Rolling Mill's New Sendzimir Mill

Equipped with the most sophisticated gauge system that has been installed to date in the brass industry,

Impressive to look at is this portion of the new Sendzimir Mill in our Metals Division but, actually, a greater portion of it is located below the floor while the huge General Electric motors which run it are located in a room behind the wall. It is also interesting to note that the power required to drive this installation totals 2450 horsepower!

The new mill, in operation in the Rolling Mill, has the capacity to roll the alloys which we produce from .125" thickness to .006" thickness in widths up to 31 inches. The number and frequency of the times that the metal goes through the mill is dependent upon the final metallurgical properties required by our customers.

On each side of the mill are installed two non-contact radioactive isotope gauges and a contact gauge referred to as the "flying micrometer". All of these gauges are coordinated with a computer which measures the material entering the mill extremely accurately and, again, as it leaves the mill. The computer integrates the results of the gauges and automatically positions the corrective pressures for rolling to establish a finished gauge on the material to extremely close tolerances. Our customers are demanding closer and closer tolerances and, with this control system, it is felt that their requests can be adequately met.

this mill has the capacity to roll alloys from .125" to .006" thickness in widths up to 31 inches.

The mill can be run at speeds up to 1500 feet per minute, depending upon the entering gauge and percent reduction required per pass. To cool the metal as rolled, and the mill rolls, requires 850 gallons of oil per minute in a recirculating system which filters the oil and cools it. The oil as filtered remains as clean as the new oil which is used to charge the system originally.

The mill was designed and built by the Waterbury Farrel Division of Textron, Inc.; the electrical equipment was designed and furnished by the General Electric Company; the filtration and coolant system is the product of the Hydromation Engineering Co.

This facility has the capacity to produce metal as rolled by a large percentage factor, thus increasing the sales potential for the Rolling Mill by a substantial margin.

Scovill Acquires New Product Lines

Westinghouse Electric Housewares Products

Scovill is acquiring the portable electric houseware lines of Westinghouse to complement and expand the lines of our housewares group, headed by Hamilton Beach and Dominion. This line, which does not include Westinghouse's portable home electronic products, has been made at their Byesville, Ohio plant.

Silhouette Patterns

Also acquired by Scovill, recently, is the Silhouette Pattern Co., Inc. of New York City, producer of basic dress and pants patterns made to each customer's requirements through a patented computerized process.

"This custom-sized pattern concept fills a need in the home sewing market," said Joseph S. Stevens, vice president and general manager of the Sewing Notions Division. "It solves the most difficult aspect of home dressmaking, fitting the pattern to the individual figure."

He added that the acquisition also fits in well with the division's lines of sewing aids and notions, which are distributed through 70,000 independent retail outlets under such brand names as Dritz, Clinton, Staylastic and Hero.

1972 Vacations

The Waterbury Divisions and Services will close for vacations starting Monday, July 3rd and will reopen with the start of the first shift on Monday, July 17, 1972.

Exceptions to the above will be by notification in departments or to individual employees.

MEMO *from Management:*

Times Are Changing

"The Velocity of Change" is the name of a booklet issued by an investment counseling firm to highlight the dramatic and rapid changes taking place in our economy and the way we live.

The way they put it, the last 50,000 years of man's existence could be measured in approximately 800 life-spans.

Of these 800 life-spans, about 650 would have been spent in caves or something worse.

Only in the last 70 have people had an effective means of communicating with each other.

Only in the last six could people measure hot and cold.

Only in the last four were people able to measure time with any precision.

Almost everything that makes up our material world was invented during the 800th life-span—the last 60 or so years.

And this is the clincher—more technological progress will be made in the first half of the 801st life-span—the one yet ahead—than during the entire previous 800.

What does all this mean to a company like Scovill? It means tremendous opportunities—for new products, for new markets, for new ways to be of service to present and prospective customers.

To take full advantage of these opportunities, our thinking and our attitudes must be in tune with the rapid changes taking place all around us. Our progress over the past few years indicates that we have the right kind of thinking—that Scovill people are fully capable of responding to the tremendous challenge before us. It's an exciting prospect.

Woodtick Open For Season

Woodtick recreation areas were opened officially for the 27th season with the Memorial Day Weekend. Much work has been done to prepare the area and its facilities for employees and their families this summer.

The group picnic area is available for group or department picnics, with many outings already planned. If you're planning to have an outing

there better get your reservation in the Employee Activities Office soon.

Identification cards will be required for admission to the area so, please, be sure to have yours with you when attending the area.

These cards have been distributed to employees. Associate cards for family members may be received at the Employee Activities Office.

Credit Unions

Scovill Employee Credit Unions #1, 2, 3, and 4 will not operate during the vacation shutdown period.

Loan applications must be in by noon on Wednesday, June 28; deposits and withdrawals should be planned by noon on Friday, June 30th.

Credit Union #1

Credit Union #1 is operating in its new quarters in the Employee Relations Building. They're open for business daily from 10:30 a.m. right through to 4:00 p.m.

Employees having business at this credit union are asked to use the Back Pay Station entrance to the office.

Credit Union #2

Due to our publication deadline dates, the results of Credit Union #2's election were not received in time for our last issue. They are:—

Dividend declared—5%

President—Frank Miller

Vice President—Vincent Iacovino

Secy-Treas.—James Ryan

Board of Directors—the officers, Carl Longo, Patrick Fitzpatrick, James Smith, Peter Moneta

Credit Committee—Carl Longo, Vincent Iacovino, John Synnott

Supervisory Committee—James Smith, Matthew Kobylinski, Bob Shove

Credit Union #4

Credit Union #4, authorized agent for Connecticut Student loans for students whose parents are members of this credit union, announces that deadline for applications for the fall term is September 1st.

Information and application kits are available by calling Ext. 2419.

Retired Folks' Picnic

All retired employees of the Waterbury and Watertown divisions are invited to attend the annual picnic scheduled to be held at Woodtick on Wednesday, June 21st.

Members are asked to meet in the SERA Building, East Main and Mill Streets, at 1:30 p.m. Those who may be driving and are closer to Woodtick will go directly to the group picnic area. Others who will be coming thru town are asked to stop at the SERA to take others along. All will be provided with transportation.

Husbands and wives of retired members are invited to attend.

In case of inclement weather, a program will be held at the SERA.

New Assignments

Apparel Fasteners Div.

Jack Obre—Control Systems Analyst
Herbert Hirshan—General Merchandising Manager
Joan L. Sanford—Women's Wear Merchandiser
William E. Gamble—Product/Marketing Manager, Non-Apparel
James A. Givan, Jr.—Product/Marketing Manager, Zipper
Henry W. Kunhardt—Product/Marketing Manager, Snap Fasteners
John P. McDonnell—Product Manager, Machines
Charles LaFrano—Regional Sales Manager, Far West Region
Stanley C. Sleeper—Regional Sales Manager, Mid-West Region

Aerosol & Cosmetic

Phil Puddington—General Manager, with headquarters in Manchester, New Hampshire

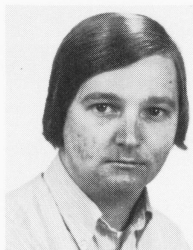

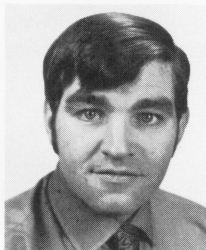

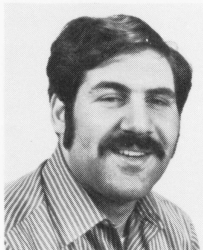

Finance Dept.

Albert Miller—Manager of Data Centers and Information Controls

Metals Division

Peter Coe—Branch Manager, Greensboro, North Carolina
William F. Derwin—Assistant Controller
Joseph A. Foster—Supervisor of Cost Accounting
Stanley F. Nicklas—Credit Manager
Richard M. Rowell—In charge of Forging and Screw Cost Accounting

Training Course Graduates

Electrician. Joseph Capaldo was graduated as an electrician as of May 15, 1972, and has been assigned to Dept. 311, Electrical Maintenance.

Electrician. David Grady was graduated as an electrician as of April 24, 1972 and has been assigned to Dept. 311 Electrical Maintenance.

Toolmaker. Robert Russ was graduated as a toolmaker as of May 8,

1972. He has been assigned to Closure Tool Room.

Toolmaker. George Velezis was graduated as a toolmaker as of April 17, 1972. He has been assigned to the Gripper Eyelet Tool Room.

Toolsetter. Sylvester Woodhouse was graduated as a toolsetter as of March 27, 1972, and has been assigned to Dept. 81 on the Kingsbury machines.

Service Anniversaries

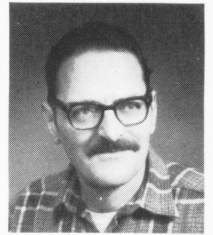

Ten Years

4/9 **Gustav Hoffman**, Metals Div.—Englewood Cliffs, N.J.

Looking Forward To Retirement

A new series of "Looking Forward to Retirement" programs will be started in early September.

Especially prepared for employees 55 years of age and over, the program provides authentic and dependable information needed to confidently plan and prepare for the leisure years.

Further information may be obtained from your foreman, steward or Mr. Paul Truncali, Employment Office.

Full details will appear in the August BULLETIN.

NO AIR POLLUTION HERE. Casting Shop Asst. Supt. Andrew Raeburn and Divisional Steward William Baker watch with interest as Safety Engineer Michael Exarhou tests a jitney for carbon monoxide emissions. This is but one of the tests conducted periodically to protect employees' health by maintaining carbon monoxide concentrations below maximum allowable limits.

Your Social Security

\$38,000 are lost each month by disabled people because they do not file applications, according to an estimate given by Ernest D. Bauer, district manager of the Waterbury social security office.

"Although a worker may have partially or fully recovered from an illness, or have returned to work, some disability benefits might still be payable," said Mr. Bauer. "These benefits may be payable retroactively if he files an application within fourteen months after his impairment is no longer disabling."

A person is disabled if he has a physical or mental condition which prevents him from doing any substantial gainful work and it is expected to last (or has lasted) for at least twelve months or is expected to result in death. If a worker feels he meets this definition, he should file for social security benefits right away so as to protect himself and his family from losing money.

Mr. Bauer urges the disabled worker to contact the social security office to file his claim. It may not be necessary to come to the office. Simply call 756-7475 and a member of the staff will assist you in answering any questions you have. Applications can be taken over the phone also. The best time to call is between 2:00 and 4:00 p.m. Tuesday through Friday, during the last three weeks of the month.

Rod & Gun Club

Annual Ham Shoot

Of the sixteen prize hams awarded to winners in the annual ham shoot, seven went to teen-agers: Vincent Petruzzi with a score of 51; Bob Smith, 80; Anthony Zaccagnino, 3 prizes with scores of 49, 68, 55; Tom Smith, 49; and Simon Walaitis, 46.

Other winners included: Florence Guay, 50; Joe Ferrone, 54; Ray Mazzaferro, (2) 57, 56; Francis Gaffney, (2) 57, 59; Lyle Lawrence, 98; Al Ambrose, 68; Conrad Sansoucie, 53.

Kids' Fishing Contest

42 children registered with 88 fish of various species checked in. Longest fish, 16½" pickerel was caught by a young lady: Carolyn Vance; Richard Berdan brought in the greatest number—13. Prizes awarded were:—

Age group 3 thru 6:— Longest fish—Carol Jurzyk; 2nd longest, Mike Stabile; most fish, Norman Johnson

Age Group 7 thru 11:— Longest fish, Joe Aureli; 2nd longest, Dan Volles; most fish, Louie Iaiennaro

Age Group 12 thru 15:— Longest fish, Carolyn Vance; 2nd longest, Mike Boxco, most fish, Richard Berdan

Retirements

Gerald Dandonoli, Hot Forge, was retired as of March 20, 1972—28 years' service.

Marie Brooks, Press Room, was retired as of March 27, 1972—25.2 years.

Joseph Favale, Wire Mill, was retired as of March 27, 1972—37 years.

Effective April 1, 1972

Salvatore Cocchiola, Security Dept.—35 years' service.

Catherine Heary, B/S & Davenport—44 years.

Edmond McMullen, Gripper Eyelet—47 years.

Charles Pescetelli, New Milford Tube Mill—31 years.

Effective May 1, 1972

Joseph Carr, New Milford—13.2 years.

George Daginella, Millwrights—Metals Div.—36 years.

Giacomo Mancini, General Maintenance Service—29.6 years.

Minnie Marti, Screw Machine Production—Metals Div.—17 years.

Joseph McGrath, Casting Shop—15.3 years' service.

Earl Murgatroy, Rolling Mill—32 years' service.

Howard Nalley, Rolling Mill—19.6 years.

Fred Ricciardi, General Stores—38 years.

Joseph Silva, Casting—31 years.

LONG-SERVICE EMPLOYEES RETIRE

Left:— George Daginella, Metals Div. Millwrights Dept.—36 years.
Center:— Catherine Heary, B & S and Davenport Dept.—44 years.
Right:— Edmond McMullen, Gripper Eyelet—47 years.

June - Month Of Brides

Just made for bridal gifts are the new lines of our Dominion Electric subsidiary and Hamilton Beach division of Scovill.

Ten new products introduced by Dominion this year reflect its by-words, quality, service and value—all results of their ardent research and development.

Hamilton Beach's new "Hot Line" for 1972 is backed with the quality for which the Hamilton Beach name is known and matched by the best values in electrical appliances to hit the marketplace.

Hamilton Beach's Blend 'N Serve Blenders

Top:— 14-speed push-button control through high/low range selector switch, a 44-oz shatterproof container.

Below left:— Double bonus of both a 48-oz and a 16-oz Blend 'N Serve container; 14 speed push-button control; 44-oz shatterproof container.

Below right:— 14-speed high/low dual range control, 40-oz glass container; plus an extra 48-oz Blend 'N Serve container.

The three models have a convenient cord storage well and super 720 watt solid state motor.

Hamilton Beach's Stand Mixers

Above: Heavy duty model offers 10-speed mix-guide fingertip control, chrome plated steel beaters, one and three-quart stainless steel bowls that will last forever and never tarnish, plus portable mixer when removed from stand.

Below: A real sizzler with its new bowl shift lever for maximum coverage of large or small bowl mixing. Included are 15-watt motor, 10-speed control, portable when removed from the stand, push-button beater ejector, one and three-quart heat resistant bowls.

Scovill Products A Natural For Scovill Bride

It was a May 6th wedding for Tina Mitchell, of our Wire Mill Office, when she became the bride of Paul Boccialetti. They beam their approval of two Hamilton Beach products which make mighty fine wedding gifts.

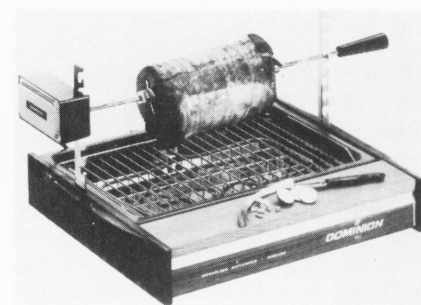

Hamilton Beach's New Casserole Skillet

A cooking delight for every home, features of this new model include an automatic heat control up to 425 degrees with probe that detaches so the pan can be immersed for easy cleaning; a Duralon-Formula III coating to prevent sticking while cooking and scour cleaning; an 11" square cast aluminum base with vented dome cover; a 3-1/2 quart capacity, 1100 watts and a handle that carries a cooking guide.

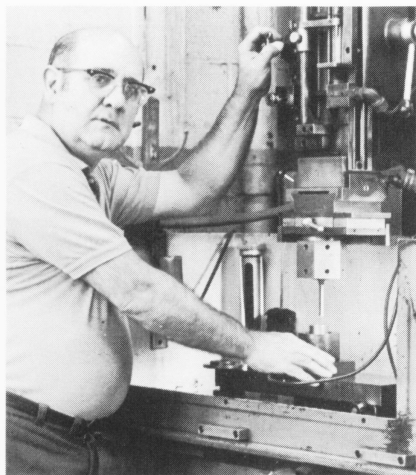

Dominion's Table Top Range

Dominion adds a new dimension to convenience cooking with the addition of three new single burner introductions that will plug into any standard electrical outlet. All models feature a 650-watt protected range-type heating element and a permanently attached 6' electric cord that can't get lost. A sparkling chrome top gives each range luxurious buffet styling with the bonus of easy cleaning and the baked-on enamel-finished base is chip and stain resistant.

Dominion's Smokeless Rotisserie

The Rotisserie/Broiler offers the very finest in outdoor flavor with indoor cooking convenience. It features a chip and stain resistant porcelainized pan beneath a 10/20" adjustable height cooking grid; 6-position attachment has a 120-watt motor; and exclusive "Magic Mirror" that reflects heat yet doesn't allow meat juices to drip on the element so cooking is fast, smokeless and spatterless. The cutting board hides a built-in storage well.

\$385 to Michael Cicchetti of Hot Forge Tool Room

His suggested change of method in reworking lead angle to much closer tolerances has considerably reduced time required to hand-finish wire forming dies.

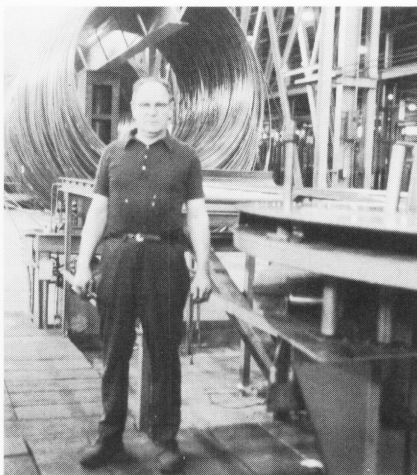

Woodtick Fishing

To insure continued enjoyment in fishing and to provide better facilities and comforts for employees, their families and guests who fish at Woodtick Reservoir, the Rod & Gun Club asks your cooperation in observing all rules and regulations and to exercise good sportsmanship at all times.

Fishing Regulations

1. A fishing permit may be obtained by an employee, or member of his immediate family, by filling out the proper form and presenting it to the caretaker at Woodtick. The cost is 50¢ per day or \$3.00 per season.
 2. Wolcott residents may obtain a permit for \$1.00 per day or \$7.00 per year for summer fishing, but cannot bring guests.
 3. Boat rentals—on a first-come, first-served basis, at 50¢ per day per person; not over three persons per boat, one of which must be over 21 years of age. During fishing contests, boats will be held for contestants until 9:00 a.m. only.
 4. Employees' guests are limited to two per day.
 5. Daily creel limits and minimum lengths will be according to Conn. State Board of Fisheries and Game Regulations, unless otherwise posted.
 6. Children under 16 do not need a permit to fish, but must be accompanied by a licensed adult at all times.
- Permits, boat rentals and live bait are available from Les Hart, at the house.

OBHEY ALL SIGNS—Have a happy, safe summer and keep that line taut!

\$253 to Charles Majuszewski, New Milford Tube Mill

By designing an adjustable speed mechanism for cutting different types of tubing, his suggestion eliminates downtime.

Suggestion Awards

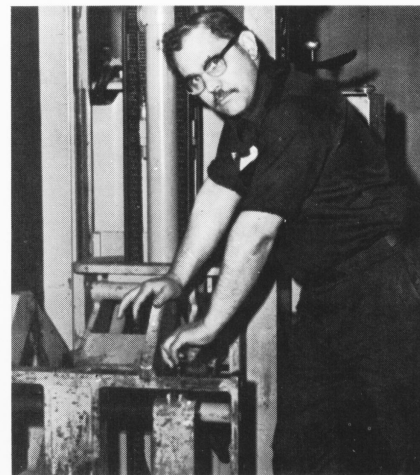

- \$698—Renaud LaChance, General Products Tool Room
- \$318—Stephen Ponzillo, East Mach.
- \$121—Paul Murray, Blanking
- \$120—Kermit Bouley, General Products Tool Room
- \$120—Frank Carusello, Chucking
- \$120—John Egan, Tube Mill
- \$72—Bennett Sauer, Blank & Draw Tool Room
- \$60—Hamet Myftari, Rolling Mill
- \$60—Helen Hopkins, New Milford
- \$60—Teseo Trocchi, Casting
- \$60 each—Isabel Kollymer and Helen Hopkins, New Milford (joint award)
- \$50—Vincent Jacovino, Coupling
- \$36—Harold Barnes, Closure Maintenance Tool Room
- \$30—Leon Nickles, Gen. Maint.
- \$20—Martha Smith, Purchasing

Pre-Vacation Blood Donor Day

This year's pre-vacation blood donor day is set for Tuesday, June 27th at the air-conditioned SERA Building from 11:00 a.m. to 4:30 p.m.

While employees from the General Products Division are scheduled for this second visitation of the Blood Mobile Unit to the plant, it is hoped all those eligible will participate.

When making up your check list of things to be done before leaving on your vacation trip—won't you please add to it a stop at the SERA on the 27th to donate a pint of blood?

\$250 to John Malario, Kingsbury Dept.

His suggested addition to the Raymond Reach Fork Truck enables the use of this fork truck to operate under otherwise restricted conditions, thus reducing down time and increasing production.

SERA Day Camp

The 25th season of the SERA Day Camp for children and grandchildren of Scovill employees will start on Monday, July 3rd, and will continue thru Friday, September 1st.

Children eligible are girls between the ages of 6 thru 10, and boys, ages 6 thru 11. They may be signed up for as many weeks as parents wish.

Qualified counselors will meet the children at the SERA Building, East Main and Mill Streets, and, at approximately 8:00 a.m., will take them by bus directly to camp at Woodtick. They will leave the area at 4:30 p.m., arriving at the SERA about 4:50 p.m., with parents arranging to have the children picked up at 5:00 p.m.

The camping area, with its trails, shady areas for work and play, swimming area and play field, presents an ideal situation for successfully carrying out the camp program.

Quiet games are a prominent part of the activity during the severe heat. Every precaution is taken during the two swimming periods, with the counselors and lifeguards present at all times.

Applications and brochures are available at the Employee Activities Office, Ext. 834.

In order to make arrangements for proper personnel and sufficient supplies and equipment, all interested in sending their children to the Day Camp are asked to check the Employee Activities Office as soon as possible.

Obituaries

Louis Cipriano died March 22, 1972. Retired in September, 1970—37 years' service.

Charles Pulford died March 26, 1972. Retired in May, 1958—42 years.

Frank Cano died March 27, 1972. Retired in March, 1969—30 years.

William Schuster died April 2, 1972. Retired in November, 1959—30 years' service.

Michael Carpinella died April 2, 1972. Retired in October, 1963—24 years' service.

Giuseppe Dell'Arciprete died April 5, 1972. Retired in July, 1956—20 years.

Michael Barolyak died April 7, 1972. Retired in August, 1955—30 years.

Charles Hoffheins died April 10, 1972. Retired in January, 1968—38 years' service.

Ellis Petty died April 10, 1972. Retired in February, 1956—20 years.

Paul Donahue died April 18, 1972. Retired in September, 1968—48 years.

Robert Lamontagne died April 27, 1972. Retired in April, 1963—38 years' service.

Anthony DiMaria died April 28, 1972. Retired in November, 1971—30 years' service.

Anthony Denorfia died April 28, 1972. Retired in April, 1953—31 years.

Stanley Koachman, guard in the Security Dept., died May 5, 1972—38 years' service.

William Corbett died May 5, 1972. Retired in April, 1968—39 years.

Agnes Saledonis died May 5, 1972. Retired in July, 1965—13 years.

Jennie Iadorola died May 6, 1972. Retired in November, 1964—27 years.

Bernard Peterson died May 7, 1972. Retired in July, 1957—34 years.

Cyril Allen died May 11, 1972. Retired in January, 1970—25 years.

William Behlman died May 13, 1972. A toolmaker in Mfg. Eyelet Dept.—17 years' service.

Stanley Bell died May 13, 1972. A floorman in Transmission Assembly—5 years.

Nazzareno Nanni died May 15, 1972. Retired in November, 1960—25 years.

Girls' Club Council — 1972-1973

Pictured at the annual banquet held at the SERA on Sunday, May 21st; Evelyn Smoil, Mary Byrnes, Betty Betancourt, Iva Carolan, Secretary Agnes Sathory, Ann Mancini, Cecile Terry, Jessie Ciarleglio, Ann Augelli, Irene Owens, Vice President Patricia Woods, Margaret Murray, Genevieve Phelan, Treasurer Juanita Addressio and Elaine Daniele. President Mae Buckley was unable to attend the affair.

Girls' Club News

By Irene Owens

Well, another successful year for the Scovill Girls Club has come and gone. Our sincere thanks to the ladies who worked so diligently during the past term—we're truly sorry you felt you could not continue to serve on the Council but we know you'll be in there pitching for us always.

The new Council, and officers

elected by them, in April are:—

President—*Mae Buckley*, Wage & Salary Administration

Vice President—*Patricia Woods*, Contract Mfg. Production

Secretary—*Agnes Sathory*, Corp. Employee Relations

Treasurer—*Juanita Addressio*, Treasurer's Dept.

Council Members:— *Ann Augelli*, Hamilton Beach; *Betty Betancourt*, Transmission Assembly; *Mary Byrnes*, Screw Machine Packing; *Edie Carolan*, Metals Quality Control; *Jessie Ciarleglio*, Mfg. Room Clerks; *Elaine Daniele*, Apparel Fasteners Inspectors; *Ann Mancini*, Mfg. Room Clerks; *Margaret Murray*, Apparel Fasteners General Manager's Office; *Irene Owens*, Metals Sales Office; *Genevieve Phelan*, Hospital; *Evelyn Smoil*, Apparel Fasteners Inspectors; *Cecile Terry*, Waretown Plant Hospital.

Committee heads: Membership—*Evelyn Smoil*; Cards—*Mary Byrnes*; Reporter, *Irene Owens*; Needy Families—*Betty Betancourt*, *Irene Owens*; Entertainment—*Margaret Murray*, *Elaine Danielle*, *Jessie Ciarleglio*, *Ann Augelli*.

Our congratulations and best wishes for a successful year to the new Council. May you have the continued cooperation of all members in all your activities and the continued support of all employees in the Christmas program for the less fortunate and needy children.

Scovill Group - A.A.

Sunday at 6:30 p.m.
SERA Building

This group will continue to meet during the vacation shut-down period.

You Are Welcome

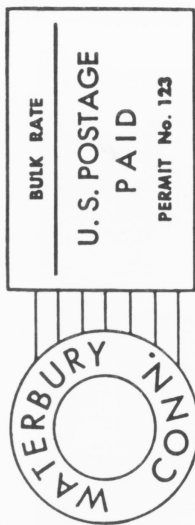

Derek Peters died May 16, 1972. Retired in August, 1960—24 years.

Constantine Jakubauskas died May 18, 1972. Retired in September, 1958—33 years.

Martin Lawlor died May 18, 1972. Retired in July, 1964—46 years.

Daniel Quagliaro died May 18, 1972. Retired in January, 1970—32 years.

Bertha Needham died May 19, 1972. Retired in June, 1955—31 years.
