APRIL, 1965

Published by Scovill Manufacturing Company for its Employees

\$168 PARTIAL PAYMENT FOR SUGGESTION. Ray Kasidas (left) of General Mfg. Tool, explains his idea of assembling couplings to Suggestion System Administrator William Armour. His method eliminates one operation, thereby cutting production costs. The suggestion will be reviewed at a later date and a final award given.

\$108 TOTAL AWARD FOR SUGGESTION. A review of Elenore Estelle's suggestion which was adopted a year ago, brought a final payment to her in March. Here she discusses her proposed method of making masters, which resulted in a saving of paper work, with John Daniels, Supervisor of Production Planning in the Aluminum Mill.

Other March Awards

- \$40.00—John Mongillo, Transmission Assembly
- \$30.00—Michael Rahuba, Closure Tool Room
- \$25.00—Richard Brown, Screw Machine Packing
- \$25.00—John DeBlasio, Jr., Hot Forge
- \$24.00—Joseph Arnone, Millwright Dept.

Letter of Appreciation

Mary Ellen Pirog, Mill Sales; Frank Giattini, Blanking; Frank Loffredo, Rod Mill (for two suggestions); Richard McCarroll, Tabulating; George LaPointe, Milling & Grinding.

Walter Geigle, Pipe Shop; Nicholas Monaco, Mfg. Metal Stores; Herman Reiss, General Mfg. Tool; Melvin Nute, Electrical Dept.

1965 Vacations

The vacation shutdown period in 1965 for the Waterbury Divisions and Services will be the two-week period starting with Monday, July 5th, and ending with Sunday, July 18th. Exceptions to this schedule will be by notification in departments or to individual employees.

July 4th falls on Sunday this year and, so, will be celebrated on Monday, July 5. Employees who qualify will receive holiday pay for this Monday.

Employees entitled to more than two weeks of vacation and those required to work during the shutdown will be canvassed for their choice of time off. Such vacations must be taken in full calendar weeks.

Three weeks' advance notice is required so that vacation pays can be prepared by the Payroll Department and delivered immediately prior to each employee's vacation.

All vacation time an employee is eligible for must be taken.

To Scovill Employees:

Congratulations to Scovill employees and to Messrs. Fred Wilson, Earl Tooker and Raymond Ladden, and to their respective committees, for the extremely successful Bloodmobile visit to Scovill on March 16, 1965.

The record of 239 pints of blood is something for which Scovill employees can be justly proud.

It is our fondest hope that such success will establish the pattern for all future Bloodmobile visits to the Greater Waterbury area, and that the recent efforts of Scovill employees in behalf of the Blood Donor Program will stimulate others in the area to "get behind the wheel of the Bloodmobile."

J. Nelson Bridges,
Chairman
Blood Program for the
Greater Waterbury Area

MEMO *from Management:*

How To Create More Jobs and Profits

"Profit increases can come from cost reductions, but true growth depends on expansion of markets and entry into new fields." So wrote a New York reporter in commenting on the future prospects of Scovill.

There's a lot of good common sense in these words. This doesn't mean we can neglect costs — we must still look for all possible savings in all areas of our business. But to achieve maximum growth, to provide maximum job security, to achieve our full profit potential, we must be more successful in the market place. We must sell more products to more customers. We must be smart enough to anticipate changing market requirements. We must come up with new products that have something new to offer in the way of service or value.

The Hamilton Beach electric knife is a good example of this positive approach to sales success. It wasn't the first one on the market. But it did have something new and different to offer to the consumer. It's unique "hole-in-the-handle" makes it easier to grip. Its clean, modern styling makes it stand out above all others on the dealers' shelf. And its five-year guarantee of quality was the first in its field.

But it's not enough just to have a good product. You have to let potential customers know about it. Hamilton Beach let the public know about its new knife with one of the most concentrated advertising programs ever conducted for a product of this type. Spot TV commercials were used heavily in 22 of the principal marketing areas of the United States in the period between last Thanksgiving and Christmas. The sales results exceeded all forecasts — Hamilton Beach is still producing these knives as fast as it can—expects to beat all competitors this year and be Number 1 in electric knives.

The same type of creative design work and aggressive selling can be applied to our other product lines. Get the right product—be sure that it's priced right—and then let the consumer know about its merits in a loud and clear voice.

This sales minded thinking will sell more products—Scovill products such as tire valves, food mixers, safety pins, fuel couplings, lipsticks, — — — . And another important point:— it's a type of creative thinking that creates more jobs as well as more profits.

Good Friday

The Waterbury Divisions will close for Good Friday at the end of the work day on Thursday, April 15, and will reopen with the start of the first shift on Monday, April 19th.

Good Friday is one of the holidays for which employees who qualify are paid when they do not work.

Volleyball League Winds Up Season

The Scovill volleyball league will bring its season to a close with a banquet on April 11th at SERA Bldg. The four teams of the league will attend.

The Strip Mill team were the winners of the first round following a 3 out of 5 games playoff with the Extrusion team. If another team wins the second round, still being played, another 3 out of 5 games playoff will be necessary to decide the 1965 Champions. Prizes to the winning players will be awarded at the banquet.

Your Social Security

When you apply for social security disability insurance, you are required to get medical evidence about your disability.

Your social security office will give you a medical report form to be completed by your doctor or hospital.

It is your responsibility to get this medical evidence to support your claim. If you are having difficulty getting this evidence, do not hesitate to report this fact promptly to your social security district office.

New Assignments

Closure Div.

HAYDEN R. HOTCHKISS—is assigned to Closure Market Development

Gen. Mfg. Div.

CHARLES K. ANCYPA — Assistant Foreman of Dept. 54, Bldg. 112 Service, and Dept. 85, Cleaning.

ROBERT D. PETER, JR. — Business Systems Analyst for the General Manufacturing Division.

Mills Division

GEORGE L. GRICE, JR.—Manager of Production Control, Rod and Wire

G. A. HOFFMAN—Administrator of the New York Office, in addition to his duties as District Sales Manager.

Dennis Roscoe, Rod Mill
10 years — March 23, 1965

Josephine Salerno, Central Acct.
10 years — March 28, 1965

Daylight Saving

Daylight Saving Time will be resumed in the State of Connecticut on Sunday, April 25. Most people will set their clocks one hour ahead before going to bed on Saturday night, however, the official time for the change will be 2:01 a.m. on Sunday.

All clocks in the Waterbury Divisions will be advanced one hour; outside clocks will be marked "D.S.T."

Retirements

Effective April 1, 1965

LUCIA NANNI, press operator and bench worker in Relay—27 years.

MARGARET TYLER, press operator and bench worker in Cosmetic Assembly & Pack—24.6 years.

MARY WINSLOWE, inspector-packer in Cosmetic Assembly & Pack — 25.7 years' service.

"Looking Forward To Retirement"

"Exciting — enjoyable — educational" — these are but three of the ways in which participants have described our new program.

"Looking Forward to Retirement" is all of these — and more. Available to all employees who are 55 years of age and over, the program provides much needed information in such important areas as pension, social security, health, legal affairs, housing, financial planning, etc.

Approximately 250 employees and their spouses will have taken advantage of this program, which is jointly sponsored by the Company and the Union, when the plant closes for vacations.

Mr. and Mrs. David Carmichael, who participated in one of the first sessions, had this to say about it:

"We planned for our leisure years and we thought that we knew what lay ahead, until we participated in this Program. Then we soon realized how little we actually knew.

"The facts developed by the speakers

cannot be bought anywhere. Such knowledge needs to be gotten through participation in this Program. We urge everyone to enroll. We have been greatly helped, especially in the area of health and legal affairs. We are most grateful to the Union and Management."

Mr. and Mrs. David Carmichael

Apply Now For Fall and Winter Sessions

New groups are now being formed for the fall and winter months. Interested qualifying employees should make application now. Forms may be obtained from foremen, Union stewards, or simply by filling in the form below and returning it, by factory mail if you like, to:

To: Mr. J.M. Burrall
Dept. of Employee Relations

Yes, I am interested in participating in the "Looking Forward to Retirement" program.

SAFETY SHOE SAVES A FOOT

The above picture tells the story—1750 pounds went over this safety shoe, exactly as shown here. The result—sore toes but no time lost from the job; the shoe is a little wider than it was, and the cap a little lower—but, the shoe which is over two years old is still being worn on the job.

The wheel of the big fork truck which went over the shoe was put on a scale and the picture on the right shows its exact weight.

How did it happen? Two experienced men working together slowly, in close quarters. It was necessary to move the vehicle a few inches—which was just enough to have it go over the shoe. Each man was intent upon the job being done, with neither one aware that the foot and the wheel were so close. It was a new vehicle which, probably, was a factor too.

The accident might have been avoided, but it did happen. However, the safety shoe did its job—and five toes were saved.

What To Eat

By Robert W. Butler, M.D.

Most of us like to eat, and most of us do. Most of us know more or less what we should eat, and how we should eat; but rarely give enough thought to the requirements of a well-balanced diet which should be ours day after day.

We eat to obtain the materials necessary to provide the body with energy, and for growth, repair and regulation of the tissues. Meals which contain adequate amounts of these substances three or four days a week are not enough. We can easily be *well fed*, but *badly nourished*.

What should we eat every day to be well nourished?

Milk—at least one pint.

Meat, poultry or fish (one serving).

Potatoes—at least one serving.

Vegetables—two servings, plus one leafy vegetable.

Eggs—five a week.

Fruits and tomatoes—two servings.

Cereal—one serving.

Bread—every meal.

Butter and other fats—two or three tablespoonsfuls.

This list does not include all of the foods necessary for a full measure of the proteins, starches, fats, minerals, and vitamins which you require, but with the other things which you also eat, will produce a well-balanced diet.

Pay a little closer attention to your diet (as you now eat) for a whole week sometime, and see whether or not it fulfills these requirements every day. It's much more difficult in the winter months, of course, but can be done with a little planning.

A word should be said, too, about the proper preparation of some of these foods. For instance, the outside dark green dog-eared lettuce or cabbage leaves which usually make the garbage are perhaps more valuable than all the rest which finally make the table.

Many vegetables have vitamins which are destroyed by prolonged cooking (so cook them no longer than is necessary to make them tender) and the water in which they're cooked contains more valuable vitamins and minerals. Where do they go? Down the drain, probably. Where should they go? Down the hatch!

Pinochle Tourneys

A banquet, to be held in the SERA Building, on Saturday, April 10th, will mark the official closing of the 51st year of pinochle tournaments in Scovill. As games were still being played at press time, we'll have final standings in our next issue.

Early Bird Golfers

An invitation is being extended to all interested second and third shift employees to join the Early Bird Golf League which will play each Tuesday, starting April 20th, with tee-off time between 7 and 9:00 a.m.

The first round will be played at East Mountain Golf Course, the second at Western Hills.

The league is made up of two-man teams but individuals may join singly, and will be assigned to a team. All interested are asked to contact the Employee Activities Office, Ext. 834, by April 13th so that schedules can be made up before the starting date.

Obituaries

PHILIP DUDROWICZ died on March 3, 1965. Retired, Guard Dept., in May, 1946 — 25 years' service.

STEPHEN BAILEY died on March 7, 1965. Retired, Slide Fastener Tool, in February, 1957 — 6 years.

JOSEPH KALOSKY died on March 22, 1965. Retired, Waterville Division, in February, 1955 — 9 years.

HARRY POSYPANKO died on March 25, 1965. Process Engineer in Screw Machine and Forgings — 24 years.

Rod & Gun Club

By Walter Dziura

Our Committees for 1965

Ways and Means—Ray Curtis.

Banquet — Fred Kirschbaum and John Capone.

Auditing—Robert Brinley and James Quirke.

Nominating—John Capone and Ray Curtis.

Membership—Dom Cherubini.

Conservation—Don LaBonte.

Fishing—Bob Fumire, Fred Wilson, Fred Kirschbaum, Harold Rogers.

Rifle—Charles Carpenter, Al Fitzsimons, Al Brown, Bob Brinley, Nelson Smith, Mike Cicchetti.

Our Activities for 1965

April 8—Spring Banquet.

May 15-16 — Fishing Contest for Club Members only.

June 26—Children's Fishing Contest.

August 14—Summer Outing.

Reeves' Fishing Contests—Sept. 11-12, 24-25; Oct. 9-10, 23-24.

November 11—Fall Banquet.

Our regular monthly meeting of March 16th was well attended. All Scovill fishermen will be happy to hear that money was allocated for stocking the upper pond at Woodtick with brown trout. It was decided to put trout into this pond as well as the lower pond because many fishermen prefer to fish here either from boats or from the banks. The lower pond, which is more suited for trout, was scheduled for stocking on Sunday, April 4th.

Important new developments were discussed concerning the rifle range. Fred Wilson is working hard to make a better site available for all shooters and gun lovers, so don't lose interest. More about this later.

After due publication of the proposed change in the By-laws, it was voted by attending members to reduce the number of members required for a quorum from ten to six, including two officers. This change was necessary as not enough members have been coming to the meetings to lend their support. Remember, this club was organized for the benefit of Scovill employees but you can't reap full benefits unless you are active. Come and enjoy the meetings, the refreshments, and other activities such as the very educational

MARCH 1ST RETIREES FETED BY CO-WORKERS

Honored guests at parties staged by their co-workers and associates on the occasion of their March 1st retirement were: (photo #1) George Gervais of Screw Machine Packing; (#2) "Mike" Mazzona of the Trucking Dept.; (#3) Patsy Rinaldi of the Annealing Room; and (4) Leonard Solomita of Cutting.

exhibition of fly-tying offered by Louis Quattrocchi at this meeting.

With the fishing season fast approaching, it's time to start thinking about your fishing permit. Daily permits are always available from Les Hart, at Woodtick; however, as season permits are much more convenient, why not plan to get one soon.

Our next regular meeting is set for Tuesday, April 20, at 7:30 p.m. Mark the date on your calendar — and plan to attend. See you then.

Retired Folks' Club

Retired employees of the Oakville Division are invited to attend the April 13th meeting of the Retired Folks' Club, which will be held in the SERA Building, starting at 1:30 p.m. Invitations are being sent to these retirees.

No meeting of the Club is being planned for the month of May.

The next gathering of the entire Club will be the annual spring picnic in June, details to be announced later.

Employees Set City Record with 239 Pints of Blood

239 pints of blood were contributed at the March 16th visitation of the Blood Mobile to Scovill—setting a new record in the city of Waterbury for blood donations in one visit to a local industry. While 239 units were actually collected, 276 persons appeared to participate. Closure, Cosmetic and Services divisions employees, scheduled for this visitation, were joined by other employees and a few walk-ins to make this fine record.

Donors who reached their 3-gallon mark included: Dominic Richards, George Hassinger, Walter Keating
2-gallon donors:—John T. Blake, Arthur Loble, Nicholas Ruffino, Genero Cocchiola, Armand Santucci
1-gallon donors:—William Harrison, Roland Theroux, Jerry Cepelak, John F. McDonnell, Daniel Bolger, Britan Ostrander, Raymond Niski, William Kleiva, Alfred Lynch.

Left:—First stop for volunteer donors is the check-in desk in the background; then over to the registration desks, at right, where identification records and donor cards are made up—a busy spot at the end of the first shift but lines

moved quickly along. Right:—A new attraction at this visitation was the awarding of door prizes to donors. John Pratt, Planning, and George Young, Executive Office, drop their cards into the box.

Ample space is provided in the SERA Building so that donors move quickly and efficiently through the center section where nurses and doctors take medical histories, check hemoglobin, blood pressure, pulse and temperatures before clearing donors for actual giving.

Mrs. George Cowperthwait, Waterbury Area Blood Program Administrator, chats with Mrs. Emma Daffin of our Aluminum Finishing Dept. Mrs. Daffin herself an oft-time donor, has been instrumental in many Blood Mobile visits in recruiting volunteer donors.

The cards of 276 persons who volunteered to give blood were placed in the prize-drawing box. Co-chairman Raymond Ladden holds one of the winning tickets as Fred Wilson, Manager of Employee Activities, and Co-chairman Earl Tooker look on. Co-chairman Tooker and Ladden presented the door prizes to the winners.

Edward Bianchi won first prize, a Hamilton Beach electric knife donated by the Services Division; Louis Santos won second prize, a Puritron flashlight with battery re-charger unit, donated by the Closure Division; Frank Noack, Charles Ash and Richard Rogers (not shown) each won a lipstick donated by the Cosmetic Division.

CASH IN ON YOUR IDEAS What Happens To Your Suggestions?

Your suggestion goes, via factory mail, to the Suggestion System Administrator. It is dated, assigned a number, and recorded in the files; and acknowledgment sent to the suggestor.

Soon after, you will be visited by the Administrator, or his delegate, at which time you can furnish any additional details.

A thorough investigation and study is carried out and evaluated by

the Administrator and appropriate Division General Manager.

If your suggestion is adopted, you will be notified by Letter of Acceptance or Certificate of Merit. A letter of appreciation, containing a full explanation, will be sent if your suggestion is not adopted.

Where savings are measureable or tangible, the cash awards for adopted suggestions will be fifteen percent of the net material and direct labor

savings for the one-year period following the effective date of the improvement.

Cash awards for adopted suggestions whose benefits are of an intangible nature may be determined by a prescribed merit evaluation chart based on various factors such as originality, ingenuity, scope of application, etc. The minimum award is \$5.00; there is no maximum — the sky's the limit.

Scovill Girls' Club

By Laura Denton

Fifty Years Ago

Our Golden Anniversary—yes, the Club is 50 years old, an occasion which calls for celebrating. And the Council announces this anniversary will be celebrated at our annual banquet which will be held on Sunday, May 16, at Waverly Inn in Cheshire. You'll be hearing all about it real soon.

Bowling League Secretary *Nora Galvin* reports another fine season will be coming to a close soon and plans for the annual banquet are underway. It will be held at Larson's on April 29th.

Also drawing close is the date of our annual meeting—Monday, April 19th. We hope you're planning to be there. The officers and chairmen will give reports of the past year's activities and a new Council will be elected. The Nominating Committee is still open for names if you haven't had a chance to contact them yet—or, you can make your nominations from the floor at the annual meeting. Remember, however, all candidates named from the floor must be there to accept nomination.

Looking back through the files on the Club's history is most interesting—their activities during the years were certainly varied and I'd like to tell you a bit about them. It will take several issues and so, this month, I'd like to tell you of its start—and some of its early charitable work.

It all started fifty years ago with 12 girls in Mr. Frank Robinson's room, who called themselves the Hiawatha Club, meeting weekly at homes of members. Their first social was a dance held in the Knights of Columbus Hall, with Miss N. A. O'Brien, superintendent of the Scovill Hospital, as chaperone.

The Hiawatha Club developed rapidly along social lines, and, having in mind several hundred Scovill girls who, due to congested living conditions, were deprived of wholesome diversions, a suggestion was made by Miss O'Brien to expand and unite with girls in other departments. Within three weeks, the Hiawatha Club was reorganized into what is now the Scovill Girls' Club, with a membership of over 500. Their constitution was adopted in February, 1917.

With World War I going on at the time, the Girls' Club very early in their history took to charitable works. They were among the first girls' organizations in the city to contribute to the First Liberty Loan, and subsequently rendered every service possible to our Government during the Allied conflict (1917-1918) in point of financial and personal effort.

They bought Liberty Bonds and war stamps; they contributed financially to the Red Cross effort as well as made surgical shirts, Belgian dresses, they

knitted wristlets, socks, etc. during their lunch hours in the Library; they raised \$600 through their Penny Fund which was used weekly in sending smokes, etc. to approximately 500 boys in service; they adopted a French orphan; they raised \$300 as a homecoming fund for servicemen who would have had hard sledding before they settled down to peace conditions and for those who might be "stoney broke"; they donated a wheelchair to the Walter Reed Hospital in Washington.

During the flu epidemic of 1918 they assisted in taking care of patients, as well as making masks and other hospital supplies; they volunteered to work in local laundries to handle washing reported by nurses or Emergency Health Dept. investigators where private families were unable to take care of their own laundry on account of illness, in addition to the laundry from the emergency hospitals—20,000 pounds of wash were handled during the worst part of the epidemic and over 62% of the work was done by Scovill volunteers. Their Christmas "tree" (as they called their Christmas parties) that year was held for youngsters who were orphaned by the flu epidemic.

Thus, in the first decade of the 1900's (1915-1920) and in their first five years of existence, their charitable works were outstanding. We'll tell you more about their activities of "way back when" in future issues.
