

SCOVILL BULLETIN

Seasons Greetings

SCOVILL

EMPLOYEE RELATIONS

Christmas Season's Greetings

With the approach of the holiday season, I once again have this opportunity to express my personal greetings to Scovill employees and their families. It is my hope that these good wishes can be reflected in our relationship and activities throughout the year.

This is the season to evaluate the many things that have happened during the past year—and to look ahead with firm resolve to those things which we can do to make the new year better. It is a time for thoughtfulness, as well as thankfulness.

May you and your families have a good Christmas, with a prosperous, healthy New Year to follow.

Sincerely,

S. Trullinger
President

On behalf of Scovill Local 1604, UAW, I wish to extend a Merry Christmas and a Happy New Year to all Scovill employees and their families.

Sincerely,

Ralph Daddesis

President,
Scovill Local 1604, UAW

Holiday Shutdowns

Christmas Shutdown

Waterbury Divisions and Services will close for Christmas at the end of the work day on Friday, Dec. 23, 1960 and will reopen with the start of the first shift on Tuesday, Dec. 27th.

Employees will be paid on their regular schedule.

New Year's Shutdown

Waterbury Divisions and Services will close for New Year's at the end of the work day on Friday, Dec. 30, 1960 and will reopen with the start of the first shift on Tuesday, Jan. 3, 1961.

Employees will be paid on regular schedule in their departments except that pay day will be one day later than usual.

Any exceptions to the above schedules will be by individual notification or by posted notice.

"Holiday Special" December 22nd

Plant-Wide Blood Donor Day

Employees throughout the entire Waterbury divisions are invited to participate in the annual Employees' Holiday Special Blood Donor Day on Thursday, December 22, at Doolittle Hall, from 12:45 to 5:30 p. m.

Main efforts of this visitation are being concentrated on Division #4 which is normally scheduled to give at the fourth Blood Donor Day of the year. This division is comprised of General Manufacturing, Purchasing, Transportation and General Offices.

In addition, representatives of all Waterbury divisions are serving on the general committee. Working with this committee, each department head has at least one representative to take the names of volunteers who will donate a pint of blood at this time.

Applications should be available in each department. However, if you have not been contacted by a department representative (and if you are between the ages of 18 and 60) why not call the Employee Activities Office, Ext. 834. They'll be most happy to accept your name as a volunteer donor.

Transportation will be provided by bus from various locations in the West Plant to Doolittle Hall.

At least 160 pints of blood are to be collected if we are to maintain the excellent records set by the three other visitations this year.

Retired Folks' Club To Attend Movies

Retired employees of the Waterbury and Oakville divisions will be guests of Miss Julia Smith at the State Theatre on Wednesday, December 14th, for the afternoon performance, of the musical "Song Without End."

Cards have been mailed to all members of the Club and they are asked to bring these to the theatre with them as identification. They are asked to be at the theatre by 12:45 p. m.

Kids' Christmas Party

Saturday and Sunday (December 17 and 18) from 2 to 4 p. m. are the dates and times for the annual Children's Christmas Parties, which are sponsored by the Scovill Girls' Club.

These parties are arranged for children and grandchildren of Scovill employees and they are limited to children between 2 and 10 years of age.

Tickets are on a first-come, first-served basis and are available at the Employee Activities Office.

40 AND 25 YEAR NOVEMBER SERVICE AWARDS PRESENTED.

President S. T. Williams congratulates Jose Pereira on the completion of 40 years of Scovill service. Directly

behind Mr. Pereira's left shoulder is William Tedesco, Asst. Foreman of Rack Plating, who also completed 40 years of service. Others in the photo are 25-year employees.

TRAINING COURSE GRADUATES

Left:—ALEXANDER BUCCINI was graduated as an Eyelet Toolmaker and was assigned to the Gripper Eyelet Tool Room as of November 28, 1960.

Right:—BERNARD DOWLING was graduated as a Machinist and has been assigned to the East Machine Room, as of November 7, 1960.

Your Social Security

"How do you expect me to live on that?" This is the question often asked at the social security office when a claimant is told what to expect in the form of monthly benefit checks.

However, social security benefits were never intended to furnish all of a person's income when he retires, but to form a foundation upon which to build a retirement structure. A working person should strive to build additional protection by means of private effort and individual thrift.

Surveys conducted show that three out of four social security beneficiaries have other income. There are some twelve million persons now drawing \$650 million dollars monthly in social security benefits, but only 25% of the aged beneficiaries depend on their social security benefits alone.

In planning for your retirement, and for the security of your family in case of death or disability, an estimate of probable amounts of social security benefits payable to you and to your family is necessary.

The local office will be glad to cooperate by estimating the amount of social security a person may expect when he retires. They have a motto that advises prospective retirees — "inquire before you retire".

Pinochle Tourney

Standings for the evening of Thursday, December 1, were as follows:—

Laudate	36,455	289,005
Matulunas	33,745	281,345
Mancini	36,830	286,430

High scorers for the evening were: Laudate, 5020; D'Angelo, 4345.

TO THE RESCUE!

This is the title used for this GRIPPER Snap Fastener color ad (right) which appeared in Good Housekeeping and Parents magazines recently.

Following is a letter received by our Advertising Dept. from a third grade student, telling his "story" of the picture:

"Once a little boy was playing fireman and a little girl was playing with her kitten.

"The kitten got scared and ran up a tree. The girl called the boy and the boy got his ladder and went up the tree and got the kitten down.

Yours truly,

*Robert Greer
Third Grade
Pioneer School
St. Johns, Ariz."*

Advertising Makes Friends, Too

The appealing picture above is one in a series being carried in the Good Housekeeping and Parents magazines advertising our GRIPPER Snap Fasteners.

With illustrations created and drawn by Peter Hawley of Riverside, Conn., the ads are run in full color and each one draws wide - spread interest throughout the country as evidenced by the number of requests coming in for the drawings.

The youngsters in the ads are so lifelike that they are claimed by many people as their own—mothers write in, insisting their children could have been the models, so alike are they, and ask for the original drawings or reprints of the ads.

The letter above is the result of a request by the third-grade teacher in Pioneer School, St. Johns, Arizona, who wrote in asking for a copy of the ad to post on the bulletin board. Robert Greer was chosen to write the "thank you" letter to the Company and tell his story of what the picture is about.

Several special organizations and groups have been placed on a permanent list to receive color copies of these ads. One such group is the Children's Ward in a hospital in Chicago. A charity ward, many of the youngsters here are permanent patients with no personal possessions. They so look forward to receiving the photos and, when one is received, tell the nurses that their "Good Fairy" has sent them.

Of course, the ads are published to serve another purpose. They are meant

to educate manufacturers of children's garments and parents on the advantages of using GRIPPER Snap Fasteners as closures on all types of infants' and children's garments.

Letters from readers testify that the ads are eye-catching and easily convince many readers to give the GRIPPER Fasteners a try. Their comments on garments with GRIPPER Snap Fasteners: "they are wonderful for the diaper set".

Fishing Notes

By Mike Cicchetti

The banquet of all banquets was held at Doolittle Hall on November 17th, with 88 fishing enthusiasts in attendance. Milt Burrall M.C.'d the affair; Vice President George Goss, Rod & Gun Club president Jim Coffey and SERA president Vinnie Manzolli spoke briefly; and Judge Francis Reeves was among our honored guests. Club Vice President Harold Rogers presented the awards.

Declared Champion of the 1960 Fishing Season was Emil Kazmaier whose prize catches were 3 black bass: 15 $\frac{1}{8}$ "", 18 $\frac{3}{4}$ " and 13 $\frac{3}{8}$ "; 2 pickerel: 23 $\frac{1}{2}$ " and 17 $\frac{1}{2}$ "; 1 perch: 11 $\frac{7}{8}$ ".

Ed DeBisschop and Yours Truly served as co-chairmen for the event.

The banquet marked the official close of the 1960 fishing season at Woodtick and things will be fairly quiet until the ice fishing contests get underway. Meanwhile, Bob Fumire reports that 3,500 pond shiners have been put into the lake to take care of the big ones until next year.

Christmas Mailings —Local, In-Plant

By now, of course, your out-of-state Christmas mailings should be taken care of. However, if they aren't, Postmaster William J. Phelan issues the following suggestions for before-Christmas-deliveries:

Christmas cards to Canada and Mexico and all other foreign countries:—4¢ for the first 2 ounces and 2¢ for each additional 2 ounces or fraction. 3¢ stamps on such mail is not enough and these cards will not be delivered or returned to sender.

The facing of letters and cards so that they are all stacked the same way, with the address facing the same way, as well as the tying of mail into Local and Out-of-Town bundles, will expedite the mail. Free labels are available at the post office.

Waterville, Wolcott and Prospect are local mailings—bundle your cards for these areas accordingly.

Unsealed, flap tucked in, Christmas greeting cards, just a signature—3¢ first 2 oz., 1½¢ each additional ounce or fraction of an ounce.

It is best to use first class mail—4¢ an ounce on your Christmas cards. By so doing, you may include a personal message and your card may be forwarded or returned if necessary.

In-Plant Mailings

If you are sending cards to associates within the plant, be sure to write out the department name in which the person is employed. Do not use department or building numbers.

Please do not bring in your personal Christmas cards for mailing from the plant. Our Mailing Dept. is swamped with regular business mail and cannot handle personal mailings.

NOVEMBER RETIREES FETED. Upper photo: John Blacker is the honored guest in the Pipe Shop; lower photo:—Robert Miller receives best wishes of co-workers and associates in Attaching Machine. Both men retired as of November 1, 1960.

Girls' Club News

By Julia Santopietro

That time of year is here again when our members are hustlin' and bustlin' to help good old St. Nick in his preparations for the holidays.

Employees all through the plant are contributing greatly by their purchases of Christmas cards and candy now available at the Employee Service Store, located on the ground floor of the Employee Relations Building.

We can't express enough thanks to those wonderful gals in the Accounting and Purchasing departments who are outfitting dolls to be included in the Christmas baskets for the children of our less fortunate families. Chairman Ruth Hutt reports, at press time, that 25 dolls are being outfitted and contributed by these girls.

Council members working on the baskets are: Clo Read (food), Violet Dander (toys) and Evelyn Smoil (clothing). Clo will also see that our retired members are remembered.

The children's parties will be held on December 17 and 18, and members are invited to come out and join in the fun of helping Santa with the youngsters. Call Betty Affeldt if you can attend on either of these days.

One unhappy note to report at this time is that Ann Romano was confined again in St. Mary's hospital. We sincerely hope she is home and doing nicely when this issue is off the press.

A Very Merry Christmas to all!

Retirements

JENNIE POSA, miscellaneous machines operator and bench worker, Cosmetic Mfg., retired as of Nov. 14, 1960—over 34 years of service.

JEROME G. WOLFF, Works Manager of the Closure Division, retired as of Dec. 10, 1960—41½ years of service.

Effective Dec. 1, 1960

FRANK E. DURANT, tool draftsman in Tool & Production Design—almost 27 years' service.

LATHAN A. MALONE, toolmaker in Blank & Draw Tool—almost 34 years.

MATTHEW MONZILLO, power riddle operator in Screw Machine Packing—48 years' service.

JOSEPHINE SCHAEER, miscellaneous machines operator and bench worker in Drawing—16.7 years.

Archery Classes

Much enthusiasm is being shown in the Archery Classes held at Doolittle Hall each Monday from 7 to 10 p. m. The activity is open to all employees and their families.

Carl Pickett, chairman, reports qualified instructors are on hand to work with beginners as well as the more advanced archers. Equipment is available at the hall for employee use. At present, there are 15 regular attendants with 3 targets in constant use.

The Best And Cheapest Gift

By Robert W. Butler, M.D.

This is the season of giving. Almost everybody's running around starry-eyed and open-pursed wondering what to buy for Nellie, Henry, or Aunt Maggie—but, how about a much more precious gift for someone you don't know, and one which won't cost you a dime?

To the best of my recollection, this space has never been used to make a pitch for anything but the preservation of your health and certainly will never be used for anything which would *harm* it—so this gets us to the point:

HOW ABOUT A PINT OF YOUR BLOOD ON DECEMBER 22nd?

The process is painless and you'll never miss it. Why? Because you have a spare reservoir in your system which will supply the deficit in about 24 hours or less, and the blood taken from the reservoir will be entirely replaced by the blood-making organs in about 3 weeks. And all this goes on without your knowing anything about it!

It's unnecessary to discuss here the who can and who can not donate since you've doubtless read all about it many times before. If you haven't, ask Joe—he'll tell you. Let's just say that if you feel well and are under 60, you're probably a good candidate; and if you're not, they'll tell you at the bank. They won't let you overdraw your account—whether you want to or not!

There's no point, either, in discussing the importance of having good supplies of blood in our hospitals ready for immediate use. It has saved many a life in an emergency, and shortened the period of recovery in a multitude of others. There is probably no one who will read this who hasn't had a relative or friend who has needed it, or maybe has had to have it himself. If we're wrong, send your picture to the *BULLETIN* and we'll get it in the next issue!

The reason for the bank is pretty apparent: it's impossible to guess on any one day in any one hospital how much will be needed the next day; and if you really need it, friend, blood is a lot better than weak tea!

Let's pause for a minute and give a little thought to the poor unfortunate who will be the filling in a sheet sandwich in some hospital this Christmas. Do you think he's very much concerned with whether the Christ-

FOR THE CHRISTMAS GIFT LIST. *For the man who has everything but (and even for the man who doesn't)—these two gift suggestions make good presents.*

Looking for a worth-while gift? Why not consider the above items—they're ideal for your shopping list. It's good sense to have these at home and in the car on trips.

Another better idea is to plan a safe Christmas so extinguishers and first aid kits won't be needed. Home accidents can be prevented.

—furnaces and chimneys can be made safe,

—electrical wiring can be in good order and not overloaded,

—poisons can be marked and put out of reach of children,

—flammable liquids can be eliminated or kept in small quantities in safe cans,

—decorations can be found which don't make a fire hazard,

—candles can be used with good sense and care,

—falls can be prevented by atten-

tion to slipping and tripping hazards. *mas party will be a blast or a bust? I don't think so.*

So, since this is the season of giving, why not make the gift that will cost you absolutely nothing and may give someone a new lease on life?

Who knows? That someone just might be you—or me!

Filling the blood bank quota is always a very important undertaking. Can you think of any better time than the Christmas season to *double* it?

tion to slipping and tripping hazards.

Ordinary common sense and a few minutes here and there at home can make a big difference in holiday happiness. Be thoughtful for the safety of others—make it a **SAFE CHRISTMAS, TOO.**

Winterize Your Driving Habits

In our section of the country, winter is accompanied by sleet, snow and ice. Together or singly, these elements plague drivers and add extra road hazards to winter driving.

To cope with these bad weather problems, every driver should take the following steps:—

- 1) Decide first if the trip is absolutely necessary
- 2) Allow extra time for the drive
- 3) Drive slowly, adjusting speed to road and weather conditions
- 4) Remember that bridges and intersections become icy first
- 5) Test the road; find out how slick it really is
- 6) Pump brakes gently when slowing or stopping to avoid skids
- 7) Use tire chains on icy and snowy roads. Don't try to "luck" your way through
- 8) Maintain good vision through windshield and rear window.

BEEFING UP THE BIG PUSH. *New equipment has been installed in the Extrusion Division of the East Mill to eliminate unwieldy handling operations and to improve work flow from continuous casting machines to rod and wire mills. The new 80-foot long furnace at the left can bring 33,000 pounds of brass alloy billets per hour to*

extruding temperatures. These red-hot billets are then pushed through the extrusion press (center background) with pressures up to 2,750 tons. The operator at the instrument panel is controlling the new Scovill-designed and built coiling machines recently installed alongside the run-off table of the extrusion press.

Adult Dancing Class

Over 75 persons attended the Adult Dancing course which was completed recently at Doolittle Hall.

Instructor Hector LaRiviere announces that the current course, which started on Wednesday, December 7th, will not be conducted during the remainder of December. Classes will be resumed in January, after the holidays.

Each session of the eight-week course consists of a period of instruction followed by social dancing and refreshments; and are open to individuals as well as couples. There is a nominal fee for the instructions.

For further details, call the Employee Activities Office, Ext. 834.

Wise Owl Club

Sight Savers

Eye accidents befall children most frequently during unsupervised play or sports, points out the National Society for the Prevention of Blindness.

To avoid needless eye injury, parents should instruct children in the dangers of pointed sticks, bows and arrows, slingshots, BB guns, etc.

Obituaries

JOHN CULLINAN died on November 8, 1960. Supervisor of Metal Records in Estimating when retired in January, 1958—almost 51 yrs' service.

FRANCESCO CANDELORO died on November 9, 1960. A buffer in the Waterville Buff Room when retired in January, 1955—30 years' service.

JOSEPH A. SULLIVAN died on November 12, 1960. A grinder in Milling & Grinding Dept.—21 years.

ERNEST CADOTTE died on November 14, 1960. Inspector of Finishes in the Development & Experimental Lab when retired in December, 1939—35 years.

FRANK A. McGRATH died on November 16, 1960. Foreman of Drill & Tap when retired in May, 1949—46 years.

BERNARD W. DRESSELL died on November 26, 1960. A productive helper in the Casting Shop when retiring in January, 1957—34 years.

ANTHONY A. GRISKA died on November 27, 1960. A rotary wire pointer operator in the Wire Mill—12 years.

FRANCIS KILLORIN died on November 22, 1960. Division sales manager, Contract Mfg. Div., when retiring January, 1955—26 years.

CHESTER RASMUSSEN died on December 1, 1960. Floorman in Attaching Machines when retired December 1, 1959—over 26 years.

New Milford Keglers

Scovill Afternoon League

Each Tuesday, at 5:30 p. m. sees the six teams (4 bowlers each) of this mixed office league rolling against the ten pins of the New Milford Lanes. Tony Brunetti, manager, reports standings as of December 1st:—

High Ave.—Men:—Jack Danaher, 166; George Theisen, 159.

High Ave.—Women:—Pat Bonner, 132; Bertha Cronen, 122.

N. M. Tube Mill League

This league is comprised of four teams, four men each, who bowl at Perillo's Bowl-O-Drome on Meriden Road each Wednesday at 7:00 p. m.

Officers:—President and Secretary, Joseph Phelan; Treasurer, Tom Farrell; Asst. Treas., Ken Ackerman.

Standings as of Nov. 30 show:—

Notre Dame	won 18	lost 9
Army	won 15	lost 12
Navy	won 14	lost 13
Yale	won 7	lost 20

High Ave.:—Undie DelRusso, 112; John Egan, 110; Tony Narstis, 108

High Single:—Peter Rosato, 145

High Three:—John Egan, 379

High Team Three:—Army, 1306

The maintenance department has the kind of job that nobody notices unless it isn't done.
