

Published by Scovill Manufacturing Company for its Employees

\$520. was paid to Nicholas Perrotti for his idea of changing the type of containers used to ship material from out-of-town Scovill plants to Waterbury, which results in a saving of shipping costs. Here he discusses the advantages of the change with Closure Packing Room Foreman Anthony Laudate.

\$300. was the amount paid to John Sullivan for his suggestion to change the type of paint used on the fill and wipe battery for automotive and utility parts. Above, he shows Lacquer Room Foreman Carl Pickett some of the parts which have been coated with the less expensive but equally effective paint.

\$200. was awarded to Harry Heverling, of the General Tool Room, who designed a fixture whereby the adjustment screw in modulators is set much more accurately in a much shorter period of time. Here he explains the workings of his suggestion to John Mongillo, working supervisor in the Transmission Dept.

Retirement Planning Program to Resume

The very popular "Looking Forward to Retirement" program will resume its third year of retirement planning sessions early in October.

First started two years ago, the program is co-sponsored by the Company and the Union, and is offered to employees and their spouses. To date, more than 300 Scovillites have completed the eight two-hour discussion sessions.

Especially prepared for employees in the 55 to 65-year bracket, the program provides authentic and dependable information needed to confidently plan and prepare for the leisure years. Those completing the program have been most enthusiastic about the informal, friendly sessions in which all may discuss, in a general way, matters which might cause concern when retired.

Many have voiced surprise on learning of subjects which should be planned for — legal matters which should be considered are brought to their attention by a lawyer, maintain-

Scovill Acquires New Rivet Line

Scovill has acquired the Stronghold line of commercial blind rivets and attaching tools from Independent Nail Corporation of Bridgewater, Mass.

Stronghold products include a variety of steel, aluminum, copper and Monel rivets for heavy industrial fabrication and for lighter, high volume applications. Blind rivets fasten joints without access to reverse side of the work.

The Stronghold line will be manufactured and marketed by our Closure division, headed by General Manager Roger W. Hall, under Group Vice President George W. Young.

"Stronghold is a quality line and we see great opportunities in this field in the years ahead," Mr. Hall said.

President Baldrige said that this action by Scovill "is another step in our long range program to reach new markets through acquisition and new product developments."

MEMO *from Management:*

How To Spend Your Leisure Time

There are many pleasant ways to spend your leisure time.

After a tough day at work, it's kind of nice to relax — on the golf course — pulling a few weeds — taking a swim — fishing — or just stretching out in a comfortable chair in front of TV. It's relaxing because you can leave whatever problems you may have behind you for a while. It's pretty hard to think about anything else when you are lining up a putt, or when the score is 2 to 2 in the top half of the ninth.

Some people spend their leisure time in less comfortable, more demanding ways. Like sitting for hours in a warm room trying to make tax dollars do all the things that people want, but aren't willing to pay for. Or helping to organize an arts festival — a blood drive — a church bazaar — a political campaign — or any other of the multitude of activities that give substance and vitality to our way of life.

Our community is not about to run out of problems—the same perplexing ones that you read about in newspapers all over the country. What to do about our schools, about housing, downtown renewal, attracting new industry, training skilled workers, motivating dropouts—well, it's a pretty long list no matter where your interests may be. We can get some help on these matters from government and from the professional personnel whose job it is to provide guidance.

But, in the final analysis it's the man or woman sitting on a committee in his spare time who has the responsibility for seeing that something gets done. Many of these citizens are Scovill employees and we are proud of them. Their concern and their willingness to give up a lot of "relaxing" will help to make our community a better one for us all.

SERA To Hold Annual Meeting

The annual membership meeting of the Scovill Employee Recreation Association will be held on Tuesday, September 13, at 8 p.m. at the SERA.

All employees of the Waterbury (including New Milford) and Oakville divisions are members and are urged to attend.

Reports of the past year's activities will be given; election of the Board of Directors will be held; entertainment and serving of refreshments will follow the business session.

Joyce Emmons, of the Mill Operation Manager's Office, is chairman of the Nominating Committee and urges all employees interested in serving on the Board of Directors to contact her or any of the other Committee members:— Carmen Di-Maria, Electrical; John (Jim) Dui-gan, Trucking; Ray Ladden, Closure Production; John Mitchell, Mfg. Packing; or Marion Green, Oakville.

According to the Association's by-laws:—The Nominating Committee shall prepare a list of 19 nominees; the current Board of Directors may nominate an additional four people from departments not represented on the Nominating Committee's list; additional nominations, not to exceed five will be accepted from the floor at the annual meeting. A nominee so named must be at the meeting to accept the nomination or the person making the nomination must have written proof of willingness to accept the nomination.

Following the annual membership meeting, the newly elected Board will meet to elect its officers.

New Assignments

Mills Division

RICHARD B. HARRIS — Superintendent, Casting Shop

Training Course

DRAFTSMAN *Francis Chiarella* was graduated as a draftsman as of August 21, 1966. He has been assigned to Screw Mach. Prod. Dept.

Girls' Club News

By Nora Williams

Now that the vacation season has passed, the Council will resume its regular monthly meetings, the first of which will be Monday, September 19th, at 6:30 p.m. at the SERA.

The Club outing held on August 15th at Woodtick was quite successful and a good time was had by all.

A New York bus trip has been planned for September 17th which will include a 3-hour cruise around Manhattan Island. Reservations are on a first come-first served basis, so get your reservation in early.

Blood Donor Day — Wednesday, Sept. 28th

Employees of Scovill, and their friends, are being counted on again to help build up the local Blood Bank which is almost depleted because of the heavy demands made on it this year.

The outstanding record of 232 units given by Scovill employees in June gives Section #3 of the plant a fine goal to work for. Included in Section #3 which is scheduled to give at this time, are: Mills, Transportation, Planning, Purchasing, and Executive Offices. As always, all other employees are most welcome to participate.

The Blood Mobile unit will be set up in the air-conditioned SERA Building on Wednesday, September 28, from 11:00 a.m. to 5:00 p.m. Application cards are being distributed to employees in Section #3 and, with an early return of the application cards, arrangements can be made to cut down on the waiting time.

If application cards are not available in your department, contact the Employee Activities Office, Ext. 834.

SERA Golf Outing

All Scovill golfers are invited to participate in the SERA's annual Golf Outing to be held on Saturday, September 24 at the Southington Country Club.

Ralph Orsini is chairman of the arrangements committee which includes Carl Pickett, Si Broccoli, Art Rompre and Warren Baker. The committee asks cooperation of all interested in following the rules on the Application Blanks for registering for the outing.

The advance registration is necessary in order to permit the committee to provide food and refreshments for the day as well as to make proper arrangements for your convenience at the tee, where fees are to be paid.

Entry blanks are available at the Employee Activities Office.

Retirements

RALPH CONLEY, packer-shipper in General Products Packing Dept., retired as of August 8, 1966, with 23.6 years of service.

LEON H. MAYSHAW, Factory Superintendent of the General Products Division, retired as of September 1, 1966 with almost 33 years of service.

HELEN S. SHANOSKY, senior Accounts Payable clerk, retired as of September 1, 1966, with almost 49 years of service.

FIRE DEMONSTRATION TOURS DEPARTMENTS. *Chief Fire Inspector Cliff Aspinall points to flammable liquid container being discussed by Liberty Mutual Safety Engineer Al Warner. The demonstration in the Lacquer Room was observed by Asst. Foreman Nicholas Guerrera, Phil DelGobbo, Sam Andolina, Alex Boyarchuk.*

To better understand the nature of flammable vapors, demonstrations were held in several departments recently to show the explosive characteristics of such vapors.

It was also shown that the fundamental rules for handling flammable liquids are very important — at home as well as in the plant. They are, briefly:

1. Keep them away from other storage and in safe containers
2. Prevent spills; use small quantities at a time
3. Provide good ventilation
4. Eliminate all sources of ignition
5. Educate others who may use them
6. Provide adequate fire protection.

Free Advice From Those "Who've Had It"

By Robert W. Butler, M.D.

And probably had it all wrong!

If you have ever been feeling below par, you have discovered that the fellows who sit across from you at the poker table, who ride with you on the bus, who meet you on the steps after church, or sit next to you at the fight or ball game have had the very same thing, and know just what to do for it—or—if they haven't had it, they know someone else who has.

The fact that they all suggest something different shouldn't bother you—it only broadens the field and gives you more chances to make mistakes.

Now, after you've tried all those suggestions and you're no better, or—if you are one of those people who never discuss their illnesses with any of the self-appointed experts, you have another glorious opportunity in the stuff you hear about on the television or radio!

In any one day's programs you will hear about something to make you fat, to make you lean, to make

you clever, to make you clean, to pep you up, to slow you down, to take away that worried frown. No aches too large, no ache too small; they have the stuff that cures them all!

If you listen at all, you'll hear the answer to your problem whatever it may be, and the word of the announcer that you should "go now to the nearest drugstore and purchase the handy-sized package of 10 tablets for 25 cents." So, in short order, you are ready to "jump up with the Jumpits", to "get regular with Ralugers", or to "get rid of the Morning-after Feeling with N.G.s".

Who pays for all this fancy advertising? You do—with each "handy-sized package for only 25 cents"!

The ingredients of these wonder doers are no longer secret—look at the labels! If they have any merit, your doctor knows all about it.

Did you ever notice lawsuit-saving punchlines of these airborne peddlers when they say that "Sootho" is good for "coughs resulting from

DAVID GRADY, Closing Room, left to enlist in the U.S. Navy on June 11, 1966—1.5 years' service.

NICHOLAS LONGO, Chucking, left for service in the U.S. Army on April 29, 1966—4 months' service.

ERNEST LUBINSKAS, East Machine Room, left to enter the U.S. Air Force on May 23, 1966—4 years.

EMIL MANCINI, Mfg. Room Clerks, left to join the U.S. Air Force on May 9, 1966—4 months' service.

ROBERT J. NORTHPROP, Screw Machine Packing, left to enter the U.S. Air Force on April 29, 1966—9 months' service.

JOHN T. SHEEHY, Mailing, left on May 6, 1966 for service in the U.S. Army—6 months' service.

PAUL J. SHEA, Employment Office, left on July 1, 1966 to enlist in the U.S. Air Force—7 months' service.

MICHAEL J. LOGUE, JR., Closure Accounting, left to enlist in the U.S. Navy on July 8, 1966—1 year service.

JOHN H. STURGES, Electrical, left on July 8, 1966 for service in the U.S. Army—9 months' service.

DAVID KOLAKOWSKI, Aluminum Finishing, left for military service on August 11, 1966—3 years.

colds", that "N.G.s" will cure the headache which is "not of organic origin" or that "Relievo" will immediately "counteract the effects of Acid Indigestion"? . . . You're not particularly likely to hear them because they normally appear at the end of the announcer's script, and come out as a honeyed half-whisper. They can, however, always prove that they had said it.

But who is to make the diagnosis? Who is to decide that acid indigestion is not an ulcer (possibly malignant)—that the headache is not due to organic disease — that the backache needs only a drugstore back-flush?

The net result is much suffering at great expense. No one can more than estimate the number of deaths which occur every year because of temporary relief produced by self medication in conditions which should have had early and expert medical attention.

There's an old saying that "the doctor who treats himself has a fool for a patient", and if you don't happen to be a doctor, how foolish can you get?

See your doctor first—and, remember that the prescription he wrote for your great aunt Harriet is not safe for you, even though you think you have the same pains and aches!

Rod & Gun Club

By Walt Dziura

A capacity crowd attended our annual summer outing which was held at Woodtick on Saturday, August 20th, and enjoyed the food, refreshments, and games. The horseshoe, bocci and "jart" courts were active during the outing, with lively discussions during play. Because of the large attendance and the excellent food served, two items on the menu had to be replenished—but, all had their fill before the outing ended.

Outing prizes were won by: Forehead light by Albert Navickas; Blender by Harold Rogers, Finishing Lab; Desk radio by John Muroff, Lacquer; Electric knives by Leland Graham, Strip Mill and Roy Silva, Repair; Mixette by John Butler, Blanking Tool; Transistor radios by Gino Bocci, Packing B and Wally Bergstrom, Main Tool Room.

Only the initials "T.R." were on ticket #1316 so the winner is unknown. If the holder of this ticket will contact Ray Curtis, Grinding Room, he will receive his prize.

Anyone interested in shooting should attend the important meeting to be held Sept. 7th at SERA at 7:30 p.m.

Our annual Reeves Fishing Contests start in September—the first on the 10th and 11th; the second on the 24th and 25th. This contest is open to all employees. Good Fishing!

Our next regular monthly meeting will be held on Tuesday, Sept. 20th, at SERA at 7:30 p.m.

Retired Folks' Picnic

The annual fall outing for all retired employees of the Waterbury and Oakville divisions will be held at Woodtick on Tuesday, Sept. 13, weather permitting. In case of inclement weather, the meeting will be held in the SERA Building at 1:30 p.m.

The group will meet at the SERA Building at 1:30 p.m. Those driving out and who can take others along are asked to stop at the SERA. Transportation will be provided for all.

Husbands and wives of retired members are invited to attend.

RECENT RETIREES FETED

Warm wishes and tokens of remembrance are the order of the day when co-workers and friends gather together in a department when an employee retires.

Retirees so honored recently (pictured at the right) included:—

- 1) Joseph Adam of Casting
- 2) Philomena Gizze of Drawing
- 3) Napoleon Guilbeault, Chucking
- 4) Leo Pelletier, Repair Room
- 5) Emile Veronneau, Rod Mill
- 6) John Zacchera, Casting Shop

ENGLISH VISITOR TO PLANT

Mr. D. E. McCormack, a veteran of 45 years of Schrader service in England, took advantage of a vacation tour in the United States to visit with American Schrader men and "headquarters of the Scovill company". He came to Waterbury with Mr. Harry Ratcliff (left) who retired from the Brooklyn plant of Schrader after 39 years of service. Mr. S. T. Williams, who had 29 years of Schrader service before coming to Waterbury, escorted the men through various parts of the plant.

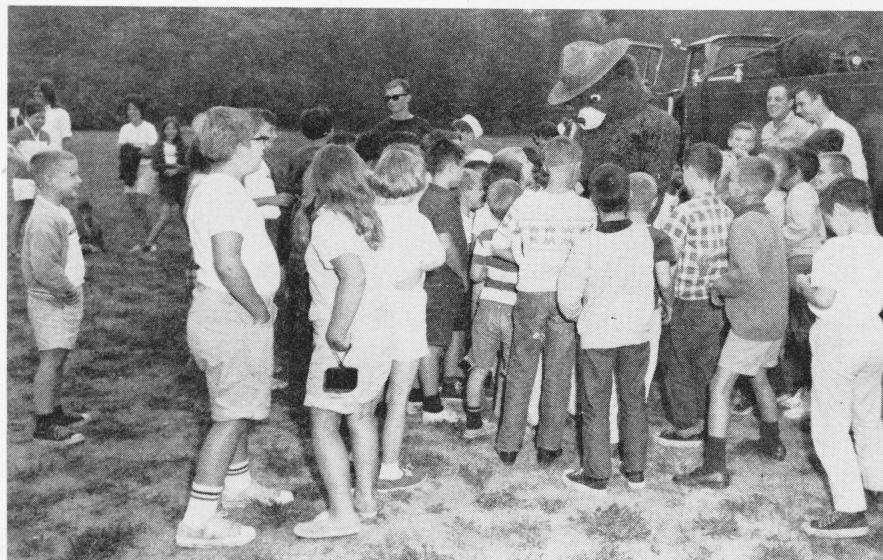

Of his trip to the states, Mr. McCormack says, "my overall trip to the U.S.A. has been really wonderful to a mere Briton, breathtaking at times by the magnitude of the countryside, the buildings, the manufacturing capacity and, above all, its people."

VISITORS TO OUR MILLS

One of the important activities of the local NOW program is its Neighborhood Youth Corps division. In cooperation with this program, our Mills Division personnel recently guided four groups of 35 men each through our mills.

The purpose of the tour was to acquaint the young people with job opportunities and educational requirements for those jobs. It was in conjunction with the N.Y.C. program in which part of each work week is devoted to educational programs.

Two of the groups are shown as they entered the Woodyard gate. They were accompanied by Ralph Daddesio, NOW Job Developer; Education Supervisors Thomas Fava and Hubert Williamson; and Crew Supervisor Donald Lewis.

VISITOR TO SERA DAY CAMP

One of the exciting programs at the SERA Children's Day Camp this summer was a visit by Smokey Bear and members of the Connecticut Forest Rangers.

The importance of our woodlands in their practical uses and beauty were explained to the youngsters and the responsibility of everyone to keep our forests safe from fire.

Smokey Bear and the Rangers also told of the wildlife in the woodlands, and the hazards to them which are created by careless persons who cause fires which can destroy all wildlife.

"Our trees and our forests provide our families with many happy hours of recreation — PLEASE! only you can prevent forest fires," said Smokey.

WOODTICK PICNIC AREA—POPULAR GROUP OUTING SPOT
Beautiful shaded areas, varied recreational facilities and equipment, good food, and the excellent companionship you'll find at the Woodtick Picnic Area have made it one

of the most popular group picnic spots around—as witnessed by two of the annual club outings held recently—the Foremen's Association (upper and lower left pictures) and the Rod & Gun Club (right pictures).

Obituaries

JOSEPH MARINELLI died on August 1, 1966. Retired, Yard Dept., in March, 1946—36 years' service.

ANTONIO LIBERATORE died on July 25, 1966. Retired, Salvage Dept., in July, 1951—27 years.

JAMES F. LEARY died on August 6, 1966. A guard in Plant Protection—38 years' service.

FRANK SPADOLA died on August 6, 1966. Retired, Head, Rehead & Clip Dept., in August, 1961—22 years.

JOHN WALLACE died on August 14, 1966. Retired, Gripper Eyelet, in January, 1965—28 years.

JOHN SYSSA died on August 17, 1966. Retired, Roll Thread Dept., in January, 1959—34 years.

MAX BARON died on August 19, 1966. Retired, Foundry, in March, 1960—17 years.

FRANCIS J. CONNELLY died on August 23, 1966. Superintendent of the Casting Shop—almost 27 years.

ERNEST PANACCIONE died on August 23, 1966. Retired, North Mill, in June, 1957—25 years.

ALBERT KEAN died on August 26, 1966. Retired, North Mill, in April, 1959—41 years.

“Looking Forward to Retirement”

(Continued from Page 1, Column 2)
 outlets are presented by a librarian and a representative of the Retired Workers Council; social security is discussed with a representative of the local Social Security office; living arrangements, family relationships, etc. are all discussed.

While the program does not include discussions of any individual's personal financial planning, or when a person should retire, those who have completed the course enthusiastically report that the budget planning discussions have greatly eased their minds on “getting along” on retirement income and, now knowing how to handle other problems which had them worried, they can look forward with confidence to the time when they may wish to retire.

A two-hour session (from 2 to 4 p.m.) is held once each week for

eight weeks. One hour is paid for by the Company, the other hour is on the employee's own time.

Group units are now being set up for the fall and winter months. Interested employees are invited to register. Assignment to units must take into consideration departmental needs. It may not be possible to assign more than one employee from the same shift in one department to the same unit, as this could interfere with production requirements. However, every effort is being made to designate to an early unit employees already registered.

Additional information may be obtained from your foreman, steward, some one who has already taken the course, or by contacting Charles Rietdyke, Employee Relations, Ext. 2269. To register, just fill in the blank below and send it in.

To: Charles Rietdyke
 Employee Relations

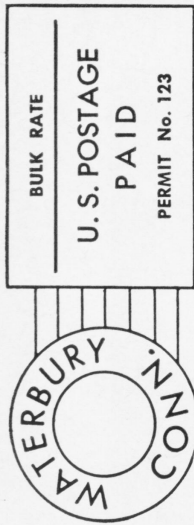

I would like to attend the “Looking Forward to Retirement” program.

I will bring my (husband) (wife) with me.

Published the first week of each month in the interest of Scovill men and women. The deadline for classified advertising and news items is the 20th of the month preceding issue.

Our address: Scovill Bulletin, P.O. Box 1820, Waterbury, Conn.

Your Social Security

When you become 65, you will be eligible for medical insurance protection.

However, you *must enroll* within the three months before your 65th birthday month and the three months following. If you wait until your 65th birthday or later, your medical insurance protection will not begin immediately.

You will have medical protection as soon as you reach 65 *only if you apply during the 3-month period just before the month in which you reach 65.* You will, however, have hospital protection as soon as you attain 65.

If you are unable to call at the social security office during the day, the Waterbury office is open every Thursday evening from 5:00 to 9:00 o'clock. The Waterbury office is located at 236 Grand Street.
