

SCOVILL BULLETIN

JUNE, 1969

Published by Scovill Manufacturing Company for its Employees

JOHN W. MOORE AWARDED McAULIFFE MEDAL. *The Most Rev. John F. Whealon, Archbishop of Hartford looks over the McAuliffe award which he presented to John W. Moore, Jr. (3rd left) recently. At the left is U.S. Assistant Secretary of Labor W. J. Usery, Jr., the main speaker for the evening; and at right is the Rev. Daniel E. Johnson, director of the Diocesan Labor Institute of the Archdiocese of Hartford and chairman of the event.*

John W. Moore, Jr., Vice President—Employee Relations of Scovill, was one of two recipients to be awarded the 1969 McAuliffe Medal at a dinner held at the Waverly Inn on May 21, 1969. The medals, presented each year by the Diocesan Labor Institute of the Archdiocese of Hartford, are given to a representative of labor and a representative of management "who have attempted to introduce into industrial relations in this state a spirit of good will and cooperation."

The labor representative to receive the other medal was Mr. Leo J. Dunn, Deputy State Labor Commissioner.

Gillette Award For Scovill Quality Metal

Our Mill Products Division was paid fine tribute recently when it was awarded a Quality Control Certificate by the Gillette Safety Razor Company.

One of the few such awards given by Gillette to certified vendors, the presentation was in recognition of the high quality copper alloy strip metal which our Mill Products Division has been supplying to the Gillette Company for many years.

Suggestion Contest

Deadline—Friday, June 13

Drawing For Boat—June 19

MILL PRODUCTS DIVISION RECEIVES GILLETTE AWARD. *Admiring the "Award of Certification" held by Howard Kraft, Superintendent of our Continuous Strip Mill are: Mill Products Div. Vice President and General Manager Wayne E. Johnson, Kenneth E. Gleason, Director of Quality Engineering for Gillette Safety Razor Company; Peter E. Tremblay, Director of Purchasing for Gillette, and Norman H. Schlink, Scovill Group Vice President.*

Scovill Adds New Hose Assembly Plant

Mr. C.A. Burnett, vice president and general manager of the General Products Division, has announced the purchase of a 52,000-square-foot plant in Hebron, Ohio to supplement the output of our General Hose and Coupling facilities in Caldwell, N.J.

Mr. Burnett noted that the increasing demand for hose assemblies for automotive air conditioning systems and for a wide variety of hydraulic
(Continued on Page 2, Col. 3)

Vacation Shutdown

The Waterbury Divisions and Services will be closed for vacations starting Monday, June 30, 1969, and will reopen with the start of the first shift on Monday, July 14th. Any exceptions will be by notification in departments or to individual employees.

Employees who qualify will receive holiday pay for July 4th.

The BULLETIN will not be published during July. The next issue will be mailed August 11th. Deadline for classified ads is July 28th.

MEMO *from Management:*

You Have To Run To Keep Up

In today's business world, you have to run hard just to keep up with your competitors. Scovill has been running hard in the past few years, with substantial growth in our sales volume and in number of employees.

But our competitors are growing too. *FORTUNE* Magazine helps us compare our growth with other companies by publishing each year a directory of the 500 largest industrial concerns in the country. The companies are listed in order of their relative sales volume.

Scovill moved up from 298th place in 1962, when our more dramatic sales growth began, to 238th place in 1967. But even though our sales increased about 11% in 1968, our relative position in the *FORTUNE* listing did not change — we remained at 238th place. You have to gallop just to keep up with the rapid pace of American business.

Sales growth, however, is only part of the story. The *FORTUNE* Directory also shows the relative profitability of each of the 500 companies listed. Scovill does not do as well in this category. Our profit on sales of 3.7% in 1968 held us back over 100 places at 349th place. The company right above us in the sales listing — Polaroid — had a profit on sales of 14.8%. The company right below us — West Virginia Pulp and Paper Company — had a profit on sales of 5.3%. The average profit on sales for the 500 largest is just about 5%. Our figure of 3.7% puts us on the low side in some pretty fast moving company.

Sales growth is important. But you can't have sales growth and new jobs without healthy profits. We are working to improve our return on sales — and next year's *FORTUNE* Directory will show us how well we succeed in keeping up with our competitors.

Suggestions Earn \$1175 In May

- \$162 — William Roberts, Casting
- \$134 (Partial) — Frank LaChance, Forging Production Office
- \$102 — Richard Stack, Pipe Shop
- \$88 — Frank Kontout, Cosmetic Tool
- \$82 — Stephen Ponzillo, East Mach.
- \$73 — Michael Guzzardi, Transmission Assembly
- \$72 — Gilbert Bouchard, New Milford
- \$58 — William Bellemare, Multiple Spindle Screw Machines
- \$14 — Marie Wrzasek, Closure Shipping Clerks & Stores

\$60.00 Awards

- Walter Tundryk, Rod Mill (Partial)
- Joseph Destefano, Rod Mill (Partial)
- D. F. Sullivan, Rod Mill

- Lawrence Wright, Transportation

\$30.00 Awards

- Anthony Carter, Rod Mill
- Frederick Trotman, Rod Mill
- Andrew Lastra, Button Attaching

Hose Assembly Plant

(Continued from Page 1, Col. 3)

applications has caused the Company to undertake this major addition of production capacity for the manufacture of such assemblies.

"This expansion has been planned to keep pace with the rapidly growing use of air conditioning and hydraulic hose assemblies," said Mr. Burnett. "This year more than half of all new automobiles will have air conditioning and such installations are expected to grow to more than 75 percent in three to five years."

Initial plans call for a 50 percent increase in the company's over-all production capacity of automotive air conditioning hose lines as well as hydraulic lines for power steering and similar control purposes. It is expected that the newly established plant will employ about 100 people within several months following its opening.

Thomas J. Nagle, manager of General Hose and Coupling, will have overall supervision of both the Caldwell and the new Hebron operations. Production is scheduled to start this month.

Other automotive products made by Scovill include Schrader tire valves and accessories, vacuum motors, control systems, decorative trim and a large variety of miscellaneous components.

SCOVILL APPRENTICES IN METAL TRADES COMPETITION. Closure Div. Factory Supt. John Humiston and Apprentice Philip Valaitis discuss trade book, one of the prizes given to each finalist, and Supervisor of Apprentices Thomas McLennan congratulates Apprentice Thomas Chatfield with General Products Div. Tool Supt. Lee Krake looking on. Back row are: Gripper Eyelet Foreman Patrick Tarullo and General Products Tool Room Foreman Harold Henricksen.

Special Bonus To Outstanding Apprentices

Thomas E. Chatfield and Philip Valaitis, apprentice toolmakers, were presented a special bonus by the Company in the form of \$100 worth of tools, in recognition of their standings in the recent Metal Trades Apprentice Competition.

This annual metal trades competition is sponsored by various tool, die and precision machine associations, the Manufacturers' Association of Con-

necticut, the State Dept. of Education, the U.S. Dept. of Labor Bureau of Apprenticeship, the State Labor Dept. Division of Apprenticeship, and the American Society of Tool and Manufacturing Engineers.

Approximately 500 apprentices in the state engaged in machine tool and metals training who are in the senior phase of their training participated in the competition. To qualify, apprentices must be in the top third of all taking a written examination, followed by a Work Performance Test for the finalists.

Two Scovill apprentices — Thomas Chatfield of the General Products Tool Room and Philip Valaitis of the Gripper Eyelet Tool Dept. — passed both phases of the testing and rated among the 40 finalists in the competition.

They were awarded recognition prizes at an Awards and Recognition Dinner held on May 12, 1969 at Les Shaw's Restaurant, New Haven.

New Assignments

General Products Div.

JOHN E. ANDERSON — Supervisor, Balance Sheet Accounting

WALTER B. CAMPBELL — Manager, Schrader Automotive Products located at Dickson, Tennessee

STANLEY A. FRIEDMAN — Manager, Planning and Business Development

ALFRED M. NORTHROP — Supervisor, Inventory and Income Acctng.

PIERRE SAVAGE — Supervisor of Dept. 7, Screw Machine and Chuckers, Fuze "C"

SYLVESTER WOODHOUSE — Supervisor of Dept. 68, Building Service, Fuze "C"

Mill Products Div.

JOHN M. SHULL — Quality Assurance Engineer, assigned to the Continuous Strip Mill

Pre-Vacation Blood Donor Day

This year's annual pre-vacation employee blood donor day is set for Tuesday, June 24th, at the air conditioned SERA Building, starting at 11:00 a.m. and running until 5:00 p.m.

While employees from the General Products are scheduled for this second visitation of the Blood Mobile Unit to the plant, it is hoped that all eligible employees will participate.

When making up your check list for things to be done before going off on vacation—won't you please add to it a trip to the SERA on the 24th to donate a pint of blood? In case of any emergency or illness where blood might be needed you'll want to be sure it's available at the hospital.

Training Course

Toolmaker. Walter Zembrzuski was graduated as a toolmaker as of May 5, 1969. He has been assigned to the Screw Machine Tool Room.

Ladders Can Cause Serious Accidents

Statistics show that ladders were the cause of 40,000 accidents in the country last year. Here at Scovill, ladders are used by all our maintenance departments. Every effort is made to maintain these ladders in the same condition as when purchased.

When purchased, they are inspected for conformity to the safety code set by the USA Standards Institute to provide reasonable safety for life, limb and property. Wooden ladders are coated with shellac in order to see any defects or cracks in the rungs or side beams.

When a ladder is assigned to a department, it is up to that department to observe the safety rules in the storage, care and use of it. However, during routine inspection, our Safety Dept. has found infractions of the rules.

To insure safety and serviceability, the following precautions must be observed at all times:—

Ladders should be maintained in good condition at all times.

They should be stored in such a manner so as to provide ease of access and to prevent danger of accident when withdrawing ladder for use.

Wooden ladders should not be stored near radiators, stoves, steampipes or places subjected to excessive heat or danger.

They should be inspected frequently and those which have developed defects should be destroyed and replaced with a new ladder.

They should be kept free of grease and oil.

If you see any ladders that are unsafe to use, notify your foreman — if you have an questions, call the Safety Dept., Ext. 888.

Don't try to patch-up ladders!

WEAK RUNGS, PATCHY REPAIRS CAN CAUSE SERIOUS ACCIDENTS

A not-so-careful worker stepping on this weak rung could have been thrown off balance, struck his head on a higher rung of this old ladder, and suffered possible serious injury. (Right) this patchwork job will, sooner or later, lead to the same trouble. Report to your foreman all ladders needing repair or replacement. Don't try any "do-it-yourself" repair work.

Emergency Reflectors Available

What better opportunity could a photographer ask for? Out on assignment with "Red" Crispino of the Safety Dept. to demonstrate the proper use of a new Emergency Triangle Reflector, our photographer John Smith arrived at just the right moment as Mrs. Monica Regan pulled off the highway with a flat tire.

They stopped, explained the situation and Mrs. Regan was happy to help with the assignment. In the picture she is setting the reflector close to the car for the photographer's pur-

pose but, actually, the reflector best serves its purpose of warning when set behind the car at least 20 feet and closer to the shoulder of the road.

The reflectors, in a dual carrying case, are now being made available to employees through the Safety Dept., Bldg. 150-2. Cost will depend on the number of requests. An order of up to 250 will set the price at \$1.65; If from 251 to 1,000 are ordered, cost will be lowered to \$1.55; and if more than 1,001 are ordered, the price will be \$1.50; plus tax in each case.

EMERGENCY TRIANGLE REFLECTOR. *Mrs. Monica Regan, local nurse, sets up an Emergency Reflector along the highway to warn oncoming cars before preparing to fix a tire which went flat as she travelled the busy thoroughfare.*

To: Joe Proulx Safety Dept.
I would like to order Emergency Triangle Reflectors.
Name
Department

Your Social Security

A record \$2,255,000 in monthly social security benefits was being paid to residents of the greater Waterbury area at the end of December, 1968, an increase of 2.5 percent above the amount payable at the end of February, 1968, according to Ernest D. Bauer, district manager of the Waterbury Social Security Office.

In the greater Waterbury area, 3,905 people under 60 are receiving benefits. That figure breaks down into 2,008 under 18; 477 in age group 18-21; and 1,420 in age group 22-59.

Many students would have been unable to continue their education were it not for the 1965 amendments to the Social Security Act which extended survivors and dependents insurance benefits to students until their 22nd birthdays. In 1968, that provision resulted in continuing benefits for 470,000 students throughout the country.

Monthly payments to the family of a worker who dies leaving a widow and two or more children range from \$82.50 to \$434.40, depending on the worker's average earnings under social security. Payments to the young family of a worker who dies at an early age could total as much as \$85,000 to \$100,000.

Mr. Bauer notes that by the end of 1968, approximately 90 percent of Americans 65 and over were either receiving cash benefits or would have been eligible for such benefits if they or their spouses had not been working.

In terms of Medicare, almost all people in the country 65 or over are

CLOSURE PACKING FETES HELEN JACOVINO. A token of remembrance and a delicious cake were part of the festivities at the sendoff given Helen Jacovino who retired on May 1st after more than 22 years of Scovill service.

Rod & Gun Club

By Vin Manzolli

The May meeting, scheduled for Woodtick, had to be held in the SERA because of heavy rain. Those present, however, expressed the desire to hold a cook-out meeting in June, come rain or shine. So it will be on the 17th at 5:30 p.m.

We've had both good and bad reports from some of our members regarding the fishing in our area as well as in distant areas. R. Dionne, J. Pietrzak and S. Jacovitch, winners of the recent R & G fishing competition, say the fishing at Woodtick is good while J. Aureli, A. Rempler, F. Angelone, A. Chiasulo and others say it's bad.

eligible for hospital insurance benefits. Likewise, 96 percent of all older persons in the country have elected coverage under the voluntary supplementary medical insurance plan which pays physicians' fees.

Fred Kirschbaum, Bob Pierson, Dom Cherubini and Lou Quatrocchi spent a week fishing for walleyes at River Edge, Otter River, Vermont, with very little success; while Vin LoCurto, Ray Curtis, Dom LaBonte and Pete Bleau came back from the same place just loaded down with fish. In fact, a record 10-lb. walleye was caught while they were there.

Ray Kasidas will vouch for the trout fishing at Lakeville as he hooked onto an 18"-er among others.

Tom Kaukas and Charlie Rimkus say the fishing is poor everywhere (what kind of bait are you using, boys?)

Our salt water fishermen have also had good and bad days. Walt Boncal had exceptionally fine luck fishing for cod off Point Judith, R.I. as did Howie Laire and Basil Bezubly while Al Kamens, together with sports writer Dick Kandler had no success at all fishing for stripers.

Jack Brade continually boasts of his catches of blues and flats to the point where his co-workers are demanding proof. (It would seem Jack tends to stretch the truth a little).

Since the summer is almost here, a sight you can expect to see at Woodtick from now on: Mrs. John Engratt and Mrs. John Matalunas rowing the boats while their husbands do the fishing. (You fellows really have it made!)

We wish Harvey Giese success with his second meeting for Pistol shooters. Harvey hopes to have 5 to 6 teams for fall competition.

May we extend a warm welcome to Steve McGuire who is back with Fred Wilson and SERA. Steve has been of great help to R & G in the past, and will be called upon in the future. We certainly appreciate your efforts, Steve.

As there will be no R & G meeting in July and August, let's hear from you fishermen this summer. If you have record catches, let's get it into the BULLETIN. Call me at 782. The publicity will do you good. (No exaggerations, please)

Our summer outing is scheduled for August; flyers will be sent out.

C. Rietdyke Receives Liberty Bell Award

Charles Rietdyke accepts "Liberty Bell Award" from Superior Court Judge Raymond J. Devlin. Atty. Elliott Labovitz (center) was chairman of Law Day activities sponsored by the Waterbury Bar Association.

Atty. Elliott Labovitz, at special ceremonies held in the Superior Court in observance of Law Day, USA, noted that Mr. Rietdyke was selected for this award — only the third such award to be presented in Waterbury — for his exceptional civic service.

Mr. Rietdyke was serving as an assistant to the Employee Relations Director when retired in March, 1968.

EAST MACHINE HAS LATEST IN ROLL GRINDERS
 Most pleased with their newest roll grinding machine are Fred Angelone (left) supervisor in Roll Grinding Dept.

and operator Anthony Palulis. They say it is most convenient to work with and also most accurate in meeting tolerances required for Aluminum and Strip mills work rolls.

New Roll Grinder Tops In Performance

The new Farrel roll grinder recently installed in the Roll Grinding section of the East Machine Room is used in grinding rolls for the Aluminum and Strip mills which require super finish and extreme accuracy.

Equipped with the latest devices, the grinder will take rolls 36" in diameter and 14' long and is more versatile in handling various sized rolls and can hold tolerances to within .0001 of an inch.

Costing \$325,000, the new grinder replaces one which was in service for approximately 40 years.

An added feature, installed with the new grinder, is the Vantrol magnetic separator which separates the grinding fines from the coolant. The fines are then deposited on a magnetized conveyor belt which drops them into a barrel automatically, thereby making it unnecessary for the operator to stop to remove them. It is the only such separator to be known to be so used.

Golf Outing

Winners in the annual SERA Golf Outing, held on May 24th, at the Southington Country Club were:—

- Low Gross—Ray Zubrick, 78
- 1st Kickers—William Buinauskas
- Lucky Kickers—Doug Kirk
- 2nd Kickers—Tom Conley
- Surprise Kickers—Lou Smader
- 3rd Kickers—Buzz Clifford
- Final Draw—Joe Greff

Retired Folks' Club

Annual June Picnic

Thursday, June 12th is the date set for the annual spring picnic for the retired employees of the Waterbury (including New Milford) and Oakville divisions to be held at Woodtick.

Members, together with their husbands and wives, will meet at the SERA Building, corner East Main and Mill streets, at 1:30 p.m. and will be driven to the Woodtick Picnic Area.

Those who may be driving and will pass the SERA Building on the way out are asked to stop and take some of the others along. Transportation will be available for all.

In case of inclement weather, a program will be held at the SERA.

New York Bus Trip

On Tuesday, July 29th, members of the Retired Folks' Club will take a bus trip to New York with a cruise around Circle Island. Reservations must be in to the Employee Activities office by Friday, June 27th.

EDWARD NORFLEET left for service with the U.S. Army on May 8, 1969. An operator on Screw Machine, hand, chuck or bar work, he had been in Scovill since December, 1968.

MAURICE ROOKS left for service with the U.S. Army on May 2, 1969. An adjuster on Kingsbury Machines in Fuze C, he had been in Scovill since July, 1966.

BRUCE TOMLINSON left for service with the U.S. Army on May 3, 1969. A floorman in Building Service, Fuze C, he came to Scovill in September, 1968.

DOUGLAS KIRK left for military service on May 16, 1969. A purveyor in the Contract Production Division, he had been in Scovill since June, 1967.

Obituaries

IRVING HOLIHAN died on May 11, 1969. Retired, Model Room in November 1958—52 years' service.

GEORGE MARTINKUS died on May 14, 1969. Retired, Casting Shop in July, 1958—25 years.

PAULINE MYKUS died on May 20, 1969. Retired, Chucking Dept. in December, 1957—38 years.

ERNEST CRAIG died on May 18, 1969. Retired, Casting Shop in July, 1964—20 years.

FEDELE POLZELLA died on May 24, 1969. Retired, Drawing Room in January, 1965—20 years.

FELIX GROCHOWSKI died on May 25, 1969. Retired, Automatic Screw Machines in August, 1958—29 years.

HELEN PETERS died on May 26, 1969. Retired, Tank Fitting Assembly in July, 1961 — 28 years.

JOSEPH CLEAR died on May 27, 1969. Retired, Plant Protection in January, 1955 — 12 years.

1969 RIFLE CHAMPS. *Members of the General Products Tool Rifle Team were declared winners of the 1969 Departmental Rifle League championship. Employee Activities Manager Fred Wilson (3rd, left) and SERA Executive Officer Charles Carpentier (5th, left) presented the trophies. Team members are: Peter Koban, Harvey Giese, Captain Wayne Fleming, Harold Henricksen and Tom DeLeon.*

Woodtick Open For Season

Woodtick recreation areas were opened officially for the 24th season with the Memorial Day weekend. Much work has been done to prepare the area and its facilities for employees and their families this summer.

A new horseshoe and bocci facility has been completed at the Picnic Area. Three sets of horseshoe pits and bocci court are located in the back of the ball diamond in left field with a division of trees which have been left for safety purposes. Picnic tables and facilities are available for picnicking if

the participants wish to take their family for an evening or weekend outing. A league is being organized in both horseshoes and bocci. If interested in either of these activities, call the Employee Activities Office, Ext. 834.

Children's Day Camp — the 22nd season of the Camp will start on June 30th and will continue through August. Brochures and applications are available at the Employee Activities Office. Children and grandchildren of Scovill employees eligible: girls 6 thru 10 years of age; boys 6 thru 12 years.

Retirements

LAWRENCE GUDREAU, scarifier machine operator in the Sanitation Dept., retired as of May 1, 1969 with 15.7 years of service.

HENRY YOUNG, bander-packer in the Aluminum Mill, retired as of May 19, 1969 with 43 years of service.

NICOLA FUSCO, crane operator in the Strip Mill, retired as of May 26, 1969 with 32 years' service.

Effective June 1, 1969

ALFRED AUSTIN, caster's helper in Casting — 23.6 years' service.

LEO BOUCHER, bander-packer in the Aluminum Mill — 36 years' service.

THOMAS LAHEY, Assistant Foreman, 2nd shift, of the Rack and Barrel Plating rooms, Dip Room, Wet Rolling and Aluminum Finishing departments — 50 years' service.

GERTRUDE LINDSAY, racker — unracker in Aluminum Finishing — 17.4 years of service.

RAMADAN SALI, pump man in the Steam Dept. — 17.5 years' service.

SUSAN SANDULLI, miscellaneous presses and bench fixtures operator in Fuze C Assembly — 28.7 years.

CATHERINE SUMMA, miscellaneous presses and bench operator in Press 2 — 48 years' service.

MICHAEL TESTA, truck driver in Transportation — 36 years' service.

FUTURE ENGINEERS TOUR PLANT. *Thirty-one members of the senior class at Kaynor Regional Technical School visited departments in our Closure and General Products divisions recently. Accompanied by instructors Nicholas Augelli, Cornelius Creem and Robert Sutton, the future tool and mechanical engineers wound up their tour in the Company's display room where they viewed products of the*

various Scovill divisions and subsidiaries and had their questions answered by their guides who included: John Humiston, Joseph Scarpati, Richard Woodacre and Nicholas Kobanow of the Closure Division; James O'Neill, Tom O'Dea, Leslie Hawley and Walter Dziura of General Products. Arrangements for the tour were made by Scovill Supervisor of Apprentices Thomas McLellan.

Child or children—to take care of in my own home, 7 to 3 p.m. or 3 to 11 p.m. 757-8266 after 3:30 p.m.

Mills Open House Wednesday, June 11

Facilities of the Mill Products Division will be open on Wednesday June 11th, from 9:00 a.m. to 6:00 p.m. to Scovill employees, their families and friends and all other residents of the Waterbury area.

Women are cautioned to wear low-heeled walking shoes. Also for safety reasons, children under high school age cannot be permitted to make the tour. Do not bring cameras.

As there are no parking facilities available at the mills, *all visitors are requested not to drive to the plant.* A free bus shuttle service has been arranged between the Mills and the Colonial Plaza. You may park your car at the rear of the Metropolitan Insurance Company building at the Colonial Plaza, Thomaston Avenue. The first bus will leave the plaza at 9:00 a.m. for the mills; the last bus leaves the plaza at 4:30 p.m.
