

# SCOVILL BULLETIN

JANUARY, 1967

*Published by Scovill Manufacturing Company for its Employees*

## Employees Establish Blood Donor Record

You can always count on Scovill employees whenever a need arises in the interest of their fellowmen. This is a fact well known throughout Waterbury and leaders of the local Blood Bank program as well as Scovill management are proud to tell of the record set by these employees during 1966.

Based on number of employees, a quota of 200 units of blood was set for each quarterly visit of the Blood Mobile Unit to the plant, for a total of 800 units yearly; employees have topped their quota three times out of four. They were:— 181 units in March, 237 units in June, 219 units in September, and 219 units in December; for a grand total of 856 units.

The December 21st visitation, termed the "Holiday Special", saw 242 volunteers on hand, with actually 219 pints of blood collected.

Special donor pins were awarded as follows:—

8-gal. — Adam Balkus

6-gal. — Fred A. Wilson

5-gal. — Richard B. Harris

4-gal. — Paul C. Belval

3-gal. — Laurence J. Bernier, Boris

Stasiuk, Everett J. Thorn

2-gal.—Honorius Chabot, Donald F. MacIntosh, Anthony Mastrofrancesco, John S. Peterson, Maurice J. Poirer, Norman Shirk

**DRAWING SUGGESTION CONTEST WINNERS.** *President Malcolm Baldrige reads number drawn as one of the winners in the recent Suggestion System's award contest. Scovill Local 1604-UAW President Michael Exarhou and Group Vice President Norman Schlink drew the other two winners. Vice President George Goss holds the container in which were placed numbers assigned to all employees who submitted suggestions during the contest period (October 3 to December 3, 1966).*

### Suggestion Contest Winners

1st prize—A one-week vacation, for two, to the Caribbean. Winner was Philip DelGobbo, Lacquer Room.

2nd prize—Portable TV. Winner was Juanita Ingerson of Hot Forge.

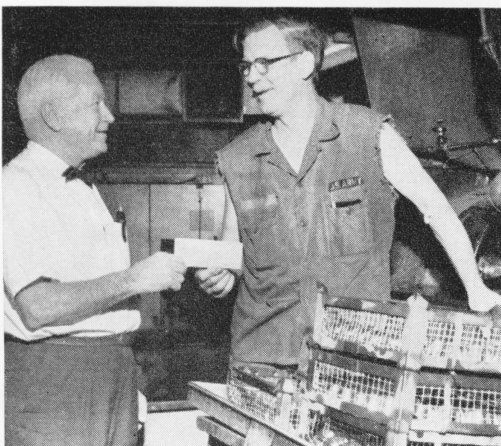

3rd prize—Portable AM-FM radio. Winner was James Holmes, Power House.

1-gal. — Bertil M. Anderson, Gerald Barth, Edith W. Goguen, Emil F. Howes, Philip B. Jensen, Dennis J. McFarlin, Leonide T. Plourde, George F. Radtke, Lee Richardson

### 8-GALLON BLOOD DONOR

A familiar face at all visits of the Blood Mobile Unit to Scovill is that of Adam Balkus. He contributed his 64th pint of blood at the Holiday Special which was held at the SERA Building on December 21st.

Walter Hoethke, foreman of the Chucking Department, congratulates Adam and presents to him a commendation for this fine record.

The Suggestion System Committee reports 140 suggestions were submitted during the contest. Some have been completely processed, and some are included in the December awards. The others are being studied and, the committee notes, many appear to be award winners.

### \$1044 For Suggestions Paid During December

#### \$240.00 Award

Michael MacNerney, Hot Forge

#### \$120.00 Award

Philip DelGobbo, Lacquer  
Shirley Errico, Wire Mill  
Anthony Szantyr, Wire Mill  
Julius Zembruski, Cosmetic

#### \$118.00 Award

Alexander Boyarchok, Lacquer

#### \$60.00 Award

Harry Heverling, Mfg. Tool  
Andrew Gwisdala, Foundry

#### \$48.00 Award

Catherine Verrastro, Mill Acct.

#### \$38.00 Award

George Nix, Cosmetic

# MEMO *from Management:*

## New Year — New Opportunities

The year 1966 is now behind us. All of the figures are not yet in but it should total up to another record year for Scovill — another year of accomplishment and purpose.

But the new year is not the time for looking backwards—it's much more exciting and challenging to look ahead. 1967 should be another good year despite the uncertainties caused by such factors as tight money, rising prices, and some cut-backs in auto production. How good a year it is for Scovill will not only depend upon the general health of our economy, it will also depend on us — on how well we use all that we have to work with.

Here are some of the strengths that our company has to sustain continued growth in the year ahead:

We have the financial resources of one of America's top 500 industrial concerns — Scovill was 257th in sales in 1965 . . .

We have the skills and experience of approximately 15,000 employees in our world-wide plants . . .

We are the world's leading producer of such products as tire valves, pins and snap fasteners . . .

Our Hamilton Beach Division, well known for the quality of its products, is gaining increasing recognition as *the* innovator in the small appliance field . . .

We are the oldest producer of brass mill products with the most modern and efficient equipment in the industry . . .

Our General Products Division operates one of the most versatile contract manufacturing shops in the country.

But, it isn't always what you have that counts — it's how wisely you put it all to work that creates profits and produces new job opportunities. All of the products that we sell, all of the markets that we serve, and all of the experience that we have accumulated over the years give us an important competitive advantage — exposure to a much broader range of opportunities for new business.

We must have enough imagination to recognize these opportunities, enough ingenuity to develop them, and enough gumption to bring them to a profitable conclusion. The fact that we have almost doubled our sales and have quadrupled our profits in the past five years is proof enough that Scovill people have what it takes to move ahead in a tough competitive world.

We are confident that we can continue this progress in the years ahead.

## New Assignments

### Closure Div.

JOHN J. BUTKUS—Factory Manager, Waterbury Operations

JOHN HUMISTON—Superintendent, Production Depts., Waterbury Operations, responsible for Depts. 27, 29, 67, 69, 77, 370, and 373

PASQUALE TARULLO — Foreman, Dept. 69, Gripper Eyelet, and 370, Gripper Eyelet Tool

CHARLES F. ASH — Merchandise Manager, Gripper Snap Fasteners—New York

GEORGE FEIRSTEIN — Merchandise Manager, Women's Wear—New York

WILLIAM R. SPEARRIN — Merchandise Manager, Men's Wear—New York

H. W. KUNHARDT — General Product Manager, Fasteners—Waterbury

JOHN P. McDONNELL — General Product Manager, Zippers—Newark, New Jersey.

### Cosmetic Container

WESLEY L. DICKSON — Tool and Manufacturing Superintendent

GORDON S. PETRIE— Product Manager

### General Products Div.

ROGER ST. PIERRE—Asst. Foreman, Dept. 30, Aluminum Finishing

RAE M. BROKER — Product Sales Manager, Forging and Foundry Sales

BENJAMIN H. REID, JR. — Product Sales Manager, Tankfitting and Housewares Sales

### Plant Engineering

RICHARD WATTS — Asst. Foreman, Dept. 311, Electrical—East Plant

## Credit Unions' Annual Meetings

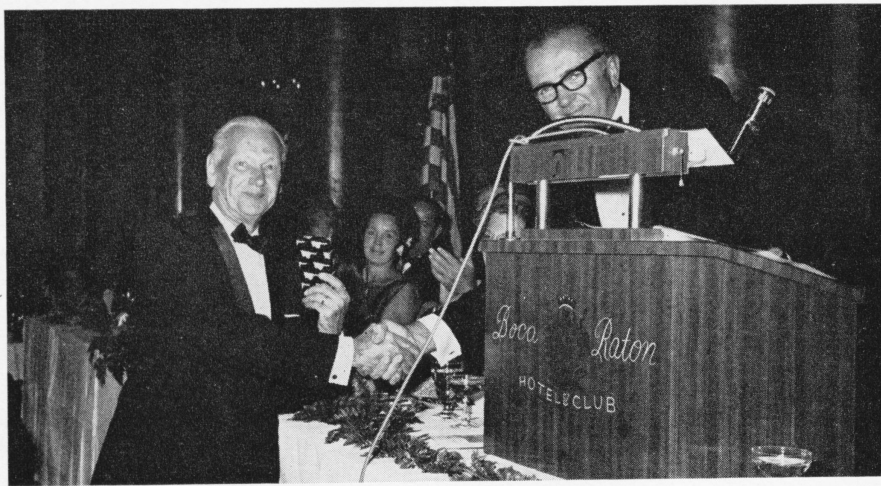

Scovill Employee Credit Unions will hold their annual membership meetings in the SERA Building. Members are urged to attend for the election of officers and other business transactions, and to enjoy a social hour, with refreshments to follow.

Credit Union #1—Tuesday, February 7, at 7:30 p.m.

Credit Union #2—Tuesday, January 10, at 7:00 p.m.

Credit Union #3—Friday, January 20, at 7:00 p.m.

Credit Union #4 — Thursday, February 2, at 7:00 p.m.

A.K. OLDIN, SR. HONORED. In recognition of 40 years' membership in the National Screw Machine Products Association, Mr. A.K. Oldin, Sr., recently received an honorary award, presented by Mr. C.J. Crites, past president of the association at its annual convention in Florida.

In recalling his 40 years in screw machine products, Mr. Oldin notes "the selling of screw machine products has been a most interesting and rewarding experience. Through it I have been a part of whole new industries and the tremendous growth of others: from crystal radio sets to color T.V. and very sophisticated electronic components—from the small horsepower

steel wheeled tractors to the behemoths used in today's earth-moving equipment—from the utilitarian model T Ford to the splendor of today's automobiles. Yes, it's been a long way from trying to get through the miles of unpaved Iowa roads to the 600 mile per hour plus jet travel of today—but it's been fun."

Mr. Oldin started his career with the Chicago Screw Company, later with J.J. Tourek Manufacturing Company of Chicago, and came to Scovill in July, 1958. He is District Sales Manager for our General Products Division in Chicago.

## Your Social Security

Starting January 1, 1967, persons 65 and over who have been hospitalized for at least three days since the hospital insurance part of medicare began operation on July 1, 1966, may be eligible for payment of the costs of continued treatment in a skilled nursing home or other institution that qualifies for participation in medicare.

Medicare can pay all the basic costs of up to 20 days in an extended care facility certified to participate in medicare, and all but \$5 a day for an additional 80 days.

To qualify, the person must have entered an extended care facility for continued treatment within 14 days of leaving the hospital, following his hospital stay.

This extended care benefit of medicare is a special kind of benefit that will be needed by only a limited number of those who are hospitalized. It is designed to provide skilled nursing care at less cost than hospital care for those who no longer need the intensive care of a hospital. Only this skilled care, generally needed for a short period, will be paid for by medicare. Long-term custodial care in a nursing home is not covered.

## Snow Throwers

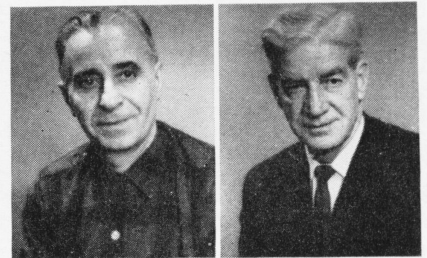

"The snow thrower is a valuable time, labor and heart-saver for the middle aged suburbanite," says Phil Dykstra, manager of the National Safety Council's Home Department. "Unfortunately, the snow thrower can present hazards for the uninformed and careless user. Most injuries occur when the operator attempts to clear a chute that has been clogged without first turning off the motor". Mr. Dykstra urges operators of snow throwers to observe the following safety rules:

Read all operating instructions carefully. Know how to stop the engine or how to throw the unit out of gear quickly.

Keep children and pets away while operating the machine.

Never leave running equipment unattended. Never refill fuel tank with the engine running. Avoid fuel spills.

Never remove foreign objects or snow from equipment while the engine is running.

- John Babin, Mill Sales  
10 years—Dec. 17, 1966
- Walter Mendyka, Single Spindle  
10 years—Dec. 17, 1966
- Anna Steinnagel, Cos. Assembly  
10 years—Dec. 23, 1966

Never put a hand or foot near any moving part. Never place your hand inside discharge chute or even near its outside edge with the engine running.

Never make any mechanical adjustment, or do any other kind of work, on the equipment while it is running.

Never run the engine indoors.

Don't operate the machine on sloping ground where you risk a slip or fall.

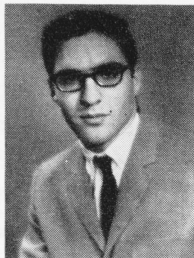

SKID-PROOF THOSE SLIPPERY FLOORS. Here's one way to solve this problem, as applied to the hardwood ramp in the Lacquer Room, which had become polished and slippery by constant traffic. In just a few minutes the Carpenter Shop applied a mat with abrasive surface to give sure footing. This material is excellent for any flat surface such as floor, ramp, work platform and steps.

## Spring Vacations

Plans for the SERA-sponsored annual spring vacation trip for employees are formulated, with deposits now being received. The two-week trip will be by jet flight from New York and will cover the Scandinavian countries, from May 11th through May 25th.

## Training Course

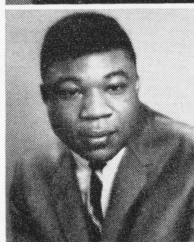

GRINDER. Robert D. Gaudiosi was graduated as of December 12, 1966 as a grinder. He has been assigned to the Screw Machine Tool Room.

GRINDER. Robert G. Haines was graduated as of December 5, 1966. He has been assigned to the Screw Machine Tool Room.

PLUMBER - STEAM-FITTER. Melvin Weaver was graduated as a plumber-steamfitter as of December 19, 1966. He has been assigned to the Pipe Shop.

There is a way to skid-proof any surface. Report slippery spots when they are discovered to prevent accidents.

Note the good, slip-proof shoes which assure good footing on any surface. The right shoe sole is just as important as the surface being walked on.

## Girls' Club News

By Nora Williams

A most enjoyable evening was had by members, and their guests, who filled six buses on the trip to Hartford for the "Festival of Lights". These bus excursions have proved most successful—six were held this past year and they will be continued in this coming year. The next possibly will be a trip to New York for the Easter activities. You'll be hearing about it soon.

The children's Christmas parties were well attended and Good Old St. Nick made his annual appearance to the delight of all the children.

We wish to extend our most hearty thanks to Management for their splendid cooperation during the holiday season; to all purchasers of the Christmas cards and candy; to our members who knitted 75 pairs of mittens and 15 helmets or bonnets (retired member Loretta Oliver knitted 25 pairs!) to be included in the Christmas baskets; to the girls who dressed dolls for these baskets and to Violet Dander Pelletier, chairman of the Needy Family Program, for her usual wonderful job in coordinating the activity. Violet also

## Rod & Gun Club

By Walter Dziura

A new slate of officers was elected at the December 20th meeting for 1967: President Paul Delage, Vice President Domenic Cberubini, Secretary Vincent Manzolli, Financial Secretary James Gilroy, Treasurer Douglas Sucher. In accordance with our new policy, the post of Secretary-Treasurer is now divided into three offices because of the increasing size of the Club.

On December 13th, 1000 calico bass were stocked in Woodtick Reservoir. They should add to the fishing enjoyment this coming summer. Just a reminder:— it is illegal to keep calico bass caught in Woodtick until season opens in April. So, please release any that are caught this winter.

The results of three additional rifle matches, as turned in by Rifle Committee Chairman Charles Carpentier, show: Hot Forge vs Mfg. Tool—482-374; Blanking Tool vs Mfg. Eyelet, 476-383; Mfg. Tool vs Mfg. Eyelet, 401-443.

A turkey shoot was held at the range on December 11th, with one turkey as the prize for each relay of 20 shooters. Winners were: Sal Magaraci, Hot Forge Tool, with 57; Tony Jaffer, Synthetic Lab, 73; Jerry Bousquet, Pipe Shop, 72; John Deegan, Gripper Eyelet, 62. Skill was not a factor in this shoot. Everyone fired at numbers on a target. The numbers were not visible from the firing line. This event was so successful and drew such great interest that it will, no doubt, be held again.

With the generous cooperation of the Company, SERA, and the Rod & Gun Club, and in the interest of the Club in promoting safe shooting, the rifle team from Crosby High is using the Scovill rifle range on Wednesday evenings. Perhaps we can arrange a match later on.

Remember to reserve March 18th for the Club's Dinner Dance. As attendance is limited, order your tickets now.

An ice fishing contest was scheduled for Woodtick on Jan. 7th-8th.

All members of the National Rifle Association who are also Rod & Gun Club members, can reduce their NRA member fee by \$1.00. Get a signed application blank from the R & G secretary.

The next meeting will be on January 17th at SERA at 7:30 p.m. Installation of officers will be held.

saw that, where needed, additional sweaters and socks were included in the baskets.

Dorothy Chambers, who spearheaded the Knitting phase of the program, says the program will be continued this year. The girls are planning an early start and, if you're interested in helping, please call Dorothy at Ext. 2142.

On behalf of the Scovill Girls' Club, may I wish for all of you a very happy and prosperous New Year!

CHRISTMAS ACTIVITIES AT THE SERA

The spirit of giving and sharing was very much in evidence Christmas week when (top row, left) members of the Scovill Girls' Club and helpers packaged boxes of food, toys and clothing for 43 of our employee families who needed a helping hand; and (right) 242 employees volunteered a unit of blood to assure an adequate supply in case of illness or emergency during the holidays when the

availability of blood could mean the saving of a life. 2nd row:—some of the 219 employees who gave blood.

Party time was also celebrated here. 3rd row:— JoAnn Devino and Edward Morra provided the musical portion of the program at the annual Retired Folks' Christmas Party; 4th row:— another group which holds its annual Christmas Party at the SERA is the Scovill Foremen's Club.

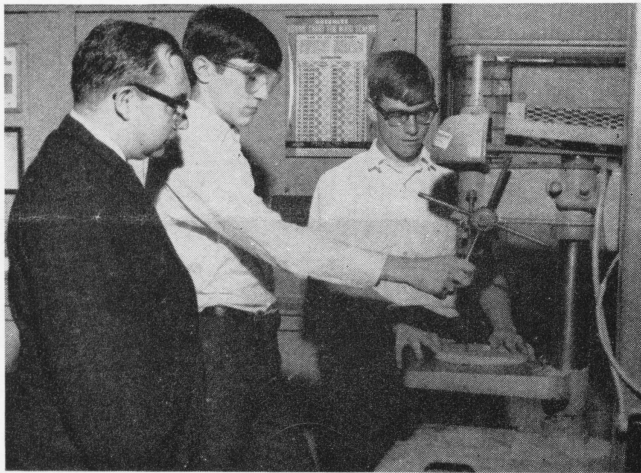

**Teensco Enterprises — J. A. Company — Producing Formica Trivets**

**EXECUTIVE COMMITTEE.** Flanked by Samuel Paulone and James Smith, advisors concerning management functions, officers of Teensco Enterprises are:— Secretary Mary Keith, Treasurer Marie Zanavich, President James Scully, and Vice president in charge of Sales Robert Proulx.

**PRODUCTION OPERATIONS.** President Scully and Sales Vice President Proulx join Frank Ford, Vice President in charge of Production, in demonstrating various operations in the production of the trivets to Production Advisor John Daniel (2nd left) and Management Advisors Paulone and Smith.

**SAFETY A FACTOR.** Production Vice President Ford and Sales Vice President show the importance of wearing safety glasses when working at the drill for the operation of drilling holes in the wood base for insertion of the "feet" under the watchful eye of Production Advisor John Daniel.

**ASSEMBLY OPERATIONS.** Production Vice President Ford and Production Advisor Daniel are interested in the assembly operations as performed by Cathy Kelly, Mary Keith, and Mary Zanavich. The 8" attractive formica trivets will be sold to employees at the Scovill Employee Store.

---

## Retirements

---

EDITH DANIELSON, hydraulic cut-off saw operator in Hot Forge, retired as of December 1, 1966, with 15.9 years of service.

HARRY BILLUPS, maintenance man in the Aluminum Mill, retired as of December 5, 1966, with 43 years of service.

**Effective Jan. 1, 1967**

ERNEST BRYANT, Casting Shop Scrap Room foreman—29 years' service.

MARIE S. HAYES, social worker in Employee Relations—24 years.

HAROLD F. JOHNSTON, patent attorney in the Legal Dept.—31 years.

MARGARET TORTORA, set-up bench worker in Closing—27.9 years.

HERSEY WATSON, caster's helper in Casting—26.4 years.

EDITH WILDMAN, auto fasteners assembler in Closing—28.7 years.

HERBERT WOLFREY, crane operator in the Aluminum Mill—42.2 years.

To My Dear Friends  
Throughout the Plant:

Since it is impossible for me to contact you individually, I am using the pages of the Bulletin to tell you how much I appreciate your kind wishes and the "down payment on my piano" presented to me at the wonderful retirement party you gave me.

I'll always have fond memories of my days at Scovill and will value the many friendships I have made. In the years to come, I hope to see you often.

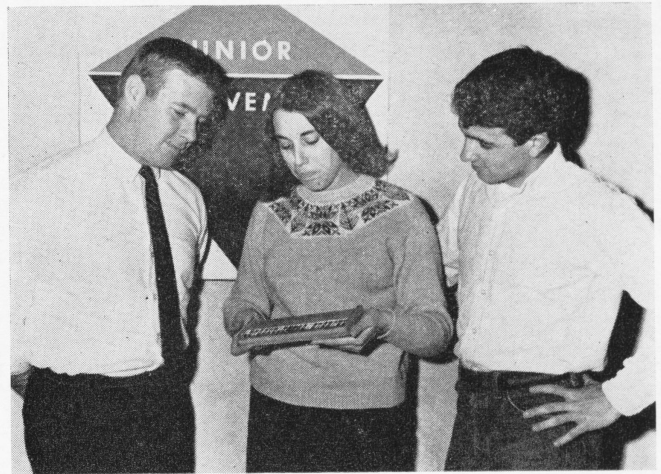

Again, many thanks for an unforgettable evening.

Sincerely,  
Marie Hayes

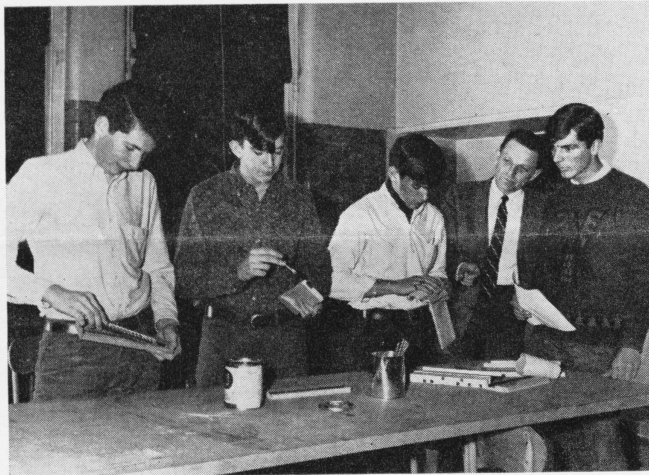

**Ideal Industries — J. A. Company — Producing Magnetic Knife Racks**

**EXECUTIVE COMMITTEE.** Asst. Secretary Maryellen West, President Michael Russo, Jr., Corporate Secretary Carol Mariano, and Treasurer Richard DeMada review stock certificates with guidance from T.P. Staubo, one of their Advisors in Management and Financial activities.

**MARKETING PLANS.** Diane Donato, Vice President in charge of Sales, and President Russo discuss with Sales Advisor Kevin O'Connor selling points of their products and possible markets for them. The attractive Magnetic Knife racks will be available at the Employee Store.

**PRODUCTION OPERATIONS.** Demonstrating various operations in the production of the rack are James Sullivan, Gregg Miller and Richard Inman. Their Production Advisor George L. Grice, Jr. and their Vice President in charge of Manufacturing Peter A. Stefanchik, Jr. look on.

**INSPECTION AND PACKAGING.** Advisors T. P. Staubo and William Armour point out importance of close inspection for any possible defects which could mean dissatisfaction with or rejection of their product on the market to William March (2nd left) and Production Inspector David Newell.

## SERA Activities

Sports and social activities are in full swing again at the SERA.

Adult dance classes are held on Wednesday at 8 p.m. All interested employees are invited to attend.

Basketball League — Monday evenings at 7:30 p.m.

Badminton—Wednesday and Thursday evenings at 5:00 p.m.

Volleyball League — Friday evenings at 7:00 p.m.

## Obituaries

ALFRED STEPONAITIS died on December 1, 1966. A productive helper in the Strip Mill—18 years.

FRANCIS T. BERGIN died on December 2, 1966. A lathe operator in Coupling Dept.—22 years.

IRVIL N. HOWARD died on December 11, 1966. Special Assistant to the Marketing Manager, Mills Division—31 years.

WALTER R. ALLEN died on December 16, 1966. Retired from Mill Sales

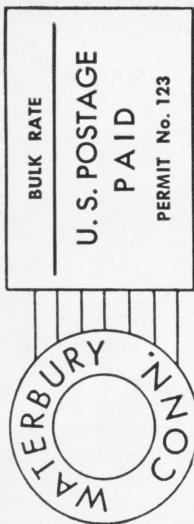

Div., Los Angeles, in January, 1961—35 years.

ARTHUR BLEWITT died on December 27, 1966. Lead man and Warehouse man in the Strip Mill—35 years.

ROCCO PISTONE died on December 28, 1966. Retired, Buff Room, in September, 1961—44 years.

JENNIE BRADLEY died on December 29, 1966. Retired, Waterville Division, in April, 1959—41 years.

CLARENCE FORD died on December 29, 1966. Retired, Attaching Machines, in January, 1963—27 years.

4 rooms, Hopeville section; 2nd floor of two-family home. 754-6458.

## Other

Player piano, for the taking; needs repair. 283-4643.

## Wanted - Tokens

I am developing an exhibit of Scovill-made transportation tokens, and I lack a sample of the Cooke Street Line in Waterbury. There are four varieties—two for school fares and two ordinary, the latter both plain (CSL) and coated or plated.

Also, there are two Bunker Hill, one reading "Transp" and the other with that word spelled out in full.

If Scovill made also for the Northeast Transportation Company, we need that. And the same goes for the line that ran to Wolcott. The pieces read "Good for one Fare", on both sides.

It will be most helpful to get the pieces to complete the display; one, anyway, and we can use as many as six of each that Scovill made. (The Connecticut Company and the Connecticut Railway & Lighting are technically assigned to other cities as their headquarters. We made them.)
