Retirement Planning Program To Resume

The "Looking Forward to Retirement" program, co-sponsored by the Company and the Union, will resume its fourth year of retirement planning sessions the latter part of this month.

To date, approximately 600 Scovillites have completed the eight two-hour discussions in the program which is offered to employees and their spouses. Especially prepared for employees in the 55 to 65-year bracket, the program provides authentic and dependable information needed to confidently plan and prepare for the leisure years.

Group units are now being set up for the fall and winter months. Interested employees are invited to register. Assignment to units must take into consideration departmental needs. It may not be possible to assign more than one employee from the same shift in one department to the same unit, as this could interfere with production requirements. However, every effort is being made to designate to an early unit employees already registered.

Additional information may be obtained from your foreman, steward, someone who has already taken the course, or by contacting Charles Rietdyke, Employee Relations, Ext. 2269.

Employees Set Blood Donor Record

Scovill employees are to be congratulated on their whole hearted response to the recent call for blood donations which are so urgently needed.

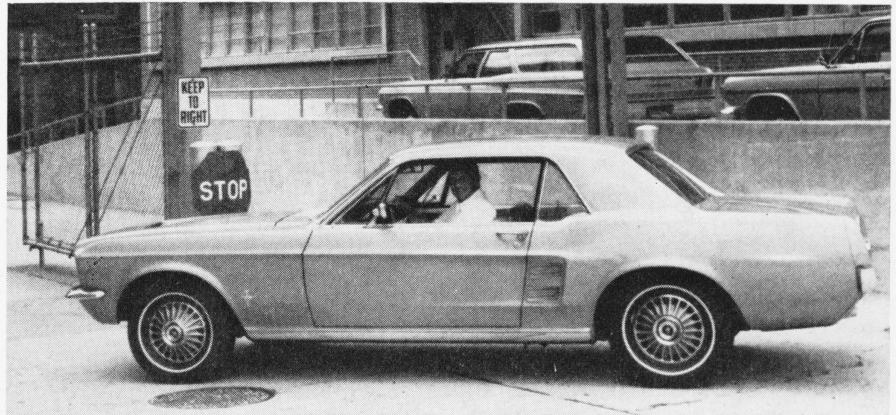

Approximately 300 persons appeared, or called in to make reservations, at the SERA on Thursday, August 24th, but because of the time element and the lack of Blood Mobile unit facilities to handle them all—251 pints were actually collected.

Section #3 — Mills, Transportation, Planning, Purchasing and the Executive Offices — was scheduled to give on this the third Employee Blood

(Continued on Page 3, Column 2)

Special Suggestion Contest

1967 Mustang to be Awarded by Random Draw

All eligible employees who submit suggestions under the rules of the Scovill Suggestion System between September 5 and November 5, 1967, will have a chance to win a lime gold 1967 two-door Ford Mustang Sport Sprint.

The Mustang, to be awarded at a special drawing on November 10th, comes equipped with radio, heater, adjustable louvers, bucket seats with seat belts. The registration fee, state tax, federal excise and income taxes will be paid. The car will be displayed at the various plant entrances from September 5th until November 3rd.

Each eligible suggestion turned in during the contest period will be given a number which will be placed in a container. On November 10, 1967, in a special drawing, a number will be picked out of this container to decide the winner of the Mustang.

You do not have to win a cash award to be eligible for this drawing.

Suggestions submitted should do one of the following:—

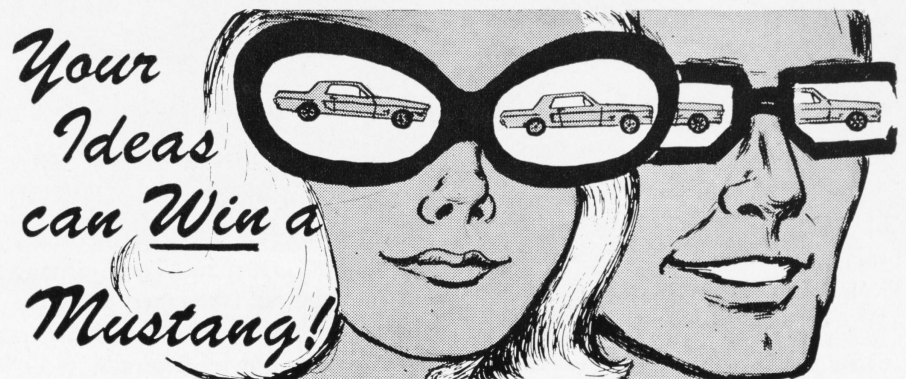

REDUCE costs, waste, spoilage, defective work

IMPROVE methods, product quality, tools, fixtures, equipment, handling, storage, maintenance, house-keeping practices, office and clerical report forms and procedures

DEVELOP new products, new equipment, new techniques

Suggestions must be dated between September 5 and November 5, 1967, and received no later than Monday, November 6th. They must be submitted on the official Suggestion System blanks which are located in Suggestion System bulletin boards throughout the plant.

All employees who submit eligible suggestions will receive a key chain knife marked "Scovill Suggestion Award".

MEMO *from Management:*

Connecticut's Manufacturing Economy

This is the title of a brochure recently released by the Connecticut Development Commission to describe the dynamic growth of manufacturing in our state. This encouraging report points out that no single factor has a greater impact upon the economic growth of Connecticut than our highly diversified manufacturing firms. Here are some of the facts highlighted by this report:—

43% of the state's non-agricultural employment, or 16% of the state's population (as compared with only 9% for the U.S.) is in the industrial sector.

Our state ranks first in the nation in the ratio of skilled workers to total workers.

Connecticut leads the nation in the production of aircraft engines, helicopters, submarines, bearings, silverware, copper alloy rolling and drawing, and cold finishing of steel shapes.

From 1950 to 1966, the state's population increased by 43.2%, substantially above that for the nation, 29.4%, and more than double the 20.5% for New England. In the same period, the state's non-agricultural employment increased by more than 37.1%.

Connecticut ranked first in the nation in personal income with a per capita amount of \$3,678 in 1966 compared with \$2,940 for the country as a whole.

The report concludes with the statement that Connecticut has every reason to look forward to the future with confidence and optimism. The conditions that have enabled our state to reach its present high level of growth will continue to influence our growth in the years ahead. Population is expected to increase steadily in the decades ahead, nearly doubling itself by the year 2,000.

It's a promising future — one in which our company and our city can hope to participate if we are smart enough and aggressive enough to take advantage of the opportunities before us.

Retired Folks' Picnic

The annual fall outing for all retired employees of the Waterbury and Oakville divisions (including New Milford) will be held at the Woodtick Picnic Area on Tuesday, September 12th, weather permitting.

In case of inclement weather, the

meeting will be held in the SERA Building at 2:00 p.m.

The group will meet at the SERA Building at 1:30 p.m. Those driving out and who can take others along are asked to stop at the SERA. Transportation will be provided for all.

SERA To Hold Annual Meeting

The annual membership meeting of the Scovill Employee Recreation Association will be held on Tuesday, September 12th, at 8:00 p.m. in the SERA Building.

All employees of the Waterbury (including New Milford) and Oakville Divisions are members of the association and are urged to attend.

Reports of the past year's activities will be given and election of the Board of Directors will be held. Refreshments will be served following the business session.

A Nominating Committee has been appointed, consisting of Joseph Fabiano, General Products Division; John Deegan, Closure Division; Edward Borowski, Waterbury Services; Rose Petti, Mill Products Division, and Marion Green, Oakville Division. Any Scovill employee interested in serving on the Board of Directors is asked to contact any member of the Nominating Committee.

In accordance with changes in the SERA Constitution, approved by membership at a special meeting held on August 23rd, nominations from the floor at the annual meeting will be accepted as follows:—

"At the Annual Meeting, nominations for the Board of Directors may be made from the floor. If the nominations from the floor exceed five (5), a run-off election will then be taken involving only those nominated from the floor. The five receiving the highest number of votes will be eligible to run for the Board of Directors with those nominated by the Nominating Committee and the Board of Directors. The nominee must be present to accept the nomination or the person making the nomination must have written proof of willingness to accept."

Pinochle Tourney

A meeting of all interested pinochle players will be held at the SERA on Thursday, October 5th, at 8:00 p.m. to discuss plans for the season.

If enough players show interest in continuing the weekly tourneys, it will be the 54th season of continuous pinochle playing in Scovill.

Joe Brenneis, who has headed the activity for 38 years, urges all Scovill men pinochle players (active and retired) to attend this important meeting. Their response on October 5th will determine the future of the league.

Scovill Members of Mattatuck Band

Our congratulations to the Mattatuck Drum Band which is celebrating its 200th anniversary this year. Organized in 1767, the band furnished training music for Waterbury militia. Today its music is well known nationally — it played at the Kennedy Inaugural in 1960, and is invited annually to play in the "Old Milwaukee Day" celebration in Wisconsin and the National Lions Club Convention in Chicago.

Scovill has played a part in the history of the band through the brass buttons on the uniform of Revolutionary Patriots. A few of the uniforms are still equipped with these buttons.

Scovill men have been members of the band for many years. Pictured in front of Marina Towers in Chicago in July are (left to right) Snare

Blood Donors

(Continued from Page 1, Column 1)
Donor Day of the year; however, employees from other sections of the plant also volunteered.

Gallon pins were awarded:—

7 gal. — Louis Mastracchio

5 gal.—Frederick Kirschbaum, William Rogers

3 gal. — Richard Cullen

2 gal. — Raymond Niski, Rosaiero Gagne, Kermit Bouley

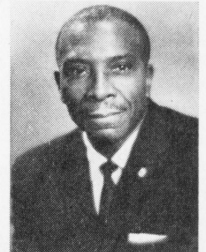

1 gal. — Catherine Aurio, Elaine Mancini, Thomas Insero, William Carserino, Stephen Harbanuk, John Synnott, Constantine Napolitano, Joseph Joyce.

drummer Robert Blakeslee, 20 years; Bassdrummers Wayne Flemming, 2 years; Byron Fleming, 30 years; Frank Judd, 33 years, and Arnold Scriven, 6 years. Mr. Judd is Sergeant of the bass drum section as well as historian for the Band.

OPERATION: HEADS UP! Western Regional Sales Managers and salesmen of our Mill Products Division, attended the sales meeting held at Avon Lake, Ohio, last month. A team of 14 from Waterbury led discussions of many subjects pertaining to the general theme: Greater Profitable and

Sales Volume.

Attending were representatives from Chicago, Cincinnati, Cleveland, Detroit, Pittsburgh, St. Louis, Chamblee, Georgia; Elm Grove, Wisconsin; Greensboro, No. Carolina; and Sturgis, Michigan.

Your Social Security

Social Security is often thought of as a monthly check that retired people can get if they worked long enough under Social Security.

Not as well known, but of equal importance, is the fact that Social Security also provides monthly checks to middle aged people, young people and even infants. This income protection under Social Security is provided to dependents of young disabled workers and survivors of workers who die at young ages.

Monthly payments can be made to these dependents of young disabled workers or the dependents when the younger worker dies:—

—unmarried children under 18 years of age or between 18 and 22 if they are full-time students,

—unmarried children 18 or over who were severely disabled before they reached 18 and who continued to be disabled,

—a wife or widow, regardless of age, if she is caring for a child who is getting payments based on the worker's social security account,

—certain other dependents.

The young severely disabled worker can also receive monthly benefits if the disability will prevent any work for at least 12 months and the worker had employment covered by social security in 5 of the 10 years before the disability began.

300,000 MANHOURS — ACCIDENT FREE. New Milford Tube Mill Plant Manager Gerald Corrigan thanks members of the division's safety committee for their excellent work in helping to attain this fine safety record.

Pictured with the Award Certificate are: F. W. Stedman, Liberty Mutual Account Executive and Manager of their Waterbury office; Lucien Collins, Lester Kinney, Isabel Kollmyer, Allen Dodd, John Januska, all of the Plant Safety Committee; Foreman John Greaney, Mr. Corrigan, Plant Engineer R. H. Bauer, Liberty Mutual's Safety Engineer A. T. Warner, and Tube Mill Assistant Plant Manager E. F. McCorkle.

New Milford Mill Sets Safety Record

300,000 manhours worked without a single disabling injury. This record, established between January 26 and June 15, 1967, won recognition recently for the Tube Mill from Liberty Mutual Insurance Company.

The insurance company's "Certificate of Merit" was presented to the division for its outstanding achieve-

ment in accident prevention. Top Mill officials from Waterbury also attended the special award ceremonies held at New Milford on August 14th.

Plant Manager Gerald Corrigan paid tribute to the efforts of the departmental safety committee whose interest and suggestions in the promotion of accident prevention help to make such records.

Rod & Gun Club

By Vinnie Manzolli

A big "thank you" to *John Capone, Fred Kirschbaum, Ray Curtis, Harold Rogers, Dom Cherubini* and *Paul DeLage* for the apparent hard work that made the annual picnic a huge success.

A "thank you" also to *Steve, Dom, Jim,* and *Joe* for the manner in which they kept such a huge crowd from going hungry . . . another "thank you" to *Emil Kazmeier* for supplying music all day with his tape recorder.

It can be said of those in attendance that everyone had a good time, especially those lucky door prize winners: *Bill Beck*, fishing pole; *Al D'Ambrosi*, lighter; *Tony Galletta*, blender; *Tom Carpentier*, transistor radio; *Al Augustino*, percolator; *Vin Zuella*, transmitter radio; *Joe Donahue*, can opener; *A. Masi*, cuff links; *Joe Aleksinas*, mixette; *Andy Sedlak*, transistor radio; and *Harvey Krantz*, toaster.

The first of the Reeves' Fishing Contests is scheduled for Sept. 9th and 10th. The Fishing Committee hopes to see many of you there.

Les Hart reports the following are some of the larger fish measured in to date:— 22½" bass by *J. Kolesnic*; 20½" bass, *J. Napiello*; 20" bass, *Neil Granoth*; 19⅝" pickerel, *Daveluy*; 17½" bullhead, *H. VonTobel*; 13½" perch, *Doris Wrenn*.

Although the water level is down some, there is still plenty of water for good fishing. Calico and perch seem to be biting these days and even some white perch have been caught.

The next Rod & Gun Club meeting is scheduled for Sept. 19th. It is hoped the weather will be warm enough to have the meeting at Woodtick. However, this decision will be made later and members will be advised.

Girls' Club News

By Sandra Goldberg

By the time you read this *BULLETIN*, the girls will have enjoyed their trip to Jones Beach (it was scheduled for Saturday, August 26th).

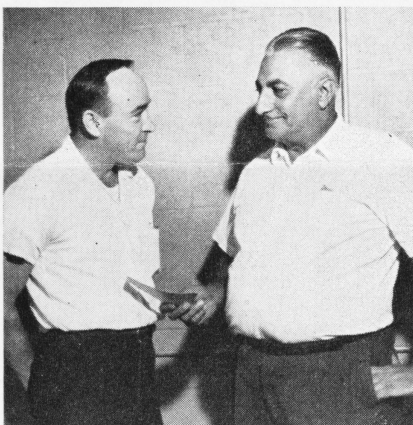

By the way, girls, better start thinking of what kind of cards and candy you would like for Christmas. Remember our sales go for the provisions needed for the food baskets for the less fortunate as well as to help defray expenses for the Children's Christmas party. Your help in buying and selling them will be most appreciated.

Speaking of Christmas activities, it's apparent that summer must really be

Good Ideas (If Turned In) Do Pay Off

\$292 was the amount of the award paid to *Harry Bellemare* of the Closure Tool Room for a recent suggestion. Here, he finds an interested listener in Closing Room Foreman *Martin Hollywood* as he explains the details of the method which he developed for rejecting bad or loose rivet assemblies in the Closing Room.

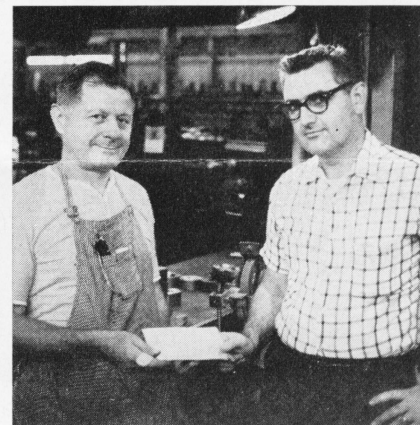

\$120 was paid to *James Mastrodonato*, of the Transportation Dept., who has been a frequent contributor to the Scovill Suggestion Program. Above he tells Suggestion System coordinator *William Armour* about his idea which concerns the method of transporting material to areas within the plant.

over because the girls are picking up their knitting needles to make mittens and caps for the children. Remember last year's contributions? They were all so beautiful and so warmly welcomed by the children who received them. If you're interested in making some, contact *Dorothy Chambers*, ext. 2142 for details and instructions.

The Council will resume its regular monthly meetings on Monday, Sept. 18th. Remember, if you have any suggestions for activities — or news for this column, contact your reporter (Ext. 777) or any Council member.

\$240 went to *Thomas Cullen*, Gripper Eyelet, who developed a new method of assembling punches and dies in progressive tools which results in saving of downtime and assembling of punches when a punch happens to break in the tool. Asst. Foreman *Roy Fumire* listens with interest to the details of the procedure.

\$120, as partial payment for one suggestion, went to *Joseph Antoni* of the New Milford Tube Mill for his idea concerning grinding plugs for draw benches whereby the angle of the plug and the plug itself are both increased in accuracy and life. Tool & Project Foreman *John Hastings* presents the award.

Other Cash Awards

- \$210—*Anthony Szantyr*, Wire Mill
- \$120—*Charles McCarthy*, Gripper Eyelet (total for two suggestions)
- \$60—*Edward Miller*, Oil House
- \$60—*William Cordelli*, Blanking
- \$53—*Edward Fredericks*, Addressograph (for two suggestions)
- \$36—*Edward Lynch*, Closure Tool

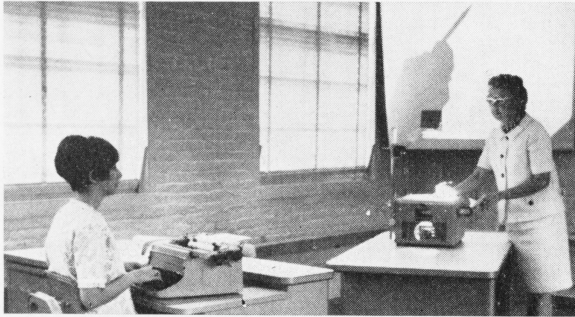

Office Machines Stressed In Clerical Training

The latest addition to the Company's program of on-the-job training is one for Clerical and Office Machines. It was formulated by our Corporate Training Department and already is proving very effective.

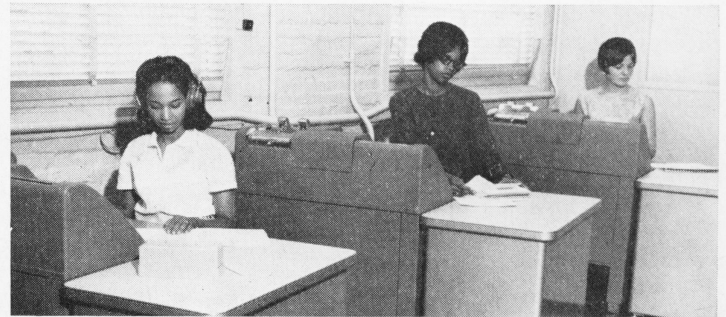

Basic reasons for the development of this program were (1) high school graduates need training to fulfill specific Company requirements, (2) to train them in the skilled operations of IBM key punch machines and Veri-

fiers as well as other office machines, and (3) to offset the ever-increasing need for qualified clerical help.

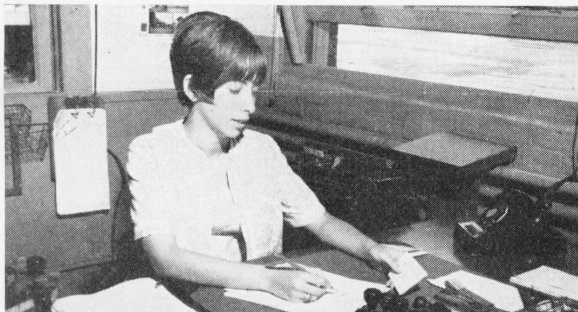

Openings in the Clerical and Office Training Program are available to applicants (or Company employees) between the ages of 18 and 25. They must be high school graduates and must satisfactorily qualify on general reasoning and mechanical aptitude tests which are administered by the Employment Department.

1. Having studied typing in high school, Laura LeBlanc (an honor graduate) reviews features and controls of typewriter before starting practice exercises. Supervisor Anne Griffin finds the projector and chart method of instruction most helpful in the training program.

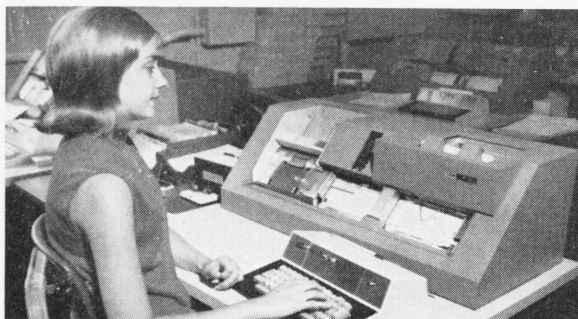

2. The key punch machine is becoming more and more a standard machine in many departments and qualified, competent operators are constantly being sought. Here Ruby Dorantes learns to key punch from data recorded on tapes and brought to her via the ear phones; Melba Johnson, on a machine called a "Verifier" checks work prepared by Elaine Pacquin (extreme right). Elaine uses the training manual to improve her skill at the key punch machine.

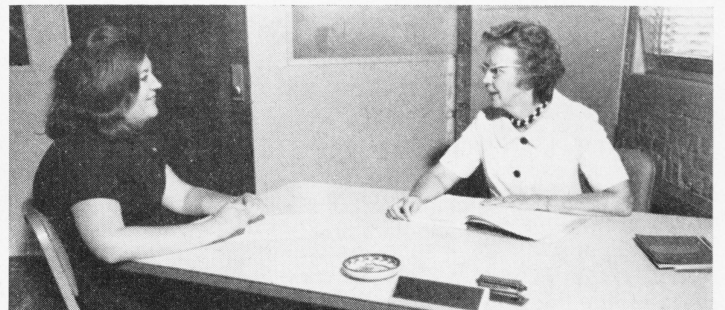

3. "On-the-job" training opportunities are fine during the summer. Here Laura LeBlanc, as a vacation substitute in Closure Packing, learns actual clerical duties as they pertain to that department.

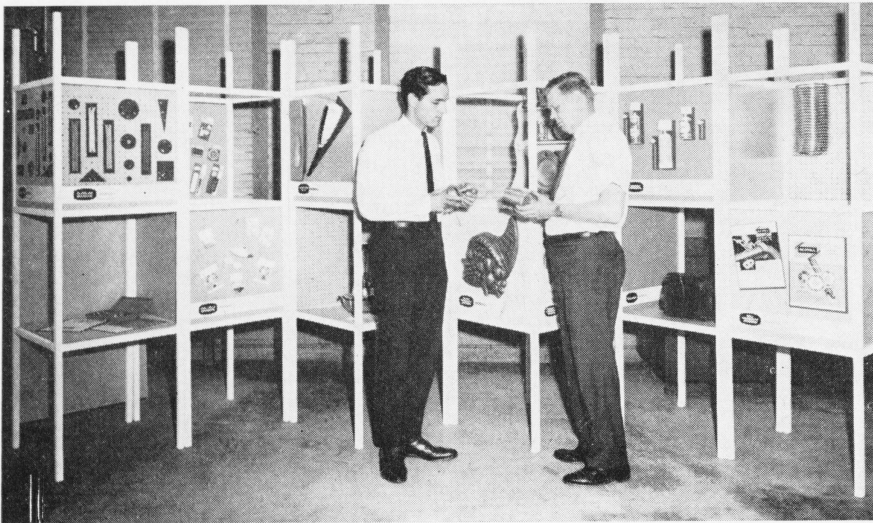

4. Competent comptometer operators are always in demand. In between 'on-the-job' assignments, Melba Johnson and Patricia Whitko work to improve their skill with exercises in their training manuals. Through the 'loaning' program, trainees are assigned temporarily to various departments for on-the-job training until there is an appropriate permanent opening for their particular skills.

5. Diana Taglia is the first graduate of the program. A native of Detroit, Mrs. Taglia had 2½ years of college in Washington, D.C., when, on marrying a local boy, she came to Waterbury and Scovill. William Campbell, Manager of Corporate Data Processing Dept., praises highly her capabilities and endorses the program as an excellent means of providing qualified and competent operators for specific office machines as well as general office duties.

6. Joan Gorman is another graduate of the Corporate Clerical and Office Machines Training Program. Here Miss Griffin tells her of her permanent assignment to the Central Accounting Dept. where she is working now as a comptometer operator.

SCOVILL PRODUCTS ON DISPLAY AT FAIR

Peter Coe, of the Mill Products Sales Office, and Robert Brinley, industrial designer, decide which of the Litchfield collection of pewter ware is to be added to the multi-colored display which they designed and put together for exhibit at the New Milford summer fair recently.

Residents of New Milford and the surrounding area are well acquainted with the Scovill name but until very recently many of them associated mill products only with the name because of our Tube Mill located in that town.

The very colorful attractive display of Scovill products was easily the most popular exhibit at the New Milford Fair which was sponsored by the town's Chamber of Commerce and many attendants expressed amazement at the variety of products manufactured by all Scovill divisions.

New Assignments

General Products Div.

JOHN J. CORBETT—General Foreman of all operations, all shifts, in Depts. 16 Forging (Fuze C) and 89 Hot Forge

ROGER R. GODIN—Foreman, 2nd shift, of Depts. 007, Screw Machine and Chuckers, and 008, Kingsbury and Secondary (Fuze C) in Bldg. 153

RAYMOND A. LANEVILLE—General Foreman of all operations, 2nd shift, in Bldgs. 109-1, 109-4, 109-5, 112-1, 112-4, 112-5, 112-6, and 153

JOSEPH A. SCHIAPPA—Asst. Foreman, Dept. 035, Assembly (Fuze C)

Employee Relations

J. JOSEPH PROULX—Safety Manager

Mill Products Div.

WILLIAM DERWIN — Supervisor, General and Inventory Accounting

Following the fair, the display was set up in the lobby of the Colonial Bank and Trust Company, West Main Street, Waterbury, for a few days. It is now on exhibit at the Connecticut State Employment Service, Prospect St. and will be there for the months of September and October.

Obituaries

GERALD MOONEY died on August 1, 1967. Retired, General Training Room in January, 1959—20 years.

EDWARD YASHENKO died on August 5, 1967. Retired, North Mill Finish in September, 1958—27 years.
