

Published by Scovill Manufacturing Company for its Employees

THE HIT OF THE SHOW. *The Hamilton Beach electric knife and other appliances were displayed at the National Housewares Show in Chicago last month.*

The Scovill exhibit attracted much attention with its feature — a young lady, simulating a robot, demonstrating the new electric knife with the unique hole-in-the-handle. Viewers showed great interest in the comments of the robot heard through special electric knives fitted with loudspeakers.

The show, the largest of its type in the country, was attended by thousands of dealers from all over the United States.

Baldrige Urges Business Leadership In Community Affairs

At a recent luncheon sponsored by the Waterbury Chamber of Commerce and the city's service clubs, Scovill President Malcolm Baldrige urged Waterbury businessmen to exert personal leadership in efforts to solve local unemployment and minority problems. Over 250 prominent business and civic leaders heard Mr. Baldrige call for more education for young people, and expansion of redevelopment as the means for improving the economic position of Waterbury and making it a better place in which to live.

Referring to the high rate of unemployment among young people, particularly Negroes and members of other minority groups, Baldrige said "education is clearly the answer".

"Ministers, social workers and the Government can do just so much in helping the hardcore of unemployed," Baldrige pointed out in urging business people to step in and help to solve the unemployment problem. He warned that if young people, and minority group members in particular, are not trained and given better jobs, the school dropout situation will not improve and unemployment will grow.

Mr. Baldrige stated that similar leadership is needed from businessmen to push redevelopment for Waterbury. Unless business leaders take action, they may find themselves in the position of watching "thousands of cars go by on the new highways to New Haven and Hartford. Unless, as business leaders, we sup-

Scovill Profits Increase 24%

"1964 was the fourth consecutive year of improvement in both earnings and sales", stated Scovill President Malcolm Baldrige in a news release covering financial results for the past year. He noted that 1964 earnings were 24% higher than those of 1963 while sales increased by 16% over the previous year. Consolidated sales and profit figures for 1964 are summarized as follows:—

	1964	1963
Sales	\$195,603,675	\$169,305,375
Profits after taxes	\$5,358,681	\$4,377,806
Profits—		
% of sales	2.7%	2.6%

Mr. Baldrige attributed the earnings increase to continuing operation economies throughout the Company as well as sales growth. He noted that new products, such as the Hamilton Beach electric knife, were the most important single factor in this sales growth. He also stated that the transfer of Schrader's two largest product lines into two new plants and the acquisition of three new companies were other significant developments in 1964. The three companies acquired were: Puritron, a leading producer of room air refreshers and ductless range hoods; Etablissements Laurent, a French manufacturer of electric housewares; and Whitecroft (Lydney) Ltd., a British pin manufacturer.

In commenting on the profit improvement, Mr. Baldrige noted that while our return on sales of 2.7% is still below the average for industry in general, we are continuing to move in the right direction. In conclusion, he stated that our accomplishments in the past year are the result of the fine work of Scovill employees in all divisions of the Company.

port redevelopment, we will be very short-sighted."

If businessmen "firmly grasped" the more important problems faced by our city, and exert personal leadership, they can accomplish much to "make Waterbury a model place in which to live and work."

MEMO *from Management:*

Thank You!

Last October's United Council and Fund Drive among Scovill employees in the Waterbury area left a lot to be desired. At the conclusion of the campaign, we had reached about \$95,000 of our \$103,000 quota. Only about 60% of our employees were giving on the "fair share" payroll deduction plan.

This is not a record to be proud of. Two other large companies in town had exceeded their quotas. So we decided to do something about it — to conduct another campaign — to contact again all of those employees not giving on the "fair share" basis.

This re-solicitation was conducted in the month of January. All of the results are not in but we have seen enough to convince us that Scovill employees do not have to be second to any company in town in meeting our civic responsibilities. Here are two examples of how Scovill people respond to a challenge:

The General Manufacturing Division East Plant had 58% of its employees on payroll deduction before the re-solicitation began. Because of the tremendous effort on the part of their union-company soliciting teams, they now report 84% of their employees on payroll deduction!

The Mills Division had a quota of 100 new payroll deduction pledges. As of this date, they had succeeded in signing up over 150 new "fair share" pledges. Another tremendous achievement.

Unfortunately, all departments will not end up with records like this. But it shows what can be accomplished if we work at it — each and every one of us.

At this point, we want to thank everyone who participated in the campaign: the official soliciting teams . . . the union representatives and company supervision without whose cooperation the job would have been impossible . . . the employees who are contributing to the United Council and Fund.

You are helping to build a better community through your time and your dollars which will help thirty member agencies carry on their needed services.

Conn. Sales Tax Deduction Guide

If you itemize your deductions in preparing your Income Tax Statement, the following tax rates should be used in computing your deductions:

Connecticut Gasoline Tax — 6¢ per gallon

Connecticut Sales Tax — 3-1/2%

A table of "reasonable allowance" for sales and use tax, published by the Internal Revenue Service, is reproduced here for your convenience.

Deductible sales tax on the purchase of automobiles, boats and airplanes is not included in the table (and should be itemized separately); however, deductible sales tax on the purchase of large household items such as furniture, refrigerators, freezers, pianos, and similar items, is.

Internal Revenue Service District Director J. J. Conley advises that the law requires taxpayers to substantiate any deductions claimed on their returns and, if requested, must be prepared to do so. Ordinarily, he says, they will not be asked to produce records to support the sales tax deduction claimed unless it exceeds the amount shown on the table.

RESIDENT'S AVERAGE STATE GENERAL SALES TAX PAYMENTS (Connecticut 1964)

Income as shown on line 9, page 1, Form 1040	Family Size (Persons)

MEDICAL MEN TOUR MILLS, HOSPITAL. *Scovill Medical Director Robert W. Butler looks on as members of the Connecticut Industrial Medical Association pick up their identification badges in the SERA Bldg. prior to their tour.*

Mrs. Ruth Peterson hands badge to Association President Dr. Roger G. Conant, medical director at Royal McBee Corp. in Hartford. Dr. A. Duncan MacDougall, (2nd left) medical director at the Electric Boat Company, Groton, is Vice President of the Association; and Dr. Preston N. Barton, medical director at New Departure in Meriden, is a past president.

Twenty-five members of the Connecticut Industrial Medical Association attended the winter meeting of the Association which was held at the Scovill plant. They toured several of our mills and our hospital prior to

their dinner and meeting in the SERA Bldg. Their speaker was Mr. Francis Merkle, executive director of the Waterbury Community Workshop for the Handicapped, of which Dr. Butler is president of the Board of Directors.

Don't Park on Fire Valves

Here's the reason why employees are asked to not park over street valves in the plant. With a car parked over the valve (as in the left picture) it is impossible to get at it in a hurry when fire sprinklers have operated or gas needs to be shut off.

It is vitally important to have these small valve covers unobstructed at all times.

Years ago these "surface valves" were posts sticking up in the streets. To make room for traffic, they were cut off and are now not easy to see. When streets are clean you can see them.

To help you know where they are in snow and ice, there are signs on building walls as noted behind John Niedmann to tell their location, usually directly out from the signs.

Please don't park on these valves.

Pneumonia

(Editor's Note:—With the prevalence of colds, and more serious respiratory illnesses, our Medical Director Dr. R. W. Butler felt this release by the Aetna Life Insurance Company timely and worth passing on to you.)

Pneumonia is inflammation of the lungs. It is generally a term used when large areas of the sponge-like lung tissues are infected. If only small areas are infected, the doctor may call the disease "pneumonitis".

Many different types of germs may cause pneumonia. The most dramatic and deadly are the pneumococci. They cause a sudden, explosive type of pneumonia which begins with a pain in the chest, cough and high fever. Other bacteria which cause sore throats, head colds and bronchitis, often spread down the bronchial tubes to the tissues of the lungs. Here they cause patches of inflammation in the lungs.

Very tiny organisms called viruses may attack the lungs. Virus pneumonia is common. Many people never realize they are suffering from it. They may call the disease a chest cold and notice cough and expectoration. They feel run down and tired and may or may not have a fever. Of course, there are all degrees of this type of pneumonia from the mild missed case to the extensive involvement of much lung tissue.

In the struggle between the patient and the germs infecting the lungs, one or the other will survive. If the

patient's body resistance is good, nature may cure him. Help in the cure comes from the physician who prescribed bed rest, an adequate diet, proper nursing care, and above all, the appropriate drugs to keep these various germs.

Since the introduction of new remedies like penicillin and other antibiotics, there has been a tremendous reduction in the pneumonia death rate. Furthermore, early treatment with these drugs has done so much to reduce the number of complications and aftereffects that were formerly associated with the pneumonias.

To resist invasion by the germs that might cause pneumonia, we should preserve our health and energy by proper habits, rest and correction of physical defects.

Persons who suffer from frequent colds, sore throats or sinus trouble should get treatment to clear up the cause of these disorders, because the germs harbored here are often the same ones that spread to the lungs.

Severe colds and bronchitis must be treated early and thoroughly to prevent extension of infection to the lungs.

See your doctor before your cold leads to pneumonia.

National Bridge Tourney

Mr. and Mrs. Edward Berube were high scorers at the bridge session held at the SERA on January 28th. Seven tables were in play at this tourney which was part of the National Bridge Tournament sponsored by the National Industrial Recreation Association.

The national tournament is divided into eight regions, with the winners of each region meeting in Chicago for the championship play. Region #1 covers the New England-New York area, and the Berubes' scores have been sent in to compete with other high scorers in Region #1.

Your Social Security

"Think" — "Plan Ahead"

These two signs are often used in plants and offices to encourage sound work planning.

The words apply also to social security planning. Everyone should "think" and "plan ahead" for retirement.

If you are near retirement age, you should find out:

(1) What benefit amount you can expect, and (2) what papers you will need to bring with you when you apply for benefits.

You can get this information by writing or visiting your social security district office at 108 Bank Street, Waterbury.

Rod & Gun Club

By Walter Dziura

The annual meeting was well attended by members, both active and retired. The main event of the evening was, of course, election of officers. *Harold Rogers* was re-elected president, *Robert Fumire*, vice president, and *Walter Dziura*, secretary-treasurer (and, incidentally, your reporter).

Mike Cicchetti, retiring secretary-treasurer and columnist, was given a standing ovation for a job "well done" over the years. We sincerely hope he'll continue to be an active participant in all Club affairs.

Rifle enthusiasts will be happy to hear that plans for the rifle range at Woodtick are moving along rather well. Heating facilities appear to be the largest expense we will encounter, however, volunteer help from prospective users of the range (or anyone else wishing to lend a hand) will certainly help to keep other costs down. If we're going to do a job, we want it done well — if we're going to have a range, we want it done right so that it can be used in competition as well as for practice shooting. If you can help out, or are interested in joining the rifle team, contact President *Harold Rogers* or the Employee Activities Ofc.

Very lively fishing has been reported at Woodtick. *Les Hart* reports that, over the weekend of Jan. 9th, the ice was at least 3" thick and, with all the freezing temperatures since then, all areas of the pond should be safe.

However, when the level of a pond fluctuates as it does at Woodtick, caution should be observed when first entering any area of the pond.

A permit for ice fishing may be had for only 50¢ per day, and *Les Hart* has bait available at his home — so, good fishing!

The annual ice fishing contest for employees and their guests was scheduled for Saturday or Sunday, February 6th or 7th. Prizes were to be awarded for the largest perch caught (guests not eligible for prize money).

Our regular monthly meeting will be held on Tuesday, Feb. 16, at 7:30 p.m. in the Employment Office Conference Room. Please use the back entrance within the factory yard.

Our annual buffet dinner dance (for all employees and families) will be held on Saturday, February 27th, at the SERA, with dancing to *Lou Master's* orchestra. Get your tickets early.

FIRST OF NEW YEAR RETIREES FETED

Among the employees who started their retirement with the first of the New Year were (top photo) *Anna Wishnaukas* of the Coupling Department and *John Wallace* (lower photo) of Gripper Eyelet. We're sorry our photographer couldn't get to all the parties given by the departments for their retirees.

Retirements

EDMUND BRAYALL, maintenance repairman in the Millwrights Dept., retired as of December 7, 1964, with 29 years of service.

FEDELE POLZELLA, miscellaneous machines operator in the Drawing Room, retired as of January 18, 1965, with 20.6 years of service.

Effective February 1, 1965

DAVID CARMICHAEL, maintenance machinist in the Steam Dept.—37 years of service.

AGNES LADDEN, Cost Accounting Clerk in Mill Accounting — 48 years of service.

JOSEPH A. MUTTER, maintenance carpenter in the Carpenter Shop — 37 years of service.

WILLIAM NADEAU, miscellaneous machines operator in Chucking — 41 years of service.

Retired Folks' Club

Retirees of the Closure Division will meet in the SERA Building on Tuesday, February 9th, at 1:30 p.m. for an afternoon of entertainment,

AGNES LADDEN RETIRES. Approximately 200 persons paid tribute to *Agnes Ladden* on her recent retirement.

Above, at a party held in her honor at the Copper Kettle recently, she shares happy memories of an event pictured in the "Your Life at Scovill" album, presented to her, with *Wayne Johnson*, Mills Division General Manager, *John Hoben*, Vice President and Operations Manager of the division, who also served as Master of Ceremonies for the evening, and *George O'Meara*, Supervisor of the Mill Cost Accounting Department.

visiting with former co-workers, and refreshments.

APPRENTICE CLASS ROOM. Scovill trainees need travel only to the Employee Relations Building to attend classes in related instructions. Their instructor is John Hoyt, a staff member of Warren F. Kaynor Regional Technical School, who comes to Scovill three times each week for these classes.

Scovill Apprentice Training Program

The second phase of the Scovill Training Program is classroom instruction in subjects related to the practical instruction for each individual trade as described in our last issue. All apprentices in the 6,000-hour and 8,000 hour courses must attend these classes.

As the Scovill program is approved by and registered with the State Apprenticeship Council, the State of Connecticut provides us with the services of a qualified instructor. At present, this instructor is Mr. John Hoyt who conducts these classes on Monday, Wednesday and Friday mornings from 8:00 o'clock to 12:00 o'clock noon. The classroom is the former Employee Store, located on the ground floor of the Employee Relations Building. The room has been enlarged, repainted, equipped with new lighting and is furnished with suitable new drafting-type desks.

At present, 32 apprentices are attending these classes. They encompass the following programs: millwrights, machinists, plumbers, draftsmen, tin-smiths and toolmakers. Instructions in-

clude subjects in the following list applicable to the section of the General Training Course to which the trainee is assigned: Shop Mathematics, Blue Print Reading and Sketching, Slide Rule, Shop Theory, Heat Treatment Theory, Metallurgy of Steel and other Tool Alloys, Shop Economics, Safety, Mill Practices and Manufacturing Practices.

Electrical Apprentices

There is one exception to the classes held as related above. These are the electrical apprentices. At present eight trainees are enrolled in the electrician section of the program. They attend classes on Tuesday and Thursday, under the guidance of William Lucian of our Maintenance Engineering Dept. These classes are conducted in a classroom set up in the Engineering Dept., Bldg. 54-5.

All students are graded quarterly and reported to Joseph F. Burke, Chairman of the Training Committee who regularly confers with department heads on the progress of their individual trainees.

These classes are not unlike the public teaching system in that they run from September to June. All hours of classroom instruction are noted on the graduating apprentice's diploma.

ROGER DROLET graduated as a tool-maker on January 11, 1965 and has been assigned to the Cosmetic Tool Dept.

Bowling Sweepstakes

Plans are being formulated for the 21st annual SERA-sponsored Bowling Sweepstakes. The date has been set for Saturday, March 27th—the place, Perillo's Bowl-O-Drome, Meriden Rd.

Henry Carisio

Supervisory Committee — Francis Steponaitis, Gerald Bousquet and Henry Perriault

Suggestion Awards

During the month of January, 1965, the following awards were made: —

\$25.00 — Antoinette Nigro, Mfg. Room Clerks

\$10.00 — Robert Zabit, Cosmetic Div., Finishing Dept.

\$10.00 — Ronald Baker, Cosmetic Tool Room

Letter of Appreciation

Ronald Baker, Cosmetic Division; Charles Bozzuto, Rod Mill; Thomas Curtin, Aluminum Mill; Stanley Kolakowski, Aluminum Mill; James Mastrodonato, Auto Transportation; Melvin Nute, Electrical Dept.; Gladys Sabot, Gen. Mfg. Quality Control; Robert Zabit, Cosmetic Division.

Scovill Girls' Club

By Laura Denton

Thanks to the fine cooperation of employees in buying Christmas cards and candy last year, the club was able to remember 51 families with food baskets, toys and clothing. Our retired members were remembered also with a small gift. Many interesting notes have been received from these ladies, and our thanks to those who enclosed a contribution to help with our Christmas work.

Christmas Activities Chairman Evelyn Smoil extends the Club's appreciation and sincere thanks to all those workers and drivers who assisted in packing and delivering the baskets.

Della Riccio wishes to remind all that she can be reached at Ext. 2327 and asks that you call if you know of members who are ill. The Club also likes to remember those who have lost a loved one, so please keep in touch.

Our sincere sympathy to the family of Mildred Roche Lezotte who passed away recently. Mildred was an active member of the Club for many years before retiring and we will always remember her beautiful singing voice which she shared with us at so many Girls' Club functions during the years.

We are planning a Card Party for February 15, and ask for even greater support. This is only one of the interesting events we mentioned last month. Due to incomplete plans, later activities cannot yet be announced, but when Virginia Doolin and Violet (Dander) Pelletier have done a lot more hard work, we promise that all members will be pleasantly surprised.

See you on the fifteenth!

DIPLOMAS FOR CONFERENCE GRADUATES. New Milford Tube Mill Foreman John Greaney (right) congratulates and issues diplomas to Henry Sheldon, Ronald Glander and Warren Smith for their participation in a Management Development Group Conference held at the Danbury State College recently.

Tube Mill Men Attend Evening Group Conference

Three employees from the New Milford Tube Mill participated in a five-session Management Development Course which was open to Foremen, Supervisors, and men training for these management positions. Henry Sheldon, Ronald Glander and Warren Smith attended the two-hour sessions which were held on Tuesday evenings at the

Danbury State College over a five-week period. They were awarded diplomas upon completion of the conference.

Obituaries

MICHAEL J. HARMON died on January 5, 1965. Retired, West Machine Room, in June, 1948—56 years.

JOSEPH J. KEEGAN died on January 12, 1965. Retired, Drawing Room, in February, 1954—37 years.

PATRICK HOGAN died on January 20, 1965. Retired, West Machine Room, in September, 1962—26 years.

LOUIS VALLEE died on January 21, 1965. Retired, Salvage Dept. in August, 1959—15 years' service.

ALEXANDER MCGUFFIE died on January 23, 1965. Retired, Casting Shop, in January, 1955—33 years.

TIMOTHY LAWLOR died on January 25, 1965. Retired, Plant Protection, in May, 1958—18 years' service.

JEVAT MUSSA died on January 25, 1965. Retired, Casting Shop, in January, 1960—39 years' service.

Sunshine Fund — 1964

During the year 1964, approximately 245 employees, members of their families, and retired persons were given a helping hand by the Scovill Sunshine Fund. Over \$6500 was used to help cover expenses, as listed below, in cases of serious illness, or some similar difficulty which created a hardship.

Food	\$3,700.64
Medical	1,171.62
Rent	416.50
Nursing Care	352.00
Utilities	210.00
Fuel	181.75
Insurance	173.94
Clothing	171.48
Hospital	80.00
Eye Glasses	68.00
Homemaker Service	45.90

The Sunshine Fund is supported by commissions from vending machines located throughout the plant.

The Committee which handles the administration of the Fund's activities consists of: Chairman J. M. Burrall, Dr. R. W. Butler, Wayne Johnson, Ray Kasidas, Leon Mayshaw, Louise Fogle and Marie Hayes.

Valentine Dance

Francis Delfino's Orchestra will provide the music for dancing from 9 p.m. to 1 a.m. on Saturday, February 13, at the annual Valentine Cabaret Dance to be held in the SERA Building. Tickets are available at the Employee Activities Office.
