

SCOVILL BULLETIN

Mar. -- Apr., 1972

Published by Scovill Manufacturing Company for its Employees

SCOVILL EMPLOYEES BUY BONDS. Board Chairman Malcolm Baldrige displays Award presented to Scovill by the U.S. Treasury, Savings Bonds Division, for the over 50% participation record set by Waterbury Divisions employees in the purchase of Savings Bonds in the 1971 drive. Mr. Charles Goodall, Area Manager, U.S. Savings Bonds Division, presented the award. Representing Local 1604 UAW was president Thomas Curtin.

1971 Annual Report

Our annual report for 1971 is being mailed to all stockholders. Employees who do not own stock but who want a copy of the report can have one by contacting the Bulletin Office.

Savings Bonds To Acquire New Look

The Department of the Treasury has announced that the Series E and Series H savings bonds have been redesigned. The redesign relates only to format and appearance and does not in any way affect the terms of any bonds of these series that are outstanding or currently on sale.

There is still an ample supply of bonds of the earlier design on hand, and they will be used before the "1972 design" bonds are distributed. As "E" bond stocks of individual assembly types and denominations are depleted, the new 1972 design bonds will be issued. This will be done automatically, with no special announcement at the time.

1972 Bond Drive

Employees will have an opportunity to sign up for the purchase of savings bonds through payroll deductions, or to increase their present deductions, during the annual drive which, this year, will be held beginning with the week of May 15th.

Scovill Releases Annual Report

The report of 1971 operations dramatically shows Scovill's transformation to mainly a consumer products company after having been best known as a manufacturer of industrial and brass mill products.

Chairman Malcolm Baldrige and president John C. Helies state, "Scovill has for nearly a decade been a company in transition, becoming a strong marketing organization after long concentration on engineering and manufacturing skills."

Analysis of the report shows that the housing products group increased its leadership as the Company's largest business, producing 30 per cent of overall sales and 43 per cent of the \$28,635,000 of last year's pre-tax profits.

They also noted the relative importance of the Company's other consumer products businesses: sewing notions and apparel fasteners, over 20

(Continued on Page 8, Column 2)

1972 Vacations

The Waterbury Divisions and Services will close for vacation starting Monday, July 3rd and will reopen with the start of the first shift on Monday, July 17th, 1972.

Exceptions to the above will be by notification in departments or to individual employees.

Employees entitled to more than two weeks of vacation and those required to work during the shutdown will be canvassed for their choice of time off. Such time off cannot seriously interfere with production or plant operations and must be taken in full calendar weeks. Hourly and piecework employees must take all vacation to which they are entitled.

In order that vacation pays can be prepared in advance of an employee's vacation, Central Accounting must have three weeks' notice prior to the start of vacation.

Employees who qualify will receive holiday pay for July 4th.

MEMO *from Management:*

Annual Report Time

This is the time of year for companies across the land to issue formal reports on their performance for the previous year. With thousands of reports flooding the mails, it is difficult for any one report to attract readership.

The answer? Make your report distinctive enough to attract attention—and easy to read and understand.

Our report for 1971 which is being distributed now is, to say the least, different. We believe that it is the first one to have a pop-up in its centerfold—a three-dimensional presentation of our principal consumer products. The cover shows a fictitious shopping center whose stores feature our wide diversity of consumer products.

There is more to an annual report than attractive graphics, however. It's the financial results that pay the bills and meet the payrolls. 1971 was a year of improvement for Scovill, with total sales up 6% and per share earnings up 15% over 1970.

The report summarizes the financial results for the Company as a whole and also shows the sales and pre-tax earnings for each of our six major product groups for the past five years. These latter figures show the important changes that have taken place in this period—changes that have increased our diversity to the point where consumer related products accounted for 74% of 1971 sales. This strength and diversity in major market areas is the theme of our 1971 Annual Report.

RETIREES AID "HIRE A VET" WEEK. Manning telephones in the old Planning Office for one week, 26 retired ladies volunteered to call businessmen in the area and ask them to pledge to hire at least one returned Vietnam-era veteran. Almost 600 companies were contacted during the week.

Sliding quite easily and naturally behind a telephone were:— Pictured: Henrietta Pawlowski, Della Riccio, Louise Bolt, Julia Stack, Julia Boyd, Martha O'Brien, Thelma Conley and Mary Corbett.

Others included:— Dorothy Arnauckas, Eugenie Boyle, Betty Colbassani, Helen Dunn, Ann Oleskey, Josephine Perry, Loretta Donahue, Gertrude Wheeler, Mary Pertko, Phyllis Savino, and Ann Vagt.

"Hire A Vet" Week

In a proclamation issued by Mayor Victor Mambruno, in conjunction with the National Alliance of Businessmen, one week in March was designated as "Hire A Veteran" week. A special 'telephone blitz' was set up in the old Planning Office at Scovill and volunteer retired employees came in to call area businessmen for pledges.

NAB is a private, non-profit corporation formed at the request of the President of the United States. The continuing goal of the JOBS program (Job Opportunities in the Business Sector) is permanent employment for disadvantaged Americans and Vietnam-era veterans, and summer jobs for school-age youths.

A statement received from Governor Meskill reads, in part:—

"There are more than 11,300 Vietnam Era veterans in Connecticut who are out of work. There are also many disadvantaged Connecticut residents seeking jobs so they can break the cycle of poverty.

"I am very pleased that the NAB has heeded the President's plea for a special effort to meet these problems of unemployment.

"In Waterbury from March 6 to 10, the NAB will be conducting an extensive telephone campaign to express its gratitude to these loyal veterans who served their country so well in a difficult and unpopular war and also in an effort to help the disadvantaged.

"The telephone campaign will mean hundreds of businessmen will be called and urged to provide job opportunities for the veterans and for the disadvantaged.

"I join the NAB in asking our Connecticut employers to do their utmost to help combat these problems.

"A special commendation is also due Scovill Manufacturing Company which is providing space and the personnel for the ten-phone operation that will be the heart of the effort. I wish the campaign every success.

Thomas J. Meskill
Governor"

The sincerity of these ladies, and their "good old Scovill training" carried their message over the phone to almost 600 businessmen who pledged to do their bit in finding jobs for our returning veterans.

Thomas Cerasulo, toolkeeper-inspector in Chucking—45 years.

Thomas Chapman, district sales manager, General Product Sales—29 years' service.

Howard Dowd, unit assembler in Attaching Machine—40 years.

Manuel Fiel, productive helper in Casting—29 years.

Paul Kauneckis, tool grinder in Screw Machine Tool—20.9 years.

Christopher Lawlor, tool and machine parts helper in Attaching Machine—31 years.

Marie Mocchiolo, miscellaneous machines and bench operator in the Press Room—15.6 years.

Michael Parker, die polisher-saw sharpener, New Milford Tube Mill—37 years.

Leon Saunders, oiler-beltman in Millwrights—31 years.

Frank Schippiani, plater in Closure Plating—44 years.

Elizabeth Young, track feed knurler in Coupling—35 years.

Effective March 1, 1972

Cameron Klobedanz, cost accountant in General Products Accounting—34 years' service.

Harvey Krantz, foreman in the Repair Room—36 years.

Louis Laudisi, toolsetter-leadman in the Cutting Room—40 years.

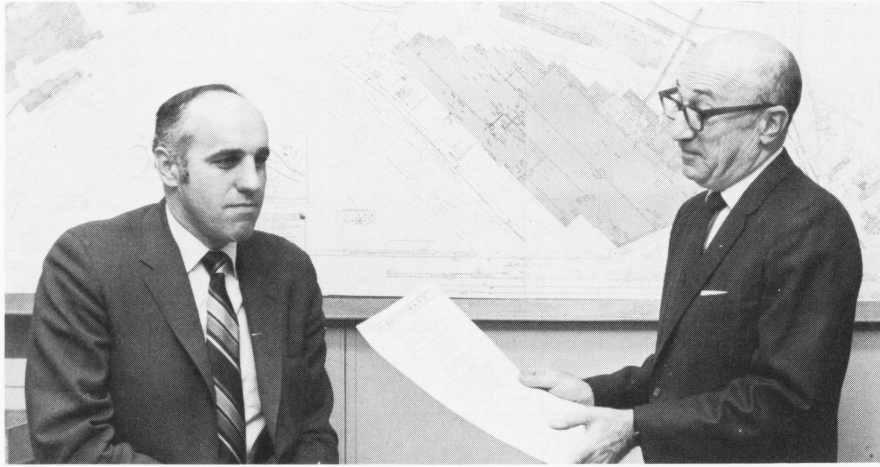

Oswald Meyer, toolsetter in Coupling—42 years.

Romil Roberge, tool assembler in Hot Forge—44 years.

Chester Trojanoski, furnace line-man in Casting—37 years.

Rachel Valenti, power press operator in the Press Room—41 years.

Joseph Vitkus, toolmaker in Screw Machine Tools-Metals—41 years.

RICHARD NARAD NEW SAFETY MANAGER. Assuming his duties as Safety Manager, Mr. Richard M. Narad listens with interest as Safety Engineer Michael Exarhou briefs him on the many and varied Safety and Accident Prevention activities of this department.

New Assignments

Apparel Fasteners Div.

WILLIAM R. MCINTOSH — Plant Manager, Los Angeles Operations

Employee Relations

RICHARD M. NARAD—Safety Manager

General Products Div.

ROBERT HOEBEL—Foreman, Dept. 47, Vernatherm Assembly

MICHAEL P. TREPANIER — Asst. Controller

EVERETT G. WINSTON—Supervisor, Balance Sheet Accounting

Metals Div.

RICHARD DIXON—Branch Manager, Minneapolis, Minn. Office

DAVID FISHER — District Manager, Jackson, Mich.

WILLIAM O'BRIEN — Metals Purchasing Manager

Vacation Trip

The consensus of vacation-minded employees attending the recent travel meeting was to set Greece as the vacation spot for July, 1972.

The group will leave from J.F. Kennedy Airport, New York, on Wednesday, July 5th, on an Olympic Airways B-707 to fly to Athens.

The trip includes a tour of historical Athens area, three full days on the beautiful, unspoiled island of Tinos, and an excursion of surrounding islands. They will return to the SERA on Thursday, July 13th.

The trip is limited to 80 persons—on a first-come, first-served basis.

Plant Engineering

ANTHONY MAZURKIVICH — Manager, Suggestion Systems

Sewing Notions Div. Plant Wins Award

The Spartanburg, South Carolina plant of our Sewing Notions Division received third-place honors for their achievement in landscape efforts for 1971, in the Industrial B category (plants with under 1,000 employees) in an annual county-wide landscape beautification contest.

Altogether, nearly 150 firms, industrial, office-professional and other public building efforts were judged by members of the Men's Garden Club

who visit each participant's premises and rate them on selection and care of lawns, trees, foundation and fence planting, and general appearance.

Plant Manager Robert Michaud points with pride to the fact that, when Mr. Robinson took over these responsibilities of landscape care in March, 1970, the grounds were judged "unsatisfactory". His efforts have brought the ground to a top award within just two seasons.

LANDSCAPE BEAUTIFICATION AWARD TO SPARTANBURG PLANT

Pictured at award ceremonies in Spartanburg Chamber of Commerce's Board Room are:— Julian Foster, Chairman of the Chamber Committee; Hezekiah Robinson, Scovill employee directly responsible for landscape efforts; Robert Michaud, Sewing Notions Division Plant Manager; and Claude Sherrill, president of the Spartanburg Men's Garden Club.

Girls' Club News

By Irene Owens

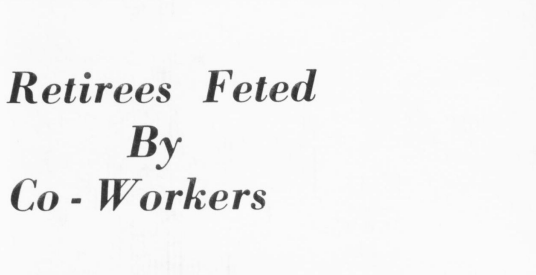

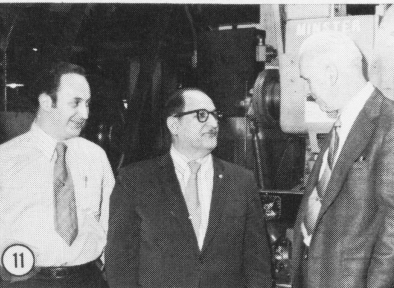

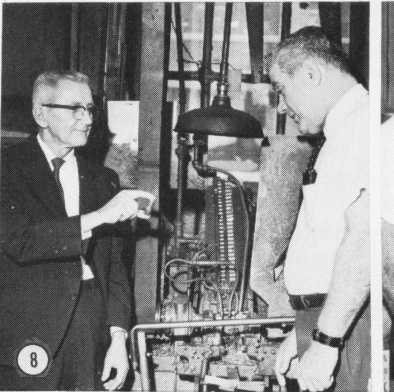

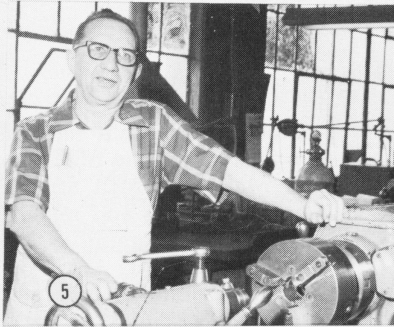

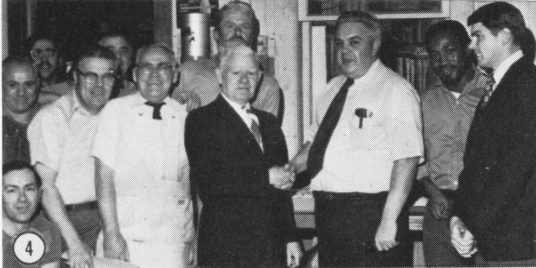

Hello to everyone. The Girls' Club has a few up-and-coming events that are of interest to all.

A trip to New York was scheduled for March 25, and plans are in the works for a trip to Boston.

Watch for flyers going out on the coming election of officers and members of the Council. Everything is explained in the newsletter.

Plans are underway for the annual banquet which is scheduled for May 21st. Flyers will be out as soon as plans are completely formulated.

We ask for your cooperation in this year's annual meeting. Important by-laws changes are being recommended, please study them as you receive them in the mail, and be prepared to act on them. Also, the election of members to the Council—they'll be your representatives—you'll want to be there to help elect the candidates whom you feel will best represent you and your thoughts for activities in the coming year.

 \$31.30—Victor Valantiejus, Repair
 \$30 — Charles Pagano, Hardening; Harvey Pelletier, Pipe Shop; Edward Vanasse, Rolling Mill; Vernon Cyr, Button Attaching Machines

Watertown Plant Award Winner

The Dritz Scissor Display entered by our Sewing Notions Division in Watertown was judged "Best Permanent Department Maker in the Linens & Notions Category" in the 12th annual Merchandising Awards Contest sponsored by the Point-of-Purchase Advertising Inst., New York.

The winning entries cover the gamut of point-of-purchase marketing—as found in 37 industry classifications.

Scovill Group - A.A.

Meetings are held each Sunday at 6:30 p.m. at the SERA, corner East Main and Mill Streets.

All employees and members of their immediate families who are now members of A.A., or who have a drinking problem, are invited to attend.

More than 1,500 entries competed for the POPAI Indian statuette known as OMA (for Outstanding Merchandising Achievement) which has become the symbol of excellence in point-of-purchase marketing.

Watertown Plant In Blood Drive

Forty-two community walk-ins joined with employees of our Apparel Fasteners Division in the February visit of the Blood Mobile Unit to the plant in Watertown, Conn.

A total 108 pints were collected out of the 121 volunteer donors, with special gallon pins awarded:—

10 gal., Henry Sorenson
 4 gal., Mrs. William Merriman
 2 gal., George Schermerhorn, Robert Spiess, George Boivin
 1 gal., Mrs. George Green

Dominion Hair Dryers - The NOW Line

The Console Model

The new style-setting Dominion hair dryers feature jumbo hoods to fit over jumbo rollers, adjustable hood height and high-speed safety-fused motors. Lightweight, they fold into Cyclocac cases in contemporary color combinations.

The Mist-setter Model uses regular tap water to provide soft, gentle mist for dry sets, faster sets, conditions hair; safe for wigs, too. The indicator light on the control panel remains on throughout 9 to 10 minute mist cycle.

The Miniswinger

A small but powerful dryer, the Miniswinger weighs just 14 ounces and is shaped to fit the hand with ease. Plug it in and a flick of the switch will provide instant heat and extra-flow air for quick drying. It has an automatic safety control. Ideal for trips, it comes in a carrying case of textured vinyl in 2-tone NOW colors and with a handy swinger handle for total portability. It is equally ideal for men—especially the new longer hair styles.

DOMINION'S NEW 1972 HAIR DRYERS. Lise Marquis holds one of the newest models — the Miniswinger. Also shown is the Mist Setter Model that provides the soft, gentle mist for fast setting and hair conditioning.
