Alcohol and Drug Program Seminar

Above:— John King, director of Public Affairs, Alcohol and Drug Dependence Div., State Mental Health (left) and Mrs. Olive Sheehan, Conn. State Employment Service, chat with Charles Rietdyke and Dr. R.W. Butler, originators of the Scovill program, together with Wes Irvine, Director of

Scovill And It's ADPP

Back in 1954 Scovill management, which always has been unusually interested in the physical, emotional, economic and sociological welfare of its employees, recognized that a definite need for an Alcohol and Drug Procedure Program existed.

After careful study and evaluation of existing programs, and with the counsel and advice of Yale's Summer School of Alcohol Studies, a program tailored to Scovill's own distinctive needs was developed by our supervisory training groups and was adopted by Management in February, 1955. The program, as are all other employee benefit programs, has the full cooperation of Local 1604 UAW.

A seminar was held at the SERA last month, under the guidance of the program's director Roger Rose, Human Relations Counselor, to acquaint Management personnel and Union stewards with the program and learn how to initiate its many benefits.

ADPP is available on a strictly voluntary basis to all Scovill employees and members of their families. Counseling is available around-the-clock and on-the-spot. A call to Mr. Rose, Main Hospital, will bring assistance at any hour of the day or night.

High Watch Farm, who has worked closely with the Scovill program since its inception.

Right:— Human Relations Counselor Roger Rose presents new brochure on Scovill ADPP to Board Chairman Malcolm Baldrige and Scovill Local 1604 UAW president Thomas Curtin.

Let's Make A Suggestive Deal

Final date for submission of suggestions is Friday, June 18th. Drawing for five prizes will be held on Thursday, June 24th at the SERA at 3:15 p.m.

Gillette Quality Award to Mill Products Division

Strip Mill Superintendent James Hoben and Divisional Steward Ray DiTota approve Award of Certification from Gillette Safety Razor Company which "certifies that Scovill Mfg. Co., having been found to excel in their manufacturing and process quality control, is hereby designated a CERTIFIED SUPPLIER OF BRASS STRIP. This acknowledges the trust placed in this supplier to consistently deliver a product to the exacting standards set by Gillette."

Onlookers are: Leamous Felton, Gabe Riccio, Joseph Lokis, Foreman Alfred Smith, William Canady and William Kovach.

MEMO *from Management:*

A New Skyline

When our plants reopen following the July vacation period, Waterbury will have a new, much improved skyline. Smokestacks that for many years have towered over our casting shops will be gone.

This will be one very visible step forward in Scovill's \$6 million program to make Waterbury a healthier, more pleasant city by helping to control the discharge of waste products and pollutants.

These stacks were responsible for two major contaminants: zinc oxide and black smoke. A new filtering system, when completed this fall, will remove 99.8 percent of the zinc oxide, and our just-installed chip dryer burns the oil off scrap brass chips before they go to the melting furnaces, thus eliminating the black smoke.

Brass mill operations also produce liquid pollutants, acid waste from the cleaning and plating of metals, and oily waste from lubricants used in metal forming operations.

The State has approved our highly complex plans for liquid waste treatment facilities, which means that by fall of next year, we'll be putting water back into the river that will be just as clean, or even cleaner than the water we take out.

All of this new equipment will cost Scovill \$300,000 a year to operate and maintain in addition to the \$6 million price tag. We are happy to do this to help make Waterbury a better place to live. However, the responsibility for clean water, clean air and clean land is not just one company's—or one city's—or one man's—it is everybody's business.

Buy U. S. Savings Bonds

The annual in-plant drive, giving employees an opportunity to increase their savings through the purchase of U.S. Savings Bonds or to start systematic program of savings, is being conducted this month.

Department foremen and stewards will attend a meeting in the SERA on Tuesday, June 8th, when a U.S. Treasury representative will outline the program and provide informational material for employee solicitation.

Savings Bonds Maturity Extended

Secretary of the Treasury John B. Connally has announced extensions of maturity for older Series E and H Savings Bonds and Freedom Shares. Thus, all outstanding Savings Bonds

and Freedom Shares, regardless of age, will continue to earn interest:—

1) Series E Bonds purchased from May 1941 thru April 1952 have been granted a third and final 10-year extension,

2) Series E Bonds issued from May 1952 thru January 1957, and Series H Bonds issued from June 1952 thru January 1957, have been granted a second 10-year extension,

3) U.S. Savings Notes—known as Freedom Shares—have been granted a 10-year extension beyond their initial 4½ year maturity,

4) The interest rate for Savings Bonds and Freedom Shares in the extension period will be the rate prevailing at the time they enter extension. The current rate for Bonds entering an extension is a flat 5½ percent.

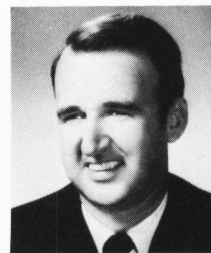

Scovill ADPP

(Continued from Page 1, Col. 1)

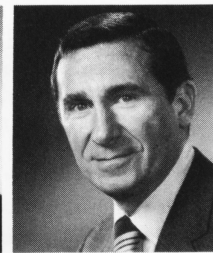

While the Scovill program has received little publicity locally, it has been written up in national and state agencies' publications and inquiries on how to set up similar programs have been many. A letter of congratulation received from the State Dept. of Mental Health, Alcohol and Drug Dependence Division, notes:—

"It is truly one of the most realistic, forward-looking industrial programs on alcoholism in Connecticut, if not the entire country. The total cooperation of Scovill management and labor together not only made this program possible, but highly effective by all standards."

New Assignments

W. B. CAMPBELL
Vice Pres.-Gen. Mgr.
Schrader Automotive
Products Div.

J. A. RANKIN
Vice Pres.
Gen. Mgr.
NuTone Div.

Employee Relations

THOMAS V. McLENNAN — Asst. Employment Manager

General Products Div.

ALFRED SILBERT—Material Control Manager of Dept. 688, Vernatherm Production

C. W. WRIGHT — Product Sales Manager, Vernatherm Product Line

STEPHEN ZASIMOVICH — Foreman, Dept. 47, Vernatherm Assembly

Mill Products Div.

ROBERT W. LAZENBY — District Manager, Memphis Office

BERNARD P. MURRAY—Asst. Product Manager, Tube

WILLIAM J. NEUENSCHWANDER—Manager, National Accounts

HERBERT J. SANDERS — District Manager, Cleveland Office

25 yrs—May 29

Vacation Shutdown

The Waterbury Divisions and Services will close for vacation starting Monday, July 5th, and will reopen with the start of the first shift on Monday, July 19th. Exceptions will be by notification in departments or to individual employees.

Service Awards

- Howard Dowd**, Attaching Machine
40 years—May 4, 1971
- Levine Brown**, Gripper Eyelet Tool
25 years—April 10, 1971
- Hyland Fehrs**, Steam Dept.
25 years—April 15, 1971
- Anna O'Shea**, Automotive Assembly
25 years—April 18, 1971
- George O'Meara**, Mill Accounting
25 years—April 22, 1971
- Victoria Rocha**, Gen. Qual. Cont.
25 years—April 26, 1971
- Samuel Danzieri**, Gen. Prod. Gauge
25 years—April 29, 1971
- John Gale**, Sanitation Department
25 years—April 29, 1971
- John Mongillo**, Gen. Qual. Cont.
25 years—April 30, 1971
- Steven Zainc**, Steam Department
25 years—May 6, 1971
- Clarence Griffith**, Rod Mill
25 years—May 20, 1971
- Bronis Zakarauskas**, Rod Mill
25 years—May 25, 1971
- Nelson Geer, Jr.**, Box Shop
25 years—May 27, 1971
- Ralph E. Moore**, New Milford
10 years—April 10, 1971
- Robert Bacon**, Fuze Dept. #3
10 years—April 15, 1971
- George Moore**, New Milford
10 years—April 17, 1971
- John Burbank**, Zipper Engineering
10 years—May 5, 1971

- Martin Ruopp**, New Milford
10 years—May 11, 1971
- Henry Flanagan**, Chucking
10 years—May 14, 1971
- Lawrence Rumble**, New Milford
10 years—May 22, 1971
- Doris Yashenko**, Data Processing
10 years—May 29, 1971

Check Withholding -- Tax Exemptions

Due to a new law changing the withholding system, some workers will find their withholdings insufficient to cover the tax due at the end of 1971.

Withholding has been reduced for nearly all employees because the standard deduction has been increased from 10 to 13 percent. Among those most likely to need more withholding are:

- a) Employees who earn more than \$11,500 and claim the \$1500 standard deduction or itemize deductions totalling less than 13 percent of salary,
- b) Single employees who earn \$15,000 or more in 1971,
- c) Married employees who earn \$25,000 or more, with spouse not employed,
- d) All working couples.

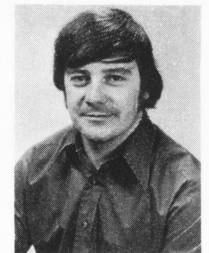

If you find that you need more withholding, you should file a new exemption certificate (Form W-4) with the Payroll Dept. and claim fewer exemptions or ask for additional dollar amounts of withholding.

Training Course

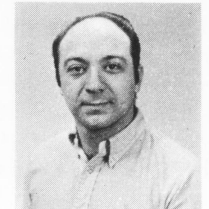

TOOLMAKER. Nelson Boulanger was graduated as a Toolmaker as of April 26th and has been assigned to the Closure Tool & Machine Room.

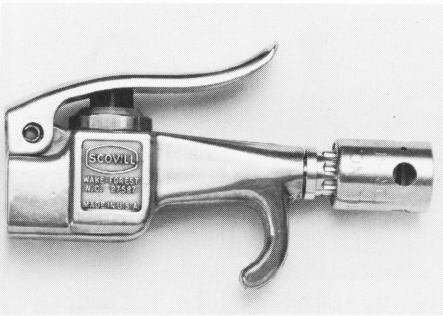

ELECTRICIAN. Jeremiah Shea was graduated as an electrician as of May 10th, and has been assigned to Electrical Maintenance—East Plant.

ELECTRICIAN. Charles Summa was graduated as an Electrician as of May 3rd and has been assigned to Electrical Maintenance—East Plant.

Left:—James Pape, Pipe Shop, demonstrates use of a new special blowgun nozzle that absorbs noise while maintaining performance levels when the compressed air gun is used. It is made at our Fluid Power Division in Wake Forest, North Carolina.

Golden Silence Seen In Future

Silence will be golden in the '70s for makers of industrial noise-suppression equipment, predicts William F. Andrews, Jr., general manager of our Fluid Power Division at Wake Forest, North Carolina.

The estimated \$100 million business now has the potential to grow to the billion-dollar annual level by the end of the decade, he predicts.

Stimulating this ten-fold growth, along with public and legislative pressure, will be a massive effort by the nation's industries to eliminate or significantly reduce industrial noise that is damaging the health and well-being of production employees.

"Significant contributors to industrial noise pollution are the compressed air systems that make possible production line automation. The same firms that produce these automation facilities, those experienced in pneumatic-hydraulic engineering, should be expected to take the leadership in

developing antidotes to the noise produced by their equipment", says Mr. Andrews.

As an example, he notes, Scovill, which makes valves, cylinders and other pneumatic-hydraulic devices for the air control field, has developed a special blowgun aspirator nozzle that absorbs noise while maintaining performance levels when the compressed air gun is used.

Such devices now must fall within the limits set by the Walsh-Healey Act that was enacted to protect workers against the health and emotional problems caused by excessive noise exposure. "and," notes Mr. Andrews, "our new blow gun nozzle more than meets the standards set by the Act for plant noise and pressure which are usually considered more of an occupational hazard than a pollution problem."

Girls' Club News

By Irene Owens

Our 50th annual banquet is now a memory, but all who went appeared to have an enjoyable time. 130 members and 91 retirees attended the dinner, held at Waverly Inn on May 16th. Honored guests were: Mrs. George Goss, Sr. (who celebrated a birthday previously and was wished well by all), Mr. and Mrs. George Goss, Jr., Mr. and Mrs. George Young, Mr. and Mrs. Wayne Johnson, Rev. and Mrs. Benjamin Hammond.

Guest speaker, Mrs. Barbara Dunn, Commissioner of the Dept. of Consumer Protection for the State of Connecticut, was a most delightful, interesting and informative speaker on today's consumer problems.

We have a new Council (see photo on page 7) who are at work already lining up trips for the near future.

New members are always welcome in the Club. If you are not a member now (ladies, natch) contact any one of the Council members. They'll be most happy to give you an application.

The death of Ogden Nash has brought out publication of some of his humorous verses. Usually first with comments on change in fashions, his latest was: "Sure, deck your limbs in sloppy pants, They are your limbs, my sweetening! You look divine as you advance, Have you seen yourself retreating?"

Have a glorious vacation!

Dennis M. Hayes, Estimator in General Products Tool Supt. Ofc., left for military service on March 26, 1971. He had been in Scovill since August, 1966.

Donato DiVirgilio, Floorman in Closing, left for service in the U.S. Army on April 30, 1971. He had been in Scovill since July 1969.

Wire Mill Sets Safety Record

Wire Mill employees were recently awarded a "Certificate of Merit" by the Liberty Mutual Insurance Company for their excellent safety record.

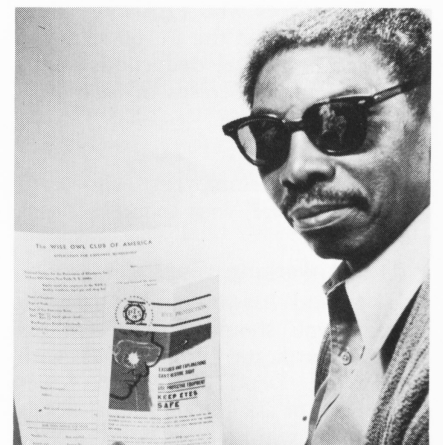

Presented by Albert Warner, Loss Prevention Account Representative of Liberty Mutual, the award pays tribute to the employees who set a record of working 500,000 hours without a single disabling accident during the period of January 17, 1968 to December 1, 1970. To date, this fine record remains unbroken.

Scovill Wise Owl No. 32

Medford Williams (right) is the 32nd employee to become eligible for membership in the Scovill Wise Owl Club because he was wearing his safety glasses when involved in an incident in the Casting Shop.

As he was charging a furnace, a splash occurred causing hot metal to blow out of the furnace, striking him in the facial area and splashing the lenses of his safety glasses.

Mr. Williams is grateful for the rule to wear safety glasses on his job as he can well imagine the serious damage to both eyes if he had not been wearing them at the time.

Scovill Buys Vernatherm Line

The Vernatherm line of high force thermostatic actuators has been purchased by Scovill from American Standard, Inc. of Pittsburgh, Pa.

As our General Products Division makes parts, assemblies and finished products for many industries as well as our own products; such as Schrader tire valves and Scovill automotive and industrial hose assemblies, adding the Vernatherm line is a natural fit with our manufacturing capabilities and marketing experience.

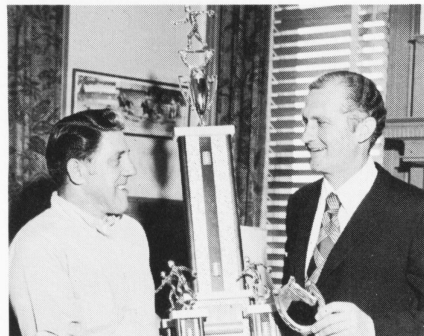

The Vernatherm line will be made in Waterbury. Production equipment has been moved from the plant in Pittsburgh, is set up and ready for operation. It is estimated that production will be well underway by mid-June, with employment of approximately 70 persons within a year.

Credit Unions

Scovill Employee Credit Unions will not operate during the vacation shutdown period.

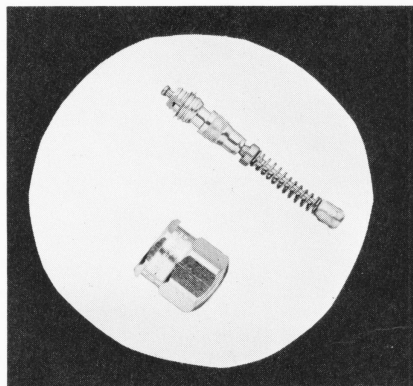

Loan applications must be in by noon on Wednesday, June 30th; pass-books will be returned July 22nd. Please plan deposits and withdrawals by noon on Friday, July 2nd.

Credit Union #4 has become an authorized agent for Connecticut Student loans for any students whose parents are members of this credit union. Deadline for applications for the fall term is September 1st. Information and application kits are available. Please call Ext. 2419.

A Near Perfect Score

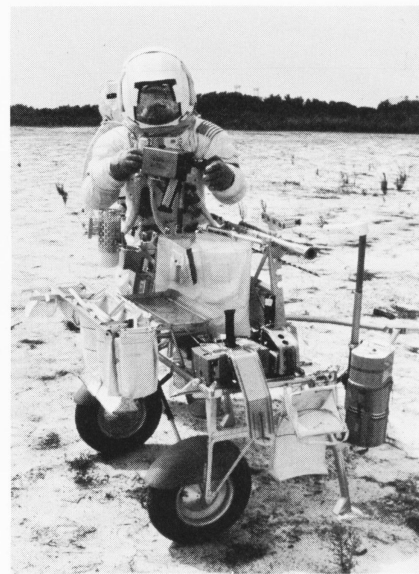

Dan Ferrare, Gripper Eyelet, shows Chairman Malcolm Baldrige king-sized trophy he was awarded by the Wolcott Lanes for his near perfect score of 297, just three pins shy of a perfect 300 bowling game. While he agrees Dan has done pretty well on his own, Chairman Malcolm Baldrige presented a "lucky horseshoe" to Dan to keep it up.

Yes, We're On The Moon!

Above:— Standard Schrader Tire Valve parts identical to those used on the moon cart that helped the Apollo 14 crew in rock gathering expeditions.

Right:— Astronaut Alan B. Shepard, Jr., Apollo 14 prime crew commander, wearing an Extravehicular Mobility Unit (EMU) is pictured with the Modular Equipment Transporter (MET) during an EVA simulation at Kennedy Space Center. Camera equipment, Apollo lunar handtools and other paraphernalia are carried on the MET, which serves as a mobile workbench. (UPI photo)

14-cent Products Moon Walk Necessities

In the midst of the billions of dollars and sophisticated equipment required to put the Apollo 14 crew on the moon were two essential parts that cost NASA only 14 cents—and you could have bought something like them right out of the catalog 50 years ago—the Schrader valve caps and cores in the tires on the cart that the astronauts used during their moon sample gathering excursions.

The pressure-containing parts of this tiny assembly were made at the Scovill-Schrader Automotive Products Plant in Dickson, Tennessee and they are standard catalog products made by the millions for use throughout the world—and now on the moon!

The tire valve core and tire valve cap used in the valve assembly for the moon cart are essentially the same as the parts used in every type of pneumatic-tired vehicle. The valve parts used on the moon cart, however are generally used on aircraft and truck and bus tire valves because of their special heat resisting qualities.

The valve had an easy job up there. Instead of the 29-or-so pounds per square inch of earthly pressure needed for auto tires, the moon cart tires re-

quired only 1½ to 2 pounds. And the 60 or so pounds of loaded vehicle they supported on the moon would have weighed 360 pounds on earth. However, the valve parts did have to survive the drastic changes in moon temperatures—almost, +300°F.

Schrader is the world's largest producer of passenger car tire valves for both original equipment and replacement markets, as well as for all other vehicles of all categories. Even before automobiles, it pioneered in the development of tire valves for bicycles in the late 1880's and in the development of the first one-piece valve core in 1898.

Pre-Vacation Blood Donor Day-June 17

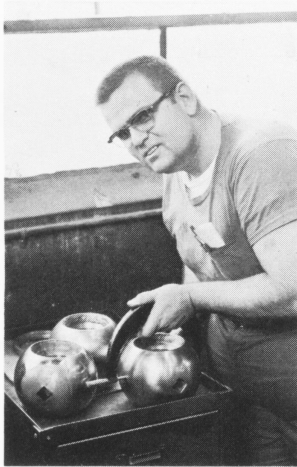

This year's Pre-vacation Special Blood Donor Day will be held on Thursday, June 17th, from 11:00 a.m. to 5:00 p.m. at the SERA.

While employees of the General Products Division are scheduled for this second visit of the year of the Blood Mobile Unit to the plant, it is hoped that all eligible employees will participate.

Remember—accidents or illness do not take a vacation. In case of emergency—it could happen to you or to a loved one—you'll want to be sure blood is available.

Scovill Group-AA

This group will continue to meet at the SERA during the vacation shutdown period.

\$359.00 to Alton Klobedanz, East Machine Room (left), for two suggestions: one paid \$288, the other \$71.

\$258 to Joseph Testa, Kingsbury Department (center).

\$173 to Patrick Cronin, East Machine Room (right).

Financial Seminar Held In Waterbury

Pictured below are the financial leaders of the Company's wide-spread divisions and subsidiaries who met in Waterbury for a 2-day seminar.

Conducted by Asst. Controller Lloyd George, the seminar is an annual event to review procedures and results of the past year and to set procedures for the coming year to provide Management with additional information as needed and to conform with any changes deemed advisable by Securities Exchange Commission recommendations.

Seated around the table, attendants are:— R. Bonnewell and J. Viol of Caradco; R. Makin, Lightcraft; H. Leesemann, NuTone; R. Dewhirst, Schrader Canada; B. Howell, Closures; G. Carroll, Aerosol & Cosmetic; Vice President-Finance Leonard Leganza; President Helies who addressed the group at the close of the conference: Asst. Controller Lloyd George; R.

Suggestion Awards

\$308 was the second and final payment to Frank LaChance, Forging Production, bringing his total award to \$442 for one suggestion. The initial payment of \$134 was made in May, 1969.

- \$65 — James Naylor, East Machine
- \$60 — Leonard Campoli, Transp.
- \$60 — Catherine Verrastro, Mill Acct.
- \$60—Richard Thurlow, New Milford Tube Mill Receiving & Warehouse

Langlais, Staylastic/Smith; F. Matunis, Bogene; M. Todt, Dominion; J. Evans, Hamilton Beach; H. Bell, Sterling; S. Goldsmith, Ajax; and L. Haverkamp, NuTone.

Also in attendance but out of range of the camera are: A.J. Giuffre and J. Formica, General Products; F.R. Collins, Automotive; P. Lapira, Oakville; L. Vane, Fluid Power; R. Heyniger, Mills; L.W. Bray, D.A. Richards and N.S. Powe, Corporate Staff.

Obituaries

Herbert Edelmann, retired, Mill Prod. Div. Jackson, Michigan Sales Office died March 21, 1971—36 years' service.

Concetta Coscia, retired, Closure Packing, died April 4, 1971—20 years.

John B. Goss died April 4, 1971. Retired, Secretary & Director of Planning, in January, 1955—27 years.

Charles Christiano died April 14, 1971. Retired, New Milford Tube Mill—37 years.

Mary Kasetaite died April 26, 1971. Retired, Lipstick Dept. in July, 1957—36 years.

Thomas J. Cronen died April 30, 1971. Retired, Casting Shop in April, 1960—40 years.

George Ashman died May 1, 1971. Retired, Closure Div. in July, 1963—22 years' service.

Raphael Continello died May 1, 1971. Retired, Blanking Room in January, 1956—33 years.

Eugene O'Connor died on May 4, 1971. Retired, Security Dept. in February, 1966—24 years.

James Laviana died May 5, 1971. Retired, Grinding Room in April, 1945—25 years.

James J. McCormack died May 8, 1971. Retired, Blacksmith Shop, in June, 1957—33 years.

Earl Odell died May 8, 1971. Retired, Addressograph, in August, 1959—48 years.

Alexander Zenick died May 11, 1971. Retired, Mfg. Eyelet Tool in November, 1970—34 years.

Florence Fischer died May 12, 1971. Retired, Packing B in September, 1952—38 years.

Joseph Bartuski died May 14, 1971. Retired, Screw Machine Packing, in April, 1970—35 years.

Laura Russell died May 13, 1971. Retired, Accounts Receivable, in March, 1945—28 years.

Leonard Borowy died May 14, 1971. Retired, Waterville Div. in October, 1950—20 years.

Muriel Blood died May 10, 1971. A checker in the Strip Mill—26 years.

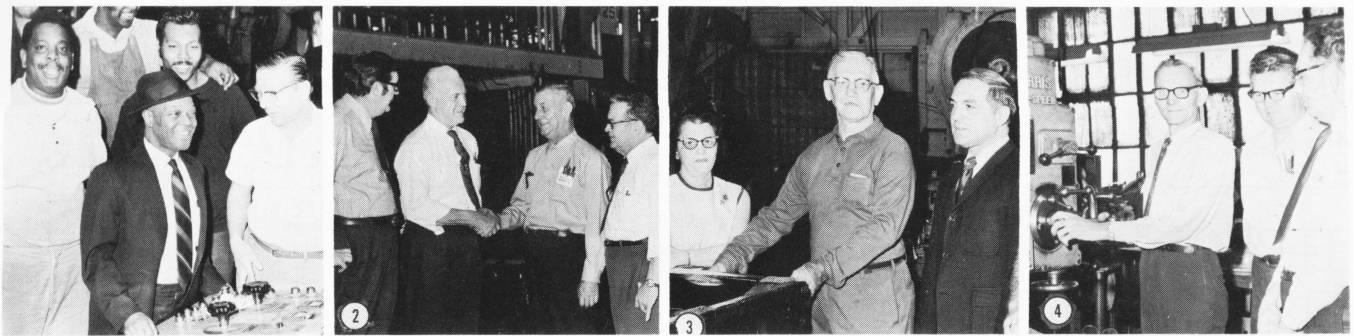

Gunnar Schlander died May 20, 1971. Retired, Forging Production, in April, 1956—49 years.

Controllers' Conference in Waterbury

Top financial personnel of all Scovill divisions and subsidiaries gathered in Waterbury recently for a 2-day

seminar to review year-end results of Company-wide operations and accounting procedures as well as working and capital expenditure controls for the coming year.

Retirees Receive Warm Send-off

- (1) Oliver Jones, Aluminum Mill — 43 years' service
- (2) Fred Davidson, Strip Mill — 40 years' service
- (3) Stanley Jurzyk, Blanking — 20.6 years' service
- (4) George Zemaitaitis, Closure Tool & Machine — 33 years' service
- (5) Simon Magnarella, Rod Mill — 43 years' service

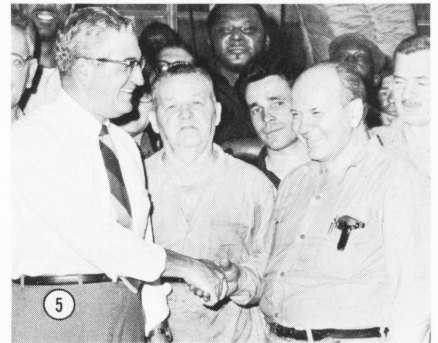

Retirements

Effective April 1, 1971

- Donald Bartlett, General Products Contract Sales—34 years' service.
- Frederick Davidson, Strip Mill—40 years' service.
- Lawrence Galvin, Security Dept.—21 years.
- Joseph Izzo, Aluminum Finish—39 years' service.
- Oliver Jones, Aluminum Mill—43 years' service.
- Stanley Jurzyk, Blanking — 20.6 years' service.
- Ramadan Licho, Screw Machine Tool—28.2 years.
- William Lyttle, Pipe Shop—30 years' service.
- Carleton Miles, Hot Forge—19.7 years' service.
- Gerald Miller, Repair Room—29.8 years' service.
- George Zemaitaitis, Closure Tool & Machine—33 years.

Effective May 1, 1971

- Clara Cantele, Fuze C—23.9 years.
- Margaret Flynn, Fuze C—40 years.
- Bertha Heidkamp, Fuze C—34 years.
- Elisa Lavado, Press Room—25.5 years' service.
- Howard McCabe, Rod Mill—36 years.
- Simon Magnarella, Rod Mill—43 years' service.
- Mary Makarewicz, Fuze C—40 years.
- Clarence W. Seeley, Mill Products Div., Cleveland, Ohio—32 years.
- Edward L. Stevens, Closure Division, Clarksville, Ga.—35 years.
- Mary Touma, Fuze C—43 years.
- Charles R. Wood, Strip Mill—14.4 years' service.

“Looking Forward To Retirement”

A new series of “Looking Forward to Retirement” programs will be started on September 15th.

Especially prepared for employees 55 years of age and over, the program provides authentic and dependable information needed to confidently plan and prepare for the leisure years.

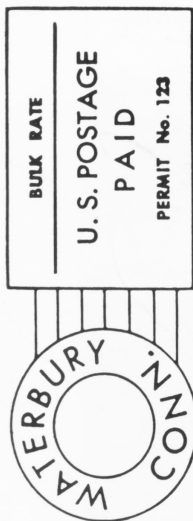

Recently retired employees and those planning retirement before the 8-week series ends are also invited.

Further information may be obtained from your foreman, steward, someone who has already taken the course, or by contacting Emil Howes, Employee Relations, Ext. 802. Full details will appear in August *BULLETIN*.
