

SCOVILL BULLETIN

JANUARY, 1969

Published by Scovill Manufacturing Company for its Employees

REACHING FOR THE WINNER

Executive Vice President John Helies, Scovill Local 1604 President Michael Exarhou and Director of Planning Ernest Rumberg stand by as Frances Forino reaches for the lucky number which will decide the winner of the 1969 Chevrolet Malibu Sport Coupe.

The winning number was one assigned to Charles Sinkevich of the Chucking Department who had seven chances of winning the car. This was because he had submitted seven qualifying suggestions during the contest period.

Scovill Acquires Two New Firms

Mr. Joseph S. Stevens, vice president and general manager of our Oakville Division, recently announced the acquisition of two new companies—Bogene, Inc. of Lebanon, Pennsylvania and Hero Manufacturing Company of Middlebrook, Massachusetts.

Bogene is one of America's leading manufacturers of garment bags, closet accessories, and other notion products. The transaction also includes the acquisition of the assets of Bogene's affiliate corporations: Bogene Sales Corporation, Bogene Merchandise Corporation and Princess House Closet Accessories, Inc. Mr. Stevens said the

(Continued on Page 2, Column 3)

ACCEPTING KEYS TO THE CAR

Mr. and Mrs. Charles Sinkevich accept the congratulations of Group Vice President Norman Schlink, together with the keys to the Ash Gold 1969 Chevrolet Malibu Sport Coupe, first prize in the Golden Days Suggestion Contest.

\$2692 Awarded For December Suggestions

(Ed. Note:— Due to absence because of illness and vacations, we were unable to photograph our larger winners for this month's issue)

\$1612 Shared By Two

\$806.00 each was awarded to Benjie Macrelli and Armond Provancher of the Fuze C Plating, Painting and Shipping Dept. Their suggestion involved a change in method of dipping fuze parts into Ebonal tanks which eliminates waste of the coating, thereby greatly cutting the cost of this material.

3 Ideas Win Awards

\$300.00 was awarded to Richard DeMarest of Closing Tool. Two suggestions were awarded \$30 each, and a third received \$240. This third suggestion was a type of loader that allows a piece of work to locate correctly on the Kingsbury machines, thereby cutting down on amount of scrap.

(Continued on Page 3, Column 2)

Other Contest Winners

A 2nd and a 3rd prize—winner's choice of a Hamilton Beach appliance—were awarded to: Francis Shiel of the West Machine Room; and George Leo and George Lane of the Strip Mill who collaborated on one suggestion.

Approximately 450 suggestions were submitted during the contest period of October 14 and December 13 in the special "Golden Days" Contest conducted by the Suggestion System Committee. Each suggestion was assigned a number and, on December 19th, these numbers were placed in a special container from which the winning numbers were picked at an open drawing held in the SERA.

Scovill Employees "Do It Again"

Final reports show that, as always, Scovill employees are quick to respond in extending a helping hand to those less fortunate. Cash payments and pledges made by employees total \$137,578.50 in contributions for the agencies of the United Council & Fund for 1969.

MEMO *from Management:*

New Year — New Opportunities

The year 1968 is now behind us. All of the figures are not yet in but it should total up to another good year for Scovill — another year of accomplishment and purpose.

But the new year is not the time for looking backwards — it's much more exciting and challenging to look ahead. 1969 should be another good year despite the uncertainties caused by such factors as tight money and rising prices. How good a year it is for Scovill will not only depend upon the general health of our economy, it will also depend on us — on how well we use all that we have to work with.

Here are some of the strengths that our company has to sustain continued growth in the year ahead:

We have the financial resources of one of America's top 500 industrial concerns — Scovill was 238th in sales in 1967.

We have the skills and experience of approximately 17,000 employees in our world-wide plants.

Our Hamilton Beach Division, well known for the quality of its products, is gaining increasing recognition as the innovator in the small appliance field . . .

We are the oldest producer of brass mill products with the most modern and efficient equipment in the industry . . .

Our General Products Division operates one of the most versatile contract manufacturing shops in the country . . .

Through our acquisition of Nutone and Caradco, we have achieved a strong position in the growing home building and modernization markets.

But, it isn't always what you have that counts — it's how wisely you put it all to work that creates profits and produces new job opportunities. All of the products that we sell, all of the markets that we serve, and all of the experience that we have accumulated over the years give us an important competitive advantage — exposure to a much broader range of opportunities for new business.

We must have enough imagination to recognize these opportunities, enough ingenuity to develop them, and enough gumption to bring them to a profitable conclusion. The fact that we have almost doubled our sales and have quadrupled our profits in the past five years is proof enough that Scovill people have what it takes to move ahead in a tough competitive world.

We are confident that we can continue this progress in the years ahead.

Two New Firms

(Continued from Page 1, Column 1)

present management and staff of the Bogene companies will be retained and the operations of these companies will become part of our Oakville division, one of the country's leading suppliers of sewing aids, notions and stationery items.

Hero Manufacturing Company produces a complete line of knitting needles and crochet hooks. It will continue to operate independently, but will work closely with the Dritz branch of our Oakville division. Oakville and its Dritz branch manufacture and distribute a complete line of home sewing aids and notions through 70,000 independent retail outlets.

"Hero's knitting and crochet products will increase Scovill's product offering to the consumer market," Mr. Stevens said.

New Assignments

General Products Div.

ARTHUR W. LEE — Credit Supervisor of the General Products Division — Waterbury Operations

ROBERT E. SHELHART — Director, Scovill Develop. Center, Thomaston

Hamilton Beach Div.

JOHN T. FLAHERTY — Group Sales Manager

Young Adults' Club

One of the most recent clubs to be formed within the plant is the "Young Adults' Club". Their chairman is Charles Summa and committee members are Sandra Burke, Ed Fitzpatrick, Joan Gorman, Mary Ellen Maher and Frank Maturo.

The new "fun spot in town", according to the committee is the SERA on bi-weekly Mondays. The next informal get-together for the "in group" — single or married folks under the age of 30 — will be held on Monday, January 20th.

The word is also out for all you social butterflies to prepare to leave the cocoon in time for the Valentine's Dance scheduled for February 15th. A live band will help put you and your favorite Valentine in a romantic mood. Watch the next *BULLETIN* for more specified details.

John F. Smith

The pictures of this issue (except those on Page 7) introduce our new Company photographer, John F. Smith. Well qualified for this post, Mr. Smith has been a free lance photographer and has also received varied news photography experience at the Waterbury Republican and American.

Sorry, girls, our photographer is married. He lives with his wife and 10½ year-old twins, Donna and Jeffrey, in Cheshire.

Retirements

Effective January 1, 1969

ALCIDE BOUCHER, die polisher in the Rod Mill—40 years' service.

CHARLES BRUSIE, electrician in the New Milford Tube Mill—27.8 years.

CAROLINE CANNATA, inspector-bench in Screw Machine—16.9 years.

ALBERT CHISHOLM, electrician in the Electrical Dept.—29.1 years.

MILDRED CIMINO, miscellaneous machines and bench operator in Cosmetic—17.3 years.

JOSEPH DAILEY, Tennant Power Sweeper operator in the Strip Mill—27.5 years' service.

GIOVANNI GALLETTA, material handler, 52 Platform, Trucking — 45 years.

CORNELIUS GRIFFIN, Schumag straightener operator in the Wire Mill—35 years' service.

CHARLES LORENSEN, maintenance repairman in the Carpenter Shop—17.5 years' service.

JAMES MONAHAN, application analyst in Closure Division—20 years.

Suggestion Awards

(Continued from Page 1, Column 2)

\$135 For One Idea

\$135.00 was awarded to Thomas Cerasulo of the Chucking Dept. He devised an adapter for use on carbide tip reamers which extends the life of the reamers, thereby reducing scrap as well as the expense of replacing the reamers.

\$60.00 Awards

Roland Bouchard, Chucking
Robert Dionne, Strip Mill
Jean Miller, Hot Forge
Theodore Vaccaro, Fuze C

\$30.00 Awards

Joseph Valenti, Steam Dept.; Marie Peluso, Aluminum Finishing; Frank LaChance, Forge Production; George Belval, Multiple Spindles; Theodore Zotto, Hot Forge; Gertrude Degnan, Hot Forge; James Zukauskas, Fuze C Bldg. Service, two awards of \$30 each.

Leonard Synkowicz, Fuze C Tool Room; Ann Wight, Quality Control; Preston Ferguson, Fuze C Bldg. Service; William Frink, Foundry; Theodore Vaccaro, Fuze C Kingsbury & Secondary.

Other Awards

\$39.00—Angelo Barnaba, Screw Machine Tool Room

\$36.00—Elinore Estelle, Aluminum Sales

\$18.00—Josephine McIlroy, Contract Sales

CATHERINE MOYNIHAN, bench press operator in Relay—26.8 years.

JAMES PHELAN, toolsetter operator in Coupling—35 years.

IMELDA PICARD, operator on miscellaneous bench fixtures in Fuze C—36 years' service.

ASSUNTA RANAUDO, operator on miscellaneous bench fixtures in Fuze C—14.5 years.

ANTONIO SANTOS, helper on 42 coil slitter in the Aluminum Mill—38 years' service.

JAMES SULLIVAN, boiler room engineer in the Steam Dept.—39 years.

JOSEPH SUTTON, supervisor of Shipping, Strip Mill—19 years.

ISABEL VANASSE, Quality Control inspector assigned to Screw Machine Packing—25.8 years.

CECIL WADE, rod roller in the Rod Mill—40 years' service.

Clarence Elliott
Sanitation
25 yrs—Dec. 2

Adolph Peo
Electrical
25 yrs—Dec. 26

Service Awards

Lottie Swoditch, Fuze C Assembly
25 years—December 10, 1968

Agnes Arrick, Fuze C Assembly
25 years—December 16, 1968

Elizabeth Audietis, Closing Room
25 years—December 25, 1968

Edward Somogie, New Milford Tube
10 years—December 1, 1968

Sefus Jacobs, Wire Mill
10 years—December 1, 1968

Joseph Clements, Press 1
10 years—December 8, 1968

Robert Pekock, Strip Mill
10 years—December 8, 1968

Donald Lister, Wire Mill
10 years—December 20, 1968

Nellie Clapp, Fuze C Kingsburys
10 years—December 20, 1968

John Church, Strip Mill
10 years—December 23, 1968

Joseph Cristillo, Strip Mill
10 years—December 23, 1968

Training Course

TOOLMAKER. Fred Carangelo is the second graduate of the special "Eyelet Toolsetter to Toolmaker" course. He graduated as of December 9, 1968 and has been assigned to the Gripper Eyelet Dept.

TOOLMAKER. Lawrence Tosolini was graduated from the General Training Course as a toolmaker as of December 16, 1968 and has been assigned to Mfg. Eyelet Tool Room.

Winter Driving - Highway Emergencies

Winter driving calls for a special type of driving, says the National Safety Council. The most important requirements are increased alertness, better control of the car and reduction of speed. Also important is the knowledge of what to do in the case of highway emergencies. Here's how:

SKIDDING. A car will start to skid if you turn abruptly, sudden lane changes or applying the brakes too hard when the road surface is wet or covered with ice or snow. The first thing to do is to turn the front wheels in the same direction as the skid. Never hit the brakes during a side skid. For the fastest stop with the least chance of causing a side skid, pump your brakes with a hard, rapid jabbing and releasing of the brakes.

BRAKE FAILURE. If you apply the brakes and they fail, pump the pedal a few times to see if you can reduce the speed. Shift the car into low forward gear and let the compression of the engine slow down your car. If you are on a hill or steep grade, curb the car before it gains too much speed.

LIGHT FAILURE. If your headlights go out, brake the car to slow up the

ELECTRICAL FIRES IN AUTOS

Bert Lafreniere of the Scovill Fire Department (left) demonstrates use of a 2½ lb. dry chemical extinguisher which every car owner should be sure is in his car for use in case of an electrical fire. Sand, if available, is also safe to use on electrical fires but don't ever use snow or water—as conductors of electricity, they'll only make the fire worse.

Nicholas Guerrero, Garage maintenance man, shows a sure way of preventing an electrical fire in an auto by using a jack handle to remove the battery wire from the terminal. This connection must also be broken in the event of such a fire in the car.

momentum and gradually travel to the side of the highway. Place a warning flare or flag just behind the car and another at least 300 ft. back. This will give oncoming cars an opportunity to pass to the left or come to a complete stop if necessary.

FIRE. If a fire occurs in the car, you should try to extinguish it. Most fires are caused by electrical shorts. It is almost impossible to put out a fire if we first do not disconnect the battery thereby eliminating the source of energy which causes the wires to get hot. A fire can be prevented if the wire which is shorted can be removed. Before doing this, protect your hands by wearing hand protection to prevent severe burns. With a jack handle, the terminal can be removed as long as the metal is not touched with the bar. A 2½ or 5 lb. dry powder extinguisher is a good item to have in your car at all times.

HOOD POP-UP. If the hood should suddenly release itself, don't get excited. Keeping calm and viewing from a side window will help in braking the car off to one side for a complete stop.

STOPPING ON THE HIGHWAY. If, for any reason, you must stop on a highway, the following must be done:

1. Let the car roll off to the side of the road as far to the right as possible,
2. Switch on the low beam, interior lights and 4-way flasher, if available,
3. Place flares or warning devices approximately 300 ft. back,
4. Raise the hood,
5. To summon help, place a white handkerchief on the radio antenna or left-hand door handle.

Credit Unions' Annual Meetings

Scovill Employee Credit Unions will hold their annual membership meeting in the SERA Building.

Members are urged to attend for the election of officers and other business transactions; and to enjoy a social hour, with refreshments.

Credit Union No. 1—Wednesday
January 22, at 7:30 p.m.

Credit Union No. 2—Monday
January 13, at 7:00 p.m.

Credit Union No. 3—Friday
January 17, at 7:00 p.m.

Credit Union No. 4—Tuesday
January 21, at 7:00 p.m.

Girls' Club News

The holidays have come and went and now back to the washboard. Things sure have piled up while we were awwhoopin and ahollerin. Paw won't be the same for weeks—sure will be lonesome round 'yar. The kids made out like yesterday's bandits. The lights in their eyes outshone the sparkling Christmas tree. Christmas surely was made for the children—my bones sure have been telling me that I have joined the quiet set. Paw finally took down his stockin'. He said it was getting too cold walking with just one. These winter frosts sure do play havoc with poor paw.

Getting down to our serious corner now, young uns. Our baskets were filled with the makings of a scrumptious Christmas feast, clothing and toys for the not-so-fortunate and you should oughta seen their sweet faces. Who said we needed words? When the Lord made man, He put all the words in our faces.

The children's Christmas party—a double header—was a cotton-pickin' success. Those young uns really know how to enjoy themselves. Thanks to all the elves who helped in so many ways. We never could have managed without them.

Thanks to so many wonderful people who made our activities a whoopin and a swingin time. It's impossible to name each one but I must give credit to one who worked so very hard, long and late, to shop for the prettiest and the practical—*Dorothy Chambers*. Without her, poor old maw would still be out in the chicken coop. May she live to be a million (for your sake).

Note:— Our Christmas candy was a bit late in arriving but was well received. Still available are chocolate mints, polly-wogs, and the Christmas mix (hard candies). If you'd like some, please call *Ellen Donovan*, Ext. 777.

One sad note over the holidays was that three of our wonderful workers—*Betty Colbassani*, *Della Riccio* and *Evelyn Smoil*—were on the sick list. Our best to you, gals, and may the New Year bring early complete recovery and get you back on our active list.

Love,
Ma Kettle

ULYSSES KNIGHT, helper on slitting Machines in the Continuous Strip Mill, left for service with the U.S. Army on November 22, 1968. He has been an employee since September, 1964.

Your Social Security

"Social Security also offers financial protection to the young family," advises Mr. Ernest Bauer, Manager of the Waterbury Social Security Office.

Benefits may be payable not only to a worker but also to certain other members of his family. This steady monthly income does much to ease the financial burden that results from the disability, death, or retirement of the worker. Dependents and survivors eligible for benefits include:

—unmarried children under 18 or between 18 and 22 if they are full-time students,

—unmarried sons and daughters 18 or over who were disabled before they reached 18 and who continue to be disabled,

—a wife under 65 or widow under 62 if she is caring for a child under 18 or disabled and the child is entitled to payments,

—a wife 62 or widow 60 or older, or a disabled widow 50 or over, even if there are no children entitled to payments,

—a dependent husband or widower 62 or over, or a disabled dependent widower 50 or over,

—a surviving dependent parent 62 or over.

Benefits that could be paid to a widow may, under certain conditions, be paid to a surviving divorced wife.

In addition to monthly benefits, a lump-sum death payment ranging from \$165 to \$255 may be made to the worker's widow or widower if she or he was living in the same household with the worker at the time of death, otherwise, the lump sum can be used to help pay the worker's burial expenses.

Under the law in effect before February 1968, there were circumstances in which benefits could be paid to children of a woman worker only if she had worked 1½ out of the last three years before she retired, became disabled, or died, or if she had actually provided most of the child's support. This provision, which prevented payment of benefits in some cases, has been removed. Now children are considered dependent on both their mothers and their fathers, and they may become eligible for benefits when either parent becomes entitled to retirement or disability benefits or dies after working long enough to be insured.

If you feel that you may be eligible

RETIREMENT PARTY FOR ASSUNTA

Factory Superintendent Anthony Cugno presents token of remembrance to Mrs. Assunta Ranaudo in behalf of her coworkers in Fuze C Assembly who parted Assunta on her retirement.

"WELCOME TO THE CLUB." A surprise guest at the retirement party honoring James Monahan was Mr. E. H. Davis, who officially retired from active service in July, 1949.

Approximately 160 co-workers and associates were on hand in the SERA to honor Mr. Monahan who retired as of January 1, 1969 with over 20 years of service. Because it is impossible for him to personally contact everyone who, in one way or another, helped to make his retirement party an event to long remember—active employees from throughout all sections of the Waterbury plant and branch offices (at home and abroad), as well as those retirees who came back to wish him well—Mr. Monahan has asked to say a sincere "thank you" to you all through the pages of the BULLETIN.

for benefits because you fall into one of the beneficiary categories, then write, visit or telephone your nearest Social Security Office, suggests Mr. Bauer. The Waterbury Office is located at 236 Grand Street. The telephone number is 756-7475.

Rod & Gun Club

By Vin Manzolli

At the December meeting, the Nominating Committee presented the following candidates for office for 1969: President—Paul Delage; Vice-president—Carmen Di-Maria; Treasurer—Doug Suher; Financial Secretary—Don Berry; Secretary—Vin Manzolli. With no other nominations from the floor, the above mentioned slate was elected for the coming year.

Installation of officers will take place at the January 14th meeting when refreshments will be served also. Hope to see many of you there as our program, for activities for 1969 will also be discussed. Now's the time to turn in your ideas for activities for club members. The committee will consider all suggestions.

Charlie Carpentier advises the Inter-Dept. Rifle competitions are in progress, with 6 teams participating. Competitions will run for 10 weeks, after which the champions will be announced. Good luck, all you "Annie Oaklies".

For you fishermen, the Committee has been keeping their collective eyes on the ice at Woodtick. With its present freezing, it looks hopeful to hold an ice fishing contest mid to late January. Watch for flyers for details.

May we take this opportunity to say "thank you" to one of the hardest working officers of the Club who, for personal reasons, is no longer with us. For many years Dom Cherubini, as vice president, worked with the various committees always for the benefit of our Club. We extend to you, Dom, the deep appreciation of all officers and members for your unselfish efforts in their behalf.

Charlie Lewis, on sick leave, says thanks millions for the cards and Christmas gift. He says, "to know that one has been remembered by so many kind and generous friends gave my morale a boost that is simply indescribable. May the Lord bless you all and bring you a happy and prosperous New Year."
