OCTOBER, 1968

Published by Scovill Manufacturing Company for its Employees

GOLDEN DAY\$ CONTE\$T

October 14 Through December 13, 1968

Additional Prizes

Two additional prizes will be awarded:

Winners of these two prizes will be given a choice of one Hamilton Beach appliance.

Contest Rules

Suggestions must be dated between October 14 and December 13, 1968, and received no later than Monday, December 16, 1968.

They must be submitted on the official Suggestion System blanks which are located in Suggestion System bulletin boards throughout the plant. The rules of the Suggestion System are explained in the Suggestion System booklet.

Each eligible suggestion will be given a number which will be placed in a container. A special drawing will be held on December 19th at the SERA when numbers will be picked for the awarding of the prizes.

REMEMBER—you do not have to win a cash award to be eligible.

Eligible Suggestions

Suggestions should do one of the following:

Reduce—costs, waste, spoilage, defective work

Improve—methods, product quality, tools, fixtures, equipment, handling, storage, maintenance, and housekeeping practices, office and clerical forms and procedures.

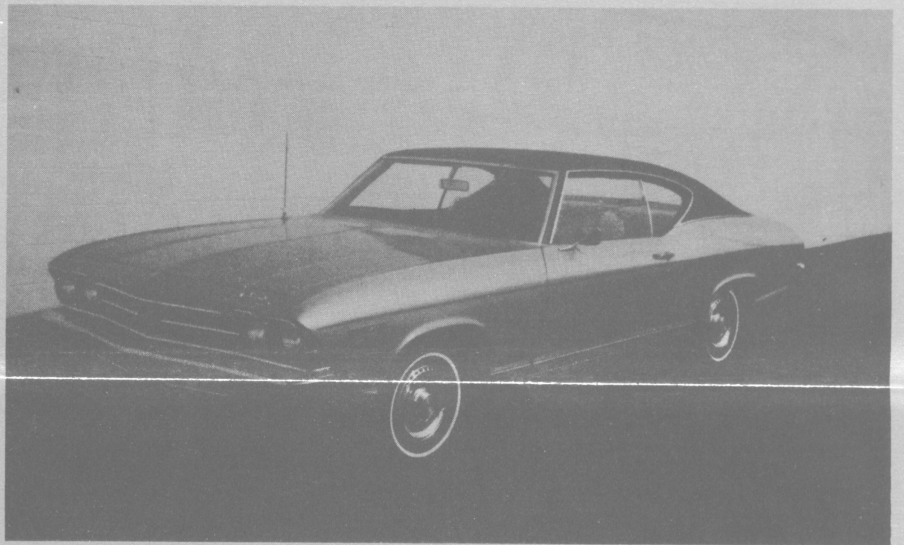

Develop—new products, new equipment, new techniques

Non-eligible Suggestions

Ideas which are not constructive
Ideas for Safety

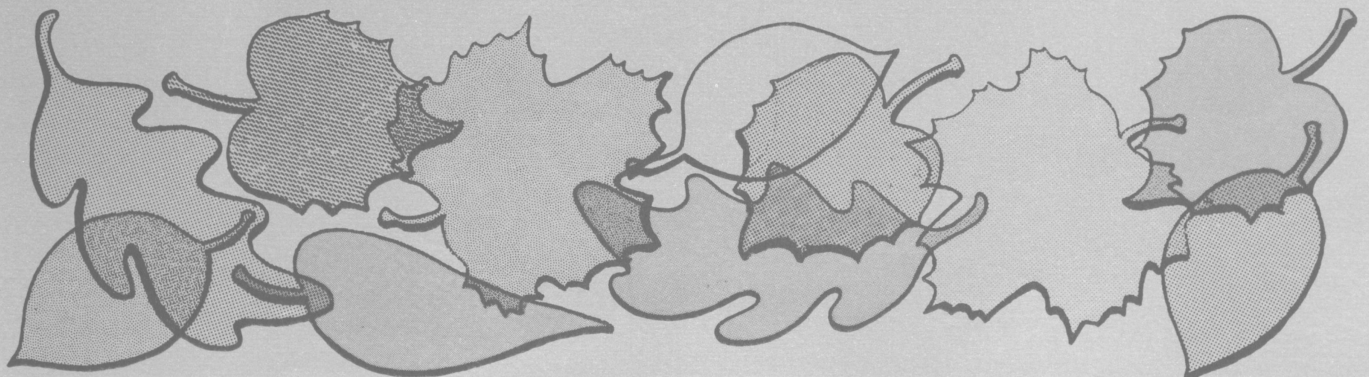

Win A Malibu Sport Coupe

You Could Be The Winner!

GRAND PRIZE. ASH GOLD 1969 CHEVROLET CHEVELLE MALIBU SPORT COUPE.

The Malibu comes equipped with powerglide, radio, whitewall tires, wheel covers, and black vinyl roof cover. The registration fee, state tax, and federal excise and income taxes will be paid. It will be on display at the various plant entrances throughout the contest period.

MEMO *from Management:*

Part of the Sales Team

"Good salesmanship consists of selling goods that won't come back — to customers who will."

We don't know who is responsible for the above quotation — the author is anonymous. But he knew what he was writing about.

Good salesmanship — the kind that keeps customers coming back for more — is a team effort. It requires a top-notch salesman to keep in touch with present customers' requirements and to search out the new customers necessary for continued growth. But he can't do the selling job alone. Those in actual contact with customers must be backed up all along the line — from the person typing the order all through the many other office and factory jobs to the machine operator producing the final product.

Even the best salesman can't keep a customer sold if delivery promises are broken or if the quality of our product is not up to expected standards.

We can't stay in business with one-time customers. They take too long to woo and win, to lose after the first order. Most of us never see our customers and many of us never see the product sold. But we belong to the sales team and can play an important part in the total selling job.

The extra effort that we put into our part may make the difference between winning or losing the business of the man who pays our bill — the customer.

Scovill Buys Auricord Corp.

The recent purchase of the Auricord Corp. of Long Island City will put Scovill in the new and rapidly expanding area of recording electronics.

Auricord is a leader in the design and manufacturing of tape decks, the

MICHAEL ABBENANTE, machinist apprentice in West Machine, left for military service on August 12, 1968. He came to Scovill in August, 1967.

mechanisms found in all types of magnetic tape recorders. Auricord supplies these components to many companies for use in their own tape recorders, many of which are well-known brands.

Auricord makes many models of tape decks, including reel-to-reel types, four and eight-track stereo tape cartridge players and playback, message-repeater models, the new popular stereo cassette type record and playback.

In addition to the home entertainment market, Auricord tape decks are found in commercial and industrial equipment such as computers, broadcast equipment, control equipment, medical electronics, and space electronics systems, and in the educational

New Assignments

Aerosol & Cosmetic
Container Prod. Div.

Clarence W. Pico
General Manager

A new division has been formed that will bring our aerosol products and cosmetic container products together under a new general manager.

Mr. Clarence W. Pico has been appointed General Manager of the newly designated Aerosol and Cosmetic Container Products Division. He will be located in Waterbury.

The Aerosol Products plant is in Manchester, New Hampshire, and Richard Ruhe will continue as Manager of the Manchester operation.

William H. Harris will continue as Manager of the recently opened Cosmetic Container products plant in Montross, Virginia.

Employee Relations

CHARLES KINGSLEY — Director of Salary Administration and Management Development

Hamilton Beach Div.

LARRY PUGH — General Market Manager

Mill Products Div.

THOMAS P. CONLEY — General Foreman, Casting Shop Scrap Room; 1st shift

ANDREW M. RAEBURN — Assistant to the Superintendent, Casting Shop, 1st shift

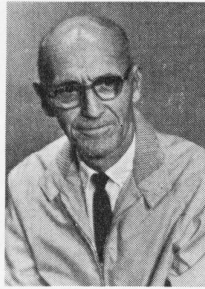

JOHN J. RONDINARA — Supervisor, Saw and Shears, Casting Shop, 1st shift

PAUL SABOL — Supervisor in Training, Wire Mill, 1st shift

SERA Re-Elects Executive Officers

President Edward Borowski, Vice President John McKenna, and Secretary-Treasurer Ruth Peterson were elected to serve a second term as officers of the Scovill Employee Recreation Association. They were voted into office at a meeting of the newly-elected Board of Directors.

Board of Directors elected at the annual membership meeting of the SERA, held on September 10th, are:—

Edward Borowski, Carpenter Shop; John McKenna, Fuze C Administration; Ruth Peterson, Employee Activities Office; Frank Bogush, Gripper Eyelet; John Capone, Tin Shop; John Deegan, Gripper Eyelet; Carmen Di-

IT'S NOW TOOLMAKER FRANK MCHALE. Supervisor of Apprentices Joseph Burke presents "diploma" to Frank McHale, the first employee to take the special "Eyelet Toolsetter to Toolmaker" course. Looking on are Gripper Eyelet Foreman Pat Tarullo; Arthur Woods, Chairman of the Skilled Trades Committee; Labor Relations Manager David Ryan; Closure Division Works Manager John Butkus and Closure Division Factory Superintendent John Humiston.

Eyelet Toolsetter To Toolmaker

It has long been felt that men who have been eyelet toolsetters for lengthy periods of time could qualify as toolmakers with a bit more advance training.

Such a short course has been worked out jointly by the Company and Local 1604 and was instituted and put into action this past spring.

The first employee to be enrolled in this special 3,000-hour course is Frank McHale who has been an eyelet toolsetter in the Gripper Eyelet Tool Room for a number of years. He attended class room sessions two days a week for four hours each; spent the first 850 of his on-the-job advance training in Closure Tool and the remainder in the Gripper Eyelet Room.

Mr. McHale was chosen to be the first student in this special course because of his years of experience as a

Maria, East Electrical; John Finnegan, Oakville Division; Russ Gagne, Closure Tool.

Stanley Grochowski, Screw Machine & Chucks; Lillian Santilli, General Quality Control; Margaret Snowden, General Products Tool; James Spann, Chucking; Leonard Synkowicz, Fuze C Tool Room.

Alternates elected are: Richard Renkun, Wire Mill; Rose Petti, Casting Shop Office; Charles Summa, West Electrical; Howard Rochon, Cosmetic Tool.

toolsetter and his sincere desire to upgrade himself. His performance in the classroom studies as well as his keenness in picking up the advanced knowledge of actual shopwork have made the program worthy of continuing.

Several other eyelet toolsetters are now enrolled in the course and, upon completion of the program, will also receive their certificates as Toolmakers.

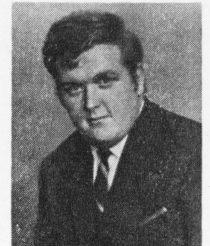

Mr. McHale, a steward in Closure Tool and a member of the Shop Committee, has been transferred to Closure Tool Room as a full-fledged Toolmaker.

Training Course

ELECTRICIAN. Daniel Butkus was graduated as an electrician, as of September 2, 1968. He has been assigned to the East Electrical Dept.

TOOLMAKER. Richard Veilleux was graduated as a toolmaker as of September 2, 1968. He has been assigned to the Gripper Eyelet Tool Room.

Fire Prevention Year-Around Program

Another year has passed and again we are reminded that the week of October 7-11 is set aside as Fire Prevention Week. Recent statistics show that, in 1967, out of a population of 2,920,000 in Connecticut, there were 3,176 fires in which 49 persons were killed, bringing the total fire loss to \$7,633,000.

Not only this week but all weeks of the year, we ask each and every individual for his cooperation in making this plant a safer place to work.

In our Fire Prevention program, foremen are asked to fill out quarterly "In-Plant Self Inspection" forms which are actually a checklist on cleanliness and order as well as lighting and equipment within their departments. Any item not completely safe and orderly will be noted and put in good repair before sending the form to the Safety Dept.

Emergency Men are appointed in departments. They are trained in the proper use of first aid fire extinguishing equipment to extinguish live fires.

All employees are reminded that—to report a fire—DIAL 333, give operator your name, department number, building number, floor, describe fire location and give phone number from which you are calling.

Men's Retreat Group To Meet Nov. 8th

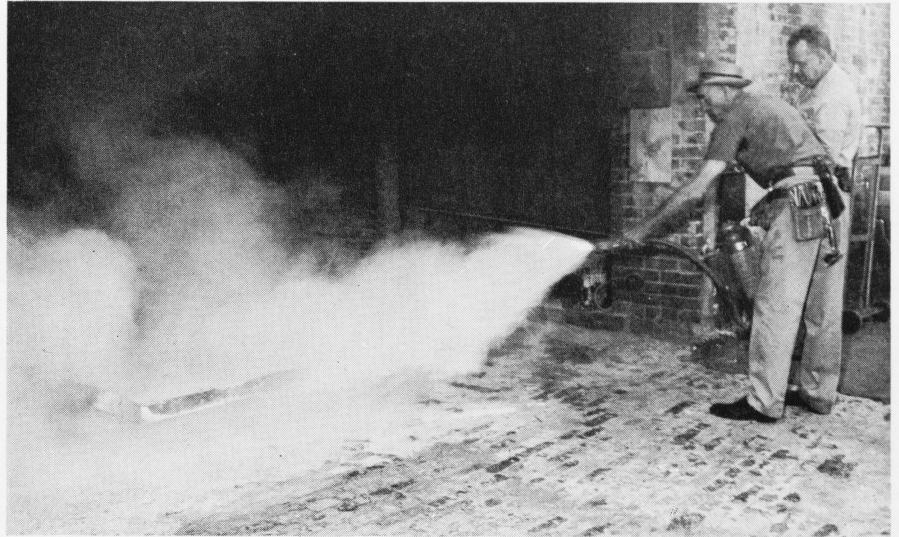

The 15th annual Scovill Men's Retreat Group will convene at the Holy Family Monastery Retreat House in West Hartford, Connecticut, starting with registration at 6:00 p.m. on Friday, November 8th and ending on Sunday, November 10th at 3:00 p.m.

All Scovill men are invited to participate. Those wishing to attend are asked to contact one of the following for reservations and particulars:

Frank Miller, phone 754-5609; John Capone, 753-3015; Charles Ancypa, 756-4186; Fred Angelone, 755-7831; Paul Santoro, 756-2953, or John Mariner, 755-7111.

Standard Time

Eastern Standard Time will go into effect officially in the state of Connecticut at 2:01 on Sunday, October 27. At about that time, all clocks in the Waterbury divisions will be set back one hour.

EMERGENCY MEN TRAINING PROGRAM. *Demonstrating proper use of extinguishers, Adolph Peo (foreground) works to put out a fire while James White stands by with a second extinguisher, ready to act if the first one fails to work or is emptied before the fire is extinguished.*

Golden Shoe Club In Scovill

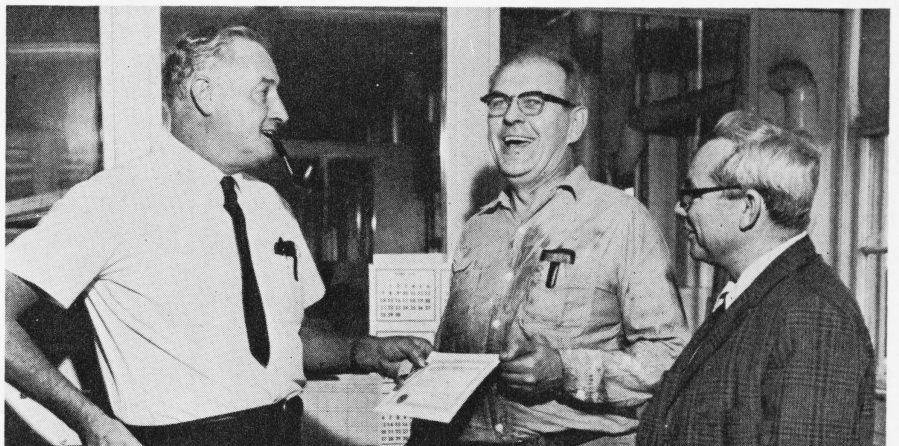

The Wise Owl Club was organized in Scovill some years back and today it has a membership of 27 persons who prevented serious injuries to their eyes by wearing safety glasses.

Important also is the wearing of safety shoes because one out of every ten industrial accidents involves injury to toes and feet.

The Golden Shoe Club was formed in recognition of employees who use foresight in avoiding what could be serious accidents thereby reflecting good judgment in behalf of their own welfare and that of their families.

Safety Manager Joseph Proulx was instrumental in forming a chapter of this national club in Scovill. The first member to be accepted in this chapter is Romil Roberge, tool assembler in Hot Forge who was wearing his safety shoes when a 500-lb die suddenly slipped from a chain hoist and struck him on the instep of his left foot. You saw the picture of his bandaged foot and the safety shoe in a recent issue of the *BULLETIN*.

Membership in the Club is designated by a "Certificate of Award" and a Golden Shoe Club key chain which have been presented to Mr. Roberge.

SCOVILL MEMBER OF AN EXCLUSIVE CLUB. *Romil Roberge, center, is very happy to become the first member of the Scovill Golden Shoe Club. Forging Department General Foreman John Corbett presents a "Certificate of Award" to Mr. Roberge. Safety Manager Joseph Proulx smiles his approval.*

Rod & Gun Club

By Vin Manzolli

The September meeting was held at the SERA with special guest John Orentis of the Conn. State Board of Fisheries on hand. If you remember, we had asked that board for advice or help in improving the fishing at Woodtick.

John Orentis and his crew had taken shore samplings and netted many fish from several areas of our pond for analysis. His report was most encouraging. Briefly, the growth rate of the young fish in our pond, of which there are literally thousands, are better than State average, in several categories. So, if our water level remains favorable, spawning should be good, which in turn will improve our fishing in the next season or two. A vote of thanks was extended to Mr. Orentis by President Paul Delage, on behalf of the Club.

Here are the leaders in the first of the Reeves Competitions:

J. Kosowicz, 14" trout; E. Grayeb, 17 $\frac{5}{8}$ " pickerel; F. Forter, 10 $\frac{1}{4}$ " perch; Jim Gilroy, 13 $\frac{1}{4}$ " bass; W. Bergstrom, 13" bull-head.

With 3 more competitions to go, there's no doubt that bigger and better fish will be caught. So, go get them, you fishermen; we know they're in there.

Charlie Carpentier advises the Rifle Range will open October 11th at 7 p.m. to start the new season. The first 3 weeks will be for practice shooting only, to establish handicaps; after which teams will be organized for inter-departmental competition. So, shooters, get the kinks out of your trigger finger and get out to the range.

May we take this opportunity to bid welcome to Fred Wilson's new assistant, Kent Montgomery. We wish you success in your new venture. If we can be of help in any way, just call on us.

This year, as well as last, we received the usual complaints of broken bottles, empty beer cans, and fish hooks left at the swim area by some fishermen. In addition, we were advised through SERA Board of Directors of the most frightening experience of two persons whose feet became entangled with discarded monofilament line while swimming.

This carelessness can no longer be tolerated. So, after some discussion, it was voted by those present that *no more fishing be allowed on the swim area side of the lower pond*. The unconcern of a few certainly can spoil it for the many, as is probably the case in this matter.

Girls' Club News

Hi, Chillun:

Here's Ma again dropping all her important chores round home to say hello. Pa is out slaving in the haystack and I'm gonna steal a few moments to tell you what's been going on around the Bell Line.

Heaven's to Betsy! I stopped in at the bowling alley the other night and you just oughta see those little gals knock down those poor defenseless pins. There was more wood falling in that shack than I've seen since Paw hit the barn with his old Chevy. Two of our Leisure Citizens have joined the group and I'm telling you ladies they put those young uns to shame. You're always welcome to come and visit the bowling matches any Thursday night.

SEPTEMBER RETIREES FETED BY CO-WORKERS

Top photo:—Omer Boucher, machine maintenance man in East Machine, had over 28 years' service when retiring on September 1st.

Center photo:—Rose Caiozzo, punch press operator in Press #1, had completed more than 20 years upon retirement as of September 1st.

Bottom photo:—Florence Harty, bench and miscellaneous machines operator in Fuze C had accumulated over 14 years of service when retired.

Our card party has been scheduled for Tuesday, October 22. Plans are going strong and the gals are planning pretty table prizes. I offered my pet pig Petunia for a door prize but they refused, saying it would break my heart. Now, wasn't that the sweetest thing. There'll be prizes and eats and, if I've heard rightly over the static, they are going to have a bazaar with Christmas gifts and all those pretty things they've been makin. I'm planning to bring the older kids (they can play bingo) and Paw and our neighbors and, of course myself, to play Slap Jack. We always have a good time at those shindigs.

Come November, we're planning one night a week, for four weeks, to have a class on Christmas Crafts. The first night our teacher, Freda Bessette, will show us things that even I can make. Then you can plan just what you will need for the next class. You'll be surprised how much can be accomplished when you have someone with the know-how at the stern. And this

year we sure have, for Freda has displayed some beautiful pieces.

Anyone wanting to help make things for our Christmas Bazaar, please contact Dorothy Chambers at Ext. 2142 or Ellen Donovan at Ext. 777. We would love to have your help and it would bring the group into a much tighter knit.

Soon it will be Christmas and our boys overseas will be missing their corners just a little more than usual. The Red Cross is asking for vacuumed tins of candy or nuts to send to the boys across. Sure 'tis little to ask of us when we have so much. How about lending a little helping hand? If information is needed, I'm sure Margaret Fenske (Bulletin) can give it to you.

Crying Grasshoppers, there goes Paw again—he just can't get used to those pitchforks in the hay. They jab him everytime he moves. Better see what I can do.

Love,
Ma Kettle

September Suggestion Awards Over \$2,000

\$710 TO MARIO GUERRERA. Blank & Tool Room Foreman Angelo Tarullo receives detailed description of the suggestion which received an initial award of \$60 in June, with the final September payment making a total of \$770.

\$770 is the gross amount paid to Mario Guerrera for his suggested change in slitting tools which enable 4 rings instead of 3 to be slit from the

Your Social Security

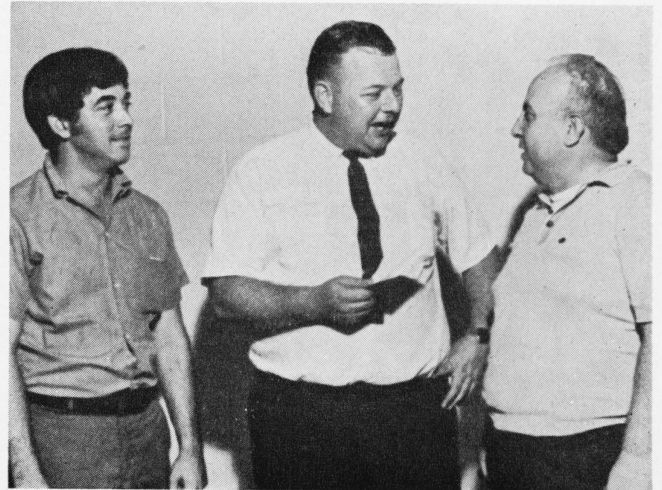

"The protection afforded by Social Security could mean many things to many working people", advises Mr. Charles Cote, acting Manager of the Waterbury Social Security Office.

"To many, social security means monthly benefits to them and their families when they retire; to others, it means financial protection to them or their families if they should become disabled or pass away; and to men and women over 65, it means Health Insurance Benefits, better known as 'Medicare'.

"The benefits that are paid are based on the average earnings of the worker and a record of earnings is maintained by Social Security Administration in Baltimore, Maryland.

"Because of the significance these benefits must have to both the present and prospective beneficiary, it is important for a person to periodically check on the correctness of his earnings record at least once every three years."

Form OAR 7004 (Request for Statement of Earnings) to use in requesting statements of earnings records is available in the Bulletin Office; or can be obtained from your local Social Security Office. The Waterbury Office is located at 236 Grand Street, the phone number is 756-7475.

\$679 TO TWO MEN IN FUZE C. John Saunders, who was awarded \$120 for a suggestion, listens with interest to discussion of Foreman George Sachse and Theodore Vaccaro who received \$559 for his suggestion.

same cup; thus reducing the amount of scrap and the amount of metal required to fill the order.

\$559 was awarded to Theodore Vaccaro whose idea for a new method to be used at the Kingsbury machine helped to eliminate downtime, cut material wastage and scrap.

\$120 was the amount awarded to John Saunders whose idea for salvaging fuze parts that formerly had been scrapped because of a flaw resulted in a saving of material and breakage of drills.

Other Cash Awards

\$564—George Nix, Cosmetic Tool Room. His idea suggested a change in the assembling of lipstick parts which helped to reduce production costs.

\$60—Sylvester Woodhouse, Fuze C (This is the fifth of seven suggestions submitted in the past 7 months which have received awards)

\$30—Edwin Teller, Steam Dept.

\$24—Erving Honyotski, Rod Mill

Obituaries

JOSEPHINE GAMBARELLA died on August 30, 1968. Retired, Lacquer Room in May, 1955—33 years.

MICHAEL CHESNA died on September 11, 1968. Retired, Waterville Division in September, 1957—10 years.

JOHN EUSTACE died on September 12, 1968. An annealer in the Strip Mill—19 years' service.

ALEXANDER BAKUN died on September 12, 1968. Retired, Casting Shop in January, 1958—35 years.

MARY NELSON died on September 15, 1968. Retired, Billing Office in August, 1959 — 50 years' service.

ANGELA PERUGINI died on September 15, 1968. An inspector in the M-219 Fuze Department—35 years.

To All You Wonderful People In The Plant:

As it is impossible for me to contact you individually, I have asked to use the pages of the BULLETIN to thank you all for such a grand retirement party and your gifts. It was a great sendoff and deeply appreciated.

I shall always remember you.

Sincerely,

Bob Aitchison

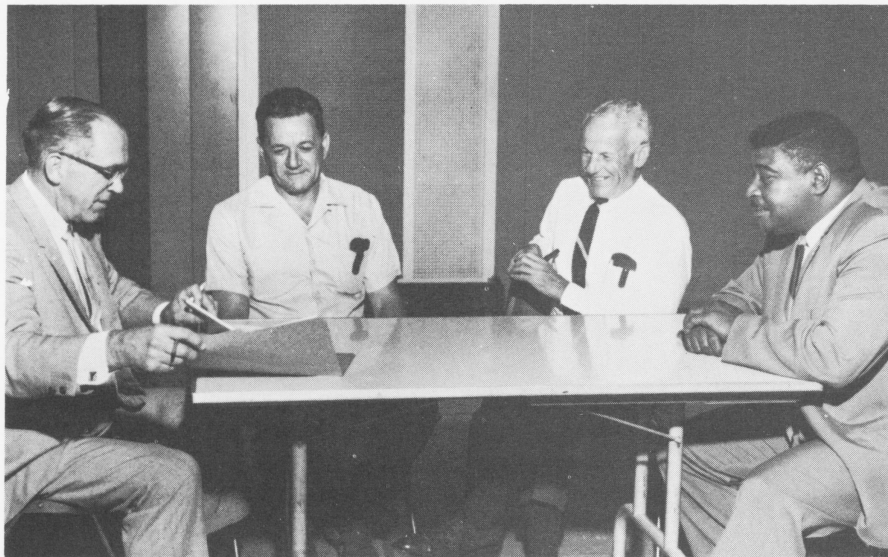

LILIA GUSTAFERRI died on September 16, 1968. Secretary-stenographer in the Main Hospital—22 years.

CHARLES FEARS died on September 5, 1968. Retired, Yard Office in November, 1955—20 years.

LUIGI PIRONE died on September 5, 1968. Retired, Rolling Room in August, 1956—40 years' service.

LIONEL DUBOIS died on September 22, 1968. Retired, Transportation Dept. in September, 1946—30 years.

TIMOTHY GRIFFIN died on September 27, 1968. Retired, Fuze A Assembly in March, 1967 — 23 years.

ANNUAL UNITED FUND DRIVE UNDERWAY

Prospects seem bright as United Fund in-plant drive co-chairmen inform Employee Relations Director Milton Burrall that their aim in this year's drive is to sign up 630 new pledges for Payroll Deductions. Pictured at their planning meeting are: Fred Wilson, Felix Panasci, Mr. Burrall, and William Baker.

United Fund Drive

October is United Fund Month and, again, Scovill Management and Local 1604-UAW endorse the drive within the plant giving all employees the opportunity to contribute their "fair share" through the Payroll Deduction Plan toward the expenses of operating the major voluntary health, welfare and character building agencies in the Greater Waterbury Area.

The drive this year within the plant is being concentrated on the number of employees participating in the Plan. The committee has set a goal of 630 new pledges in this drive.

In-plant co-chairmen are Fred Wilson, William Baker and Felix Panasci

Divisional co-chairmen, representing Management and Local 1604 are:—

Closure Division—Richard Woodacre, Gary Hall and Frank McHale

Cosmetic Division—Thelma Conley and George Dauch

General Products Div., West—John Cowperthwait, Vivian Byrnes, Joseph Fabiano, Alfred White; P. James Byars for the Foundry

General Products Div., East—Tom Gifford, Peter Bouharoun, John Dowling and Joseph Aureli

Mill Products Division — Lew Curtis, Raymond DiToto and Louis Gosain

Service & Maintenance—Tom Kaukas, James Bracken, Edward Borowski, and Lester Kucheravy

Offices:— Charles Grimes, Ernest Rumberg, and Gustave Schoeck.

Retirements

GIOVANNI GALLETTA, material handler in Trucking, was retired as of September 9, 1968—45 years' service.

Effective October 1, 1968

VIOLET BUSBY, spectrographic technician in Metals Research—32 years.

JOSEPH COTE, Jitney driver, Finish Division (Annex) Strip Mill—35 yrs.

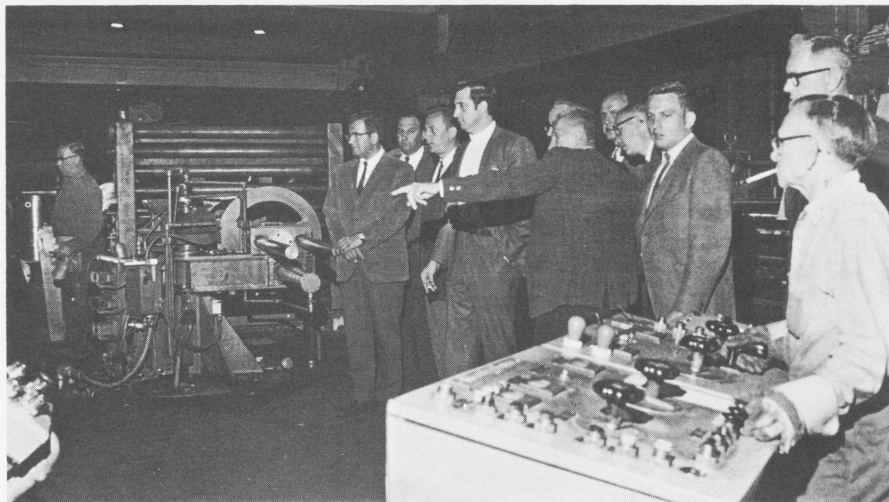

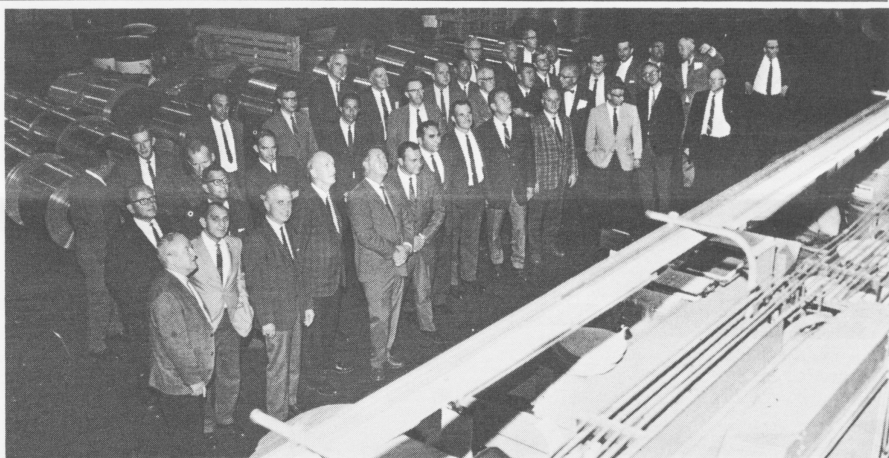

CHARLES DELAVERGNE, production supervisor in Contract Manufacturing Production — 43 years.

GARVIN A. DREW, Vice President, Sales, International Operations — 43 years' service.

MARY O'NEILL, secretary-stenographer, Traffic — 40 years.

VIRGINIA PESCE, punch press operator, Press 1 — 25.2 years.

SIDNEY WELLS, toolsetter in Gripper Eyelet — 26.1 years.

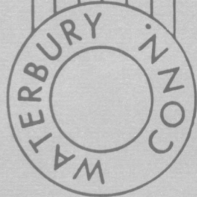

TOOL ENGINEERS VISIT PLANT. Approximately 35 members of the Connecticut Chapter of the American Society of Tool and Manufacturing Engineers visited our Casting Shop, Hot Extrusion Department and Brass Rod, Continuous Strip and Aluminum Sheet mills recently. Divided into groups, they were taken through the mills by Scovill guides under the leadership of John Fogarty.
