TWO FOUNDRY MEN SHARE \$3,000 AWARD

Raymond Kozen, General Foreman of the Foundry (extreme left) and Robert F. Dunn, Factory Superintendent, congratulate James Byars and Armand Stango on their award of \$1500 each for their jointly submitted suggestion.

\$3,000 Suggestion Award At Foundry

An idea, which will doubtless receive the highest award to be given by the Scovill Suggestion System for a single suggestion, was worked out between James Byars and Armand Stango at the Foundry whereby "spills" from

the pouring of molds can be treated for re-use in the casting machines. The initial payment for the idea was \$3,000—or \$1500 each. At the end of a year's time, the results will be studied again and a final award will be made.

Sports Spectacular At SERA Apr. 19

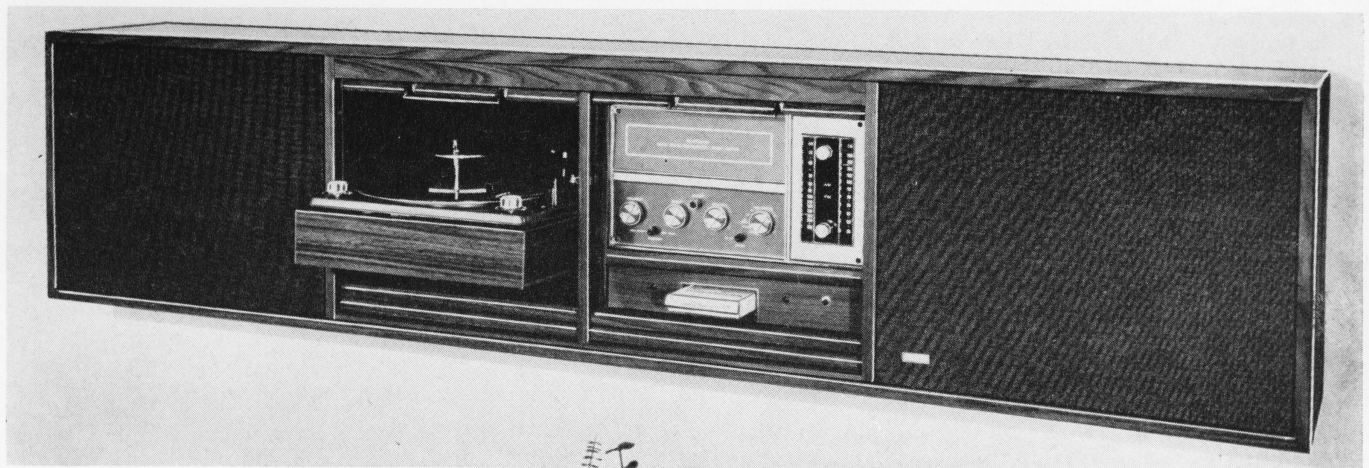

The new "Waterbury Indians" baseball team will be featured at the SERA's annual sports night to be held on Friday, April 19th, at 7:30 p.m.

Jerry Waring, General Manager of the team, who has a broad and successful experience in the administration of a baseball franchise, will be one of the featured speakers.

Phil Cavarretta, Field Manager of the team, was an outstanding major league player with the Chicago Cubs and a successful big league manager; and is now a key member of the Cleveland Indians Organization. He will introduce the members of the "New Indians" giving interesting sidelights of each one.

"Augie" Guglielmo, colorful major and minor league umpire, was instrumental in bringing the "new Indians" to Waterbury. He will also speak.

Films of the 1967 World Series will be shown. Other local sports and administrative personalities will be on hand. Refreshments and a social hour will follow the program.

NuTone SURFACE-MOUNTED STEREO ENTERTAINMENT CENTER

Scovill's NuTone Division is now introducing this new surface-mounted solid-state stereo home entertainment center. It consists of a FM/AM radio, a 4-speed stereo record changer, and provision for an optional 8-track stereo tape player or cassette stereo tape recorder.

Features include 38 solid-state component tuner-amplifier, stereo station locator tuning, separate base

and treble controls, built-in FM and AM antenna, new light-weight tubular tone arm and high performance ceramic cartridge in the fold-out record changer and provision for extension speakers.

The center, sold through electrical distributors, includes sturdy brackets for space-saving wall mounting.

MEMO *from Management:*

Baldrige Predicts Earnings Increase

Earnings for Scovill Manufacturing Company will resume their upward trend in 1968, although first-quarter earnings will be lower than the first quarter of 1967, President Malcolm Baldrige said last week in Los Angeles.

Baldrige told the Los Angeles Society of Financial Analysts that "for 1968 as a whole, we look for increased earnings from Scovill, based on anticipated sales of \$375 million. This will be true because most of our divisions will be benefitting from major internal improvements, the cost of which held down earnings last year."

As previously reported, Scovill earnings for calendar 1967 were down 17.7 per cent, to \$12,552,000, or \$3.05 a share, from 1966. Sales for the year were off 9.2 per cent, to \$352 million.

However, Baldrige noted, Scovill earnings posted an uninterrupted, cumulative gain of 430 per cent for the five-year period from 1962 through 1966, and he said, "1968 will see us resume our upward pattern."

Baldrige said Scovill plans to further reduce its dependence on "cyclical" brass mill operations for earnings power. He noted that in the 1950's and early 1960's Scovill's Mill Products division "frequently contributed between 50 to 60 per cent of the company's total profits."

"First consideration in the company's growth plan is to reduce dependence on mill earnings to 20 per cent or less of the corporate total; 1968 will see our Mill Products division's sales and profits representing only 25 to 30 percent because of growth in other areas."

Despite the 1967 acquisition of \$50-million NuTone, Inc., a major maker of built-in appliances and fixtures for homes and apartments, plus increased consumer orientation through its Hamilton Beach, Closure and Oakville divisions, Baldrige said, "we still have the price-earnings ratio of a brass mill. Therefore, to change this reputation — and we are determined to change it — our long- and short-range plans must be to lessen Scovill's dependence on mill earnings." This will be done, he noted, not by de-emphasizing our mills, but by taking advantage of the growth opportunities in our many consumer lines.

Although Scovill's consumer lines have a greater potential for future growth, Mr. Baldrige praised the accomplishments of the Mill Products Division. He noted that we were the first company in the U.S. to install continuous casting machines way back in 1938, which has made us and kept us a very low-cost producer. Because of its important contribution to overall company results, Mr. Baldrige stated, "I am very high on our Mills Division."

Baldrige said the NuTone acquisition "is a great addition for us and is working out very well, bringing us a definite plus for 1968." Stressing that the acquisition of NuTone has given Scovill "a real base in housing", he said, "we like the looks of the trend here for the foreseeable future, and we will make those lines one of our major building blocks for growth. We plan to continue to grow as much by acquisition as internally so as to keep a significantly above-average rate of gain in sales and earnings."

Scovill, which has the longest continuous dividend record of any industrial firm listed on the New York Stock Exchange, is a leader in product areas that include snap fasteners, zippers, pins, home sewing aids, tire valves and aerosol valves. Its Hamilton Beach division manufactures small home appliances.

Scovill Credit Unions

Credit Union #1

Dividend declared—5%; also a 10% rebate was voted on interest paid in 1967.

President—Fred Kirschbaum

Vice Pres.—Carl Pickett

Treasurer—Bernadine Mordino

Asst. Treas.—Jean Monnerat

STUDENT HONORED FOR J.A. WORK. *Gordon Parent, Treasurer of Medallion Products, was honored recently at our executive offices for his JA Sales Record. Scovill Vice President George A. Goss congratulates the student with Scovill men who served as advisors to the company looking on: Jack Staver, Sales Adviser; Norman Powe, Management Adviser, and Leon LeClerc, Production Adviser.*

Gordon J. Parent, a junior at Wolcott High School, was honored recently at Scovill's executive offices where he was presented an award recognizing his achievement in reaching the \$100 level in sales of his Junior Achievement company products.

George A. Goss, vice president of Scovill, presented the award and congratulated the student for being the first member of Medallion Products, a Junior Achievement company sponsored by Scovill, to reach this goal in sales.

Gordon Parent, son of Mr. and Mrs. Gordon R. Parent, Wolcott, is a very active achiever, having served as treas-

urer of his company since it was organized and he is representing Medallion Products in the Best Salesman contest being conducted during March and April by the Sales and Marketing Executive Club of Waterbury.

Scovill Manufacturing Company has been a strong supporter of Junior Achievement in Greater Waterbury since the local program was organized in 1965. This year Medallion Products meets in the Waterbury JA Center at 36 North Main St. and is counselled by Norman S. Powe, Corporate Accountant, Financial Dept.; Jack Staver, Programming Supervisor, Management Information Services; and Leon G. Le-

Retirements

Effective April 1, 1968

JOHN V. ANDREWS, floorman in Annealing—25.1 years' service.

ANGELO CIARLO, millwright-maintenance, in Millwright Dept.—26.7 years' service.

WILLIAM CORBETT, die polisher in the Rod Mill—39 years.

THOMAS M. DALY, japanner in Japan—44 years' service.

GEORGE H. KING, auto. knurl machine operator in Closing—39 years.

ADOLPH KONTOUT, machinist and machine builder in Attaching Machines—32 years' service.

GORDON G. SCOTT, salesman in Norwood, Mass., Mills Div.—42 years.

LAWRENCE SOPER, grinder in General Products Tool Room—26.2 years.

JERRY SPARZO, power sweeper operator in Sanitation—32 years.

ELBERT SPERRING, quality control engineer in Mill Engineering—21 years' service.

JOHN TROTMAN, caster's helper in Casting—12.2 years' service.

Clerc, Supervisor, Machine Section, Corporate Data Processing.

Scovill also sponsors J.A. Trivet and Company in the Cheshire Center. James R. Mitchell, Aluminum Product Manager, and Robert Moore, Manager of the Cheshire Branch of Waterbury National Bank, are guiding the Cheshire students through a practical learn-by-doing experience in business.

Scovill is represented on the Junior Achievement of Greater Waterbury, Inc. board of directors by Selden T. Williams, past president of Scovill, and William Morris, Assistant to the Marketing Manager, Mill Products Division.

SIGHT TO SEE! *John Santos a caster in our Casting Shop, is very thankful that he was wearing his safety glasses when a splash of molten metal contacted them. Looking at what's left of them, he fully realizes he almost certainly would have lost his eyesight had he not been wearing them as required.*

John Santos Joins Wise Owl Club

Another Scovill employee happy to be named a member of the Wise Owl Club is John Santos of the Casting Shop. The wisdom of following the requirement of wearing safety glasses while on the job was brought home quite forcibly when molten metal splashed up and completely covered his safety eyeglasses. Mr. Santos is the 26th Scovill employee to have saved his eyesight because he was wearing safety eyeglasses at the time a mishap occurred.

Most accidents happen when we least expect them—as will be con-

firmed by our Wise Owl Club members. Glasses worn above your eyes, on the forehead, or in an eyeglass case, do not do the job for which they are designed.

There are many types of safety glasses for different operations, so that there is no reason why a person cannot protect his eyesight when it is required on the job.

Do you know that by the end of the year more than 400 persons will have lost sight in both eyes from some type of accident, on or off the job?

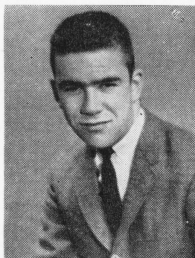

What is your most precious possession? If asked, you'd probably list your wife, life, home, bank account, car, boat, or any number of other material things. But, stop to think for a minute—aren't your eyes your most precious possession?

Visualize, if you will, your plight if you were to suddenly lose your sight. Many of your material possessions would become worthless to you. Most pleasurable activities would no longer be yours to enjoy. Your job, which certainly was not designed for a blind employee, would be gone. You would become dependent on others for most of life's necessary activities. Even your independence would be lost.

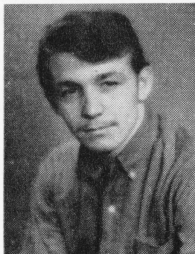

And, yet, how many of us risk this tragedy every day—on and off the job—by failing to take reasonable precautions? *THINK IT OVER!*

Training Course

TINSMITH. Edward Fitzpatrick was graduated as a tinsmith as of March 11, 1968. He has been assigned to the Tin Shop.

TOOLSETTER. J. Edward Wester was graduated as a toolsetter on Kingsbury machines as of March 11, 1968, and has been assigned to Chucking Dept.

New Assignments

The Mill Products Division and the General Products Division are no longer located in New York City. They have moved to 464 Hudson Terrace in Englewood Cliffs, New Jersey.

Mill Products Div.

R. W. LAZENBY—Assistant Manager, Wholesaler Sales (Copper Tube)

J. R. O'RAVITZ—District Sales Manager, Greensboro Mill Sales Office

Girls' Club News

By Sandra Goldberg

Well, here I am as usual with a little bit of news for you. As I said in last month's *BULLETIN*, we have a few things coming up for you.

The first and most important is the annual meeting. It will be held on April 15th and we hope as many of you will attend as possible so that we can get your opinions on some ideas for the Club. The program will include door prizes and other surprises.

The annual banquet is also coming up. It will be held on May 5th at Johnny's in Forestville. Start getting your prettiest bonnet ready.

Well, our *Dorothy Chambers* has been at it again—in answer to your requests, she has lined up two trips for the very near future. The first, to Boston, will take place on Saturday, April 27th. Flyers should be out by the time this *BULLETIN* is received. The second, to New York, will be held soon thereafter. Final details will also be published very soon.

Welcome to new members to the Club: *Mary Kelly, Margaret Nix, Mary Capobianco, Rose Napomenco* and *Josephine Johnson*.

Guess that's all for now—we'll be looking forward to seeing you on the 15th at the annual meeting. Don't forget—that's also election night, a new Council and new slate of officers will be chosen. This is your opportunity to see that your department, or section of the plant, is represented on the Council so that your thoughts can be submitted throughout the year. It's your vote which will elect these officers.

Bridge Tourney

The winners of this year's SERA sponsored bridge tourney are—you guessed it—the Tom Chapmans! However, as they were the winners last year and competed in the national contest, they are disqualified for this tourney.

Tied for second place, and thereby the winning teams which will have their scores entered in the Regional Contest are (1) Helen O'Meara and Loretta Coleman, and (2) Laura Denton and Edna Steward.

Recent Retirees (Waterbury and Chicago) Establish Long Service Records

1) Henry Peters, foreman of the Mills Division Chicago Warehouse (2nd left) had completed 36 years of service when retiring on January

31, 1968. At a party held in his honor, he is pictured with Ward Hobbie, Sr., who retired from the Waterbury branch of our Mill Products Division after 50 years of service; Edward Ashwell of Chicago, 18 years; and Arthur Woodward of Chicago, 38 years of service.

Your Social Security

The effect of the new Social Security legislation is to increase the benefits of all present and future beneficiaries a minimum of 13 percent. A person whose earnings under social security had averaged \$350 a month would, under the old law, get a benefit of \$124.20 upon retirement at 65, or \$186.30 for himself and his wife if she was also 65 upon his retirement.

mean additional social security contributions of \$4.40 more per month in 1968, rising to a maximum additional contribution of \$7.28 per month in 1987 and later, including the amount he pays for his and his wife's hospital insurance under medicare.

2) Edward Manning (3rd right) was retired from the Mill Products Division's Engineering Dept. with 39 years of service. He retired as of November 1, 1967.

Under the new law, based on the same average earnings of \$350 a month, his retirement benefit will be \$140.40 per month, or \$210.60 for the couple — \$24.30 more a month.

These higher paid workers who will be paying substantially more in social security contributions are, however, the ones who will also get substantially higher benefits, ranging up to 30 percent higher than under present law.

3) Emile St. Pierre of Gripper Eyelet, had completed 38 years of service when retiring on March 1, 1968.

Higher social security contributions are scheduled, however, for the one out of four wage earners who earns over \$6,600. He will be paying social security contributions on up to \$1200 more of his annual earnings.

Even the higher paid middle-aged worker who is much closer to retirement age will find his benefit prospects greatly improved. For example, a worker who is 50 in 1968 and will pay social security contributions on earnings of \$7,800 a year for only 15 years will collect a retirement benefit of \$188.80. This compares with the \$155 per month he would have collected under the old law, an increase of 21.8 percent. He and his wife together will be eligible for \$283.20 a month, instead of \$232.50.

4) Frank Radaskie, of Blanking Tool, retired as of March 1, 1968 with 39 years of service.

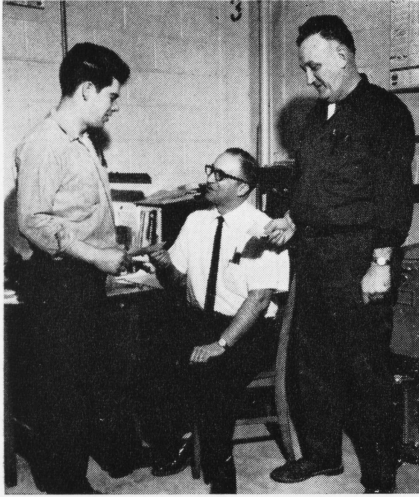

Beginning with 1968, earnings up to \$7,800 a year will be subject to social security contributions and will also count toward social security benefits.

5) Charles Rietdyke, Employee Relations, had 46 years of service when retiring on March 1, 1968. He is pictured, at his retirement party, with Capt. and Mrs. Dries of the Salvation Army and Employee Relations Director J.M. Burrall.

For a worker earning the maximum of \$7,800 or more a year, this will

6) Lawrence Soper of General Tool had over 26 years of service when retiring as of April 1, 1968.

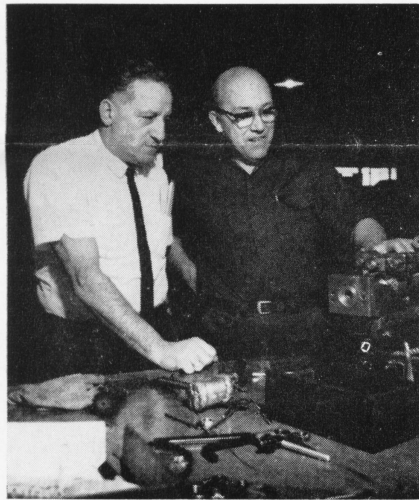

\$1717 Paid For Suggestions

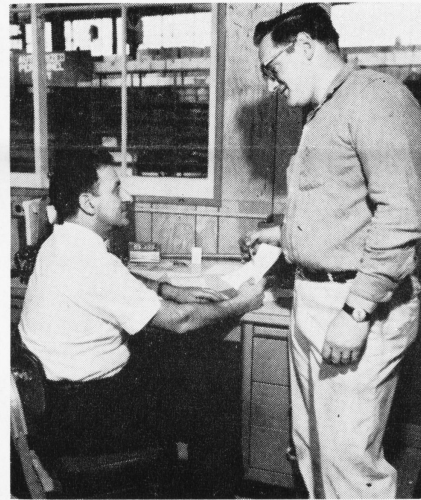

\$619—partial payment for a suggestion submitted jointly by Richard DeMarest, III, and Frank Ford of Fuze C Tool Room. Asst. Foreman Frank Iorio congratulates the two who devised a method of milling slots in fuze bodies.

\$536—partial payment of an award to Donald Vance of Industrial Couplings Research & Development Dept. He's explaining to Product Designer Robert Bailey his method of making Schrader tools at reduced costs.

\$144—award to Gerard Sevigny of the Chucking Dept. He describes to Asst. Foreman William Rotella his suggested method of machining parts whereby drilling and counter-boring breakage is practically eliminated.

\$120—award to Warren Baker of Fuze M-219 Dept. Asst. Foreman Jerry DiPietro listens with interest to his idea on setting coils into the machine which results in a smoother operation with less down time.

Other Cash Awards

\$88—Richard Ruey, Rod Mill

\$60—John Sterry, New Milford Tube Mill; Charles Wilkinson, New Milford.

\$30—Katherine Cincogrono, Florence Mitchell and Geraldine Di-Nicola, all of General Quality Control; Albert Cipriano, M-219 Fuze.

Certificate of Merit—Alec Kalachuk, Closure Tool & Machine Room

Employees Donate 172 Blood Units

A total of 196 employees appeared at the SERA on Thursday, March 28th, to volunteer a pint of blood, with 172 pints actually collected.

Special gallon-award pins were presented as follows:

5-gal. — Edward O'Loughlin

4-gal. — John Mongillo, Shirley Lombardo

3-gal. — Joseph Buccini, John Malone, Jerry DiPietro

2-gal. — Clarence Bradshaw

1-gal. — Amy Cable, Anthony Finateri, Raymond Biron, Robert Jennings, Irene Stolfi, David Berdan, John Wade, Ralph Daddesio, Arthur Spencer, Frank DeBlasio, Anthony Venslovas, and Kenneth A. Moody.

First-time donors:— Mario Cipriano, Mary Hozier, Larry French, Charles Ney, Joan Gorman, Charles Urban, Riley White, Donald Doyon, Frances St. Pierre, Ronald Hickox, Pearl Hills, Robert Fehrs, Lorenzo Bellemare, James Fitzpatrick, Jr., James Knockwood.

VINCENT GALANTI, floorman in Transmission Assembly, left for service in the U.S. Army on February 28, 1968. He had been in Scovill since January, 1966.

NEIL NIRKA, floorman in M-219 Fuze, left on March 14, 1968 for service in the U.S. Army. He had been in Scovill since October, 1967.

JOSEPH LAWSON, toolsetter in the Closing Room, left on March 16, 1968 for service in the U.S. Air Force. He came to Scovill in January, 1967.

Fun Night At SERA

The first in a series of events for the young married and single employees of Scovill was deemed a huge success, according to all reports and the requests for more of the same.

Approximately 120 of the young people attended the first meeting on Tuesday, March 26th and enjoyed an evening of badminton, shuffleboard, dancing, music, and refreshments.

Plans are now being formulated for a dance to be held at the SERA on Saturday, May 4th. "The Orphans", local popular music group, will provide music for dancing.

Flyers will be distributed throughout the plant but all young people interested in joining in these activities may call the Employee Activities Office, Ext. 834, for details.

Bowling Tourney

The 24th annual SERA-sponsored bowling tournament, held on March 30th, attracted 124 keggers. Winners:—

Class A:—

High 3—Joseph Sakalas, 442
2nd High 3—Walter Booth, 418
High Single—James Abriola, 165

Class B:—

High 3—Ward Hobbie, Jr., 395
2nd High 3—Dick Demarest, 368
High Single—Dom Giusto, 144

Class C:—

High 3—Anthony Cugno, 360
2nd High 3—Marg. Massicotte, 342
High Single—Evelyn Smoil, 131

Girls' Special, Class B:—

High 3—Genevieve Verzino, 357
High Single—Sophie Stankus, 137
High Game w/o mark—Mary Orlando, 89

Girls' Special, Class C:—

High 3—Dorothy Almeida, 341
High Single—Betty Fusco, 129
High Game w/o mark—Stacia Ostroski, 92

Obituaries

CHARLES KLEMESHEFSKY died on March 6, 1968. A packer/marker in Closure Packing—26 years' service.

ORION HOLIHAN died on March 13, 1968. Retired, Tool Superintendent's Office in January, 1963 — 47 years' service.

JACOB HALUSHKA died on March 18, 1968. Retired, North Mill Finish in July, 1960—40 years' service.

LEONARD ROBINSON died on March 22, 1968. Retired, Plant Manager's Office, Waterville Division in April 1960—37 years' service.

PETER STASELUNAS died on March 23, 1968. A supervisor in the Wire Mill—38 years' service.

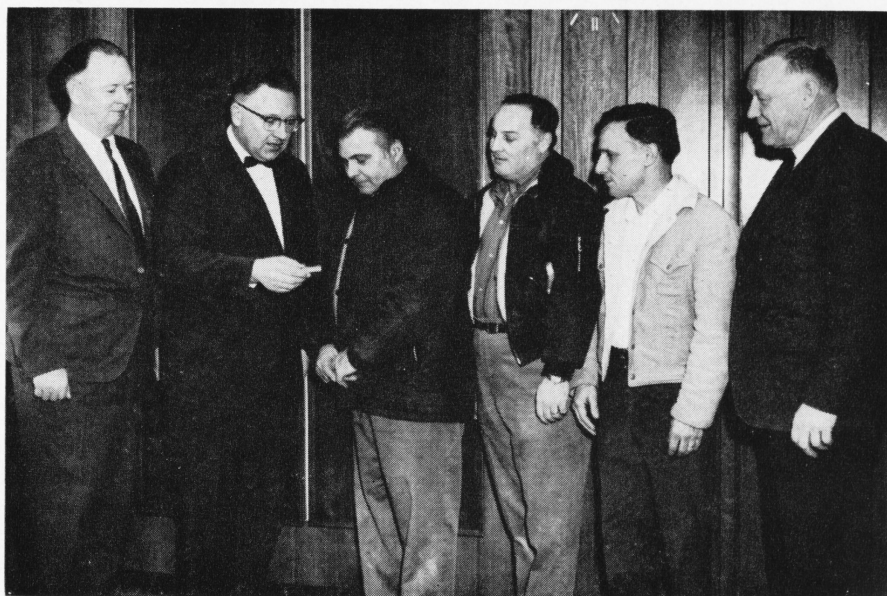

JULIA VALENTINO died on March 23, 1968. Retired, Assembly Room in December, 1956—37 years.

JOHN J. MOORE died on March 27, 1968. Retired, Casting Shop in July, 1963—44 years' service.

Vacation Trips

Hawaii—plans have been completed, for the spring vacation trip to Hawaii. The group leaves on April 27th for a 2-week holiday.

Bermuda—scheduled for the two-week vacation shutdown in July — is completely booked.

SKILLFUL DRIVERS. Plant Engineering Director T.W. Colina (left) and Assistant A.D. Chaffee (extreme right) look on as Liberty Mutual's representative A.T. Warner presents "Skillful Driver" pins to Fred Milano, Frank Stanton, and Angelo Brunetti. John Daniel (not pictured) also received an award.

Four Drivers Total 44 Safe Years

"Skillful Driver" pins were presented recently to four Service Department employees in recognition of their outstanding accomplishment in operating Scovill trucks for a total of 44 years without a chargeable accident.

In presenting the awards, Albert T. Warner, Safety Engineer for Liberty Mutual Insurance Company, noted the

no-accident records of these men as follows:— Fred Milano, Tin Shop—14 years; John Daniel, Welding Shop—12 years; Angelo Brunetti, West Machine—10 years; Frank Stanton, Electrical Department—8 years.

Safety Manager J. Joseph Proulx also attended the award presentation ceremony held in the Plant Engineering Director's office.

Rod & Gun Club

By Vin Manzolli

Well, fishermen, that long awaited opening day, April 20th, is practically here. Soon the waters in this area will be churning due to lines and lures being cast and recast by fishermen standing shoulder to shoulder on shores and in streams, and for many from boats. Many will catch their limit while others will go home empty handed, but with the hope of better luck next time. It's the same old story, Opening Day, but one we've been waiting for these many months.

In preparation for Opening Day at Woodtick, Bob Fumire and his committee have scheduled two stocking dates. The first stocking of the lower pond will take place on Sunday, April 14th, at 10:00 a.m., and the first stocking of the upper pond is scheduled for April 16th, also at 10:00 a.m. You fishermen are cordially invited to attend these stockings and perhaps help put the trout into the water. Other stocking dates will be announced later.

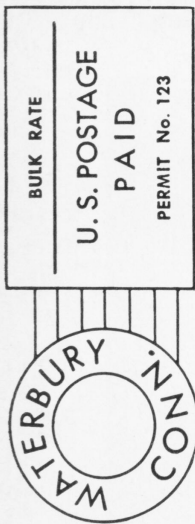

Incidentally, a list of rules and regulations with regard to fishing at Woodtick

and the swim area is available from Les Hart. Get one, and read it very carefully.

As a kick-off to the fishing season, the annual spring banquet will be held on April 18th at the SERA. This is one you shouldn't miss. The menu will include a roast beef dinner as only the SERA personnel can serve. We're hoping Doug Sucher has success in obtaining film never before shown here. Dom Cherubini and Fred Kirschbaum have been prevailed upon to show slides of their fishing trip to Canada. A most enjoyable evening is practically guaranteed.

We'd like to extend a big "thank you" to Vin LoCurto for taking over the job of making new cement anchors for our boats. It seems Harold Rogers had to go south, right in the middle of the project, and Vin "volunteered" to complete the job in time for Opening Day.

Charlie Carpentier advises the winning rifle team will not be known until later as there has been a slight delay for the final matches. The trophy winners will be announced in the BULLETIN.

4" belt sander. 756-3566 after 5 p.m.

Other

FOUND—a snow tire in East Yard parking lot. Ext. 345.

Good Friday

The Waterbury Divisions will close for Good Friday at the end of the work day on Thursday, April 11, and will reopen with the start of the first shift on Monday, April 15th.

Good Friday is one of the holidays for which employees who qualify are paid when they do not work.

Daylight Saving

Daylight Saving Time will be resumed in the State of Connecticut on Sunday, April 28, 1968. Most people will set their clocks one hour ahead before going to bed on Saturday night, however, the official time for the change will be 2:01 a.m. on Sunday.

All clocks in the Waterbury Division will be advanced one hour; outside clocks will be marked "D.S.T."
