JACOB WESTFALL, Tinsmith, retires with 37.6 years of continuous service. Mr. Westfall came into the Box Shop in March, 1920, as a box maker. Two years later he moved to the Tin Shop where he has served as a tinsmith and sheet metal worker.

ADAM SAROKA, North Mill, accumulated 36.2 years of continuous service. Mr. Saroka came to Scovill in March, 1916, and worked for a short time in the Packing Room. He returned in August, 1921, to the North Mill and, when retiring, was serving as an inspector in the Finishing Div.

ERNEST HARRISON, Oil House, has completed 34.1 years of continuous service. He first came into Buff #2 as a buffer in February, 1916. His continuous service record started in February, 1926, when he came into the Pipe Shop. In March, 1933, he transferred to the Oil House where he served until retiring. He had been a pipe fitter-car unloader.

ALEX BAKUN, Casting Shop, has a service record of 34.5 years. Hired into Casting as a crane operator in July, 1922, Mr. Bakun has always served in that department. He was a locker room attendant when retiring.

VICTORIA KIBART, Solder Room, retires with 33.8 years of service. Mrs. Kibart first came to Scovill in September, 1922, and has always served as a solderer. Except for a short period in the Valve Room, she has been in the Solder Room.

CHARLES MAREK, Mill & Grinding, has accumulated 32.3 years of continuous service. Coming to Scovill in November, 1915, he served for a short time in Fuse #20 but has served mostly in Mill & Grinding. He has been a supervisor, a working instructor and, when retired, was a tool grinder.

SOPHIA S. HURNOVICH, Buff 3, has served in Scovill continuously for 30.1 years. Hired in July, 1918, Mrs. Hurnovich spent a number of years as a press operator in various departments. In November, 1945, she moved to the Buff Room where she has been serving as a buffer.

ANGELO CANTINO, Salvage, has completed 28.4 years of continuous service. Mr. Cantino came to our Casting Shop as a moldman in October, 1928. In May, 1930, he transferred to the Salvage Dept. as a utility man and, at the time of retirement, was serving as a sorter.

Under 25 Years' Service

ANTHONY ZIELSKI, Japan Room, retires with 15.2 years of service. Mr. Zielski was first hired in July, 1915, in the North Mill. With several periods out of the plant, he has worked in Dry Roll, Closing and, since January, 1951, has been a screening barrel operator in the Japan Room.

THOMAS DONAHUE, Sanitation Dept., has a continuous service record of 14.8 years. From November, 1942 to 1945, (Continued on Page 3, Column 4)

The True Meaning and Spirit of Christmas

"It Is More Blessed To Give Than To Receive"—

Holiday Blood Special (#1-5):—132 employees volunteered to donate a pint of blood so that this precious gift of life would be available for some unfortunate persons. (3) Mrs. Harry Michaels presented 1-gallon donor pins to Santa (Nicholas Buonocore) Claus, Orlando Nallo and Charles Brusie. (2) Santa congratulates Adam Balkus who has given almost four gallons while Leon Chemlin, another 1-gallon donor, looks on.

Food Baskets and Toys for Needy Families (#6, 7):—Employees help through their purchase of cards and candy to provide food baskets and children's clothing for less fortunate families and make possible the annual Christmas parties which this year were attended by over 1000 children.

(#6) These girls made outfits for and dressed over 30 dolls to be sent to youngsters who otherwise might not have received toys at Christmas. They are:—Barbara Gilroy, Juanita Addressio, Mae Buckley, Prima Izzo, Hazel Carrington, Madelyn Fitzpatrick, Julia Iava, Ruth Hutt and Louise Bolt.

'Tis The Season To Be Jolly—

The gay spirit of Christmas was evident throughout the plant with gayly decorated trees such as the "bought" one (#8) in Milling & Grinding, and the "home made" one (#9) in the Hardening Room. Parties held after office hours included (#10) Merchandise Sales at the Girls' Club and (#12) General Mfg. Tool Room at Long Acre Inn. There were also noon-time parties such as (#11) in Addressograph where JoAnn DiRienzo, Earl Odell, Lillian Grady, Kay McHale, Mary Shelley and Edward Fredericks pose about their tree.

Rod & Gun Club News

Rod and Gun Club members know a good team when they have one!

After reviewing the accomplishments of 1957 at their annual meeting, they returned to office by acclamation the entire officer group!

Over the protestations of the incumbents that other members be permitted to fill the honor spots, the entire membership present unanimously accepted the decision of the Nominating Committee and re-elected for 1958 the following:

President:—the ever popular, debonair, White Owl enthusiast, champion fisherman and hot shot golfer—*Johan Frederick Hubbard* of Employee Relations.

Vice President:—that quiet, efficient and effective vibration engineer, spinning expert and plug caster—*Henry Metz Miller* of Engineering.

Treasurer:—U. S. Navy's gift to Hot Forge, the only sailor people in South America still remember with mixed emotions—Whirlaway's greatest advocate, one of the few fishermen who can quote *Dunn and Bradstreet*—*Anthony "Gobby" Sandulli* of Hot Forge.

Secretary:—Quiet, unassuming, meticulous and articulate, tall, redheaded and goodlooking, with Viking blood in his veins and Scovill grease on his hands, one of our finest "setback" players—*Robert Edward Anderson* of Hot Forge.

We wish to congratulate the membership on their excellent judgment on returning to office this successful team of popular leaders. Under their guidance, 1958 will be another banner year with tight lines and well baited hooks.

Pinochle Tournament

The first round of the tourney was completed with the play of Thursday, December 26. Final scores show Matulunas' boys in top spot with 478,600 points. Second place was taken by Laudate's boys with 467,270 points, third went to Mancini's boys with 463,495.

The second round was scheduled to start on Thursday, January 2nd.

January Retirements

(Continued from Page 2, Column 4)

he served as a process inspector in Chucking; for a couple of years was a rod feeder in Automatic Screw Machine and, since April, 1947, has been an office maintenance man.

STANISLAW RUTKOWSKI, A.S.M.D., has completed 14.1 years of continuous service. First coming to Scovill in May, 1916, he worked for a short time in the Dip Room. He served as floorman in Chucking for about two years and, since September, 1945, has served in that capacity in ASMD.

FILOMENA GIUSTO, Press 2, retires with 8.7 years of continuous service. Coming to Scovill in October, 1946, she has served as a power, foot press and bench worker in Hot Forge, Assembling, and in Press 2.

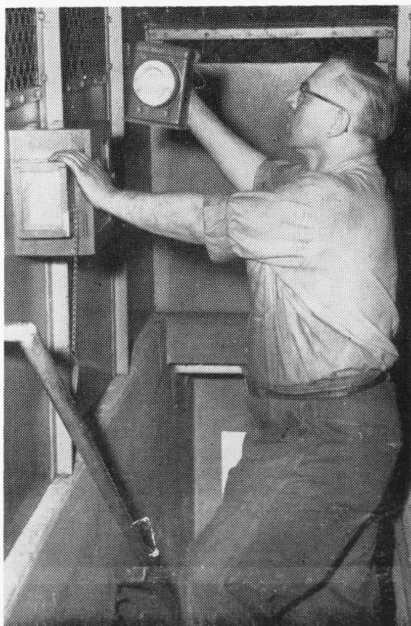

Keep Battery-Operated Lights Handy

Maurice Robitaille (right) shows where the battery operated lantern is kept at the Bell Furnaces in the North Mill for emergency use.

Battery-operated lights, kept in easily reached locations, are a must in the plant. They're a good idea also for your home, and even in your car for night driving emergencies.

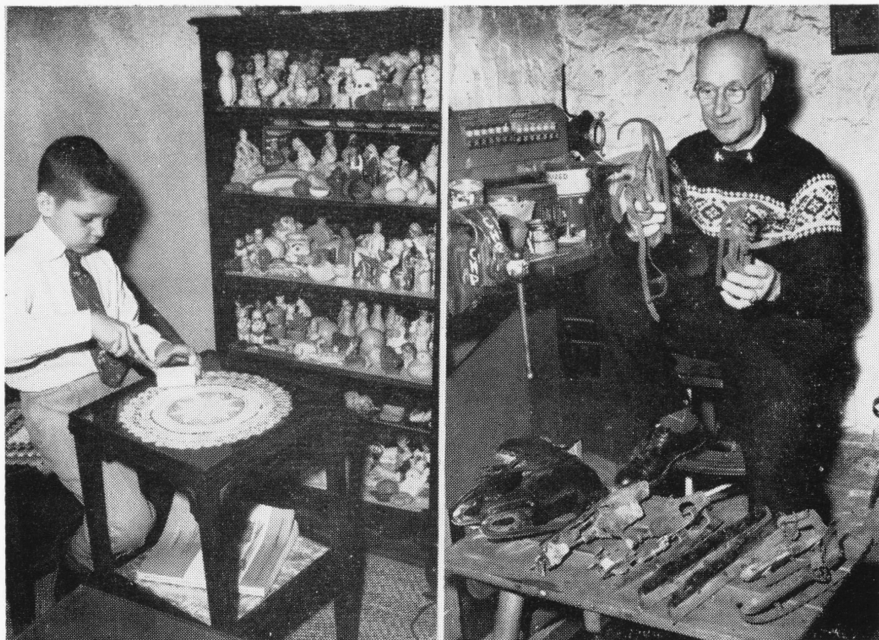

In the plant, in the event of a power failure during the second or third shifts, sections of some buildings are without good light. Not for long, however, as battery-operated safety lanterns are kept at convenient locations for use in such cases.

The lanterns are checked regularly to be sure they are in operating order. Battery-type lights at home, or in the car, should be checked monthly to be sure they'll be ready to use should an emergency arise.

Soap and Skates Entered in Hobby Show

John Galgot, of Press 2 Toolroom, and son Keith are one of the father-son teams to register for the Scovill Hobby Show. Keith (left) cuts into a fresh bar of soap as he prepares to add another "Galgot Original" to his collection. John, a well-known skater, is shown holding the oldest pair of skates in his collection, which are believed to be over 125 years old.

The Galgots, father and son, both cut a fine figure — whether it be out of a bar of soap or on the ice skating rink. Each is entering the Scovill Hobby Show. Fancy figure skating, however, is their main interest.

John, a toolmaker in Press #2, has been a well known fancy figure ice skater for some time. His specialty has been dancing on ice and he has won prizes in the U. S. Figure Skating Assoc. competitions. John currently conducts a course in figure skating.

Young Keith is following in his Dad's footsteps. Although just nine years old, he can cut a fine figure on ice and last year, while Dad conducted his ice skating class at Hamilton Park, had his own little class of youngsters.

Three Succumb

JOHN H. JONES, retired, died on December 19, 1957.

Mr. Jones, who had always been a toolmaker during his career in Scovill, had a continuous service record of 33 years when he retired in December, 1951. He had worked in the Main Tool Room, Welsbach, Cosmetic and Press #2 departments.

WILLIAM J. KELLEY, retired, died on Christmas Day, December 25, 1957.

Mr. Kelley, who was retired in July, 1938, had spent most of his 35 years of service within the Company in the Rod Mill as a toolsetter. He had also served in this department as Assistant Foreman for a time.

CHARLES PUGRA, retired, died on Christmas Day, December 25, 1957.

Mr. Pugra had retired in August, 1953, after almost 44 years of continuous service. He had been a North Mill employee during his years here.

Not to be outdone by the men in her family, Mom also gets into the act. And act it is when the three Galgots perform. They are members of the New Haven Skating Club and enter exhibitions sponsored by the Club throughout the state. Vacation time also sees them on ice. If there's no ice available close to home they go where it is—Lake Placid, Valley Forge, etc.

If time or conditions do not permit travel, they do their skating at home. John has built a 24' x 28' rink in the back yard. It has a roof and gayly red and white striped walls. There is also a setup for music for their skating.

Keith's entry in the Hobby Show is a fine collection of hand carved soap figures. The collection began with Grandmother who had a couple of pieces given to her. She started experimenting with carving; soon Grandfather became interested, and it wasn't long before Mom and Dad were joining in.

His collection of over 200 items covers a wide variety. Among his prized possessions are a shoe ice skate carved by his Dad and an elaborate Grandfather's Clock. Many of the items have been given to the family by friends.

Keith, a 4th grade student at Chase Grammar School, recently showed several items of his collection on the Ranger Andy TV Show on Channel 3.

Watching his elders developing figures out of ordinary bars of soap, and with the natural desires of a young boy for carving, it wasn't long before Keith was also taking a keen interest in the art.

While still just a beginner, with three carvings to his credit to date, Keith believes it won't be too long before he will be adding some beauties to the family collection.

Scovill Credit Unions

Members of Scovill Credit Unions are urged to attend the annual membership meetings to be held this month. Elections of officers, voting on dividends and other pertinent business will be conducted.

The business meeting will be followed by a social with refreshments.

Credit Unions meetings are scheduled as follows:

Credit Union #1, West Plant—Tuesday, January 21, at 7:45 p.m. at the Girls' Clubhouse. President John L. Robinson will preside.

Credit Union #2 No. Mill, Strip and Wire Mills—Monday, January 20, at 7 p.m. at the Scovill Girls' clubhouse.

Credit Union #3, X-Rod, Tube Mill and Casting—January 17, Friday, at 7:30 p.m. at the Girls' Clubhouse.

Credit Union #4, East Plant—Tuesday, January 14, at 7 p.m., at the Scovill Girls' Clubhouse.

Credit Union #5, Waterville Div.—Wednesday, January 29, at 8 p. m. at the Waterville Plant.

Girls' Club News

By Juanita and Theresa

This is the last column to be written by your current reporters (Juanita Addessic and Theresa Ryan). It has been fun and as we say "Arrivederci," we would like to introduce your new reporter—Vera Scott of Lipstick. If you have any news, please be sure to call her at Ext. 648 or drop her a note, to Lipstick 71-4. She will appreciate it.

Loretta O'Toole, Purchasing, sure is a happy girl these days — she received a beautiful diamond for her birthday!

Marie Guerrero was married on Saturday, Dec. 28, to Al Norkus of Bridgeport. To say she looked like an ad for Bride's Magazine is putting it mildly. The best of luck, Marie and Al.

Eleanor Fitzpatrick celebrated her 21st birthday on Dec. 29. She was taken to dinner by her friends . . . The girls of B & F Sales spent an evening at Eleanor's home to sorta celebrate the holidays.

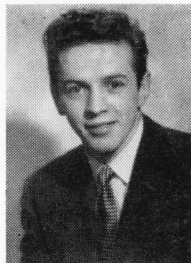

Irene Rosato is very busy these days—she's getting married on January 18.

Margaret Fenske spent Christmas in Buffalo — ask her about that rough return flight . . . Rose Iarrapino spent New Year's Eve in New York City . . . Terry Narbut flew to Chicago for a pre-holiday visit with her brother.

Training Course

December Graduates

Fred Darley is assigned to Waterville Div. as rivet-maker.

Frank Martinelli, assigned to the East Machine Room as machinist.

Alexander Peregada has been assigned to the Oakville Div. as a tool-maker.

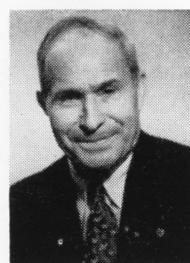

William Shugrue has been assigned to East Machine as machinist.
