Giant Bull Block

What is said to be one of the industry's largest bull blocks was recently installed in Scovill's copper tube mill in New Milford, Conn., at a cost in excess of a million dollars.

Now in operation, this equipment replaces the conventional draw-bench for the final stages in cold drawing of seamless copper tube. It is much faster and has far greater length capabilities than draw-benches. The power available in the block permits drawing of heavy wall tubing and the finished tube can be produced in continuous unbroken lengths to meet the requirements of today's market.

The new 84" diameter Bull Block and its accessory service equipment occupies approximately 20,000 square feet of space in the tube mill. Incoming tube for drawing on the block is currently delivered in 180 ft. lengths. The Bull Block is driven by a 300 hp motor and operates at speeds ranging from 80 to 2000 feet per minute. Its 60" effective face can take coil weights up to 500 lbs.

Our Copper Tube Mill is one of the finest facilities in the industry and the new bull block is evidence of our intention to maintain this lead. It is the first step in a continuing program to step up the speed, efficiency and capacity of our facilities while at the same

Rod Mill To Have \$2³/₄ Million Hot-Extrusion Press

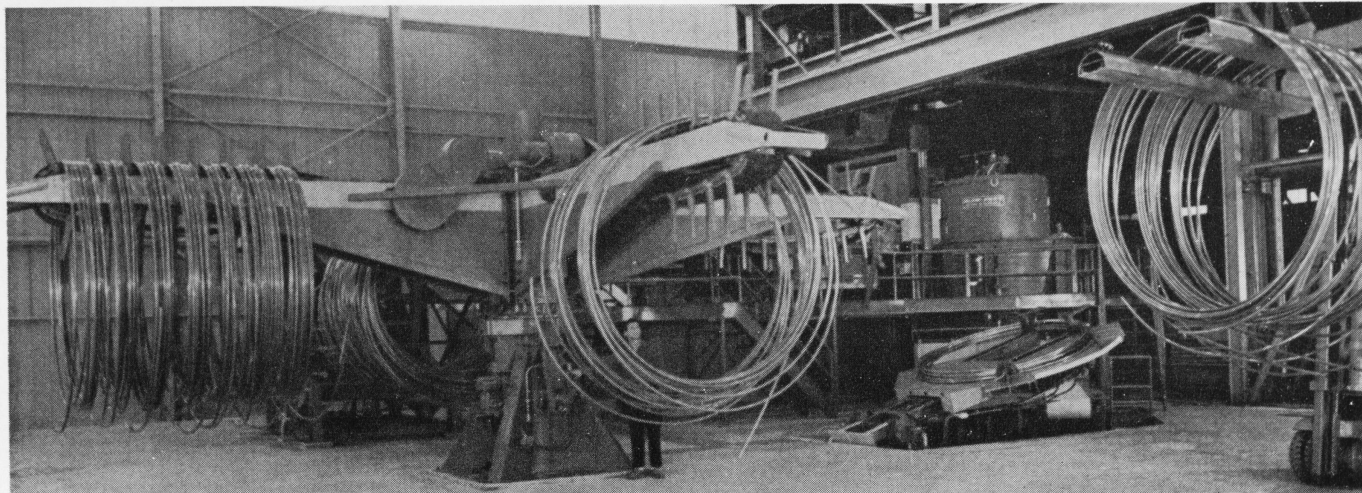

Pictured at ground breaking ceremonies are (left to right):—Vice President and General Manager W. E. Johnson, Vice President and Operations Manager J. J. Hoben, Rod Mill Superintendent W. J. Dacey, Group Vice President N. H. Schlink (at controls of backhoe), Engineering Manager E. K. Rogers, Asst. Operations Manager P. F. Moran, Senior Mechanical Engineer C. B. Blake.

As part of a continuing program of modernization and expansion of brass mill capabilities at the main plant in

time assuring our customers the finest quality-controlled tube that the state of art permits.

Waterbury, work has begun on the installation of a new 4000-ton oil-hydraulic hot-extrusion press. Ground breaking ceremonies, held on November 8, 1968, were attended by execu-

SEASONS GREETINGS

On behalf of the Company, I wish each of you a Merry Christmas and a Happy New Year.

May you and your families be guided and sustained by the true spirit of Christmas, during the holiday season and the new year that follows.

Sincerely,

Malcolm Balduge
President

On behalf of Scovill Local 1604, UAW, I wish to extend a Merry Christmas and a Happy New Year to all Scovill employees and their families.

Sincerely,

Michael Easton

President
Scovill Local 1604, UAW

To: EMIL HOWES
Employee Relations

I would like to attend the "Looking Forward to Retirement" program.

I will..... will not..... bring my (husband) (wife) with me.

Name.....

Department.....

Work schedule From a.m. to a.m.
..... p.m. to p.m.

Hot-Extrusion Press

(Continued from Page 1, Col. 3)

tives and engineers of the Mill Products Division.

This press is one of the largest oil-hydraulic hot-extrusion presses yet to be installed in the Brass Industry. It is designed to take 1200 lbs. to 1500 lbs. brass billets from our Billet Continuous-Casting machine—3/4 of a ton of metal at a stroke—and will enable us to produce extremely long continuous coils of rod and wire. The fact that operation is oil-hydraulic will give us accurate speed control in extrusion and a high degree of uniformity in extruded metal structure.

Starting off with the exceptionally uniform metal in billets produced by the Continuous-Casting process, we can look forward to setting some new standards in brass wire and rod quality to meet increasingly exacting materials specifications.

Golden Days Contest

Deadline for Suggestions
is Friday, December 13th

Pre-Retirement Program

The latest class in the "Looking Forward to Retirement" program was completed just before Thanksgiving. No further classes will be planned until after the start of the New Year.

All employees, 55 years of age and over, interested in attending these sessions are invited to fill out the form (lower left hand column) and return it as soon as convenient in order to be considered for the next group.

Sessions are held on Wednesdays, from 2 to 4 p.m. for a period of eight weeks. One hour is paid for by the Company, the other is on the employee's own time.

Classes are made up of approximately 20 persons. Assignments must take into consideration departmental needs. It may not be possible to assign more than one employee from the same shift in one department to the same class, as this could interfere with production requirements.

Additional information may be obtained from your foreman, steward, someone who has already taken the course, or by contacting Emil Howes, Employee Relations Dept., Ext. 636.

Christmas Parties

RETIRED FOLKS CLUB—Margaret Snowden, Chairlady of Retired Folks' Activities, announces a fine program of entertainment, refreshments, and a gift for each member attending the Club's Christmas party at the SERA on Thursday, December 19th at 2:00 p.m.

Retired employees of the Waterbury (including New Milford) and Oakville divisions are invited to attend. *Each member may invite one guest only.*

CHILDREN'S CHRISTMAS PARTY—again this year, due to the number of children planning to attend, there will be two parties—one on Saturday, December 21 and one on Sunday, Decem-

Holiday Schedules

Christmas Shutdown

The Waterbury Divisions and Services will close in celebration of Christmas at the end of the work day on Monday, December 23, 1968. They will reopen with the start of the first shift on Thursday, December 26, 1968.

Christmas Day and the day before Christmas are holidays for which employees who qualify are paid when they do not work.

New Year's Shutdown

The Waterbury Divisions and Services will celebrate New Year's starting with one-half day on Tuesday, December 31, 1968 and ending with the start of the first shift on Thursday, January 2, 1969.

The half-day before New Year's and New Year's Day are holidays for which employees who qualify are paid when they do not work.

Holiday Pay

Weeks ending 12/22 & 12/29/68:

Because of the holidays, all hourly and pieceworkers will be paid on Friday, December 27, 1968.

The following week, *ALL* employees will be paid on Friday, Jan. 3, 1969.

Any exceptions to the above work schedules will be by individual notification or by posted notice.

Retirements

Effective December 1, 1968

JOSEPHINE DOWLING, chemical laboratory technician in Metals Research—25 years and 7 months.

ANDREW MINICUCCI, foreman of the 4-Hi Rolls area of the Strip Mill—45 years and 9 months' service.

ber 22, at the SERA from 2:00 to 4:00 p.m.

Tickets are available at the Employee Activities Office and are *limited strictly to children and grandchildren (between the ages of 2 and 10)* of Scovill employees.

Restrictions on the number of persons attending these events are solely for the safety of all—as regulated by fire and safety codes—and your cooperation is asked in keeping to these regulations.

EDWIN S. WATKINS—Product Mgr.

Training Course

MACHINIST. Harold Barnes was graduated as a machinist as of November 4, 1968. He has been assigned to the West Machine Room.

TOOLSETTER. Fred Gagnon was graduated as a toolsetter as of November 4, 1968. He has been assigned to the Chucking Department.

MILLWRIGHT. Raymond Mazzerferro was graduated as a millwright as of Nov. 18, 1968; and has been assigned to the Millwright Department.

Compressed Gases — Friend or Foe?

Many types of compressed gases are used in industry — and in homes as well. Because many of these gases are compressed in cylinders at a very high pressure, it is important to use care in the treatment and storing of these cylinders — whether it be at home or in the plant.

Within the plant, these gases, their identification and pressure rate, are as follows:

Type	Tag	Pressure
Oxygen	Green	1600 to 2000 lbs. psi
Acetylene	Red	—200 psi — Flammable
Nitrogen	Green	1600 to 2000 lbs.
Hydrogen	Red	1600 to 2000 lbs. — Flammable
Helium	Green	1600 to 2000 lbs.
Argon	Green	1600 to 2000 lbs.
Propane	Red	— 110 lbs. Flammable
Air	Green	1500 to 2000 lbs.

Oxygen is the most common of these gases. We use it with inhalators and resuscitators which are life saving equipment. We also use it with acetylene for the cutting of metal with a cutting torch in industry.

Oxygen is compressed into a cylinder at 1600 to 2000 lbs. and is non-flammable in itself but it will actively support combustion. It is also very dangerous around grease and oil.

Cylinders must be protected against mechanical damage. We must provide means to hold cylinders in an upright position, must keep them away from excessive heat, and prevent them from dropping.

In the home, there are many types of

Roger W. Hall, Vice President and General Manager, (3rd left) accepts "Certificate of Merit" award from David Sletten, Liberty Mutual's Loss Prevention Manager, in recognition of the Closure Division's operating 593,179 man-hours without a disabling injury during the year ending June 29, 1968.

GOLDEN DAYS

Suggestion Contest

Deadline For Entries is

Friday, December 13th

cylinders and cannisters containing compressed gas as a propellant for material to be expelled from the can: whipping cream, shaving cream, deodorants, disinfectants, hair spray, etc. Cans and cylinders of this type should be stored in a safe place away from sources of heat, sun, etc.

There are no relief valves on these types of cans and cylinders which are used in the home at present. Relief valves are on cylinders used in industry and are proper protection *providing the cylinders are stored in an upright position.*

COMPRESSED GAS CYLINDERS —AT WORK, AT HOME

Left:—Compressed gas cylinders in the plant. Fire Inspector Bert LaFreniere checks chain belt to make sure cylinder is secure before transporting to another location. Note that other cylinder is strapped against wall to keep it upright, to keep it from falling, and in an area removed from excessive heat.

Spray cans, on table, are a common item around the home. The same caution and care must be used with them as they also contain compressed gases which can cause trouble if not handled and stored properly.

Pictured at the "Certificate of Award" presentation held in Mr. Hall's office (above) are: Albert T. Warner, Safety Engineer of the Liberty Mutual Insurance Company; John Butkus, Closure Division's Works Manager; Mr. Hall; Mr. Sletten; John Humiston, Superintendent of the Division; and J. Joseph Proulx, Safety Manager.

This fine accident prevention record continues unbroken to date and Mr. Hall has set 1,000,000 accident-free manhours as the next goal to be achieved by the 350 employees working for the Closure Division in Waterbury. He commented on the vital necessity of every one of those men and women accepting the individual responsibility they bear for working so as to avoid injury to themselves or their fellow employees.

Golf League Holds Banquet

The Thursday Night SERA Golf League held its annual banquet on Saturday, November 23rd, at the Santa Fe Restaurant. All attending report a most enjoyable evening. Albert Lynch was Master of Ceremonies.

First place winners for the season were the team of DiBlasio-Baker; runners-up were the team of Bogush-Romppe. Bogush also won the low gross prize for the season with a sparkling 34, one over par.

Chairman Frank Bogush presided at a short business meeting. New officers and the Executive Committee for the coming season will be: Co-chairmen Carmen DiBlasio and Art Rompre; Secretary and Treasurer, Albert Lynch; Committeemen Warren Baker and William Beck.

Rod & Gun Club

By Vin Manzoli

To those people responsible for the fall banquet — a big thank you! You are to be commended for a most enjoyable evening. The food was excellent, the guests interesting, and the sport films very entertaining. Those not in attendance missed a nice affair which was ably toastmastered by Fred Wilson.

Special guest, Exec. Vice President John Helies, told of his participation in an international sailfishing tournament, which netted his team 2nd prize; and of a fishing trip for black marlin off the coast of Peru when, after 7½ hours with light tackle, he landed a 796 pounder which he was sure was a record breaker. Much to his chagrin, he later learned the record catch was over 1500 pounds!

Guest S. T. Williams told of a recent deer hunting trip in the Adirondacks.

President *Paul Delage* congratulated the many fishing contest winners and distributed the prize money, after which he presented a plaque to the 1968 Fishing Champion *Jim Gilroy* who had a total of 24 points. Congratulations, *Jim*. You certainly proved to the rest of us that there are large fish of all species at Woodtick. All we need do is learn to be better fishermen.

We missed the presence of our benefactor, Judge Francis T. Reeves. We hope the Judge will be in a position to attend the spring banquet.

We also missed the flashing of bulbs, the clicking of his camera, the candid pictures usually taken by our good friend *Adam Wolak* who died recently.

Charlie Carpentier advises the inter-department rifle shooting competitions will start in early December with 8 teams on hand. He has extended an invitation to Hamilton Beach personnel to use the range and enter a team in the competitions.

RETIREMENT PARTY FOR MARY BELL

Factory Superintendent Tony Cugno presents token of remembrance to *Mary Bell* on behalf of her co-workers in Press 2. *Mrs. Bell* retired as of November 1, 1968 with almost 26 years of continuous service.

The Thanksgiving Turkey Shoot was a huge success. 16 matches were held with the prize of each match a 16 to 17 pound turkey. Winners were:

Joseph Guay, *Ed Faeth* (winning 2 matches, 2 turkeys), *Garl Miles* (winning 3 matches, 3 turkeys), *Jim Page*, *Robert Nevin*, *Gordon Jones*, *Gaysi Stokes*, *Ed Roche*, *Harold Barnes*, *Albert Ambrose*, *Robert Zabit, Sr.*, *Richard Dionne* and *Eugene Shugrue*.

We hope you turkey winners remembered to say an extra prayer of thanks for people like *Harvey Giese*, *Don Berry*, *Gerald Bousquette*, *Charlie Carpentier* and *Paul Delage* who set up the matches and targets, and did the scoring and everything else that goes into the making of a successful shoot. Without these people, and others, there would be no matches. A "thank you", also, to *Kent Montgomery*, Employee Activities Office, who kept the participants well supplied with donuts and cider.

May we take this opportunity to wish all of our members and their families a very Merry Christmas and a Happy New Year.

Your Social Security

In the past, mention has been made of the cash benefits provided by Social Security in the event of a person's retirement, disablement or death. "Before these payments can start, someone must apply for them", advises Mr. Ernest D. Bauer, District Manager of the Waterbury Social Security Office. "These benefits are not paid automatically to the worker at the time he retires or becomes disabled nor to his survivors at the time the worker dies."

An application should be filed as soon as possible by the worker — in case of disability or by some member of the worker's family in case of death. A person getting close to retirement should inquire at his social security office a few months before he reaches 65—not only for the possibility of retirement benefits, but also for health insurance which is available to persons 65 or over even if they continue to work. If you wait until the month you reach 65 to apply for the medical insurance part of Medicare, you will lose at least one month of protection.

A long delay in applying for monthly benefits can cause loss of some benefits since back payments can be made for no more than 12 months. An application for a lump-sum death payment must usually be made within two years after the worker's death.

If you cannot go to the social security office — perhaps because you are house-bound or hospitalized — then write or telephone so that a social security representative can arrange to visit you. The Social Security office is located at 236 Grand Street, Waterbury. The telephone number is 756-7475.

1968 SERA FISHING CHAMP

Rod & Gun Club president Delage (right) presents championship plaque to *Jim Gilroy* who was declared SERA's champion fisherman for the 1968 season. Winners and awards were announced at the annual fall banquet held recently.

\$120 TO ANTHONY TRUNCALÉ, FOUNDRY

Girls' Club News

Hi, Little Chillun:

Here's your Maw back for another visit, some pounds heavier from all that turkey and trimmings but nevertheless full of girl talk.

Things really are jamming up on us these days here at Happy Hollow. Thanksgiving sneaked up on us and now Santa has stopped shaving getting ready for Christmas. He'll be paying the little ones a visit soon.

The Girls' Club is abuzzin with plans for Santa's visit. Even Paw has taken leave of his rocking chair to help with the trimmings. Santa will be here for two visits — on December 21 and 22. They tell me his pack will be quite heavy with goodies for all the good little ones — so, watch your cotton-pickin steps, little chilluns.

I hear our gals have been doing quite a bit of travelling these past few weeks. They bussed to Boston on November 9th; and (at this writing) I hear they're going to the Big City the day after Thanksgiving and to Hartford on December 5th to see the "lights" and do some Christmas shopping.

Some of the gals are busy making up little gifts for sale: dusters for Mom and curler caddies for Miss Teenager. Contact a Council member.

The Council sends their heartiest thanks to *Freda Bessette* who conducted the Christmas Crafts class on Fridays during November. Also, the 40 members who participated in them.

Now comes my heartfelt wish for a Happy and Holy Christmas Season to all my family and their families — laugh and love a lot!

Ma Kettle

Obituaries

VINCENZO ASSENZA died on November 5, 1968. An oven attendant in the Lacquer Room—15 years.

CHRISTIAN POULSEN died on November 10, 1968. A production supervisor in Closure Production—27 years.

HERBERT EASTWOOD died on November 12, 1968. Die maintenance man in the Rod Mill—30 years.

EVANGELINE FLAGEOLE died on November 12, 1968. Miscellaneous machines operator in Single Spindles—8 years' service.

JOHN ZABLOCKI died on November 13, 1968. Retired, North Mill Rolls in July, 1959—32 years.

ALEXANDER GRAVES died on November 15, 1968. Retired, Aluminum Mill in June, 1965—37 years.

ROCCO PALLADINO died on November 17, 1968. "Smokey" as he was known to so many Waterburians, had 11 years of service when he left the Millwright Dept. in May, 1961 to accept the assignment of executive director of the Waterbury Area Retired Workers Council. He had also served as chairman of the Housing Authority of the City of Waterbury.

GEORGE PICARD died on November 19, 1968. A band maker in the Strip Mill—32 years' service.

PHILIP McGRATH died on November 21, 1968. Retired, North Mill, in January, 1948—42 years' service.

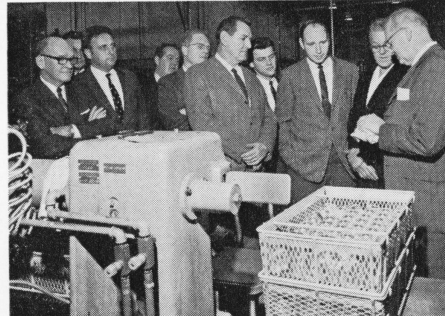

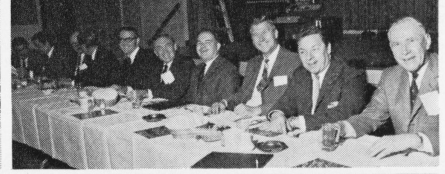

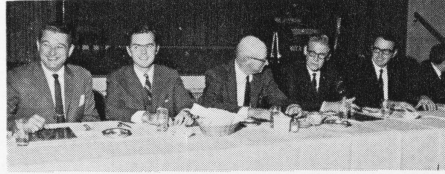

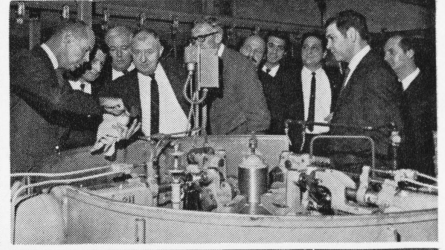

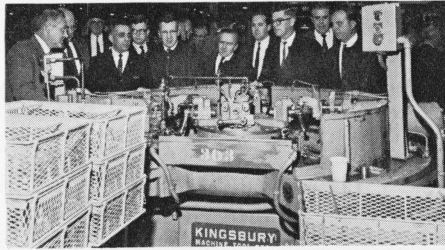

HANS MAIER died on November 26, 1968. Retired, Carpenter Shop in October, 1962—25 years' service.

Adam Wolak

We were all saddened by the sudden death on November 5th of Adam Wolak of the Photo Lab.

Coming to Scovill in September, 1950, as plant photographer, his duties took him throughout all Scovill plants in the Waterbury area and, during those years, he became well known and liked for his friendliness and good humour as well as for his excellent work in photography.

Unable to contact personally all the Scovill people who expressed their sympathy through cards, flowers and contributions to his memory, Mrs. Wolak has asked us to extend her sincere thanks to you all.

SMALLER MANUFACTURERS GROUP VISITS SCOVILL

Approximately 150 members of the Smaller Manufacturers Association of the Greater Waterbury Area recently toured our Fuze Plant in Bldg. 153, under the guidance of Operations Manager Robert F. Dunn. Following the tour, the group had dinner at the SERA, at which Scovill Executive Vice President John C. Helies spoke briefly. Attendants at the dinner totaled 183.

Christmas Mailing

Postmaster John J. Slattery reminds our readers of the final deadlines suggested by the Post Office Department to make sure all Christmas mail is delivered on time.

Armed Forces—Air mail gifts and greetings—December 11th. Special attention will be placed on the delivery of mail to servicemen in Vietnam and the surrounding area. Be sure to use the APO and FPO numbers on all overseas military mail.

Domestic gift parcels should be mailed not later than December 14th if destined for local areas.

Greeting cards for distant states should be mailed not later than December 11th and those for local delivery not later than December 16th.

Mr. Slattery points out that Greeting Cards, sealed or unsealed, require six (6) cents postage. Why not seal it and send it First Class Mail—don't forget your return address.

The Postmaster also announces the distribution of Christmas Kits consisting of "local", "Connecticut" and "Out-of-State" wrappers to each residence in the city. Following the in-

"Holiday Special" Nets 147 Units

A total of 147 pints of blood was collected at the SERA on Tuesday, November 26th. The fourth annual visit of the Blood Mobile Unit to Scovill, the "Holiday Special" is not limited to any specific departments and all employees are invited to participate.

Gallon pins awarded at the "Holiday Special" went to:

6 gal. — W. Craig Barber

4 gal. — Earl Tooker

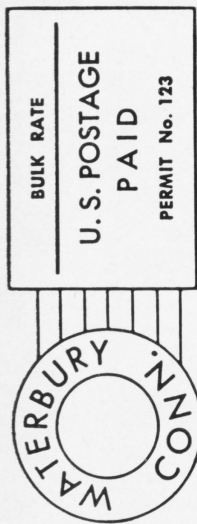

2 gal. — Hazel Didsbury, Iva Carolan, George Costello, John Harty, and Richard Raymond.

1 gal. — Ruth LaFlamme, Garnet Hall and Robert Watjen

structions in the kit as to the proper use of the wrappers will enable the Post Office to speed the delivery of your greetings.

In-Plant Mailings

If you are sending cards to associates within the plant, be sure to write out the department name in which the person is employed. Do not use department or building numbers.
